PROXY STATEMENT

GENERAL INFORMATION AND VOTING

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of Cooper Tire & Rubber Company (the Company, Cooper Tire, our, we or us) to be used at the Annual Meeting of Stockholders of the Company to be held on May 5, 2009, at 10:00 a.m., Eastern Daylight Time, at The Westin Detroit Metropolitan Airport, Lindbergh Ballroom, McNamara Terminal, 2501 Worldgateway Place, Detroit, Michigan 48242. This proxy statement and the related form of proxy were first mailed or made available to stockholders on or about March 26, 2009.

Purpose of Annual Meeting

The purpose of the Annual Meeting is for stockholders to act on the matters outlined in the notice of Annual Meeting on the cover page of this proxy statement. These matters consist of (1) the election of three Directors, (2) the ratification of the selection of the Company's independent auditors for the year ending December 31, 2009, and (3) the transaction of such other business as may properly come before the Annual Meeting or any postponement(s) or adjournment(s) thereof.

Voting

Only stockholders who owned shares of Common Stock at the close of business on March 9, 2009 (the record date) will be eligible to vote at the Annual Meeting. As of the record date, there were 58,948,505 shares of Common Stock outstanding. Each stockholder will be entitled to one vote for each share owned.

The holders of a majority of the shares of Common Stock issued and outstanding, and present in person or represented by proxy, constitute a quorum. Abstentions and broker non-votes with respect to a proposal will be counted to determine whether a quorum is present at the Annual Meeting. Broker non-votes occur when certain nominees holding shares for beneficial owners do not vote those shares on a particular proposal because the nominees do not have discretionary authority to do so, and have not received voting instructions with respect to the proposal from the beneficial owners.

Agenda Item 1. Except in the case of a contested election, each nominee for election as a Director who receives a majority of the votes cast with respect to such Director's election by stockholders will be elected as a Director. In the case of a contested election, the nominees for election as Directors who receive the greatest number of votes will be elected as Directors. Abstentions and broker non-votes are not counted for purposes of the election of Directors.

Agenda Item 2. Although the Company's independent auditors may be selected by the Audit Committee of the Board of Directors without stockholder approval, the Audit Committee will consider the affirmative vote of a majority of the

shares of Common Stock having voting power present in person or represented by proxy at the Annual Meeting to be a ratification by the stockholders of the selection of Ernst & Young LLP as the Company's independent auditors for the year ending December 31, 2009. As a result, abstentions will

Table of Contents

have the same effect as a vote cast against the proposal, but broker non-votes will have no effect on the outcome of this proposal.

Proxy Matters

Stockholders may vote either by completing, properly signing, and returning the accompanying proxy card, or by attending and voting at the Annual Meeting. If you properly complete and return your proxy card in time to vote, your proxy (one of the individuals named in the proxy card) will vote your shares as you have directed. If you sign and return the proxy card but do not indicate specific choices as to your vote, your proxy will vote your shares to elect the nominees listed under "Nominees for Director" and to ratify the selection of the Company's independent auditors.

Stockholders of record and participants in certain defined contribution plans sponsored by the Company (see below) may also vote by using a touch-tone telephone to call 1-800-690-6903, or by the Internet by accessing the following website: <http://www.proxyvote.com>.

Voting instructions, including your stockholder account number and personal proxy control number, are contained on the accompanying proxy card. You will also use this accompanying proxy card if you are a participant in the following defined contribution plans sponsored by the Company:

Spectrum Investment Savings Plan
Pre-Tax Savings Plan (Findlay)

Pre-Tax Savings Plan (Texarkana)

Those stockholders of record who choose to vote by telephone or Internet must do so by not later than 11:59 p.m., Eastern Daylight Time, on May 4, 2009. All voting instructions from participants in the defined contribution plans sponsored by the Company and listed above must be received by not later than 5:00 p.m., Eastern Daylight Time, on May 1, 2009.

A stockholder may revoke a proxy by filing a notice of revocation with the Secretary of the Company, or by submitting a properly executed proxy bearing a later date. A stockholder may also revoke a previously executed proxy (including one submitted by Internet or telephone) by attending and voting at the Annual Meeting, after requesting that the earlier proxy be revoked. Attendance at the Annual Meeting, without further action on the part of the stockholder, will not operate to revoke a previously granted proxy. If the shares are held in the name of a bank, broker or other holder of record, the stockholder must obtain a proxy executed in his or her favor from the holder of record to be able to vote at the Annual Meeting.

AGENDA ITEM 1

ELECTION OF DIRECTORS

The Bylaws of the Company provide for the Board of Directors to be divided into three classes. Three Directors are to be elected to the class having a term expiring in 2012. If elected, each Director will serve for a three-year term expiring in 2012 and until his or her successor is elected and qualified. Each of the nominees is a Director standing for re-election and has consented to stand for election to a term as described above. In the event that any of the nominees becomes unavailable to serve as a Director before the Annual Meeting, the Board of Directors will designate a new nominee, and the persons named as proxies will vote for that substitute nominee.

The Board of Directors recommends that stockholders vote FOR the three nominees for Director.

AGENDA ITEM 2

**RATIFICATION OF THE SELECTION OF THE COMPANY'S INDEPENDENT
AUDITORS**

Ernst & Young LLP served as independent auditors of the Company in 2008 and has been retained by the Audit Committee to do so in 2009. In connection with the audit of the 2008 financial statements, the Company entered into an engagement letter with Ernst & Young LLP that sets forth the terms by which Ernst & Young LLP will perform audit services for the Company. That agreement is subject to alternative dispute resolution procedures. The Board of Directors has directed that management submit the selection of the independent auditors for ratification by the stockholders at the Annual Meeting.

Stockholder ratification of the selection of Ernst & Young LLP as the Company's independent auditors is not required by the Company's Bylaws or otherwise. However, the Board of Directors is submitting the selection of Ernst & Young LLP to the stockholders for ratification. If the stockholders do not ratify the selection, the Audit Committee will reconsider whether or not to retain the firm. In such event, the Audit Committee may retain Ernst & Young LLP, notwithstanding the fact that the stockholders did not ratify the selection, or select another nationally recognized accounting firm without resubmitting the matter to the stockholders. Even if the selection is ratified, the Audit Committee reserves the right in its discretion to select a different nationally recognized accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

The Board of Directors recommends that stockholders vote FOR the ratification of the selection of the Company's independent auditors.

COMPENSATION DISCUSSION AND ANALYSIS

Table of Contents*2008 Executive Compensation Highlights*

Our executive compensation program is designed to motivate the achievement of financial results that provide value to our stockholders.

Our executive compensation program emphasizes pay-for-performance through annual and long-term incentive programs, which collectively:

- are the majority of our named executive officers' targeted annual compensation; and
- only pay if specific goals are achieved.

Our executives also receive base salaries, retirement and other benefits.

Our 2008 incentive plans were designed to focus the executive team on profitability and controlling costs while maintaining quality and managing cash flow, which:

- are key elements of our business strategy; and
- lead to stockholder value.

Based on our 2008 performance in these critical areas, which was below targeted levels, our executives did not receive payouts under the annual and long-term incentive plans for 2008 performance as highlighted in the following table:

Incentive Plan	2008 Measures of Success	2008 Performance
<i>Annual</i>	Company Net Income or Division Operating Profit (50% weighting)	Below payout threshold
	Free Cash Flow (30% weighting)	Below payout threshold
	Strategic Goals consisting of Revenue Growth, Operational Excellence and Organizational Capabilities (20% weighting)	Below payout threshold
<i>Long-Term</i>	<i>2006-2008 Performance Cycle (over 3 year period)</i>	
	Return on Invested Capital (62.5% weighting)	Below payout threshold
	Stock Appreciation (37.5% weighting)	Below payout threshold
	<i>2007-2009 Performance Cycle (2nd Year)</i>	
	Net Income (70% weighting)	Below payout threshold
	Cash Flow (30% weighting)	Below payout threshold

2008-2010 Performance Cycle

(1st Year)

Earnings Per Share (70% weighting)	Below payout threshold
Return on Invested Capital (30% weighting)	Below payout threshold

The Compensation Committee believes the 2008 pay levels were appropriately in line with performance results and reinforces our executive compensation program's objective of pay-for-performance.

Executive Compensation Philosophy and Approach

Our Philosophy is to Provide Market Competitive Pay for Achieving Targeted Results

We target the compensation opportunities that we offer, both for each element of compensation and in the aggregate, at the middle of the range offered by comparably-sized companies. For officer positions, market pay practices were reviewed in late 2007 based on comparably-sized general industry companies and a comparator group of 29 consumer-branded durable goods companies. These companies (listed below) were selected based on industry, annual revenues and location (generally international operations with a significant presence in the Midwest). Market data was gathered for base salary, target annual and long-term incentive award levels for executives in comparable positions.

American Axle & Mfg Holdings Inc.	The Black & Decker Corp.
Briggs & Stratton Corp.	Energizer Holdings Inc.
Exide Technologies	Fleetwood Enterprises Inc.
Flowserve Corp.	Harley-Davidson Inc.
Harsco Corp.	Hasbro Inc.
Hayes Lemmerz International Inc.	HNI Corp.
Jarden Corp.	Kennametal Inc.
Leggett & Platt Inc.	Lennox International Inc.
The Lubrizol Corp.	NACCO Industries Inc.
Newell Rubbermaid Inc.	Owens Corning
Owens-Illinois Inc.	Pactiv Corp.
The Scotts Miracle Gro Company	Snap-On Inc.
Spectrum Brands Inc.	The Stanley Works
Steelcase Inc.	The Timken Co.
Trinity Industries Inc.	

Our Pay Levels Are Set Considering Business Needs, Market Data and Other Factors

We use a consistent approach for setting the compensation for all executives. We take a holistic approach when establishing salary, annual and long-term incentive award opportunities. As a result, we review market benchmark data as provided by our outside compensation consultant for comparable positions and establish similar target incentive award opportunities as a percentage of base salary. Actual total compensation can vary widely from target compensation based on Company and business unit performance because pay is ultimately a function of actual performance.

Our Pay Program is Designed to Attract, Motivate and Retain Outstanding Executive Talent

In order to maximize stockholder value, we have designed our executive compensation program to attract, motivate and retain outstanding executives through the following principles:

Pay for performance. A significant portion of the value that our executives realize as compensation is based on performance, which motivates our executives to achieve annual and long-term goals. As such, the majority of the annual pay opportunity is variable and at-risk, which means it is earned based on our achievement of financial goals. The value realized from earned equity awards is also based on the appreciation of our stock price over the performance period.

Table of Contents

Be competitive. We establish our executive compensation opportunities, in part, based on a review of the practices for comparable positions at companies with annual revenues comparable to that of the Company.

Facilitate stock retention. We deliver a substantial portion of the long-term incentive opportunity by granting equity awards. Ongoing stock retention is required of our named executive officers and senior executives who are subject to minimum ownership guidelines.

Encourage long service. We offer retirement and savings plan benefits which are payable after our executives retire from the Company.

Our Executive Compensation Program Emphasizes Performance-Based Pay

In order to motivate and reward executives for maximizing stockholder value, the majority of each executive's annual target compensation will be variable, at-risk compensation. The at-risk portion increases as an executive assumes greater levels of responsibility and has a greater impact on the Company. The percentage of our named executive officers' 2008 target total direct compensation (comprised of salary, target annual and long-term incentive award opportunities) that was at-risk as of the time it was initially approved is presented in the table below:

	Base Salary	Target Annual Incentive (At-Risk Compensation)	Target Long-Term Incentive (At-Risk Compensation)	Target Total Direct Compensation
Mr. Armes	21%	17%	62%	100%
Mr. Weaver	30%	15%	55%	100%
Mr. Kline	35%	16%	49%	100%
Mr. Krivoruchka	39%	18%	43%	100%
Mr. Miller	34%	15%	51%	100%

Our Executive Officer Compensation Program is Administered by the Compensation Committee.

Our Compensation Committee is responsible for performing the duties of the Board of Directors relating to the compensation of our executive officers and other senior management. The Compensation Committee reviews and approves all elements of our executive compensation program. Management is responsible for making recommendations to the Compensation Committee regarding executive officer compensation (except with respect to Mr. Armes' compensation) and effectively implementing our executive compensation program, as approved by the Compensation Committee.

The Compensation Committee has retained Towers Perrin, an outside compensation consultant, to provide pay benchmarking and other assistance, as directed by the Compensation Committee. The Compensation Committee annually analyzes market benchmark data provided by Towers Perrin regarding base salary and annual and long-term incentive opportunities, and evaluates periodically, most recently in November 2008, market benchmark data regarding other compensation elements.

Additional information about the role and processes of the Compensation Committee is presented under the heading Meetings of the Board of Directors and its Committees Compensation Committee below.

Table of Contents

Our Incentive Performance Targets are Set Based on An Annual Operating Plan and Other Factors.

The Compensation Committee sets annual performance targets at the beginning of each year based on its review of the operating plan as approved by the Board and its determination of what would constitute an appropriate level of performance for the Company or individual business units. Our Chief Executive Officer, Chief Financial Officer and Senior Vice President for Global Human Resources and Communications present specific recommendations to our Compensation Committee regarding the annual performance targets. Management and the Compensation Committee analyze and discuss these recommendations. Modifications, as necessary, may be made by the Compensation Committee generally before it approves the annual performance targets. In setting the performance targets, the following primary factors are considered:

Our expected performance based on our annual operating plan as approved by the Board for the Company and individual business units;

The economic environment in which we expect to operate during the year; and

The achievement of financial results expected to enhance stockholder value.

The Compensation Committee has reviewed the design and operation of our incentive compensation arrangements and determined that these arrangements do not encourage our executives to take any unnecessary or inappropriate risks that would threaten the value of the Company.

Table of Contents**Executive Compensation Program Design***Our Executive Compensation Program Consists of Salary, Incentive Opportunities and Benefits*

We believe our executive compensation program, by element and in total, best achieves our objectives. The primary elements of our executive compensation program, which are key to the attraction, retention and motivation of our named executive officers, are described below:

Element	Purpose	Nature of Component
<i>Base Salary</i>	Reward an individual executive's competencies, skills, experience and performance.	Non- at-risk cash component. Eligible for annual merit increases and adjustments for changes in job responsibilities.
<i>Annual Incentive Compensation</i>	Motivate and reward executives for the achievement of financial goals with results measured against targeted levels.	Performance-based, variable and at-risk cash opportunity. Amount earned will vary based on actual financial and individual results.
<i>Long-Term Incentive</i>	Motivate and reward executives for the achievement of financial goals and stock price appreciation over time.	Performance-based, variable and at-risk equity-based opportunity. Amount realized by the executive is dependent upon financial results and stock price appreciation.
<i>Retirement Benefits</i>	Encourage and reward long- term service by providing market-based benefits upon retirement.	Cash component that varies based on factors such as years of service and compensation level. Contributions tied to incentive awards will vary based on awards earned.

Presented below are the key mechanics of each pay element as applied to our named executive officers for 2008.

Competitive Base Salaries are the Foundation of Our Executive Compensation Program

We provide market competitive base salaries to attract and retain outstanding executive talent, as well as provide a basic degree of financial security and reward for executive performance. We review base salaries annually, and make increases, if any, based on merit, performance, business needs and market conditions.

Our Annual Incentive Plan Rewards Executives for Profitability, Cash Flow and Other Strategic Results

We provide our named executive officers and other executives with an annual incentive award opportunity to motivate and reward them for achieving Company and

Table of Contents

business unit financial goals. The annual cash incentive opportunities are expressed as a percentage of base salary.

For 2008, the Compensation Committee established, based on input from Messrs. Armes, Krivoruchka and Weaver, the following financial performance metrics and strategic goals for the annual incentive program.

Net income for Messrs. Armes, Kline, Krivoruchka and Weaver (50% weighting): Equal to net sales less the cost of goods sold, selling, general and administrative expenses, interest and income taxes.

Operating profit of International Tire for Mr. Miller (50% weighting): Equal to net sales less the cost of goods sold and selling, general and administrative expenses.

Free cash flow (30% weighting): Operating Cash Flow less Capital Spending.

Strategic goals (20% weighting):

- *Revenue growth (6.7% weighting):* Growth in sales through increases in unit volume, premium products and new business.
- *Operational excellence (6.7% weighting):* Reducing our Global Cost Structure through current manufacturing cost reductions with automation, complexity reduction and increasing our low cost country sourcing in Mexico and China.
- *Organizational capabilities (6.7% weighting):* Our ability to improve our organization structure and work culture to drive a greater level of performance management and increase necessary talent with appropriate tools such as Lean, Six Sigma and ERP systems.

Executives with business unit responsibilities have their incentive award opportunity based on both Company and business unit financial goals.

Award payments are based on actual results relative to the established performance targets, as determined by our Compensation Committee. Actual incentive award payments for net income, operating profit and free cash flow performance can range from 0% to 225% of the target incentive award opportunity. For the other performance measures, actual incentive award payments to our named executive officers are generally either 0% or 100% of the target incentive award opportunity.

Our Long-Term Incentives Reward Executives for Financial and Stock Price Performance

We grant long-term incentive awards to help align the interests of our named executive officers and other executives with the investment interests of our stockholders. The Compensation Committee approved long-term incentive award opportunities for each senior executive (including the named executive officers) and the aggregate awards for other participants. Long-term incentive awards are granted under our 2006 Incentive Compensation Plan.

In 2008 (similar to 2007) long-term incentives were provided solely through performance shares, which can be earned over the 2008-2010 period and are payable in early 2011. The Compensation Committee established Company earnings per share (70% weighting) and return on invested capital (30% weighting) performance targets to determine the achievement of performance shares. The Compensation Committee decided to utilize these performance metrics because improvement in our earnings and prudent management of capital is imperative over the three-year time horizon of the performance

Table of Contents

period. Payouts can range from 0% to 200% of the long-term incentive plan target award opportunities. The ultimate value of awards earned will be based on our stock price at the end of the performance/vesting period, and by doing so, the award is aligned with stockholder value creation.

The earnings per share and return on invested capital targets for each year in the 2008-2010 performance period are based on the respective year's operating plan. The performance shares can be notionally earned, or one-third of the total shares granted is earned each year, based on performance for that year in terms of earnings per share and return on invested capital actual results for 2008, 2009 and 2010, respectively. The notionally earned performance shares will earn dividend equivalents. Notionally earned awards will vest and be payable in common stock in early 2011, except in instances of death, disability or retirement.

In January 2007, Mr. Armes received a grant of restricted stock units, which vests after three years, in order to induce him to join the Company and to provide immediate alignment with our stockholders' interests.

Accounting and Tax Implications

The Compensation Committee considers the accounting and tax implications in selecting award types. In the 2008 Summary Compensation Table below, the accounting cost attributed during 2008 to outstanding performance share grants is presented under the Stock Awards column. The full grant date accounting fair value (under Statement of Financial Accounting Standards No. 123 (Revised 2004), or FAS 123(R)) of the 2008 performance share awards is presented in the 2008 Grants of Plan-Based Awards Table below.

The ultimate value, if any, which may be realized by our named executive officers based on performance share awards is not determinable at the date of grant. When the executive receives a distribution of the shares, they are taxed in accordance with the income tax law and regulations applicable at the time at ordinary income rates (subject to withholding) and we receive a corresponding tax deduction when appropriate.

Award Grant Timing and Pricing

Regarding grants of equity-based awards, our policy is to set the grant/exercise price of awards at the average of the high and low trading price of our common stock, as quoted on the New York Stock Exchange, on the date of grant. For current executives, the grant date is the date of our February Board of Directors meeting. For new executives, the grant date is at or shortly after the hiring date for each new eligible executive.

Discretionary Grant Pool

On February 8, 2000, our Board of Directors granted authority to our Management's Executive Committee to make discretionary grants of up to an aggregate of 500,000 shares of our common stock to our executives, and other employees, based on their performance and contributions to the Company. A total of 166,075 shares of our common stock have been granted to employees under this authority since February 8, 2000. Other than for this discretionary authority, only our Compensation Committee and Board of Directors are involved in grants of equity-based awards.

The process of awarding shares of restricted stock on a discretionary basis is based upon a management review and an individual performance evaluation that is tied to

Table of Contents

critical performance matters. These awards are also reviewed with the Compensation Committee.

Awards Prior to 2007

Prior to 2007, we granted performance cash, performance share units, stock options and restricted stock units. The 2006 performance cash and performance share unit awards based on return on invested capital results over a three-year period (January 1, 2006 to December 31, 2008) were not earned since actual results were below minimum levels. Stock options vest in installments of 25% per year beginning one year after the date of grant. The option term is 10 years, after which, if not exercised, the option expires. Restricted stock units generally vest one to three years after the date of grant and are paid in shares of our common stock.

Incentive Plan Changes for 2009

The changing market environment, business conditions, share usage limits and other factors have led the Compensation Committee to revise the 2009 incentive plan design for the named executive officers. Specifically, in order to motivate and reward business performance in 2009, the named executive officers' 2009 target incentive award opportunities comprise the following:

There will be no annual incentive award for 2009.

The long-term incentive award opportunity has been revised to include two elements:

- Performance Cash Award
Cash award will be tied to specific metrics (financial and strategic), notionally earned, but not paid out until year two of the grant cycle if earned (February, 2011).
- Stock Option Award
The stock options will vest in equal installments of 1/3 per year beginning one year after grant.

Analysis of 2008 Executive Compensation Levels

Salary Levels Reflect an Executive's Responsibilities and Other Factors

For 2008, the base salaries for our named executive officers were within a market median range, considering an individual executive's responsibilities, performance, experience and time in position. Our named executive officers, excluding the Chief Executive Officer, received annual merit increases based on performance averaging approximately 3.5%. The Chief Executive Officer's base salary was increased, effective January 1, 2008, as noted below.

2008 Annual Incentive Awards Reflect Our Financial Performance

Presented below are the 2008 performance results for targets set at the beginning of the year. The officers' 2008 annual incentive awards were based on Company performance, except for Mr. Miller, whose award was based on a mix of Company and International Tire Division financial goals. Our 2008 financial performance results were below threshold levels. As such, no annual incentive awards were earned for 2008 performance.

Table of Contents

The Annual Incentive Plan for 2008 was comprised of three elements: Total Net Income/Operating Profit, Free Cash Flow, and Strategic Goals. Any earned awards are paid in cash shortly after the end of the year. Consolidated financial targets for 2008 were as follows:

Corporate Net Income	\$94.9 Million
Corporate Operating Profit	\$192.1 Million
Free Cash Flow	\$(69.6) Million

The Net Income (Operating Profit for Divisional executives) and the Free Cash Flow goals represented 80% of the target award opportunity. Payouts for these financial goals can range from 0% to 225% of target. The strategic goals represented 20% of the target award opportunity. Payouts for the strategic goals are generally either 0% or 100% of target. In order for any payouts to be made for financial goal performance, 70% of the respective target goal must be achieved. In order for any payouts to be made for strategic goal performance, 70% of both the target financial goals (Net Income/Operating Profit and Free Cash Flow) must be achieved. Failure to achieve 70% of the target financial goals will result in no payout of strategic goals. In 2008, the Company's financial performance did not meet the 70% threshold achievement of either financial metric, and, therefore, no payouts were earned by the named executive officers.

Presented below are the named executive officers' 2008 target and actual incentive awards, expressed as a percentage of base salary. As a result of 2008 performance results, the named executive officers did not earn 2008 annual incentive awards.

Executive	2008 Target Incentive (%)	Actual 2008 Incentive (%)
Mr. Armes	100%	0%
Mr. Weaver	50%	0%
Mr. Kline	45%	0%
Mr. Krivoruchka	45%	0%
Mr. Miller	45%	0%

Long-Term Incentive Payouts for Periods Ending in 2008 Reflect Our Performance

We reviewed the performance for the long-term incentive periods ending in 2008 and determined that no shares were earned since financial results were below threshold levels.

The 2008 Long-Term Incentive Plan consisted of two financial metrics: Earnings Per Share and Return on Invested Capital. Any long-term incentive awards earned are granted in the form of shares. Consolidated financial targets were:

Earnings Per Share	\$1.46
Return on Invested Capital	8.30%

In order for any awards to be earned, performance must be at least 80% of the target goal for each of the Earnings Per Share and the Return on Invested Capital metrics. In both cases, the Company's 2008 financial performance did not meet the 80% threshold level and no payouts for the Long-Term Incentive Plan were earned by the named executive officers.

Table of Contents

Presented below are the named executive officers' target share opportunities (each equal to one-third of the aggregate target for the 2008 to 2010 performance cycle). No shares were notionally earned for 2008 financial performance.

Officer	Potential Share Award	Shares Notionally Earned
Mr. Armes	54,106	0
Mr. Weaver	16,016	0
Mr. Kline	9,869	0
Mr. Krivoruchka	7,282	0
Mr. Miller	9,835	0

The potential award range for the 2008 performance share grants, by named executive officer, are presented in the 2008 Grants of Plan-Based Awards Table below. Long-term incentive plan awards have been reviewed and granted on a year-to-year basis similar to the annual incentives.

Compensation for Mr. Roy V. Armes, Our Chairman, Chief Executive Officer and President

On January 1, 2007, Mr. Armes joined us as President and Chief Executive Officer. In December 2007, Mr. Armes was appointed Chairman of the Board. In January 2007, we entered into an employment agreement with Mr. Armes specifying certain pay levels and providing severance benefits in certain circumstances. The terms of the employment agreement were set in order to induce Mr. Armes to join us and were developed based on consideration of market benchmark data for similar companies provided by Towers Perrin and potential cost implications. Key terms of the agreement are summarized below:

Initial base salary of \$700,000.

Target annual incentive award opportunity equal to 85% of base salary. For the 2007 fiscal year, Mr. Armes' annual incentive award was assured to be no less than his target of 85% of his base salary.

Performance share target award opportunity for 2007 to 2009 covering 116,974 shares (one-third or 38,991 of the shares could be notionally earned for 2007 performance and payable in early 2010).

Award of restricted stock units in an aggregate amount at date of grant equal to \$4,000,000, subject to three-year cliff vesting (which means the award vests in total all at one time). Restricted stock units were granted in order to induce Mr. Armes to join us and to provide immediate alignment with our stockholders' interests.

Effective January 1, 2008, the Compensation Committee made pay adjustments to recognize Mr. Armes' appointment as Chairman and his performance (as reflected in the Company's financial performance for 2007), as well as consideration of competitive market pay levels for comparable positions. Specifically, the following pay adjustments were made:

Base salary was increased from \$700,000 to \$850,000.

Target annual incentive award opportunity was increased from 85% to 100% of base salary.

Target long-term incentive award opportunity was increased from 250% to 300% of base salary.

Table of Contents**Other Program Design Elements***Our Officers are Required to Maintain a Minimum Level of Stock Ownership*

We believe that our named executive officers whose business decisions impact our operations and results should obtain and maintain reasonable equity ownership in Cooper Tire. As such, the Compensation Committee has established minimum stock ownership guidelines for our named executive officers. Effective January 2008, our other Vice Presidents became subject to minimum stock ownership guidelines of one-times salary, which must be achieved by January 1, 2013.

Under the guidelines, stock ownership includes the following:

- shares owned outright or jointly owned (if the executive has voting control);
- shares of restricted stock or restricted stock units;
- shares/share equivalents in our deferred compensation program or 401(k) plan; and
- performance shares that are notionally earned.

Unexercised stock options and unearned performance shares do not count towards the stock ownership guidelines.

Presented below are the ownership guidelines and targeted achievement dates as of the end of 2008 for our five named executive officers.

Officer	Ownership Guideline	Targeted Achievement Date
Mr. Armes	Three Times Base Salary	Achievement Targeted for January, 2010
Mr. Weaver	Two Times Base Salary	Achievement Targeted for August, 2010
Mr. Kline	Two Times Base Salary	Achievement Targeted for August, 2010
Mr. Krivoruchka	Two Times Base Salary	Achievement Targeted for August, 2010
Mr. Miller	Two Times Base Salary	Achievement Targeted for August, 2010

In December 2008, the Compensation Committee approved new stock ownership guidelines effective January 1, 2009, for the five named executive officers as follows:

Officer	Ownership Guideline	Targeted Achievement Date
Mr. Armes	Five Times Base Salary	Achievement Targeted for January 1, 2013
Mr. Weaver	Three Times Base Salary	Achievement Targeted for January 1, 2013
Mr. Kline	Three Times Base Salary	Achievement Targeted for January 1, 2013
Mr. Krivoruchka	Three Times Base Salary	Achievement Targeted for January 1, 2013
Mr. Miller	Three Times Base Salary	Achievement Targeted for January 1, 2013

The targeted achievement date was extended to give the named executive officers a reasonable period of time in which to comply with the increased ownership multiples.

If any of our named executive officers do not timely satisfy the stock ownership guidelines, then our Compensation Committee may penalize the executive officer by:

imposing a mandatory payment of 50% of his or her annual bonuses in stock;

requiring that the executive retain 50% of the net after-tax shares following the exercise of stock options or vesting of other equity awards;

requiring that 50% of the executive's long-term incentive awards be paid in stock; or

reducing the executive's long-term incentive grants.

Retirement Benefits

In order to facilitate and reward long service by highly-qualified executives, we provide retirement benefits designed to be competitive with market practices. We provide a combination of automatic contributions and potential matching contributions, if employees contribute and Company performance is at minimum levels.

Pension Plan. We have a cash balance plan in which annually the Company credits a percentage of a participant's compensation to a notional account to which earnings are also credited. Upon retirement, a participant's benefit under the cash balance plan will be paid in the form of an annuity, or in a lump sum, upon the election of the participant. A participant may receive the amount of his or her benefit in a lump sum payment upon termination of employment at any time.

401(k) Plan. If return on beginning stockholders' equity is at least 10% for the year, participants are eligible to receive Company matching contributions of up to 3% of salary if a participant contributes up to 6% of salary. An additional Company contribution will be contributed if return on invested capital achieves certain specified levels. In 2008, no match was made as a result of financial performance.

Non-qualified Plan. This plan makes-up for any benefits not accrued under the pension or 401(k) plans due to Internal Revenue Code limits on qualified benefits, which allows executives, including our named executive officers, to participate at the same level as other employees.

The actuarial change from 2007 in our named executive officers' pension benefits is presented in the 2008 Summary Compensation Table below. Detailed information about these pension plans is presented in the 2008 Pension Benefits Table and related disclosures below.

Elective Deferred Compensation

In order to provide executives an opportunity to defer earned salary or cash incentive awards, we have a non-qualified deferred compensation plan. This is consistent with benchmarks for similar companies resulting in our program being appropriately competitive. The plan allows selected senior management employees (including our named executive officers) to elect to defer receipt of up to 80% of their base salary and up to 100% of their annual and long-term incentive cash compensation each year (subject to an aggregate \$10,000 minimum per year), until a date or dates chosen by the participant. We do not make matching or other employer contributions to the executive deferred compensation plan. Detailed information about this plan is presented in the 2008 Nonqualified Deferred Compensation Table and related disclosures below. This plan is compliant with and administered in accordance with the rules and regulations of Internal Revenue Code Section 409A as are all other plans of the Company that have an element of deferred compensation.

Perquisites

As part of a market competitive executive compensation package, we provide a limited amount of perquisites to senior executives (including the named executive officers). We provide these perquisites, which we believe are consistent with those offered by similar companies, to attract and retain executives. In 2008, we provided corporate automobiles and group term life insurance and, for named executive officers, executive physical examinations. In addition, for some executive business trips, we covered travel

Table of Contents

costs (including tax gross-up of imputed income) of spouses to accompany the executives and participate in business-related activities. The value of these perquisites is presented in the 2008 Summary Compensation Table below as part of the All Other Compensation column.

Employment Agreements and Change in Control Arrangements

We have employment agreements with Messrs. Armes and Weaver and change in control arrangements with our senior executives to assist with attraction and retention. These arrangements only result in payouts in the event an actual change in control or termination (except for Messrs. Armes and Weaver) occurs, and thus are not considered part of annual compensation. We believe the change in control arrangements with senior executives maintain productivity, facilitate a long-term commitment and encourage retention when confronted with the potential disruptive impact of a change in control of the Company.

The employment agreements with Messrs. Armes and Weaver specify minimum pay levels and provide severance benefits in certain circumstances (both with and without a change in control). The terms of Mr. Armes' employment agreement were negotiated in the light of market benchmark data for similar companies provided by Towers Perrin, cost and other considerations, and were set to attract him to join the Company. Mr. Armes' current base salary under his employment agreement is \$850,000 and Mr. Weaver's current base salary under his employment agreement is \$405,861.

The employment agreements for Messrs. Armes and Weaver were amended and restated on December 22, 2008 to be in full compliance with Internal Revenue Code Section 409A.

See Potential Payments Upon Termination or Change of Control for more information regarding these arrangements.

Other Considerations

Clawback Policy

The Board has adopted a Clawback Policy that permits the Company to recoup the bonuses and other incentive-based compensation paid to its executives in certain circumstances. Under this policy, if the Company significantly restates its reported financial results, the Board will review the circumstances that caused such restatement, consider issues of accountability and oversight, and analyze the impact of such restatement on compensation paid or awarded to Company employees. If the restatement is the result of fraud or misconduct, the Board may elect to recover all bonuses (annual incentive awards), long-term incentive pay (LTIP, including performance shares) and other incentive-based compensation paid to the employees who engaged in such fraud or misconduct. Additionally, for employees covered by the Executive Incentive Compensation Plan (currently 34 employees), the Board may elect to recover LTIP paid out to the extent the Company's performance goals were over-stated as a result of such restatement, and for all employees the Board may adjust any unvested or conditionally vested LTIP amounts related to the relevant performance period(s) to reflect the restatement. If the restatement is not the result of fraud or misconduct, the Board may adjust any unvested or conditionally vested LTIP amounts related to the relevant performance period(s) to reflect the restatement. The policy also provides that if the Board determines that any employee has engaged in unethical conduct detrimental to the Company, the Board may seek recoupment of all bonuses, LTIP, or other incentive-based compensation paid to such employee during the

Table of Contents

period(s) of such unethical behavior, and cancel all unvested or conditionally vested incentive-based compensation related to such period(s). Recovery under the Clawback Policy is in addition to any recoupment required or permitted by law, including the Sarbanes-Oxley Act of 2002 and common law, or by contract.

General Tax Deductibility of Executive Compensation

The financial reporting and income tax consequences of the compensation elements are considered by the Compensation Committee when it analyzes the design and level of compensation. The Compensation Committee balances its objective of ensuring effective and competitive compensation packages with the desire to maximize the tax deductibility of compensation.

Regulations issued under Section 162(m) of the Internal Revenue Code provide that compensation in excess of \$1 million paid to the Chief Executive Officer and other named executive officers will not be deductible unless it meets specified criteria for being performance based. Our Compensation Committee generally designs and manages our incentive programs to qualify for the performance-based exemption. It also reserves the right to provide compensation that does not meet the exemption criteria if, in its sole discretion, it determines that doing so advances our business objectives.

For purposes of the amounts reflected above under column (d), we have used the same assumptions that we use for financial reporting purposes under generally accepted accounting principles, except that we have assumed that the retirement age for our named executive officers is each at their current ages. method and the material assumptions applied in quantifying the present value of the current accrued benefit. See also our discussion of pension and postretirement benefits under Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies .

We have a cash balance plan, which is a type of noncontributory defined benefit pension plan in which a participant's benefit is determined as if an individual account had been established for him or her, for our non-union employees in the United States, other than those participants in our existing defined benefit plans who had reached age 40 and had at least 15 years of service with us as of January 1, 2002.

The cash balance plan provides for a participant to have credited to a notional account established for him or her under the cash balance plan a percentage of his or her compensation (as defined in the cash balance plan) each year, and to have earnings credited each year to the participant's notional account balance at an interest rate equal to the 30-year Treasury bond rate. The percentage of the participant's compensation that is credited to his or her notional account each year is based upon the participant's age and years of service, and increases in increments as the participant's total age and years of service increase.

Upon retirement, a participant's benefit under the cash balance plan will be paid in the form of an annuity, or in a lump sum, upon the election of the participant. A participant may receive the amount of his or her benefit in a lump sum payment upon termination of employment at any time. Payment of the benefit in an annuity form may not generally commence until the participant has reached age 55. The amount payable is not reduced by Social Security benefits payable to the participant.

Qualified Deferred Compensation Plans

We maintain a tax-qualified 401(k) plan, the Spectrum Investment Savings Plan, which provides participants an opportunity to save for retirement. Under the 401(k) plan, all participants are eligible to receive matching contributions from us that are subject to vesting over time. There are two parts to our matching contribution.

First, we will contribute up to \$0.50 to each participant's account under the 401(k) plan for every \$1.00 contributed by the participant, up to 6% of the participant's salary, if we meet certain return on stockholders' equity goals for a given year. We will not make a contribution for a particular year unless our return on stockholders' equity for the year is in excess of 10% of the stockholders' equity at the beginning of that year. Second, we will contribute an additional amount if our return on invested capital reaches certain specified levels. In 2008, no matching contribution for our 401(k) plan was made.

Non-Qualified Deferred Compensation Plans

We offer an executive deferred compensation plan to a select group of senior level management (about 25 executives) in order to allow them to defer compensation and save for retirement. Having this plan helps us to attract and retain executive talent. The plan allows selected senior management employees (including the named executive officers) to elect to defer receipt of up to 80% of their base salary and up to 100% of their annual and long-term incentive cash compensation each year (subject to an aggregate \$10,000 minimum per year), until a date or dates chosen by the participant.

Each year, participants must make an irrevocable election to participate in the executive deferred compensation plan and choose (1) the amounts that they will defer for the subsequent year, (2) the form of distribution for the deferred amounts and (3) their investment preferences for the deferred amounts.

The executive deferred compensation plan allows participants to defer income taxation (but not Social Security or Medicare taxation) on the deferred amounts. Deferred amounts will be taxed at ordinary income tax rates when distributed to participants.

We credit deferred amounts in bookkeeping accounts established for each participant and hold the deferred amounts in a trust that we have established for the executive deferred compensation plan. This trust, unlike the trust for our 401(k) plan, is not protected against the claims of third parties. Based on the participants' elections, deferred amounts are credited with earnings as if the deferred amounts were invested in accordance with those funds available under our 401(k) plan that were chosen by the participants. We do not make matching or other employer contributions to the executive deferred compensation plan. Distributions of deferred amounts will be made in accordance with the participants' elections, and generally after the participants' employment terminates, in a lump sum, in up to 10 annual installments, or a combination of these two forms. Participants may in some cases delay distribution of deferred amounts. Participants may also change their distribution elections subject to distribution delays. This plan is compliant with and administered in accordance with the rules and regulations of Internal Revenue Code Section 409A.

(4) Messrs. Aronson and Pond resigned as directors as of May 6, 2008.

Our Nominating and Governance Committee makes compensation decisions for our Directors. Except as noted in the footnotes above, our non-employee Directors received the following compensation for the period January 1, 2008 through June 30, 2008:

an annual retainer of \$45,000;

a \$1,500 fee for participation in each telephonic meeting of the Board of Directors or a meeting of a committee of the Board of Directors;

a \$2,000 per diem fee for attendance at each other meeting of the Board of Directors;

a \$1,500 per diem fee for attendance at each other meeting of the committees of the Board of Directors;

Table of Contents

the Chair of the Audit Committee received a fee of \$7,000 for serving in that capacity; and

the Chairs of the Compensation and Nominating and Governance Committees each received a fee of \$5,000 for serving in those respective capacities.

Effective July 1, 2008, we altered our non-employee Director compensation program as follows:

Each non-employee Director will receive an annual retainer of \$70,000 (paid pro rata for 2008), which represents an increase of \$25,000 from the annual retainer paid in 2007. Fees for attendance at meetings of the Board of Directors and meetings of the Committees of the Board of Directors were eliminated;

The Lead Director will receive an annual fee of \$10,000 for serving in that capacity, which represents an increase of \$3,000 from the fee previously paid to the Lead Director;

The Chair of the Audit Committee will receive an annual fee of \$10,000 for serving in that capacity, which represents an increase of \$3,000 from the fee paid in 2007 to the Chair of the Audit Committee; and

The Chairs of the Compensation Committee and Nominating and Governance Committee will each receive an annual fee of \$7,000 for serving in those capacities, which represents an increase of \$2,000 from the fees paid in 2007 to each of the Chairs of the Compensation Committee and the Nominating and Governance Committee.

Effective May 6, 2008, non-employee Directors will receive an annual grant of phantom stock units in an amount equal to \$70,000 divided by the average of the highest and the lowest quoted selling price of a share of the Company's common stock, as reported on the New York Stock Exchange Composite Tape, on the grant date for that particular year. This represents an increase of \$40,000 from the \$30,000 annual grant made to the non-employee Directors in 2007. The non-employee Directors will no longer be awarded stock options as part of the Director compensation.

Also effective May 6, 2008, the Company increased the Share Ownership Guidelines for non-employee Directors to a level of 10,000 shares. This represents an increase of 2,000 shares from the level of shares required in 2007.

All Directors are required to own at least 10,000 shares of our common stock, excluding options, and have until the end of their second full term as a Director to meet this requirement. As of the date of this proxy statement, each of our directors has met this requirement.

Our non-employee Directors also participate in our Amended and Restated 1998 Non-Employee Directors Compensation Deferral Plan, which we refer to as the Directors' deferral plan. The Directors' deferral plan permits our non-employee Directors to defer some or all of the fees payable to them for service on the Board of Directors. The amounts that our non-employee Directors defer, and dividend equivalents on those amounts, are converted to phantom stock units and credited to a bookkeeping account established for this purpose, or are invested in various alternative investment funds available from time to time under our 401(k) plan or as chosen by the Compensation Committee. Deferred amounts may be transferred from phantom stock units, into the alternative investment funds, but not back into phantom stock units in an amount equal to (1) \$70,000 divided by (2) the average of the highest and the lowest quoted selling price of a share of our common

Table of Contents

stock, as reported on the New York Stock Exchange Composite Tape, on the grant date for that particular year (or, if there were no sales on the grant date, the next preceding date during which a sale of our common stock occurred), which price we refer to as the phantom stock unit closing price. This annual grant is automatically invested in phantom stock units, but may also be transferred to, but not back from, the alternative investment funds.

MEETINGS OF THE BOARD OF DIRECTORS AND ITS COMMITTEES

Corporate Governance

Our Board of Directors is committed to establishing and maintaining a strong governance structure. The Board has adopted Guidelines as to the Role, Organization and Governance of the Board of Directors, which we refer to as our governance guidelines. Our governance guidelines address important governance topics such as Director independence, the conduct of meetings, the structure and composition of the Board, the establishment of committees, Board and Chief Executive Officer evaluations, Director education and succession planning. In addition, the Board holds an executive session comprised solely of independent Directors at each of its meetings. In December 2007, the Board appointed Mr. Meier to serve as Lead Director for the Board. The Board's policy is to conduct an annual review of its governance practices, generally at its May meeting, to make certain that those practices remain effective.

Code of Business Conduct and Ethics

Our Board has adopted a written Code of Business Conduct and Ethics for our Directors, officers (including our principal executive officer, principal financial officer and principal accounting officer) and employees. We have and intend to continue to satisfy the disclosure requirements under Item 5.05 of Form 8-K regarding certain amendments to or waivers from our Code of Business Conduct and Ethics by filing Current Reports on Form 8-K with the Securities and Exchange Commission, and will make any amended Code of Business Conduct and Ethics available at the Investor Relations/Corporate Governance link on our website by <http://www.coopertire.com>.

Board of Directors

During 2008, our Board of Directors held eight Board meetings, five meetings of our Audit Committee, seven meetings of our Compensation Committee and six meetings of our Nominating and Governance Committee. Each Director attended more than 75% of the aggregate number of meetings of the Board of Directors and meetings of Committees on which such Director served during the past fiscal year.

Determination of Independence of Directors

The New York Stock Exchange's Corporate Governance Listing Standards require that all listed companies have a majority of independent directors. For a director to be independent under the NYSE listing standards, the board of directors of a listed company must affirmatively determine that the director has no material relationship with the Company, or its subsidiaries or affiliates, either directly or as a partner, stock holder or officer of an organization that has a relationship with the Company or its subsidiaries or affiliates. The Board has adopted the NYSE listing standards as its categorical standards for making director independence determinations.

Table of Contents

In making independence determinations, the Board has broadly considered all relevant facts and circumstances from the standpoint of both the Director and others. The Board has considered that we, our employees or our affiliates may have engaged in transactions or relationships with companies with which our Directors are associated. Although we know of no particular transaction, relationship or arrangement, these potential transactions might include renting vehicles from Dollar Thrifty Automotive Group, Inc., the company for which Mr. Capo is Chairman of the Board, or purchasing products from the companies for which our Directors are employees. After these considerations, and in accordance with the NYSE listing standards, the Board has affirmatively determined that each Director other than Mr. Armes has no material relationship with us (either directly or as a partner, stockholder or officer of an organization that has a relationship with us).

Additionally, the Board has determined that each Director other than Mr. Armes is independent under the NYSE listing standards, which provide that a Director is not independent if:

the Director is, or has been within the last three years, one of our employees, or an immediate family member is, or has been within the last three years, one of our executive officers;

the Director has received, or has an immediate family member who has received, during any 12-month period within the last three years, more than \$120,000 in direct compensation from us, other than Director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service);

(1) the Director is a current partner or employee of a firm that is our internal or external auditor; (2) the Director has an immediate family member who is a current partner of such a firm; (3) the Director has an immediate family member who is a current employee of such a firm and personally works on our audit; or (4) the Director or an immediate family member was within the last three years a partner or employee of such a firm and personally worked on our audit within that time;

the Director or an immediate family member is, or has been within the last three years, employed as an executive officer of another company where any of our present executive officers at the same time serves or served on that company's compensation committee; or

the Director is a current employee, or an immediate family member is a current executive officer, of a company that has made payments to, or received payments from, us for property or services in an amount which, in any of the last three fiscal years exceeds the greater of \$1 million, or 2% of such other company's consolidated gross revenues.

Audit Committee

We have a separately designated standing Audit Committee that consists of Directors Shuey (Chairman), Breininger, Capo and Chapman and was established in accordance with Section 3 (a) (58) (A) of the Securities Exchange Act of 1934. All members have been determined to be independent under the New York Stock Exchange's Corporate Governance Listing Standards and to be financially literate. The Board has determined that Director Shuey qualifies as our audit committee financial expert due to his business

Table of Contents

experience and educational background described on page 4 of this proxy statement. The Audit Committee:

assists the Board of Directors in fulfilling its oversight responsibilities with respect to the integrity of our financial statements and compliance with legal and regulatory requirements, the independent auditors qualifications and independence, and performance of the independent auditors and our internal audit function; and

prepares the Audit Committee's report to be included in this proxy statement.

The functions of the Audit Committee are set forth in an Audit Committee Charter, which was adopted by the Board on February 4, 2004. We do not have any related person transactions, but our Audit Committee will review and discuss any proposed related person, insider or affiliated party transactions pursuant to the Audit Committee Charter.

Compensation Committee

We have a standing Compensation Committee, which is comprised of Directors Wambold (Chairman), Holland, Meier and Welding. The Compensation Committee:

approves the remuneration arrangements of our Chief Executive Officer and other officers, including the corporate financial goals and objectives relevant to such arrangements;

approves and administers our executive compensation plans and arrangements;

approves the performance criteria against which performance-based executive compensation payments are measured; and

grants cash and stock based awards, stock options, and other benefits as authorized under any executive compensation plans.

Compensation decisions for our senior executive officers are made by our Compensation Committee. Decisions regarding non-equity compensation of our other executive officers are made by our Compensation Committee based on input from our management. Generally, in November of each year, our Compensation Committee provides our management with a guideline to be used for establishing non-equity compensation increases for the following year. Our Chief Executive Officer and Senior Vice President of Global Human Resources and Communications review and implement that guideline, and in December present to the Compensation Committee a recommendation regarding non-equity compensation increases for the following year. The Compensation Committee then reviews, discusses and approves the recommendation, or a modified recommendation if applicable. The Compensation Committee has engaged Towers Perrin, an outside global human resources consulting firm, to conduct an annual review of our total compensation program for named executive officers.

The agenda for meetings of the Compensation Committee is determined by its Chairman with the assistance of our Senior Vice President of Global Human Resources and Communications. Compensation Committee meetings are regularly attended by our Chief Executive Officer and our Senior Vice President of Global Human Resources and Communications. At each meeting, the Compensation Committee meets in executive session. The Compensation Committee's Chairman reports the Compensation Committee's recommendations on executive compensation to the Board of Directors. Independent advisors and our human resources department support the Compensation Committee in its duties and, along with our Chief Executive Officer and Senior Vice President of Global

Table of Contents

Human Resources and Communications, may be delegated authority to fulfill certain administrative duties regarding the compensation programs. The Compensation Committee has authority under its charter to retain, approve fees for and terminate advisors, consultants and agents as it deems necessary to assist in the fulfillment of its responsibilities. The Compensation Committee reviews the total fees paid to outside consultants by us to ensure that the consultant maintains its objectivity and independence when rendering advice to the Compensation Committee.

Nominating and Governance Committee

We have a standing Nominating and Governance Committee, which is comprised of Directors Holland (Chairman), Breininger, Chapman, Meier, and Shuey, each of whom is independent under the New York Stock Exchange's Corporate Governance Listing Standards. The Nominating and Governance Committee's two principal responsibilities are:

recommending candidates for membership on the Board; and

insuring that the Board acts within the governance guidelines and that the governance guidelines remain appropriate.

The Nominating and Governance Committee will consider candidates for Board membership proposed by our stockholders or other parties. Any recommendation must be in writing, accompanied by a description of the proposed nominee's qualifications and other relevant biographical information and an indication of the consent of the proposed nominee to serve. The recommendation should be addressed to the Nominating and Governance Committee of the Board of Directors, Attention: Secretary, Cooper Tire & Rubber Company, 701 Lima Avenue, Findlay, Ohio 45840. As of the date of this proxy statement, we have not received any director nominee recommendations from any stockholders.

The Nominating and Governance Committee uses a variety of sources to identify candidates for Board membership, including current members of the Board, our executive officers, individuals personally known to members of the Board and our executive officers and, as described above, our stockholders, as well as, from time to time, third party search firms. The Nominating and Governance Committee may consider candidates for Board membership at its regular or special meetings held throughout the year.

The Nominating and Governance Committee uses the same manner and process for evaluating every candidate for Board membership regardless of the original source of the candidate's nomination. Once the Nominating and Governance Committee has identified a prospective candidate, the Nominating and Governance Committee makes an initial determination whether to conduct an initial evaluation of the candidate, which consists of an interview by the Chair of the Nominating and Governance Committee. The Nominating and Governance Committee currently has not set specific, minimum qualifications or criteria for nominees that it proposes for Board membership, but evaluates the entirety of each candidate's credentials. The Nominating and Governance Committee believe, however, that we will be best served if our Directors bring to the Board a variety of experience and backgrounds and, among other things, demonstrated integrity, executive leadership and financial, marketing or business knowledge and experience. The Chair communicates the results of this initial evaluation to the other Nominating and Governance Committee members, the Chairman of the Board, the Chief Executive Officer and the General Counsel. If the Nominating and Governance Committee determines, in consultation with the Chairman of the Board and the Chief Executive Officer, that further consideration of the candidate is warranted, members of our senior management gather additional

information regarding the candidate. The Nominating and Governance Committee or members of our senior management then conduct background and reference checks regarding and any final interviews, as necessary, of the candidate. At that point, the candidate is invited to meet and interact with the members of the Board who are not on the Nominating and Governance Committee at one or more Board meetings. The Nominating and Governance Committee then makes a final determination whether to recommend the candidate to the Board for Board membership.

Table of Contents**COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION**

Additionally, during 2008, none of our executive officers or Directors was a member of the board of directors, or on a committee thereof, of any other entity such that the relationship would be construed to constitute a committee interlock within the meaning of the rules of the Securities and Exchange Commission.

RELATIONSHIP WITH INDEPENDENT AUDITORS

Ernst & Young LLP served as the Company's independent auditors for 2008, and has been appointed by the Audit Committee to continue in that capacity during 2009. The Audit Committee's decision to appoint Ernst & Young LLP has been ratified by the Board and will be recommended to the stockholders for ratification at the Annual Meeting. Ernst & Young LLP has advised the Company that neither the firm nor any of its members or associates has any direct or indirect financial interest in the Company. During 2008, Ernst & Young LLP rendered both audit services, including an audit of the Company's annual financial statements, and certain non-audit services. There is no understanding or agreement between the Company and Ernst & Young LLP that places a limit on audit fees since the Company pays only for services actually rendered and at what it believes are customary rates. Professional services rendered by Ernst & Young LLP are approved by the Audit Committee both as to the advisability and scope of the service, and the Audit Committee also considers whether such services would affect Ernst & Young LLP's continuing independence.

Audit Fees

Ernst & Young LLP's aggregate fees billed for 2007 and 2008 for professional services rendered by them for the audit of the Company's annual financial statements, the audit of the effectiveness of the Company's internal control over financial reporting required by the Sarbanes-Oxley Act of 2002, the review of financial statements included in the Company's Quarterly Reports on Form 10-Q, and services that are normally provided in connection with statutory and regulatory filings or engagements for those years are listed below.

------	-------------	------	-------------

Audit-Related Fees

Ernst & Young LLP's aggregate fees billed for 2007 and 2008 for assurance and related services that are reasonable related to the performance of the audit or review of the Company's financial statements, and are not reported under Audit Fees above, were:

2007	\$142,887	2008	\$102,657
------	-----------	------	-----------

Audit-related fees included fees for employee benefit plan audits and accounting consultation. All audit-related services were pre-approved.

Table of Contents

Tax Fees

Ernst & Young LLP's aggregate fees billed for 2007 and 2008 for professional services rendered by them for tax compliance, tax advice and tax planning were:

2007	\$131,958	2008	\$98,377

Tax fees in 2007 and 2008 represented fees primarily for international tax planning and domestic and foreign tax compliance. All tax services were pre-approved.

All Other Fees

Ernst & Young LLP's aggregate fees billed in 2007 and 2008 for products and services provided by them, other than those reported above under Audit Fees, Audit Related Fees and Tax Fees, were as follows:

2007	\$6,360	2008	\$6,360
------	---------	------	---------

All other fees in 2007 and 2008 represented fees for a research tool subscription. All other services were preapproved.

Audit Committee Pre-Approval Policies and Procedures

The Audit Committee has established a policy regarding pre-approval of all audit and non-audit services expected to be performed by the Company's independent auditors, including the scope of and fees for such services. Requests for audit services, as defined in the policy, must be approved prior to the performance of such services, and request for audit-related services, tax services and permitted non-audit services, each as defined in the policy, must be presented for approval prior to the year in which such services are to be performed to the extent known at that time. The policy prohibits the Company's independent auditors from providing certain services described in the policy as prohibited services.

Generally, requests for independent auditor services are submitted to the Audit Committee by the Company's Director of External Reporting (or other member of the Company's senior financial management) and the Company's independent auditors for consideration at the Audit Committee's regularly scheduled meetings. Requests for additional services in the categories mentioned above may be approved at subsequent Audit Committee meetings to the extent that none of such services are performed prior to their approval. The Chairman of the Audit Committee is also delegated the authority to approve independent auditor services requests provided that the pre-approval is reported at the next meeting of the Audit Committee. All requests for independent auditor services must include a description of the services to be provided and the fees for such services.

Auditor Attendance at 2009 Annual Meeting

Representatives of Ernst & Young LLP will be present at the Annual Meeting of Stockholders and will be available to respond to appropriate questions and to make a statement if they desire to do so.

AUDIT COMMITTEE REPORT

This report is submitted by all members of the Audit Committee, for inclusion in this proxy statement, with respect to the matters described in this report.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed and discussed with management the audited financial statements contained in the Company's Annual Report on Form 10-K, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards, including the requirements of the statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1, AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Committee has received the written disclosures and the letter from the independent auditors required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditors' communications with the Committee concerning independence, and has discussed with the independent auditors the independent auditors' independence. The Committee has concluded that the independent auditors are in fact independent of the Company.

The Committee discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The Committee meets with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. The Committee held five meetings during the fiscal year 2008.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, for filing with the Securities and Exchange Commission.

Submitted by the Audit Committee of the Company's Board of Directors:
