This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are statements that do not relate strictly to historical or current facts. You can identify forward-looking statements by the fact they use words such as should, anticipate, estimate, approximate, expect, may, will, project, intend, plan, believe and meaning and expression in connection with any discussion of future operating or financial performance or events. Forward looking statements in this Form 10-Q may concern, among other things, Kennametal's expectations regarding our strategy, goals, plans and projections regarding our financial position, liquidity and capital resources, results of operations, market position, and product development, all of which are based on current expectations that involve inherent risks and uncertainties. Among the factors that could cause the actual results to differ materially from those indicated in the forward-looking statements are risks and uncertainties related to: global and regional economic conditions; availability and cost of the raw materials we use to manufacture our products; our ability to protect our intellectual property in foreign jurisdictions; our foreign operations and international markets, such as currency exchange rates, different regulatory environments, trade barriers, exchange controls, and social and political instability; energy costs; commodity prices; competition; integrating recent acquisitions, as well as any future acquisitions, and achieving the expected savings and synergies; business divestitures; demands on management resources; future terrorist attacks or acts of war; labor relations; demand for and market acceptance of new and existing products; and implementation of restructuring plans and environmental remediation matters. Should one or more of these risks or uncertainties materialize, or should the assumptions underlying the forward-looking statements prove incorrect, actual outcomes could vary materially from those indicated. These and other risks are more fully described in the Risk Factors Section of our Annual Report on Form 10-K, in this Form 10-Q if applicable and in our other periodic filings with the Securities and Exchange Commission. We undertake no obligation to release publicly any revisions to forward-looking statements as a result of future events or developments.

**KENNAMETAL INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**1. ORGANIZATION**

Kennametal Inc. was incorporated in Pennsylvania in 1943 and maintains its world headquarters in Latrobe, Pennsylvania. Kennametal Inc. and its subsidiaries (collectively, Kennametal or the Company ) is a leading global manufacturer and supplier of tooling, engineered components and advanced materials consumed in production processes. End users of our products include metalworking manufacturers and suppliers in the aerospace, automotive, machine tool, light machinery and heavy machinery industries, as well as manufacturers and suppliers in the highway construction, coal mining, quarrying and oil and gas exploration industries. Our end users products include items ranging from airframes to coal, medical implants to oil wells and turbochargers to motorcycle parts. We operate two global business units consisting of Metalworking Solutions & Services Group (MSSG) and Advanced Materials Solutions Group (AMSG).

**2. BASIS OF PRESENTATION**

The condensed consolidated financial statements, which include our accounts and those of our consolidated subsidiaries, should be read in conjunction with the 2007 Annual Report on Form 10-K. The condensed consolidated balance sheet as of June 30, 2007 was derived from the audited balance sheet included in our 2007 Annual Report on Form 10-K. These interim statements are unaudited; however, we believe that all adjustments necessary for a fair statement of the results of the interim periods were made and all adjustments are normal, recurring adjustments. The results for the three months ended September 30, 2007 and 2006 are not necessarily indicative of the results to be expected for a full fiscal year. Unless otherwise specified, any reference to a year is to a fiscal year ended June 30. For example, a reference to 2008 is to the fiscal year ending June 30, 2008. When used in this Form 10-Q, unless the context requires otherwise, the terms we, our and us refer to Kennametal Inc. and its subsidiaries.

**3. NEW ACCOUNTING STANDARDS**

In June 2007, the Financial Accounting Standards Board (FASB) ratified Emerging Issues Task Force (EITF) Issue No. 06-11, Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards (EITF 06-11). EITF 06-11 requires that tax benefits generated by dividends paid during the vesting period on certain equity-classified share-based compensation awards be classified as additional paid-in capital and included in a pool of excess tax benefits available to absorb tax deficiencies from share-based payment awards. EITF 06-11 is effective for Kennametal on July 1, 2008 and is to be applied on a prospective basis. We are in the process of evaluating the provisions of this EITF to determine the impact of adoption on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115 (SFAS 159). SFAS 159 permits entities to measure many financial instruments at fair value with the changes in fair value recognized in earnings at each subsequent reporting date. SFAS 159 is effective for Kennametal as of July 1, 2008. We are in the process of evaluating the provisions of SFAS 159 to determine the impact of adoption on our consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures related to fair value measurements. The provisions of this standard apply to other accounting pronouncements that require or permit fair value measurements. SFAS 157 is effective for Kennametal as of July 1, 2008. Upon adoption, the provisions of SFAS 157 are to be applied prospectively with limited exceptions. We are in the process of evaluating the impact of the provisions of SFAS 157 on our consolidated financial statements.

Throughout 2008, we expect to review our current frameworks for measuring fair value as we assess the provisions of SFAS 157. As a result, some methods for fair value measurement currently utilized may change.

**Table of Contents****KENNAMETAL INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 prescribes a method of recognition, measurement, presentation and disclosure within financial statements for uncertain tax positions that a company has taken or expects to take in a tax return. Kennametal adopted FIN 48 as of July 1, 2007. See Note 11 for additional disclosures related to the adoption of FIN 48.

**4. SUPPLEMENTAL CASH FLOW DISCLOSURES**

Three months ended September 30 (in thousands)	2007	2006
Cash paid during the period for:		
Interest	\$2,574	\$ 2,311
Income taxes	4,659	86,236
Supplemental disclosure of non-cash information:		
Contribution of stock to employees defined contribution benefit plans		2,260
Change in fair value of interest rate swaps	5,489	5,629

**5. DIVESTITURE**

In 2006, we divested J&L Industrial Supply (J&L) for net proceeds of \$359.2 million. During the three months ended September 30, 2006, we recognized a pre-tax loss of \$1.6 million related to a post-closing adjustment, which is included in loss on divestiture, as well as \$0.3 million of divestiture-related charges in our Corporate segment that were included in operating expenses. We received \$359.2 million in net proceeds related to the sale of this business of which \$0.7 million was received during the three months ended September 30, 2006.

**6. DISCONTINUED OPERATIONS**

During 2006, our Board of Directors and management approved plans to divest our Kemmer Praezision Electronics business (Electronics) and our consumer retail product line, including industrial saw blades (CPG) as part of our strategy to exit non-core businesses. These divestitures were accounted for as discontinued operations.

**Electronics** The divestiture of Electronics, which was part of the AMMSG segment, was completed in two separate transactions. The first transaction closed during 2006. The second transaction closed on December 31, 2006.

**CPG** The divestiture of CPG, which was part of the MSSG segment, closed August 31, 2006 for net consideration of \$31.2 million. We have received \$31.2 million in net proceeds related to the sale of this business of which \$3.0 million and \$19.5 million were received during the three months ended September 30, 2007 and 2006, respectively. Also, for the three months ended September 30, 2006, we recognized a pre-tax loss of \$0.3 million, which is presented in discontinued operations.

The following represents the results of discontinued operations for the three months ended September 30:

(in thousands)	2006
Sales	\$12,610
Income from discontinued operations before income taxes	\$ 1,161
Income tax expense	254
Loss from discontinued operations	\$ 907

**Table of Contents****KENNAMETAL INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)****7. STOCK-BASED COMPENSATION**

Stock options are granted to eligible employees at fair market value on the date of grant. Stock options are exercisable under specific conditions for up to 10 years from the date of grant. The aggregate number of shares authorized for issuance under the Kennametal Inc. Stock and Incentive Plan of 2002, as amended (the 2002 Plan), is 3,750,000. See Note 16 for disclosure of our recently announced capital stock split. Under the provisions of the 2002 Plan, participants may deliver our stock, owned by the holder for at least six months, in payment of the option price and receive credit for the fair market value of the shares on the date of delivery. The fair value of shares delivered during the three months ended September 30, 2007 and 2006 was \$0.5 million and \$0.1 million, respectively. Stock option expense for the three months ended September 30, 2007 and 2006 was \$1.5 million and \$1.7 million, respectively. In addition to stock option grants, the 2002 Plan permits the award of restricted stock to directors, officers and key employees.

The assumptions used in our Black-Scholes valuation related to grants made during the three months ended September 30, 2007 and 2006 were as follows:

	2007	2006
Risk-free interest rate	4.5%	5.0%
Expected life in years <sup>(1)</sup>	4.5	4.5
Expected volatility <sup>(2)</sup>	23.6%	22.4%
Expected dividend yield	1.4%	1.4%

1) Expected life is derived from historical experience.

2) Expected volatility is based on the historical volatility of our capital stock.

Changes in our capital stock options for the three months ended September 30, 2007 were as follows:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Life (years)	Aggregate Intrinsic Value (in thousands)
Options outstanding, June 30, 2007	1,602,717	\$44.69		
Granted	255,299	77.68		
Exercised	113,188	45.75		
Lapsed and forfeited	11,328	52.78		
Options outstanding, September 30, 2007	1,733,500	\$49.49	7.0	\$59,793

Options vested and expected to vest, September 30, 2007	1,680,801	\$49.07	7.0	58,784
Options exercisable, September 30, 2007	962,806	\$39.66	5.6	42,670

The weighted average fair value per option granted during the three months ended September 30, 2007 and 2006 was \$18.73 and \$12.87 respectively. The fair value of options vested during the three months ended September 30, 2007 and 2006 was \$2.9 million and \$3.6 million, respectively.

The amount of cash received from the exercise of capital stock options during the three months ended September 30, 2007 and 2006 was \$4.6 million and \$2.3 million, respectively. The related tax benefit for the three months ended September 30, 2007 and 2006 was \$1.1 million and \$0.3 million, respectively. The total intrinsic value of options exercised during the three months ended September 30, 2007 and 2006 was \$3.5 million and \$1.0 million, respectively. As of September 30, 2007, the total unrecognized compensation cost related to options outstanding was \$6.9 million and is expected to be recognized over a weighted average period of 3.0 years.

**Table of Contents****KENNAMETAL INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

Changes in our restricted stock for the three months ended September 30, 2007 were as follows:

	Shares	Weighted Average Fair Value
Unvested restricted stock, June 30, 2007	289,541	\$ 50.23
Granted	69,634	78.01
Vested	101,714	46.89
Forfeited	6,093	51.68
Unvested restricted stock, September 30, 2007	251,368	\$ 59.41

During the three months ended September 30, 2007 and 2006, compensation expense related to restricted stock awards was \$1.5 million and \$2.1 million, respectively. As of September 30, 2007, the total unrecognized compensation cost related to unvested restricted stock was \$9.0 million and is expected to be recognized over a weighted average period of 2.9 years.

**8. BENEFIT PLANS**

We sponsor several defined benefit pension plans that cover a majority of our employees. Additionally, we provide varying levels of postretirement health care and life insurance benefits to most U.S. employees.

The table below summarizes the components of net periodic pension cost:

Three months ended September 30 (in thousands)	2007	2006
Service cost	\$ 2,502	\$ 2,417
Interest cost	9,948	9,499
Expected return on plan assets	(12,323)	(11,224)
Amortization of transition obligation	42	37
Amortization of prior service (credit) cost	(11)	166
Recognition of actuarial losses	564	1,295
Net periodic pension cost	\$ 722	\$ 2,190

The decrease in net periodic pension cost is primarily the result of an increase in plan assets and increases in discount rates used to determine our net periodic pension cost for our international plans.

During the three months ended September 30, 2007 and 2006, the Company contributed \$1.6 million and \$1.3 million, respectively, to its various defined benefit pension plans.

The table below summarizes the components of the net periodic other postretirement cost:

Three months ended September 30 (in thousands)	2007	2006
Service cost	\$ 133	\$ 133
Interest cost	434	420
Amortization of prior service cost	12	12
Recognition of actuarial gains	(132)	(367)

Net periodic other postretirement cost	\$ 447	\$ 198

**Table of Contents****KENNAMETAL INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)****9. INVENTORIES**

We used the last-in, first-out (LIFO) method of valuing inventories for approximately 51 percent and 50 percent of total inventories at September 30, 2007 and June 30, 2007, respectively. Because inventory valuations under the LIFO method are based on an annual determination of quantities and costs as of June 30 of each year, the interim LIFO valuations are based on our projections of expected year-end inventory levels and costs. Therefore, the interim financial results are subject to any final year-end LIFO inventory adjustments.

Inventories consisted of the following:

(in thousands)	September 30, 2007	June 30, 2007
Finished goods	\$ 260,889	\$234,828
Work in process and powder blends	181,117	161,815
Raw materials and supplies	78,940	72,941
Inventory at current cost	520,946	469,584
Less: LIFO valuation	(77,641)	(65,971)
Total inventories	\$ 443,305	\$403,613

**10. ENVIRONMENTAL MATTERS**

The operation of our business has exposed us to certain liabilities and compliance costs related to environmental matters. We are involved in various environmental cleanup and remediation activities at certain of our locations.

*Superfund Sites* We are involved as a potentially responsible party (PRP) at various sites designated by the United States Environmental Protection Agency (USEPA) as Superfund sites, including the Li Tungsten Superfund site in Glen Cove, New York. With respect to the Li Tungsten site, we had previously recorded an environmental reserve. In May 2006, we reached an agreement in principle with the U.S. Department of Justice (DOJ) with respect to this site; the DOJ informed us that it would accept a payment of \$0.9 million in full settlement for its claim against us for costs related to the Li Tungsten site. The Consent Order and Agreement for settlement of our Li Tungsten liability has been entered by the court and payment is expected to be made during the 2008 second quarter. At September 30, 2007, we had an accrual of \$1.0 million recorded relative to this reserve.

During 2006, we were notified by the USEPA that we have been named as a PRP at the Alternate Energy Resources Inc. site located in Augusta, Georgia. The proceedings in this matter have not yet progressed to a stage where it is possible to estimate the ultimate cost of remediation, the timing and extent of remedial action that may be required by governmental authorities, or the amount of our liability alone or in relation to that of any other PRPs.

*Other Environmental Issues* Additionally, we also maintain reserves for other potential environmental issues. At September 30, 2007, the total of these accruals was \$6.2 million, and represents anticipated costs associated with the remediation of these issues. We recorded unfavorable foreign currency translation adjustments of \$0.2 million during the three months ended September 30, 2007 related to these reserves.

**11. INCOME TAXES**

The effective income tax rate for the three months ended September 30, 2007 and 2006 was 37.7 percent and 31.7 percent, respectively. The current quarter rate was unfavorably impacted by a \$6.6 million non-cash income tax charge related to a German tax reform bill enacted in July 2007 offset somewhat by benefits from increased earnings of our pan-European business strategy.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

Effective July 1, 2007, we adopted FIN 48. The adoption of FIN 48 had the following impacts on our consolidated balance sheet: a \$0.3 million increase in current deferred tax assets, a \$0.6 million increase in non-current deferred tax assets, a \$14.2 million decrease in current accrued income taxes, a \$1.7 million decrease in non-current deferred tax liabilities, a \$20.0 million increase in non-current accrued income taxes and a \$3.3 million decrease in retained earnings. As of the adoption date, we have \$20.3 million of unrecognized tax benefits. Of this amount, \$17.0 million would affect the 2008 annual effective tax rate if recorded.

Our policy is to recognize interest and penalties related to income taxes as a component of the provision for income taxes on the Condensed Consolidated Statement of Income. As of adoption, we have accrued \$2.2 million of interest. For the three months ended September 30, 2007, we recognized \$0.3 million in interest related to uncertain tax positions.

We file income tax returns in the U.S. as well as in various states and foreign jurisdictions. With few exceptions, we are no longer subject to income tax examinations by tax authorities for years prior to 2001. The IRS has audited all U.S. tax years prior to 2005. Various state and foreign jurisdiction tax authorities are in the process of examining our income tax returns for various tax years ranging from 2001 to 2006. At this time, we do not anticipate a material increase or decrease in the total amount of unrecognized tax benefits within the next twelve months.

**12. EARNINGS PER SHARE**

Basic earnings per share is computed using the weighted average number of shares outstanding during the period, while diluted earnings per share is calculated to reflect the potential dilution that occurs related to the issuance of capital stock under stock option grants and restricted stock awards. The difference between basic and diluted earnings per share relates solely to the effect of capital stock options and restricted stock awards.

For purposes of determining the number of diluted shares outstanding, weighted average shares outstanding for basic earnings per share calculations were increased due solely to the dilutive effect of unexercised capital stock options and restricted stock awards by 0.8 million shares for the three months ended September 30, 2007 and 2006. Unexercised capital stock options to purchase our capital stock of 0.7 million shares for the three months ended September 30, 2006 are not included in the computation of diluted earnings per share because the option exercise price was greater than the average market price, and therefore their inclusion would have been anti-dilutive.

See Note 16 for disclosure of our recently announced capital stock split.

On October 23, 2007, the Board of Directors approved a two-for-one capital stock split in the form of a capital stock dividend to be distributed after the close of trading on December 18, 2007 to all shareowners of record as of the close of business on December 4, 2007. The stated par value of each share was not changed from \$1.25. The issuance of the additional shares will result in a transfer from additional paid-in-capital to capital stock in an amount representing the par value of the shares issued.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**RESULTS OF CONTINUING OPERATIONS**

**SALES**

Sales for the three months ended September 30, 2007 were \$615.1 million, an increase of \$72.3 million, or 13.3 percent, from \$542.8 million in the prior year quarter. The increase in sales was primarily attributed to 5.0 percent organic growth, 5.0 percent from acquisitions and 3.0 percent from favorable foreign currency effects. The organic increase in sales for the quarter was primarily attributed to growth in the European and Asia Pacific markets. Organic sales growth by sector was led by year-over-year expansion in aerospace, machine tools, distribution and highway construction.

**GROSS PROFIT**

Gross profit for the three months ended September 30, 2007 increased \$25.1 million to \$212.1 million from \$187.0 million in the prior year quarter. This 13.4 percent increase was primarily due to organic sales growth, the impact of acquisitions, foreign currency effects of \$7.1 million and the effects of some recent price increases, partially offset by higher raw material costs, specifically materials containing steel and cobalt.

Gross profit margin for the three months ended September 30, 2007 was 34.5 percent, consistent with the prior year quarter. The impact of higher raw material costs discussed above was offset primarily by the effects of acquisitions, recent price increases and a favorable 10 basis point impact of foreign currency.

**OPERATING EXPENSE**

Operating expense for the three months ended September 30, 2007 was \$145.0 million, an increase of \$10.0 million, or 7.4 percent, compared to \$135.0 million in the prior year quarter. The increase in operating expense was primarily attributed to the impact of acquisitions, foreign currency exchange rate fluctuations of \$4.5 million and increased professional fees of \$1.1 million.

**LOSS ON DIVESTITURE**

Loss on divestiture of \$1.6 million for the three months ended September 30, 2006 was the result of a post-closing adjustment related to our 2006 divestiture of J&L.

**AMORTIZATION OF INTANGIBLES**

Amortization expense was \$2.9 million for the three months ended September 30, 2007, an increase of \$1.0 million from \$1.9 million in the prior year quarter. This increase was due to the impact of acquisitions.

**INTEREST EXPENSE**

Interest expense for the three months ended September 30, 2007 increased \$0.4 million, or 5.0 percent, to \$7.8 million from \$7.4 million in the prior year quarter. This increase was due primarily to an increase in average domestic borrowings of \$77.8 million, mostly offset by lower average interest rates on domestic borrowings of 6.8 percent, compared to 7.0 percent in the prior year quarter.

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)****OTHER INCOME, NET**

Other income, net for the three months ended September 30, 2007 decreased \$1.9 million to \$1.1 million from \$3.0 million in the prior year quarter. This change was driven by a \$1.8 million reduction of interest income due to lower cash and cash equivalents as a result of the acquisitions made in 2007 and \$0.3 million of unfavorable foreign currency effects.

**INCOME TAXES**

The effective income tax rate for the three months ended September 30, 2007 and 2006 was 37.7 percent and 31.7 percent, respectively. The current quarter rate was unfavorably impacted by a \$6.6 million non-cash income tax charge related to a German tax reform bill enacted in July 2007 offset somewhat by benefits from increased earnings of our pan-European business strategy.

**BUSINESS SEGMENT REVIEW**

Our operations are organized into two reportable operating segments consisting of Metalworking Solutions & Services Group (MSSG) and Advanced Materials Solutions Group (AMSG), and Corporate. The presentation of segment information reflects the manner in which we organize segments for making operating decisions and assessing performance.

**METALWORKING SOLUTIONS & SERVICES GROUP**

(in thousands)	Three Months Ended September 30,	
	2007	2006
External sales	\$ 407,697	\$ 357,084
Intersegment sales	43,131	33,443
Operating income	55,352	45,666

For the three months ended September 30, 2007, MSSG external sales increased \$50.6 million, or 14.2 percent, from the prior year quarter. This was the result of 6.0 percent organic growth, 4.0 percent from acquisitions and 4.0 percent from favorable foreign currency effects of \$15.9 million. Organic sales growth was driven by growth in Europe and Asia Pacific of 10.6 percent and 17.7 percent, respectively. By sector, organic sales growth was driven by gains in aerospace, machine tool and distribution.

For the three months ended September 30, 2007, operating income increased \$9.7 million, or 21.2 percent, from the prior year quarter. Operating margin on total sales of 12.3 percent for the current quarter increased 60 basis points compared to 11.7 percent in the prior year quarter, and benefited primarily from organic sales growth as discussed above, the impact of acquisitions and favorable foreign currency effects.

**ADVANCED MATERIALS SOLUTIONS GROUP**

(in thousands)	Three Months Ended September 30,	
	2007	2006
External sales	\$ 207,379	\$ 185,727
Intersegment sales	10,853	9,753
Operating income	29,980	27,386

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

For the three months ended September 30, 2007, AMSG external sales increased \$21.7 million, or 11.7 percent, from the prior year quarter. The increase in sales was driven by organic sales gains in certain markets, the effects of acquisitions and \$4.0 million of favorable foreign currency effects. Strong organic sales gains were achieved in the highway construction market while more moderate organic sales gains were achieved in the engineered products and energy markets. Organic sales of mining products were lower due to market conditions. Mining and construction products organic sales increased 6.3 percent driven by strong highway construction sales, while engineered products organic sales increased 3.7 percent and energy product organic sales increased 1.7 percent.

For the three months ended September 30, 2007, operating income increased \$2.6 million, or 9.5 percent, from the prior year quarter. Operating margin on total sales of 13.7 percent for the current quarter decreased 30 basis points compared to 14.0 percent in the prior year quarter. This decrease was primarily due to higher raw material costs and sales mix in the current quarter, as well as production interruption at a manufacturing facility.

**CORPORATE**

(in thousands)	Three Months Ended September 30,	
	2007	2006
Operating loss	\$ (21,218)	\$ (24,691)

Corporate represents certain corporate shared service costs, certain employee benefit costs, certain employment costs, such as performance-based bonuses and stock-based compensation expense, and eliminations of operating results between segments.

For the three months ended September 30, 2007, operating loss decreased \$3.5 million, or 14.1 percent, compared to the prior year quarter, primarily due to lower employment costs of \$1.2 million and reduced pension and other postretirement benefit expense of \$1.0 million. The prior year quarter also included a \$1.6 million unfavorable post-closing adjustment related to the J&L divestiture.

**LIQUIDITY AND CAPITAL RESOURCES**

Cash flows from discontinued operations are not deemed material and have been combined with cash flows from continuing operations within each cash flow statement category. The absence of cash flows from discontinued operations is not expected to have a material impact on our future liquidity and capital resources.

Our cash flow from operations is our primary source of financing for capital expenditures and internal growth. During the three months ended September 30, 2007, cash flow provided by operating activities was \$56.9 million, compared to cash flow used for operating activities of \$18.8 million for the prior year quarter. Cash flow provided by operating activities for the current quarter consists of net income and non-cash items totaling \$68.7 million offset somewhat by changes in certain assets and liabilities netting to \$11.8 million. Contributing to these changes were a decrease in accounts receivable of \$30.7 million, an increase in inventories of \$29.4 million due to higher sales volume, initiatives to increase service levels and increased raw material inventory and a decrease in accounts payable and accrued liabilities of \$18.9 million driven by a \$15.1 million payment of 2007 performance-based bonuses.

Cash flow used for operating activities for the three months ended September 30, 2006 consisted of net income and non-cash items totaling \$57.9 million offset by changes in certain assets and liabilities netting to \$76.7 million. Principally contributing to these changes was a decrease in accrued income taxes of \$72.3 million as a result of tax payments related to the gain on divestiture of J&L and cash repatriated during 2006 under the American Jobs Creation Act (AJCA).

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

Cash flow used for investing activities was \$31.4 million for the three months ended September 30, 2007, a decrease of \$44.4 million, compared to \$75.8 million in the prior year quarter. During the three months ended September 30, 2007, cash used for investing activities included \$42.7 million used for purchases of property, plant and equipment, which consisted primarily of equipment upgrades, partially offset by proceeds from the sale of an equity investment of \$5.4 million, proceeds from divestitures of \$3.0 million and \$1.6 million of post-closing purchase price adjustments related to the acquisition of business assets. During the prior year quarter, cash used for investing activities included \$22.7 million used for purchases of property, plant and equipment, which consisted primarily of equipment upgrades and \$73.9 million used for the acquisition of business assets, partially offset by proceeds from divestitures of \$20.2 million.

During the three months ended September 30, 2007, cash flow used for financing activities was \$12.0 million, a decrease of \$9.3 million, compared to \$21.3 million in the prior year quarter. During the current quarter, cash used for financing activities includes \$15.9 million for the repurchase of capital stock and \$8.2 million of cash dividends paid to shareowners, partially offset by \$7.1 million of dividend reinvestment and the effect of employee benefit and stock plans. During the prior year quarter, cash used for financing activities included a \$10.6 million net decrease in borrowings, \$9.4 million for the repurchase of capital stock and \$7.3 million of cash dividends paid to shareowners offset by \$6.2 million of dividend reinvestment and the effects of employee benefit and stock plans.

We believe that cash flow from operations and the availability under our credit lines will be sufficient to meet our cash requirements over the next 12 months.

There have been no material changes in our contractual obligations and commitments since June 30, 2007 except for liabilities from uncertain tax positions resulting from the adoption of FIN 48, which is discussed in Note 11 to our condensed consolidated financial statements.

**OFF-BALANCE SHEET ARRANGEMENTS**

The Company is party to a three-year securitization program, which permits us to securitize up to \$10.0 million of accounts receivable. As of September 30, 2007, the Company had no securitized accounts receivable.

**FINANCIAL CONDITION**

Total assets were \$2,653.5 million at September 30, 2007, compared to \$2,606.2 million at June 30, 2007. Working capital increased \$59.8 million to \$589.1 million at September 30, 2007 from \$529.3 million at June 30, 2007. This increase in working capital was primarily driven by an increase in inventory of \$39.7 million, an increase in cash of \$16.1 million, a decrease in accounts payable of \$15.9 million and a decrease in accrued income taxes of \$12.0 million primarily due to the impact of adoption of FIN 48, partially offset by a decrease in accounts receivable of \$19.5 million. Property, plant and equipment, net increased \$34.9 million to \$648.9 million at September 30, 2007 from \$614.0 million at June 30, 2007 primarily due to capital expenditures of \$42.7 million partially offset by depreciation expense of \$18.8 million.

Total liabilities of \$1,103.0 million at September 30, 2007 decreased slightly from \$1,104.1 million at June 30, 2007. Changes during the quarter ended September 30, 2007 included a \$15.9 million reduction in accounts payable, an increase in total debt of \$10.2 million and an increase in accrued income taxes of \$8.0 million due primarily to the impact of the adoption of FIN 48.

Shareowners' equity increased \$46.9 million to \$1,531.4 million as of September 30, 2007 from \$1,484.5 million as of June 30, 2007. The increase was primarily a result of net income of \$34.9 million, foreign currency translation adjustments of \$33.3 million and the effect of employee benefit and stock plans of \$7.4 million, partially offset by repurchases of capital stock of \$15.9 million and cash dividends paid to shareowners of \$8.2 million.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

**ENVIRONMENTAL MATTERS**

The operation of our business has exposed us to certain liabilities and compliance costs related to environmental matters. We are involved in various environmental cleanup and remediation activities at certain of our locations. *Superfund Sites* We are involved as a potentially responsible party (PRP) at various sites designated by the United States Environmental Protection Agency (USEPA) as Superfund sites, including the Li Tungsten Superfund site in Glen Cove, New York. With respect to the Li Tungsten site, we had previously recorded an environmental reserve. In May 2006, we reached an agreement in principle with the U.S. Department of Justice (DOJ) with respect to this site; the DOJ informed us that it would accept a payment of \$0.9 million in full settlement for its claim against us for costs related to the Li Tungsten site. The Consent Order and Agreement for settlement of our Li Tungsten liability has been entered by the court and payment is expected to be made during the 2008 second quarter. At September 30, 2007, we had an accrual of \$1.0 million recorded relative to this reserve.

During 2006, we were notified by the USEPA that we have been named as a PRP at the Alternate Energy Resources Inc. site located in Augusta, Georgia. The proceedings in this matter have not yet progressed to a stage where it is possible to estimate the ultimate cost of remediation, the timing and extent of remedial action that may be required by governmental authorities, or the amount of our liability alone or in relation to that of any other PRPs.

*Other Environmental Issues* Additionally, we also maintain reserves for other potential environmental issues. At September 30, 2007, the total of these accruals was \$6.2 million, and represents anticipated costs associated with the remediation of these issues. We recorded unfavorable foreign currency translation adjustments of \$0.2 million during the three months ended September 30, 2007 related to these reserves.

**DISCUSSION OF CRITICAL ACCOUNTING POLICIES**

Effective July 1, 2007, we adopted FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109 (FIN 48). See Note 11 in our condensed consolidated financial statements for additional disclosures related to the adoption of FIN 48.

There have been no other material changes to our critical accounting policies since June 30, 2007.

**NEW ACCOUNTING STANDARDS**

In June 2007, the Financial Accounting Standards Board (FASB) ratified Emerging Issues Task Force (EITF) Issue No. 06-11, Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards (EITF 06-11). EITF 06-11 requires that tax benefits generated by dividends paid during the vesting period on certain equity-classified share-based compensation awards be classified as additional paid-in capital and included in a pool of excess tax benefits available to absorb tax deficiencies from share-based payment awards. EITF 06-11 is effective for Kennametal on July 1, 2008 and is to be applied on a prospective basis. We are in the process of evaluating the provisions of this EITF to determine the impact of adoption on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115 (SFAS 159). SFAS 159 permits entities to measure many financial instruments at fair value with the changes in fair value recognized in earnings at each subsequent reporting date. SFAS 159 is effective for Kennametal as of July 1, 2008. We are in the process of evaluating the provisions of SFAS 159 to determine the impact of adoption on our consolidated financial statements.

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures related to fair value measurements. The provisions of this standard apply to other accounting pronouncements that require or permit fair value measurements. SFAS 157 is effective for Kennametal as of July 1, 2008. Upon adoption, the provisions of SFAS 157 are to be applied prospectively with limited exceptions. We are in the process of evaluating the impact of the provisions of SFAS 157 on our consolidated financial statements.

Throughout 2008, we expect to review our current frameworks for measuring fair value as we assess the provisions of SFAS 157. As a result, some methods for fair value measurement currently utilized may change.

In June 2006, the FASB issued FIN 48. FIN 48 prescribes a method of recognition, measurement, presentation and disclosure within financial statements for uncertain tax positions that a company has taken or expects to take in a tax return. Kennametal adopted FIN 48 as of July 1, 2007. See Note 11 in our condensed consolidated financial statements for additional disclosures related to the adoption of FIN 48.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We have experienced certain changes in our exposure to market risk from June 30, 2007. The fair value of our interest rate swap agreements was a liability of \$5.3 million and \$10.8 million as of September 30, 2007 and June 30, 2007, respectively. The offset to this liability is a corresponding increase to long-term debt, as the instruments are accounted for as a fair value hedge of our long-term debt. The \$5.5 million change in the recorded value of these agreements was non-cash and was the result of marking these instruments to market.

There have been no other material changes to our market risk exposure since June 30, 2007.

**ITEM 4. CONTROLS AND PROCEDURES**

As of the end of the period covered by this quarterly report on Form 10-Q, the Company's management evaluated, with the participation of the company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). The Company's disclosure controls were designed to provide a reasonable assurance that information required to be disclosed in reports that we file or submit under the Securities Exchange Act of 1934, as amended (Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. However, the controls have been designed to provide reasonable assurance of achieving the controls' stated goals. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective to provide reasonable assurance at September 30, 2007 to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act was (i) accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure and (ii) recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. There were no changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
