**NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Company Description and Nature of Operations**

Home Solutions of America, Inc. ("we," "us," "Home Solutions," or the "Company") is a Delaware corporation that was incorporated in 1998. Our growth strategy is to become a leading provider of specialty residential services that protect the single largest investment of most homeowners - their home. We seek a dominant market position through the acquisition of strategic, specialized, profitable and well-managed residential service companies, and through the above average internal growth of these operations. Home Solutions provides restoration services such as cleaning and fabric protection and fire and water restoration. The Company also provides specialty interior services including cabinet and countertop installations.

On March 31, 2005, the Company completed the acquisition of Cornerstone Building and Remodeling, Inc. dba Cornerstone Granite & Marble ("Cornerstone"), a leading supplier and installer of granite materials for kitchens and baths to national home centers, as well as national builders and remodeling companies, in the southeastern United States. The purchase price was paid via a combination of cash, seller's note, and 2,470,588 shares of restricted common stock. The acquisition became effective March 31, 2005.

The Company plans to continue acquiring complementary specialty residential services businesses as part of its announced strategy.

**Principles of Consolidation**

The accompanying consolidated financial statements include the accounts of Home Solutions of America, Inc. and its wholly and majority owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation. The minority owner's interest in a subsidiary has been reflected as minority interest in the accompanying consolidated balance sheet.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of the contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates made by management include, among others, the realizability of accounts and note receivable, inventories, recoverability of property and equipment, intangibles and goodwill and valuation of deferred tax assets. Actual results could differ from these estimates.

**Assets Held for Sale**

The Company currently has a building and land for sale with a net book value of \$940 that was its former administrative headquarters. The Company is actively marketing the property. The property is recorded at the lower of cost or market.

**Property and Equipment**

Property and equipment are stated at cost, and are being depreciated using the straight-line method over the estimated useful lives of the related assets, ranging from 3 to 20 years. Leasehold improvements are amortized using the straight-line method over the lesser of the estimated useful lives of the assets or the related lease terms. Equipment under capital lease obligations is depreciated over the shorter of the estimated useful life or the term of the lease. Maintenance and routine repairs are charged to expense as incurred. Significant renewals and betterments are capitalized. At the time of retirement or other disposition of property and equipment, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in the statements of income.

**Long-Lived Assets**

The Company's management assesses the recoverability of its long-lived assets upon the occurrence of a triggering event by determining whether the depreciation and amortization of long-lived assets over their remaining lives can be recovered through projected undiscounted future cash flows. The amount of long-lived asset impairment, if any, is measured based on fair value and is charged to operations in the period in which long-lived asset impairment is determined by management. At June 30, 2005, the Company's management believes there is no

Edgar Filing: HOME SOLUTIONS OF AMERICA INC - Form 10QSB

impairment of its long-lived assets. There can be no assurance, however, that market conditions will not change or demand for the Company's products and services will continue, which could result in impairment of long-lived assets in the future.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Dollars and Shares in Thousands, Except Per Share Data)**  
**June 30, 2005**

**NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)****Goodwill and Other Intangible Assets**

Goodwill represents the excess of acquisition cost over the net assets acquired in a business combination and is not amortized in accordance with Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets." The provisions of SFAS No. 142 require that the Company allocate its goodwill and intangible assets to its various reporting units, determine the carrying value of those businesses, and estimate the fair value of the reporting units so that a two-step goodwill impairment test can be performed. In the first step of the goodwill impairment test, the fair value of each reporting unit is compared to its carrying value. Management reviews, on an annual basis, the carrying value of goodwill and other intangible assets in order to determine whether impairment has occurred. Impairment is based on several factors including the Company's projection of future discounted operating cash flows. If an impairment of the carrying value were to be indicated by this review, the Company would perform the second step of the goodwill impairment test in order to determine the amount of goodwill impairment, if any.

Identifiable assets and liabilities acquired in connection with business acquisitions accounted for under the purchase method are recorded at their respective fair values. The Company is amortizing the identifiable intangibles over their estimated useful lives. Intangibles consist of the following at June 30, 2005:

	Balance	Estimated Useful Life (Years)
Trade name	3,240	15
Customer list	4,100	15
Supply agreement	1,350	20
Non -compete	215	6
	8,905	
Accumulated amortization	(634)	
	8,271	

Amortization expense totaled \$202 and \$108 for the six months ended June 30, 2005 and 2004, respectively.

**Revenue Recognition**

The Company recognizes revenue in accordance with Staff Accounting Bulletin ("SAB") No. 101, "Revenue Recognition in Financial Statements", as revised by SAB 104. As such, the Company recognizes revenue when persuasive evidence of an arrangement exists, title transfer has occurred, the price is fixed or readily determinable and collectibility is probable. Sales are recorded net of sales discounts.

PW Stephens, Inc. ("PWS") and Fiber Seal Systems L.P. ("FSS") recognize revenue at the time the contract and related services are performed.

SouthernStone Cabinets, Inc., SE Tops of Florida, Inc., and Cornerstone recognize revenue for product sales at the time the related products are shipped to the customer. These companies recognize revenue for installation jobs upon complete installation of the cabinets and inspection by the customer. Deferred revenue represents amounts billed to customers and collected prior to completion of the cabinets and inspection by the customer.

Cornerstone recognizes revenue from its building and remodeling jobs using the percentage of completion method for financial reporting purposes. Under the percentage of completion method, revenues with respect to individual contracts are recognized in the proportion that costs incurred to date bear to total estimated costs. Revenue and costs estimates are subject to revision during the terms of the contracts and any required adjustments are made in the periods in which the revisions become known. General and administrative costs are not allocated to contract costs and are charged to expense as incurred.

**Beneficial Conversion Feature**

Certain convertible features of notes payable (see Note 5) and preferred stock (see Note 6) provide for a rate of conversion that is below market value. This feature is normally characterized as a beneficial conversion feature ("BCF"), which is recorded by the Company, pursuant to Emerging Issues Task Force ("EITF") Issue No. 98-5 ("EITF 98-05"), "Accounting For Convertible Securities with Beneficial Conversion Features or Contingency Adjustable Conversion Ratio," and EITF Issue No. 00-27, "Application of EITF Issue No. 98-5 to Certain Convertible Instruments."

**NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)****Stock-Based Compensation**

The Company uses the intrinsic value method of accounting for stock-based compensation to employees in accordance with Accounting Principles Board Opinion ("APB") No. 25, as amended, "Accounting for Stock Issued to Employees." The Company accounts for non-employee stock-based compensation under SFAS No. 123, "Accounting for Stock-Based Compensation." At June 30, 2005, the Company has two stock-based employee compensation plans, which are described more fully in Note 6. During the six months ended June 30, 2005 and 2004, no compensation expense was recognized in the accompanying statements of operations for options issued to employees below market value pursuant to APB No. 25. No other stock option-based employee compensation cost is reflected in the 2005 and 2004 statements of operations, as all other options granted in 2005 and 2004 under those plans had exercise prices equal to or greater than the market value of the underlying common stock on the dates of grant. The following table illustrates the effect on net income and income per share if the Company had applied the fair value recognition provisions of SFAS No. 123, to stock-based employee compensation.

**Issuance of Stock for Non-cash Consideration**

All issuances of the Company's stock for non-cash consideration have been assigned a dollar amount equaling either the market value of the shares issued or the value of consideration received whichever is more readily determinable. The majority of the non-cash consideration received pertains to services rendered by consultants and others and have been valued at the market value of the shares issued. In certain issuances, the Company may discount the value assigned to the issued for illiquidity and restriction on resale.

**Comprehensive Income**

During the periods presented, the Company had no items of comprehensive income and, therefore, has not presented a statement of comprehensive income.

**Per Share Data**

Basic earnings per share ("BEPS") are computed by dividing income available to common stockholders by the weighted average number of outstanding common shares during the period of computation. Diluted earnings per share ("DEPS") give effect to all potential dilutive common shares outstanding during the period of computation. The computation of DEPS does not assume conversion, exercise or contingent exercise of

securities that would have an anti-dilutive effect on earnings.

**NOTE 3 - ACQUISITION**

Commensurate with the announcement in August 2002 of the Company's strategy of acquiring companies in the specialty residential services industry, pursuant to a merger agreement, the Company acquired 100% of Cornerstone Building and Remodeling, Inc. dba Cornerstone Granite & Marble ("Cornerstone"). The acquisition was closed on March 31, 2005 and became effective on that date. It was accounted for as a purchase.

The purchase price was comprised of the following:			
	Cash paid to seller (paid in April 2005)	\$	1,700
	Notes payable		1,600
	Common stock issued to seller (2,471 shares)		3,335
	Non cash costs (350 shares of common stock and 1,333 warrants issued)		973
	Legal, accounting and other costs		422
		\$	8,030

The purchase price was tentatively allocated as follows:			
	Current assets	\$	2,312
	Property and equipment		1,824
	Other long-term assets		11
	Current liabilities		(3,913)
	Long-term liabilities		(1,460)
	Estimated fair value of tangible net assets acquired		(1,226)
	Intangibles		4,315
	Goodwill		4,943
		\$	8,030

Of the acquired intangible assets, \$4,315 has been tentatively assigned to Cornerstone's customer relationships and non-compete agreements, and are subject to amortization based on an estimated useful life of 6-15 years. The remaining amount of acquired intangible assets of \$4,943 has been tentatively assigned to goodwill as of June 30, 2005 in the accompanying consolidated balance sheet. The Company completed the analysis of the components of the intangible assets and will have an appraisal was done by a third party to determine the final purchase price allocation.

For each of three consecutive calendar years commencing with 2005, in the event that Cornerstone produces earnings before interest, taxes, depreciation and amortization ("EBITDA") in such calendar year in excess of \$2,400, the Company shall issue the seller additional shares of the Company's common stock representing 30% of the EBITDA amount in excess of \$2,400 (50% under certain circumstances) and as specified in the merger agreement. In lieu of issuing shares of common stock, the Company has the option of making a cash payment to the seller equal to 30% of the excess EBITDA amount.

The following pro forma information presents the results of operations for the six months ended June 30, 2004 and 2005, as though the Cornerstone acquisition had occurred on January 1, 2004.

**NOTE 4 - NOTE RECEIVABLE**

On June 2, 2004, the Company, PW Stephens ("PWS"), Jane C. Barber ("Barber") and Spruce MacIntyre Holding Corp. ("Spruce") entered into a Fourth Amendment to Stock Purchase Agreement and Global Settlement and Release Agreement (the "Barber Global Settlement"), whereby certain lawsuits were dismissed by the Company with prejudice, and the parties released each other from any liability other than their respective obligations under the Barber Global Settlement and agreements entered in connection therewith. Pursuant to the Barber Global Settlement, Barber assigned to the Company a promissory note in the original principal amount of \$1,550 (the "Note Receivable"), secured by the Barber Shares, which Barber had obtained from a third party in connection with the sale of the Barber Shares to such third party. The Note Receivable requires payments to the Company of \$15 per week, without interest unless a default occurs, commencing on July 9, 2004, until the Note Receivable is paid in full. The Note Receivable is personally guaranteed by a third party. The Company recorded this Note Receivable with an implicit rate of 4.55%, resulting in an initial balance of \$1,481. As of June 30, 2005, the note receivable balance is \$980.

**NOTE 5 - DEBT**

In March 2005, the Company raised \$4,000 in a private placement of mezzanine debt with Petra Mezzanine Fund, L.P. ("Petra"). The original principal amount of the promissory note issued to Petra was \$4,000 ("Petra Note") and Petra was also issued a warrant to purchase 533 shares of the Company's common stock for \$0.01 per share. The Petra Note earns interest at 12.0% per annum, is secured by all of the assets of the Company, PWS and Cornerstone and has a five-year term. The Company incurred \$1,116 in related debt issue costs (\$294 cash, \$822 non-cash). The non-cash costs of \$822 represent the relative fair value of the warrant and such costs will be amortized to interest expense over the term of the related debt instrument along with the debt issue costs. For the six months ended June 30, 2005, \$54 has been amortized. The net proceeds of the loan from Petra were used to pay the cash portion of the purchase price of Cornerstone and to inject working capital into Cornerstone.

In April 2005, the Company raised \$500 in a private placement of mezzanine debt with Laddcap Value Partners ("Laddcap"). The original principal amount of the promissory note issued to Laddcap was \$500 ("Laddcap Note") and Laddcap was also issued a warrant to purchase 67 shares of the Company's common stock for \$0.01 per share. The Laddcap Note earns interest at 12.0% per annum, is secured by all of the assets of the Company, PWS and Cornerstone and has a five-year term. The Company incurred \$123 in related debt issue costs (\$20 cash, \$103 non-cash). The non-cash costs of \$103 represent the relative fair value of the warrant and such costs will be amortized to interest expense over the term of the related debt instrument along with the debt issue costs. **Item 2. Management's Discussion and Analysis or Plan of Operation (Dollars and shares in thousands except per share data).  
Overview**

Home Solutions of America, Inc. ("we," "us," "Home Solutions," or the "Company") is a Delaware corporation that was incorporated in 1998. Our growth strategy, developed in 2002, is to become a leading provider of specialty residential services that protect the single largest investment of most homeowners - their home. We seek a dominant market position through the acquisition of strategic, specialized, profitable and well-managed residential service companies and through the above average internal growth of these operations. Home Solutions will provide services such as cleaning and fabric protection, restoration services, and residential renovation sales.

**Growth Strategy**

Home Solutions seeks to acquire companies or internally generate projects that will focus on providing specialty residential services to homeowners. Effective November 1, 2002, we closed our first acquisition as part of this strategy, acquiring PW Stephens, Inc. ("PWS"), a provider of indoor air contaminate removal services for homeowners in California. In July 2003 we acquired Fiber-Seal Systems, L.P. ("FSS"). In February 2004, effective December 31, 2003, we acquired Southern Exposure. In March 2005, we acquired Cornerstone. We expect to continue our growth strategy with additional acquisitions. The following is a list of the targeted services that we are pursuing:

**Cleaning and Fabric Protection:** We will provide fabric protection services to protect furniture, carpet and draperies from stains and daily wear and tear. This niche market is primarily targeted at above-average income homeowners with an average ticket of approximately \$0.4 or more. We will provide our customers with an annual fabric protection service agreement that will allow them to have on-site spill clean up during the life of the agreement. In addition, using well-tested methods of cleaning carpet, we will offer maintenance and emergency response services to our customer base to repair carpet damaged by common stains, pet dander, bacteria and dust. This procedure will extend the life of the homeowners' carpets and make the carpet look its finest. Furthermore, air duct cleaning is another under-developed market the Company will approach. Particulate (organic and inorganic) material within a home's heating and air conditioning systems and the transfer air ducts can cause allergic reactions and generally indicate poor air quality. Furthermore, the conditions of these systems, high moisture content and heat are often the breeding ground for many types of mold. It is expected that a portion of our cleaning operations will generate additional opportunities across our other business segments.

**Restoration Services:** As part of Home Solutions' specialty residential services strategy, we will provide highly trained technicians to respond to fire, water and weather-related emergencies to inspect structural members and contents damaged by water, to determine the likelihood or extent of mold growth, and to provide immediate cleaning, drying, moving, storage, and deodorization, among other services. Indoor air contamination, including contamination from mold, asbestos and lead paint, is a growing concern for the homeowner. With increased media attention regarding the health threat of mold, fewer insurance options, and property transfers at risk, current market conditions have created significant demand for mold inspections, certifications and remediation services. These services consist of property and system inspections, surface and air testing, project design, microbial removal, light interior demolition, repair and specialized cleaning work. Home inspections and testing can range from \$0.3 to several thousand dollars. Customer opportunities are developed through a regional sales force as well as through referrals by real estate firms, insurance adjusters, mortgage companies, attorneys and nationally branded retailers. As most cases of mold are associated with excess moisture, we believe that response to this type of event-related damage will provide significant additional revenue opportunities. The cost and time requirements of these projects can vary dramatically from case-to-case. It is expected that a portion of our fire/water damage restoration operations will generate additional opportunities across our other business segments.

**Specialty Interior Services:** Under the Southern Exposure™ brand name, Home Solutions offers cabinet and countertop installation services. SE manufactures and installs a high-end product line of cabinets and countertops. Its customer base includes both homebuilders and homeowners in the rapidly growing southwestern Florida marketplace. It is expected that a portion of our cabinet and countertop installation services will generate additional opportunities across our other business segments. Cornerstone, acquired effective March 31, 2005, is a leading supplier and installer of granite materials for kitchens and baths to national home centers, as well as national builders and remodeling companies, in the southeastern United States.

*Use of Estimates and Critical Accounting Policies*

In preparing our consolidated financial statements, we make estimates, assumptions and judgments that can have a significant effect on our revenues, income (loss) from operations, and net income (loss), as well as on the value of certain assets on our balance sheet. We believe that there are several accounting policies that are critical to an understanding of our historical and future performance as these policies affect the reported amounts of revenues, expenses, and significant estimates and judgments applied by management. While there are a number of accounting policies, methods and estimates affecting our financial statements, areas that are particularly significant include revenue recognition, stock-based compensation, and goodwill. In addition, please refer to Note 1 to the accompanying financial statements for further discussion of our accounting policies.

*Revenue Recognition*

Revenue is primarily recognized at the time the contract and related services are performed. On occasion the Company reports revenue from fixed price contracts using the percentage of completion method for financial reporting purposes. Under the percentage of completion method, revenues with respect to individual contracts are recognized in the proportion that costs incurred to date bear to total estimated costs. Revenue and costs estimates are subject to revision during the terms of the contracts and any required adjustment are made in the periods in which the revisions become known. General and administrative costs are not allocated to contract costs and are charged to expense as incurred.

*Stock-Based Compensation*

The Company uses the intrinsic value method of accounting for stock-based compensation to employees in accordance with Accounting Principles Board Opinion ("APB") No. 25, as amended, "Accounting for Stock Issued to Employees." The Company accounts for non-employee stock-based compensation under Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation." At June 30, 2005, the Company had two stock-based employee compensation plans, which are described more fully in Note 6 of the accompanying consolidated financial statements. The Company accounts for those plans under the recognition and measurement principles of APB 25, and related interpretations. The Company has applied the disclosure provisions in SFAS No. 148 in its consolidated financial statements and the accompanying notes.

*Goodwill*

Goodwill represents the excess of acquisition cost over the net assets acquired in a business combination. Management reviews, on an annual basis, the carrying value of goodwill in order to determine whether impairment has occurred. Impairment is based on several factors including the Company's projection of future undiscounted operating cash flows. If an impairment of the carrying value were to be indicated by this review, the Company would adjust the carrying value of goodwill to its estimated fair value.

This represents an increase of \$131 from the same period in 2004, primarily due to the PWS Florida administrative expenses. PWS commenced Florida operations in the last quarter of 2004.

#### **Specialty Interior Services**

Selling, general and administrative expenses were \$2,547 for the three months ended June 30, 2005, compared to \$537 for the three months ended June 30, 2004. The segment selling, general and administrative expenses for the three months ended June 30, 2005 include Cornerstone expenses of \$1,900. Cornerstone was acquired effective March 31, 2005. SE experienced increased expenses of \$110 from the same period in 2004, primarily due to increased worker's compensation insurance.

#### **Corporate**

Corporate general and administrative expenses were \$557 for the three months ended June 30, 2005 compared to \$580 for the three months ended June 30, 2004.

*Other Income (Expense)*

Interest expense was \$447 for the three months ended June 30, 2005, compared to \$244 for the three months ended June 30, 2004. The increase in the three months ended June 30, 2005 compared to the three months ended June 30, 2004 was primarily due to the interest on debt related the Cornerstone acquisition completed on March 31, 2005 (\$153), and the related amortization of debt issue costs (\$79). Interest expense decreased \$29 from the retirement of debt. Other income was \$29 in 2005 compared to \$12 in 2004. In the three months ended June 30, 2005, the Company also recorded \$10 in non-cash amortization of imputed interest income from a note receivable.

**Comparison of six months ended June 30, 2005 to six months ended June 30, 2004**

The Cornerstone acquisition was closed on March 31, 2005. As such, although Cornerstone's balance sheet is included in the Company's consolidated balance sheet on June 30, 2005, the Company's consolidated results of operations for the first quarter of 2005 do not include the results of Cornerstone.

*Net Sales*

**Restoration Services**

The revenue for the six months ended June 30, 2005 was \$10,011, compared to \$7,585 for the six months ended June 30, 2004. PWS had revenues of approximately \$1,760 from its Florida operations, which began in the last quarter of 2004. PWS has completed the Florida work started in the last quarter 2004 and is actively bidding for additional work. PWS restoration services sales, excluding the Florida operations, increased \$339, and mold remediation sales increased \$331 from the same period in 2004. FSS sales decreased \$4 from the same period in 2004.

**Specialty Interior Services**

The segment sales for the six months ended June 30, 2005 includes Cornerstone sales of \$6,069. Cornerstone was acquired effective March 31, 2005. SE sales increased \$2,793 from the same period in 2004. SE met increased demand from its major customer for its product as compared to the same period in 2004.

*Costs of Sales*

**Restoration Services**

Costs of sales for the six months ended June 30, 2005 were \$4,885, compared to \$3,710 for the six months ended June 30, 2004. The increase in cost of sales was due primarily to increased PWS revenues from the same period in 2004. The PWS Florida costs of sales (40%) were lower than experienced when performing work only in California (52%) because the Florida restoration work does not involve hazardous material.

**Specialty Interior Services**

Costs of sales for the six months ended June 30, 2005 were \$9,454, compared to \$3,867 for the six months ended June 30, 2004. The segment costs of sales for the six months ended June 30, 2005 include Cornerstone costs of sales of \$4,228. Cornerstone was acquired effective March 31, 2005. Costs of sales increased additionally \$1,359 from the same period in 2004, due to the SE increased sales. The SE costs of sales percentage was 59% and 60% for the six months ended June 30, 2005 and June 30, 2004, respectively

*Selling, General and Administrative Expenses*

**Restoration Services**

Selling, general and administrative expenses were \$3,298 for the six months ended June 30, 2005, compared to \$2,882 for the six months ended June 30, 2004. This represents an increase of \$416 from the same period in 2004, primarily due to the PWS Florida administrative expenses of \$315. PWS commenced Florida operations in the last quarter of 2004.

**Specialty Interior Services**

Selling, general and administrative expenses were \$3,161 for the six months ended June 30, 2005 compared to \$1,062 for the six months ended June 30, 2004. *Other Income (Expense)*

Interest expense was \$794 for the six months ended June 30, 2005, compared to \$428 six months ended June 30, 2004. The increase in the six months ended June 30, 2005 compared to the six months ended June 30, 2004 was primarily due to the interest on debt related the Cornerstone acquisition, completed on March 31, 2005 (\$153), and the amortization of the related debt issue costs (\$79). The increase in interest expense from the same period in 2004 was also attributable to the Acstar note interest of \$22 and interest expense of \$26 on assumed Cornerstone debt. Other income decreased to \$47 in the six months ended 2005 from \$164 in the six months ended June 30, 2004, primarily due to a one-time gain of \$129 in 2004 related to debt extinguishment. In the six months ended June 30, 2005, the Company also recorded \$21 in non-cash amortization of imputed interest income from a note receivable.

## Liquidity and Capital Resources

The Company's existing capital resources as of June 30, 2005, consist of cash and accounts receivable totaling \$11,402, compared to cash and accounts receivable of \$5,833 as of June 30, 2004. The Company believes that the financing arrangements the Company currently has in place are sufficient throughout the next twelve months to finance its working capital needs. Implementation of the Company's strategic plan of acquiring niche residential services companies will require additional capital, however.

In the six months ended June 30, 2005, the Company raised \$6,300 in a private placement of mezzanine debt with Petra Mezzanine Fund, L.P. ("Petra"), Laddcap Value Partners, and Patriot Capital, L.P. (Patriot"). The original principal amount of the promissory note issued to Petra was \$4,000 ("Petra Note") and Petra was also issued a warrant to purchase 533 shares of the Company's common stock for \$0.01 per share. The Company incurred \$1,116 in related debt issue costs (\$294 cash, \$822 non-cash). The non-cash costs of \$822 represent the relative fair value of the warrant and such costs will be amortized to interest expense over the term of the related debt instrument along with the debt issue costs. For the six months ended June 30, 2005, \$54 has been amortized. The original principal amount of the promissory note issued to Laddcap was \$500 ("Laddcap Note") and Laddcap was also issued a warrant to purchase 67 shares of the Company's common stock for \$0.01 per share. The Company incurred \$123 in related debt issue costs (\$20 cash, \$103 non-cash). The non-cash costs of \$103 represent the relative fair value of the warrant and such costs will be amortized to interest expense over the term of the related debt instrument along with the debt issue costs. For the six months ended June 30, 2005, \$6 has been amortized. The original principal amount of the promissory note issued to Patriot was \$1,800 ("Patriot Note") and Patriot was also issued a warrant to purchase 240 shares of the Company's common stock for \$0.01 per share. The Company incurred \$536 in related debt issue costs (\$166 cash, \$370 non-cash). The non-cash costs of \$370 represent the relative fair value of the warrant and such costs will be amortized to interest expense over the term of the related debt instrument along with the debt issue costs. For the six months ended June 30, 2005, \$18 has been amortized. The Petra Note, Laddcap Note and the Patriot Note earn interest at 12.% per annum, are secured by the all the assets of the Company, PWS and Cornerstone and have a five-year term. The net proceeds from the Petra Note, Laddcap Note, and the Patriot Note were used to pay a portion of the Cornerstone seller note and to inject working capital into Cornerstone.

In March 2004, the Company raised \$2,000 in a private placement of .08 shares of Series A Preferred Stock, \$0.001 par value per share ("Series A Preferred Stock"). Dividends on the Series A Preferred Stock are payable semi-annually at a rate of 8% per annum, in cash or common stock, at the option of the Company. The Series A Preferred Stock converts into common stock at a conversion rate of \$1.25 for each share of common stock at the option of the holder or automatically after two years. Purchasers of the Series A Preferred Stock received Series A Warrants to purchase 1,600 shares of common stock at an exercise price of \$1.75 per share, expiring 90 days from the effective date of their registration statement, and Series B Warrants to purchase 1,600 shares of common stock at an exercise price of \$2.25 per share, expiring March 2009. In the event of a liquidation, dissolution or winding up of the affairs of the Company, whether voluntary or involuntary, the holders of the Series A Preferred Stock are entitled to receive, out of the assets of the Company available for distribution to its stockholders, an amount equal to \$25,000 per share of the Series A Preferred Stock plus any accrued and unpaid dividends before any payment is made or any assets distributed to the holders of the common stock. Estimated costs of this transaction of \$876 will be amortized as additional dividends over the two-year maximum life of the preferred stock. The Series A Warrants to purchase 1,600 shares of common stock at an exercise price of \$1.75 per share expired July 1, 2004 without exercise by any of the holders of the Series A Preferred Stock. In August 2005, the remaining outstanding Series A Preferred Stock was converted into the Company's Common Stock.

In July 2004, the Company raised \$1,000 in a private placement of 0.04 shares of Series B Preferred Stock, \$0.001 par value per share ("Series B Preferred Stock"). Dividends on the Series B Preferred Stock are payable semi-annually at a rate of 8% per annum, in cash or common stock, at the option of the Company. The Series B Preferred Stock converts into common stock at a conversion rate of \$1.50 for each share of common stock at the option of the holder or automatically after two years. In the event of a liquidation, dissolution or winding up of the affairs of the Company, whether voluntary or involuntary, the holders of the Series B Preferred Stock are entitled to receive, out of the assets of the Company available for distribution to its stockholders, an amount equal to \$25,000 per share of the Series B Preferred Stock plus any accrued and unpaid dividends before any payment is made or any assets distributed to the holders of the common stock. For the six months ended June 30, 2005, the Company has recorded \$36 in dividends payable. In January 2005 the Company, at its option, issued 27 shares of common stock in lieu of cash payment for \$41 of the accrued dividends.

During the six months ended June 30, 2005, the Company generated net cash from operating activities of \$644, including net income of \$2,086.

The Company's investing activities used net cash of \$1,900, primarily due to Cornerstone acquisition costs and purchase of property and equipment.

The Company's net cash from financing activities of \$2,029 was primarily due to proceeds from a private placement of mezzanine debt. Cash flow outlays were for principal payments on long-term debt and capital leases and distributions to minority stockholder.

**RISKS ASSOCIATED WITH FORWARD-LOOKING STATEMENT INCLUDED IN THIS FORM 10-QSB**

This Form 10-QSB contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbors created thereby. These statements include the plans and objectives of management for future operations, including plans and objectives relating to the Company's residential services acquisition strategy and availability of capital to fund such strategy. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions, regulatory framework, and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the Company. We refer you to the section entitled "Trends, Risks and Uncertainties" in Item 6 of Part II of our annual report on Form 10-KSB for the year ended December 31, 2004, for a list of specific factors that could cause actual results to differ materially from those indicated by our forward-looking statements made herein and presented elsewhere by management. Although the Company believes that the assumptions underlying the forward-looking statements are reasonable, any of the assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this Form 10-QSB will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company or any other person that the objectives and plans of the Company will be achieved. Furthermore, we do not undertake any obligation to update forward-looking statements made herein.

**Item 3. Controls and Procedures**

(a) Evaluation of Disclosure Controls and Procedures. The Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), of the effectiveness of the Company's disclosure controls and procedures. Based upon that evaluation, the CEO and CFO concluded that as of June 30, 2005 our disclosure controls and procedures were effective in timely alerting them to the material information relating to the Company (or the Company's consolidated subsidiaries) required to be included in the Company's periodic filings with the SEC, subject to the various limitations on effectiveness set forth below under the heading, "LIMITATIONS ON THE EFFECTIVENESS OF INTERNAL CONTROLS," such that the information relating to the Company, required to be disclosed in SEC reports (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to the Company's management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in internal control over financial reporting. There has been no change in the Company's internal control over financial reporting that occurred during the six months ended June 30, 2005 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

**LIMITATIONS ON THE EFFECTIVENESS OF INTERNAL CONTROLS**

The Company's management, including the CEO and CFO, does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. An internal control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of the control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, and/or the degree of compliance with the policies or procedures may deteriorate.

**PART II  
OTHER INFORMATION**

(Dollars and shares in thousands, except for per share data)

**Item 1. Legal Proceedings.**

The nature and scope of our business operations bring us into regular contact with the general public, a variety of businesses and government agencies. These activities inherently subject us to potential litigation, which we defend in the normal course of business. At June 30, 2005, there were various claims and disputes incidental to the business. The Company believes that the disposition of all such claims and disputes, individually or in the aggregate, should not have a material adverse affect upon our financial position, results of operations or cash flows.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

During the period from August 9, 2005, through August 12, 2005 (any issuances previously disclosed by the Company on Form 8-K are not repeated herein), the Company issued the following shares of its common stock, \$.001 par value per share ("Common Stock") and other equity securities without registration under the Securities Act of 1933, as amended (the "Securities Act") (dollars and shares are in thousands):

1. the Company, at its option, issued 47 shares of Common Stock in lieu of aggregate cash payments of \$59 in accrued dividends to three holders of Series A Preferred Stock;
2. the Company issued 720 shares of Common Stock for \$900 (a conversion price of \$1.25 per share) in connection with the conversion by two holders of 36 shares, constituting all of the remaining shares of this class, of Series A Preferred Stock;
3. the Company issued 266 shares of Common Stock, at conversion prices of \$1.35 and \$1.88 per share, respectively, upon the conversion of debt held by Laurus Master Fund;
4. the Company issued 3 shares of Common Stock to the holder of a warrant who exercised such warrant at an exercise price of \$1.25 per share; and
5. the Company issued 35 shares of Common Stock to the holder of two warrants who exercised such warrants at exercise prices of \$1.75 and \$1.88 per share, respectively;

The above issuances were unregistered, as the Company was relying on the exemptions from registration contained in Section 4(2) of the Securities Act, and Regulation D promulgated thereunder, on the basis that such transactions did not involve public offerings of securities.
