Item 1.01 Entry into a Material Definitive Agreement.

Series E Preferred Stock Financing

On October 1, 2012, Intellicell Biosciences, Inc. (the “Company”) entered into a securities purchase agreement with a purchaser that qualified as an accredited investor, as defined in Regulation D promulgated under the Securities Act of 1933, as amended (the “Securities Act”), pursuant to which the Company sold the investor twenty-five (25) shares of our series E convertible preferred stock (the “Preferred Stock”) for aggregate gross proceeds of \$25,000. Each share of Preferred stock has a stated value equal to \$1,000.00 per share (the “Stated Value”). Each share of Preferred Stock is convertible, at the option of the holder, at any time into such number of shares of our Common Stock which is equal to the Stated Value divided by the Conversion Price (as defined below) in effect on the date of conversion, subject to adjustment under certain circumstances. Each share of Preferred Stock shall be entitled to one (1) vote per share. Except as required by law, the holders of the Preferred Stock and common stock shall vote together as one class. The Preferred Stock pays dividends of 8% per annum, payable quarterly in arrears, in cash or stock, on January 1, April 1 and July 1 and October 1 of each year. Each share of Preferred Stock is entitled to receive upon liquidation, in preference to the holders of our common stock and the holders of any shares of any other class of preferred stock, an amount equal to 150% of such Stated Value, plus any accrued but unpaid dividends. The Preferred Stock will be pari passu in dividends, liquidation, redemption and other rights and preferences to the Company’s Series D preferred stock and senior all other classes and series of the Company’s stock.

Each holder of Preferred Stock will have the right at any time to convert its Preferred Stock into shares of the Company’s common stock at a price that is \$0.01 above the highest price (“Initial Conversion Price”) that would trigger any anti-dilution provisions or rights available to any shareholders of the Company who were shareholders on or before the initial closing. Upon the expiration of any outstanding convertible securities issued and outstanding on or prior to the Initial Closing with anti-dilution protections (“Anti-Dilution Expiration Date”), the Initial Conversion Price of the Preferred Stock shall be reduced to a price equal to \$0.30 per share (“Initial Post Anti-Dilution Expiration Date Conversion Price”), subject to further adjustment by way of weighted average anti-dilution protections, provisions or rights, that will commence on the Anti-Dilution Expiration Date (collectively, the “Conversion Price”). Prior to the Anti-Dilution Expiration Date, holders of the Preferred Stock shall not have anti-dilution protections, provisions or rights.

The Preferred Stock (including any accrued and unpaid dividends thereon) will be automatically converted into shares of the Company’s common stock at the then applicable Conversion Price upon (i) consummation of an underwritten public offering of common stock at an offering price (prior to underwriter commissions and expenses) that is not less than one and a half times (1.5x) the Initial Conversion Price or three times (3x) the Initial Post Anti-Dilution Expiration Date Conversion Price in an offering with aggregate proceeds to the Company of not less than \$30,000,000 (a “Qualified Public Offering”) or (ii) the affirmative vote of holders of Preferred Stock holding at least 66% in interest of the Stated Value of the Preferred Stock then outstanding.

At any time after the filing of the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2012, if the Company shall receive a written request from investors holding not less than twenty-five percent (25%) of the Stated Value of the Preferred Stock then outstanding that the Company file a registration statement under the Securities Act covering the registration of the shares of common stock issuable upon conversion of the Preferred Stock (the “Registrable Securities”), then the Company shall, within ten days of the receipt of such request, give written notice of such request to all investors, and as expeditiously as commercially possible file a registration statement on Form S-1 under the Securities Act registering all of the Registrable Securities that the investors request to be registered. The Company shall not be required to effect a registration (i) after the Company has effected one demand registration requested by the investors, (ii) after the third (3rd) anniversary of the final closing or (iii) during the period starting with the date 30 days prior to the Company’s good faith estimate of the date of filing of, and ending on

the date 180 days following the effective date of the registration statement pertaining to an underwritten public offering of the Company's securities. Until the third anniversary of the final closing, the Company shall be required to file a registration statement registering all of the Registrable Securities as soon as commercially possible if the Company shall fail for any reason to satisfy the current public information requirement under Rule 144(c) promulgated under the Securities Act.

The investor has contractually agreed to restrict its ability to convert Preferred Stock such that the number of shares of the Company common stock held by the investors and their respective affiliates after such conversion does not exceed 9.99% of the Company's then issued and outstanding shares of common stock.

A FINRA registered broker-dealer was engaged as placement agent in connection with the private placement. We paid the placement agent a cash fee in the amount of \$5,000 (representing a 10% sales commission and reimbursement for legal fees incurred) and will issue the placement agent a warrant to purchase 2.5 shares of Preferred Stock with an exercise price of \$1,000 per share.

The securities sold in the private placement were not registered under the Securities Act, or the securities laws of any state, and were offered and sold in reliance on the exemption from registration afforded by Section 4(2) and Regulation D (Rule 506) under the Securities Act and corresponding provisions of state securities laws, which exempt transactions by an issuer not involving any public offering. The investor is an "accredited investor" as such term is defined in Regulation D promulgated under the Securities Act. This current report shall not constitute an offer to sell or the solicitation of an offer to buy, nor shall such securities be offered or sold in the United States absent registration or an applicable exemption from the registration requirements and certificates evidencing such shares contain a legend stating the same.
