**Note A Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with Form 10-Q instructions and in the opinion of management contain all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position, results of operations and cash flows for the periods presented. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates. These interim financial statements should be read in conjunction with the financial statements and accompanying notes included in the Annual Report on Form 10-K for the year ended December 31, 2007 of PolyOne Corporation.

In January 2008, the Company acquired 100% of the outstanding capital stock of GLS Corporation (GLS), a global provider of specialty thermoplastic elastomer compounds for consumer, packaging and medical applications. Intangible assets of \$66.0 million and goodwill of \$43.8 million were recorded pertaining to this acquisition. For more information on the GLS acquisition, see Note P.

On March 20, 2008, PolyOne announced the Specialty Engineered Materials segment. This segment includes PolyOne's thermoplastic elastomer (TPE) compounds product line in Europe and Asia (historically included in International Color and Engineered Materials), North American Engineered Materials (historically included in All Other) and GLS. As of April 15, 2008, the Vinyl Business segment has been re-branded to be Geon Performance Polymers. Prior period results of operations have been reclassified to conform to the 2008 presentation.

Operating results for the three-month period ended March 31, 2008 are not necessarily indicative of the results that may be attained in subsequent periods or for the year ending December 31, 2008. Unless otherwise noted, disclosures contained in this quarterly report relate to continuing operations.

**Reclassification** Certain amounts for 2007 have been reclassified to conform to the 2008 presentation.

**Table of Contents****Note B Accounting Policies****New Accounting Pronouncements**

**Statement of Financial Accounting Standards No. 157** In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, Fair Value Measurement, which defines fair value, establishes the framework for measuring fair value under U.S. generally accepted accounting principles and expands disclosures about fair value measurements. In December 2007, the FASB issued a proposed FASB Staff Position (FSP FAS 157-b) that delayed the effective date of SFAS No. 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis, to fiscal years beginning after November 15, 2008. The Company adopted the non-deferred portion of SFAS No. 157 on January 1, 2008 and it did not have a material impact on the Company's financial statements. The Company is evaluating the effect that adoption of the deferred portion of SFAS No. 157 will have on its financial statements in 2009, specifically in the areas of measuring fair value in business combinations and goodwill impairment tests. See Note Q Fair Value for information on the Company's fair value assets and liabilities.

**SFAS No. 159** In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, which allows entities to voluntarily choose, at specified election dates, to measure many financial assets and liabilities at fair value. The election is made on an instrument-by-instrument basis and is irrevocable. SFAS No. 159 was effective January 1, 2008. The adoption of SFAS No. 159 had no impact on the Company's financial statements.

**SFAS No. 141 (revised 2007)** In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combinations, which establishes principles over the method entities use to recognize and measure assets acquired and liabilities assumed in a business combination and enhances disclosures on business combinations. SFAS No. 141(R) is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company is evaluating the effect that adoption will have on its 2009 financial statements.

**SFAS No. 161** In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133. SFAS No. 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. SFAS No. 161 is effective for fiscal years beginning after November 15, 2008. The Company is evaluating the effect that adoption will have on its 2009 financial statements.

**Use of Estimates** The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make extensive use of estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during these periods. Significant estimates in the Condensed Consolidated Financial Statements include, but are not limited to, sales discounts and rebates, allowances for doubtful accounts, estimates of future cash flows associated with assets, asset impairments, useful lives for depreciation and amortization, loss contingencies, net realizable value of inventories, environmental-related liabilities, income taxes and tax valuation reserves, assumptions used for goodwill impairment analyses and the determination of discount and other rate assumptions used to determine pension and post-retirement employee benefit expenses. Actual results could differ from these estimates.

**Note C Goodwill and Intangible Assets**

In accordance with SFAS No. 141, Business Combinations, purchase accounting requires that the total purchase price of acquisitions be allocated to the fair value of assets acquired and liabilities assumed based on their fair values at the acquisition date, with amounts exceeding the fair values being recorded as goodwill. As such, the acquisition of GLS resulted in the addition of \$43.8 million of goodwill and \$66.0 million in intangibles as of January 2, 2008. See Note P for more information on the GLS acquisition.

**Table of Contents**

Goodwill as of March 31, 2008 and December 31, 2007, by operating segment, was as follows:

(In millions)	<b>March 31, 2008</b>	<b>December 31, 2007</b>
Geon Performance Polymers	\$ 181.9	\$ 181.4
International Color and Engineered Materials	72.0	72.0
Specialty Inks and Polymer Systems	33.8	33.8
PolyOne Distribution	1.6	1.6
Specialty Engineered Materials	43.8	
<b>Total</b>	<b>\$ 333.1</b>	<b>\$ 288.8</b>

SFAS No. 142, Goodwill and Other Intangible Assets, requires an annual assessment for potential impairment of goodwill. PolyOne has selected July 1 as its annual assessment date. During the third quarter of 2007, the goodwill impairment assessment was completed and it was determined that goodwill was not impaired as of July 1, 2007. The combination of two valuation methodologies, a market approach and an income approach, was used to estimate the fair value of PolyOne's reporting units that supported significant goodwill, specifically Geon Compounds, International Color and Engineered Materials, and Polymer Coating Systems. The market approach estimates fair value by applying sales, earnings and cash flow multiples (derived from comparable publicly-traded companies with similar investment characteristics of the reporting unit) to the reporting unit's operating performance adjusted for non-recurring items. The income approach is based on projected future debt-free cash flow that is discounted to present value using discount factors that consider the timing and risk associated with the respective reporting units. As a result of the July 1, 2007 impairment testing, the average fair values of the market approach and income approach exceeded the carrying value by 52%, 8% and 24% for the Geon Compounds, International Color and Engineered Materials, and Polymer Coating Systems reporting units, respectively.

While PolyOne determined that there was no goodwill impairment as of the July 1, 2007 annual assessment, the occurrence of a potential indicator of impairment in the future, such as a significant adverse change in legal factors or business climate, an adverse action or assessment by a regulator, unanticipated competition, loss of key personnel or a more-likely-than-not expectation that a reporting unit or a significant portion of a reporting unit will be sold or disposed of, would require an interim assessment for some or all of the reporting units prior to the next required annual assessment on July 1, 2008.

As a result of the reorganization of the Company's segments on October 1, 2007, Polyone had four reporting units that had a significant amount of goodwill: Geon Compounds, Specialty Coatings, International Color and Engineered Materials and Specialty Inks and Polymer Systems. PolyOne performed an interim assessment of goodwill on the two new reporting units—Specialty Coatings and Specialty Inks and Polymer Systems. The average fair values of the market approach and income approach exceeded the carrying value of Specialty Coatings and Specialty Inks and Polymer Systems by 17% and 31%, respectively, as of October 1, 2007.

Information regarding PolyOne's finite-lived other intangible assets follows:

(In millions)	<b>As of March 31, 2008</b>

Patents, technology and other	9.1	(2.8)	1.5	7.8
<b>Total</b>	<b>\$ 57.5</b>	<b>\$ (20.1)</b>	<b>\$ 1.5</b>	<b>\$ 38.9</b>

**Table of Contents**

(In millions)	As of December 31, 2007

Patents, technology and other	4.7	(2.7)	1.4	3.4
Total	\$ 24.7	\$ (19.4)	\$ 1.4	\$ 6.7

Amortization of finite-lived other intangible assets was \$0.8 million and \$0.4 million for the three-month periods ended March 31, 2008 and 2007, respectively.

At March 31, 2008, Polyone has \$33.2 million of indefinite-lived other intangible assets that are not subject to amortization, consisting mainly of trademarks and trade names acquired as part of the January 2, 2008 GLS acquisition.

The carrying values of intangible assets and other investments are adjusted to the estimated net future cash flows based upon an evaluation done each year end, or more often, when indicators of impairment exist. For the three-month period ended March 31, 2008, there were no indicators of impairment for either goodwill or intangible assets.

**Note D Inventories**

Components of inventories are as follows:

(In millions)	March 31, 2008	December 31, 2007
Finished products and in-process inventories	\$ 190.7	\$ 169.5
Raw materials and supplies	130.3	100.1

	1,254.9	1,215.7
Less accumulated depreciation and amortization	(786.0)	(766.0)
	\$ 468.9	\$ 449.7

**Note F Income Taxes**

The first quarter of 2008 income tax expense of \$3.2 million reflects an effective tax rate of 33.0% and the income tax expense of \$3.8 million in the first quarter of 2007 reflects an effective tax rate of 33.9%. The difference between the

effective rate and the statutory rate in both periods was primarily due to the impact of foreign source income.

**Table of Contents****Note G Investment in Equity Affiliates**

SunBelt Chlor-Alkali Partnership (SunBelt) is the most significant of PolyOne's equity investments and is reported within the Resin and Intermediates segment. PolyOne owns 50% of SunBelt. On July 6, 2007, PolyOne sold its 24% interest in Oxy Vinyls, LP (OxyVinyls), a manufacturer and marketer of PVC resins, for cash proceeds of \$260.5 million and, as a result, no equity affiliate earnings of OxyVinyls were recorded by PolyOne for the three months ended March 31, 2008.

The following table presents OxyVinyls' summarized financial results for the period indicated:

**Note H Share-Based Compensation**

Share-based compensation expense recognized during a period is based on the value of the portion of share-based payment awards that is ultimately expected to vest during the period. Share-based compensation expense recognized in the Company's Condensed Consolidated Statements of Income includes compensation expense for share-based payment awards based on the grant date fair value estimated in accordance with the provision of SFAS No. 123(R), Share-Based Payment. Because share-based compensation expense recognized in the Condensed Consolidated Statements of Income is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. SFAS No. 123(R) requires that forfeitures be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

PolyOne has one active share-based compensation plan, which is described below. The cost is included in selling and administrative expenses on the Condensed Consolidated Statements of Income. The pre-tax compensation cost recognized for the three months ended March 31, 2008 and 2007 was \$0.8 million and \$0.2 million, respectively.

**2005 Equity and Performance Incentive Plan**

In May 2005, PolyOne's shareholders approved the PolyOne Corporation 2005 Equity and Performance Incentive Plan (2005 EPIP). All future grants and awards to PolyOne employees were to be issued only from this plan until there were no shares remaining under the plan or until the shareholders approved a new equity plan. All previous equity-based plans were frozen upon the approval of the 2005 EPIP in May 2005. PolyOne shareholders have been asked to approve the PolyOne Corporation 2008 Equity and Performance Incentive Plan at the 2008 Annual Meeting of Shareholders to be held on May 15, 2008. If approved, this plan will replace the 2005 EPIP. The 2005 EPIP provides for the award of a broad variety of share-based compensation alternatives, including non-qualified stock options, incentive stock options, restricted stock, restricted stock units, performance shares, performance units and stock appreciation rights. A total of five million shares of common stock have been reserved for grants and awards under the 2005 EPIP. It is anticipated that all share-based grants and awards that are earned and exercised will be issued from shares of PolyOne common stock that are held in treasury.

**Stock Appreciation Rights**

During the first quarter of 2008, the Compensation and Governance Committee of the Company's Board of Directors authorized the issuance of 1,034,400 stock appreciation rights (SARs). The awards vest in one-third increments annually over a three-year service period and may not be exercised earlier than one year from the date of the grant. The SARs have a seven-year exercise period that expires on March 6, 2015.

For SARs granted in 2007, vesting is based on a service period of one year and the achievement of certain stock price targets. This condition is considered a market-based measure under SFAS No. 123(R) and is considered in determining the grant's fair value. This fair value is not subsequently revised for actual market price achievement, but rather is a fixed expense subject only to service-related forfeitures. The awards vest in one-third increments based on stock price achievement (for a minimum of three consecutive trading days) of \$7.24, \$7.90 and \$8.56 per share, but may not be exercised earlier than one year from the date of the grant. At December 31, 2007, these awards have reached the \$8.56 stock price achievement target. These SARs have a seven-year exercise period.

**Table of Contents**

PolyOne utilized an option pricing model based on the Black-Scholes method to value the SARs granted in 2008. Under this method, the fair value of awards on the date of grant is an estimate and is affected by the Company's stock price, as well as assumptions regarding a number of highly complex and subjective variables as noted in the following table. Expected volatility was set at the 37% based upon the historical weekly volatility of PolyOne common stock during the 4.5 years preceding the date of grant. The expected term of SARs granted was determined based on the Securities and Exchange Commission's simplified method described in Staff Accounting Bulletin (SAB) No. 107. This method results in an expected term of 4.5 years, equal to halfway between the average vesting of two years and the expiration of seven years. SAB No. 110 allows companies lacking sufficient historical exercise experience to continue use of this method. Dividends were omitted in this calculation because PolyOne does not currently pay dividends. The risk-free rate of return was based on available yields on U.S. Treasury bills of the same duration as the expected option term. Forfeitures were estimated at 3% per year and were based on PolyOne's historical experience. Due to the fact that the SARs granted during 2006 and 2007 vested in one-third increments based on certain stock price achievement, the option pricing model used by PolyOne to value the SARs granted during 2006 and 2007 was a Monte Carlo simulation method.

The following is a summary of the assumptions related to the grants issued during the first quarter of 2008:

	<b>2008</b>
Expected volatility	37.00%
Expected dividends	
Expected term	4.5 years
Risk-free rate	2.48%
Value of SAR options granted	\$ 2.26

A summary of SAR option activity as of March 31, 2008 and changes during the three months then ended are presented below:

(Shares in thousands, dollars in millions, except per share data)

<b>Stock Appreciation Rights</b>	<b>Shares</b>	<b>Weighted-Average Exercise Price Per Share</b>	<b>Weighted-Average Remaining Contractual Term</b>	<b>Aggregate Intrinsic Value</b>
Outstanding at January 1, 2008	2,991	\$ 7.30

Vested and exercisable at March 31, 2008	2,347	\$ 7.12	5.24 years	\$

The weighted-average grant date fair value of SARs granted during the three months ended March 31, 2008 and 2007 was \$2.26 and \$2.72, respectively. No SARs were exercised in either of the three-month periods ended March 31, 2008 and 2007.

As of March 31, 2008, there was \$2.3 million of total unrecognized compensation cost related to SARs, which is expected to be recognized over the next 35 months.

**Stock Options**

PolyOne's incentive stock plans previously provided for the award or grant of options to purchase PolyOne common stock. Options granted generally became exercisable at the rate of 35% after one year, 70% after two years and 100% after three years. The term of each option does not extend beyond 10 years from the date of grant. All options were granted at 100% or greater of market value (as defined) on the date of the grant.

Cash received during the first three months of 2008 and 2007 from the exercise of stock options was \$0.0 million and \$0.3 million, respectively.

**Performance Shares**

In January 2005, the Compensation and Governance Committee authorized the issuance of performance shares to selected executives and other key employees. The performance shares vest only to the extent that management goals for cash flow, return on invested capital, and the level of earnings before interest, taxes, depreciation and amortization in relation to debt are achieved for the period commencing January 1, 2005 and ending December 31, 2007. Of the 388,500 performance share awards outstanding at December 31, 2007, 33% vested and were paid out in shares issued from treasury, net of tax. No net compensation expense was recognized on these awards for the three months ended March 31, 2008. During the three months ended March 31, 2007, a benefit of \$1.2 million was recognized on these awards.

**Restricted Stock Units**

During the first quarter of 2008, 419,600 units of restricted stock were granted to selected executives and other key employees. Restricted stock units (RSUs) represent a contingent right to receive one share of the Company's common stock at a future date provided a continuous three-year service period is attained. Compensation expense is measured on the grant date using the quoted market price of the Company's common stock and is recognized on a straight-line basis over the requisite service period.

As of March 31, 2008, 419,600 RSUs remain unvested with a weighted-average grant date fair value of \$6.73 and a weighted-average remaining contractual term of 35 months. Compensation expense recorded during the three months ended March 31, 2008 was \$0.1 million. Unrecognized compensation cost for RSUs at March 31, 2008 was \$2.7 million.

**Restricted Stock Awards**

As of March 31, 2008, 239,600 shares of restricted stock remain unvested with a weighted-average grant date fair value of \$8.66 and a weighted-average remaining contractual term of 13 months. Compensation expense recorded during the three months ended March 31, 2008 and 2007 was \$0.2 million and \$0.2 million, respectively. Unrecognized compensation cost for restricted stock awards at March 31, 2008 was \$0.7 million.

**Table of Contents****Note I Earnings Per Share Computation**

(In millions)	<b>Three Months Ended March 31,</b>	
	<b>2008</b>	<b>2007</b>
Weighted-average shares outstanding basic	92.9	92.6
Weighted-average shares diluted:		
Weighted-average shares outstanding basic	92.9	92.6
Plus dilutive impact of stock options and stock awards	0.4	0.4
Weighted-average shares diluted	93.3	93.0

Basic earnings per common share is computed as net income available to common shareholders divided by weighted-average basic shares outstanding. Diluted earnings per common share is computed as net income available to common shareholders divided by weighted-average diluted shares outstanding.

Outstanding SARs and stock options with exercise prices greater than the average price of the common shares are anti-dilutive and are not included in the computation of diluted earnings per share. The number of anti-dilutive options and awards was 5.0 million at March 31, 2008 and 6.9 million at March 31, 2007.

**Note J Employee Separation and Plant Phaseout**

Since the formation of PolyOne in 2000, management has undertaken several restructuring initiatives to improve profitability and, as a result, PolyOne has incurred employee separation and plant phaseout costs. For further discussion of these initiatives, see Note E to the Consolidated Financial Statements included in PolyOne's Annual Report on Form 10-K for the year ended December 31, 2007.

For the three-month periods ended March 31, 2008 and 2007, no charges were recorded for employee separation or plant phaseout activities. Cash spending during the three-month periods ended March 31, 2008 and 2007 was \$0.5 million and \$0.2 million, respectively. During the three-month period ended March 31, 2008, the Company paid \$0.3 million related to executive severance and \$0.2 million related to employee severance associated with plant related reduction programs. PolyOne's liability for unpaid severance costs was \$0.7 million at March 31, 2008 and will be paid over the next nine months in 2008.

**Note K Employee Benefit Plans**

Components of defined benefit pension plan costs are as follows:

(In millions)	<b>Three Months Ended March 31,</b>	
	<b>2008</b>	<b>2007</b>
Service cost	\$ 0.3	\$ 0.3
Interest cost	8.1	7.6
Expected return on plan assets	(8.3)	(8.0)
Amortization of unrecognized losses, transition obligation and prior service cost	2.0	2.6
	\$ 2.1	\$ 2.5

PolyOne estimates that the minimum funding requirements in 2008 for its qualified defined pension plans will approximate \$18.2 million.

**Table of Contents**

Components of post-retirement health care plan benefit costs are as follows:

(In millions)	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2008</b>	<b>2007</b>
Service cost	\$ 0.1	\$ 0.1

Amortization of unrecognized losses, transition obligation and prior service cost	(1.1)	(1.1)
	\$ 0.5	\$ 0.4

**Note L Financing Arrangements**

At March 31, 2008, PolyOne had long-term debt of \$331.8 million, with maturities through 2015. Current maturities of long-term debt at March 31, 2008 and December 31, 2007 were \$22.7 million and \$22.6 million, respectively.

On January 3, 2008, the Company entered into a credit agreement with Citicorp USA, Inc., as administrative agent and as issuing bank, and The Bank of New York, as paying agent. The credit agreement provides for an unsecured revolving and letter of credit facility with total commitments of up to \$40.0 million. The credit agreement expires on March 20, 2011. Borrowings under the revolving credit facility are based on the applicable LIBOR rate plus a fixed fee. On January 9, 2008, the Company borrowed \$40.0 million under the agreement which is included in short-term bank debt on the Condensed Consolidated Balance Sheet at March 31, 2008.

PolyOne is exposed to market risk from changes in interest rates on debt obligations and from changes in foreign currency exchange rates. Information about these risks and exposure management is included in Item 7A Qualitative and Quantitative Information about Market Risk in PolyOne's Annual Report on Form 10-K for the year ended December 31, 2007. PolyOne periodically enters into interest rate swap agreements that modify its exposure to interest rate risk by converting fixed-rate obligations to floating rates. PolyOne maintained interest rate swap agreements on one of its fixed-rate obligations in the aggregate amount of \$10.0 million at March 31, 2008. At March 31, 2008, this agreement had a fair value obligation of \$0.1 million. The interest rate for this agreement at March 31, 2008 was 9.14%.

In connection with the \$40.0 million borrowed under the revolving credit facility in January 2008, the Company entered into a \$40.0 million floating to fixed interest rate swap expiring on January 9, 2009, resulting in an effective interest rate of 8.4%. This derivative is not treated as a hedge and, as a result, is marked to market, with the resulting gain and loss recognized as interest expense in the Condensed Consolidated Statements of Income. At March 31, 2008, this agreement had a fair value obligation of \$0.4 million.

There have been no material changes in the market risk faced by PolyOne from December 31, 2007 to March 31, 2008.

**Note M Sale of Accounts Receivable**

Accounts receivable consist of the following:

(In millions)	<b>March</b>	<b>December</b>
	<b>31,</b>	<b>31,</b>
	<b>2008</b>	<b>2007</b>
Trade accounts receivable	\$ 216.2	\$ 169.8
Retained interest in securitized accounts receivable	113.4	175.8
Allowance for doubtful accounts	(5.0)	(4.8)
	\$ 324.6	\$ 340.8

Under the terms of its receivables sale facility, PolyOne sells its accounts receivable to PolyOne Funding Corporation (PFC), a wholly owned, fully consolidated, bankruptcy-remote subsidiary. PFC in turn may sell an undivided interest in these accounts receivable to certain investors. This facility size is \$200.0 million, including the Canadian receivable

**Table of Contents**

facility referenced below. As of March 31, 2008, \$60.5 million was available. The receivables sale facility was amended in June 2007 to extend the maturity of the facility to June 2012 and to, among other things, modify certain financial covenants and reduce the cost of utilizing the facility. In July 2007, the Company entered into a Canadian receivables purchase agreement, which increased the facility size by \$25.0 million to \$200.0 million.

At March 31, 2008 and December 31, 2007, accounts receivable totaling \$200.0 million and \$175.8 million, respectively, were sold by PolyOne to PFC. The maximum amount of proceeds that PFC may receive under the facility is limited to 85% of the eligible accounts receivable that are sold to PFC. At March 31, 2008, PFC had sold \$86.6 million of its undivided interest in accounts receivable. At December 31, 2007, PFC had sold none of its undivided interest in accounts receivable.

PolyOne retained an interest in the difference between the amount of trade receivables sold by PolyOne to PFC and the undivided interest sold by PFC as of March 31, 2008 and December 31, 2007. As a result, the interest retained by PolyOne of \$113.4 million and \$175.8 million is included in accounts receivable on the Condensed Consolidated Balance Sheets at March 31, 2008 and December 31, 2007, respectively.

The receivables sale facility also makes up to \$40.0 million available for the issuance of standby letters of credit as a sub-limit within the \$200.0 million facility, of which \$11.4 million was used at March 31, 2008. Continued availability of the receivables sale facility depends upon compliance with a fixed charge coverage ratio covenant related primarily to operating performance that is set forth in the related agreements. As of March 31, 2008, PolyOne was in compliance with this covenant.

**Note N Segment Information**

PolyOne manages its business in eight operating segments, of which five are reportable segments: Geon Performance Polymers, International Color and Engineered Materials, PolyOne Distribution, Specialty Engineered Materials and Resin and Intermediates. The All Other category includes three operating segments, none of which meets the quantitative thresholds for separate disclosure: North American Color and Additives, Producer Services and Specialty Inks and Polymer Systems.

On March 20, 2008, PolyOne announced the Specialty Engineered Materials segment. This segment includes PolyOne's TPE compounds product line in Europe and Asia (historically included in International Color and Engineered Materials), North American Engineered Materials (historically included in All Other) and GLS. As of April 15, 2008, the Vinyl Business segment has been re-branded to be called Geon Performance Polymers. Prior period results of operations have been reclassified to conform to the 2008 presentation.

The accounting policies of each segment are consistent with those described in Summary of Significant Accounting Policies in Note C to the Consolidated Financial Statements included in PolyOne's Annual Report on Form 10-K for the year ended December 31, 2007.

Operating income is the primary measure that is reported to the chief operating decision maker for purposes of making decisions about allocating resources to the segment and assessing its performance. The measure of segment operating income or loss that is reported to and reviewed by the chief operating decision maker excludes significant costs that are not controllable by or the responsibility of segment management. These costs are included in Corporate and eliminations and consist of: 1) inter-segment sales and profit eliminations; 2) charges related to specific strategic initiatives such as the consolidation of operations; 3) significant restructuring activities, including employee separation costs resulting from personnel reduction programs, plant closure and phaseout costs; 4) executive separation agreements; 5) share-based compensation costs; 6) asset impairments; 7) environmental remediation costs for facilities no longer owned or closed in prior years; 8) gains and losses on the divestiture of joint ventures and equity investments; and 9) certain other items.

**Note O Commitments and Contingencies**

PolyOne has been notified by certain federal and state environmental agencies and by private parties that it may be a potentially responsible party (PRP) in connection with the investigation and remediation of several environmental waste disposal sites. While government agencies frequently assert that PRPs are jointly and severally liable at these sites, in PolyOne's experience, the interim and final allocations of liability costs are generally made based on the relative contribution of waste. PolyOne believes that its potential continuing liability with respect to these sites will not have a material adverse effect on its consolidated financial position, results of operations or cash flows. In addition, PolyOne initiates corrective and preventive environmental projects of its own to ensure safe and lawful activities at its operations. PolyOne believes that compliance with current governmental regulations at all levels will not have a material adverse effect on its financial condition.

During the three-month periods ended March 31, 2008 and 2007, PolyOne recorded \$1.6 million and \$1.0 million, respectively, of expense related to future environmental activities at all of its active and inactive sites. During these same periods, PolyOne did not receive any proceeds from insurance recoveries.

Based on estimates that were prepared by its environmental engineers and consultants, PolyOne had accruals totaling \$83.3 million at March 31, 2008 and \$83.8 million at December 31, 2007 to cover probable future environmental expenditures related to previously contaminated sites. The accrual represents PolyOne's best estimate of the remaining probable remediation costs, based upon information and technology that is currently available and PolyOne's view of the most likely remedy. Depending upon the results of future testing, the ultimate remediation alternatives undertaken, changes in regulations, new information, newly discovered conditions and other factors, it is reasonably possible that PolyOne could incur additional costs in excess of the amount accrued at March 31, 2008. However, such additional costs, if any, cannot be currently estimated. PolyOne's estimate of the liability may be revised as new regulations or technologies are developed or additional information is obtained. Additional information related to environmental liabilities is in Note N to the Consolidated Financial Statements included in PolyOne's Annual Report on Form 10-K for the year ended December 31, 2007.

PolyOne guarantees \$60.9 million of SunBelt's outstanding senior secured notes in connection with the construction of a chlor-alkali facility in McIntosh, Alabama. This debt matures in 2017.

**Note P Business Combination**

***Acquisition***

On January 2, 2008, the Company acquired 100% of the outstanding capital stock of GLS, a global provider of specialty TPE compounds for consumer, packaging and medical applications, for a cash purchase price of \$148.7 million including acquisition costs and net of cash received. GLS, with sales of \$128.8 million for the year ended December 31, 2007, has been fully integrated into the Specialty Engineered Materials segment. This acquisition complements PolyOne's global engineered materials business portfolio and accelerates the Company's shift to specialization. The combination of GLS's specialized TPE offerings, compounding expertise and brand, along with PolyOne's extensive

**Table of Contents**

global infrastructure and commercial presence offers customers: enhanced technologies; a broader range of products, services and solutions; and expanded access to specialized, high-growth markets around the globe. The combinations of these factors are the drivers behind the excess of the purchase price over the fair value of the assets and liabilities acquired.

**Allocation of Purchase Price**

The GLS acquisition is accounted for as a purchase business combination. Assets acquired and liabilities assumed are recorded in the accompanying Condensed Consolidated Balance Sheet at their estimated fair values as of January 2, 2008. Operating results of GLS are included in the Condensed Consolidated Statement of Income from the date of acquisition. The preliminary allocation of the purchase price and the estimated goodwill are shown below. This allocation is based upon valuations using management's best estimates and assumptions. The purchase price is preliminary and a final determination of fair value will be made upon completion of independent appraisals of the long-lived tangible and intangible assets and liabilities. The resulting goodwill is anticipated to be fully deductible for income tax purposes.

The identifiable intangible assets subject to amortization, totaling \$32.8 million, consist primarily of customer relationships and will be amortized over 20 years. The identifiable intangible assets not subject to amortization, totaling \$33.2 million, consist primarily of trademarks and trade names.

(In millions)	<b>January 2, 2008</b>

**Note R Subsequent Event**

In April 2008, PolyOne sold \$80.0 million in aggregate principal amount of 8.875% senior notes due 2012 to certain institutional investors in a private placement exempt from the registration requirements of the Securities Act of 1933. Net proceeds from the offering were used to reduce the amount of receivables sold under the receivables sale facility.

**Table of Contents****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Overview**

We are a leading global provider of specialized polymer materials, services and solutions with operations in thermoplastic compounds, specialty polymer formulations, color and additive systems, thermoplastic resin distribution and specialty vinyl resins, with equity investments in manufacturers of caustic soda and chlorine, and PVC compound products and in a formulator of polyurethane compounds. Headquartered in Avon Lake, Ohio, we have employees at manufacturing sites and distribution facilities in North America, Europe, Asia and Australia and joint ventures in North America and South America. We provide value to our customers through our ability to link our knowledge of polymers and formulation technology with our manufacturing and supply chain to provide an essential link between large chemical producers (our raw material suppliers) and designers, assemblers and processors of plastics (our customers).

We operate within eight operating segments, five of which are reportable segments: Geon Performance Polymers, International Color and Engineered Materials, PolyOne Distribution, Specialty Engineered Materials and Resin and Intermediates. The All Other category contains three operating segments: North American Color and Additives, Producer Services and Specialty Inks and Polymer Systems. On March 20, 2008, we announced the Specialty Engineered Materials segment. This segment includes our thermoplastic elastomer (TPE) compounds product line in Europe and Asia (historically included in International Color and Engineered Materials), North American Engineered Materials (historically included in All Other) and GLS Corporation (GLS). As of April 15, 2008, the Vinyl Business segment has been re-branded to be Geon Performance Polymers. Prior period results of operations have been reclassified to conform to the 2008 presentation. We discuss the sales and operating income of our operating segments in the Segment Information section below. Also, see Note N to the Condensed Consolidated Financial Statements for further information regarding our reportable operating segments.

**Purchase of business** In January 2008, we acquired 100% of the outstanding capital stock of GLS, a global provider of specialty thermoplastic elastomer compounds for consumer, packaging and medical applications. The acquisition resulted in \$66.0 million of intangible assets and \$43.8 million in goodwill. For more information on the GLS acquisition, see Note P to the Condensed Consolidated Financial Statements.

**OxyVinyls Divestment** On July 6, 2007, we sold our 24% interest in Oxy Vinyls LP (OxyVinyls) for \$260.5 million in cash. Proceeds from the sale were used for the redemption of the entire balance of our 10.625% senior notes as well as for the reduction of drawings on short-term facilities.

**Outlook**

We anticipate continued economic uncertainty as well as volatile raw material and energy costs. Based on early results, we anticipate second-quarter 2008 sales growth of approximately 6% to 8%, including organic sales growth in the low single digits, despite weak demand trends in the North American residential construction and automotive markets.

Geon Performance Polymers segment sales are expected to show sequential improvement from the first quarter of 2008, but decline 9% to 12% from the second quarter of 2007. International demand generally remains intact, although select pockets of softening are evident with customers who primarily export to North America.

Aggregate margin improvements for International Color and Engineered Materials, North America Color and Additives, Specialty Inks and Polymer Systems, Specialty Engineered Materials and PolyOne Distribution are expected to drive operating income growth in excess of second-quarter 2007 levels. Aggregate Geon Performance Polymers and Producer Services operating margin is projected to increase sequentially, but remain below the year-ago level due to continued weak end-market demand. Resin and Intermediates earnings are expected to be lower compared with second-quarter 2007 and first-quarter 2008 results, due to low incremental chlorine demand outweighing benefits from higher caustic pricing.

Based on these projections, we expect second-quarter 2008 earnings to increase sequentially versus first-quarter 2008 results.

Based upon current North American demand levels, we have modified our full-year 2008 sales growth estimate to

**Table of Contents**

7% to 10%, from the prior estimate of 10% to 12%. We continue to anticipate positive year-over-year earnings growth in 2008; however, the distribution of quarterly earnings is expected to be more heavily weighted toward the second half of the year.

**Results of Operations****Summary of Consolidated Results:**

Aggregate sales increased 8.5% in the first quarter of 2008 as compared to the same period in 2007. Sales from the recently acquired GLS business accounted for 5% of this increase. The remainder of the increase was due to sales increases in the International Color and Engineered Materials and PolyOne Distribution segments and the favorable impact from foreign exchange which accounted for 5% of the overall increase, partially offset by a 4% decline in Geon Performance Polymers sales, due mainly to the depressed residential construction market.

Net income declined \$0.9 million in the first quarter of 2008, or \$0.01 per share, compared to the same period in 2007. Income from continuing operations before income taxes declined \$1.5 million in the first quarter of 2008 as compared to the same period in 2007. A table showing material items that comprise this decline is provided after the following table, which sets forth key financial information from our statements of income for the quarters ended March 31, 2008 and 2007, respectively.

**Selected Operating Costs**

Selected operating costs, expressed as a percentage of sales, are as follows:

	<b>Three Months Ended March 31, 2008</b>		<b>2007</b>
Cost of sales	86.5%		85.7%
Selling and administrative costs	9.6%		9.1%

**Cost of Sales** These costs include raw materials, plant conversion, distribution and environmental remediation charges. These costs increased in the first quarter of 2008 as compared to the same period in 2007 as a result of higher raw material costs not yet fully offset by price increases largely associated with the Geon Performance Polymers business and those other businesses impacted by the slowdown in the building and construction market. Included in cost of sales is the \$1.6 million recognition of inventory step-up associated with the GLS acquisition.

**Selling and Administrative** These costs generally include selling, technology and administrative functions and corporate and general expenses. Selling and administrative costs increased \$8.4 million, or 14%, for the three months

ended March 31, 2008 compared to the same period in 2007. The change in selling and administrative expense was due mainly to an increase in selling and administrative costs associated with the acquisition of GLS of \$3.8 million, the impact of foreign exchange of \$2.2 million and increased investment in commercial resources and capabilities.

**Other Components of Income and Expense**

Discussions of significant components of income and expense that are presented below the line Operating income in the Condensed Consolidated Statements of Income are provided below.

**Table of Contents**

**Interest expense** The decrease in interest expense of \$6.1 million for the three months ended March 31, 2008 as compared to the same period in 2007 was due primarily to the repurchase of \$241.4 million of our 10.625% senior notes.

**Other expense, net** The following table lists the major items included in other expense, net:

(In millions)	Three Months Ended March 31,	
	2008	2007
Currency exchange loss	\$ (0.1)	\$ (0.6)
Foreign exchange contracts gain (loss)	(0.2)	0.3
Discount on sale of trade receivables	(1.5)	(0.3)
Other loss	(0.2)	(0.3)
Other expense, net	\$ (2.0)	\$ (0.9)

**Income tax expense** The first quarter of 2008 income tax expense of \$3.2 million reflects an effective tax rate of 33.0% and the income tax expense of \$3.8 million in the first quarter of 2007 reflects an effective tax rate of 33.9%. The difference between the effective rate and the statutory rate in both periods was primarily due to the impact of foreign source income.

**Geon Performance Polymers**

Geon Performance Polymers sales were \$10.1 million, or 4%, lower than the first quarter of 2007. The business was primarily impacted by the slowdown in the building and construction end markets, consistent with recent quarters. Our Asian vinyl compounding business, with the acquisition of Ngai Hing Plastchem Company Ltd. in the fourth quarter of 2007, demonstrated a 45% increase in revenue over the comparable period in the previous year. Operating income decreased 65% from the first quarter of 2007. This decrease was primarily due to significantly lower volumes and, to a lesser degree, margin compression between raw material costs and selling prices.

**International Color and Engineered Materials**

International Color and Engineered Materials first quarter 2008 sales increased \$21.2 million, or 15%, due to continuing double digit growth in our Asian Color and Additives business, favorable foreign exchange and modest growth in the Engineered Materials businesses in Europe and Asia. Favorable foreign exchange rates increased sales by \$19.3 million, or 13%. Asian sales across all product platforms grew 19%, including the impact of foreign exchange. This increase was driven by our Color and Additives business, which grew sales 31% due to an improved mix of specialty applications utilizing our liquid color and additives product technologies, and 8% sales growth in our Asian Engineered Materials business despite unfavorable conditions in electrical and electronics markets, primarily due to lower export demand to North America.

Operating income increased \$1.8 million, or 30%, in the first quarter of 2008 compared to the first quarter of 2007. This increase was primarily due to improved margins due to greater penetration of specialty applications in the packaging, wire and cable and automotive end markets and to improved product mix based on new specialty additive products. Value selling, cost management actions and exiting lower profitability business also contributed to the margin increase. Foreign exchange had a favorable impact on operating income of \$1.0 million.

**Table of Contents****PolyOne Distribution**

PolyOne Distribution sales increased \$16.7 million, or 9%, as compared to the first quarter of 2007 driven by a 9% increase in average selling prices that were realized due to rising material and energy costs. An increased investment in commercial resources coupled with a national accounts program, and a strong pipeline of new sales opportunities in various markets all contributed favorably to the sales growth, helping to offset lower demand from our existing customer base due to weakening North American market conditions.

Operating income was \$5.5 million, up 20% from the first quarter of 2007. This increase was largely due to a stronger sales mix and to higher gross margins.

**Specialty Engineered Materials**

Sales increased \$32.1 million, or 99%, in the first quarter of 2008 as compared to the first quarter of 2007 primarily due to \$33.0 million of sales from GLS, which was acquired in January 2008, slightly offset by lower organic sales for the first quarter of 2008, due to weak demand in the building and construction and automotive markets as well as exiting low margin business. Segment gross margins expanded through mix improvements and accelerated penetration of specialty applications. The impact of foreign exchange was immaterial.

Operating income was up \$3.8 million in the first quarter of 2008 as compared to the first quarter of 2007, primarily driven by the GLS acquisition. Additionally, achieving an improved mix of specialty applications and the exiting of lower profitability business also contributed to the year-over-year income improvement.

**Resin & Intermediates**

First quarter 2008 operating income increased \$1.6 million, or 37%, compared to the first quarter of 2007. In July 2007, we divested our 24% interest in OxyVinyls, which in the first quarter of 2007 lost \$1.3 million. SunBelt earnings were \$0.2 million higher in the first quarter of 2008 compared to the first quarter of 2007 despite volumes being 4% lower. Year-over-year ECU netbacks were up approximately 17% on the strength of caustic pricing. Demand for caustic remained strong, but chlorine demand declined compared to the same period a year ago due to weak downstream PVC resin and polyurethane market conditions primarily attributable to depressed construction end markets.

**All Other**

All Other includes the North American Color and Additives, Producer Services and Specialty Inks and Polymer Systems operating segments. Sales in aggregate were down 5% from first quarter 2007 due mainly to a 4% decline in North American Color and Additives sales and a 9% decline in Producer Services sales. Producer Services sales were down reflecting declines in traditionally cyclical markets.

Operating income improved by \$2.5 million, or 167%, in the first quarter of 2008 compared to the first quarter of 2007 despite the revenue decline. North American Color and Additives accounted for the majority of this improvement due to benefits realized from improved commercial disciplines, pruning low margin business and tight operating cost control. Specialty Inks and Polymer Systems operating income improved by 40% in the first quarter of 2008 as compared to the first quarter of 2007, resulting from an improved mix of inks and urethane products and improved value-added selling discipline.

**Operating Activities** Our operations provided \$57.1 million of cash in the first three months of 2008, an increase of \$53.3 million from the same period in 2007 due primarily to the increase in the sale of accounts receivable used to fund the purchase of GLS. Working capital used \$13.5 million more cash in the first three months of 2008, as illustrated below.

<b>Net cash provided (used) by financing activities</b>	<b>\$ 81.2</b>	<b>\$ (0.3)</b>	<b>\$ 81.5</b>

**Financing activities** Cash provided by financing activities in the first three months of 2008 totaled \$81.2 million, mainly the result of additional short and long-term debt issued to fund the GLS acquisition.

As of March 31, 2008, we had existing facilities to access available capital resources (receivables sale facility, uncommitted short-term credit lines and senior unsecured notes and debentures) totaling \$568.5 million. As of March 31, 2008, we had used \$508.0 million of these facilities, and \$60.5 million was available to be drawn while remaining in compliance with all covenants associated with these facilities. As of March 31, 2008, we also had a \$59.2 million cash and cash equivalents balance that exceeded our typical operating cash requirements of \$35 million to \$40 million, adding to our available liquidity.

The following table summarizes our available and outstanding facilities at March 31, 2008:

(In millions)	Outstanding	Available
Long-term debt, including current maturities	\$ 331.8	\$
Receivables sale facility	86.6	60.5
Short-term debt	89.6	
	<b>\$ 508.0</b>	<b>\$ 60.5</b>

**Long-Term Debt** At March 31, 2008, long-term debt totaled \$309.1 million, with maturities ranging from 2008 to 2015. Current maturities of long-term debt at March 31, 2008 were \$22.7 million.

In April 2008, we sold \$80.0 million in aggregate principal amount of 8.875% senior notes due 2012 to certain institutional investors in a private placement exempt from the registration requirements of the Securities Act of 1933. Net proceeds from the offering were used to reduce the amount of receivables sold under the receivables sale facility.

**Guarantee and Agreement** We entered into a definitive Guarantee and Agreement with Citicorp USA, Inc., on June 6, 2006. Under this Guarantee and Agreement, we guarantee the treasury management and banking services provided to us and our subsidiaries, such as subsidiary borrowings, interest rate swaps, foreign currency forwards, letters of credit, credit card programs and bank overdrafts. This guarantee is secured by our inventories located in the United States.

**Credit Facility** On January 3, 2008, we entered into a credit agreement with Citicorp USA, Inc., as administrative agent and as issuing bank, and The Bank of New York, as paying agent. The credit agreement provides for an unsecured

**Table of Contents**

revolving and letter of credit facility with total commitments of up to \$40.0 million. The credit agreement expires on March 20, 2011.

Borrowings under the revolving credit facility are based on the applicable LIBOR rate plus a fixed fee. On January 9, 2008, we borrowed \$40.0 million under the agreement and entered into a floating to fixed interest rate swap expiring on January 9, 2009, resulting in an effective interest rate of 8.4%. The credit agreement contains covenants that, among other things, restrict our ability to incur liens, and various other customary provisions, including affirmative and negative covenants, and representations and warranties. As of March 31, 2008, we are in compliance with such covenants.

***Receivables Sale Facility*** The receivables sale facility was amended in June 2007 to extend the maturity to June 2012 and to among other things, modify certain financial covenants and reduce the cost of utilizing the facility. In July 2007, the receivable sale facility was amended to include up to \$25.0 million of Canadian receivables, which increased the facility size to \$200.0 million. The maximum proceeds that we may receive are limited to 85% of the eligible domestic and Canadian accounts receivable sold. This facility also makes up to \$40.0 million available for issuing standby letters of credit as a sub-limit within the \$200.0 million facility, of which \$11.4 million was used at March 31, 2008.

The facility requires us to maintain a minimum fixed charge coverage ratio (defined as Adjusted EBITDA less capital expenditures, divided by interest expense and scheduled debt repayments for the next four quarters) of at least 1 to 1 when availability under the facility is \$40.0 million or less. As of March 31, 2008, the fixed charge coverage ratio was 1.4 to 1 and we had sold \$86.6 million of accounts receivable, resulting in availability under the facility of \$60.5 million.

During the three months ended March 31, 2008, we sold \$86.6 million of our undivided interest in accounts receivable. We used the net proceeds from the issuance of \$80.0 million of 8.875% senior notes in April 2008 to reduce the amount of accounts receivable sold.

Of the capital resource facilities available to us as of March 31, 2008, the portion of the receivables sale facility that was sold provided security for the transfer of ownership of these receivables. Each indenture governing our senior unsecured notes and debentures and our guarantee of the SunBelt notes allows a specific level of secured debt, above which security must be provided on each indenture and our guarantee of the SunBelt notes. The receivables sale facility and our guarantee of the SunBelt notes are not considered debt under the covenants associated with our senior unsecured notes and debentures. As of March 31, 2008, we had sold \$86.6 million of accounts receivable and had guaranteed \$60.9 million of our SunBelt equity affiliate's debt.

We expect that profitable operations in 2008 will enable us to maintain existing levels of available capital resources and meet our cash requirements. Expected sources of cash in 2008 include net income, additional borrowings under existing or new loan agreements, cash distributions from equity affiliates and proceeds from the sale of previously closed facilities and redundant assets. Expected uses of cash in 2008 include interest expense and discounts on the sale of accounts receivable, cash taxes, a contribution to a defined benefit pension plan, debt retirements upon maturity, environmental remediation at inactive and formerly owned sites and capital expenditures. Capital expenditures are currently estimated to be between \$50 and \$60 million in 2008, primarily to support strategic growth initiatives and manufacturing operations and to upgrade our ERP system.

Based on current projections, we believe that we should be able to continue to manage and control working capital, discretionary spending and capital expenditures and that cash provided by operating activities, along with available borrowing capacity under our receivables sale facility, should allow us to maintain adequate levels of available capital resources to fund our operations and meet debt service and minimum pension funding requirements for both the short- and long-term.

**Critical Accounting Policies and Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires us to make estimates and assumptions about future events that affect the amounts reported in our financial statements and accompanying notes. We base our estimates on historical experience and assumptions that we believe are reasonable under the related facts and circumstances. The application of these critical accounting policies involves the exercise of judgment and use of assumptions for future uncertainties. Accordingly, actual results could differ significantly from

**Table of Contents**

these estimates. A description of these accounting policies and estimates is included in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2007. For additional information regarding our accounting policies, see Note C to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2007.

**Goodwill** As of March 31, 2008, we had \$333.1 million of goodwill that resulted from the acquisition of businesses. SFAS No. 142, Goodwill and Other Intangible Assets, requires us to perform impairment tests of our goodwill at least once a year, and more frequently if an event or circumstance indicates that an impairment or decline in value may have occurred. To make this impairment assessment, we compare the fair value of each of our reporting units with that reporting unit's carrying value. If the fair value of the reporting unit exceeds its carrying value, goodwill is considered not to be impaired. If the carrying value of a reporting unit exceeds its fair value, an impairment loss is measured and recognized. We have selected July 1 as our annual impairment testing date. We determined that goodwill was not impaired when we performed our last annual assessment as of July 1, 2007. As of March 31, 2008, no potential indicator of impairment exists, such as a significant adverse change in legal factors or business climate, an adverse action or assessment by a regulator, unanticipated competition, loss of key personnel or a more-likely-than-not expectation that a reporting unit or a significant portion of a reporting unit will be sold or disposed. Please refer to Note C of the Condensed Consolidated Financial Statements for further discussion. Based upon this, we concluded that an interim assessment as of March 31, 2008 was not required. We will perform our 2008 annual assessment during the third quarter of 2008.

**CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS**

In this quarterly report on Form 10-Q, statements that are not reported financial results or other historical information are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995.

Forward-looking statements give current expectations or forecasts of future events and are not guarantees of future performance. They are based on management's expectations that involve a number of business risks and uncertainties, any of which could cause actual results to differ materially from those expressed in or implied by the forward-looking statements. You can identify these statements by the fact that they do not relate strictly to historic or current facts.

They use words such as anticipate, estimate, expect, project, intend, plan, believe and other words and terms having meaning in connection with any discussion of future operating or financial performance and/or sales. In particular, these include statements relating to future actions; prospective changes in raw material costs, product pricing or product demand; future performance; results of current and anticipated market conditions and market strategies; sales efforts; expenses; the outcome of contingencies such as legal proceedings; and financial results. Factors that could cause actual results to differ materially include, but are not limited to:

- the effect on foreign operations of currency fluctuations, tariffs, nationalization, exchange controls, limitations on foreign investment in local businesses and other political, economic and regulatory risks;

- changes in polymer consumption growth rates within the U.S., Europe or Asia or other countries where PolyOne conducts business;

- changes in global industry capacity or in the rate at which anticipated changes in industry capacity come online in the polyvinyl chloride (PVC), chlor-alkali, vinyl chloride monomer (VCM) or other industries in which PolyOne participates;

- fluctuations in raw material prices, quality and supply and in energy prices and supply, in particular fluctuations outside the normal range of industry cycles;

- production outages or material costs associated with scheduled or unscheduled maintenance programs;

- the cost of compliance with environmental laws and regulations, including any increased cost of complying with new or revised laws and regulations;

unanticipated developments that could occur with respect to contingencies such as litigation and environmental matters, including any developments that would require any increase in our costs and/or reserves for such contingencies;

an inability to achieve or delays in achieving or achievement of less than the anticipated financial benefit from initiatives related to PolyOne's specialization strategy, operational excellence initiatives, cost reductions and employee productivity goals;

an inability to raise or sustain prices for products or services;

**Table of Contents**

an inability to maintain appropriate relations with unions and employees in certain locations in order to avoid business disruptions;

any change in any agreements with product suppliers to PolyOne Distribution that prohibits PolyOne from continuing to distribute a supplier's products to customers;

the ability to successfully integrate GLS;

the ability to successfully integrate Ngai Hing PlastChem, and

other factors affecting our business beyond our control, including, without limitation, changes in the general economy, changes in interest rates and changes in the rate of inflation.

We cannot guarantee that any forward-looking statement will be realized, although we believe we have been prudent in our plans and assumptions. Achievement of future results is subject to risks, uncertainties and inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Investors should bear this in mind as they consider forward-looking statements.

We undertake no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. You are advised, however, to consult any further disclosures we make on related subjects in our reports on Forms 10-Q, 8-K and 10-K furnished to the SEC. You should understand that it is not possible to predict or identify all risk factors. Consequently, you should not consider any such list to be a complete set of all potential risks or uncertainties.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

PolyOne is exposed to market risk from changes in interest rates on debt obligations and from changes in foreign currency exchange rates. Information about these risks and exposure management is included in Item 7A "Qualitative and Quantitative Information about Market Risk" in PolyOne's Annual Report on Form 10-K for the year ended December 31, 2007. PolyOne periodically enters into interest rate swap agreements that modify its exposure to interest rate risk by converting fixed-rate obligations to floating rates. PolyOne maintained interest rate swap agreements on one of its fixed-rate obligations in the aggregate amount of \$10.0 million at March 31, 2008. At March 31, 2008, this agreement had a net fair value obligation of \$0.1 million. The interest rate for this agreement at March 31, 2008 was 9.14%.

In connection with the \$40.0 million borrowed under the revolving credit facility in January 2008, PolyOne entered into a \$40.0 million floating to fixed interest rate swap expiring on January 9, 2009 resulting in an effective interest rate of 8.4%. This derivative is not treated as a hedge and, as a result, is marked to market, with the resulting gain and loss recognized as interest expense in the Condensed Consolidated Statements of Income. At March 31, 2008, this agreement had a fair value obligation of \$0.4 million.

There have been no material changes in the market risk faced by PolyOne from December 31, 2007 to March 31, 2008.

**Item 4. Controls and Procedures**

**Disclosure controls and procedures**

PolyOne's management, under the supervision of and with the participation of our Chief Executive Officer and our Chief Financial Officer, has evaluated the effectiveness of the design and operation of PolyOne's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of the end of the period covered by this quarterly report. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this quarterly report, PolyOne's disclosure controls and procedures were effective.
