Forward-Looking Statements

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 that involve risks and uncertainties, including statements regarding our capital needs, business strategy, expectations and intentions. Statements that use the terms "believe," "do not believe," "anticipate," "expect," "plan," "estimate," "intend" and similar expressions are intended to identify forward-looking statements. These statements reflect our current views with respect to future events and because our business is subject to numerous risks, uncertainties and other factors, our actual results could differ materially from those anticipated in the forward-looking statements, including those set forth below under "Item 1. Business," "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this report. Actual results will most likely differ from those reflected in these statements, and the differences could be substantial. We disclaim any obligation to publicly update these statements, or disclose any difference between our actual results and those reflected in these statements. The information constitutes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The factors set forth below under "Item 1. Business," "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" and other cautionary statements made in this report should be read and understood as being applicable to all related forward-looking statements wherever they appear in this report.

Item 1. Business

Overview

From 1998 through the third quarter of 2001, our principal business was conducted through our subsidiary Rare Medium, Inc., which developed Internet e-commerce strategies, business processes, marketing communications, branding strategies and interactive content using Internet-based technologies and solutions. As a result of the weakening of general economic conditions which caused many companies to reduce spending on Internet-focused business solutions, a decision to discontinue Rare Medium, Inc.'s operations, along with those of its LiveMarket, Inc. subsidiary, was made at the end of the third quarter of 2001.

From 1999 through the first quarter of 2001, we made venture investments by taking strategic minority equity positions in other independently managed companies. Additionally, in the past, we have developed, managed and operated companies in selected Internet-focused market segments ("Start-up Companies"). During the first quarter of 2001, we reduced our focus on these businesses and substantially ceased providing funding to our Start-up Companies. Additionally, we sold a majority of our equity interest in the operations of three of our Start-up Companies: ChangeMusic Network ("ChangeMusic") and ePrize in April 2001 and Regards.com in December 2001. Currently, we are no longer actively seeking

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

new start-up opportunities or venture investments, nor are we managing or operating any Start-up Companies.

As a result of the decision to discontinue the operations of Rare Medium, Inc. and LiveMarket, the operating results reported in our statements of operations as continuing operations include the consolidated results of Rare Medium Group, Inc., our 80% owned MSV Investors, LLC subsidiary ("MSV Investors Subsidiary"), and our Start-up Companies, up to their respective dates of sale or shutdown. The results of Rare Medium, Inc. and LiveMarket are reflected as discontinued operations.

In November 2001, through our MSV Investors Subsidiary, we became a participant in the Mobile Satellite Ventures, L.P. joint venture (the "MSV Joint Venture"), a joint venture which includes TMI Communications, Inc. ("TMI"), Motient Corporation ("Motient"), and certain other investors (the "Other MSV Investors"). The MSV Joint Venture is currently a provider of mobile digital voice and data communications services via satellite in North America. We expect to become an increasingly active participant in the MSV Joint Venture and have designated three members of the 12-member board of directors of the MSV Joint Venture's corporate general partner.

In addition to winding down Rare Medium, Inc., our current operations consist of actively managing our interest in the MSV Joint Venture. Our principal assets consist of our interest in the MSV Joint Venture, five million shares of XM Satellite Radio, Inc. ("XM Satellite Radio") common stock, promissory notes from Motient Corporation with a principal amount of \$26.2 million, our remaining investments in our venture portfolio companies, and cash, cash equivalents and short-term investments. As a result of uncertainty with respect to the ultimate collection on the Motient notes, we recognized a reserve for the entire amount of these notes. See "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations--Liquidity and Capital Resources."

We were incorporated in Delaware in 1985 as ICC Technologies, Inc.

MSV Joint Venture's Business

Overview

The MSV Joint Venture was originally formed in June 2000 as a subsidiary of Motient. In November 2001, following the receipt of regulatory and other governmental approvals, including approvals under the Hart-Scott-Rodino Antitrust Improvements Act, by the Federal Communications Commission ("FCC") and by Canadian regulatory authorities, Motient combined its existing satellite assets and authorizations with certain assets and authorizations of the satellite communications business of TMI, a subsidiary of Bell Canada Enterprises, and these assets and authorizations were contributed to the MSV Joint Venture. The assets and authorizations of the satellite business formerly owned by Motient which were contributed to the MSV Joint Venture included a satellite with coverage of most of North America and its surrounding waters and the associated existing FCC licenses and authorizations. The assets and capabilities of the satellite business contributed to the MSV Joint Venture by TMI included a second satellite (technologically identical to the satellite contributed to the MSV Joint Venture by Motient) with similar geographic coverage, as well as the associated Canadian satellite licenses.

Following the approvals described above and consistent with the terms of an agreement which we entered into in October 2001 with the MSV Joint Venture and certain other investors, on November 26, 2001, through our MSV Investors Subsidiary, we purchased a \$50.0 million interest in the MSV Joint Venture in the form of a convertible note. Immediately prior to the purchase

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

of the convertible note, Rare Medium Group, Inc. contributed \$40 million to the MSV Investors Subsidiary and unrelated third parties contributed \$10.0 million. The note bears interest at a rate of 10% per year, has a maturity date of November 26, 2006, and is convertible at any time at our option into equity interests in the MSV Joint Venture. Currently, the approximate ownership of the MSV Joint Venture's equity interests, assuming conversion of all convertible notes, is as follows: our MSV Investors Subsidiary, 30.8%; TMI, 26.4%; Motient, 33.3%; and the Other MSV Investors, 9.5%. However, in the event that the MSV Joint Venture receives approval from the FCC by March 31, 2003 with regard to its plans for a next-generation satellite system complemented by ancillary terrestrial base stations as described below in "Business - MSV Joint Venture's Strategy," the Other MSV Investors are obligated to invest an additional \$50.0 million in the MSV Joint Venture and, thereafter, the approximate ownership of the MSV Joint Venture's equity interest would be as follows: our MSV Investors Subsidiary, 23.6%; TMI, 20.2%; Motient, 25.5%; and the Other MSV Investors, 30.7%. Because our interest in the MSV Joint Venture is in the form of a note, we do not reflect the results of the MSV Joint Venture's operations in our statements of operations. We are under no obligation to make any further investments in our MSV Investors Subsidiary or in the MSV Joint Venture.

MSV Joint Venture's Current Business

The MSV Joint Venture is currently a provider of mobile digital voice and data communications services via satellite in North America.

Satellite Voice and Data Services. The MSV Joint Venture's satellite phone service supports two-way circuit-switched voice, facsimile and data communication service. The MSV Joint Venture markets satellite telephone and data services to businesses that have nationwide coverage requirements, particularly those operating in geographic areas that lack significant terrestrial coverage, such as natural resource companies, utilities and telecommunications companies that require backup and restorable support, and public safety organizations.

Satellite Dispatch Service. The MSV Joint Venture's satellite dispatch service allows voice communications among users in a customer-defined group using a push-to-talk device. This service facilitates team-based, contingency-driven operations of groups over wide and/or remote areas. The MSV Joint Venture's targeted customer groups for satellite dispatch service include oil and gas pipeline companies, utilities and telecommunications companies with outside maintenance fleets, state and local public safety organizations, and public service organizations who need to seamlessly link resources on a nationwide basis.

MSV Joint Venture's Strategy

The MSV Joint Venture plans, subject to the receipt of further regulatory and government approvals, including certain FCC approvals and certain approvals by Canadian regulatory authorities, to develop, build and operate a next-generation satellite system complemented by ancillary terrestrial base stations (which we sometimes refer to as the "ancillary terrestrial component" or "ATC"). The MSV Joint Venture expects to use L-band spectrum and two satellites to provide mobile digital voice and data communications services in North America.

The FCC and the Canadian equivalent to the FCC, Industry Canada, are currently considering applications submitted by the MSV Joint Venture which could, if granted by both regulatory authorities, greatly expand the scope of the MSV Joint Venture's business by permitting the MSV Joint Venture to incorporate an ATC into its mobile satellite network. An ATC would permit the MSV Joint Venture to reuse its satellite spectrum terrestrially. In this

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

regard, an ATC will allow MSV Joint Venture phones to operate inside of buildings and throughout urban environments, which is currently not possible due to terrain blockage from buildings and other urban structures which interrupt the satellite signal's path. In response to the MSV Joint Venture's application, the FCC is currently seeking public comment on proposals to permit the incorporation of an ATC into mobile satellite services in various frequency bands, including the Big LEO bands where certain competitors provide service, as well as other mobile satellite frequency bands. If the FCC were to adopt all such proposals, the MSV Joint Venture would face increased competition in the provision of mobile satellite service using an ATC. Moreover, if the FCC grants these potential competitors approval prior to the MSV Joint Venture receiving approval for its application or grants more extensive or more favorable approvals to these potential competitors, the MSV Joint Venture's ability to implement its business strategy and compete effectively could also be harmed. If an ATC is not authorized, however, the MSV Joint Venture's business will be severely limited and the value of our interest in the MSV Joint Venture will be significantly impaired.

The business conducted and proposed to be conducted by the MSV Joint Venture involves a high degree of risk. In addition, there is significant uncertainty as to whether the additional regulatory approvals described above will be received in the form requested or at all. Therefore, we cannot assure you that the venture will ever be profitable or that any of the additional regulatory approvals will be obtained.

Our Start-up and Venture Businesses

Historically, our start-up and venture businesses focused on Internet companies engaged in business-to-business e-commerce, Internet enabling tools, enterprise-level software infrastructure and next generation communications sectors. Additionally, in the past, we have developed, managed and operated our Start-up Companies. Through our investment process, we decided whether to take a majority stake and incubate the business or a minority strategic position as a venture investment. During the first quarter of 2001, we reduced our focus on these businesses and substantially ceased providing funding to our Start-up Companies. Additionally, we sold a majority of our equity interest in the operations of three of our Start-up Companies: ChangeMusic and ePrize in April 2001 and Regards.com in December 2001. Currently, we are no longer actively seeking new start-up opportunities or venture investments, nor are we managing or operating any Start-up Companies.

Most of the companies in which we have made venture investments are in the early stages of development and many have been adversely affected by the economic downturn in the Internet environment. Many have already been forced out of business. Through December 31, 2001, we made venture investments in 24 companies, with our equity stakes in these companies ranging from less than 1% to 32%. In light of their early stage of development, current economic conditions and the difficulty which these companies have had in obtaining additional funding, we have reduced the carrying value of our venture portfolio to \$2.6 million. We attribute this value to our investments in Cidera, DataSynapse, Edmunds, NextJet, Smart Online, and Totality.

Customers

Currently, as a result of discontinuing Rare Medium, Inc.'s operations at the end of the third quarter of 2001, we do not directly have any customers. However, the MSV Joint Venture, in which we are an active participant, currently provides its mobile satellite communications services to customers in North America. The MSV Joint Venture's significant satellite telephone customers include Stratos Global, the Red Cross, Federal Emergency

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

Management Agency, Western Atlas Logging, and Halliburton. Significant satellite dispatch customers include AT&T and MCI WorldCom.

Competition

Currently, as a result of discontinuing Rare Medium, Inc.'s operations at the end of the third quarter of 2001, we do not have any direct competitors. However, the MSV Joint Venture competes in the wireless communications industry which is highly competitive and is characterized by continuing technological innovation. The MSV Joint Venture's competitors primarily include wireless communications service providers in the following markets:

- o PCS/Cellular - PCS and cellular services presently serve the majority of mobile communications users in the United States. There are a large number of cellular and PCS carriers providing voice service throughout most of the densely populated regions of the United States, including Verizon Wireless, Cingular Wireless, AT&T Wireless, Sprint PCS and Nextel Communications. Numerous paging companies also provide services similar to those offered or proposed to be offered by the MSV Joint Venture.
- o Mobile Satellite Services - A number of companies are selling or developing mobile satellite services utilizing a variety of satellite technologies that compete or will compete with the MSV Joint Venture's services.

Non-Geostationary Earth Orbit (NGSO) Systems - Unlike geostationary earth orbit (GSO) satellite systems, which orbit approximately 22,000 miles above the earth's equator and appear fixed in the sky to an observer on the earth, NGSO satellite systems use satellites that orbit much closer to the earth's surface and appear to traverse the sky when viewed by an observer on the earth. The benefit of NGSO systems is the reduced time delay in transmitting and receiving signals to and from the satellite due to the satellite's proximity to the earth's surface. Because NGSO systems orbit closer to the earth, however, each satellite covers a smaller region of the earth's surface and, accordingly, many more satellites are required to provide global coverage, which generally makes NGSO systems more expensive to launch and operate. Globalstar's NGSO satellite communications service, which was launched in 2000, provides voice and data services in most areas of the world, including the service areas covered by the MSV Joint Venture. In addition, Iridium Satellite LLC provides satellite voice services using an NGSO satellite system. The Iridium service area overlaps with the service area of the MSV Joint Venture. Another company, New ICO Global Communications (Holdings) Limited, intends to launch commercial satellite services late in 2003 over an NGSO system, and to offer services including global Internet protocol services; Internet connectivity; data, voice and fax services; and other data communications services, such as global real-time and near real-time two-way messaging services. New ICO and Iridium both have entered into and emerged from bankruptcy court protection. Globalstar is currently under bankruptcy court protection.

Geostationary Earth Orbit (GSO) Systems - GSO satellite systems cover much larger areas of the earth with a single satellite because they orbit farther away from the earth's surface than do NGSO satellite systems. Consequently, GSO satellite systems generally are less expensive to launch and operate than NGSO satellite systems. GSO satellites, however, face difficulties with

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

time delay in the satellite signal given the distance that must be traveled for the signal to reach the satellite and return to the earth's surface, though recent developments in echo-canceling technology have significantly diminished the negative effects of this inherent time delay. The satellite signals of both NGSO and GSO satellite systems are unable to penetrate buildings without an ATC. The FCC recently authorized several companies to use mobile earth terminals in the United States over the Inmarsat GSO satellite system. The MSV Joint Venture's next-generation satellite will use a GSO satellite architecture, as did the satellite systems of Motient and TMI prior to the assignment of their satellites and related authorizations to the MSV Joint Venture.

Employees

As of December 31, 2001, we had seven employees. We have entered into employment agreements with our key employees. We require all of our senior managers, as well as most of our key employees, to sign confidentiality agreements and non-competition agreements that prohibit them from competing with us during their employment and for various periods thereafter and limit access to and distribution of proprietary information.

Government Regulation

Currently, we are not subject to any direct governmental regulation other than the securities laws and regulations applicable to all publicly owned companies, and laws and regulations applicable to businesses generally. However, the mobile satellite communications business of the MSV Joint Venture is subject to pervasive government regulation in the United States and Canada.

The ownership and operation of the MSV Joint Venture's mobile satellite communications business is subject to the rules and regulations of the FCC, which acts under the authority established by the Communications Act of 1934, as amended, and related federal laws, as well as Industry Canada. Among other things, the FCC and Industry Canada allocate portions of the radio frequency spectrum to certain services and grant licenses to and regulate individual entities using that spectrum. The MSV Joint Venture operates pursuant to various licenses granted by the FCC and Industry Canada.

The MSV Joint Venture's plan to develop, build and operate a next-generation satellite system complemented by an ancillary terrestrial component is subject to the receipt of further regulatory approvals. The MSV Joint Venture's application to launch and operate this type of next-generation mobile satellite system has been opposed by a number of parties, some of whom argue that the FCC should reallocate satellite spectrum in the L-band to terrestrial use only, or that rights to use portions of spectrum currently allocated to satellite use should be separately auctioned.

In response to the MSV Joint Venture's application, the FCC is currently seeking public comment on proposals to permit the incorporation of an ATC into mobile satellite services in various frequency bands, including the Big LEO bands where Iridium and Globalstar provide service, as well as other mobile satellite frequency bands. On March 6, 2002, the FCC requested additional public comment on the technological feasibility of terrestrial and satellite services being separately offered within the same frequency ranges by different operators. If the FCC determines that terrestrial services can be severed from satellite services in the L-band, the FCC will be more likely to auction the terrestrial rights contemplated by an ATC to third parties and less likely to grant the MSV Joint Venture application insofar as it requests the exclusive right to implement an ATC in conjunction with the MSV Joint Venture's satellite service. The failure of the MSV Joint Venture to obtain the regulatory approvals it has requested may harm the MSV Joint Venture's

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

ability to implement its business strategy and compete effectively, which may cause our joint venture interest in the MSV Joint Venture to depreciate or never appreciate in value and this could have a material adverse effect on our financial condition. See "- Risk Factors - The value of our interest in the MSV Joint Venture may never appreciate or may decline significantly in the future because the MSV Joint Venture is entering a new stage of development and its business involves a high degree of risk" under this Item 1.

Risk Factors

You should carefully consider the risks described below in evaluating our common stock. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us may also impair our operations and business. If we do not successfully address any of the risks described below, there could be a material adverse effect on our financial condition, operating results and business, and the trading price of our common stock may decline. We cannot assure you that we will successfully address these risks.

The recent winding down of our Internet professional services business has resulted in uncertainty about our prospects and future operating results.

During the year ended December 31, 2001, we ceased funding our Internet professional services subsidiary, Rare Medium, Inc. and its LiveMarket subsidiary, and recognized restructuring charges of approximately \$55.6 million related to these businesses. In addition to winding down Rare Medium, Inc., our current operations consist of actively managing our interest in the MSV Joint Venture, described further in "Item 1. Business" beginning on page 2. Our interests in the MSV Joint Venture, our investment in XM Satellite Radio common stock, our Motient promissory notes and our remaining investments in our venture portfolio companies are subject to a number of significant risks and uncertainties. As a result of these and other costs and risks, we may incur losses in the future, and our prospects, financial condition and future results are uncertain.

The value of our interest in the MSV Joint Venture may never appreciate or may decline significantly in the future because the MSV Joint Venture is entering a new stage of development and its business involves a high degree of risk.

Our interest in the MSV Joint Venture represents a substantial portion of the value of our total assets. The value of our investment in the MSV Joint Venture may never appreciate in value or may decline rapidly in value in the future. The MSV Joint Venture is entering a new stage of development with significant future funding requirements and its business is subject to a number of significant risks and uncertainties. These risks include (1) rapid technological change, (2) intense competition and (3) pervasive government regulation by the FCC in the United States and by Industry Canada, its counterpart in Canada.

The FCC and Industry Canada are currently considering applications submitted by the MSV Joint Venture which could, if granted by both regulatory authorities, greatly expand the scope of the MSV Joint Venture's business by permitting the MSV Joint Venture to incorporate an ATC into its mobile satellite network. An ATC would permit the MSV Joint Venture to reuse its satellite spectrum terrestrially. In this regard, an ATC will allow communications devices on the MSV Joint Venture's system to operate inside of buildings and throughout urban environments, which is currently not possible due to terrain blockage from buildings and other urban structures which interrupt the satellite signal's path. In response to the MSV Joint Venture's application, the FCC is currently seeking public comment on proposals to permit the incorporation of an ATC into mobile

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

satellite services in various frequency bands, including the Big LEO bands where Iridium and Globalstar provide service, as well as other mobile satellite frequency bands. If the FCC were to adopt all such proposals, the MSV Joint Venture would face increased competition in the provision of mobile satellite service using an ATC. Moreover, if the FCC grants these potential competitors approval prior to the MSV Joint Venture receiving approval for its application or grants more extensive or more favorable approvals to these potential competitors, the MSV Joint Venture's ability to implement its business strategy and compete effectively could also be harmed. If an ATC is not authorized, however, the MSV Joint Venture's business may be severely limited and the value of our interest in the MSV Joint Venture may be significantly impaired.

Satellite services face numerous uncertainties that are unique to the industry. Satellite launches are inherently risky and launch failures occur. Moreover, once in orbit, satellites experience failures or technical anomalies that could damage the MSV Joint Venture's ability to provide services to its customers. While the MSV Joint Venture's satellites have not experienced significant anomalies, no assurance can be given that such anomalies will not occur. Satellites cannot easily be repaired once in orbit and, accordingly, even a technical anomaly short of total failure of the satellite could render the satellite useless. The MSV Joint Venture's application to incorporate an ATC contemplates that these services will be provided over a next-generation satellite. Accordingly, the MSV Joint Venture will face the risks attendant with launching new satellites in the near term should ATC be authorized and the MSV Joint Venture's application granted.

It is likely that the MSV Joint Venture will need to raise additional funds through public or private debt or equity financings in order to (1) implement its business plans; (2) take advantage of opportunities, including acquisitions of, or investments in, businesses or technologies; (3) develop new services; or (4) respond to competitive pressures. We cannot assure you that any such additional financing will be available on terms favorable to the MSV Joint Venture, or at all. If the MSV Joint Venture does not receive certain regulatory approvals by the FCC and Industry Canada by March 31, 2003, the Other MSV Investors are not obligated to invest an additional \$50.0 million as currently anticipated, and this could materially adversely affect MSV Joint Venture's implementation of its business plans if it is unable to raise additional funds from other sources.

These risks and uncertainties may impair the value of our joint venture investment in the MSV Joint Venture, which represents a substantial portion of our total assets.

Governmental regulation of the mobile satellite services industry could negatively impact the value of our interest in the MSV Joint Venture.

Currently, we are not subject to any direct governmental regulation other than the securities laws and regulations applicable to all publicly owned companies and laws and regulations applicable to businesses generally. The mobile satellite services business of the MSV Joint Venture, however, is subject to pervasive government regulation in the United States and Canada. Unlike some satellite services where a satellite licensee is granted an exclusive right to a predetermined amount of spectrum for a definite time period, L-band spectrum historically has been shared among five different licensees (Solidaridad in Mexico, TMI in Canada, Motient in the U.S., the Russian Federation, and Inmarsat), and these five licensees have agreed to coordinate their spectrum needs on an annual basis and divide the available L-band spectrum among themselves. Among other considerations, prior usage of the L-band to provide service is one factor determining the allotment to each licensee on an annual basis. Notwithstanding the agreement among these five countries to coordinate annually their spectrum usage in the L-band, the five

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

licensees currently continue to operate pursuant to a coordination agreement reached in Mexico City in 1995 and annual coordination meetings have not been held since 1999. Motient and TMI were licensed by their respective communications regulatory agencies many years ago to use L-band spectrum in their respective countries. Following FCC and Industry Canada consent, each company recently assigned its respective L-band satellite licenses to the MSV Joint Venture. It is unclear how the annual coordination process described above will be affected by the assignment of the Motient and TMI licenses to the MSV Joint Venture and, accordingly, the MSV Joint Venture cannot be assured that it will have access to sufficient L-band spectrum to meet its needs in the future pursuant to this annual coordination process.

Moreover, several companies recently were authorized by the FCC to use mobile earth terminals in the U.S. over the Inmarsat L-band satellites. These authorizations could increase the demand for and usage of the L-band by Inmarsat, which in turn could increase Inmarsat's demand for L-band spectrum pursuant to the annual coordination process in the L-band. The FCC also recently concluded a long-pending proceeding in which it originally had proposed to coordinate up to 28 MHz of L-band spectrum solely for Motient. The FCC determined early this year that numerous advances in satellite technology during the intervening years suggested that Motient's L-band spectrum needs could be satisfied with only 20 MHz of L-band spectrum. The FCC also indicated it would count toward Motient's 20 MHz allotment any spectrum assigned to the MSV Joint Venture from TMI as part of the MSV Joint Venture's application. These actions may cap the MSV Joint Venture's L-band spectrum at 20 MHz. The FCC further proposed that any new spectrum that becomes available in the L-band may be awarded to competing mobile satellite service providers. If the FCC adopts this proposal, the MSV Joint Venture could face increased competition in the mobile satellite services marketplace.

Our investment in XM Satellite Radio common stock involves a high degree of risk because XM Satellite Radio is a company which only recently commenced generation of revenues.

We own five million shares of XM Satellite Radio common stock, which represents a substantial portion of our total assets based on the current market price of XM Satellite Radio common stock. The value of our investment in XM Satellite Radio has fluctuated significantly in the past and may decline rapidly in the future. XM Satellite Radio was a development stage company through the fourth quarter of 2001 and has just recently started to generate revenues. XM Satellite Radio has limited revenues, has incurred significant capital expenditures and losses and will likely require significant additional funding. XM Satellite Radio's business is subject to a number of significant risks and uncertainties such as rapid technological change, intense competition from Sirius Satellite Radio Inc., currently its sole competitor in the satellite radio market, and pervasive regulation by the FCC.

Malfunctions in satellite technology could damage XM Satellite Radio's ability to provide services to its customers. While XM Satellite Radio's two satellites have been successfully launched into their respective orbital locations and have not yet experienced significant anomalies, no assurance can be given that such anomalies will not occur. Satellites cannot easily be repaired once in orbit and, accordingly, even a technical anomaly short of total failure of the satellite could render the satellite useless, thereby harming XM Satellite Radio's ability to provide its service to its customers.

On February 14, 2002, XM Satellite Radio's primary competitor, Sirius Satellite Radio, commenced commercial service in four markets in the U.S. Sirius also announced that it plans a nationwide rollout of commercial service before the end of 2002. Sirius Satellite Radio will compete directly with XM Satellite Radio for customers.

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

Both XM Satellite Radio and Sirius Satellite Radio require the use of terrestrial repeaters to augment the satellite signal in certain locations in order to overcome the effects of terrain blockage (e.g., tall buildings or tunnels) and provide a robust, uninterrupted signal. XM Satellite Radio and Sirius Satellite Radio currently operate numerous terrestrial repeaters nationwide pursuant to special temporary authority ("STA") from the FCC. STAs generally run for a period of 180 days and may be renewed by the FCC upon request. XM Satellite Radio cannot be assured that the FCC will renew the current STA for the use of its terrestrial repeaters, which expires in March of this year. The FCC currently is seeking comment on proposed rules that will grant permanent authority to XM Satellite Radio and Sirius Satellite Radio to operate terrestrial repeaters. Several comments from the public have opposed the authorization of terrestrial repeaters. XM Satellite Radio cannot be assured that the FCC will adopt its proposed rules governing terrestrial repeaters or that the rules as adopted will be sufficient to permit XM Satellite Radio to operate the terrestrial repeaters at the requisite power levels. If the FCC fails to extend XM Satellite Radio's current STA or to adopt suitable rules governing terrestrial repeaters, XM Satellite Radio's business will be harmed.

XM Satellite Radio will likely need to raise additional funds through public or private debt or equity financings in order to (1) implement its business plans; (2) take advantage of opportunities, including acquisitions of, or investments in, businesses or technologies; (3) develop new services; or (4) respond to competitive pressures. We cannot assure you that any such additional financing will be available on terms favorable to XM Satellite Radio, or at all.

These risks and uncertainties may impair the value of our investment in XM Satellite Radio common stock. The value of our investment in XM Satellite Radio represents a significant portion of our total assets and fluctuates with the market price of XM Satellite Radio's common stock.

Our common stock could be delisted from the Nasdaq National Market which could seriously limit the liquidity and negatively affect the value of our common stock.

By letter dated February 14, 2002, Nasdaq notified us that if prior to May 15, 2002, the bid price of our Common Stock is not at least \$1.00 for a minimum of 10 consecutive trading days, Nasdaq will notify us that the Common Stock will be delisted from the Nasdaq National Market for failure to satisfy the minimum bid price requirement. In order to regain compliance with the requirements for continued listing on the Nasdaq National Market, absent a significant change in market price, our board of directors and our stockholders will have to approve and we will need to implement a reverse stock split. If such action is not taken or approved, then it is likely, depending on the volatility of our common stock and our ability to meet the listing criteria described above, that we will not satisfy the requirements for continued listing on the Nasdaq National Market or initial registration on either the New York Stock Exchange or the American Stock Exchange. Even if such a split were approved by our stockholders, the market sometimes views reverse stock splits negatively and there can be no assurance that following such stock split we would be successful in meeting the listing criteria described above.

If Nasdaq determines to delist our common stock, we plan to appeal the determination pursuant to Nasdaq's procedures. We cannot assure you that we would be successful in appealing any determination by Nasdaq to delist our common stock. If our common stock is delisted from the Nasdaq National Market, we would seek to maintain the listing of our common stock on the Nasdaq SmallCap Market. However, if our common stock is delisted from the Nasdaq

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

National Market, the delisting would result in a reduction in the liquidity and market price of our shares of common stock. This lack of liquidity would also make it difficult for us to raise capital.

If we are unable to demonstrate compliance with the minimum bid price requirement on or prior to May 15, 2002, or such other date as Nasdaq may permit, and any appeal to Nasdaq for relief from this requirement is unsuccessful, our common stock will be delisted from the Nasdaq National Market. If this were to happen, trading in our common stock would decrease substantially.

In addition, the delisting of our common stock from the Nasdaq National Market would result in an event of non-compliance under the provisions of our Series A convertible preferred stock. If we are unable to obtain a waiver of this event of non-compliance, the holders of the Series A convertible preferred stock would be entitled to elect a majority of the members of our board of directors which would provide them with control over our management and policies.

The outcome and effects of the Motient bankruptcy proceedings on the Motient Notes and the MSV Joint Venture's regulatory approvals are highly uncertain.

On January 10, 2002, Motient Corporation and its subsidiaries filed for protection under Chapter 11 of the United States Bankruptcy Code. As part of its filing Motient indicated that it may challenge our right to the \$26.2 million of outstanding principal amount of the exchangeable notes issued to us by Motient in October 2001. In addition to the uncertainties of retaining all or part of the \$26.2 million of the original principal on the Motient notes, Motient's bankruptcy proceedings could have other effects on us, including the initiation of litigation directly against us to challenge the delivery of the shares of XM Satellite Radio common stock by Motient to us as partial repayment of the aggregate \$50.0 million principal amount of the exchangeable notes arising from two \$25.0 million loans made to Motient by us in April and July 2001. In light of, among other things, the operating results and financial condition of Motient and the uncertainties as to the outcome of Motient's bankruptcy, there can be no assurance that we will be able to recover any of the remaining \$26.2 million of original principal of the Motient notes or that we will not compromise our claim. Negotiations with Motient and its creditors committee are ongoing and we believe that our recovery on these notes could be substantial. As a result of uncertainty with respect to the ultimate collection on the Motient notes, we recognized a reserve for the entire amount of these notes. While we do not believe such claims have merit, if successful, such actions could also adversely impact the value of our investment in XM Satellite Radio's common stock.

Motient and TMI filed applications with the FCC and Industry Canada seeking regulatory approval to (1) assign certain of their respective satellite assets and authorizations to the MSV Joint Venture and (2) operate a next-generation satellite that incorporates an ATC for the provision of a more robust wireless communications offering through the MSV Joint Venture's next-generation satellite. Motient's bankruptcy could negatively impact the MSV Joint Venture's ability to obtain approval of its application to operate a next-generation satellite incorporating an ATC. In this regard, the MSV Joint Venture's application to launch and operate a next-generation mobile satellite system and to incorporate an ATC has been opposed by a number of parties, some of which argue that the FCC should reallocate satellite spectrum in the L-band to terrestrial use only. These parties have argued that, among other things, the inability of Motient to develop a vibrant business constitutes evidence that the mobile satellite industry is no longer viable and, therefore, the L-band spectrum should be reallocated to terrestrial wireless uses.

Apollo beneficially owns a large percentage of our voting stock.

As of March 7, 2001, Apollo Investment Fund IV, L.P., Apollo Overseas Partners IV, L.P. and AIF IV/RRRR LLC (collectively, "Apollo") owned 12,709,499 shares of our outstanding voting common stock and all of the 1,053,259 outstanding shares of our Series A convertible preferred stock and all of our outstanding Series 1-A and Series 2-A warrants. Assuming that all currently outstanding shares of our Series A convertible preferred stock are converted and all Series 1-A warrants and Series 2-A warrants are exercised, Apollo would own approximately 44% of our outstanding common stock. Additionally, Apollo's ownership interest in our company may increase upon its conversion of additional shares of Series A convertible preferred stock or its exercise of additional Series 1-A warrants received as in-kind dividends on its shares of Series A convertible preferred stock. As long as Apollo owns at least 100,000 shares of the Series A convertible preferred stock, we are precluded from taking various corporate actions and entering into various transactions, without Apollo's consent. These corporate actions and transactions are described in our proxy statement for the stockholders' meeting held on August 19, 1999. As long as Apollo owns at least 100,000 shares of our Series A convertible preferred stock, the holders of the Series A convertible preferred stock, voting as a separate class, have the right to elect two of the members of our board of directors and have certain approval rights with respect to additional members of our board of directors in the event that the size of our board of directors is increased. In addition, Apollo is entitled to an aggregate limit of 9,750,000 votes with respect to the Series A convertible preferred stock, or 9.26 votes per share of Series A convertible preferred stock as of March 7, 2002.

Because of Apollo's large percentage of ownership and its rights as the holder of Series A convertible preferred stock, Apollo may have significant influence over our management and policies, such as the election of our directors, the appointment of new management and the approval of any other action requiring the approval of our stockholders, including any amendments to our certificate of incorporation and mergers or sales of all or substantially all of our assets. In addition, the level of Apollo's ownership of our shares of common stock and these rights could have the effect of discouraging or impeding an unsolicited acquisition proposal.

We may suffer adverse consequences if we are deemed to be an investment company.

We may suffer adverse consequences if we are deemed to be an investment company under the Investment Company Act of 1940. A company may be deemed to be an investment company if it owns investment securities with a value exceeding 40% of its total assets, subject to certain exclusions. Some investments made by us may constitute investment securities under the Investment Company Act of 1940. If we were to be deemed an investment company, we would become subject to registration and regulation as an investment company under the Investment Company Act of 1940. If we failed to do so, we would be prohibited from engaging in business or issuing our securities and might be subject to civil and criminal penalties for noncompliance. In addition, certain of our contracts might be voidable, and a court-appointed receiver could take control of our company and liquidate our business. If we registered as an investment company, we would be subject to restrictions regarding our operations, investments, capital structure, governance and reporting of our results of operations, among other things, and our ability to operate as we have in the past would be adversely affected.

Although our investment securities currently comprise more than 40% of our assets, fluctuations in the value of these securities or of our other assets may cause this limit to be satisfied. In addition, we expect

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

any excess value of our investment securities to be temporary as we intend to continue to increase our interests in non-investment businesses such as the MSV Joint Venture. Unless an exclusion or safe harbor were available to us, in certain circumstances, we would have to attempt to reduce our investment securities as a percentage of our total assets in order to avoid becoming subject to the requirements of the Investment Company Act of 1940. This reduction can be attempted in a number of ways, including the disposition of investment securities and the acquisition of non-investment security assets. If we were required to sell investment securities, we may sell them sooner than we otherwise would. These sales may be at depressed prices, and we may never realize anticipated benefits from, or may incur losses on, these investments. Some investments may not be sold due to contractual or legal restrictions or the inability to locate a suitable buyer. Moreover, we may incur tax liabilities when we sell assets. We may also be unable to purchase additional investment securities that may be important to our operating strategy. If we decide to acquire non-investment security assets, we may not be able to identify and acquire suitable assets and businesses.

Fluctuations in our financial performance could adversely affect the trading price of our common stock.

Our financial results may fluctuate as a result of a variety of factors, many of which are outside of our control, including:

- o risks and uncertainties affecting the current and proposed business of the MSV Joint Venture and the mobile satellite services industry;
- o increased competition in the mobile satellite services industry;
- o fluctuations in the market price of XM Satellite Radio common stock;
- o costs associated with discontinuing our Internet professional services business; and
- o general economic conditions.

As a result of these possible fluctuations, period-to-period comparisons of our financial results may not be reliable indicators of future performance.

The price of our common stock has been volatile.

The market price of our common stock has been, and is likely to continue to be, volatile, experiencing wide fluctuations. In recent years, the stock market has experienced significant price and volume fluctuations that have particularly affected the market prices of equity securities of many companies providing Internet-related products and services. Some of these fluctuations appear to be unrelated or disproportionate to the operating performance of such companies. Future market movements may materially and adversely affect the market price of our common stock.

Our business is subject to general economic conditions. Future economic downturns could have an adverse impact on the value of our interest in the MSV Joint Venture and our investment in XM Satellite Radio common stock.

Our business is subject to fluctuations based upon the general economic conditions in North America and, to a lesser extent, the global economy. Future general economic downturns or a recession in the United States could substantially reduce the demand for satellite communications services, thereby reducing the market price of XM Satellite Radio common stock and the value of our interest in the MSV Joint Venture. A deterioration in existing economic conditions could therefore materially and adversely affect our

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

financial condition, operating results and business.

We do not intend to pay dividends on shares of our common stock in the foreseeable future.

We currently expect to retain our future earnings, if any, for use in the operation and expansion of our business. We do not anticipate paying any cash dividends on shares of our common stock in the foreseeable future.

The issuance of preferred stock or additional common stock may adversely affect our stockholders.

Our board of directors has the authority to issue up to 10,000,000 shares of our preferred stock and to determine the terms, including voting rights, of those shares without any further vote or action by our common stockholders. The voting and other rights of the holders of our common stock will be subject to, and may be adversely affected by, the rights of the holders of any preferred stock that may be issued in the future. Similarly, our board may issue additional shares of common stock without any further vote or action by common stockholders, which would have the effect of diluting common stockholders. An issuance could occur in the context of another public or private offering of shares of common stock or preferred stock or in a situation where the common stock or preferred stock is used to acquire the assets or stock of another company. The issuance of common stock or preferred stock, while providing desirable flexibility in connection with possible acquisitions, investments and other corporate purposes, could have the effect of delaying, deferring or preventing a change in control.

Anti-takeover provisions could make a third-party acquisition of our company difficult.

We are a Delaware corporation. The Delaware General Corporation Law contains provisions that could make it more difficult for a third party to acquire control of our company. In addition, we have a classified board of directors, with each board member serving a staggered three-year term. The existence of a classified board could make it more difficult for a third-party to acquire control of our company.

Shares eligible for future sale could cause our stock price to decline.

The market price of our common stock could decline as a result of future sales of substantial amounts of our common stock, or the perception that such sales could occur. Furthermore, certain of our existing stockholders have the right to require us to register their shares, and the holders of our Series A convertible preferred stock and Series 1-A and 2-A warrants have the right to require us to register the shares of common stock underlying these securities, which may facilitate their sale of shares in the public market.

Item 2. Properties

We conduct our administrative and operations activities from a leased facility in New York, New York. We routinely evaluate our facilities for adequacy and necessity in light of our plans for the future. We do not anticipate purchasing real property in the foreseeable future.

Item 3. Legal Proceedings

We are aware of a number of purported class action lawsuits that have been filed by the holders of our common stock in the Court of Chancery of the State of Delaware which challenged the plan of merger with Motient Corporation that was terminated on October 1, 2001. All of the complaints name us and

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

members of our board of directors as defendants. Most of the complaints name the holders of our preferred stock, and certain of their affiliates, as defendants, and some of the complaints name Motient as a defendant. On June 22, 2001, the Delaware court entered an order to consolidate all of the Delaware lawsuits for all purposes into a single purported class action, In re Rare Medium Group, Inc. Shareholders Litigation, C.A. No. 18879-NC. On August 7, 2001, a Consolidated Amended Class Action Complaint was filed in Delaware Chancery Court. The Delaware Chancery Court has not yet certified the consolidated lawsuit as a class action. The lawsuit alleges that the defendants breached duties allegedly owed to the holders of our common stock in connection with the merger agreement and sought to stop the merger and/or obtain monetary damages. On October 19, 2001, we filed a motion to dismiss the Consolidated Amended Class Action Complaint on a variety of grounds, including mootness. Settlement negotiations are underway. If unsuccessful, we intend to continue to vigorously contest this lawsuit.

A purported class action was filed in New York, titled Brickell Partners v. Rare Medium Group, Inc., et al., N.Y.S. Index No. 01602694, in the New York State Supreme Court, making similar allegations to the Consolidated Amended Class Action Complaint in Delaware. The complaint was dismissed on February 21, 2002.

On May 16, 2001, plaintiffs Jay M. Wolff, David Bliss, Tim Barber and Steve O'Brien filed suit against Rare Medium, Inc., Rare Medium Group, Inc., and Rare Medium Texas I, Inc. in the United States District Court for the Southern District of New York, Wolff, et al. v. Rare Medium, Inc., et al., CV No 01-4279. The plaintiffs asserted claims for breach of contract, tortuous interference with contractual relations, tortuous interference with prospective advantage, and breach of implied obligation of good faith, arising out of the plaintiffs' alleged attempt to engage in transactions involving some or all of the approximately 1.2 million shares of our common stock that the plaintiffs obtained in our acquisition of Big Hand, Inc. The plaintiffs sought unspecified compensatory and punitive damages, interest, attorneys' fees and costs. On October 31, 2001, the Court dismissed the case without prejudice.

Plaintiffs filed an amended complaint on December 7, 2001 based on substantially the same alleged facts. The amended complaint asserts the following causes of action: (1) breach of contract; (2) tortuous interference with contract; and, (3) tortuous interference with prospective business advantage. The amended complaint seeks an unspecified amount of actual damages, punitive damages, interest, and costs. Defendants moved to dismiss the amended complaint on December 27, 2001, and briefing has been completed. We intend to dispute this matter vigorously.

In July 2001, Rare Medium, Inc. received a notice of arbitration demand from a third party (the "Partner") with whom it had entered a strategic alliance agreement, as amended (the "Agreement"). The Agreement provided, among other things, for the Partner to assist in the training of personnel and development and delivery by Rare Medium, Inc. of solutions built utilizing the Partner's technology. Under the terms of the Agreement, the Partner was to provide Rare Medium, Inc. with refundable advances of approximately \$17.1 million, on an interest free basis, to be paid to Rare Medium, Inc. over the term of the two-year Agreement, subject to Rare Medium, Inc.'s compliance with certain requirements set forth in the agreement. The amount and timing of the repayment of the advances was subject to adjustment based on Rare Medium, Inc.'s achievement of certain milestones in accordance with the terms of the Agreement. A dispute arose with respect to Rare Medium, Inc.'s achievement of the milestones. As a result, the Partner has asserted that the Agreement has terminated and commenced an arbitration seeking the return of all of the approximately \$8.6 million that had been advanced under the Agreement. Rare Medium, Inc. intends to contest the Partner's claims.

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

There can be no assurance that Rare Medium, Inc. will be successful in contesting this action and that accelerated repayment, along with attorney's fees and interest, will not be required.

On July 23, 2001, plaintiff Microsoft Corporation filed suit against Rare Medium, Inc. in the United States District Court for the Western District of Washington, CO1-1130P. The plaintiff alleges breach of contract in connection with a consulting agreement and an alliance agreement entered between the parties seeking \$2.3 million in damages, interest and attorney's fees. Rare Medium, Inc. plans to defend the matter vigorously.

On November 19, 2001, five of our shareholders filed a complaint in the United States District Court for the Southern District of New York against the Company, *Dovitz v. Rare Medium Group, Inc. et al.*, No. 01 Civ. 10196, certain of its subsidiaries and certain of their current and former officers and/or directors. Plaintiffs became owners of restricted stock when they sold the company that they owned to us. Plaintiffs assert the following four claims against defendants: (1) common-law fraud; (2) violation of Section 10(b) of the Securities Exchange Act of 1934 and Rule 10b-5 promulgated thereunder; (3) violation of the Michigan Securities Act; and (4) breach of fiduciary duty. These claims arise out of alleged representations by defendants to induce plaintiffs to enter into the transaction. The complaint seeks compensatory damages of approximately \$5.6 million, exemplary and/or punitive damages in the same amount, as well as attorney fees. On January 25, 2002, we filed a motion to dismiss the complaint in its entirety. We intend to dispute this matter vigorously.

Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of security holders during the fourth quarter of the fiscal year ended December 31, 2001.

Item 5. Market for the Registrant's Common Equity and Related Stockholder Matters

Our common stock trades on The Nasdaq National Market under the symbol "RRRR." Prior to February 15, 1996, our common stock was listed on The Nasdaq Small Cap Market. Based on quotations reported by Nasdaq, the range of high and low bids for our common stock for the two most recent fiscal years is as follows:

The above quotations reported by Nasdaq represent prices between dealers and do not include retail mark-ups, mark-downs or commissions. Such

quotations may not represent actual transactions. On March 7, 2002, the last reported sale price for our common stock was \$0.44 per share.

As of March 7, 2002, we had approximately 857 recordholders of our common stock. This number was derived from our stockholder records, and does not include beneficial owners of our common stock whose shares are held in the names of various dealers, clearing agencies, banks, brokers, and other fiduciaries. Holders of our common stock are entitled to share ratably in dividends, if and when declared by our board of directors.

We have not paid a cash dividend on our common stock for the fiscal years ended December 31, 2000 and December 31, 2001, and it is unlikely that we will pay any cash dividends on our common stock in the foreseeable future. The payment of cash dividends on our common stock will depend on, among other things, our earnings, capital requirements and financial condition, and general business conditions. Under the terms of the purchase agreement we entered into with the holders of our Series A convertible preferred stock, for so long as such holders beneficially own not less than 100,000 shares of Series A convertible preferred stock, we are prohibited from declaring or paying, and may not permit any of our subsidiaries to declare or pay, any dividend or make any other distribution in respect of any other shares of our capital stock without the prior written consent of such holders. In addition, future borrowings or issuances of preferred stock may prohibit or restrict our ability to pay or declare dividends.

Item 6. Selected Financial Data

The following historical selected financial data for the years ended December 31, 1997, 1998, 1999, 2000 and 2001 have been derived from financial statements that have been audited by our independent accountants. There were no cash dividends paid to holders of our common stock in any of these years. The data should be read in conjunction with our financial statements and the notes thereto included elsewhere in this report. The format of prior year data has been conformed to reflect the accounting for discontinued operations.

Item 7. Management's Discussion and Analysis of Financial Condition and

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

Results of Operations

The following discussion of our financial condition and results of operations should be read together with our consolidated financial statements and the related notes thereto. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in those forward-looking statements.

Overview

From 1998 through the third quarter of 2001, our principal business was conducted through our subsidiary Rare Medium, Inc., which developed Internet e-commerce strategies, business processes, marketing communications, branding strategies and interactive content using Internet-based technologies and solutions. As a result of the weakening of general economic conditions which caused many companies to reduce spending on Internet-focused business solutions, a decision to discontinue Rare Medium, Inc.'s operations, along with those of its LiveMarket, Inc. subsidiary, was made at the end of the third quarter of 2001.

From 1999 through the first quarter of 2001, we made venture investments by taking strategic minority equity positions in other independently managed companies. Additionally, in the past, we have developed, managed and operated our Start-up Companies. During the first quarter of 2001, we reduced our focus on these businesses and substantially ceased providing funding to our Start-up Companies. Additionally, we sold a majority of our equity interest in the operations of three of our Start-up Companies: ChangeMusic and ePrize in April 2001 and Regards.com in December 2001. Currently, we are no longer actively seeking new start-up opportunities or venture investments, nor are we managing or operating any Start-up Companies.

As a result of the decision to discontinue the operations of Rare Medium, Inc. and LiveMarket, the operating results reported in our statements of operations as continuing operations include the consolidated results of Rare Medium Group, Inc., our MSV Investors Subsidiary, and our Start-up Companies, up to their respective dates of sale or shutdown. The results of Rare Medium, Inc. and LiveMarket are reflected as discontinued operations.

In November 2001, through our MSV Investors Subsidiary, we became a participant in the MSV Joint Venture, a joint venture which includes TMI, Motient and the Other MSV Investors. The MSV Joint Venture is currently a provider of mobile digital voice and data communications services via satellite in North America. We expect to become an increasingly active participant in the MSV Joint Venture and have designated three members of the 12-member board of directors of the MSV Joint Venture's corporate general partner. In addition to winding down Rare Medium, Inc., our current operations consist of actively managing our interest in the MSV Joint Venture.

Our principal assets consist of our interest in the MSV Joint Venture, five million shares of XM Satellite Radio common stock, promissory notes from Motient Corporation with a principal amount of \$26.2 million, our remaining investments in affiliates, and cash, cash equivalents and short-term investments. As a result of uncertainty with respect to the ultimate collection on the Motient notes, we recognized a reserve for the entire amount of these notes. See "Liquidity and Capital Resources" under this Item 7.

Prior to March 1999, our name was ICC Technologies, Inc. ("ICC"). On April 15, 1998, ICC acquired Rare Medium, Inc., an Internet services business, and shortly thereafter ICC changed its name to Rare Medium Group,

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

Inc. Following this acquisition, all non-Internet-related operations were divested, and the chief executive officer of Rare Medium, Inc. became the chief executive officer of Rare Medium Group, Inc. ICC was the legal and accounting acquirer. As a result of these transactions, the results of operations of the non-Internet-related business for all periods have been accounted for as a discontinued operation. Furthermore, as a result of the decision to discontinue the operations of Rare Medium, Inc. and its subsidiary LiveMarket, the results of operations of these businesses have also been accounted for as discontinued operations. Accordingly, our discussion in the section entitled "Results of Operations" focuses on our continuing operations and includes our results and those of our MSV Investors Subsidiary and our Start-up Companies up to their respective dates of sale or shutdown.

Critical Accounting Policies and Estimates

Investment in XM Radio

We account for our investment in XM Satellite Radio common stock as an available-for-sale, marketable security and report such investment at fair value with net unrealized gains and losses recorded in stockholders' equity. Gains and losses will be recognized in our statements of operations when realized. At December 31, 2001, the reported value of XM Satellite Radio common stock in our balance sheet was approximately \$91.8 million, or \$18.36 per share, resulting in an unrealized gain of approximately \$60.3 million. Changes in the market price of XM Satellite Radio common stock could cause fluctuations in our earnings and financial position. From January 1, 2002 to March 7, 2002, the market price of XM Satellite Radio common stock traded in a range of \$10.70 to \$19.20 per share. As of the close of business on March 7, 2002, the market price of XM Satellite Radio common stock was \$13.30 per share.

Notes Receivable from Motient and MSV Joint Venture

We value our notes receivable based on the face amount, net of a valuation reserve for unrealized amounts. We review the net balance of our notes for changes to the reserve, either increases or decreases, whenever events or circumstances indicate that the carrying amount differs from its expected recovery.

At December 31, 2001, as a result of the uncertainty with respect to the ultimate collection on the Motient notes, we recognized a reserve for the entire amount of these notes. Negotiations with Motient and its creditors committee are ongoing, and we believe that our recovery on these notes could be substantial. Any adjustments to the reserve would be reflected as income in the statements of operations.

At December 31, 2001, the carrying value of our MSV Joint Venture Convertible note approximates its fair value based on recent funding transactions of the underlying equity value in which it converts. The MSV Joint Venture plans, subject to the receipt of further regulatory and government approvals including certain FCC approvals and certain approvals by Canadian regulatory authorities, to develop, build and operate a next-generation satellite system complemented by ATC. If the ATC is not authorized, the MSV Joint Venture's business will be limited, and the value of our interest in the MSV Joint Venture will be significantly impaired.

Results of Operations

Year Ended December 31, 2001 Compared to Year Ended December 31, 2000

Revenues

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

Revenues for the year ended December 31, 2001 decreased to \$1.9 million from \$8.3 million for the year ended December 31, 2000, a decrease of \$6.4 million. These revenues reflect the operations of our remaining Start-up Companies through their respective dates of sale or shutdown. The decrease is primarily the result of the sale of our majority interest in the operations of three Start-up Companies in 2001.

Cost of Revenues

Cost of revenues includes salaries and related benefits and other direct costs associated with the generation of revenues. Cost of revenues for the year ended December 31, 2001 decreased to \$1.3 million from \$6.1 million for the year ended December 31, 2000, a decrease of \$4.8 million. The decrease is primarily the result of the sale of our majority interest in the operations of three Start-up Companies in 2001.

Sales and Marketing Expense

Sales and marketing expense primarily includes the costs associated with the respective sales force of each Start-up Company, marketing and advertising. Sales and marketing expense for the year ended December 31, 2001 decreased to \$1.3 million from \$14.2 million for the year ended December 31, 2000, a decrease of \$12.9 million. The decrease is primarily the result of the sale of our majority interest in the operations of three Start-up Companies in 2001.

General and Administrative Expense

General and administrative expense includes facilities costs, finance, legal and other corporate costs, as well as the salaries and related employee benefits for those employees that support such functions. General and administrative expense for the year ending December 31, 2001 decreased to \$18.9 million from \$44.5 million for the year ended December 31, 2000, a decrease of \$25.6 million. This decrease was primarily related to the reduced infrastructure needed to manage our continuing operations and the sale of our majority interest in the operations of three Start-up Companies in 2001, partially offset by the legal and advisory costs associated with our terminated merger with Motient Corporation. We expect these costs to continue to decrease as we have reduced our overhead significantly during the year.

Depreciation and Amortization Expense

Depreciation and amortization expense substantially consists of the depreciation of property and equipment and amortization of intangible assets as a result of the acquisitions of our Start-up Companies. Depreciation and amortization expense for the year ended December 31, 2001 decreased to \$3.0 million from \$8.2 million for the year ended December 31, 2000, a decrease of \$5.2 million. This decrease is primarily the result of the sale or shutdown of the operations of our Start-up Companies in 2001 and the disposal of property and equipment associated with our restructuring activities. As we have reduced our capital expenditures and have written off all remaining goodwill, we expect depreciation and amortization expense to decrease in future periods.

Restructuring Charges

During the year ended December 31, 2001, we recorded restructuring charges of approximately \$1.1 million primarily relating to the disposition of property and equipment. These restructuring charges were the result of the reduction of our infrastructure needed to manage our continuing operations.

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

Interest Income, Net

Interest income, net for the year ended December 31, 2001 is mainly comprised of the interest earned on our cash, cash equivalents and short-term investments, on our Motient promissory notes and on the convertible note receivable from the MSV Joint Venture.

Loss on Investment in Affiliates

Loss on investments in affiliates for the year ended December 31, 2001 increased to \$54.6 million from \$11.1 million for the year ended December 31, 2000, an increase of \$43.5 million. For the year ended December 31, 2001, loss on investments in affiliates consisted of \$43.8 million for the impairment to the carrying value of certain affiliates accounted for under the cost method, \$3.6 million for the realized loss on the sale of publicly traded securities, \$2.7 million for our proportionate share of affiliates' operating losses and amortization of our net excess investment over our equity in each affiliate's net assets for those affiliates accounted for under the equity method, and \$4.5 million related to the sale or shutdown of our Start-up Companies. For the year ended December 31, 2000, loss on investments in affiliates consisted of \$5.4 million for the impairment to the carrying value of certain affiliates accounted for under the cost method and \$5.7 million for our proportionate share of affiliates' operating losses and amortization of our net excess investment over our equity in each affiliate's net assets for those affiliates accounted for under the equity method. The increase in our loss on investments in affiliates in 2001 was primarily related to additional write-offs of our venture portfolio as many of these companies have been forced out of business as a result of not being able to obtain additional funding due to the general economic downturn. We will continue to monitor the carrying value of our investments in affiliates for further impairment.

Minority Interest

We received \$10.0 million from unaffiliated persons as an investment into our MSV Investors Subsidiary. Minority interest relates to the equity in earnings, primarily the interest income earned on the \$50.0 million convertible note from the MSV Joint Venture, which is attributable to those unaffiliated investors.

Other Income (Expense), net

Other income (expense), net for the year ended December 31, 2001 primarily relates to the promissory notes from Motient. On October 12, 2001, in accordance with the terms of the notes, we received five million shares of XM Satellite Radio common stock as payment for \$26.2 million of the aggregate \$52.4 million principal and accrued interest of the notes as of that date leaving a remaining principal balance of the notes at \$26.2 million. As a result of uncertainty with respect to the ultimate collection on the remaining balance of the Motient notes, we recognized a reserve for the entire amount of these notes. This approximate loss of \$26.9 million was partially offset by a gain of \$5.3 million that resulted from difference between the value of the XM Satellite Radio common stock received in connection with partial repayment of the Motient Notes in accordance with their terms and the value of XM Satellite Radio common stock using its closing price on the date of partial repayment.

Loss from Discontinued Operations

At the end of the third quarter of 2001, a decision to discontinue the operations of Rare Medium, Inc. and its LiveMarket subsidiary was made in light of their performance and prospects. The wind-down of these businesses is expected to be completed during 2002. In connection with the discontinuance of

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

these businesses, we recorded restructuring charges in 2001 of \$55.6 million related to severance and benefits resulting from headcount reductions, facility consolidations, an accrual for estimated losses of \$2.9 million during the wind-down period and the write-off of unamortized goodwill and property and equipment, net of expected proceeds. The remaining loss of \$63.3 million resulted from operations prior to the decision to discontinue the businesses.

Net Loss

For the year ended December 31, 2001, we recorded a net loss of \$210.3 million. The loss was primarily due to the factors described in "Revenues," "Cost of Revenues," "General and Administrative Expense," "Depreciation and Amortization Expense," "Sales and Marketing Expense," "Restructuring Charges," "Loss on Investments in Affiliates," "Minority Interest," "Other Income (Expense), net" and "Loss from Discontinued Operations."

Included in net loss attributable to common shareholders of \$222.3 million was \$11.9 million of non-cash deemed dividends and accretion related to the issuance of our Series A convertible preferred stock. Dividends were accrued related to the pay-in-kind dividends payable quarterly on Series A convertible preferred stock and to the accretion of the carrying amount of the Series A convertible preferred stock up to its \$100 per share face redemption amount over 13 years.

Year Ended December 31, 2000 Compared to Year Ended December 31, 1999

Revenues

Revenues for the year ended December 31, 2000 increased to \$8.3 million from \$1.6 million for the year ended December 31, 1999, an increase of \$6.7 million. The increase is primarily a result of our Start-up Companies acquired in the fourth quarter of 1999 and the first quarter of 2000.

Cost of Revenues

Cost of revenues includes salaries and related benefits and other direct costs associated with the generation of revenues. Cost of revenues for the year ended December 31, 2000 increased to \$6.1 million from \$1.0 million for the year ended December 31, 1999, an increase of \$5.1 million. The increase is primarily a result of our Start-up Companies acquired in the fourth quarter of 1999 and the first quarter of 2000.

Sales and Marketing Expense

Sales and marketing expense primarily includes the costs associated with the respective sales force of each Start-up Company, marketing and advertising. Sales and marketing expense for the year ended December 31, 2000 increased to \$14.2 million from \$0.3 million for the year ended December 31, 1999, an increase of \$13.9 million. The increase is primarily a result of our Start-up Companies acquired in the fourth quarter of 1999 and the first quarter of 2000.

General and Administrative Expense

General and administrative expense includes facilities costs, finance, legal and other corporate costs, as well as the salaries and related employee benefits for those employees that support such functions. General and administrative expense for the year ended December 31, 2000 increased to \$44.5 million from \$14.6 million for the year ended December 31, 1999, an increase of \$29.9 million. The increase is primarily a result of our Start-up Companies acquired in the fourth quarter of 1999 and the first quarter of

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

2000, our continued investment in building an infrastructure to support the growth in our services business which was discontinued in 2001, and the costs associated with resources required for our investment business.

Depreciation and Amortization Expense

Depreciation and amortization expense substantially consists of the amortization of intangible assets as a result of the acquisitions of our Start-up Companies. Depreciation and amortization expense for the year ended December 31, 2000 increased to \$8.2 million from \$1.8 million for the year ended December 31, 1999, an increase of \$6.4 million. This increase resulted primarily from the acquisition of Start-up Companies during the fourth quarter of 1999 and the first quarter of 2000.

Interest Income (Expense), Net

Interest income, net for the year ended December 31, 2000 is mainly compromised of the interest earned on the proceeds received from the sale of our common stock during the first quarter of 2000 as described below in "Liquidity and Capital Resources."

Loss on Investment in Affiliates

Loss on investments in affiliates for the year ended December 31, 2000 increased to \$11.1 million from \$1.5 million for the year ended December 31, 1999, an increase of \$9.6 million. For the year ended December 31, 2000, loss on investments in affiliates consisted of \$5.4 million for the impairment to the carrying value of certain affiliates accounted for under the cost method and \$5.7 million for our proportionate share of affiliates' operating losses and amortization of our net excess investment over our equity in each affiliate's net assets for those affiliates accounted for under the equity method. For the year ended December 31, 1999, loss on investments in affiliates related to our proportionate share of affiliates' operating losses and amortization of our net excess investment over our equity in each affiliate's net assets for those affiliates accounted for under the equity method.

Loss from Discontinued Operations

As a result of the decision to discontinue the operations of Rare Medium, Inc. and the LiveMarket subsidiary in the third quarter of 2001, the prior years results of these subsidiaries have been reclassified to discontinued operations. As such, losses of \$62.5 million in 2000 and \$30.6 million in 1999 resulted from operations prior to the decision to discontinue the businesses. The increase in the loss in 2000 represents additional investment in the growth of the businesses, marketing, and the cost of increased infrastructure.

Net Loss

For the year ended December 31, 2000, we recorded a net loss of \$128.4 million. The loss was primarily due to the factors described in "Revenues," "Cost of Revenues," "General and Administrative Expense," "Depreciation and Amortization Expense," "Loss on Investments in Affiliates," "Sales and Marketing Expense," and "Loss from Discontinued Operations."

Included in net loss attributable to common shareholders of \$151.1 million was \$22.7 million of non-cash deemed dividends and accretion related to issuance of our Series A convertible preferred stock. Dividends were accrued related to the pay-in-kind dividends payable quarterly on Series A convertible preferred stock and to the accretion of the carrying amount of the Series A convertible preferred stock up to its \$100 per share face redemption

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

amount over 13 years.

Liquidity and Capital Resources

We had \$16.8 million in cash, cash equivalents and short-term investments as of December 31, 2001. Cash used in operating activities from continuing operations (including our Start-up Companies through their respective dates of sale or shutdown) was \$15.4 million for the year ended December 31, 2001 and resulted primarily from cash used in our Start-up Companies through their respective dates of sale or shutdown and general corporate overhead including costs associated with our terminated merger with Motient. Cash used in operating activities from discontinued operations was \$29.5 million for the year ended December 31, 2001. We expect cash used in operations to decrease in future periods as we are no longer operating any Start-up Companies and have reduced our infrastructure needed to manage our remaining business activities.

Cash used in investing activities was \$103.1 million, excluding the \$32.0 million resulting from the net sale of short-term investments, for the year ended December 31, 2001, which primarily consists of the \$50.0 million used to purchase the promissory notes from Motient, \$40.0 million used to purchase the convertible note from the MSV Joint Venture (net of \$10.0 million received from third parties), and cash paid for venture investments of \$6.2 million, partially offset by \$3.8 million of cash received from the sale of investments in affiliates. We do not have any future funding commitments with respect to any of our investments. However, we expect that the MSV Joint Venture will require additional funding from time to time, and we may choose to exercise our preemptive right to provide our pro rata share of such funding, subject to our liquidity and capital resources at the time.

Motient Promissory Notes

In April 2001, we agreed to purchase from Motient 12.5% secured promissory notes, issuable in two tranches, each in the principal amount of \$25.0 million. The Motient notes were collateralized by five million shares of XM Satellite Radio common stock owned by Motient. The first tranche was purchased on April 4, 2001, and the second tranche was purchased on July 16, 2001. The principal of and accrued interest on the Motient notes were payable on October 1, 2001 in either cash, shares of XM Satellite Radio, or any combination thereof at Motient's option, as set forth in the agreement. At our option, the Motient notes may have been exchanged for a number of XM Satellite Radio shares equivalent to the principal of the Motient notes and any accrued interest thereon, as set forth in the agreement.

On October 1, 2001, and again on October 8, 2001, we extended the maturity date of the Motient notes. On October 12, 2001, in accordance with the terms of the Motient notes, we received five million shares of XM Satellite Radio as payment for \$26.2 million of the notes and related interest. The maturity date for the remaining balance of notes in the principal amount of approximately \$26.2 million, and interest thereon, was extended for 60 days. On January 10, 2002, Motient and its subsidiaries filed for protection under Chapter 11 of the United States Bankruptcy Code. As part of its filing, Motient indicated that it may challenge our right to the \$26.2 million outstanding principal balance and accrued interest thereon. Motient may also initiate litigation directly against us to challenge the delivery of the shares of XM Satellite Radio common stock by Motient to us as partial repayment of the aggregate \$50.0 million principal amount of the notes. Negotiations with Motient and its creditors committee are ongoing, and we believe that our recovery on these notes should be substantial. As a result of uncertainty with respect to the ultimate collection on these notes, we recognized a reserve for the entire amount of these notes.

MSV Joint Venture Convertible Note Receivable

Through our 80% owned MSV Investors Subsidiary, we are an active participant in the MSV Joint Venture, a joint venture that includes TMI Communications, Inc., Motient and the Other MSV Investors. The MSV Joint Venture is currently a provider of mobile digital voice and data communications services via satellite in North America. On November 26, 2001, through our MSV Investors Subsidiary, we purchased a \$50.0 million interest in the MSV Joint Venture in the form of a convertible note with a principal amount of \$50.0 million (the "MSV Note"). Immediately prior to the purchase of the convertible note, Rare Medium Group contributed \$40.0 million to the MSV Investors Subsidiary and unrelated third parties contributed \$10.0 million. The MSV Note bears interest at a rate of 10% per year, has a maturity date of November 26, 2006, and is convertible at any time at the option of our MSV Investors Subsidiary into equity interests in the MSV Joint Venture. The MSV Note automatically converts into equity interests upon the MSV Joint Venture obtaining certain approvals from the FCC and its Canadian equivalent, Industry Canada. Upon conversion, our MSV Investors Subsidiary would own approximately 30.8% of the equity interests in the MSV Joint Venture. However, in the event that the MSV Joint Venture receives approval from the FCC by March 31, 2003 with regard to its plans for a next-generation satellite system complemented by ancillary terrestrial base stations as described above in "Item 1. Business - MSV Joint Venture's Strategy," the Other MSV Investors are obligated to invest an additional \$50.0 million in the MSV Joint Venture and, thereafter, our MSV Investors Subsidiary would own approximately 23.6% of the equity interests in the MSV Joint Venture. The fair value of the MSV Note approximates book value based on the equity value of the MSV Joint Venture's recent funding transactions assuming conversion of such note.

Listing on the Nasdaq National Market

By letter dated, February 14, 2002, Nasdaq notified us that if prior to May 15, 2002, the bid price of our Common Stock is not at least \$1.00 for a minimum of 10 consecutive trading days, Nasdaq will notify us that the Common Stock will be delisted from the Nasdaq National Market for failure to satisfy the minimum bid price requirement. In order to regain compliance with the requirements for continued listing on the Nasdaq National Market, absent a significant change in market price, our board of directors and our stockholders will have to approve and we will have to enact a reverse stock split. If such action is not taken or approved, then it is likely, depending on the volatility of our common stock and our ability to meet the listing criteria described above, that we will not satisfy the requirements for continued listing on the Nasdaq National Market or initial registration on either the New York Stock Exchange or the American Stock Exchange. Even if such a split were approved by our stockholders, the market sometimes views reverse stock splits negatively and there can be no assurance that following such stock split we would be successful in meeting the listing criteria described above.

If we are unable to demonstrate compliance with the minimum bid price requirement on or prior to May 15, 2002, or such other date as Nasdaq may permit, and any appeal to Nasdaq for relief from this requirement is unsuccessful, our common stock will be delisted from the Nasdaq National Market. If this were to happen, trading in our common stock would decrease substantially. If our common stock is delisted from the Nasdaq National Market, we would seek to maintain the listing of our common stock on the Nasdaq SmallCap Market. However, if our common stock is delisted from the Nasdaq National Market, the delisting would result in a reduction in the liquidity and market price of our shares of common stock. This lack of liquidity would also make it difficult for us to raise capital.

The Apollo Securities Purchase

On June 4, 1999, we issued and sold to Apollo Investment Fund IV, LP, Apollo Overseas Partners IV, LP and AIF IV/RRRR LLC, for an aggregate purchase price of \$87.0 million, 126,000 shares of our Series A convertible preferred stock, 126,000 Series 1-A warrants, 1,916,994 Series 2-A warrants, 744,000 shares of our Series B convertible preferred stock, 744,000 Series 1-B warrants and 10,345,548 Series 2-B warrants. The Series A convertible preferred stock and Series B convertible preferred stock accrue dividends at an annual rate of 7.5% through June 30, 2002 and 4.65% thereafter. For the first three years, dividends are payable in additional shares of Series A securities. During the next two years, beginning in September 2002, dividends are payable, at the option of the holder, in additional shares of Series A securities or in cash. Dividends paid thereafter are payable in cash. The Series A and Series B convertible preferred stock are subject to mandatory redemption on June 30, 2012.

Under the terms of the securities purchase agreement with the Apollo stockholders at the 1999 annual meeting of our stockholders held on August 19, 1999, the holders of common stock approved the conversion of all of the Series B convertible preferred stock, Series 1-B warrants and Series 2-B warrants, including such additional Series B securities that have been issued as dividends, into like amounts of Series A convertible preferred stock, Series 1-A warrants and Series 2-A warrants, respectively. Pursuant to the approval, all Series B convertible preferred stock, Series 1-B warrants and Series 2-B warrants were converted into Series A convertible preferred stock, Series 1-A warrants and Series 2-A warrants, respectively. The Series A securities are convertible into or exercisable for voting common stock whereas the Series B securities were convertible into or exercisable for non-voting common stock.

On August 22, 2000, the Company issued 12,709,499 shares of common stock to holders of our Series 1-A Warrants as a result of a cashless exercise of all Series 1-A Warrants outstanding at that time. The effective exercise price at the time of exercise was \$0.01 per share. We withheld 9,986 shares of common stock as payment of the aggregate exercise price.

Issuance of Common Stock

On January 14, 2000, we sold 2,500,000 shares of our common stock for gross proceeds of \$70.1 million (net proceeds of \$65.7 million) in a private transaction to a group of mutual funds managed by Putnam Investments and Franklin Resources, Inc., which we refer to in this report as the "private placement." On April 18, 2000, we filed a registration statement with the SEC to register the resale of such shares as required by the purchase agreement executed in connection with such private transaction.

On March 29, 2000, we sold 3,000,000 shares of our common stock for gross proceeds of \$186.0 million (net proceeds of \$175.2 million) in a public offering underwritten by Credit Suisse First Boston Corporation, Deutsche Bank Securities, Inc. and FleetBoston Robertson Stephens, Inc.

Recently Issued Accounting Standards

In July 2001, the FASB issued Statement of Financial Accounting Standards No. 141, "Business Combinations" ("SFAS No. 141"). SFAS No. 141 requires the purchase method of accounting for business combinations initiated after June 30, 2001 and eliminates the pooling-of-interests method. The adoption of SFAS No. 141 did not have a material effect on our results of operations.

In July 2001, the FASB issued Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets," ("SFAS No. 142") which is effective January 1, 2002. SFAS No. 142 eliminates the current requirement to amortize goodwill and indefinite-lived intangible assets and replaces the amortization with an impairment test which must be performed at least annually. For intangible assets with definite useful lives, SFAS 142 requires amortization over their respective expected useful lives to their estimated residual values and review for impairment in accordance with SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of." Additionally, SFAS No. 142 requires that a transitional goodwill impairment test be completed six months from the date of adoption. The adoption of SFAS No. 142 is not expected to have a material effect on our results of operations.

In June 2001, the FASB issued Statement of Financial Accounting Standards No. 143 ("SFAS No. 143"), "Accounting for Asset Retirement Obligations," which is effective January 1, 2003. SFAS No. 143 addresses the financial accounting and reporting for obligations and retirement costs related to the retirement of tangible long-lived assets. The adoption of SFAS No. 143 is not expected to have a material effect on our results of operations.

In August 2001, the FASB issued Statement of Financial Accounting Standards No. 144 ("SFAS No. 144"), "Accounting for the Impairment or Disposal of Long-Lived Assets," which is effective January 1, 2002. SFAS No. 144 supersedes FASB Statement No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of," and the accounting and reporting provisions relating to the disposal of a segment of a business of Accounting Principles Board Opinion No. 30. The adoption of SFAS No. 144 is not expected to have a material effect on our results of operations.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to certain market risks from changes in the price of the XM Satellite Radio publicly traded common stock. We account for our investment in XM Satellite Radio common stock as an available-for-sale, marketable security and report such investment at fair value with net unrealized gains and losses recorded in stockholders' equity. Gains and losses will be recognized in our statements of operations when realized. At December 31, 2001, the reported value of XM Satellite Radio common stock in our balance sheet was approximately \$91.8 million, or \$18.36 per share, resulting in an

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

unrealized gain of approximately \$60.3 million. Changes in the market price of XM Satellite Radio common stock could cause fluctuations in our earnings and financial position. From January 1, 2002 to March 7, 2002, the market price of XM Satellite Radio common stock traded in a range of \$10.70 to \$19.20 per share. As of the close of business on March 7, 2002, the market price of XM Satellite Radio common stock was \$13.30 per share.

EMPLOYMENT CONTRACTS AND CHANGE IN CONTROL ARRANGEMENTS

MEYERS EMPLOYMENT AGREEMENT

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

In connection with the transactions consummated pursuant to the 1998 acquisition of Rare Medium, Inc., we entered into an employment agreement effective April 15, 1998 with Glenn S. Meyers (the "Meyers Employment Agreement"). Pursuant to the Meyers Employment Agreement, as amended, Mr. Meyers was engaged as the Chairman, President and Chief Executive Officer of Rare Medium Group and Rare Medium, Inc. to serve for a term of five years, expiring April 15, 2003. Mr. Meyers receives an annual base salary of \$250,000, with a minimum annual increase during the term of not less than 4% per annum. In addition to base compensation, Mr. Meyers is entitled to receive, for each calendar year during the term, incentive compensation equal to 2.0% of revenues derived from activities of Rare Medium, Inc. for such calendar year in excess of the revenues of Rare Medium, Inc. for the preceding year. Effective June 4, 1999, the Meyers Employment Agreement has been amended and restated to effect a ceiling of \$150,000,000 on revenues for determining such annual incentive compensation payable to Mr. Meyers. In addition, the amended and restated agreement provides that, in the event gross revenues exceed such revenue ceiling, the compensation committee of the board of directors will, with such assistance as it will deem necessary, establish an incentive bonus program for Mr. Meyers based on objective and subjective factors to appropriately incentivize him. This revised incentive bonus program shall be designed to allow Mr. Meyers to continue to receive increases in annual bonuses based on, and subject to, the targets and criteria established by the compensation committee, in amounts similar to the incentive bonuses previously received by him. The Meyers Employment Agreement provides Mr. Meyers with a right to terminate his employment agreement upon a breach of such agreement or upon the occurrence of certain events constituting a "change in control" of Rare Medium Group as defined therein. Upon such a "change in control," Mr. Meyers would be entitled to receive a lump sum payment from Rare Medium Group which shall be equal to all salary and incentive compensation for the remaining term and the cash value of all benefits which would have been received by him for the remaining term. In addition, all of his unvested stock options shall immediately vest and become exercisable. The Meyers Employment Agreement also contains a covenant not to compete with Rare Medium Group or any of its affiliates for the term of the agreement, plus one additional year. Concurrently with the execution of the Meyers Employment Agreement, we granted to Mr. Meyers options to acquire an aggregate of 2,000,000 shares of common stock at exercise prices equal to \$2.375 per share (the fair market value at the time of issuance), which options become exercisable ratably on a monthly basis over a period of 60 months from the date of grant and expire ten years from the date of grant.

OTHER CURRENT EMPLOYMENT AGREEMENTS

We have employment agreements with Craig Chesser, Michael Hultberg and Robert Lewis, each of who is an officer of Rare Medium Group. Under these agreements, if, after 90 days following a change in control of Rare Medium Group, the executive terminates his employment, the executive is entitled to receive severance compensation and benefits in a lump sum payment consisting of one year of his current salary and the right to exercise all vested stock options and unvested stock options which become exercisable upon a change of control through the option expiration date for such options.

STOCK PLANS

On May 6, 1998, the board of directors adopted our 1998 Long Term Incentive Plan (the "Plan"). The Plan was approved by our stockholders on March 16, 1999. The Plan provides for the granting of awards to directors (whether or not employees), executive officers, key employees and consultants and other service providers in the form of stock options, stock appreciation rights, restricted stock awards, deferred stock awards, bonus stock awards, dividend equivalents, and other types of stock based awards. The variety of

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

awards authorized by the Plan is intended to give us flexibility to adapt our compensation practices as the business environment in which we operate changes. The maximum aggregate number of shares of common stock that may be delivered for all purposes under the Plan is 23,000,000, subject to adjustment. The Plan is administered by the compensation committee of the board of directors. These options generally carry five year terms and become exercisable cumulatively in three equal installments, with the first installment becoming exercisable on the one year anniversary of each grantee's date of employment. In 2000, the board of directors amended and restated the Plan to: (1) increase the number of shares of common stock available for issuance under the Plan to 23,000,000; (2) provide that no participant in the Plan may be granted options and stock appreciation rights, or SARs, that become exercisable in any one year for more than 700,000 shares of common stock and awards other than options and SARs that may be settled for the first time in any one year by delivery of more than 350,000 shares of common stock; and (3) provide that all options and SARs will terminate no later than the tenth anniversary of the date of grant. These amendments to the Plan were ratified by our stockholders on June 15, 2000. As of December 31, 2000 and 2001, there were approximately 7.3 million and 19.2 million options, respectively, available for grant under the Plan.

Our Nonqualified Stock Plan for our directors, officers and key employees expired on July 18, 2000 after which date no additional grants can be made under such plan.

In 1994, we adopted an Equity Plan for Directors (the "Equity Plan for Directors") pursuant to which our non-employee directors received automatic option grants whose vesting was dependent on the market price of the common stock. On October 26, 1998, the board of directors amended and restated the Equity Plan for Directors to change the plan from a formula based stock option plan as described above to a discretionary plan (the "Amended and Restated Equity Plan for Directors"), thereby providing more flexibility in determining incentive based stock option awards for our non-employee directors. The Amended and Restated Equity Plan for Directors authorized 500,000 aggregate shares of common stock for the granting of such options under the plan, of which 258,000 were available for granting stock options as of December 31, 2001. We did not make any grants to directors under the Amended and Restated Equity Plan for Directors in 2001. Subsequent to November 1998, grants of stock options to directors have been made under the Company's Amended and Restated 1998 Long Term Incentive Plan.

See Item 13. "Certain Relationships and Related Transactions" for a discussion of certain agreements between Rare Medium Group and affiliates of certain of our directors.

REPRICING OF OPTIONS

Report of the Compensation Committee. On October 5, 2001, the compensation committee determined that because the outstanding options held by certain executive officers and employees were exercisable at prices that were significantly above prevailing market prices for our common stock, they no longer provided an adequate level of incentive. Accordingly, to reincentivize certain of our remaining executive officers and employees and in recognition of their service to us the compensation committee approved the repricing of the exercise prices of options to purchase an aggregate of 328,334 shares of common stock to \$0.13 per share, the fair market value at the date of the repricing. On December 21, 2001, the compensation committee approved an additional repricing of the exercise prices of options to purchase an aggregate of 400,000 shares of common stock held by non-management directors to \$0.60, per share, the fair market value at the date of the repricing.

RARE MEDIUM GROUP, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) Summary of Significant Accounting Policies

(a) Description of Business and Basis of Presentation

Rare Medium Group, Inc. (the "Company") conducts its business primarily through its subsidiaries. From 1998 through the third quarter of 2001, its principal business was conducted through Rare Medium, Inc., which developed Internet e-commerce strategies, business processes, marketing communications, branding strategies and interactive content using Internet-based technologies and solutions. As a result of the weakening of general economic conditions which caused many companies to reduce spending on Internet-focused business solutions, a decision to discontinue Rare Medium, Inc.'s operations, along with those of its LiveMarket, Inc. subsidiary ("LiveMarket"), was made at the end of the third quarter of 2001 (see Note 5).

From 1999 through the first quarter of 2001, the Company made venture investments by taking strategic minority equity positions in other independently managed companies. Additionally, in the past, the Company has developed, managed and operated companies in selected Internet-focused market segments ("Start-up Companies"). During the first quarter of 2001, the Company reduced its focus on these businesses and substantially ceased providing funding to its Start-up Companies. Additionally, the Company sold a majority of its equity interest in the operations of three of its Start-up Companies: ChangeMusic Network ("ChangeMusic") and ePrize in April 2001 and Regards.com in December 2001 (see Note 8(b)). Currently, the Company is no longer actively seeking new start-up opportunities or venture investments, nor is it managing or operating any Start-up Companies.

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

As a result of the decision to discontinue the operations of Rare Medium, Inc. and LiveMarket, the operating results reported in our statements of operations as continuing operations include the consolidated results of the Company, its 80% owned MSV Investors, LLC subsidiary ("MSV Investors Subsidiary"), and its Start-up Companies, up to their respective dates of sale or shutdown. The results of Rare Medium, Inc. and LiveMarket are reflected as discontinued operations.

In November 2001, through its MSV Investors Subsidiary, the Company became a participant in the Mobile Satellite Venture, L.P. joint venture ("MSV Joint Venture"), a joint venture that includes TMI Communications, Inc., Motient Corporation ("Motient"), and certain other investors (collectively, the "Other MSV Investors"). The MSV Joint Venture is currently a provider of mobile digital voice and data communications services via satellite in North America. The Company expects to become an increasingly active participant in the MSV Joint Venture and has designated three members of the 12-member board of directors of the MSV Joint Venture's corporate general partner.

In addition to winding down Rare Medium, Inc., the Company's current operations consist of actively managing its interest in the MSV Joint Venture. The Company's principal assets consist of its interest in the MSV Joint Venture, five million shares of XM Satellite Radio, Inc. ("XM Satellite Radio") common stock, promissory notes from Motient with a principal amount of \$26.2 million (see Notes 3 and 17), its remaining investments in affiliates, and cash, cash equivalents and short-term investments.

(b) Cash and Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less at the time of purchase to be cash equivalents. As of December 31, 2001, Rare Medium, Inc. has cash equivalents in the amount of \$1.3 million supporting letters of credit issued for certain real estate leases (see Note 17).

(c) Short-Term Investments

The Company classifies investments in short-term debt securities as held to maturity. These investments are diversified among high credit quality securities in accordance with the Company's investment policy. The Company has both the intent and ability to hold these securities to maturity. The cost of these securities is adjusted for amortization of premiums and accretion of discounts to maturity over the contractual life of the security. Such amortization and accretion are included in interest income.

The Company classifies its investment in XM Satellite Radio common stock as an available-for-sale, marketable security and reports such investment at fair value with net unrealized gains and losses recorded in stockholders' equity. Gains and losses will be recognized in our statements of operations when realized. At December 31, 2001, the reported value of XM Satellite Radio in our balance sheet was approximately \$91.8 million, resulting in an unrealized gain of approximately \$60.3 million.

(d) Property and Equipment

The Company uses the straight-line method of depreciation. The estimated useful lives of property and equipment are as follows:

	Years
Computer equipment and software.....	3 to 5

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

Furniture and fixtures..... 5 to 7

Leasehold improvements are amortized on a straight-line basis over the term of the lease or the estimated useful life of the improvement, whichever is shorter.

(e) Goodwill and Intangibles

Goodwill, which represents the excess of purchase price over fair value of net assets acquired, was amortized on a straight-line basis over the expected period to be benefited, which was typically three years. The agreements pursuant to which the Company acquired certain companies (see Note 8(a)) include provisions that could require the Company to issue additional shares if certain performance targets are met. Accumulated amortization amounted to \$36.5 million, \$77.3 million and nil at December 31, 1999, 2000 and 2001, respectively. In connection with discontinuation of the operations of Rare Medium, Inc. and LiveMarket (see Note 5), and with the sale or shutdown of all the Start-up Companies (see Note 8(b)), all remaining goodwill balances were written off in 2001.

Long-lived assets and certain identifiable intangibles, including goodwill, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying value of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

(f) Revenue Recognition

Advertising revenues derived from the delivery of advertising impressions are recognized in the period the impressions are delivered, provided the collection of the resulting receivable is reasonably assured.

Advertising revenues from ChangeMusic publications were recognized at the time the related publications were sent to the subscriber or were available at newsstands. Subscription revenue was deferred and recognized as income over the subscription period. Revenues related to newsstand magazine sales were recognized at the time that the publications were available at the newsstands, net of estimated returns.

Revenues from the Internet services business, which was one of our discontinued operations, were recognized using the percentage-of-completion method for fixed price contracts and as time was incurred for time and materials contracts, provided the collection of the resulting receivable was reasonably assured. Unbilled receivables, representing time and costs incurred on projects in process in excess of amounts billed, were recorded as work in process in the accompanying balance sheets. Deferred revenue represents amounts billed in excess of costs incurred and were recorded as liabilities. To the extent costs incurred and anticipated costs to complete projects in progress exceed anticipated billings, a loss was recognized in the period such determination was made for the excess.

(g) Investments in Affiliates

The Company accounts for its investments in affiliates in which it owns less than 20% of the voting stock and does not possess significant influence over the operations of the investee, under the cost method of accounting. The Company accounts for those investments where the Company owns greater than 20%

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

of the voting stock and possesses significant influence under the equity method.

(h) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and for operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(i) Stock Option Plans

The Company accounts for its stock option plan in accordance with Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123"), which allows entities to continue to apply the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB Opinion No. 25"), as clarified by Financial Accounting Standards Board ("FASB") Interpretation No. 44, "Accounting For Certain Transactions Involving Stock Compensation," and provide pro forma net income and pro forma earnings per share disclosures for employee stock option grants made in 1995 and future years as if the fair-value-based method, as defined in SFAS No. 123, had been applied. The Company has elected to apply the provisions of APB Opinion No. 25 and provide the pro forma disclosure required by SFAS No. 123 (see Note 14).

(j) Use of Estimates

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

(k) Net Loss Per Share

Basic earnings per share ("EPS") is computed by dividing net income or net loss attributable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution from the exercise or conversion of securities into common stock. Net loss and weighted average shares outstanding used for computing diluted loss per common share were the same as that used for computing basic loss per common share.

For the purposes of computing EPS from continuing operations, the Company had potentially dilutive common stock equivalents of 6,380,103, 5,846,723 and 83,726 for the years ended December 31, 1999, 2000 and 2001, respectively, made up of stock options. In addition, the Company had potentially dilutive common stock equivalents of 18,924,862, 23,742,077 and nil related to the Series A convertible preferred stock, Series 1-A and Series 2-A warrants and other common stock warrants for the years ended December 31, 1999, 2000 and 2001, respectively. These common stock equivalents were not included in the computation of earnings per common share because they were antidilutive on continuing operations for the periods presented.

(l) Fair Value of Financial Instruments

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

The fair value of cash and cash equivalents, short-term investments, accounts receivables and the investment in XM Satellite Radio common stock approximate book value. The fair value of the note receivable from the MSV Joint Venture approximates book value based on the equity value of the MSV Joint Venture's recent funding transactions assuming conversion of such note. The Company also holds promissory notes from Motient with a principal amount of \$26.2 million. As a result of uncertainty with respect to the ultimate collection on the Motient notes, the Company recognized a reserve for the entire amount of these notes (see Notes 3 and 17).

(m) Concentration of Credit Risk

Financial instruments which potentially subject the Company to a concentration of credit risk consist of cash, cash equivalents, short-term investments, investment in XM Satellite Radio common stock, and note receivable from the MSV Joint Venture. Cash, cash equivalents and short-term investments consist of deposits, money market funds, and commercial paper placed with various high credit quality financial institutions.

At December 31, 2001, the reported value of the Company's investment in XM Satellite Radio was approximately \$91.8 million, or \$18.36 per share, resulting in an unrealized gain of approximately \$60.3 million. Changes in the market price of XM Satellite Radio stock could cause fluctuations in the Company's earnings and financial position.

The note receivable by the MSV Investors Subsidiary from the MSV Joint Venture is convertible into approximately 30.8% of the equity interests in the joint venture (see Note 2). The Company holds an 80% interest in the MSV Investors Subsidiary.

(n) Internal-Use Software

The Company accounts for internal-use software under the American Institute of Certified Public Accountants Statement of Position 98-1, "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use." The Company expenses costs incurred in the preliminary project stage and, thereafter, capitalizes costs incurred in developing or obtaining internal-use software. Certain costs, such as maintenance and training, are expensed as incurred.

(o) Recently Issued Accounting Standards

In July 2001, the FASB issued SFAS No. 141, "Business Combinations" ("SFAS No. 141"). SFAS No. 141 requires the purchase method of accounting for business combinations initiated after June 30, 2001 and eliminates the pooling-of-interests method. The adoption of SFAS No. 141 did not have a material effect on the Company's results of operations.

In July 2001, the FASB issued SFAS No. 142, "Goodwill and Other Intangible Assets," which is effective January 1, 2002. SFAS No. 142 eliminates the current requirement to amortize goodwill and indefinite-lived intangible assets and replaces the amortization with an impairment test which must be performed at least annually. For intangible assets with definite useful lives, SFAS 142 requires amortization over their respective expected useful lives to their estimated residual values and review for impairment in accordance with SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of" ("SFAS No. 121"). Additionally, SFAS No. 142 requires that a transitional goodwill impairment test be completed six months from the date of adoption. The adoption of SFAS No. 142 is not expected to have a material effect on the Company's results of operations.

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

In June 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations," which is effective January 1, 2003. SFAS No. 143 addresses the financial accounting and reporting for obligations and retirement costs related to the retirement of tangible long-lived assets. The adoption of SFAS No. 143 is not expected to have a material effect on the Company's results of operations.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," which is effective January 1, 2002. SFAS No. 144 supersedes SFAS No. 121 and the accounting and reporting provisions relating to the disposal of a segment of a business of Accounting Principles Board Opinion No. 30. The adoption of SFAS No. 144 is not expected to have a material effect on the Company's results of operations.

(p) Reclassifications

Certain reclassifications, primarily related to discontinued operations (see Note 5), have been made to the prior years' financial statements to conform to the current year's presentation.

(2) Investment in the MSV Joint Venture

On November 26, 2001, through its MSV Investors Subsidiary, the Company purchased a \$50.0 million interest in the MSV Joint Venture in the form of a convertible note with a principal amount of \$50.0 million (the "MSV Note"). Immediately prior to the purchase of the convertible note, the Company contributed \$40.0 million to its MSV Investors Subsidiary and unrelated third parties contributed \$10.0 million. The MSV Note bears interest at a rate of 10% per year, has a maturity date of November 26, 2006, and is convertible at any time at the option of its MSV Investors Subsidiary into equity interests in the MSV Joint Venture. The MSV Note automatically converts into equity interests upon the MSV Joint Venture obtaining certain approvals from the FCC and its Canadian equivalent, Industry Canada. Upon conversion, the MSV Investors Subsidiary would own 30.8% of the equity interests in the MSV Joint Venture. However, in the event that the MSV Joint Venture receives approval from the FCC by March 31, 2003 with regard to its plans for a next-generation satellite system complemented by ancillary terrestrial base stations, the Other MSV Investors are obligated to invest an additional \$50.0 million in the MSV Joint Venture and, thereafter, the MSV Investors Subsidiary would own approximately 23.6% of the equity interests in the MSV Joint Venture.

The \$10.0 million received from unaffiliated persons as an investment into the MSV Investors Subsidiary is reflected in the accompanying consolidated financial statements as minority interest.

(3) Notes Receivable from Motient

On April 2, 2001, the Company agreed to purchase from Motient 12.5% secured promissory notes (the "Motient Notes"), issuable in two tranches, each in the principal amount of \$25.0 million. The Motient Notes were collateralized by five million shares of XM Satellite Radio common stock owned by Motient. The first tranche was purchased on April 4, 2001, and the second tranche was purchased on July 16, 2001. The principal of and accrued interest on the Motient Notes were payable on October 1, 2001 in either cash, shares of XM Satellite Radio, or any combination thereof at Motient's option, as set forth in the agreement. At the option of the Company, the Motient Notes may have been exchanged for a number of XM Satellite Radio shares based on a formula, as set forth in the agreement.

On October 1, 2001, and again on October 8, 2001, the Company extended the maturity date of the Motient Notes. On October 12, 2001, in

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

accordance with the terms of the Motient Notes, the Company received five million shares of XM Satellite Radio as payment for \$26.2 million of the Motient Notes and accrued interest. The maturity date for the remaining balance of the Motient Notes in the principal amount of approximately \$26.2 million, and interest thereon, was extended for 60 days. On January 10, 2002, Motient and its subsidiaries filed for protection under Chapter 11 of the United States Bankruptcy Code. As part of its filing, Motient indicated that it may challenge the Company's right to the \$26.2 million outstanding principal balance and accrued interest thereon. Motient may also initiate litigation directly against the Company to challenge the delivery of the shares of XM Satellite Radio common stock by Motient to the Company as partial repayment of the aggregate \$50.0 million principal amount of the Motient Notes. As a result of uncertainty with respect to the ultimate collection on the Motient Notes, a reserve was recognized for the entire amount of these notes. This loss of approximately \$26.9 million was partially offset by a gain of \$5.3 million that resulted from the difference between the value of the XM Satellite Radio common stock received in connection with partial repayment of the Motient Notes in accordance with their terms and the value of the XM Satellite Radio common stock using its closing price on the date of the partial repayment. The results of these transactions are reflected in other income (expense), net on the accompanying consolidated statements of operations (see Note 17).

(4) Investments in Affiliates

The following is a summary of the carrying value of investments held by the Company at December 31 (in thousands):

	2000	2001
	-----	-----
Cost investments	\$37,501	\$2,600
Marketable securities	7,791	--
Equity investments	2,724	--
	-----	-----
	\$48,016	\$2,600
	=====	=====

For the year ended December 31, 1999, the Company recognized a loss on investment in affiliates of \$1.5 million consisting of \$1.1 million for its proportionate share of affiliates' operating losses and \$0.4 million for the amortization of its net excess investment over its equity in each affiliate's net assets for those affiliates accounted for under the equity method. For the year ended December 31, 2000, the Company recognized a loss on investment in affiliates of \$11.1 million consisting of \$5.4 million for the impairment to the carrying value of certain affiliates accounted for under the cost method and \$3.3 million for its proportionate share of affiliates' operating losses and \$2.4 million for the amortization of its net excess investment over its equity in each affiliate's net assets for those affiliates accounted for under the equity method. For the year ended December 31, 2001, the Company recognized a loss on investment in affiliates of \$54.6 million consisting of \$43.8 million for the impairment to the carrying value of certain affiliates accounted for under the cost method, \$3.6 million for the realized loss on the sale of publicly traded securities, \$0.5 million for its proportionate share of affiliates' operating losses and \$2.2 million for amortization of its net excess investment over its equity in each affiliate's net assets for those affiliates accounted for under the equity method, and \$4.5 million related to the sale or shutdown of its Start-up Companies.

During the years ended December 31, 1999, 2000 and 2001, the Company's discontinued subsidiary Rare Medium, Inc. recognized revenue of approximately \$3.5 million, \$11.9 million and \$4.5 million for services provided to affiliates which is included in the loss from discontinued operations.

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

(5) Discontinued Operations

At the end of the third quarter of 2001, a decision to discontinue the operations of Rare Medium, Inc. and the LiveMarket subsidiary was made in light of their performance and prospects. The wind-down of these businesses is expected to be completed during 2002. In connection with the discontinuance of these businesses, the Company recorded a charge of \$35.9 million related to severance and benefits resulting from headcount reductions, an accrual for estimated losses of \$2.9 million during the wind-down period and the write-off of unamortized goodwill and property and equipment, net of expected proceeds. As of December 31, 2001, the remaining assets, including cash, accounts receivables, property and equipment and other assets, and liabilities, including accounts payable, restructuring and other accrued expenses and other current liabilities, amounting to approximately \$3.6 million and \$19.8 million, respectively.

The discontinuance of these businesses represents the disposal of a business segment under Accounting Principles Board Opinion No. 30. Accordingly, the results of these operations have been classified as discontinued operations, and prior period results have been reclassified. For the years ended December 31, 1999, 2000 and 2001, revenue from these discontinued operations amounted to \$36.9 million, \$117.9 million and \$26.9 million, respectively.

(6) Restructuring Charges

During 2001, the Company recognized restructuring charges of approximately \$56.7 million, primarily related to its Internet services business, consisting of \$30.8 million for facilities and the disposition of property and equipment, \$19.0 million for the impairment of unamortized goodwill, \$3.2 million for severance and benefits related to headcount reductions and \$3.7 million for other office shutdown costs. Initially, these restructuring charges were aimed at aligning Rare Medium, Inc.'s cost structure with changing market conditions and decreased demand for its services. Additional charges were incurred as a result of the discontinuance of the operations of the Rare Medium, Inc. and LiveMarket subsidiaries. During 2001, head count reductions, attrition and sale of the LiveMarket business and portions of the Internet services business reduced the number of employees in these businesses by approximately 760. Of the \$56.7 million in restructuring charges, \$55.6 million is reflected in the loss from discontinued operations.

The total cash outlay and non-cash charges for the restructuring activities are approximately \$13.0 million and \$43.7 million, respectively. As of December 31, 2001, approximately \$8.4 million of cash was used, \$3.7 million is expected to be used in 2002, and the remaining cash outlay of approximately \$0.9 million, primarily related to the present value of the net future minimum lease payments for certain real estate lease obligations, is expected to be used over the next six years. Certain assumptions were made in estimating the restructuring charges, including, but not limited to, sublease income expected to be derived from Rare Medium, Inc.'s facilities. If Rare Medium, Inc. is able to negotiate more favorable subleases or reach settlement with its landlords, a benefit to results of operations could be realized. If future net lease costs exceed estimates, additional expense would be recognized in future periods.

Restructuring activities during the year ended December 31, 2001 were as follows (in thousands):

Restructuring	Amount
---------------	--------

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

	Charges -----	Utilized -----	Decem -----
Facilities and property and equipment	\$30,845	\$27,320

(7) Merger with Motient

On May 14, 2001, the Company entered into an agreement to merge with a subsidiary of Motient. By a letter agreement dated October 1, 2001, Motient and the Company terminated the planned merger. As a result of the termination, neither the Company nor Motient shall have any obligation to the other party, except for repayment by Motient to the Company of amounts outstanding under the Motient Notes (see Note 3).

(8) Business Transactions

(a) Acquisitions

During 1999 and 2000, the Company acquired 100% of the following Internet services businesses, which were merged into the Company's Rare Medium, Inc. subsidiary. The Company has accounted for these transactions under the purchase method of accounting. The portion of the aggregate purchase prices, including acquisition costs, that exceeded the fair value of the net assets acquired was allocated to goodwill and, until the decision was made to discontinue the operations of Rare Medium, Inc., was amortized using the straight line method over three years. The results of operations for these acquisitions have been included in the accompanying statements of operations as discontinued operations since the respective dates of acquisition and all remaining amounts of goodwill were written off (see Note 5).

In connection with certain acquisitions, the former shareholders have agreed to indemnify the Company for any losses resulting from a breach of,

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

among other things, their respective representations, warranties and covenants. To secure the indemnification obligations of these shareholders thereunder, 149,762 shares of the Company's common stock delivered to these shareholders, included as part of the consideration, remain in escrow at December 31, 2001, and the liability of these shareholders under such indemnification obligations is expressly limited to the value of such shares held in escrow. During the year ended December 31, 2000, the Company issued 5,399 shares of its common stock as additional consideration for acquisitions made during 1999. During the year ended December 31, 2001, the Company issued 419,982 shares of its common stock and 80,000 stock options as additional consideration for an acquisition made during 1999 and retired 43,945 shares of its common stock as a reduction of consideration for acquisitions made during 1999 and 2000.

In November 1999, the Company acquired 25% of the common shares, on a fully diluted basis, of College Media, Inc. ("CMJ"). Total consideration amounted to approximately \$4.9 million representing \$1.0 million in cash and 180,860 shares of the Company's common stock. At such time, the Company also agreed to merge its 96% owned subsidiary, Changemusic.com with CMJ to form ChangeMusic Network, Inc. Additionally, the Company acquired 1,000 shares of Series A Convertible Preferred Stock, par value \$0.01 per share of ChangeMusic ("ChangeMusic Preferred Stock") and a warrant to purchase up to an additional 1,000 shares of ChangeMusic Preferred Stock at a price of \$8,400 per share. The consideration price for the ChangeMusic Preferred Stock and warrant was \$7.0 million in cash. As a result of the Company owning approximately 62% of the common stock outstanding of ChangeMusic, 74% assuming the conversion of the ChangeMusic Preferred Stock and exercise of the warrant, the statements of financial position and the results of operations (from November 1999), have been consolidated through the date of sale of ChangeMusic (see Note 8(b)). Total goodwill resulting from these transactions representing (a) the cash and common stock of the Company, (b) the contribution of the Company's interest in ChangeMusic and (c) the net liabilities of CMJ and acquisition costs, amounted to \$10.1 million. The Company has accounted for this transaction under the purchase method of accounting. Goodwill was being amortized using the straight-line method over three years.

Pro Forma Financial Information (unaudited)

The following unaudited pro forma information is presented as if the Company had completed the above 2000 acquisitions as of January 1, 1999. The pro forma information is not necessarily indicative of what the results of operations would have been had the acquisitions taken place at those dates or of the future results of operations.

million, respectively. The Company has accounted for these transactions under the purchase method of accounting. Amounts allocated to intangible assets including goodwill was approximately \$8.2 million and, through the dates of sale or shutdown of the respective businesses, are being amortized over three years. The results of these acquisitions have been included in the accompanying statements of operations since the respective dates of acquisition. The pro forma effects on the Company's statements of operations are not material.

In January 2000, the Company completed the acquisition of Notus Communication, Inc. ("Notus"), a privately held Internet communications company based in Atlanta that provided business to business Internet unified messaging technology solutions. In connection with this acquisition, the Company issued 56,577 shares of its common stock, valued at approximately \$1.7 million, and an approximate 12% interest in its majority owned subsidiary iFace.com, Inc. The Company's effective ownership in Notus, which was renamed NoticeNow.com, Inc., was 85.5%. The Company accounted for this transaction under the purchase method of accounting. The aggregate purchase price, including acquisition costs, exceeded the fair value of the net assets acquired by approximately \$2.0 million. This amount was allocated to goodwill and until the shutdown of Notus in the second quarter of 2001 was being amortized using the straight-line method over three years. Included in the accompanying statements of operations are the results of NoticeNow.com since the date of acquisition. The pro forma effects on the Company's statements of operations are not material.

(b) Sale of Businesses

In April 2001, the Company sold a majority of its equity interest in two of its Start-up Companies: ChangeMusic and ePrize. The Company received total aggregate consideration of \$1.4 million, consisting of cash and a promissory note with a principal amount of approximately \$0.5 million. The Company retained a 15% equity interest in ChangeMusic and a 5% equity interest in ePrize. During 2001, the Company recognized a loss of approximately \$2.5 million relating to the sale of ChangeMusic and a gain of approximately \$1.5 million relating to the sale of ePrize. In December 2001, the Company sold the assets of Regards.com. The Company received consideration of approximately \$0.1 million of cash. The Company recognized a nominal gain relating to this transaction.

(12) Stockholders' Equity

Common Stock Transactions

In 1999 and 2000, the Company issued 4,977,923 and 862,721 shares, respectively, of common stock as consideration for the purchase of Internet services business and start-up acquisitions. The fair value of the common stock was determined based on the average trading price of the Company's common stock at the time of the respective acquisitions.

In 1999 and 2000, the Company issued 1,431,756 shares and 53,160 shares, respectively, of common stock to certain beneficial holders of the note held by the former shareholders of Rare Medium, Inc. in exchange for the principal amount of the note and accrued interest. Additionally, 34,144 shares of common stock were issued with respect to the interest payment made in April 1999. In 1999, \$1.5 million of non-cash interest expense was recognized to the extent that the fair value of the stock on the date of conversion exceeded the conversion price.

Pursuant to the terms of a Securities Purchase Agreement, dated as of January 28, 1999, the Company agreed to sell, in two tranches, 8% Convertible Term Debentures of the Company in the aggregate principal amount of \$6.0 million (the "Convertible Debentures") and five year warrants to purchase an aggregate of 693,642 shares of common stock at an exercise price of \$5.27 per share, subject to reset (the "Warrants"). The first tranche of the transaction closed effective January 28, 1999, at which time the Company sold the Convertible Debentures in the aggregate principal amount of \$3.5 million and Warrants to purchase 404,625 shares of common stock. In 1999, \$1.1 million of non-cash interest expense was recognized representing the accretion of the discount resulting from the Convertible Debentures' beneficial conversion feature. On June 4, 1999, in association with the issuance of the redeemable preferred stock (see Note 13), the Company sold the remaining \$2.5 million of Convertible Debentures and Warrants. The Convertible Debentures and Warrants were then immediately converted into 1,588,462 shares of common stock.

On January 14, 2000, the Company sold 2,500,000 shares of its common stock for gross proceeds of \$70.1 million (net proceeds of \$65.7 million) in a

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

private transaction to a group of mutual funds managed by Putnam Investments and Franklin Resources, Inc. On April 18, 2000, the Company filed a registration statement with the SEC to register the resale of such shares as required by the purchase agreement executed in connection with such private transaction.

On March 29, 2000, the Company sold 3,000,000 shares of its common stock for gross proceeds of \$186.0 million (net proceeds of \$175.2 million) in a public offering underwritten by Credit Suisse First Boston Corporation, Deutsche Bank Securities, Inc. and FleetBoston Robertson Stephens, Inc.

On August 22, 2000, the Company issued 12,709,499 shares of common stock to holders of the Company's Series 1-A Warrants as a result of a cashless exercise of all Series 1-A Warrants outstanding at that time. The effective exercise price at the time of exercise was \$0.01 per share (see Note 13). The Company withheld 9,986 shares of common stock as payment of the aggregate exercise price.

On November 19, 2001, the Company entered into a settlement agreement with its former public relations firm in order to resolve a dispute concerning the Company's alleged failure to deliver options covering a number of shares of the Company's stock that were allegedly owed relating to past services rendered which allegedly resulted in damages of \$12.8 million to the public relations firm. Pursuant to the settlement agreement, the Company, among other things, issued 1,250,000 shares of unregistered common stock to the firm and an option to purchase an additional 47,000 unregistered shares of common stock. The fair value of this consideration approximated \$1.2 million.

(13) Redeemable Preferred Stock

On June 4, 1999, the Company issued and sold to Apollo Investment Fund IV, LP, Apollo Overseas Partners IV, LP and AIF IV/RRRR LLC (collectively, "Apollo"), for an aggregate purchase price of \$87.0 million, 126,000 shares of the Company's Series A Convertible Preferred Stock (the "Series A Preferred Stock"), 126,000 Series 1-A Warrants (the "Series 1-A Warrants"), 1,916,994 Series 2-A Warrants (the "Series 2-A Warrants"), 744,000 shares of the Company's Series B Preferred Stock (the "Series B Preferred Stock"), 744,000 Series 1-B Warrants (the "Series 1-B Warrants") and 10,345,548 Series 2-B Warrants (the "Series 2-B Warrants").

Under the terms of the securities purchase agreement with Apollo, at the Company's 1999 Annual Meeting of its stockholders held on August 19, 1999, the holders of common stock approved the conversion (the "Apollo Conversion") of all of the Series B Preferred Stock, Series 1-B Warrants and Series 2-B Warrants, including such additional Series B Securities that have been issued as dividends, into like amounts of Series A Preferred Stock, Series 1-A Warrants and Series 2-A Warrants, respectively. Pursuant to the approval, all Series B preferred stock and related warrants were converted into Series A preferred stock and warrants. The Series A securities are convertible into or exercisable for voting common stock whereas the Series B securities were convertible into or exercisable for non-voting common stock.

The Series A Preferred Stock are subject to mandatory and optional redemption. On June 30, 2012, the Company will be required to redeem all Series A Preferred Stock plus any accrued and unpaid dividends. At the option of the Company, the Series A Preferred Stock can be redeemed after June 30, 2002 provided that the trading price of the Company's common stock for each of the preceding 30 trading days is greater than \$12.00 per share, or after June 30, 2004 at a price of 103% of the face value of the Series A Preferred Stock plus any accrued and unpaid dividends. In the event of a change of control, as defined, at the option of the holders of the majority of the then outstanding shares of the Series A Preferred Stock, the Company is required to redeem all

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

or any number of such holders' shares of Series A Preferred Stock plus any accrued and unpaid dividends. The Series A Preferred Stock are convertible into common stock at a conversion price of \$7.00, subject to adjustment under certain anti-dilution provisions as defined.

The preferred cumulative quarterly dividends are based on a rate of 7.5% per annum for the first three years and 4.65% thereafter. For the first three years, dividends are payable in additional shares of Series A securities. During the next two years, beginning in September 2002, dividends are payable, at the option of the holder, in additional shares of Series A securities or in cash. Dividends paid thereafter are payable in cash.

Each Series 1-A warrant is exercisable for 13.5 shares of Company common stock and each Series 2-A warrant is exercisable for one share of Company common stock. The Series 1-A and Series 2-A warrants are exercisable at any time and expire ten years from the date issued. The exercise price of the Series 1-A warrants is dependent on the trading price of the Company's common stock. The exercise price ranges from \$0.01, if the trading price is equal to or greater than \$7.00, to \$4.20 if the trading price is equal to or less than \$4.00; the exercise price of the Series 2-A warrants is \$7.00. These exercise prices and the number of shares purchasable by each warrant are subject to adjustment under certain anti-dilution provisions as defined. The holders of the Series 1-A and Series 2-A warrants have the option to pay the exercise price of the warrant in cash, Company common stock previously held, or instructing the Company to withhold a number of Company shares with an aggregate fair value equal to the aggregate exercise price.

As of December 31, 2001, assuming that affiliates of Apollo convert all their shares of Series A convertible preferred stock and exercise all their Series 1-A and Series 2-A warrants, they would own approximately 44.1% of the Company's outstanding common stock.

The Company ascribed value to the Series A securities based on their relative fair value. As such, \$29.9 million has been allocated to Series A Preferred Stock and the remaining \$57.1 million has been allocated to the related Series 1-A and Series 2-A warrants. This transaction has been accounted for in accordance with FASB Emerging Issues Task Force 98-5 "Accounting for Convertible Securities with Beneficial Conversion Features." As a result of the holders' ability to convert immediately, \$29.9 million was reflected in 1999 as a dividend in determining the net loss attributable to common stockholders. Additional dividends have been recorded, representing the accrual of the annual 7.5% pay-in-kind dividend and the accretion of the carrying value up to the face redemption over 13 years.

(14) Employee Compensation Plans

The Company provides incentive and nonqualified stock option plans for directors, officers, and key employees of the Company and others. The Company has reserved a total of 28,600,000 shares of authorized common stock for issuance under the following plans: the Long Term Incentive Plan, Nonqualified Stock Option Plan and Equity Plan for Directors. The number of options to be granted and the option prices are determined by the Compensation Committee of the Board of Directors in accordance with the terms of the plans. Options generally expire five to ten years after the date of grant.

During 1998, the Board of Directors approved the 1998 Long-Term Incentive Plan, ("Stock Incentive Plan") under which "non-qualified" stock options ("NQSOs") to acquire shares of common stock may be granted to non-employee directors and consultants of the Company, and "incentive" stock options ("ISOs") to acquire shares of common stock may be granted to employees. The Stock Incentive Plan also provides for the grant of stock appreciation rights ("SARs"), shares of restricted stock, deferred stock

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

awards, dividend equivalents, and other stock-based awards to the Company's employees, directors, and consultants.

The Stock Incentive Plan provides for the issuance of up to a maximum of 23,000,000 shares of common stock and is currently administered by the Compensation Committee of the Board of Directors. Under the Stock Incentive Plan, the option price of any ISO may not be less than the fair market value of a share of common stock on the date on which the option is granted. The option price of an NQSO may be less than the fair market value on the date the NQSO is granted if the Board of Directors so determines. An ISO may not be granted to a "ten percent stockholder" (as such term is defined in section 422A of the Internal Revenue Code) unless the exercise price is at least 110% of the fair market value of the common stock and the term of the option may not exceed five years from the date of grant. Common stock subject to a restricted stock purchase or a bonus agreement is transferable only as provided in such agreement. The maximum term of each stock option granted to persons other than ten percent stockholders is ten years from the date of grant.

Under the Nonqualified Stock Option Plan, which provides for the issuance of up to 5,100,000 shares, the option price as determined by the Compensation Committee may be greater or less than the fair market value of the common stock as of the date of the grant, and the options are generally exercisable for three to five years subsequent to the grant date. The Nonqualified Stock Option Plan expired on July 18, 2000, and thereafter, no new options can be granted under the plan.

The Company also authorized in 1994 the Equity Plan For Directors. The Equity Plan For Directors is a fixed stock option plan whereby vesting is dependent upon the performance of the market price of the common stock. Under the Equity Plan For Directors, options may be granted for the purchase of up to 500,000 shares of common stock to outside directors. Under the terms of the Equity Plan For Directors, the option price cannot be less than 100% of the fair market value of the common stock on the date of the grant.

In the third quarter of 2000, employee holders of stock options with exercise prices at or above \$30.00 per share were allowed to exchange either all or 50% of their existing stock options for an agreement by the Company to issue new options at a date in excess of six months thereafter. The Company's obligation to issue new stock options was contingent on each participant's continued full-time employment with the Company through such period. On March 12, 2001, the Company issued 1,426,313 stock options at an exercise price of \$1.66, the fair market value of the underlying common stock on the date of issuance of the new options, to those employees who had elected to participate under this agreement. These transactions did not result in the recognition of compensation expense.

On October 5, 2001, the compensation committee of the Company's board of directors determined that the outstanding options held by certain executive officers and employees were exercisable at prices that were significantly above prevailing market prices for our common stock. Accordingly, the compensation committee approved a repricing of the exercise prices of options to purchase an aggregate of 328,334 shares of common stock to \$0.13 per share, the fair market value at the date of the repricing. On December 21, 2001, the compensation committee approved an additional repricing of the exercise prices of options to purchase an aggregate of 400,000 shares of common stock held by non-management directors to \$0.60 per share, the fair market value at the date of the repricing. The Company recorded a non-cash compensation charge during the year ended December 31, 2001 of approximately \$0.2 million as a result of these two actions.

The per share weighted average fair value of stock options granted

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

during 1999, 2000 and 2001 was \$6.57, \$18.52 and \$0.81, respectively, on the date of grant using the Black-Scholes option pricing model with the following assumptions: (1) a risk free interest rate ranging from 4.7% to 6.5% in 1999, 5.8% to 6.5% in 2000 and 2.5% to 5.3% in 2001, (2) an expected life of five years in 1999, four years in 2000 and five years in 2001, (3) volatility of approximately 96.3% in 1999, 139% in 2000 and 162% in 2001, and (4) an annual dividend yield of 0% for all years.

The Company applies the provisions of APB Opinion No. 25 in accounting for its Stock Incentive Plan and, accordingly, other than the \$0.2 million relating to the option repricing discussed above, no cost has been recognized for its stock options in the financial statements since the exercise price was equal to or greater than the fair market value at the date of grant. Had the Company determined compensation cost based on the fair value at the grant date for its stock options under SFAS No. 123, the Company's net loss would have been adjusted to the pro forma amounts indicated below (in thousands except share data):

	1999	2000	2001
Net loss:			
As reported	\$49,470	\$128,422	\$210,000
Pro forma	\$63,927	\$178,318	\$187,000
Net loss attributable to common stockholders:			
As reported	\$2.55	\$2.83	\$3.25
Pro forma	\$2.94	\$3.76	\$4.25

Pro forma net loss reflects only options granted since January 1, 1995. Therefore, the full impact of calculating compensation cost for stock options under SFAS No. 123 is not reflected in the pro forma net loss amounts because compensation cost is reflected over the various options' vesting period and compensation cost for options granted prior to January 1, 1995 is not considered.

Stock option activity under the various option plans is shown below:

(15) Income Taxes

The difference between the statutory federal income tax rate and the Company's effective tax rate for the years ended December 31, 2000 and 2001 is principally due to the Company incurring net operating losses for which no tax benefit was recorded.

For Federal income tax purposes, the Company has unused net operating loss carryforwards ("NOL") of approximately \$210.0 million expiring in 2008 through 2022, including various foreign subsidiaries, and a capital loss of approximately \$15.0 million. As a result of various recent equity transactions, management believes the Company experienced at least one "ownership change" as defined by Section 382 of the Internal Revenue Code in 1999. Accordingly, the utilization of its net operating loss carryforwards would be subject to an annual limitation in offsetting future taxable income.

The tax effect of temporary differences that give rise to significant portions of the deferred tax assets at December 31 are as follows (in thousands):

	2000	2001
	-----	-----
Deferred tax assets:		
Net operating loss carryforwards	\$52,562	\$85,610
Alternative minimum tax carryforwards	355	355
Impairment loss on investments in affiliates	--	19,950
Reserve for Motient Notes	--	10,230
Other assets	5,977	570
Other accrued expenses	1,659	2,117
	-----	-----
Total gross deferred tax assets	60,553	118,832
Less valuation allowance	(60,553)	(95,918)

	-----	-----

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

Total deferred tax liability	--	22,914
	-----	-----
Net deferred tax assets	\$--	\$--
	=====	=====

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning in making these assessments.

Due to the Company's operating losses, there is uncertainty surrounding whether the Company will ultimately realize its deferred tax assets. Accordingly, these assets have been fully reserved. During 2000 and 2001, the valuation allowance increased by approximately \$32.9 million and \$35.4 million, respectively. Of the total valuation allowance of \$95.9 million, subsequently recognized tax benefits, if any, in the amount of \$6.5 million will be applied directly to contributed capital. This amount relates to the tax effect of employee stock option deductions included in the Company's net operating loss carryforward.

(16) Related Party Transactions

In July 1997, the Company loaned \$230,467 to its then Chairman in connection with exercise of an option to acquire 82,753 shares of Common Stock. The loan was in the form of a full recourse note, which matured in five years. Such note bore interest equal to the prime rate, with such rate adjusted to the current prime rate at each anniversary date. The note was forgiven during 2000.

(17) Contingencies and Commitments

Motient Notes

On January 10, 2002, Motient and its subsidiaries filed for protection under Chapter 11 of the United States Bankruptcy Code. As part of its filing, Motient indicated that it may challenge the Company's right to the \$26.2 million outstanding principal balance and accrued interest thereon. Motient may also initiate litigation directly against the Company to challenge the delivery of the shares of XM Satellite Radio common stock by Motient to the Company as partial repayment of the aggregate \$50.0 million principal amount of the Motient Notes. Negotiations with Motient and its creditors committee are ongoing. As a result of uncertainty with respect to the ultimate collection on the Motient Notes, the Company recognized a reserve for the entire amount of these notes. Should the Company's negotiations be successful and there is a recovery, any adjustments to the reserve would be reflected as income in the accompanying consolidated statements of operations.

Leases

The Company has non-cancelable leases, primarily related to the rental of Rare Medium, Inc.'s facilities, which is one of the Company's discontinued operating subsidiaries. Future minimum payments, by year and in the aggregate, under operating leases with initial or remaining terms of one year or more consisted of the following at December 31, 2001 (in thousands):

Year Ending December 31:	
2002	\$3,213

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

2003	2,909
2004	2,752
2005	1,719
2006	189
Thereafter	189

Total minimum lease payments	\$10,971
	=====

Included in the total commitment of \$11.0 million is \$2.7 million, net of secured letters of credit, which is guaranteed by the Company. Excluded from total commitments are \$6.8 million relating to leases that have been assigned and require no future payments by the Company or its subsidiaries unless there is a default by the party to which the respective lease has been assigned.

Total rent expense under operating leases amounted to \$7.1 million and \$3.1 million for 2000 and 2001, respectively. Rare Medium, Inc. is holding funds in certificates of deposit which are maintained under agreements to assure future credit availability relating to these leases. As of December 31, 2001, these restricted funds amounted to \$1.3 million which is included in cash and cash equivalents.

Employment Agreements

The Company is a party to employment agreement with the Chief Executive Officer of the Company. The agreement term is from April 15, 1998 to April 15, 2003 and calls for a minimum base salary of \$250,000 per year with annual increases of his base salary of not less than 4% per year. The minimum salary commitment for this agreement during its entire term is \$1.4 million. Additionally, this officer is entitled to incentive compensation equal to 2% of the Company's revenues for such year in excess of the revenues of the immediate preceding year. During 1999, the agreement was amended and restated to affect a ceiling of \$150.0 million on revenues of the Company for determining the incentive compensation. In addition, the amended and restated agreement provides that, in the event gross revenues exceed such revenue ceiling, the Compensation Committee of the Board of Directors will establish an incentive program for this officer that will appropriately incentive him. Incentive compensation approximated \$650,000, \$1.5 million and nil, in 1999, 2000 and 2001, respectively. In 1998, this officer was granted options to acquire an aggregate of 2,000,000 shares of the Company's common stock at the exercise prices equal to \$2.375 per share, the fair value at the time of the agreement, which options will become exercisable ratably on a monthly basis over a period of 60 months from the date of grant and expire ten years from the date of grant.

The Company is party to employment agreements with its other executive officers. Under these agreements, if, after 90 days following a change in control of the Company, the executive terminates his employment, the executive is entitled to receive severance compensation and benefits in a lump sum payment consisting of one year of his current salary and the right to exercise all vested stock options and unvested stock options which become exercisable upon a change of control through the option expiration date for such options.

Strategic Alliance

In 2000, Rare Medium, Inc. entered into a strategic alliance agreement, as amended, with a software company (the "Partner") to assist in the training of personnel and development and delivery by Rare Medium, Inc. of solutions built utilizing the Partner's technology. Under the terms of the alliance, the Partner was to provide Rare Medium, Inc. with refundable advances of approximately \$17.1 million, on an interest free basis, to be

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

paid to Rare Medium, Inc. over the term of the two-year agreement, subject to Rare Medium, Inc.'s compliance with certain requirements set forth in the agreement. The amount and timing of the repayment of the advances were adjustable based on Rare Medium, Inc.'s achievement of certain milestones in accordance with the terms of the agreement. The Partner and Rare Medium, Inc. have a dispute as to whether certain milestones have been achieved. Efforts at renegotiating the payment schedule and milestones were not successful. In July 2001, Rare Medium, Inc. received a notice of arbitration from the Partner seeking the return of the approximately \$8.6 million, plus interest, that had been advanced by the Partner, who has asserted that the agreement has terminated. These advances are included in other current liabilities in the accompanying consolidated balance sheets. Rare Medium, Inc. is contesting the Partner's claims. There can be no assurance that Rare Medium, Inc. will be successful in contesting this action and that accelerated repayment, along with attorney's fees and interest, will not be required.

Litigation

The Company is aware of a number of purported class action lawsuits that have been filed by the holders of the Company's common stock in the Court of Chancery of the State of Delaware which challenged the plan of merger with Motient Corporation that was terminated on October 1, 2001 (see Note 8). All of the complaints name the Company and members of the Company's board of directors as defendants. Most of the complaints name the holders of the Company's preferred stock, and certain of their affiliates, as defendants, and some of the complaints name Motient as a defendant. On June 22, 2001, the Delaware court entered an order to consolidate all of the Delaware lawsuits for all purposes into a single purported class action, *In re Rare Medium Group, Inc. Shareholders Litigation*, C.A. No. 18879-NC. On August 7, 2001, a Consolidated Amended Class Action Complaint was filed in Delaware Chancery Court. The Delaware Chancery Court has not yet certified the consolidated lawsuit as a class action. The lawsuit alleges that the defendants breached duties allegedly owed to the holders of the Company's common stock in connection with the merger agreement and sought to stop the merger and/or obtain monetary damages. On October 19, 2001, the Company filed a motion to dismiss the Consolidated Amended Class Action Complaint on a variety of grounds, including mootness. Settlement negotiations are underway. If unsuccessful, the Company intends to continue to vigorously contest this lawsuit.

A purported class action was filed in New York, titled *Brickell Partners v. Rare Medium Group, Inc., et al.*, N.Y.S. Index No. 01602694, in the New York State Supreme Court, making similar allegations to the Consolidated Amended Class Action Complaint in Delaware. The complaint was dismissed on February 21, 2002.

On May 16, 2001, plaintiffs Jay M. Wolff, David Bliss, Tim Barber and Steve O'Brien filed suit against Rare Medium, Inc., Rare Medium Group, Inc., and Rare Medium Texas I, Inc. in the United States District Court for the Southern District of New York, *Wolff, et al. v. Rare Medium, Inc., et al.*, CV No 01-4279. The plaintiffs asserted claims for breach of contract, tortious interference with contractual relations, tortious interference with prospective advantage, and breach of implied obligation of good faith, arising out of the plaintiffs' alleged attempt to engage in transactions involving some or all of the approximately 1,200,000 shares of the Company's common stock that the plaintiffs obtained in the Company's acquisition of Big Hand, Inc. The plaintiffs sought unspecified compensatory and punitive damages, interest, attorneys' fees and costs. On October 31, 2001, the Court dismissed the case without prejudice.

Plaintiffs filed an amended complaint on December 7, 2001 based on

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

substantially the same alleged facts. The amended complaint asserts the following causes of action: (1) breach of contract; (2) tortuous interference with contract; and, (3) tortuous interference with prospective business advantage. The amended complaint seeks an unspecified amount of actual damages, punitive damages, interest, and costs. Defendants moved to dismiss the amended complaint on December 27, 2001, and briefing has been completed. The Company intends to dispute this matter vigorously.

On July 23, 2001, plaintiff Microsoft Corporation filed suit against Rare Medium, Inc. in the United States District Court for the Western District of Washington, CO1-1130P. The plaintiff alleges breach of contract in connection with a consulting agreement and an alliance agreement entered between the parties seeking \$2.3 million in damages, interest and attorney's fees. Rare Medium, Inc. plans to defend the matter vigorously.

On November 19, 2001, five of the Company's shareholders filed a complaint in the United States District Court for the Southern District of New York against the Company, Dovitz v. Rare Medium Group, Inc. et al., No. 01 Civ. 10196, certain of its subsidiaries and certain of their current and former officers and/or directors. Plaintiffs became owners of restricted Company stock when they sold the company that they owned to the Company. Plaintiffs assert the following four claims against defendants: (1) common-law fraud; (2) violation of Section 10(b) of the Securities Exchange Act of 1934 and Rule 10b-5 promulgated thereunder; (3) violation of the Michigan Securities Act; and (4) breach of fiduciary duty. These claims arise out of alleged representations by defendants to induce plaintiffs to enter into the transaction. The complaint seeks compensatory damages of approximately \$5.6 million, exemplary and/or punitive damages in the same amount, as well as attorney fees. On January 25, 2002, the Company filed a motion to dismiss the complaint in its entirety. The Company intends to dispute this matter vigorously.

Additionally, from time to time, the Company is subject to litigation in the normal course of business. The Company is of the opinion that, based on information presently available, the resolution of any such additional legal matters will not have a material adverse effect on the Company's financial position or results of its operations.

SECTION 2.01. Purchase and Sale. (a) The Purchaser agrees, subject to the terms and conditions set forth herein, to purchase from the Company for the sum of \$25,000,000 and Company agrees to issue and sell to the Purchaser, on the Initial Closing Date, a promissory note in the original principal amount of \$25,000,000 (the "Tranche A Note"), subject to the satisfaction or waiver of the conditions precedent specified in Section 3.01 hereof and in accordance with the procedures specified in this Article 2.

(b) During the Commitment Period, the Company may elect upon prior written notice to the Purchaser as provided herein, to issue and sell to the Purchaser and the Purchaser agrees, subject to the terms and conditions set forth herein, to purchase from the Company, on the Second Closing Date, for an amount equal to the lesser of (i) \$25,000,000 and (ii) the excess, if any, of (A) the XM Share Price as of the Second Closing Date multiplied by 5,000,000 over (B) \$25,000,000 (the "Tranche B Amount"), a second promissory note in the original principal amount equal to the Tranche B Amount (the "Tranche B Note"), subject to the satisfaction or waiver of the conditions precedent specified in Section 3.02 hereof and in accordance with the procedures specified in this Article 2. The Company shall give the Purchaser irrevocable telephonic notice, confirmed immediately in writing (a "Notice of Purchase") during the Commitment Period of its intent to issue and sell the Tranche B Note, specifying (i) the proposed date of the Second Closing, which date shall be a Business Day that is at least 10 Business Days after the date that the Notice of Purchase was delivered to the Purchaser.

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

(c) The closing of the purchase and sale of the Tranche A Note (the "Initial Closing") shall take place at the offices of Skadden, Arps, Slate, Meagher & Flom LLP, Four Times Square, New York, NY 10036 at 10:00 a.m. (New York City time) on the Initial Closing Date.

(d) If the Company elects to issue and sell to the Purchaser the Tranche B Note pursuant to Section 2.01(b), the closing of the purchase and sale of the Tranche B Note (the "Second Closing") shall take place at the offices of Skadden, Arps, Slate, Meagher & Flom LLP, Four Times Square, New York, NY 10036 at 10:00 a.m. (New York City time) on the date that is the later of (y) the date specified in the Notice of Purchase or (z) the date that is 2 Business Days after the satisfaction or waiver of the conditions applicable to the Second Closing set forth in Section 3.02 (other than those conditions that by their nature are to be satisfied at the Second Closing) or at such other place, time or date as shall be mutually agreed upon by the Company and the Purchaser (the "Second Closing Date").

SECTION 2.02. Payment. Subject to the conditions set forth in Article 3, not later than 12:00 Noon (New York City time) on each of the Initial Closing Date and the Second Closing Date, the Purchaser shall pay the full purchase price for the Tranche A Note or the Tranche B Note, as the case may be (after deducting the amounts referred to in the following sentence), in Federal or other funds immediately available in New York City, to the Company by wire transfer of immediately available funds to an account specified by the Company. The amount to be paid on the Initial Closing Date and the Second Closing Date shall be equal to the purchase price for the Tranche A Note or the Tranche B Note, as the case may be, less (i) the Tranche A Funding Fee and the Tranche B Funding Fee, respectively, and (ii) an estimate of the amount of unreimbursed out-of-pocket expenses referred to in Section 9.03. On each of the Initial Closing Date and the Second Closing Date, the Company shall deliver to the Purchaser the documents, certificates and other items required to be delivered to the Purchaser pursuant to Sections 3.01 and 3.02, as the case may be.

SECTION 2.03. Notes. Each Note shall be payable to the order of the Purchaser and be in the form attached hereto as Exhibit A.

SECTION 2.04. Maturity of Notes. Any Notes outstanding on the Maturity Date (together with accrued interest thereon) shall be due and payable on such date.

SECTION 2.05. Interest; Funding Fees. (a) The Notes shall bear interest on the outstanding principal amount thereof, for each day from the principal amount of the date such Note is issued until it becomes due, at a rate per annum of 12.5%. Interest shall be computed on the basis of a year of 360 days and 12 thirty day months, and paid for the actual number of days elapsed (including the first day but excluding the last day). Any overdue principal of or interest on any Note shall bear interest, payable on demand, for each day until paid at a rate per annum of 14%.

(b) In addition to the interest which the Company shall pay as set forth above, the Company shall pay to the Purchaser, as compensation for the purchase of the Notes, (i) a funding fee of \$500,000 on the Initial Closing Date (the "Tranche A Funding Fee") and (ii) a funding fee equal to 0.02 multiplied by the principal amount of the Tranche B Note on the Second Closing Date, if any (the "Tranche B Funding Fee").

SECTION 2.06. Optional Prepayments. The Company may, upon at least 15 days notice to the Purchaser, prepay any Note in whole at any time, or from time to time in part in amounts aggregating \$5,000,000 or any larger multiples of \$1,000,000, by paying the principal amount to be prepaid together with accrued interest thereon to the date of prepayment, subject to the Purchaser's

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

right to effect an Optional Exchange, in accordance with Section 2.09, at any time prior to the close of business on the day immediately preceding the date of prepayment. The date of such prepayment shall be referred to herein as the "Prepayment Date".

SECTION 2.07. General Provisions as to Payments. (a) In the sole discretion of the Company, subject to the Purchaser's right to effect an Optional Exchange, in accordance with Section 2.09, at any time prior to the close of business on the day immediately preceding the Prepayment Date, the Company may pay the principal of and interest on the Notes on the Maturity Date (or on a Prepayment Date) in (i) cash, (ii) XM Shares or (iii) any combination thereof; provided, that the Company shall not have the right to make any such payment in the form of XM Shares to the extent that such payment would otherwise require a filing under the HSR Act (as defined below) unless and until the applicable waiting period under such Act has expired or terminated. To the extent that any XM Shares are delivered to the Purchaser as payment of principal and interest under this Agreement, the number of XM Shares so delivered shall be equal to the aggregate amount of principal and interest to be paid through such delivery of XM Shares divided by the XM Stock Payment Valuation, using the XM Share Price calculated as of the Maturity Date, or the Prepayment Date, as the case may be.

(b) The Company shall, on or prior to the date which is 15 days prior to the Maturity Date or any Prepayment Date, deliver a notice to the Purchaser at the address or facsimile number of the Purchaser referred to in Section 9.01. Such notice shall state the relative portions of the repayment amount to be paid in cash and XM Shares.

(c) The Company shall make any cash payment of principal of and interest on the Notes not later than 12:00 Noon (New York City time) on the date when due, in Federal or other funds immediately available in New York City, to the Purchaser at its address referred to in Section 9.01. Whenever any payment of principal of, or interest on the Notes shall be due on a day which is not a Business Day, the date for payment thereof shall be extended to the next succeeding Business Day. If the date for any payment of principal is extended by operation of law or otherwise, interest thereon shall be payable for such extended time.

(d) On the Maturity Date or any Prepayment Date, if the Company elects to pay all or part of the principal of and interest on the Notes in XM Shares, the Company shall deliver to XM, irrevocable instructions (i) to convert into Class A Common Stock that number of XM Shares to be paid as principal and interest as of such date and to register such shares in such names as the Purchaser shall designate, and (ii) return to the Purchaser as Collateral (as defined in the Pledge Agreement) a stock certificate representing that number of shares of Class B Common Stock equal to the excess, if any, of (a) the number of shares of Class A Common Stock delivered to Purchaser or its designee as payment on such dates over (b) the number of shares of Class B Common Stock represented by the stock certificate surrendered to pay such amounts. If such instructions are delivered on the Maturity Date or the Prepayment Date, as the case may be, such principal and interest shall be deemed to have been paid on such Maturity Date or Prepayment Date, as the case may be. Company shall thereafter use commercially reasonable efforts to cause XM to deliver certificates representing such shares to the Purchaser as soon as possible thereafter.

SECTION 2.08. Extension of Maturity Date. If the Company wishes to extend the Maturity Date then in effect, the Company shall give written notice to the Purchaser not less than 30 days prior to the Maturity Date then in effect, whereupon the Purchaser will use its reasonable efforts to respond to such request in writing, whether affirmatively or negatively, as it may elect in its sole discretion, within 15 days after it receives such notice from the

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

Company. If the Company receives an affirmative response in writing from the Purchaser within such 15 day period, then the Maturity Date shall be extended for 30 days (but in no event later than November 20, 2001). If the Purchaser does not reply to such request than the Purchaser shall be deemed to have responded negatively.

SECTION 2.09. Exchange Rights.

(a) The following terms shall have the following meanings for purposes of this Section 2.09:

(i) "Exchanged Amount" means the amount of the principal of and interest on the Notes elected by the Purchaser to be exchanged pursuant to this Section 2.09; provided that the Exchanged Amount cannot be less than \$100,000 and thereafter must be in multiples of at least \$100,000; provided further that if the Purchaser elects to exchange a Note in its entirety, then the Exchange Amount shall be the entire amount of the outstanding principal and accrued but unpaid interest on such Note as of the Exchange Date.

(ii) "Exchange Date" means the date specified in the Notice of Exchange, or if no date is specified therein, the Business Day following the date that the Notice of Exchange is faxed or otherwise delivered to the Company; provided, however, that the Exchange Date shall be no sooner than 1 Business Day after the date of delivery (by facsimile or otherwise) of the Notice of Exchange and any Notice of Exchange delivered to the Company on a day which is not a Business Day shall be deemed delivered as of the next following Business Day.

(iii) "Exchange Price" means (i) with respect to the Tranche A Note, \$10.41 and (ii) with respect to the Tranche B Note, an amount equal to the XM Share Price as of the Second Closing Date multiplied by 1.5.

(b) Exchange at the Option of the Purchaser. Subject to the limitations set forth in Section 2.09(o), the Purchaser may, at any time and from time to time prior to the Maturity Date, exchange (an "Optional Exchange") all or a portion of the principal of and/or accrued interest on the Notes into a number of XM Shares equal to the number determined by dividing the Exchanged Amount by the Exchange Price; provided, that with respect to any Note or portion thereof for which a prepayment notice has been delivered to the Purchaser in accordance with Section 2.06, such exchange right shall terminate on the Business Day immediately preceding the Prepayment Date; provided, further, that such exchange right shall not be exercisable prior to June 30, 2001 unless the Company elects to prepay all or any portion of any Note in accordance with Section 2.06, in which case such exchange right shall be exercisable at any time following the giving of an optional prepayment notice in accordance with Section 2.06 and prior to the close of business on the day immediately preceding the Prepayment Date.

(c) Mechanics of Exchange. In order to effect an Optional Exchange, the Purchaser shall fax (or otherwise deliver) a copy of the fully executed Notice of Exchange substantially in the form of Exhibit B (the "Notice of Exchange") to the Company. Simultaneously with or prior to the delivery of such Notice of Exchange, the Purchaser shall provide telephonic notice to the Company of its delivery of such Notice of Exchange. Upon receipt by the Company of a facsimile copy of a Notice of Exchange from the Purchaser, the Company shall promptly send, via facsimile, a confirmation to the Purchaser stating that the Notice of Exchange has been received. Promptly following the faxing (or other delivery) of the Notice of Exchange, the Purchaser shall surrender or cause to be surrendered to the Company, the Note, along with a copy of the Notice of Exchange.

(d) Company's Obligations Upon Exchange. Subject to Section 2.09(o),

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

upon the delivery of a Notice of Exchange, the Company shall, as soon as practicable but in any event no later than the later of (a) the Exchange Date and (b) the date of surrender of the applicable Note(s) (the "Delivery Period"), deliver (x) to XM, irrevocable instructions, in form reasonably acceptable to the Purchaser, to convert into Class A Common Stock and to register in such names as Purchaser shall designate, that number of XM Shares deliverable upon such Optional Exchange along with the assets and securities contemplated by Section 2.09(k) and (y) to the Purchaser, a new Note in the same form as the exchanged Note representing the balance of the principal amount hereof not being exchanged, if any.

(e) Taxes. The issuance of certificates for XM Shares upon the exchange of any Note shall be made without charge to the Purchaser or for any tax in respect of the issuance of such certificates, and such certificates shall be issued in the respective names of, or in such names as may be directed by, the holder or holders of the converted Note; provided, however, that in the event that certificates for XM Shares are to be issued in a name other than the name of the holder of the Note exchanged, such Note, when surrendered for exchange, shall be accompanied by an instrument of transfer, in form satisfactory to the Company, duly executed by the registered holder thereof or his duly authorized attorney; and provided, further, that the Company shall not be required to pay any tax which may be payable in respect of any transfer involved in the issuance and delivery of any such certificates in a name other than that of the holder of the exchanged Note, and the Company shall not be required to issue or deliver such certificates unless or until the person or persons requesting the issuance thereof shall have paid to the Company the amount of such tax or shall have established to the satisfaction of the Company that such tax has been paid or is not applicable.

(f) No Fractional Shares. No fractional XM Shares are to be delivered upon the exchange of a Note, but the Company shall instead round up to the next whole number the number of XM Shares to be delivered upon such exchange.

(g) HSR. Prior to any exchange pursuant to this Section 2.09 and any payment of principal and interest in XM Shares pursuant to Section 2.07, the Purchaser and the Company shall cooperate in good faith (A) to determine if a filing is required under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 or any successor law, and regulations and rules issued pursuant to that Act or any successor law (the "HSR Act") in connection with such exchange or payment. The Purchaser shall and the Company shall, or if the Company is not the ultimate parent entity of XM, then the Company shall use its commercially reasonable efforts to cause the ultimate parent entity to, make the required filings under the HSR Act as promptly as practicable after a determination is made that such a filing is necessary. The Company shall, or if the Company is not the ultimate parent entity of XM then the Company shall use its commercially reasonable efforts to cause the ultimate parent entity to take all actions reasonably requested by the Purchaser to cause the early termination of any applicable waiting period under the HSR Act. Notwithstanding anything in this Agreement to the contrary, if the Purchaser determines that filings under the HSR Act are required, the Company shall not be obligated to deliver any XM Shares pursuant to this Section 2.09 to the extent, but only to the extent, that such delivery would require such filing, until the date that is 2 Business Days following the expiration or termination of any applicable waiting period under the HSR Act, but the Company shall remain obligated to deliver the maximum number of XM shares as would not require expiration or termination of a waiting period under the HSR Act. The Company shall pay all filing fees and other costs and expenses in connection with any such required filings under the HSR Act. As used in this paragraph, the term "ultimate parent entity" shall have the meaning given such term in the regulations promulgated under the HSR Act.

(h) Reclassifications, Reorganizations, Consolidations or Mergers. In

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

the event of any capital reorganization of XM, any reclassification of the stock of XM (other than a change in par value or from par value to no par value or from no par value to par value or as a result of a stock dividend or subdivision, split-up or combination of shares), or any consolidation or merger of XM with or into another entity (where XM is not the surviving corporation or where there is a change in, exchange or conversion of, or distribution with respect to, the XM Shares), the Notes shall after such reorganization, reclassification, consolidation, or merger be exchangeable for the kind and number of shares of stock or other securities or property of XM or of the successor entity resulting from such consolidation or surviving such merger, if any, to which the holder of the number of XM Shares deliverable (immediately prior to the time of such reorganization, reclassification, consolidation or merger) upon exchange of the Notes would have been entitled upon such reorganization, reclassification, consolidation or merger. The provisions of this clause shall similarly apply to successive reorganizations, reclassifications, consolidations, or mergers.

(i) Subdivision or Combinations of XM Shares. If XM at any time or from time to time after the Initial Closing Date subdivides (by any stock split, stock dividend, recapitalization, reorganization, reclassification or otherwise) the outstanding XM Shares into a greater number of shares, then, after the date of record for effecting such subdivision, the Exchange Price in effect immediately prior to such subdivision shall be proportionately reduced. If XM at any time or from time to time after the Initial Closing Date combines (by reverse stock split, recapitalization, reorganization, reclassification or otherwise) the outstanding XM Shares into a smaller number of shares, then, after the date of record for effecting such combination, the Exchange Price in effect immediately prior to such combination shall be proportionately increased.

(j) Certain Issuances of XM Common Stock. If XM shall, at any time or from time to time after the Initial Closing Date, issue, or pursuant to Section 2.09(k) is deemed to have issued, any XM Shares without consideration or for consideration per share less than the closing per share price of XM Shares on the NASDAQ on the trading day immediately preceding the date of such issuance or deemed issuance (the "Closing Price"), then such Exchange Price shall forthwith be lowered to a price equal to the price obtained by multiplying:

(a) the Exchange Price in effect immediately prior to the issuance, or deemed issuance, of such XM Shares; by

(b) a fraction of which (x) the denominator shall be the number of XM Shares outstanding on a fully-diluted basis immediately after such issuance and (y) the numerator shall be the sum of (i) the number of XM Shares outstanding on a fully-diluted basis immediately prior to such issuance and (ii) the number of additional XM Shares which the aggregate consideration for the number of XM Shares so issued, or deemed issued, would purchase at the Closing Price.

For purposes of this Section 2.09, "fully diluted basis" shall be determined in accordance with the treasury stock method of computing fully diluted earnings per share in accordance with GAAP.

(k) For purposes of determining the adjusted Exchange Price under Section 2.09(j), the following provisions shall be applicable:

(i) Issuance of Rights or Options. If XM in any manner issues or grants any warrants, rights or options, whether or not immediately exercisable, to subscribe for or to purchase XM Shares, or other securities convertible into or exchangeable for XM Shares ("Convertible Securities") (such warrants, rights and options to purchase XM Shares or Convertible

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

Securities are hereinafter referred to as "Options"), and the price per share for which XM Shares are issuable upon the exercise of such Options is less than the Closing Price in effect on the date of issuance or grant of such Options, then the maximum total number of XM Shares that are issuable upon the exercise of all such Options shall, as of the date of the issuance or grant of such Options, be deemed to be outstanding and to have been issued by XM for such price per share. For purposes of the preceding sentence, the "price per share for which XM Shares are issuable upon the exercise of such Options" is determined by dividing (i) the total amount, if any, received or receivable by XM as consideration for the issuance or granting of all such Options, plus the minimum aggregate amount of additional consideration, if any, payable to XM upon the exercise of all such Options, plus, in the case of Convertible Securities issuable upon the exercise of such Options, the minimum aggregate amount of additional consideration payable upon the conversion or exchange thereof at the time such Convertible Securities first become convertible or exchangeable, by (ii) the maximum total number of XM Shares issuable upon the exercise of all such Options (assuming full conversion of Convertible Securities, if applicable). No further adjustment to the Exchange Price shall be made upon the actual issuance of such XM Shares upon the exercise of such Options or upon the conversion or exchange of Convertible Securities issuable upon exercise of such Options.

(ii) Issuance of Convertible Securities. If XM in any manner issues or sells any Convertible Securities, whether or not immediately convertible (other than where such Convertible Securities are issuable upon the exercise of Options for which an adjustment was made pursuant to Section 2.09(k)(i)) and the price per share for which XM Shares are issuable upon such conversion is less than the Closing Price in effect on the date of issuance of such Convertible Securities, then the maximum total number of XM Shares issuable upon the conversion of all such Convertible Securities shall, as of the date of the issuance of such Convertible Securities, be deemed to be outstanding and to have been issued by XM for such price per share. For the purposes of the preceding sentence, the "price per share for which XM Shares are issuable upon such conversion or exchange" is determined by dividing (i) the total amount, if any, received or receivable by XM as consideration for the issuance or sale of all such Convertible Securities, plus the minimum aggregate amount of additional consideration, if any, payable to XM upon the conversion thereof at the time such Convertible Securities first become convertible, by (ii) the maximum total number of XM Shares issuable upon the conversion of all such Convertible Securities. No further adjustment to the Exchange Price shall be made upon the actual issuance of such XM Shares upon conversion or exchange of such Convertible Securities, and if any such issuance or sale of such Convertible Securities is made upon exercise of any Options for which adjustments of the Exchange Price had been or are to be made pursuant to other provisions of this Section 2.09, no further adjustment of the Exchange Price shall be made by reason of such issuance or sale.

(iii) Change in Option Price or Conversion Rate. If there is a change at any time in (i) the amount of additional consideration payable to XM upon the exercise of any Options; (ii) the amount of additional consideration, if any, payable to XM upon the conversion of any Convertible Securities; or (iii) the rate at which any Convertible Securities are convertible into XM Shares (other than under or by reason of customary provisions designed to protect against dilution), the Exchange Price in effect at the time of such change shall be readjusted to the Exchange Price which would have been in effect at such time if such Options or Convertible Securities still outstanding had provided for such changed additional consideration or changed conversion rate, as the case may be, at the time initially granted, issued or sold.

(iv) Treatment of Expired Options and Unexercised Convertible Securities. If, in any case, the total number of XM Shares

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

issuable upon exercise of any Option or upon conversion or exchange of any Convertible Securities is not, in fact, issued and the rights to exercise such Option or to convert or exchange such Convertible Securities shall have expired or terminated, the Exchange Price then in effect shall be readjusted to the Exchange Price which would have been in effect at the time of such expiration or termination if such Option or Convertible Securities, to the extent outstanding immediately prior to such expiration or termination (other than in respect of the actual number of XM Shares issued upon exercise or conversion thereof), had never been issued.

(v) Calculation of Consideration Received. If any XM Shares, Options or Convertible Securities are issued for cash, the consideration received therefor for purposes of this Section 2.09 shall be the amount received by XM therefor before deduction of commissions, underwriting discounts or allowances or other expenses paid or incurred by XM in connection with such issuance. In case any XM Shares, Options or Convertible Securities are issued for a consideration part or all of which shall be other than cash, the amount of the consideration other than cash received by XM shall be the fair market value of such consideration. The fair market value of any consideration other than cash or publicly traded securities shall be determined in good faith by the mutual agreement of the Company and the Purchaser. If the Company and the Purchaser are unable to reach such agreement within a reasonable period, the fair market value of such consideration shall be determined by an independent investment bank or a "Big Five" independent public accounting firm, in either case of nationally recognized standing in the valuation of businesses similar to the business of XM, which shall be mutually acceptable to the Company and the Purchaser. The determination of such investment bank or public accounting firm shall be final and binding upon the Company and the Purchaser.

(vi) Exceptions to Adjustment of Exchange Price. No adjustment to the Exchange Price shall be made (i) upon the grant or conversion or exercise of any Options or Convertible Securities issued and outstanding, or committed to be issued, as of the date hereof; (ii) upon the grant or conversion or exercise of any capital stock, Options or Convertible Securities which may be issued or granted after the date hereof under any stock option, stock incentive or other employee benefit plan of XM in effect as of the date hereof or which becomes effective after the date hereof, so long as such stock option, stock incentive or other employee benefit plan is approved by the board of directors of XM; (iii) upon issuance of XM Shares, Options or Convertible Securities in a firm commitment underwritten public offering other than any pro rata offering to existing stockholders of XM or any Subsidiary of XM; (iv) upon the issuance or grant of any capital stock, Options, or Convertible Securities to financial institutions, financial syndicates or lessors in connection with bona fide commercial credit arrangements, equipment financings, or similar transactions for primarily other than equity financing purposes; (v) upon the issuance or grant of any capital stock, Options, or Convertible Securities in connection with a strategic alliance, partnership or similar commercial arrangement; (vi) upon the issuance or grant of any capital stock, Options, or Convertible Securities in connection with an acquisition of another Person by XM by merger or purchase of all or substantially all of the capital stock of such Person or purchase of all or substantially all of the assets of such Person; (vii) customary antidilution adjustments to the exercise price or conversion price of any Options or Convertible Securities issued by XM and outstanding as of the date hereof that are required to be made pursuant to the terms of such instruments as originally issued; (viii) issuance of capital stock, Options or Convertible Securities in transactions in which the Purchaser is offered the opportunity to participate on substantially similar terms; and (ix) any issuance of capital stock, Options or Convertible Securities which the Purchaser is entitled to receive under section 2.09(1) on exchange of the Notes.

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

(l) Distribution of Assets. If after the Initial Closing Date, XM shall declare or make any dividend or other distribution of its assets (including cash) or securities issued by it or any other person to the holders of XM Shares, then, in connection with any full or partial exchange of a Note after the date of such Note but prior to the Maturity Date, the Purchaser shall be entitled to receive the amount of such assets or securities which, if such exchange had been made immediately prior to the record date for such dividend or distribution, would have been payable to the Purchaser in respect of the XM Shares which it would have received in such exchange. If XM distributes as a dividend or otherwise to the holders of XM Shares Options or Convertible Securities and such Options or Convertible Securities are not exercisable for a period of at least 30 consecutive days following the Maturity Date, then upon demand by the Purchaser and delivery of the exercise price therefor by the Purchaser to the Company, the Company shall exercise such Options or Convertible Securities, or any portion thereof requested by the Purchaser, and, upon the full or partial exchange of the Notes pursuant to this Section 2.09, the Company shall deliver to the Purchaser the property received upon the exercise of such Options or Convertible Securities attributable to the Options or Convertible Securities received by the Company in respect of the number of XM Shares delivered to the Purchaser in such exchange; provided, that if any such Options or Convertible Securities are not transferable by holders of XM Shares that receive such Options or Convertible Securities, the Company shall, upon the request of the Purchaser and the receipt from the Purchaser of the exercise price therefor, exercise such Options or Convertible Securities and (to the extent that it is legally able to do so) deliver to the Purchaser the property received upon the exercise of such Options or Convertible Securities which is attributable to the Options or Convertible Securities received by the Company in respect of the number of XM Shares transferred to the Purchaser pursuant to this Section 2.09 (and to the extent that it is not legally able to do so, hold the same and cooperate reasonably with the Purchaser (at the Purchaser's expense) to remove any legal limitations on such transfer). If, as of the Maturity Date, the Purchaser has delivered to the Company the exercise price to exercise Options or Convertible Securities pursuant to the immediately preceding sentence and the number of Options or Convertible Securities so exercised exceeds the number attributable to the number of XM Shares received by the Purchaser in full or partial exchange of the Notes, the Company shall deliver to the Purchaser, at the Company's election, either (i) the amount of the exercise price delivered by Purchaser to the Company and used to exercise Options or Convertible Securities not attributable to XM Shares delivered to the Purchaser in full or partial exchange of the Notes or (ii) any consideration received by the Company upon any such exercise of such Options or Convertible Securities and not already delivered to the Purchaser, or, if such consideration may not legally be transferred by the Company, an agreement by the Company to transfer such consideration once the Purchaser removes any legal limitations on such transfer.

(m) Notice of Adjustment. Within 20 Business Days after the occurrence of any event which requires any adjustment of the Exchange Price or any other event described in subsections (h), (i), (j), (k) or (l) above, the Company shall give written notice thereof to the Purchaser. Such notice shall describe such event in reasonable detail and shall state the Exchange Price resulting from such adjustment and shall set forth in reasonable detail the method of calculation and the facts upon which such calculation is based. Such calculation shall be certified by a Responsible Officer of the Company.

(n) No Further Interest. If the Purchaser exchanges a Note in its entirety pursuant to this Section 2.09, then such Note shall be deemed to be paid in full and no further interest shall accrue thereunder.

(o) XM Share Limitations. If at any time, the sum of (i) the

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

aggregate number of XM Shares paid to, exchanged with or otherwise transferred to the holders of the Notes pursuant to the Notes, and (ii) the number of XM Shares on which the lien created by the Pledge Agreement has been foreclosed, exceeds the XM Share Maximum, the Purchaser shall have no further rights to exchange all or any portion of the Notes for XM Shares pursuant to this Section 2.09, and in lieu of such transfer of XM Shares to the Purchaser, the Company shall, on such date as the XM Shares are required to be transferred in exchange for the Notes, pay to the Purchaser an amount in cash equal to the principal amount of and accrued interest on the balance of the Notes not so exchanged due to such XM Share Maximum.

(p) Minimum Adjustment of Exchange Price. No adjustment of the Exchange Price shall be made in an amount of less than 1% of the Exchange Price in effect at the time such adjustment is otherwise required to be made, but any such lesser adjustment shall be carried forward and shall be made at the time and together with the next subsequent adjustment which, together with any adjustments so carried forward, shall amount to not less than 1% of such Exchange Price.

SECTION 2.10. XM Shareholders Agreement; Registration Rights. (a) With respect to any XM Shares received by the Purchaser from the Company, the Purchaser hereby agrees (i) that the Purchaser is bound to the terms of that certain letter entitled Lock-Up Agreement dated February 28, 2001 from Company to Bear, Stearns & Co., Inc., and (ii) to execute a joinder agreement to become a party to that certain Amended and Restated Shareholders Agreement, dated August 8, 2000, among XM, the Company and the other parties thereto.

(b) With respect to any XM Shares transferred to the Purchaser from the Company pursuant to this Agreement, the Company hereby transfers the registration rights of the Company associated with such XM Shares (other than its demand registration rights) to the Purchaser to the full extent permitted under the Registration Rights Agreement, dated August 8, 2000, among XM, the Company and the other parties named therein (the "XM Registration Agreement"). In addition, if the Purchaser receives at least 3 million XM Shares (as such number shall be appropriately adjusted for the events and transactions referred to in the definition of "XM Share Maximum") upon prepayment, exercise of its exchange rights or otherwise pursuant to this Agreement, and there is not in effect on the 180th day following delivery to the Purchaser of the 3,000,000th share referred to above an effective registration statement under the Securities Act of 1933 which permits the public resale of all such XM Shares by the Purchaser, then the Company shall thereupon transfer to the Purchaser one of its "demand" registration rights under Section 2.1(f) of the XM Registration Agreement. The Company shall not transfer, encumber or exercise such demand registration right prior to the earlier of (x) the transfer to the Purchaser of such demand registration rights or (y) such time that all Obligations in respect of the Notes shall have been satisfied in full and less than 3 million XM Shares shall have been delivered in connection therewith (upon repayment, exercise of Optional Exchanges or otherwise).

SECTION 2.11. Right to Participate. SECTION 4.02. Corporate Authorization; No Contravention. The execution, delivery and performance by each of the Company and its Subsidiaries of any Investment Document to which it is a party have been duly authorized by all necessary corporate action and do not and will not: (a) contravene the terms of such Person's certificate of incorporation, bylaws or other organizational document; (b) upon receipt of the consents, releases and approvals described in Section 3.02(f) on or prior to the Second Closing Date, if the Second Closing were to occur, conflict with or result in any breach or contravention of, or the creation of any Lien under, any indenture, agreement, lease, instrument, Contractual Obligation, injunction, order, decree or undertaking to which such Person is a party; or (c) violate any Requirement of Law.

SECTION 4.03. Government Approvals. All material Government Approvals heretofore required to be obtained have been duly obtained, were validly issued, are in full force and effect, are not subject to appeal and are held in the name of, or for the benefit of, the appropriate Persons. There is no proceeding pending or, to the best knowledge of the Company, threatened against the Company or any of its Subsidiaries, or any property of the Company or any of its Subsidiaries, which seeks, or may reasonably be expected, to rescind, terminate, materially adversely modify or suspend any of the FCC Licenses. There has not occurred any event that would make unlikely the delivery or issuance as anticipated of, and when and as needed all such Government Approvals. No such Government Approval already obtained is subject to any restriction, condition, limitation or other provision that would have a Material Adverse Effect. The information set forth in each application submitted by the Company or any of its Subsidiaries in connection with each such Government Approval is accurate and complete in all material respects taken as a whole, except for statements or omissions which could not reasonably be expected to affect adversely the validity of such Government Approvals. No other material consent, approval or authorization of, or declaration or filing with, any other Person is required in connection with the execution, delivery, performance, validity or enforceability of this Agreement or any other Investment Document.

SECTION 4.04. Binding Effect. This Agreement and each other Investment Document to which the Company or any of its Subsidiaries is a party constitute the legal, valid and binding obligations of such Person, enforceable against such Person in accordance with their respective terms, except as enforceability may be limited by applicable bankruptcy, insolvency, or similar laws affecting the enforcement of creditors' rights generally or by equitable principles relating to enforceability.

Upon receipt of the consents, releases and approvals described in Section 3.02(f) on or prior to the Second Closing Date, if the Second Closing were to occur, no Default or Event of Default exists or would result from the incurring of Obligations by the Company or any of its Subsidiaries under any Investment Document. (b) There is no outstanding liability under Title IV of ERISA with respect to any Plan maintained or sponsored by any member of the Controlled Group (as to which the Company is or may be liable), nor with respect to any Plan to which any member of the Controlled Group contributes or is obligated to contribute (wherein the Company is or may be liable). No Plan maintained or sponsored by the Company provides medical or other welfare benefits or extends coverage relating to such benefits beyond the date of a participant's termination of employment with the Company, except to the extent required by Section 4980B of the Code and at the sole expense of the participant or the beneficiary of the participant to the fullest extent permissible under such Section of the Code. The Company has complied in all material respects with the notice and continuation coverage requirements of Section 4980B of the Code.

The Company has not transferred any Unfunded Pension Liability outside of the Controlled Group or otherwise engaged in a transaction that could be subject to Section 4069 or 4212(c) of ERISA.

Such real property is free and clear of all Liens or rights of others, except Permitted Liens.

SECTION 4.09. Taxes. Each of the Company and its Subsidiaries has filed all Federal and other material tax returns and reports required to be filed and have paid all Federal and other material taxes, assessments, fees and other governmental charges levied or imposed upon them or their properties, income or assets otherwise due and payable except those which are being contested in good faith by appropriate proceedings and for which adequate reserves have been provided in accordance with GAAP and no Notice of Lien has been filed or recorded. There is no proposed tax assessment against the Company or any of its Subsidiaries which would, if the assessment were made, have a Material Adverse Effect.

SECTION 4.10. Financial Condition.

(a) The audited consolidated statements of financial position of the Company and its Subsidiaries as of December 31, 1999, and the related consolidated statements of loss, stockholders' equity and cash flows for the fiscal year ended on that date and the unaudited consolidated financial statements of the Company and its Subsidiaries as of December 31, 2000 included in the draft dated March 23, 2001 of the Company's Annual Report on Form 10-K delivered to the Purchaser: (i) were prepared in accordance with GAAP consistently applied throughout the periods covered thereby, except as otherwise expressly noted therein, (ii) fairly present, in all material respects, the financial condition of the Company and its Subsidiaries as of the date thereof and results of operations for the period covered thereby and (iii) show all material Indebtedness and other liabilities, direct or contingent, of the Company and its consolidated Subsidiaries as of the date thereof (including liabilities for taxes and material commitments); except with respect to (i) and (ii), that the Company's independent auditors have advised the Company that they intend to include a "going concern" qualification in the opinion of the auditors to be included with the financial statements to be included in the Company's Annual Report on Form 10-K. The unaudited consolidated balance sheet of the Company as of February 28, 2001, attached hereto as Section 4.10(a) of the Disclosure Schedule, reflects all liabilities of the Company and its Subsidiaries as of such date in accordance with GAAP consistently applied throughout the period covered thereby.

The Company and each of its Subsidiaries have obtained all licenses, permits, authorizations and registrations required under any Environmental Law ("Environmental Permits") necessary for its operations to comply in all material respects with Environmental Laws, and all such Environmental Permits are in full force and effect, and the Company and each of its Subsidiaries are in material compliance with all terms and conditions of such Environmental Permits. None of the Company, any of its Subsidiaries or any of their present or, to the knowledge of the Company, past property or operations is subject to any outstanding written order from or agreement with any Governmental Authority or other Person, nor subject to any judicial or administrative proceeding, respecting any Environmental Law, Environmental Claim or Hazardous Material. There are no conditions or circumstances which

Edgar Filing: RARE MEDIUM GROUP INC - Form 10-K

may give rise to any Environmental Claim arising from the operations of the Company or its Subsidiaries, including Environmental Claims associated with any operations of the Company or its Subsidiaries, with a potential liability in excess of \$5,000,000 in the aggregate. Without limiting the generality of the foregoing, the Company and its Subsidiaries have met all notification requirements under Title III of the Superfund Amendments and Reauthorization Act of 1986 or any other Environmental Law.

All filings, recordations, registrations and other actions necessary to perfect such Liens have been duly effected, and, to the extent that such Liens may legally be given and be effective and enforceable, each Lien created by the Pledge Agreement constitutes a perfected Lien on or in all right, title, estate and interest of the Company in the Collateral covered thereby, prior and superior to all other Liens except Permitted Liens arising by operation of law, and all necessary and appropriate consents to the creation and perfection of such Liens have been obtained.
