THE BANK OF NEW YORK COMPANY, INC. REPORTS

Edgar Filing: MELLON FINANCIAL CORP - Form 425

FIRST QUARTER NET INCOME OF \$0.57 PER SHARE;
\$0.59 PER SHARE EXCLUDING MERGER AND INTEGRATION COSTS;
CONTINUED MOMENTUM ACROSS ALL BUSINESSES

NEW YORK, N.Y., April 18, 2007 -- The Bank of New York Company, Inc. (NYSE: BK) reported today first quarter net income of \$434 million and diluted earnings per share of 57 cents. On an adjusted basis, excluding merger and integration costs, first quarter net income was \$449 million and diluted earnings per share was 59 cents. This compares to net income of \$422 million, or 55 cents of diluted earnings per share, and income from continuing operations of \$360 million, or 47 cents of diluted earnings per share, in the first quarter of 2006.

FIRST QUARTER PERFORMANCE HIGHLIGHTS

- * Asset servicing revenue grew 17% over the first quarter of 2006, driven by custody, fund services, and broker-dealer services;
- * Asset and wealth management fees were up 20% over the first quarter of 2006 reflecting organic growth;
- * Issuer services results were strong following the seasonally robust fourth quarter;
- * Asset quality remained excellent;
- * Good expense discipline drove positive operating leverage.

"In the first quarter, we continued our strong momentum and achieved broad-based growth. Our performance reflects the strength of our business model, which has been built to profit from global capital flows and investor activity," said Thomas A. Renyi, Chairman and Chief Executive Officer. "New business trends remain very good and we achieved positive operating leverage."

"At the same time, our integration planning with Mellon Financial is progressing very well. We are on track with identifying all the steps necessary to reach our business development goals and expense synergies, and establish The Bank of New York Mellon as the standard bearer for service quality. The new company will hit the ground running."

	=====	=====	=====		

Key Points

- * The increase in noninterest income versus the year-ago quarter primarily reflects growth in securities servicing, asset and wealth management and foreign exchange and other trading activities.
- * The first quarter of 2007 and the fourth quarter of 2006 reflect the new business mix including higher revenue from the corporate trust business the Company acquired from JPMorgan Chase in October 2006 ("Acquired Corporate Trust Business") partially offset by the BNY ConvergEx transaction.
- * Asset servicing increased from the first quarter of 2006 and the fourth quarter of 2006 due to increased transaction volumes and organic growth across all business products, especially global custody, both domestic and international mutual funds, exchange-traded funds, hedge fund servicing and collateral management. In addition, the Company benefited from the conversion of AIB/BNY Securities Services (Ireland) Ltd. ("AIB/BNY") to a wholly-owned subsidiary. Securities lending revenue was flat on a sequential quarter basis and down from the first quarter of 2006 reflecting tighter financing spreads. Asset servicing includes global custody, global fund services, securities lending, global liquidity services, outsourcing, government securities clearance, collateral management, credit-related services, and other linked revenues, principally foreign exchange.
- * Issuer services fees continued to exhibit strong growth in the first quarter compared with last year's first quarter. Corporate trust fees increased sequentially over the seasonally strong fourth quarter reflecting continued strong performance in global products and structured finance, notably asset-backed and mortgage-backed securities and CDOs. Depository receipts had another strong quarter, with fees up nearly 17% from the year-ago period. Fees declined sequentially, consistent with normal seasonal patterns for corporate actions. Issuer services

3

includes corporate trust, depository receipts, employee investment plan services, and stock transfer.

- * The decline in clearing services fees versus the first quarter 2006 reflects the disposition of certain execution businesses in the BNY ConvergEx transaction. These businesses had revenues of \$90 million in the first quarter of 2006. At Pershing, fees were up compared with both the first and fourth quarters of 2006, reflecting strong growth in customer volumes and increased market activity as well as the benefits of new business acquired. The clearing services business include electronic trading and, through Pershing, correspondent clearing services such as clearing, execution, financing, and custody for introducing broker-

Edgar Filing: MELLON FINANCIAL CORP - Form 425

dealers.

- * Global payment services fees were down slightly from the first and fourth quarters of 2006. Compared with the first quarter of 2006, the level of fees has been impacted by customers paying with a higher value of compensatory balances in lieu of fees. Global payment services includes fees related to funds transfer, cash management, and liquidity management.
- * Asset and wealth management fees increased over the first quarter of 2006 due to growth in assets under management, notably in alternative investments, as well as the acquisition of Urdang, a real estate investment management company, in March of last year. Total assets under management for asset and wealth management were \$130 billion at March 31, 2007, up from \$113 billion at March 31, 2006 and essentially unchanged from December 31, 2006.
- * Performance fees were up from a year-ago quarter reflecting strong results at two of the Company's alternative asset management subsidiaries, Ivy Asset Management and Alcentra.
- * Financing-related fees decreased from a year-ago quarter reflecting a lower level of credit-related activities. Finance-related fees include capital markets and investment banking fees, loan commitment fees and credit-related trade fees.
- * Foreign exchange and other trading revenues rose from both the first quarter of 2006 and the fourth quarter of 2006 reflecting an increase in other trading activities driven by interest rate derivatives and hedging transactions. Foreign exchange revenue increased on a sequential quarter basis consistent with higher market volatility and volumes in late February and early March. Foreign exchange results were down from the first quarter of 2006 reflecting lower market volatility.
- * Asset/investment income in the quarter reflected continued strong returns on investments in the sponsor fund portfolio. Venture capital income was \$17 million in the first quarter of 2007, down from \$29 million in the fourth quarter of 2006 and \$23 million in the first quarter of 2006. In the fourth quarter of 2006, the Company sold one of its sponsor fund investments to a third party for a realized gain of \$11 million. Asset/investment income includes the gains and losses on private equity investments, income from insurance contracts, and lease residual gains and losses.
- * Other noninterest income decreased versus the fourth quarter of 2006 reflecting lower asset-related gains. The first quarter 2007 results include net economic value payments of \$25 million compared with \$23 million in the fourth quarter of 2006 on corporate trust deposits that have not yet transitioned to the Company's balance sheet. The first quarter of 2006 included pre-tax gain of \$31 million related to the conversion of the Company's New York Stock Exchange seats into cash and shares of NYSE Group, Inc. common stock, some of which were sold. The fourth quarter 2006 results include a \$6 million loss related to low-income housing investments.

NET INTEREST INCOME

Edgar Filing: MELLON FINANCIAL CORP - Form 425

	=====	=====	=====		
Net interest margin	2.18%	2.27%	1.95%		

* The increase from the first quarter of 2006 reflects higher deposit balances associated with the Acquired Corporate Trust Business, as well as higher amounts of interest-earning assets and interest-free balances and the higher value of interest-free balances in a rising rate environment.

* The sequential decrease in net interest income was driven by a lower volume of low cost deposits associated with the securities servicing business and fewer days in the quarter.

* Net interest income does not reflect the impact of certain deposits of the Acquired Corporate Trust Business which are expected to transition to the Company's balance sheet in the second quarter of 2007. Pro forma for the inclusion of these deposits and the associated economic value on these deposits, the net interest margin would have been approximately 2%.

	-----	-----	-----		
Total noninterest expense excluding merger and integration costs	\$1,257	\$1,268	\$1,069	(1)	18
	=====	=====	=====		

- * The decline in sequential quarter expenses reflects strong expense discipline across many of the Company's businesses.
- o The decrease in staff expense reflects lower incentive compensation and pension expenses.
 - o The increase in net occupancy primarily reflects the conversion of AIB/BNY to a wholly-owned subsidiary.
 - o The fourth quarter of 2006's amortization of intangibles included a \$6 million impairment charge related to the write-off of customer intangibles.
 - o Other expense included transition services expense and other costs related to the Acquired Corporate Trust Business of \$21 million in the current quarter and \$22 million in the fourth quarter of 2006.
- * The purchase of the Acquired Corporate Trust Business and the remaining 50% of AIB/BNY joint venture, along with the disposition of certain execution businesses in the BNY ConvergEx transaction, significantly impacts comparisons of the first quarter of 2007 to the first quarter of 2006. The net impact of these transactions was to increase staff expense, net occupancy, business development, professional, legal, and other purchased services, amortization of intangibles, and other expense. The BNY ConvergEx transaction also resulted in lower clearing expenses.
- * The effective tax rate for the first quarter of 2007 was 32.2%, compared to 32.7% in the first quarter of 2006 and 31.4% in the fourth quarter of 2006. The decrease from the first quarter of 2006 primarily reflects foreign sales corporation benefits for certain leverage leases. The sequential quarter increase reflects lower Section 29 tax credits related to synthetic fuel.

6

CAPITAL

- * The Company's estimated Tier 1 and Total Capital ratios were 8.42% and 12.78% at March 31, 2007, compared with 8.28% and 12.44% at March 31, 2006 and 8.19% and 12.49% at December 31, 2006. The estimated leverage ratio was 6.82% at March 31, 2007, compared with 6.51% at March 31, 2006 and 6.67% at December 31, 2006. The Company's estimated adjusted tangible common equity ratio including deferred tax liability associated with intangibles was 5.47% at March 31, 2007, compared with 5.54% at March 31, 2006 and 5.30% at December 31, 2006.

Edgar Filing: MELLON FINANCIAL CORP - Form 425

- * In the first quarter of 2007, the Company recorded charges to equity of \$389 million due to the adoption of a new accounting pronouncement related to leasing (FSP FAS 13-2) and \$27 million due to the adoption of a new accounting pronouncement related to tax uncertainties (FIN 48).
- * Average diluted shares outstanding increased by 5 million shares from the fourth quarter of 2006 as a result of the exercise of stock options and the increased stock price.

ASSET QUALITY

- * Nonperforming assets were \$29 million at March 31, 2007, up from \$25 million at March 31, 2006 and down from \$38 million at December 31, 2006. The sequential-quarter decline reflects a paydown of a loan to an auto parts supplier.
- * The Company recorded a net recovery of \$3 million in the first quarter of 2007, compared with a net recovery of \$4 million in the first quarter of 2006 and a net charge-off of \$24 million in the fourth quarter of 2006. The first quarter of 2007 reflects a \$7 million recovery related to leased aircraft that were sold. During the fourth quarter of 2006, the Company sold \$38 million of leasing exposure to a domestic airline resulting in a charge-off of \$23 million.
- * The provision for credit losses for the first quarter of 2007 was a credit of \$15 million, compared with zero in the first quarter of 2006 and a credit of \$15 million in the fourth quarter of 2006 reflecting continuing high credit quality.

MERGER AGREEMENT WITH MELLON FINANCIAL CORPORATION ("MELLON")

On December 3, 2006, the Company and Mellon entered into an Agreement and Plan of Merger (the "Merger Agreement"), pursuant to which the Company and Mellon will each merge with and into a newly formed corporation to be called The Bank of New York Mellon Corporation. The boards of directors of both companies have unanimously approved the Merger Agreement. The parties amended and restated the Merger Agreement on February 23, 2007 and again on March 30, 2007. The board of directors of each company has adopted a resolution recommending the adoption of the Merger Agreement by its respective shareholders, and each party has agreed to put these matters before their respective shareholders for consideration. Subject to the customary closing conditions, the merger is expected to close early in the third quarter of 2007. The Company and Mellon filed a joint proxy statement/prospectus with the Securities and Exchange Commission ("SEC") regarding the proposed merger in late February and filed amendments to the joint proxy statement/prospectus with the SEC in April. The joint proxy statement/prospectus became effective on April 17, 2007. The Company and Mellon will each hold separate special shareholder meetings on May 24, 2007 to approve the merger for shareholders of record as of April 12, 2007.

FORWARD-LOOKING STATEMENTS

All statements in this press release other than statements of historical fact are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based upon the Company's current beliefs and expectations including, among other things, statements with respect to the proposed merger with Mellon, expectations with respect to operations after the merger, projections with respect to revenue and earnings and the Company's plans and objectives and as such are subject to risks and uncertainties that could cause actual results to differ materially from those expressed in the forward-looking statements. These include lower than expected performance or higher than expected costs in connection with acquisitions and integration of acquired businesses and the BNY ConvergeEx transaction, the completion and timing of potential transactions, the level of capital market and trading activity, changes in customer credit quality, market performance, the effects of capital reallocation, portfolio performance, changes in regulatory expectations and standards, ultimate differences from management projections or market forecasts and the actions that management could take in response to these changes.

In addition, with respect to the Mellon transaction, actual results may differ materially from the anticipated results or other expectations

Edgar Filing: MELLON FINANCIAL CORP - Form 425

expressed in the forward-looking statements as a result of risks and uncertainties, including but not limited to, the businesses of the Company and Mellon may not be integrated successfully or the integration may be more difficult, time-consuming or costly than expected; the combined company may not realize, to the extent or at the time the Company expects, revenue synergies and cost savings from the transaction; revenues following the transaction may be lower than expected as a result of losses of customers or other reasons; deposit attrition, operating costs, customer loss and business disruption following the transaction, including, without limitation, difficulties in maintaining relationships with employees, may be greater than expected; governmental approvals of the transaction may not be obtained on the proposed terms or expected timeframe; changes in political and economic conditions; equity, fixed income and foreign exchange market fluctuations; the Company's and Mellon's shareholders may fail to approve the transaction; the U.S. and foreign legal and regulatory framework could adversely affect the operating results of the combined company; and fluctuations in interests rates, currency exchange rates and securities prices may adversely affect the operating results of the combined company.

Additional factors that could cause the Company's and Mellon's results to differ materially from those described in the forward-looking statements can be found in The Bank of New York Company, Inc.'s and Mellon Financial Corporation's Annual Report on Form 10-K for the year ended December 31, 2006 and any subsequent reports (such as Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K) filed with the SEC pursuant to the Securities Exchange Act of 1934, as amended.

Forward-looking statements speak only as of the date they are made. The Company will not update forward-looking statements to reflect factual assumptions, circumstances or events that have changed after a forward-looking statement was made.

(Financial highlights and detailed financial statements are attached.)

SUPPLEMENTAL INFORMATION

On October 1, 2006, the Company acquired JPMorgan Chase's corporate trust business and sold to JPMorgan Chase the Company's Retail Business. The transaction further increased the Company's focus on the securities services and asset management businesses that are at the core of its long-term business strategy.

For the quarters ended March 31, 2007 and March 31, 2006, the Company has prepared supplemental financial information as follows:

Edgar Filing: MELLON FINANCIAL CORP - Form 425

- * Full income statement for the Retail Business, which is reflected as discontinued operations
- * Adjusted results, which combine continuing and discontinued operations to provide continuity with historical results
- * Continuing operations and adjusted results including and excluding merger and integration costs

The Company believes that providing supplemental adjusted non-GAAP financial information is useful to investors in understanding the underlying operating performance of the Company and its businesses and performance trends, particularly in view of the materiality and strategic significance of the JPMorgan Chase transaction. By combining the results of continuing and discontinued operations and excluding merger and integration costs, the Company believes investors can gain greater insight into the operating performance of the Company in relation to historic results. Although the Company believes that the non-GAAP financial measures presented in this report enhance investors' understanding of the Company's business and performance, these non-GAAP measures should not be considered an alternative to GAAP.
