On May 10, 2007, Ronald M. DeFeo, the Chairman and Chief Executive Officer of Terex Corporation (the Company), adopted a pre-arranged stock trading plan to exercise certain options to purchase shares of common stock of the Company and to sell the common stock received upon exercise of these options. This stock trading plan is part of Mr. DeFeo's individual long-term investment strategy, which includes asset diversification and liquidity goals. Stock trading under this plan is scheduled to commence in May 2007 and may continue through May 2008.

Rule 10b5-1 of the Securities Exchange Act of 1934 (Rule 10b5-1) allows officers and directors of public companies to adopt written stock trading plans when they are not in possession of material, non-public information. Once a Rule 10b5-1 trading plan is established, the insider retains no discretion over sales pursuant to the plan, and trades under the plan can be executed at later dates without regard to any subsequent material non-public information that the insider may receive. The stock trading plan put into place by Mr. DeFeo was adopted in accordance with guidelines specified under Rule 10b5-1 and the Company's policies regarding stock transactions.

All sales by Mr. DeFeo pursuant to his Rule 10b5-1 stock trading plan will be disclosed publicly through Form 4 filings with the SEC. The Form 4 filings will also be available through the Company's website.
