PROXY STATEMENT

GENERAL INFORMATION

This proxy statement is furnished to our stockholders in connection with the solicitation of proxies by the Board of Directors of PERFORMANCE TECHNOLOGIES, INCORPORATED (the Company) to be used at our Annual Meeting of Stockholders, which will be held at our headquarters, at 10:00 a.m., New York time, on Thursday, May 24, 2007 (the Meeting), and at any adjournments thereof. This proxy statement and the accompanying form of proxy are first being mailed to our stockholders on or about April 27, 2007.

The proxy, when properly executed and received by our Secretary prior to the Meeting, will be voted as therein specified unless revoked by filing a written revocation or a duly executed proxy bearing a later date with our Secretary prior to the Meeting. A stockholder of record may also revoke a proxy in person at the Meeting. Unless authority to vote for one or more of the director nominees is specifically withheld, a signed proxy will be voted FOR the election of the director nominees named herein and, unless otherwise indicated, FOR the ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2007.

The cost of soliciting proxies will be borne by the Company. In addition to solicitation by use of the mails, directors, officers or our regular employees, without extra compensation, may solicit proxies personally, by telephone, e-mail or facsimile transmission. We requested persons holding stock for others in their names or in the names of nominees to forward soliciting material to the beneficial owners of such shares and will, if requested, reimburse such persons for their reasonable expenses in so doing.

VOTES REQUIRED

Stockholders may vote by mail, telephone or the Internet. For some stockholders, information regarding telephone and Internet voting is included in the proxy card instructions. Our total outstanding shares of capital stock as of March 28, 2007, the record date for the Meeting (the Record Date), consisted of 13,008,846 shares of Common Stock, par value \$.01 per share (the Common Stock). Only holders of record of Common Stock on the books of the Company at the close of business on the Record Date are entitled to notice of and to vote at the Meeting and at any adjournments thereof. Each holder of Common Stock is entitled to one vote for each share of Common Stock registered in the holder's name. A majority of the outstanding shares of Common Stock, represented in person or by proxy at the Meeting, will constitute a quorum for the transaction of all business.

Pursuant to the provisions of the Delaware General Corporation Law, directors shall be elected by a plurality of the votes cast by the holders of shares of our Common Stock present in person or represented by proxy at the Meeting and entitled to vote at the Meeting. Because directors are elected by a plurality of the votes cast, withholding authority to vote with respect to one or more nominees will have no effect on the outcome of the election, although such shares would be counted as present for purposes of determining the existence of a quorum. Provided each nominee receives at least one vote in favor of his election, abstentions will have no effect on the election of directors.

The affirmative vote of a majority of the shares present or represented by proxy at the Meeting and entitled to vote at the Meeting is required to ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2007. Abstentions are treated as shares present and voting, so abstaining has the same effect as a negative vote.

A broker non-vote occurs when a broker cannot vote on a matter because the broker has not received instructions from the beneficial owner and lacks discretionary voting authority with respect to that matter. We do not expect that brokers will lack discretionary authority to vote on either of the proposals to be considered at the Meeting. If, however, there are broker non-votes, we will treat them as present to determine whether we have a quorum at the Meeting; however, they will not be treated as entitled to vote on the proposals for which the broker indicates it does not have discretionary authority. This means that broker non-votes will not have any effect on whether any proposal passes.

CORPORATE GOVERNANCE

Overview

The Company has a history of good corporate governance practices, which have aided our long-term success. The Board of Directors and management have recognized for many years the need for sound corporate governance practices in fulfilling their respective duties and responsibilities to stockholders.

The Board provides oversight with respect to our overall performance, strategic direction and key corporate policies. It approves major initiatives, advises on key financial and business objectives, and monitors progress with respect to these matters. Members of the Board are kept informed of our business by various reports and documents provided to them on a regular basis, including operating and financial reports made at Board and committee meetings by the chairman and other officers. The Board has three standing committees, the principal responsibilities of which are described below.

On an annual basis, each director and executive officer is obligated to complete a director and officer questionnaire. The questionnaire requires disclosure of any transactions with the Company in which the director or executive officer, or any member of his or her immediate family, have a direct or indirect material interest. The Board is charged with addressing any conflict of interest involving the chairman, the chief executive officer, the chief financial officer, or any elected officer of the Company.

Director Independence

Each year, the Board affirmatively determines the independence of each director and nominee for election as a director with the listing standards of the Nasdaq Stock Market.

Based on these standards, the Board affirmatively determined that each of the following non-employee directors is independent and has no relationship with the Company, except as a director and stockholder of the Company:

(1) Bernard Kozel
(2) Charles E. Maginness
(3) Stuart B. Meisenzahl

(4) E. Mark Rajkowski
(5) Robert L. Tillman

In addition, based on such standards, the Board affirmatively determined that John M. Slusser is not independent because he is the chairman, president and chief executive officer of the Company.

Nominations of Directors

Identifying Candidates

The Nominating Committee has a written charter available in the Investors section of our website at www.pt.com, which specifically sets forth the duties of the Nominating Committee. The Nominating Committee is responsible for identifying and screening potential director candidates and recommending qualified candidates to the Board for nomination. The Committee uses its network of contacts to compile a list of potential candidates, but may also engage, if it deems appropriate, a professional search firm. In addition, it considers recommendations of potential candidates from current directors, management and stockholders. The Committee does not intend to alter the manner in which it evaluates candidates, including the minimum criteria set forth herein, based on whether the candidate was recommended by a stockholder. Stockholders who wish to recommend individuals for consideration by the Nominating Committee to become nominees for election to the Board may do so by delivering a written recommendation to the attention of the Nominating Committee at the address set forth on the cover of this proxy statement. Submissions must include the full name of the proposed nominee, a description of the proposed nominee's business experience for at least the previous five years, complete biographical information, a description of the proposed nominee's qualifications as a director and a representation that the nominating stockholder is a beneficial or record owner of our Common Stock. In addition, any such submission must be accompanied by the written consent of the proposed nominee to be named as a nominee and to serve as a director if elected.

Qualifications

The Nominating Committee has not established specific minimum age, education, years of business experience or specific types of skills for potential director candidates, but, in general, expects qualified candidates will have ample experience and a proven record of business success and leadership.

2

The Board has developed criteria which are designed to identify qualities and characteristics desired for the Board as a whole. The Nominating Committee believes that director candidates should have certain minimum qualifications including the ability to read and understand basic financial statements and that each should possess the highest standards of personal integrity, ethics and values.

The Nominating Committee also considers such factors as:

Relevant expertise to offer advice and guidance to management;

Edgar Filing: PERFORMANCE TECHNOLOGIES INC \DE\ - Form DEF 14A

Sufficient time to devote to our affairs;
Excellence in his or her field;
Significant appropriate senior management and leadership experience;
A long-term and strategic perspective;
Consistent exercise of sound and objective business judgment;
Ability to advance constructive debate and a global perspective; and
Commitment to support the long-term interests of our stockholders.

Further, it is important for the Board, as a whole, to operate in an atmosphere that is collegial, professional and respectful.

Candidate Selection Process

New candidates for director nominees are reviewed in the context of the current composition of the Board, our operating requirements and the long-term interests of our stockholders. In conducting this assessment, the Nominating Committee considers diversity, maturity, skills and such other factors as it deems appropriate given our current needs and the needs of our Board to maintain a balance of knowledge, experience and capability. In the case of incumbent directors whose terms of office are set to expire, the Nominating Committee reviews such directors' overall service to us during their terms, including the number of meetings attended, level of participation, quality of performance and any other relationships and transactions that might impair such directors' independence. In the case of new director candidates, the Nominating Committee also determines whether the nominee is independent, which determination is based upon applicable listing standards of the Nasdaq Stock Market, applicable rules and regulations of the United States Securities and Exchange Commission (the "SEC"), and the advice of counsel, if necessary. The Nominating Committee conducts inquiries into the backgrounds and qualifications of possible candidates after considering the function and needs of the Board.

Regardless of how a candidate is brought to the Nominating Committee's attention, qualified candidates are asked to conduct one or more personal interviews with members of the Board. Chosen candidates are extended invitations to join the Board. If a candidate accepts, he or she is formally nominated.

Communications with the Board

Stockholders and other interested parties may communicate with one or more members of the Board or the non-management directors as a group in writing by regular mail. The following address may be used by those who wish to send such communications:

3

Code of Business Conduct and Ethics

The Company's Code of Business Conduct and Ethics (the "Code") applies to all directors, officers and employees or associates of the Company and its subsidiary companies. It is intended to promote the highest standards of honesty and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships; full and understandable disclosure in reports and documents filed with the SEC; compliance with applicable governmental rules and regulations; the prompt reporting of violations of the Code to an appropriate person or persons identified in the Code; and accountability for adherence to the Code.

The Board has established a means for employees, customers, suppliers, stockholders and other interested parties to submit confidential and anonymous reports of suspected or actual violations of the Company's Code of Business Conduct and Ethics.

MEETINGS AND COMMITTEES OF THE BOARD

The Board

Each director is expected to devote sufficient time, energy and attention to ensure diligent performance of his duties and to attend all Board, committee and stockholders meetings. Our Board held twelve meetings during 2006, of which five were regularly scheduled meetings and seven were held to address particular matters. All of the directors attended at least 75 percent of the Board and committee meetings that required their attendance. As required by the listing standards of the Nasdaq Stock Market, it is the policy of the Board of Directors that the independent members of the Board meet regularly in executive (private) sessions at which only independent directors are present. The independent directors select from among their number a single director to serve as the presiding director during their executive sessions. We believe that it is important for our directors to attend the Annual Meeting of Stockholders and expect them to do so each year, barring unforeseen circumstances. All of our directors attended the 2006 Annual Meeting of Stockholders.

Committees of the Board

The Board has three standing committees to facilitate and assist the Board in the execution of its responsibilities. The committees are currently the Audit Committee, the Nominating Committee and the Compensation Committee. In accordance with the listing standards of the Nasdaq Stock Market, all the committees are comprised solely of non-employee, independent directors. The table below shows current membership for each of the Board committees:

<u>Audit Committee</u>	<u>Nominating Committee</u>	<u>Compensation Committee</u>
Stuart B. Meisenzahl	Bernard Kozel	Charles E. Maginness*
E. Mark Rajkowski*	Charles E. Maginness	Stuart B. Meisenzahl
Robert L. Tillman	Robert L. Tillman*	Robert L. Tillman

* Committee Chairperson

4

In addition to the three standing committees mentioned above, the Board convened a special Transition Committee to oversee the process through which a new chief executive officer was selected. This committee was comprised of Charles E. Maginness, John M. Slusser and Robert L. Tillman. This special committee met a total of five times during 2006.

Audit Committee

The Audit Committee has three members and met nine times during 2006. The Audit Committee is responsible for reviewing our financial reporting procedures and attending to related matters, as discussed in the committee's charter. The written charter for the Audit Committee, which was adopted by the Board of Directors, more specifically sets forth the duties of the Audit Committee and is available in the Investors section of our website at www.pt.com. All of the members of the Audit Committee are financially literate and qualify as being independent under the listing standards of the Nasdaq Stock Market and applicable SEC rules. In addition, the Board has determined that Mr. Rajkowski qualifies as an audit committee financial expert under applicable SEC rules.

The Audit Committee's responsibilities, which are set forth in detail in its charter, include the following:

- Establish policies and procedures for, review and approve the appointment, compensation and termination of, the independent registered public accounting firm;
- Review with the independent registered public accounting firm and financial management of the Company and approve the scope of the audit;
- Pre-approve all audit and permissible non-audit fees;
- Hold meetings periodically with the independent registered public accounting firm, the Board and management to review and monitor the adequacy and effectiveness of reporting, internal controls and compliance with Company policies;
- Review consolidated financial statements and disclosures;
- Review with management and the registered independent public accounting firm and approve disclosure controls and procedures and accounting principles and practices; and
- Perform other functions or duties deemed appropriate by the Board.

Nominating Committee

The Nominating Committee has three members and met one time during 2006. The Committee is comprised solely of non-employee directors, all of whom the Board has determined are independent pursuant to the listing standards of the Nasdaq Stock Market. The Board has adopted a charter for the Nominating Committee, which is available in the Investors section of our website at www.pt.com.

The Nominating Committee's responsibilities, which are set forth in detail in its charter, include the following:

- Develop qualifications/criteria for selecting and evaluating director nominees and evaluating current directors;
- Consider and propose director nominees for election at the Annual Meeting of Stockholders;
- Select candidates to fill Board vacancies as they may occur;
- Make recommendations to the Board regarding Board committee memberships;
- Consider the independence of each director and nominee for director; and
- Perform other functions or duties deemed appropriate by the Board.

Compensation Committee

Edgar Filing: PERFORMANCE TECHNOLOGIES INC \DE\ - Form DEF 14A

The Compensation Committee has three members and met six times during 2006. The Compensation Committee is comprised solely of non-employee directors, all of whom the Board has determined are independent pursuant to the listing standards of the Nasdaq Stock Market. The Board has adopted a charter for the Compensation Committee, which is available in the Investors section of our website at www.pt.com.

5

The Compensation Committee's responsibilities, which are set forth in detail in its charter, include the following:

- Establish the base salary, incentive compensation and any other compensation for the Company's president and chief executive officer, review the chief executive officer's recommendations for the compensation of certain executive officers reporting to him, and set and approve such compensation;
- Monitor the Company's management incentive and stock-based compensation plans and discharge the duties imposed on the Committee by the terms of those plans; and
- Perform other functions or duties deemed appropriate by the Board.

Compensation decisions for the executive officers of the Company and the Company's directors are made by the Compensation Committee. The Committee has engaged outside executive compensation consultants to assist in evaluating the components of the executive compensation program. The competitive analysis developed by these firms has been helpful in constructing the compensation package for the chief executive officer and the other executive officers.

The Compensation Committee's chairman reports the Committee's recommendations on executive compensation to the Board. The Compensation Committee has authority under its charter to retain, approve fees for and terminate advisors and consultants as it deems necessary to assist in the fulfillment of its responsibilities.

Compensation Committee Interlocks and Insider Participation

The Compensation Committee is comprised entirely of independent directors.

PROPOSAL 1

ELECTION OF DIRECTORS

Our Board of Directors is divided into three classes. We currently have six directors, three in one class, two in one class and one in one class, a majority of whom are independent under the listing standards of the Nasdaq Stock Market. Terms are staggered so that only one class is elected at each Annual Meeting of Stockholders. Each director so elected serves for a three-year term and until his or her successor is elected and qualified, subject to such director's earlier death, resignation or removal.

Our Board of Directors recommends the election of the two nominees named below, each of whom is currently a director. Our Board of Directors does not contemplate that any of the nominees will be unable to serve as a director, but if that should occur prior to the voting of the proxies, the persons named in the enclosed proxy reserve the right to vote for such substitute nominee or nominees as they, in their discretion, shall determine.

Information about the Directors

The following table sets forth certain information with respect to the two directors who are nominated for re-election at the Meeting for a three-year term expiring in 2010.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Program

The Compensation Committee (the **Committee**) of the Board has responsibility for establishing, implementing and continually monitoring adherence with the Company's compensation philosophy. The Committee ensures that the total compensation paid to its

10

executive officers is fair, reasonable and competitive. Generally, the types of compensation and benefits provided to its executive officers are similar to those provided to other executive officers in peer companies.

Throughout this proxy statement, the individuals who served as the Company's chief executive officer and chief financial officer during 2006, as well as the other individuals included in the Summary Compensation Table on page 16, are referred to as the **Named Executive Officers**.

Compensation Philosophy and Objectives

Each year, the Company establishes a plan for the fiscal year that includes revenue, earnings per share and other goals to be accomplished. The Company's executive compensation program is designed to reward the achievement of these specific annual goals and to align executives

interests with those of the stockholders. The Committee evaluates both performance and compensation to ensure that the Company maintains its ability to attract and retain superior employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives in peer companies. To that end, the Committee believes executive compensation packages provided by the Company to its Named Executive Officers should include both cash and stock-based compensation that reward performance as measured against established goals.

Role of Executive Officers in Compensation Decisions

The Committee makes all decisions related to the compensation of the Named Executive Officers. The chief executive officer annually reviews the performance of each Named Executive Officer. The conclusions reached in connection with these reviews are presented to the Committee for its consideration. The Committee can exercise its discretion in modifying any recommended adjustments or awards to Named Executive Officers.

Setting Executive Compensation

Based on the foregoing objectives, the Committee has structured the Company's annual and long-term incentive awards to motivate executives to achieve the business goals set by the Company and reward the executives for achieving such goals. In furtherance of this, the Committee periodically has engaged outside executive compensation consultants to conduct a review of its total compensation program for the chief executive officer as well as for other key executives. Executive compensation consultants provide the Committee with relevant market data to consider when making compensation decisions for the chief executive officer and other executive officers.

In making compensation decisions, the Committee compares each element of total compensation against a peer group of publicly-traded, technology companies with revenues generally between \$35 million and \$100 million (collectively, the Compensation Peer Group). The Compensation Peer Group consists of companies which the Committee believes can employ similarly situated executives. The companies comprising the Compensation Peer Group are:

Brooktrout, Inc.	Glenayre Technologies, Inc.
Interphase Corporation	NMS Communications Corporation
Optical Communication Products, Inc	RadiSys Corporation
SBS Corporation	SpectraLink Corporation
Teltronics, Inc.	Ulticom Inc.
Vodavi Technology, Inc.	Zhone Technologies, Inc.

The Committee's overall compensation objective is to target the total compensation of the Company's Named Executive Officers at the midpoint of the Compensation Peer Group. Data provided by compensation consultants indicates that the current total compensation of the Named Executive Officers is below this level. The Committee expects, over time, to increase the total compensation to the midpoint of the Compensation Peer Group based on the Company's ability to afford to do so.

Presently, the Committee generally sets total compensation for Named Executive Officers in the second quartile of compensation paid to similarly situated executives. Variations to this objective may occur as dictated by the experience level of the individual and market factors.

There is no pre-established policy or target for the allocation between either cash and non-cash or short-term and long-term incentive compensation. Rather, the Committee reviews information provided by executive compensation consultants to determine the

11

appropriate level and mix of incentive compensation. Income from such incentive compensation is realized as a result of the performance of the Company or the individual, depending on the type of award, compared to established goals. In 2006, with respect to the aggregate of salary and long-term incentives for the Named Executive Officers, salary accounted for approximately 62% of this total while long-term incentives accounted for approximately 38% of this total.

2006 Executive Compensation Components

For the year ended December 31, 2006, the principal components of compensation for Named Executive Officers were as follows:

Base Salary;
Annual Short-term Incentive Award; and
Long-term Incentive Award.

Base Salary

The Company provides Named Executive Officers and other employees with base salary to compensate them for services rendered during the year. Base salary ranges for Named Executive Officers are determined for each executive based on his or her position and responsibility by using market data. The Committee's goal is to target the base salaries of the Named Executive Officers at the midpoint of the Compensation Peer Group. Data provided by compensation consultants indicates that the current salaries of the Named Executive Officers are below this level. The Committee expects, over time, to increase base salaries to the midpoint of the Compensation Peer Group based on the Company's ability to afford to do so.

During its review of base salaries for executives, the Committee primarily considers:

Market data provided by outside consultants;
Internal review of the executive's compensation, both individually and relative to other officers; and
Individual performance of the executive.

Edgar Filing: PERFORMANCE TECHNOLOGIES INC \DE\ - Form DEF 14A

Salary levels are typically considered annually as part of the Company's performance review process as well as upon a promotion or other change in job responsibility. Merit-based increases to salaries of Named Executive Officers are based on the assessment of the individual's performance.

For 2006, base salaries for the chief executive officer and other Named Executive Officers were generally set in the second quartile of the Compensation Peer Group data and became effective on April 1, 2006. Base salaries for the Named Executive Officers for the year ended December 31, 2006 are included in the third column of the Summary Compensation Table on page 16.

For 2007, the base salary of the chief executive officer was set at \$300,000 when Mr. Slusser became the permanent president and chief executive officer on January 16, 2007.

Annual Short-term Incentive Award Compensation

The Annual Short-term Incentive Award Program is an annual cash incentive program for Named Executive Officers and other key employees. This program includes various incentive levels based on the participant's accountability and impact on Company operations, with target award opportunities that are established as a percentage of base salary. These targets range from 25% to 70% of base salary for the Named Executive Officers.

For 2006, the Annual Short-term Incentive Award program was based upon achievement of the corporate financial objective relating to earnings per share. In January 2006, the Committee set minimum, target and maximum levels for the corporate financial objective relating to earnings per share. Payment of awards is based upon the achievement of such objective for that year. Named Executive Officers participating in the Annual Short-term Incentive Awards Program receive:

No payment for the corporate financial objective unless the Company achieves the minimum performance level;

12

A payment of 25% of the target award opportunity for the corporate financial objective if the Company achieves the minimum performance level;

A payment of at least 25%, but not more than 50% of the target award opportunity for the corporate financial objective if the Company achieves between the minimum to the target performance level; and

A payment of between 50% but not more than 100% of the target award opportunity for the corporate financial objective if the Company achieves between the target and the maximum performance level. A portion of the bonus amount in excess of 50% of base salary may be paid in the form of restricted stock, at the Committee's discretion.

Upon completion of the audit for the year, the Committee assesses the performance of the Company for the corporate financial objective comparing the actual results to the pre-determined minimum, target and maximum levels for the objective.

The Committee generally sets the target level for earnings per share higher than the actual results for the prior year. Minimum and maximum earnings per share objectives are set somewhat below or above the target level. In making the annual determination of the minimum, target and maximum levels, the Committee considers the specific circumstances likely to be faced by the Company during the coming year.

Generally, the Committee sets the minimum, target and maximum levels such that the relative difficulty of achieving the target level is consistent from year to year. Over the past five years, the Company achieved performance in excess of the target level on one occasion.

For 2006, the target level for earnings per share was \$.35 per share. There were no award payments made to the Named Executive Officers under this program for 2006.

Long-term Incentive Award Compensation

The Long-term Incentive Awards Program, which is generally stock option based compensation, encourages participants to focus on long-term Company performance, as any appreciation in the price of the stock will benefit all stockholders commensurately.

The Stock Option Program assists the Company to:

- Enhance the link between the creation of stockholder value and long-term executive incentive compensation;

- Provide an opportunity for increased equity ownership by executives; and

- Maintain competitive levels of total compensation.

In 2006, the Committee provided a pool of Common Stock equivalent to approximately 2% of the total number of Common Stock outstanding to be awarded as stock option grants to the Named Executive Officers and key employees. The Committee's target number of stock options awarded reflects the projected performance of the Company as well as the impact of stock option grants on the Company's earnings per share. Data provided by compensation consultants indicates that this target generally places the long-term incentive award compensation of the Named Executive Officers below the midpoint of the Compensation Peer Group.

Stock option award levels vary among participants based on their positions within the Company with consideration by the Committee of total historic grants for each of the Named Executive Officers and exercises by the participants. Stock options are granted when the assessment of the performance for the prior year has been completed.

Stock options are awarded at the closing price of the Company's Common Stock on the Nasdaq Stock Market on the date of the grant. The Company does not grant options with an exercise price that is less than the closing price of the Company's Common Stock on the grant date, nor does it grant options which are priced on a date other than the grant date.

Stock options granted to the Named Executive Officers by the Committee generally vest at a rate of 20% per year over the first five years of the ten-year option term beginning on the first anniversary of the grant date. In the event of a change in control of the Company, these stock options

become fully vested and exercisable. Vesting ceases upon termination of employment and exercise rights cease thirty days after termination of employment, except in the case of death, disability or retirement, in which case the

13

exercise right ceases in one year. Prior to the exercise of an option, the holder has no rights as a stockholder with respect to the shares subject to such option, including voting rights.

For 2006, stock options granted to the Named Executive Officers and key employees generally vest at a rate of 20% per year over the first five years of the ten-year option term. These stock options contain accelerated vesting if earnings per share equals or exceeds \$.50 per share for any fiscal year ending December 31, 2007 through December 31, 2010. The compensation cost recognized in 2006 for these stock option awards and previous awards are included in the fifth column of the Summary Compensation Table on page 16.

In January 2007, 15,000 stock options were granted to the chief executive officer when Mr. Slusser became permanent president and chief executive officer. This stock option vests in full on the one-year anniversary of the grant date and has a five-year term.

Retirement and Other Benefits

Savings Plan:

All employees in the United States are eligible to participate in the Performance Technologies Incorporated Retirement Savings Plan (Savings Plan).

The Savings Plan is a tax-qualified retirement savings plan pursuant to which all U.S. based employees, including the Named Executive Officers, are able to contribute the lesser of up to 25% of their annual salary or the limit prescribed by the Internal Revenue Service on a before-tax basis. The Company may elect to match a percentage of the employees pay that is contributed to the Savings Plan. The Savings Plan has vesting for matching contributions where employees vest 20% per year for their first five years of service with the Company. All employee contributions to the Savings Plan are fully-vested upon contribution.

For 2006, the Company matched 25% of the first 4% of pay that was contributed by an employee to the Savings Plan. Company contributions to the Savings Plan for the Named Executive Officers for the year ended December 31, 2006, are included in the sixth column of the Summary Compensation Table on page 16.

For 2007, the Company is matching 25% of the first 4% of pay that is contributed by an employee to the Savings Plan.

Flex Plan:

All employees in the United States are eligible to participate in the Company's Flex Options Plan (Flex Plan). The Flex Plan provides employees with an annual benefit allowance to choose a variety of medical benefit options including comprehensive medical insurance, dental insurance and flexible spending accounts. Any unused benefit allowance can be contributed to the Savings Plan.

Perquisites and Other Personal Benefits

The Company provides the Named Executive Officers with certain perquisites and other personal benefits that the Company and the Committee believe are consistent with its overall compensation program to better enable the Company to attract and retain employees for key positions. The Committee periodically reviews the levels of perquisites and other personal benefits provided to the Named Executive Officers.

Certain of the Named Executive Officers are provided an automobile allowance for the use of their personal automobiles. Upon relocation, Named Executive Officers may receive, at the discretion of the Compensation Committee, a relocation allowance to reimburse up to an aggregate amount in relocation and moving expenses actually incurred, as well as additional reimbursement for temporary housing and travel expenses. During 2006, Mr. Skarzynski, our former president and chief executive officer was paid temporary living expenses which totaled \$26,890.

In January 2007, the Company agreed to provide Mr. Slusser with an automobile allowance in the amount of \$500 per month and to reimburse costs related to a \$500,000 life insurance policy.

Employment Contracts

14

The Company has not entered into any employment agreements with any of the Named Executive Officers except Michael P. Skarzynski, who was employed by the Company in the capacities of president and chief executive officer from November 3, 2005, until he resigned effective October 13, 2006.

The following is a brief description of the terms and conditions of the employment agreement with Mr. Skarzynski that were material to the Company:

Mr. Skarzynski received a base salary of \$300,000 per year and was eligible to receive an annual performance bonus.

If Mr. Skarzynski remained employed by the Company as our president and chief executive officer between November 3, 2005 and December 31, 2006, his operating bonus for fiscal year 2006 would be not less than \$150,000.

Mr. Skarzynski received a non-qualified stock option to purchase 225,000 shares of our common stock. Subject to certain conditions, the option would vest and become exercisable pro rata with respect to 37,500 of the shares subject to the option on each of the first, second, third, fourth, fifth and sixth anniversaries of the granting of the option.

Vesting of Mr. Skarzynski's option would have been accelerated if the Company met certain year-end earnings per share milestones during the life of the option.

In exchange for using his best efforts to permanently relocate from New Jersey to the Rochester, New York area by July 31, 2006, Mr. Skarzynski would have received certain relocation benefits, including the reimbursement of up to an aggregate of \$150,000 in relocation and moving expenses actually incurred by him, as well as additional reimbursements for temporary housing and travel expenses.

On October 13, 2006, Mr. Skarzynski submitted his resignation as president, chief executive officer and director. After his resignation, the Company and Mr. Skarzynski entered into a short-term consulting agreement. Pursuant to the terms of the consulting agreement, between its effective date and March 31, 2007, Mr. Skarzynski was to provide, as requested by the interim president and Transition Committee, certain transition services for the purpose of facilitating the transfer of Mr. Skarzynski's former responsibilities as president and chief executive officer of the Company to the interim president and chief executive officer. In exchange for such transition services, pursuant to the terms of the consulting agreement, the Company made the following payments to Mr. Skarzynski: an initial payment of \$50,000, paid on or by November 1, 2006; an additional payment of \$40,000, paid on December 31, 2006; and a final payment of \$10,000, paid on or by March 31, 2006. The consulting agreement contained release and waiver provisions pursuant to which Mr. Skarzynski released and waived any claims that he might have against the Company, as well as other provisions generally customary for an agreement of this type, including confidentiality, indemnification, non-disparagement and non-compete provisions. Upon his resignation, the previous stock option granted to Mr. Skarzynski expired, unvested, and he was not paid any bonus.

Potential Payments upon Termination

The Named Executive Officers and certain other key executives are eligible for certain benefits in the event their employment is terminated without cause. These benefits are:

Subject to our regular payroll policies and practices, the continuation of salary, automobile, and health insurance benefits for six months after the date the executive employee's employment ends;

Accelerated vesting of all outstanding stock options that would have vested within one year from the date of termination; and

The payment of any earned but unpaid bonus for the prior year.

The Board of Directors has determined that "cause" means (i) continually and willfully failing to perform the lawful responsibilities assigned to the executive employee; (ii) engaging in conduct that is demonstrably and materially harmful to the Company, including, but not limited to, engaging in inappropriate conduct toward other personnel or customers of the Company, being under the influence of alcohol or non-prescription drugs while at work, failing to comply with the provisions of a confidentiality agreement; (iii) misappropriating the Company's property; (iv) being convicted of a felony or other crimes of moral turpitude; or (v) mishandling material, nonpublic information.

SUMMARY COMPENSATION TABLE

The table below summarizes the total compensation paid or earned by each of the Named Executive Officers for the year ended December 31, 2006. The Company has not entered into any employment agreements with any of the Named Executive Officers except Michael P. Skarzynski, who left the Company in October 2006. When setting total compensation for each of the Named Executive Officers, the Committee reviews compensation schedules which show the executive's current compensation, including equity and non-equity based compensation.

The Named Executive Officers were not eligible to receive payments under the Annual Short-term Incentive Award Program for the year ended December 31, 2006.

In 2006, combining salary and long-term incentives (the value of which was calculated using the Black Scholes option pricing model) of the Named Executive Officers, salary accounted for approximately 62% of this total while long-term incentives accounted for approximately 38% of this total. Because the table below reflects less than the full fiscal year salary for individuals who were not employed by the Company for the full fiscal year and because the value of certain equity awards included below is based on the FAS 123(R) value, the aforementioned percentages may not be able to be derived using the amounts reflected in the table below.

These included benefits paid under our health and medical benefit program, automobile allowances and expenses, 401(k) allowances and life insurance.
