NOTE A - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Stock Based Compensation  
-----

In December 2002, the FASB issued Statement of Financial Accounting Standards No. 148 ("SFAS No. 148"), "Accounting for Stock-Based Compensation-Transition and Disclosure-an amendment of SFAS 123." This statement amends SFAS No. 123, "Accounting for Stock-Based Compensation," to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this statement amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company has chosen to continue to account for stock-based compensation using the intrinsic value method prescribed in APB Opinion No. 25 and related interpretations. Accordingly, compensation expense for stock options is measured as the excess, if any, of the fair market value of the Company's stock at the date of the grant over the exercise price of the related option. The Company has adopted the annual disclosure provisions of SFAS No. 148 in its financial reports for the year ended December 31, 2002 and has adopted the interim disclosure provisions for its financial reports for the quarter ended March 31, 2003. The Company has no awards of stock-based employee compensation outstanding at March 31, 2003.

New Accounting Pronouncements  
-----

In January 2003, the FASB issued Interpretation No. 46, "Consolidation of Variable Interest Entities." Interpretation 46 changes the criteria by which one company includes another entity in its consolidated financial statements. Previously, the criteria were based on control through voting interest. Interpretation 46 requires a variable interest entity to be consolidated by a company if that company is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns or both. A company that consolidates a variable interest entity is called the primary beneficiary of that entity. The consolidation requirements of Interpretation 46 apply immediately to variable interest entities created after January 31, 2003. The consolidation requirements apply to older entities in the first fiscal year or interim period beginning after June 15, 2003. Certain of the disclosure requirements apply in all financial statements issued after January 31, 2003, regardless of when the variable interest entity was established. The Company does not expect the adoption to have a material impact to the Company's financial position or results of operations.

### Item 2. Management's Discussion and Analysis or Plan of Operations

#### Cautionary Statement Regarding Forward-Looking Information

-----

This Form 10-QSB contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements included herein that address activities, events or developments that the Corporation expects, believes, estimates, plans, intends, projects or anticipates will or may occur in the future, are forward-looking statements. Actual events may differ materially from those anticipated in the forward-looking statements. Important risks that may cause such a difference include: general domestic and international economic business conditions, increased competition in the Corporation's markets and products. Other factors may include, availability and terms of capital, and/or increases in operating and supply costs. Market acceptance of existing and new products, rapid technological changes, availability of qualified personnel also could be factors. Changes in the Corporation's business strategies and development plans and changes in government regulation could adversely affect the Company. Although the Corporation believes that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate. There can be no assurance that the forward-looking statements included in this filing will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Corporation that the objectives and expectations of the Corporation would be achieved

The following is a discussion of the financial condition and results of operations of the Company as of the date of this Quarterly Report. This discussion and analysis should be read in conjunction with the audited Consolidated Financial Statements of the Company including the Notes thereto in the Form 10-KSB.

#### Results of Operations

-----

##### Revenue

Our revenue is primarily attributable to liquid petroleum gas sales at our Zunyi facility located in South China. In 2003 we concentrated primarily on the retail side of the business because the wholesale business was negatively affected by sharp price fluctuations.

##### Costs of revenue

Our cost of revenue was higher than expected due to the sharp decline in sales activities and our decision not to participate in the wholesale business.

##### Selling and administrative expenses

Selling and administrative expenses decreased \$302,311 to \$147,716 as a result of Improved cost saving measures and decreased volume of operations.

8

#### Currency Consideration

-----

Our LPG operations are conducted in the People's Republic of China, whose

## Edgar Filing: LARGO VISTA GROUP LTD - Form 10QSB

currency, the Renminbi (RMB), is pegged to the US Dollar. The exchange rate as of March 31, 2003 and the average rate during the periods presented in the accompanying financial statements was 8.28 RMBs to one US Dollar. No representation is made that any RMB amount could have been, or could be, converted into US dollars at these rates or any other rates of exchange.

### Liquidity and Capital Resources

-----

As of March 31, 2003, we had a working capital deficit of approximately \$745,000. Despite our operating loss for the quarter, we generated cash flow of approximately \$64,000 from operating activities. We also obtained additional advances and contributions from related parties of \$70,000.

We have experienced significant operating losses from inception and have financed our activities to date through cash advances from affiliates and sales of our common stock. Availability, source, amount and terms of any additional financing are uncertain at this time, and by no means assured.

The Company believes it will require at least an additional \$1,000,000 of new capital in order to fund its plan of operations over the next 12 months. Affiliates of the Company have advised the Company that they will not demand payment of the amounts owed them for at least 12 months. The Company expects to fund its working capital requirements over the next 12 months from additional advances from its affiliates and the sale of its common stock.

The Company is seeking financing in the form of equity in order to provide the necessary working capital. The Company currently has no commitments for financing. There are no assurances the Company will be successful in raising the funds required.

The Company believes that its existing capital resources will be sufficient to fund its current level of operating activities, capital expenditures, debt and other obligations through the next 12 months. However, if during that period or thereafter, the Company is not successful in generating sufficient liquidity from operations or in raising sufficient capital resources, on terms acceptable to the Company, this could have a material adverse effect on the Company's business, results of operations liquidity and financial condition.

The Company's independent certified public accountants have stated in their report included in the Company's December 31, 2002 Form 10-KSB, that the Company has incurred operating losses and that the Company is dependent upon management's ability to develop profitable operations. These factors among others may raise substantial doubt about the Company's ability to continue as a going concern.

9

### Item 3. Controls and Procedures

Within the 90 days prior to the date of this report, Largo Vista Group, Ltd carried out an evaluation, under the supervision and with the participation of Largo Vista's management, including Largo Vista's Interim Chief Executive Officer and Principal Accounting Officer, of the effectiveness of the design and operation of Largo Vista's disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, the Interim Chief Executive Officer and Principal Accounting Officer concluded that Largo Vista's disclosure controls and procedures are effective in timely alerting them to material information relating to Largo Vista required to be included in Largo Vista's periodic Securities and Exchange Commission filings. There have been no significant changes in Largo Vista's internal controls or in other factors that
