SENTEX SENSING TECHNOLOGY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(1) In the opinion of management, the unaudited financial statements contain all adjustments (consisting of only normal recurring accruals and repayments) necessary to present fairly the financial position at August 31, 2005 and the results of operations and cash flows for the three months and the nine months ended August 31, 2004 and August 31, 2005.

These interim statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-KSB for the fiscal year ended November 30, 2004 (Commission File No. 2-13328).

(2) The results of operations for the nine months ended August 31, 2004 and August 31, 2005 are not necessarily indicative of the results to be expected for the full year.

(3) PROFIT(LOSS) PER SHARE

Profit(loss) per share is calculated using the weighted average number of common shares outstanding. Potentially dilutive securities are insignificant.

(4) PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Sentex Sensing Technology, Inc. and its wholly-owned subsidiaries (the Company). All material inter-company accounts and transactions have been eliminated in consolidation.

(5) LEGAL PROCEEDINGS

State of Ohio, Department of Administrative Services v. IQ Solutions, LLC, et al.; Case No. 03-CVH05-6054; Franklin County Common Pleas Court, Ohio.

During October 2004, the Company was dismissed without prejudice from the above-caption and previously disclosed matter.

Table of Contents

SENTEX SENSING TECHNOLOGY, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

On July 2, 2001, the Company purchased Regency Technologies, LLC from Regency Steel, LLC and other members. Regency Technologies specializes in the buying, selling, and trading of information technology equipment (primarily computer equipment). The primary focus of our business revolves around acquiring unneeded, older computer equipment and reselling that equipment to certain consumers on a global basis.

FINANCIAL CONDITION

Working Capital and Liquidity

During the last several fiscal years, the Company has incurred losses from operations. In addition, the Company's certified public accountants have included in their auditors' report, which covers the Company's financial statements for the years ended November 30, 2003 and November 30, 2004, a statement that the Company's recurring losses from operations raised substantial doubt about the Company's ability to continue as a going concern. For fiscal years 2003 and 2004, the Company sustained losses of approximately \$531,000 and \$781,000, respectively. These losses have had a substantial adverse effect on the working capital of the Company.

In June of 2004, the Company restructured its \$2,500,000 in bank financing. This financing has subsequently been taken over by CPS, which now holds much of the working capital debt that has been used in the business during 2004. As of August 31, 2005, there was an outstanding balance of \$6,372,000 on the loans from CPS. We believe these loans have been secured under terms no less favorable than we could have obtained pursuant to an arms-length transaction.

In addition to the CPS loans, from time to time, Mr. Julius L. Hess, the Company's former Vice President, Secretary and a Director, has provided the Company with cash investments to help fund certain specified transactions. From December 1, 2004 through August 31, 2005, Mr. Hess has invested a total of \$638,735 to fund such transactions. In agreement for providing such funds, which amounts may not otherwise have been available to the Company, Mr. Hess typically receives remuneration in the amount of up to fifty percent of the gross profit from such transactions. Upon settlement of the transactions during the period from December 1, 2004 through August 31, 2005, Mr. Hess will have received total proceeds of \$792,736. We believe these investments have been secured under terms no less favorable than we could have obtained pursuant to an arms-length transaction. As of August 31, 2005, there was an outstanding balance of \$271,418 on these loans.

In addition to the above-noted investments, Mr. Hess has, from time to time, provided loans to the Company to cover certain working capital expenses such as payroll. Mr. Hess does not receive any remuneration for these loans, other than the return of principal. These loans are typically paid back within a short period of time. From December 1, 2004 through August 31, 2005, Mr. Hess provided \$229,000 in loans of this kind to the Company. As of August 31, 2005 there was an outstanding balance of \$62,000 on these loans.

Table of Contents

SENTEX SENSING TECHNOLOGY, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (continued)

Net Tax Operating Loss Carryforwards

As of August 31, 2005 the Company has approximately \$16,249,000 in net tax operating loss carryforwards which will expire at various dates through the year 2024 that are mainly attributable to losses incurred by Monitek. Federal tax law imposes restrictions on the use of net operating loss carryforwards in the event of a change in ownership, such as a merger. Due to the merger with Monitek, approximately \$6,265,000 of the \$16,249,000 net operating losses may be subject to these limitations and potentially may not be able to provide any economic benefit to the Company.

RESULTS OF OPERATIONS

Nine Months ended August 31, 2004 compared to Nine Months Ended August 31, 2005.

Sales decreased by \$399,000 or 14.9%. Gross profit went from \$596,000 (or 22.2% on sales) in 2004 to \$1,008,000 (or 44.2% on sales) in 2005. The sales shortfall was due to an overall softness in the asset recovery and broker/dealer market, however, this was more than offset by improved margins in both categories.

Operating expenses of \$1,229,000 (53.9% on sales) were in line with sales.

Interest expense was significantly higher for 2005 primarily due to the increases in the prime rate.

Losses for the nine months amounted to \$467,000.

CURRENT OUTLOOK

The unanticipated slowdown we experienced in our third quarter had a negative impact on our third quarter results compared to the same period last year. While we have seen a recent increase in business activity in the beginning of the fourth quarter, we do not expect to show a profit for fiscal 2005. The Regency business is not expected to be become profitable unless it receives required capital.

Despite significant efforts by our financial advisors and the management of Regency, we have not been able to complete a transaction with outside investors, whether strategic or financial, to invest in the growth opportunity we believe is necessary for the success of Regency Asset Recovery Business. The company's efforts only resulted in four investors that expressed a significant interest, but ultimately each of them passed on the opportunity. Our financial advisor had contacted over 137 small transaction investors.

This has caused us to change our focus on this business unit, and currently we are in discussions with James Levine, the Executive Vice President of Regency, Julius Hess, a former director and executive officer of the Company and a current officer of Regency, and Jeff Cohen, an unaffiliated individual.

Under the current discussions, Mr. Hess, Mr. Levine and Mr. Cohen, would capitalize JJJ-RT, LLC (JJJ-RT), which in turn would invest up to \$500,000 in Regency on an as needed basis. Mr. Hess, Mr. Levine and Mr. Cohen would primarily control when any such investments were made and will control JJJ-RT. As JJJ-RT invested capital into Regency it would be entitled to purchase from Regency 10% of the equity interest from Regency for every \$100,000 invested until it owned 50% of the interests of Regency. Contribution in amount less than \$100,000 would be prorated. These investments would dilute the Company's interests in Regency.

Table of Contents

SENTEX SENSING TECHNOLOGY, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (continued)

JJJ-RT would not be entitled to purchase any further equity interests beyond a 50% interest until the later of (a) the date the Company had another operating business or (b) an agreed-upon specified date (the "Event Date"). If more than \$500,000 of capital were required to be invested in Regency prior to Event Date, then JJJ-RT would have the option to invest up to \$300,000 in additional funds as a loan that would bear interest at a rate of 12% and would be secured by substantially all of the assets of Regency. After the Event Date, JJJ-RT would have the option to convert the outstanding principal amount of any such loans into equity interests of Regency and to directly invest any such uninvested balance of \$300,000 directly into Regency as equity. The rate of conversion and equity interest that could be purchased with respect to the \$300,000 would be the same rate JJJ-RT could purchase the equity with the \$500,000, but JJJ-RT would not have the right to purchase more than 80% of the equity interests from Regency for its aggregate investment of \$800,000 without further agreement from the Company. JJJ-RT may have the right to loan more funds to Regency. This proposed transaction is subject to negotiating definitive documents and the receipt of a fairness opinion. None of the Company, JJJ-RT, Mr. Hess, Mr. Levine and Mr. Cohen are legally obligated to complete this proposed transaction and there can be no assurance that it will be completed or that a transaction will be completed on these terms.

The Company will not receive any of the invested cash from JJJ-RT as a payment for its existing equity interest in Regency, and will be diluted with each sale of equity interests to JJJ-RT. The Company believes, however, that this transaction provides it the best opportunity to realize a potential return on its existing investment in light of its existing options.

Currently, we are looking for other businesses that may wish to become part of a public company, and we are focusing on leasing businesses where Mr. Kendall has had significant experience and success.

There can be no assurance that any of these transactions will be completed.

CHANGES IN ACCOUNTING STANDARDS

New Accounting Standards In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123, "Share Based Payment", SFAS No. 123R, which amends SFAS No. 123, "Accounting For Stock Based Compensation", and SFAS No. 95, "Statement of Cash Flows". SFAS 123R requires all companies to measure compensation cost for all share-based payments at fair value, and will be effective for public companies for interim and annual periods beginning after June 15, 2005. This new standard may be adopted in one of two ways—the modified prospective transition method or the modified retrospective transition method. The Company currently has no stock-based compensation plans.

In December 2003, the FASB issued Interpretation No. 46 (revised December 2003) ("FIN 46R"), "Consolidation of Variable Interest Entities", an interpretation of Accounting Research Bulletin No. 51. FIN 46R requires certain variable interest entities, or VIEs, to be consolidated by the primary beneficiary of the entity if the equity investors in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN 46R is effective for all VIEs created or acquired after January 31, 2003. For VIEs created or acquired prior to February 1, 2003, the provisions of FIN 46 must be applied for the first interim or annual period beginning after March 15, 2004. The Company currently has no contractual relationship or other business relationship with a variable interest entity.

The adoption of the new standards did not, or is not expected to, materially affect the Company's financial position and results of operations.

CAUTIONARY STATEMENT FOR PURPOSES OF THE "SAFE HARBOUR" OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995.

Certain statements in the Management's Discussion and Analysis of Financial Condition and Results of Operations and the Financial Statements included in this Annual Report on Form 10-KSB, in the Company's press releases and in oral statements made by or with the approval of an authorized executive officer of the Company constitute

forward-looking statements—as that term is defined under the Private Securities Litigation Reform Act of 1995. These

may include statements projecting, forecasting or estimating Company performance and industry trends. The achievement of the projections, forecasts or estimates is subject to certain risks and uncertainties. Actual results and events may differ materially from those projected, forecasted or estimated. The applicable risks and uncertainties include general economic and industry conditions that affect all business, as well as matters that are specific to the Company and the markets it serves.

Specific risks to the Company include an inability of the Company to finance its working capital needs. In light of this and other uncertainties, the inclusion of a forward-looking statement herein should not be regarded as a representation by the Company that the Company's plans and objectives will be achieved.

CONTROLS AND PROCEDURES

The Company's Chief Executive Officer and Principal Accounting Officer, after evaluating the effectiveness of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(e) as of the end of the period covered by this report, have concluded that the Company's disclosure controls and procedures were effective. There were no changes in the Company's internal controls over financial reporting that occurred during the Company's last fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.
