Corporate Information

Genius Brands International, Inc. (“we”, “us”, “our”, “GBI”, “Genius Brands” or the “Company”), creates, produces and distributes original “content with a purpose” for kids, meaning multi-media, multi-format content for kids that we believe is as entertaining as it is enriching. In most cases, the Company wholly owns the original content it produces, and works with a variety of partners who are experts in their respective categories, to develop and distribute it in multiple formats around the world. The Company owns and is developing a portfolio of original children’s entertainment to appeal to toddlers to teens.

The Company commenced operations in January 2006, assuming all of the rights and obligations of its then Chief Executive Officer, Klaus Moeller, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which we obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Little Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. On October 17, 2011 and October 18, 2011, Genius Brands International, Inc., filed Articles of Merger with the Secretary of State of the State of Nevada and with the Secretary of State of the State of California, respectively. As previously described on the Company’s Schedule 14C Information Statement, filed with the Securities and Exchange Commission on September 21, 2011, by filing the Articles of Merger, the Company (i) changed its domicile to Nevada from California, and (ii) changed its name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, on October 12, 2011, the Company filed an Issuer Company-Related Action Notification Form with the Financial Industry Regulatory Authority (“FINRA”) and on November 29, 2011 our trading symbol changed from “PENT” to “GNUS”.

On November 15, 2013, we entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC, our newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger

Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared. A Squared created, produced and distributed original “content with a purpose” for kids 6-11, whereas Genius Brands previously focused on toddlers. Today the merged company is focused on providing “content with a purpose” for toddlers to tweens, in all media formats, relevant consumer products categories, in territories around the world.

On April 2, 2014, we filed a certificate of amendment to our Articles of Incorporation to affect a reverse split of our issued and outstanding common stock on a one-for-one-hundred basis. The reverse stock split was effective with FINRA (Financial Industry Regulatory Authority) on April 7, 2014. All common stock share and per share information in this Prospectus, including the accompanying consolidated financial statements and notes thereto, has been adjusted to reflect retrospective application of the reverse split, unless otherwise indicated.

Our executive offices are located at 9401 Wilshire Boulevard #608, Beverly Hills, CA 90212, and our telephone number is 310-273-4222.

About This Offering

This prospectus includes 3,125,000 shares of Common Stock offered by the Selling Stockholders, consisting entirely of shares of Common Stock issuable upon conversion of outstanding shares of Series A Convertible Preferred Stock acquired by the Selling Stockholders pursuant to the following transactions:

Private Placement

On May 14, 2014, we entered into securities purchase agreements with certain accredited investors pursuant to which the Company sold an aggregate of 6,000 shares of its newly designated Series A Convertible Preferred Stock (the “Series A Preferred Stock”) at a price of \$1,000 per share (the “Private Placement”) for gross proceeds to the Company of \$6,000,000. The closing of the Private Placement was subject to certain customary closing conditions and closed on May 15, 2014.

Each share of Series A Preferred Stock is convertible into shares of the Company’s common stock, par value \$0.001 per share based on a conversion calculation equal to the Base Amount divided by the conversion price. The Base Amount is defined as the sum of (i) the aggregate stated value of the Series A Preferred Stock to be converted and (ii) all unpaid dividends thereon. The stated value of each share of the Series A Preferred Stock is \$1,000 and the initial conversion price is \$2.00 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. Additionally, in the event the Company issues shares of its common stock or common stock equivalents at a per share price that is lower than the conversion price then in effect, the conversion price shall be adjusted to such lower price, subject to certain exceptions. The Company is prohibited from effecting a conversion of the Series A Preferred Stock to the extent that as a result of such conversion, the investor would beneficially own more than 9.99% in the aggregate of the issued and outstanding shares of the Company’s common stock, calculated immediately after giving effect to the issuance of shares of common stock upon conversion of the Series A Preferred Stock. The shares of Series A Preferred Stock possess no voting rights.

Pursuant to the terms of governing the purchase agreement, beginning on the closing date of the Private Placement and ending on the sixty (60) trading day anniversary of the Applicable Date (defined as the earlier of such date that the resale of the shares of Common Stock underlying the Series A Preferred Stock is covered by one or more effective registration statements and (y) the first date all of such shares may be resold under Rule 144), the Company shall not issue any securities, subject to certain exceptions.

The Company has agreed to file a “resale” registration statement with the Securities and Exchange Commission (the “SEC”) covering 125% of all shares of common stock underlying the Series A Preferred Stock within 30 days of the final closing of the Private Placement (the “Filing Date”) and to maintain the effectiveness of the registration statement

until all securities have been sold or are otherwise able to be sold pursuant to Rule 144 pursuant to a registration rights agreement entered into with the Investors (the “Registration Rights Agreement”). The Company has agreed to use its reasonable best efforts to have the registration statement declared effective within 90 days of the closing of the Private Placement (or 120 days after such closing if the registration statement is subject to review by the SEC (the “Effectiveness Date”). The Company is obligated to pay to investors liquidated damages equal to 1.5% per month in cash for every thirty day period up to a maximum of six (6%) percent, (i) that the registration statement has not been filed after the Filing Date, (ii) following the Effectiveness Date that the registration statement has not been declared effective; and (iii) as otherwise set forth in the Registration Rights Agreement.

In connection with the Private Placement, investors holding a majority of the securities sold in the Company’s November 2013 and January 2014 private placement waived the Company’s registration rights obligations and any accrued liquidated damages associated therewith.

Estimated use of proceeds

This prospectus relates to shares of our Common Stock that may be offered and sold from time to time by the selling stockholders. We will not receive any of the proceeds resulting from the sale of Common Stock by the selling stockholders.

Financial Results

We reported a net loss of approximately (\$7,216,031) for the year ended December 31, 2013 as compared to a net loss of approximately (\$2,067,609) for the year ended December 31, 2012. We expect to incur significant losses into the foreseeable future and our monthly “burn rate”, or expected cash outflow, for fixed general and administrative costs (including all employee salaries, public company expenses and consultants), marketing and sales costs, and interest costs is approximately \$350,000. Our monthly burn rate for all those costs, plus the repayment of certain related party advances, during each month of the first quarter 2014 was approximately \$325,000. If we are unable to raise external funding, and eventually generate significant revenues from sales of our products, we will not be able to earn profits or continue operations. It is uncertain that we will generate any operating revenues or ever achieve profitable operations. If we are unsuccessful in addressing these risks, our ability to continue as a going concern will be in substantial doubt.

As used in this prospectus, unless otherwise specified, references to the “Company,” “Genius Brands,” “we,” “our” and “us” refer to Genius Brands International, Inc. and, unless otherwise specified, its direct and indirect subsidiaries.

RISK FACTORS

Investing in our Common Stock involves a high degree of risk. Before investing in our Common Stock you should carefully consider the following risks, together with the financial and other information contained in this prospectus. If any of the following risks actually occurs, our business, prospects, financial condition and results of operations could be adversely affected. In that case, the trading price of our Common Stock would likely decline and you may lose all or a part of your investment.

RISKS RELATING TO OUR BUSINESS

We have incurred net losses since inception.

The Company has recently adopted significant changes to its business model and experienced a broad change in its management and operations. Under prior management and in connection with its prior business model and activities, the Company had a history of operating losses and incurred significant net losses in each fiscal quarter since its inception. For the years ended December 31, 2013 and 2012, the Company had net revenues of \$2,556,538 and \$6,570,199 and incurred net losses of \$7,216,031 and \$2,067,609, respectively. For the three months ended March 31, 2014 and 2013, the Company had net revenues of \$176,283 and \$734,239 and incurred net losses of \$854,162 and \$945,865, respectively. These losses, among other things, have had an adverse effect on our results of operations, financial condition, stockholders' equity, net current assets and working capital.

We will need to generate significant additional revenue to achieve profitability. The Company has already achieved significant cost savings. Our ability to generate and sustain significant additional revenues or achieve profitability will depend upon numerous factors some of which are outside of our control, including sales of our products.

Business interruptions could adversely affect our operations.

Our operations are vulnerable to outages and interruptions due to fire, floods, power loss, telecommunications failures and similar events beyond our control, particularly in locations where our manufacturers and vendors are located. An increase in prices due to any of these occurrences would increase our operating costs, which could in turn adversely affect our profitability. We carry business interruption insurance for potential losses (excluding earthquake-related losses), but there can be no assurance that such insurance would be sufficient to compensate us for losses that may occur or that such insurance may continue to be available on affordable terms if available at all. Any losses or damages incurred by us could have a material adverse effect on our business and results of operations.

Our business depends in large part on the success of our vendors and outsourcers, and our brands and reputation may be harmed by the actions of third-parties that are outside our control.

We have long and established partnerships with partners around the world, ranging from broadcasters, licensees, retailers, agencies, etc. While we cannot fully control the actions of our partners, we are careful to be in business with partners who we believe to be trustworthy, reliable and accountable.

In connection with our direct to retail business, we rely significantly on vendor and outsourcing relationships with third parties for manufacturing and other services. Any shortcoming of a vendor or outsourcer, particularly an issue affecting the quality of the end product, may be attributed by customers to us, thus damaging our reputation, brand value and potentially affecting our results of operations. Problems with transitioning these services and systems or operating failures with these vendors and outsourcers could also delay product sales, reduce efficiency of operations, and significant capital investments could be required to remediate the problem. However, this risk is diminished with respect to properties that we license to third parties for exploitation pursuant to which we generally receive an advance against future royalties and/or a minimum guarantee which we believe shifts the foregoing risks to the licensee. Any material failure, inadequacy or interruption resulting from such vendors or outsourcings could harm our ability to effectively operate our business.

Significant increases in the price of commodities, transportation or labor, if not offset by declines in other input costs, or a reduction or interruption in the delivery of raw materials, components and finished products from our vendors could negatively impact our financial results.

Cost increases, whether resulting from rising costs of materials, compliance with existing or future regulatory requirements, transportation, services and labor could impact the profit margins realized by us on the sale of our products. Because of market conditions, timing of pricing decisions, and other factors, there can be no assurance that we will be able to offset any of these increased costs by adjusting the prices of our products. Increases in prices of our products could result in lower sales. Our ability to meet customer demand depends, in part, on our ability to obtain timely and adequate delivery of products from our suppliers and internal manufacturing capacity. Although we work closely with our vendors to avoid these types of shortages, there can be no assurance that we will not encounter these problems in the future. A reduction or interruption in the delivery of finished products, whether resulting from more stringent regulatory requirements, suppliers, disruptions in transportation, port delays, labor strikes, lockouts, or otherwise, or a significant increase in the price of one or more supplies, such as fuel or resin (which is an oil-based product), could negatively impact our financial results.

Because we expect to need additional capital to fund our growing operations, we may not be able to obtain sufficient capital and may be forced to limit the scope of our operations.

We expect that as our business continues to grow we will need additional working capital. If adequate additional debt and/or equity financing is not available on reasonable terms or at all, we may not be able to continue to expand our business, and we will have to modify our business plans accordingly. These factors would have a material and adverse effect on our future operating results and our financial condition.

If we reach a point where we are unable to raise needed additional funds to continue as a going concern, we will be forced to cease our activities and dissolve the Company. In such an event, we will need to satisfy various creditors and other claimants, severance, lease termination and other dissolution-related obligations.

Our ability to raise financing through sales of equity securities depends on general market conditions and the demand for our common stock. We may be unable to raise adequate capital through sales of equity securities, and if our stock has a low market price at the time of such sales, our existing stockholders could experience substantial dilution. If adequate financing is not available or unavailable on acceptable terms, we may find we are unable to fund expansion, continue offering products and services, take advantage of acquisition opportunities, develop or enhance services or products, or to respond to competitive pressures in the industry which may jeopardize our ability to continue operations.

Changes in the United States, global or regional economic conditions could adversely affect the profitability of our business.

A decrease in economic activity in the United States or in other regions of the world in which we do business could adversely affect demand for our products, thus reducing our revenue and earnings. A decline in economic conditions could reduce demand for and sales of products. In addition, an increase in price levels generally, or in price levels in a particular sector such as the energy sector, could result in a shift in consumer demand away from the entertainment and consumer products we offer, which could also adversely affect our revenues and, at the same time, increase our costs.

Production cost amortization for our CD and DVD products are calculated on a straight-line basis. Unamortized production costs are evaluated for impairment each reporting period on an aggregate basis. If estimated remaining revenue is not sufficient to recover the unamortized production costs, the unamortized production costs will be written down to fair value. In any given quarter, if we lower our previous forecast with respect to total anticipated revenue from a category of products, we would be required to accelerate amortization of related production costs. Such accelerated amortization would adversely impact our business, operating results and financial condition.

If we fail to honor our obligations under the terms of our third party licensing and supply agreements, our business may be adversely affected.

We try to maintain a reasonable DVD and CD inventory, however if we overestimate the demand for a particular title, we may warehouse significant quantities of that title. The Company has in the past distributed third party DVD properties for which it incurred production and warehousing costs. The Company has terminated those third party arrangements and is concentrating on inventory of its own DVD and CD titles for which it can more closely control its costs. In February 2014, the Company entered into an exclusive 3-year arrangement with Sony DADC US Inc. which gives Sony the right to fulfill the Company's DVD and CD duplication requirements. In consideration for these exclusive rights the Company received a marketing support payment of \$750,000 with an additional \$750,000 to be paid within 12 months. Sony will recoup the marketing support payment through a premium on the physical media unit costs. The Company is obligated to repay a pro-rata portion of the marketing support payment if the Company does not order a minimum number of DVD/CD units during the term. The Company believes the minimum order threshold is achievable over the term based on its productions as well as given that the minimum number will include duplication orders placed with Sony under the arrangement made by the Company's licensees as described below. Although we may sell such inventory at a deeply discounted price toward the end of the distribution term in order to recoup our manufacturing, storage and other costs, there is no guarantee that a market will exist for a given title, even at the deeply discounted price. Additionally, our royalty and/or distribution fee agreements sometimes contain terms, such as minimum royalties per unit and music publishing fees, which effectively prevent us from steeply discounting the price on some titles.

Conversely, if we or our distributors fail to stock sufficient inventory for any particular product or product line, we may be unable to meet customer demand in a timely manner, which may result in loss of accounts, requests for discounts or refusal by the customer to pay.

For the Company's non-direct-to-retail business, the Company seeks to license the DVD and CD rights to third parties for which it will receive a royalty per unit without the obligation to manufacture the units itself. The Company will seek to increase this model of physical goods distribution while seeking to have such third parties licensees fulfill their duplication needs through the Company's arrangement with Sony described above although there is no assurance that it will be successful in doing so.

If we are not able to adequately protect our proprietary intellectual property and information, our results of operations could be adversely affected.

The value of our business depends on our ability to protect our intellectual property and information, including our trademarks, trade names, copyrights, patents and trade secrets, in the United States and around the world, as well as our customer, employee, and consumer data. If we fail to protect our proprietary intellectual property and information, including any successful challenge to our ownership of intellectual property or material infringements of intellectual

property, it could have a significant adverse effect on our business, financial condition, and results of operations.

Loss of key personnel may adversely affect our business.

Our success greatly depends on the performance of our executive management team, including Andrew Heyward, our Chief Executive Officer and Amy Moynihan Heyward, our President. The loss of the services of any member of our core executive management team or other key persons could have a material adverse effect on our business, results of operations and financial condition.

Our management team currently owns an aggregate controlling interest in our voting stock and investors will not have any voice in our management.

Our management team and Board of Directors own or control a combined 3,013,962, or 47.2%, of the 6,383,269 shares currently outstanding. It should be assumed that our management team and Board of Directors will maintain a controlling interest in the Company and, as a result, will have the ability to control substantially all matters submitted to our stockholders for approval, including:

- election of our board of directors;
- removal of any of our directors;
- amendment of our articles of incorporation or bylaws; and
- adoption of measures that could delay or prevent a change in control or impede a merger, takeover or other business combination involving us.

The approval of our directors and executive officers will be required to affect all matters requiring stockholder approval, including the election of directors and approval of significant corporate transactions. In addition, sales of significant amounts of shares held by our directors and executive officers, or the prospect of these sales, could adversely affect the market price of our common stock. Management's stock ownership may discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us, which in turn could reduce our stock price or prevent our stockholders from realizing a premium over our stock price.

We cannot assure you that the interests of our management team will coincide with the interests of the investors. Our articles of incorporation do not provide for the allocation of corporate opportunities between us, on the one hand, and certain of our founding stockholders, on the other hand, which could prevent us from taking advantage of certain corporate opportunities. So long as our management team collectively controls a significant portion of our common stock, these individuals, or entities controlled by them, will continue to collectively be able to strongly influence or effectively control our decisions.

Litigation may harm our business or otherwise distract management.

Substantial, complex or extended litigation could cause us to incur large expenditures and could distract management. For example, lawsuits by licensors, consumers, employees or stockholders could be very costly and disrupt business. While disputes from time to time are not uncommon, we may not be able to resolve such disputes on terms favorable to us.

Our revenues and results of operations may fluctuate significantly.

Cash flow and projections for any entertainment company producing original content can be expected to fluctuate until consumer products are in the market. Unanticipated delays in entertainment production can push back an entire program. Structured retail windows that dictate when new products can be introduced at retail are also out of the Company's control. And the unknown as to the popularity and appeal of a new entertainment product also directly impacts cash flow.

Our revenues and results of operations depend significantly upon the appeal of our content to end customers, which cannot be predicted with certainty, the timing of releases of our products and the commercial success of our products, none of which can be predicted with certainty. Accordingly, our revenues and results of operations may fluctuate significantly from period to period. The results of one period may not be indicative of the results of any future period. Our revenues and results are also significantly influenced by seasonality and in particular the fourth quarter gift-giving season where demand for our products peaks. Any quarterly fluctuations that we report in the future may not match the expectations of market analysts and investors. This could cause the price of our common stock to fluctuate significantly.

If we fail to adequately manage our growth, we may not be successful in growing our business and becoming profitable.

Our focus is on maximizing the revenue potential of our existing brand portfolio while strategically working to round-out the portfolio with complementary brands and build our business infrastructure to ensure our brands success in the marketplace.

We expect our business to grow over the next two years. We expect that our growth will place significant stress on our operation, management, employee base and ability to meet capital requirements sufficient to support our growth over that period. Any failure to address the needs of our growing business successfully could have a negative impact on our chance of success.

Failure to successfully market or advertise our products could have an adverse effect on our business, financial condition and results of operations.

Our products are marketed worldwide through a diverse spectrum of advertising and promotional programs. Our ability to sell products is dependent in part upon the success of these programs. If we or our distributors do not successfully market our products or if media or other advertising or promotional costs increase, these factors could have an adverse effect on our business, financial condition, and results of operations.

We may experience indirect increases in the cost of our products as a result of new laws and governmental regulations passed in response to changing climate conditions.

Although we are not directly responsible for compliance with such laws in the manufacturing of our products, and rely on our manufacturers and vendors to ensure that they are in compliance with federal, state and local environmental laws and regulations, as well as similar laws in other jurisdictions where they do business, the cost of compliance with new or existing laws and regulations may increase and our vendors may pass those costs on to the Company. If that happens, it will have the effect of decreasing our profit margins and we may be forced to either raise our prices or, in response to competitive pressure, experience a decrease in profits which would have a material adverse effect on our business, financial condition and results of operations.

We are subject to various laws and government regulations, violation of which could subject the Company to sanctions. In addition, changes in such laws or regulations may lead to increased costs, changes in our effective tax rate, or the interruption of normal business operations that would negatively impact our financial condition

and results of operations.

We operate in a highly regulated environment in the US and international markets. Federal, state and local governmental entities and foreign governments regulate many aspects of our business, including our products and the importation and exportation of those products. These regulations may include accounting standards, taxation requirements (including changes in applicable income tax rates, new tax laws and revised tax law interpretations), product safety and other safety standards, trade restrictions, regulations regarding financial matters, environmental regulations, advertising directed toward children, product content, and other administrative and regulatory restrictions. While we take all the steps we believe are necessary to comply with these laws and regulations, there can be no assurance that we will be in compliance in the future. Failure to comply could result in monetary liabilities and other sanctions which could have a negative impact on our business, financial condition and results of operations. In addition, changes in laws or regulations may lead to increased costs (including costs of compliance passed on to us by manufacturers), changes in our effective tax rate, or the interruption of normal business operations that would negatively impact our financial condition and results of operations.

Inaccurately anticipating changes and trends in popular culture, media and movies, fashion, or technology can negatively affect our sales.

Successful movies and characters in children's literature affect play preferences. Trends in media, movies, and children's characters change swiftly and contribute to the transience and uncertainty of play preferences. Almost all of our products and product lines are based on the Baby Genius brand and related brands. We respond to trends and developments by modifying, refreshing, extending, and expanding our product offerings on an annual basis. However, we operate in extremely competitive industries where demand for children's attention is dynamic. If the interest of children trend away from our current brand or products toward other offerings based on current media, movies and characters, and if we fail to accurately anticipate trends in popular culture, movies, media, fashion, or technology, our products may not be accepted by children, parents, or families and our revenues, profitability, and results of operations may be adversely affected.

We rely on a limited number of suppliers.

There are many factors beyond our control which may impact the sale of our products and orders for production of our programming, including but not limited to economic downturns such as the current recession. If we are forced to change the music or content on existing products, which may be costly and time consuming and which may have the result of making our then current inventory undesirable.

We may not be able to keep pace with technological advances.

The entertainment industry in general and the music and motion picture industries in particular, are continuing to undergo significant changes, primarily due to technological developments. Because of the rapid growth of technology, shifting consumer tastes and the popularity and availability of other forms of entertainment, it is impossible to predict the overall effect these factors could have on potential revenue from, and profitability of, distributing entertainment programming. It is also impossible to predict the overall effect these factors could have on our ability to compete effectively in a changing market.

Others' failure to promote our products may adversely affect our business.

The availability of retailer programs relating to product placement, co-op advertising and market development funds, and our ability and willingness to pay for such programs, are important with respect to promoting our exclusive titles. In addition, although we may have agreements for the advertising and promotion of our products through distributors,

we will not be in direct control of those marketing efforts. Such efforts may not be done in a manner that will maximize sales of our products and the cost of increasing marketing efforts through our retail customers and distributors may be cost-prohibitive.

We face intense competition from a large variety of retailers that sell similar merchandise and have better resources than we do.

The industries in which we operate are highly and increasingly competitive and our results of operations are sensitive to, and may be adversely affected by, competitive pricing, promotional pressures, additional competitor offerings and other factors, many of which are beyond our control. We compete for retailers as well as other outlets for the sale and promotion of our merchandise. Our primary competition comes from competitors, such as The Walt Disney Company and Fisher Price, which have greater financial resources and more developed marketing channels than we do. If we fail to compete successfully, we could face lower sales and may decide or be compelled to offer greater discounts to our customers, which could result in decreased profitability or a failure to attain profitability.

We may not possess satisfactory rights in certain of our properties.

We do not require chain of title information to some of our exclusively licensed content and the risk exists that some content may have a defective chain of title, although we have no reason to believe otherwise and these have never been contested. The validity and ownership of rights to some titles can be uncertain and may be contested by third parties, which may result in litigation which could result in substantial costs and the diversion of resources, and could have a material adverse effect on our business, results of operations and financial condition. The Company believes, however, that in the event of such occurrence, it can replace those defective materials with content that is wholly owned by the Company. The Company is already in the process of re-designing certain of the Company's titles to eliminate these risks and to replace the elements owned by third parties with content wholly owned by the Company which can also generate revenue for the Company. Notwithstanding the foregoing, the majority of the Company's intellectual property is wholly owned by the Company.

Protecting and defending against intellectual property claims may have a material adverse effect on our business.

Our ability to compete in the home entertainment industry depends, in part, upon successful protection of our proprietary and intellectual property. We protect our property rights to our productions through available copyright and trademark laws and licensing and distribution arrangements with reputable companies in specific territories and media for limited durations. Despite these precautions, existing copyright and trademark laws afford only limited practical protection in some jurisdictions. In some jurisdictions of our distribution, there are no copyright and/or trademark protections available. In addition, although we own most of the music included in our products, and license other content through licensors such as HFA, NAXOS, and the San Diego Zoological Society, there are numerous titles which are available in the public domain and for which it is difficult or even impossible to determine whether anyone has obtained ownership or royalty rights. It is an inherent risk in our industry that people may make such claims with respect to any title already included in our products, whether or not such claims can be substantiated. With respect to the music and other licensed content from third parties the Company is already in the process of re-designing certain of the Company's titles to eliminate these risks and to replace the elements owned by third parties with content wholly owned by the Company which can also generate revenue for the Company. Notwithstanding the foregoing, the majority of the Company's intellectual property is wholly owned by the Company.

It may be possible for unauthorized third parties to copy and distribute our productions or portions of our productions. In addition, litigation may be necessary in the future to enforce our intellectual property rights, to protect our trade secrets, to determine the validity and scope of the proprietary rights of others or to defend against claims of infringement or invalidity. Any such litigation could result in substantial costs and the resulting diversion of resources could have an adverse effect on our business, operating results or financial condition. From time to time, we may also receive claims of infringement of other parties' proprietary rights. Regardless of the validity or the success of the claims, we could incur significant costs and diversion of resources in defending against such claims, which could have an adverse effect on our business, financial condition or results of operations.

The adoption or modification of laws or regulations relating to the internet could adversely affect the manner in which the Company conducts its business.

The growth and development of the market for online commerce may lead to more stringent consumer protection laws, both in the United States and abroad, that may impose additional burdens on the Company. Laws and regulations directly applicable to communications or commerce over the internet are becoming more prevalent. The United States Congress has enacted internet laws regarding children's privacy, copyrights, taxation, and the transmission of sexually explicit material. The European Union recently enacted its own privacy regulations. The law of the internet, however, remains largely unsettled, even in areas in which there has been some legislative action. It may take years to determine whether and how existing laws such as those governing intellectual property, privacy, libel, and taxation apply to the internet. In order to comply with new or existing laws regulating online commerce, the Company (i) may need to spend time and money revising its websites, (ii) may need to hire additional personnel to monitor compliance with applicable laws or (iii) may need to modify its software to protect customers' personal information.

In addition to the foregoing, as a publisher of online content, the Company faces potential liability for defamation, negligence, copyright, patent or trademark infringement or other claims based on the nature and content of materials published or distributed, as do other publishers of such content. If the Company faces such liability, then its reputation and business may suffer. In the past, plaintiffs have brought these types of claims and sometimes successfully litigated them against online services. Although the Company carries general liability insurance, such insurance does not cover claims of these types. There can be no assurance that the Company will be able to obtain insurance to protect against such liability in the future or that same will be adequate to indemnify the Company for all liability that may be imposed thereon.

RISKS RELATING TO OUR COMMON STOCK

Our common stock may be affected by limited trading volume and price fluctuations which could adversely impact the value of our common stock.

Trading in our common stock can fluctuate significantly and there can be no assurance that an active trading market will either develop or be maintained. Our common stock is expected to continue to experience significant price and volume fluctuations. This trading activity could adversely affect the market price of our common stock without regard to our operating performance. In addition, we believe that factors such as quarterly fluctuations in our financial results and changes in the overall economy or the condition of the financial markets could cause the price of our common stock to fluctuate substantially. These fluctuations may also cause short sellers to periodically enter the market in the belief that our stock price will decline in the future. We cannot predict the actions of market participants or the stock market as a whole. We can offer no assurances that the market for our common stock will be stable or that our stock price will fluctuate in a manner that is consistent with our operating results.

If our common stock remains subject to the SEC's penny stock rules, broker-dealers may experience difficulty in completing customer transactions and trading activity in our securities may be adversely affected.

Unless our common stock is listed on a national securities exchange, including the Nasdaq Capital Market or we have stockholders' equity of \$5,000,000 or more and our common stock has a market price per share of more than \$4.00, transactions in our common stock will be subject to the SEC's "penny stock" rules. If our common stock remains subject to the "penny stock" rules promulgated under the Securities Exchange Act of 1934, broker-dealers may find it difficult to effectuate customer transactions and trading activity in our securities may be adversely affected.

In accordance with these rules, broker-dealers participating in transactions in low-priced securities must first deliver a risk disclosure document that describes the risks associated with such stocks, the broker-dealer's duties in selling the stock, the customer's rights and remedies and certain market and other information. Furthermore, the broker-dealer must make a suitability determination approving the customer for low-priced stock transactions based on the customer's financial situation, investment experience and objectives. Broker-dealers must also disclose these restrictions in writing to the customer, obtain specific written consent from the customer, and provide monthly account statements to the customer. The effect of these restrictions will probably decrease the willingness of broker-dealers to make a market in our common stock, decrease liquidity of our common stock and increase transaction costs for sales and purchases of our common stock as compared to other securities. Our management is aware of the abuses that have occurred historically in the penny stock market.

As a result, if our common stock continues to be subject to the penny stock rules, the market price of our securities may be depressed, and you may find it more difficult to sell our securities.

If we fail to maintain effective internal controls over financial reporting, the price of our common stock may be adversely affected.

Our internal control over financial reporting may have weaknesses and conditions that could require correction or remediation, the disclosure of which may have an adverse impact on the price of our common stock. We are required to establish and maintain appropriate internal controls over financial reporting. Failure to establish those controls, or any failure of those controls once established, could adversely affect our public disclosures regarding our business, prospects, financial condition or results of operations.

Rules adopted by the SEC pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 require an annual assessment of internal controls over financial reporting, and for certain issuers an attestation of this assessment by the issuer's independent registered public accounting firm. The standards that must be met for management to assess the internal controls over financial reporting as effective are evolving and complex, and require significant documentation, testing,

and possible remediation to meet the detailed standards. We expect to incur significant expenses and to devote resources to Section 404 compliance on an ongoing basis. It is difficult for us to predict how long it will take or costly it will be to complete the assessment of the effectiveness of our internal control over financial reporting for each year and to remediate any deficiencies in our internal control over financial reporting. As a result, we may not be able to complete the assessment and remediation process on a timely basis. In addition, management's assessment of internal controls over financial reporting may identify weaknesses and conditions that need to be addressed in our internal controls over financial reporting or other matters that may raise concerns for investors. Any actual or perceived weaknesses and conditions that need to be addressed in our internal control over financial reporting or disclosure of management's assessment of our internal controls over financial reporting may have an adverse impact on the price of our common stock.

We are authorized to issue "blank check" preferred stock without stockholder approval, which could adversely impact the rights of holders of our common stock.

Our Articles of Incorporation authorize our Company to issue up to 10,000,000 shares of blank check preferred stock. Currently 6,000 shares of our preferred stock have been designated Series A Convertible Preferred stock, of which 6,000 are issued and outstanding; however, we can issue additional shares of our preferred stock in one or more series and can set the terms of the preferred stock without seeking any further approval from our common stockholders. Any preferred stock that we issue may rank ahead of our common stock in terms of dividend priority or liquidation premiums and may have greater voting rights than our common stock. In addition, such preferred stock may contain provisions allowing those shares to be converted into shares of common stock, which could dilute the value of common stock to current stockholders and could adversely affect the market price, if any, of our common stock. In addition, the preferred stock could be utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of the Company. Although we have no present intention to issue any shares of authorized preferred stock, there can be no assurance that we will not do so in the future.

Shares eligible for future sale may adversely affect the market.

From time to time, certain of our stockholders may be eligible to sell all or some of their shares of common stock by means of ordinary brokerage transactions in the open market pursuant to Rule 144 promulgated under the Securities Act, subject to certain limitations. In general, pursuant to amended Rule 144, non-affiliate stockholders may sell freely after six months subject only to the current public information requirement. Affiliates may sell after six months subject to the Rule 144 volume, manner of sale (for equity securities), current public information and notice requirements. Of the approximately 6,047,707 shares of our common stock outstanding as of March 31, 2014, approximately 1,389,682 shares are freely tradable without restriction. Any substantial sales of our common stock pursuant to Rule 144 may have a material adverse effect on the market price of our common stock.

We do not expect to pay dividends in the future and any return on investment may be limited to the value of our common stock.

We do not currently anticipate paying cash dividends in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition and other business and economic factors affecting it at such time as the board of directors may consider relevant. Our current intention is to apply net earnings, if any, in the foreseeable future to increasing our capital base and development and marketing efforts. There can be no assurance that we will ever have sufficient earnings to declare and pay dividends to the holders of our common stock, and in any event, a decision to declare and pay dividends is at the sole discretion of the our Board of Directors. If we do not pay dividends, our common stock may be less valuable because a return on your investment will only occur if its stock price appreciates.

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The following discussion and analysis should be read together with our financial statements and the related notes appearing elsewhere in this prospectus. This discussion contains forward-looking statements reflecting our current expectations that involve risks and uncertainties. See “Forward-Looking Statements” for a discussion of the uncertainties, risks and assumptions associated with these statements. Actual results and the timing of events could differ materially from those discussed in our forward-looking statements as a result of many factors, including those set forth under “Risk Factors” and elsewhere in this prospectus.

Overview

The MD&A is based on our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make certain estimates and judgments that affect the reported amounts of assets, liabilities and expenses and related disclosure of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Our Business

We create and distribute products which we believe are entertaining, educational and beneficial to the well-being of infants and young children under our brands. We create, market and sell children’s videos, music, books and other products. We license the use of our intellectual property, both domestically and internationally, to others to manufacture, market and sell products based on our characters and brand. We own, control, distribute and seek to build animated content and brands aimed at kids, and then license the brands and characters onto various products, including toys, publishing video games, music, apparel and soft goods. In most cases, we create our own original content. In other cases, we partner with existing rights holders to develop an idea or an existing brand.

On November 15, 2013, we entered into the Merger Agreement with A Squared, the Parent Member and Acquisition Sub. Upon closing of the Merger, which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared. A Squared is a children’s entertainment production company that produces original content for children and

families that provide entertaining and educational media experiences. A Squared also creates comprehensive consumer product programs in the forms of toys, books and electronics. A Squared works with broadcasters, digital and online distributors and retailers worldwide as well as major toy companies, video game companies and top licensees in the kids and family arena.

On April 2, 2014, we filed a certificate of amendment to our Articles of Incorporation to affect a reverse split of our issued and outstanding common stock on a one-for-one hundred basis. The reverse stock split was effective with FINRA (Financial Industry Regulatory Authority) on April 7, 2014. All common stock share and per share information in this Prospectus, including the accompanying consolidated financial statements and notes thereto, has been adjusted to reflect retrospective application of the reverse split, unless otherwise indicated.

In November 2009, A Squared formed a joint venture, Stan Lee Comics, LLC, with POW Entertainment Inc. (“POW”), a California corporation, and Archie Comic Publications, Inc. (“Archie”), a New York corporation, to create, distribute, and exploit comic books and other intellectual property based on exclusive properties created by Stan Lee and owned by POW Entertainment, Inc. Each of A Squared, POW, and Archie own one-third of Stan Lee Comics, LLC.

Upon formation, the parties agreed that POW would contribute certain properties to Stan Lee Comics, LLC as consideration for its ownership interest. Similarly, A Squared would contribute certain creative development functions and be entitled to the exercise of all audio-visual development, production and distribution rights in all media, as well as all merchandising rights, in and to the contributed properties as consideration for its ownership interest. Finally, Archie would be entitled to all comic book publication and distribution rights in and to the contributed properties as consideration for its ownership interest. Each party would be entitled to one-third of any net proceeds derived from the contributed properties or their derivative works after recoupment of production cost and fees. Stan Lee Comics, LLC is the owner of the *Stan Lee and the Mighty 7* property.

Upon closing of the Merger, the Company assumed the rights to Stan Lee Comics, LLC held by A Squared Entertainment, LLC.

Revenues. Revenues by product segment and for the Company as a whole were as follows:

	2013	2012	Change	% Change
Product Sales	\$1,682,780	\$6,277,663	\$(4,594,883)	-73%
TV & Home Entertainment	505,552	–	505,552	N/A
Licensing & Royalties	368,206	292,536	75,670	26%
Total Revenue	\$2,556,538	\$6,570,199	\$(4,013,661)	-61%

Product sales represent physical products in which the Company holds intellectual property rights such as trademarks and copyrights, whether registered or unregistered, to the characters and which are manufactured and sold by the Company either directly at wholesale to retail stores or direct to consumers through daily deal sites and our website. Product sales decreased by \$4,594,883 due in part to a general decline in market demand for CDs and DVDs.

TV & Home Entertainment revenue totaled \$505,552 during the twelve months ended 2013, with no comparable amounts in 2012 due to the Merger. TV & Home Entertainment revenue is generated from distribution of our properties for broadcast on TV in domestic and foreign markets and the sale of DVDs for home entertainment.

Licensing and royalty revenue includes items for which we license the rights from other companies to copyrights and trademarks of select brands we feel will do well within our distribution channels as well as for our brands licensed to others to manufacture and/or market, both internationally and domestically. During the twelve month period ended December 31, 2013 compared to December 31, 2012, this category had increased from \$292,536 to \$368,206, or \$75,670 (26%). This increase is due to a general increase in the demand for our merchandising products and the revenue generated from the licensing income realized by those sales.

The 2014 economic outlook is uncertain and although we cannot guarantee, we anticipate continued growth in all areas of revenue. The Company has retained new foreign sales agents to expand the foreign markets for TV distribution and licensing. New projects and continued series productions will expand the US domestic distribution channels. There is also an increasing shift from CD and DVD sales to digital downloading through various digital platforms which we anticipate will increase revenue.

Costs. Costs and expenses, excluding depreciation and amortization, consisting primarily of cost of sales, marketing and sales expenses, and general and administrative costs, decreased \$3,624,933 (43%) for the twelve month period ended December 31, 2013 compared to the twelve month period ended December 31, 2012.

Edgar Filing: Genius Brands International, Inc. - Form 424B3

	2013	2012	Change	% Change
Cost of Sales	\$1,504,138	\$4,836,321	\$(3,332,183)	-69%

Total Costs and Operating Expenses	\$4,757,728	\$8,382,661	\$(3,624,933)	-43%

Cost of Sales decreased \$3,332,183 (69%), during the twelve months of 2013 compared to the same period of 2012. The decrease was a result of the decrease in product sales discussed above.

General and Administrative expenses consist primarily of salaries, employee benefits and stock based compensation as well as other expenses associated with costs related to the Merger, executive management, finance, legal, facilities, marketing, rent, and other professional services. General and administrative costs for 2013 increased \$20,300 (1%) as compared to the prior year period. The aggregate increase for the category includes increases of professional fees of \$270,365 in professional fees, including \$103,096 attributed to Merger-related activities, and \$275,063 in stock compensation expense offset by decreases of \$359,349 in salaries and wages and \$263,523 in investor relations expense.

Marketing and sales expenses decreased \$419,340 (58%) for the twelve months ended December 31, 2013 compared to the twelve months ended December 31, 2012 primarily due to a decreases sales commission expenses, attendance at tradeshows and public relations expenses.

Product development expenses are for routine and periodic alterations to existing products. For the twelve months ended December 31, 2013 compared to the twelve months ended December 31, 2012, these expenses increased by \$106,290 (324%), primarily due to increased demand for alterations to our existing products.

Interest Expense. Interest expense resulted from the debentures and bridge notes issued and other operating interest expense.

On June 27, 2012, the Company entered into a Securities Purchase Agreement whereby the Company issued and sold (i) a \$1,000,000 16% senior secured convertible debenture due June 27, 2014 (the “Debenture”), and (ii) a common stock purchase warrant (the “Debenture Warrant”) to purchase up to 50,000 shares of the Company’s common stock. The initial closing of the Debenture and Warrant Transaction occurred on June 27, 2012 (“Original Issue Date”). The Company issued the Debenture and the Debenture Warrant for the purchase price of \$1,000,000. The Debenture is convertible, in whole or in part, into shares of Common Stock upon notice by the holder to the Company, subject to certain conversion limitations set forth in the Debenture. The conversion price for the Debenture is \$21.00 per share, subject to adjustments. Interest on the Debenture accrues at the rate of 16% annually and is payable quarterly on February 1, May 1, August 1 and November 1, beginning on November 1, 2012, on any redemption, conversion and at maturity. Interest is payable in cash or at the Company’s option in shares of the Company’s common stock; provided certain conditions are met.

On August 29, 2013, pursuant to an agreement between the Company and certain holders, the original Debenture was assigned and exchanged for an aggregate of \$1,163,333 in new notes with the same provisions (the “Reissued Debenture”). The Reissued Debenture was recorded as a modification of debt in accordance with ASC 470-50-40-6 wherein \$150,000 in prepayment fees and \$13,333 in accrued but unpaid interest at the time of the exchange was added to the principal. The interest rate and maturity date were not changed. Product sales represent physical products in which the Company holds intellectual property rights such as trademarks and copyrights, whether registered or unregistered, to the characters and which are manufactured and sold by the Company either directly at wholesale to retail stores or direct to consumers through daily deal sites and our website. Product sales decreased by \$616,671 due in part to a general decline in market demand for CDs and DVDs.

Television & Home Entertainment revenue totaled \$50,462 during three months ended March 31, 2014 with no comparable amounts in 2013 due to the Merger. Television & Home Entertainment revenue is generated from distribution of our properties for broadcast on television in domestic and foreign markets and the sale of DVDs for home entertainment.

Licensing and royalty revenue includes items for which we license the rights from other companies to copyrights and trademarks of select brands we feel will do well within our distribution channels as well as for our brands licensed to others to manufacture and/or market, both internationally and domestically. During the three month period ended March 31, 2014 compared to March 31, 2013, this category had increased from \$31,427 to \$39,680, or \$8,253 (26%). This increase is due to a general increase in the demand for our merchandising products and the revenue generated from the licensing income realized by those sales.

The 2014 economic outlook is uncertain and although we cannot guarantee, we anticipate continued growth in all areas of revenue. The Company has retained new foreign sales agents to expand the foreign markets for TV distribution and licensing. New projects and continued series productions will expand the US domestic distribution channels. There is also an increasing shift from CD and DVD sales to digital downloading through various digital platforms which we anticipate will increase revenue.

Critical Accounting Policies

The Company's accounting policies are described in the notes to the financial statements. Below is a summary of the critical accounting policies, among others, that management believes involve significant judgments and estimates used in the preparation of its financial statements.

Principles of Consolidation - The Company's consolidated financial statements include the accounts of Genius Brands International, Inc. and its wholly owned subsidiary A Squared Entertainment, LLC. All significant inter-company balances and transactions have been eliminated in consolidation.

Intangible Assets - Intangible Assets acquired, either individually or with a group of other assets, are initially recognized and measured based on fair value. In the 2005 acquisition of the assets from Genius Products, fair value was calculated using a discounted cash flow analysis of the revenue streams for the estimated life of the assets. In the 2013 acquisition of the identifiable artistic-related assets from A Squared, fair value was determined through an independent appraisal. The Company determined that these assets are indefinite-lived. Additionally, the Merger transaction with A Squared gave rise to goodwill representing the future economic benefits arising from the assets of A Squared that could not be individually identified and recognized.

The Company develops new video, music, books and digital applications, in addition to adding content, improved animation and songs/features to their existing productions. The costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred. The Company begins amortization of new products when it is available for general release. Annual amortization cost of intangible assets are computed based on the straight-line method over the remaining economic life of the product, generally such deferred costs are amortized over five years.

The Company reviews all intangible assets periodically to determine if the value has been impaired following the guidance of ASC 350-20 – Goodwill and ASC 350-30 – General Intangibles Other Than Goodwill.

Capitalized Production Cost - The Company capitalizes production costs for episodic series produced in accordance with ASC 926-20, Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. The Company expenses all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

The Company capitalizes production costs for films produced in accordance with ASC 926-20, Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. The Company evaluates their capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

The Company also develops new videos, music, books and digital applications in addition to adding content, improved animation and bonus songs/features to its existing product catalog. In accordance with ASC 350 - Intangible Assets and ASC 730 - Research and Development, the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred.

Revenue Recognition - The Company recognized revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by ASC 605 - Revenue Recognition.

Revenues associated with the sale of products, are recorded when shipped to customers pursuant to approved customer purchase orders resulting in the transfer of title and risk of loss. Cost of sales, rebates and discounts are recorded at the time of revenue recognition or at each financial reporting date.

The Company recognizes revenue in accordance with ASC Topic 926-605, Entertainment-Films - Revenue Recognition. Accordingly, the Company recognizes revenue when (i) persuasive evidence of a sale with customer exists, (ii) the film is complete and has been delivered or is available for delivery, (iii) the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale, (iv) the arrangement fee is fixed or determinable, and (v) collection of the arrangement fee is reasonably assured.

For its distribution, TV, and home entertainment income the Company generally enters in to flat fee arrangements to deliver multiple films or episodes. The Company allocates revenue to each film or episode based on their relative fair market values and recognizes revenue as each film or episode is complete and available for delivery.

The Company's licensing and royalty revenue represents both (a) variable payments based on net sales from brand licensees for content distribution rights. These license agreements are held in conjunction with third parties that are responsible for collecting fees due and remitting to the Company its share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees and (b) licensing income the Company recognizes revenue as an agent in accordance with ASC 605-45, Revenue Recognition - Principal Agent. Accordingly, the Company's revenue is its gross billings to its customers less the amounts it pays to suppliers for their products and services.

Other Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported

amounts of revenues and expenses during the reporting periods.

Upon closing of the Merger, which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared. A Squared created, produced and distributed original “content with a purpose” for kids 6-11, whereas Genius Brands previously focused on toddlers. Today the merged company is focused on providing “content with a purpose” for toddlers to tweens, in all media formats, relevant consumer products categories, in territories around the world.

On April 2, 2014, we filed a certificate of amendment to our Articles of Incorporation to affect a reverse split of our issued and outstanding common stock on a one-for-one-hundred basis. The reverse stock split was effective with FINRA (Financial Industry Regulatory Authority) on April 7, 2014. All common stock share and per share information in this Prospectus, including the accompanying consolidated financial statements and notes thereto, has been adjusted to reflect retrospective application of the reverse split, unless otherwise indicated.

Recent Developments and Private Placement

On May 14, 2014, we entered into securities purchase agreements with certain accredited investors pursuant to which the Company sold an aggregate of 6,000 shares of Series A Preferred Stock at a price of \$1,000 per share for gross proceeds to the Company of \$6,000,000. The closing of the Private Placement was subject to certain customary closing conditions and closed on May 15, 2014.

Each share of Series A Preferred Stock is convertible into shares of the Company's common stock, par value \$0.001 per share based on a conversion calculation equal to the Base Amount divided by the conversion price. The Base Amount is defined as the sum of (i) the aggregate stated value of the Series A Preferred Stock to be converted and (ii) all unpaid dividends thereon. The stated value of each share of the Series A Preferred Stock is \$1,000 and the initial conversion price is \$2.00 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. Additionally, in the event the Company issues shares of its common stock or common stock equivalents at a per share price that is lower than the conversion price then in effect, the conversion price shall be adjusted to such lower price, subject to certain exceptions. The Company is prohibited from effecting a conversion of the Series A Preferred Stock to the extent that as a result of such conversion, the Investor would beneficially own more than 9.99% in the aggregate of the issued and outstanding shares of the Company's common stock, calculated immediately after giving effect to the issuance of shares of common stock upon conversion of the Series A Preferred Stock. The shares of Series A Preferred Stock possess no voting rights.

Pursuant to the terms of the Purchase Agreement, beginning on the closing date of the Private Placement and ending on the sixty (60) trading day anniversary of the Applicable Date (defined as the earlier of such date that the resale of the shares of Common Stock underlying the Series A Preferred Stock is covered by one or more effective registration statements and (y) the first date all of such shares may be resold under Rule 144), the Company shall not issue any securities, subject to certain exceptions.

The Company has agreed to file a “resale” registration statement with the Securities and Exchange Commission covering 125% of all shares of common stock underlying the Series A Preferred Stock by the Filing Date and to maintain the effectiveness of the registration statement until all securities have been sold or are otherwise able to be sold pursuant to Rule 144 pursuant to a registration rights agreement entered into with the Investors (the “Registration Rights Agreement”). The Company has agreed to use its reasonable best efforts to have the registration statement declared effective by the Effectiveness Date. The Company is obligated to pay to investors liquidated damages equal to 1.5% per month in cash for every thirty day period up to a maximum of six (6%) percent, (i) that the registration statement has not been filed after the Filing Date, (ii) following the Effectiveness Date that the registration statement has not been declared effective; and (iii) as otherwise set forth in the Registration Rights Agreement.

In connection with the Private Placement, investors holding a majority of the securities sold in the Company’s November 2013 and January 2014 private placement waived the Company’s registration rights obligations and any accrued liquidated damages associated therewith.

On April 2, 2014, we filed a Certificate of Amendment to our Articles of Incorporation to affect a 1-for-100 reverse split of the Company’s common stock.

Merger

On November 15, 2013, the Company entered into the Merger Agreement with A Squared and Acquisition Sub. Upon closing of the Merger, which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared. A Squared is a children’s entertainment production company that produces original content for children and families that provide entertaining and educational media experiences. A Squared also creates comprehensive consumer product programs in the forms of toys, books and electronics. A Squared works with broadcasters, digital and online distributors and retailers worldwide as well as major toy companies, video game companies and top licensees in the kids and family arena.

Immediately following the Merger, the Company's pre-Merger shareholders and option holders owned approximately 50% of the Company's common stock on a fully-diluted basis, and former A Squared members owned approximately 50% of the Company's common stock on a fully diluted basis.

Pursuant to the terms and conditions of the Merger:

At the closing of the Merger, the membership interests of A Squared issued and outstanding immediately prior to the closing of the Merger were cancelled and the Member received shares of our common stock. Accordingly, an aggregate of 2,972,183 shares of our common stock were issued to the Parent Member.

Upon the closing of the Merger, Klaus Moeller resigned as the Company's Chief Executive Officer and Chairman, Larry Balaban resigned as the Company's Corporate Secretary, and Howard Balaban resigned as the Company's Vice President of Business Development. Simultaneously with the effectiveness of the Merger, Andrew Heyward was appointed as the Company's Chief Executive Officer, Amy Moynihan Heyward was appointed as the Company's President and Gregory Payne was appointed as the Company's Corporate Secretary. Mr. Moeller remained a director of the Company upon closing of the Merger. Subsequently, effective May 15, 2014, Mr. Moeller resigned as a member of the Board of Directors.

Subsequently, on February 27, 2014, William McDonough resigned from his position as a director of the Company.

At the closing of the Merger, we sold an aggregate of 296,429 shares of shares of our Common Stock in a private placement (the "November Private Placement") to certain investors (the "November Investors") at a per share price of \$3.50 for gross proceeds to us of \$1,037,500. The shares of Common Stock issued in the November Private Placement are subject to price protection and "most favored nations" protection for a period equal to the lesser of three (3) years from the closing of the November Private Placement or until no November Investor hold any Common Stock purchased in the November Private Placement, in the event we issue securities at a per share price of less than \$3.50 per share, subject to certain exceptions, or otherwise issues securities to new investors whereby the November Investors reasonably believe that the terms and conditions appurtenant to such issuance or sale are more favorable to that which were received by the November Investors. In connection with the November Private Placement, our pre-Merger officers and directors executed lockup agreements pursuant to which they agreed to refrain from selling or transferring the shares of our securities for a period of beginning on the closing date of the Merger and ending 90 days after the effective date of our registration statement filed pursuant to the Financing Registration Rights Agreement (as discussed below), subject to certain leak-out provisions.

Pre-Merger Officer and Directors

In connection with the Merger, Klaus Moeller and the Company entered into a termination agreement to terminate Mr. Moeller's employment agreement dated as of October 29, 2013 (the "Moeller Employment Termination Agreement"). Under the terms of the Moeller Employment Termination Agreement, Mr. Moeller agreed to cancel options to purchase an aggregate of up to 19,500 shares of the Common Stock.

In connection with the Merger, we and certain of our pre-merger directors agreed to cancel outstanding options to purchase up to an aggregate of 58,500 shares of Common Stock.

Distribution

Children today spend upwards of 35 hours/week consuming various forms of media, a 7% increase or an additional 2.2 hours since 2009 (Source: Nickelodeon, November 2013). With the increased reliance on and impact of media on kids' lives, GBI is focused on producing "content with a purpose" to serve all the various ways kids consume and interact with media today. Whereas the Company's distribution was limited to traditional means in the past, the Company today is focused on expanding its content distribution across multi-media platforms, across borders to extend its international presence, and broaden its base of consumer products with expanded product categories.

Products

GBI produced and manages: *Baby Genius*, a musical collection of songs and videos that are entertaining and stimulating for toddlers; *Secret Millionaires Club* with Warren Buffett, teaching kids the "business of life" through fun adventures in business; a new collection of superheroes, created with Stan Lee through a new label, *Stan Lee Comics*, including its first direct to TV movie trilogy, *Stan Lee's Mighty 7*; *Martha & Friends* with Martha Stewart, inspiring creativity and self-expression in kids; *Gisele & the Green Team* with Gisele Bündchen, a superhero series for girls that encourages "girl power" and provides environmental lessons; *Pascualina*, the popular teen brand from Chile that inspires and encourages teen girls; and, *Thomas Edison's Secret Lab*," a new series that shows how much fun science and math can be. Collectively, GBI's portfolio of "content with a purpose" serves kids from toddler to teens.

Marketing

The commercial success of every new GBI property is reliant on its ability to attract an engaged audience that drives consumer interest. Critical to this is the Company's ability to secure broad distribution for its content across media platforms, as well as licensees and retailers who develop and distribute the Company's IP in various consumer products. To this end, in addition to critical distribution agreements, the Company works closely with certain parties such as broadcasters, licensees, and retailers to collaboratively and efficiently market the brands across channels that appeal to parents and kids.

Competition

GBI competes against creators of children's content, including Disney, Nickelodeon, Cartoon Network Sesame Street, and many others, small and large. The competitive advantage that GBI has is its niche focus on delivering "content with a purpose," promising content that is as entertaining as it is enriching. In the crowded children's entertainment space, we are competing with other content creators for distribution and retail shelf space that is largely now dedicated to the large studios. This is why GBI's unique focus on dedicating itself to "content with a purpose" is an important differentiator and distinct advantage in an endless sea of kids' entertainment properties.

Customers and Licensees

GBI works with a network of customers and partners from around the world including broadcasters, consumer products licensees and retailers. This broad cross section of rightsholders, creators, broadcasters, licensees, vendors, and retailers includes companies including but not limited to Comcast, The Hub, Sony, Walmart, Cinedigm, Target, Hot Topics, Groupon, Sony, Netflix, American Public Television, Stan Lee, Warren Buffet, and The Edison Innovation Foundation. The Company handles its own distribution and consumer products sales internally for the US market, and partners with local agencies around the world who manage the Company's distribution sales and consumer products programs internationally. This helps to manage overhead costs while ensuring local market expertise for each of its properties.

Inventory

We try to maintain a reasonable DVD and CD inventory. The Company has discontinued distribution of third party DVD properties and concentrates solely on its own DVD and CD titles.

Government Regulation

The FCC requires broadcast networks to air a required number of hours of Educational and Informational content (E/I). The Company is also subject to online distribution regulations, namely the FTC's Children's Online Privacy Protection Act (COPPA) which regulates the collection of information of kids younger than 13 years old.

We are currently subject to regulations applicable to businesses generally, including numerous federal and state laws that impose disclosure and other requirements upon the origination, servicing, enforcement and advertising of credit accounts, and limitations on the maximum amount of finance charges that may be charged by a credit provider. Although credit to our customers is provided by third parties without recourse to us based upon a customer's failure to pay, any restrictive change in the regulation of credit, including the imposition of, or changes in, interest rate ceilings, could adversely affect the cost or availability of credit to our customers and, consequently, our results of operations or financial condition.

Licensed toy products are subject to regulation under the Consumer Product Safety Act and regulations issued thereunder. These laws authorize the Consumer Product Safety Commission (the "CPSC") to protect the public from products which present a substantial risk of injury. The CPSC can require the manufacturer of defective products to repurchase or recall such products. The CPSC may also impose fines or penalties on manufacturers or retailers. Similar laws exist in some cities and other countries in which we plan to market our products. Although we do not manufacture and may not directly distribute the toy products, a recall of any of the products may adversely affect our business, financial condition, results of operations and prospects.

We also maintain websites, including our website located at www.babygenius.com, the Company's streaming subscription site; www.smckids.com; www.slam7.com; www.geniusbrands.com, and www.edisonsecretlab.com are subject to laws and regulations directly applicable to Internet communications and commerce, which is a currently developing area of the law. The United States has enacted Internet laws on children's privacy, copyrights and taxation. However, laws governing the Internet remain largely unsettled. The growth of the market for Internet commerce may result in more stringent consumer protection laws, both in the United States and abroad, that place additional burdens on companies conducting business over the Internet. We cannot predict with certainty what impact such laws will have on our business in the future. In order to comply with new or existing laws regulating Internet commerce, we may need to modify the manner in which we conduct our website business, which may result in additional expense.

Because our products are manufactured by third parties and licensees, the Company is not significantly impacted by federal, state and local environmental laws and does not have significant costs associated with compliance with such laws and regulations.

Employees

We currently have seven full-time employees. Certain functions, such as consumer product licensing, foreign sales, accounting, home video sales, and production, are outsourced on an as needed basis. Not including production, the Company utilizes between ten and fifteen people on an ongoing, outsourced basis.

Intellectual Property

GBI owns the following properties and related trademarks: *Secret Millionaires Club*, *Thomas Edison's Secret Lab*.

The Company has a one-third ownership interest in Stan Lee Comics LLC which owns the publishing brand *Stan Lee Comics* and all properties produced therein. Stan Lee Comics LLC is a joint venture with Stan Lee's POW! Entertainment and Archie Comics. Stan Lee Comics is the owner of the *Stan Lee and the Mighty 7* property.

The Company has 50/50 ownership agreements with the following partners and their related brands: Martha Stewart's *Martha & Friends*; and Gisele Bundchen's *Gisele & the Green Team*. It also has an exclusive Master License for exploitation of rights in the property *Pascualina* throughout the world outside of Chile.

Additionally, the Company owns the trademarks “Baby Genius”, “Little Genius”, “Kid Genius”, “Wee Worship”, and “Ready! Play! Learn!” as well as several other names and trademarks on characters that had been developed for our video releases and associated with our different brands. We currently hold fourteen registered trademarks in multiple classes in the United States as well as additional trademarks in the United States that are associated with our other brands. We also have a number of registered and pending trademarks in Europe and other countries in which our products are sold.

We also currently hold ninety-six motion picture, thirteen sound recording and one literary work copyrights related to our video, music and written work products. Under prior management, the Company did not generally file for copyright protection for all of its productions, but relied on common law principles and agreements with its vendors and content providers to secure its rights in the intellectual property aspects of our products. Under current management, with the implementation of its new post-Merger operating model, the Company intends to file copyright registrations for all of its productions and literary works.

LEGAL PROCEEDINGS

There are presently no material pending legal proceedings to which the Company is a party or as to which any of its property is subject, and no such proceedings are known to the Company to be threatened or contemplated against it.

DESCRIPTION OF PROPERTY

The Company owns no real property. The Company leases approximately 2,807 square feet of general office space at 9401 Wilshire Boulevard Suite 608 Beverly Hills, CA 90212 pursuant to a 36 month lease that commenced May 1, 2012. Corporate Governance

General

We believe that good corporate governance is important to ensure that the Company is managed for the long-term benefit of our stockholders. This section describes key corporate governance practices that we have adopted.

Board Leadership Structure and Role in Risk Oversight

The Board of Directors has responsibility for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The primary responsibility of our Board of Directors is to oversee the management of our company and, in doing so, serve the best interests of the company and our stockholders. The Board of Directors selects, evaluates and provides for the succession of executive officers and, subject to stockholder election, directors. It reviews and approves corporate objectives and strategies, and evaluates significant policies and proposed major commitments of corporate resources. Our Board of Directors also participates in decisions that have a potential major economic impact on our company. Management keeps the directors informed of company activity through regular communication, including written reports and presentations at Board of Directors and committee meetings.

Although we have not adopted a formal policy on whether the Chairman and Chief Executive Officer positions should be separate or combined, we have traditionally determined that it is in the best interest of the Company and its shareholders to partially combine these roles. Due to the small size of the Company, we believe it is currently most effective to have the Chairman and Chief Executive Officers positions combined.

The Company currently has eight directors, including Mr. Heyward, its Chairman, who also serves as the Company's Chief Executive Officer. The Chairman and the Board are actively involved in the oversight of the Company's day to day activities.

Compensation Committee Interlocks and Insider Participation

During the fiscal year ended December 31, 2013, all executive officer compensation was determined by our board of directors.

Board Independence

Our Common Stock is not quoted or listed on any national exchange or interdealer quotation system with a requirement that a majority of our board of directors be independent and, therefore, the Company is not subject to any director independence requirements. Under NASDAQ Rule 5605(a)(2)(A), a director is not considered to be independent if he or she also is an executive officer or employee of the corporation. Under such definition, each of Messrs. Weiss, Davis, Hallren and Thomopoulos as well as Ms. Segall would be considered an independent director, because none serve as an executive officer or employee of the Company, none have been an employee of the Company during the past three years, and none has received compensation from the Company at any time during the past three years.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company's directors, executive officers and persons who own more than 10% of the Company's stock (collectively, "Reporting Persons") to file with the SEC initial reports of ownership and changes in ownership of the Company's common stock. Reporting Persons are required by SEC regulations to furnish the Company with copies of all Section 16(a) reports they file. Employment Agreements

On April 26, 2011, the Company and each of Messrs. Moeller, Meader, Larry Balaban and Howard Balaban (the “Executives”) agreed to terminate all then existing employment agreements for the Executives and enter into new five-year employment agreements unless written termination is provided by either party. Each employment agreement provides for a graduated base salary beginning at \$165,000 per annum retroactive to March 20, 2011, continuing to December 31, 2011, increasing to \$195,000 for 2012 and \$225,000 for 2013. After 2013, the agreement provides for base salary increases at the discretion of the Board of Directors, with a minimum 5% increase. In addition to base salary, each Executive will receive an annual car allowance of \$11,400, and four weeks paid vacation per annum.

Each agreement also provides for a cash incentive bonus determined at the sole discretion of our Board of Directors which shall not be less than 4.5% of the Company’s EBITDA (Earnings Before Interest, Depreciation, Taxes and Amortization) if the Company is EBITDA positive nor be more than 100% of the Executive’s base salary, although the Board has retained discretion to waive the 100% cap. In addition, pursuant to the agreements each Executive has been granted a non-qualified stock option to purchase up to 10,000 shares of the Company’s common stock, vesting as to 2,500 shares on the grant date and 2,500 shares per year on the anniversary date of the agreements. The exercise price of options is \$44.00 per share and the options will expire on the tenth anniversary of the date of grant except in the event of a termination for cause under the respective employment agreement, in which case the option will expire in its entirety ninety days after termination of employment. Each Executive has granted the Company a right of first refusal to repurchase any shares of common stock acquired by the Executive pursuant to the option in the event of a termination for cause. The purchase price on the right of first refusal would be the bid price on the date of termination.

The employment agreement provides for payment of severance compensation equal to eighteen months of the Executive’s base salary on the date of termination of the Executive’s employment by the Company other than for cause. Subject to the provisions of Section 409A of the Internal Revenue Code of 1986, as amended, severance will be paid over the course of eighteen months following the termination date and will be made on the Company’s normal payroll dates during the severance period. Severance compensation is in addition to his base salary through the date of termination, accrued vacation and bonus compensation earned but not yet paid on the date of termination.

In addition, the agreements each provide that, upon termination without cause or as a result of a change of control, the unvested portion of any options then held by the Executive will immediately vest. For purposes of these agreements, a “change of control” includes the sale of all or substantially all of the Company’s assets, a merger or consolidation resulting in securities representing 50% of the combined voting power of the outstanding common stock being transferred to persons who are different from the holders immediately preceding the transaction, the acquisition (directly or indirectly) of 50% of the total combined voting power of the common stock pursuant to a tender or exchange offer, or a majority of the members of the Board is replaced during any 12-month period by directors whose appointment or election is not endorsed by a majority of the members of the Board before the date of the appointment or election.

Each of the employment agreements includes standard confidentiality, non-competition (including during any severance period), non-solicitation and non-disparagement provisions, provides for twenty days of vacation time per annum, and provides for indemnification of the Executive to the fullest extent allowed by the California Corporations Code and the Company's Articles of Incorporation and Bylaws.

Moeller, Meader and Howard Balaban agreed to reduce the amount of payments for salary effective January 1, 2013 through January 19, 2013 to \$165,000 and a further reduction to \$140,000 commencing January 20, 2013, continuing until further notice by each one to the Board of Directors. The agreements with each of Messrs. Moeller, Meader and Howard Balaban include the accrual of unpaid salary, the right to convert any or all of the accrued but unpaid salary to common stock of the Company at a conversion price of \$21.00 per share and an amendment to all outstanding stock option grant notices to allow each to retain all rights until the expiration date upon termination unless for cause, as defined in the employment agreement.

After 2014, the agreement provides for base salary increases at the discretion of the Board of Directors with a minimum 5% increase. Ms. Morgan shall be permitted to participate in all benefit plans of the Company and receive 4 weeks paid vacation.

The agreement also provides for a cash incentive bonus determined at the sole discretion of our Board of Directors which shall not be less than 2.0% of the Company's EBITDA (Earnings Before Interest, Depreciation, Taxes and Amortization) if the Company is EBITDA positive nor be more than 100% of the base salary, although the Board has retained discretion to waive the 100% cap. In addition, pursuant to the agreement Ms. Morgan has been granted a qualified stock option to purchase up to 2,000 shares of the Company's common stock, vesting on December 31, 2014. The exercise price of option is \$44.00 per share and the option will expire on the fifth anniversary of the date of vesting except in the event of a termination for cause under the employment agreement, in which case the option will expire in its entirety ninety days after termination of employment.

The employment agreement provides for payment of severance compensation equal to twelve months of the base salary on the date of termination of employment by the Company other than for cause. Subject to the provisions of Section 409A of the Internal Revenue Code of 1986, as amended, severance will be paid over the course of twelve months following the termination date and will be made on the Company's normal payroll dates during the severance period. Severance compensation is in addition to her base salary through the date of termination, accrued vacation and bonus compensation earned but not yet paid on the date of termination.

In addition, the agreement provides that, upon termination without cause or as a result of a change of control, the unvested portion of any options then held by Ms. Morgan will immediately vest. For purposes of this agreement, a “change of control” includes the sale of all or substantially all of the Company’s assets, a merger or consolidation resulting in securities representing 50% of the combined voting power of the outstanding common stock being transferred to persons who are different from the holders immediately preceding the transaction, the acquisition (directly or indirectly) of 50% of the total combined voting power of the common stock pursuant to a tender or exchange offer, or a majority of the members of the Board is replaced during any 12-month period by directors whose appointment or election is not endorsed by a majority of the members of the Board before the date of the appointment or election.

The employment agreement includes standard confidentiality, non-competition (including during any severance period), non-solicitation and non-disparagement provisions, provides for twenty days of vacation time per annum, and provides for indemnification of the Executive to the fullest extent allowed by the California Corporations Code and the Company’s Articles of Incorporation and Bylaws.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Except as set forth below, during our last completed fiscal year, there have been no transactions, whether directly or indirectly, between the Company and any of its officers, directors or their family members.

Our Chief Executive Officer, Andrew Heyward, is the spouse of our President, Amy Moynihan Heyward. Our former Creative Director, Larry Balaban, and our former EVP of Business Development, Howard Balaban, are brothers.

Bernard Cahill, a director of the Company appointed on December 9, 2013, is the founder of ROAR and ROAR owns 65% of Girlilla. In connection with the Merger, the Company entered into a marketing consultation agreement with Girlilla Marketing LLC pursuant to which Girlilla agreed to provide certain strategic digital marketing services in consideration for 10,000 shares of Common Stock, which shall vest as follows: 2,000 shares upon execution of the Girlilla Consulting Agreement, 2,000 shares on January 15, 2014, 2,000 shares on March 15, 2014, 2,000 shares on June 15, 2014 and 2,000 shares on September 14, 2014. Additionally, the Company entered into an engagement letter with ROAR pursuant to which ROAR agreed to provide the Company will services, including the development of a business development strategy, for a period of 18 months. In consideration for its services, the Company agreed to pay ROAR 67,492 shares of Common Stock which shall vest as follows: 20,000 shares upon execution of the ROAR Engagement Letter, 20,000 shares on January 15, 2014, 13,746 shares on September 15, 2014 and 13,746 shares on March 15, 2015.

Throughout 2009, 2008 and 2007, the Company borrowed funds from Messrs. Moeller, Meader, Larry Balaban and Howard Balaban. On December 31, 2009, the Officers agreed to issue new note agreements for the outstanding balances, including accrued but unpaid interest, with a maturity date of December 31, 2010. Subsequent agreements amended the stated interest rate to 6% per annum and extended the maturity to January 15, 2015. On November 15, 2013, in connection with the Merger, the Company issued an aggregate of 73,238 shares of Common Stock to Klaus Moeller, Michael Meader, Larry Balaban and Howard Balaban in consideration for the cancellation of these notes for an aggregate of \$194,163 in principal and \$62,167 in accrued but unpaid interest.

On March 31, 2011, four of the Company's officers agreed to convert accrued but unpaid salaries through December 31, 2010 to subordinated long term notes payable. In February 2011, as a result of an agreement by each of the four officers to retroactively decrease the amount of the annual salary for 2010 from \$125,000 per annum per officer to \$80,000, the amount of the notes were reduced to an aggregate of \$1,620,137. In March 2012, the officers agreed to convert the aggregate sum of \$1,572,161 to shares of common stock of the Company. The remaining note, with a principal balance of \$159,753, has a maturity of January 15, 2015 and a stated interest rate of six percent (6%) per annum. On October 31, 2013, 43,207 shares of restricted common stock were issued in full payment of the note payable.

On August 30, 2013, the Company issued 12% convertible notes to several parties with a maturity date of October 21, 2013 for an aggregate of \$530,000 ("Bridge Notes"). The Bridge Notes have a stated conversion rate of \$0.01212 and can be voluntarily converted at any time by the holder and mandatorily by the Company upon certain conditions. Cash was received in the aggregate of \$309,000. Four former officers and directors of the Company converted outstanding salaries payable to the new notes in the aggregate of \$221,000. On November 15, 2013, in connection with the automatic conversion of the Bridge Notes upon consummation of the Merger, the Company issued an aggregate of 448,613 shares of common stock to all holders of the Bridge Notes, in the aggregate principal amount of \$530,000, plus accrued but unpaid interest of \$13,719. Of this amount, 187,063 shares of the Company's common stock were issued to the four officers and directors.

On November 15, 2013, in association with the Merger, the Company issued 124,146 shares of common stock for the conversion of \$612,443 in accrued salaries and benefits to Messrs. Moeller, Balaban, Balaban, and Meader as well as Ms. Morgan.

On November 15, 2013, as part of the Merger, the Company acquired these liabilities from A Squared Entertainment, LLC. From time to time, A Squared Entertainment, LLC required short-term advances to fund its operations and provide working capital from its founder, the Company's current Chief Executive Officer, Andrew Heyward. As of December 31, 2013, these advances totaled \$516,659. No interest is due on these advances.

SELLING STOCKHOLDERS

The table below lists the selling stockholders and other information regarding the beneficial ownership (as determined under Section 13(d) of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder) of the shares of common stock held by each of the selling stockholders. The second column lists the number of shares of common stock beneficially owned by the selling stockholders, based on their respective ownership of Series A Convertible Preferred Stock, as of June 16, 2014, assuming conversion of the Series A Convertible Preferred Stock held by each such selling stockholder on that date but taking account of any limitations on conversion set forth therein.

The third column lists the shares of common stock being offered by this prospectus by the selling stockholders and does not take into account any limitations on conversion of the preferred shares set forth therein.

In accordance with the terms of a registration rights agreement with the holders of the Series A Convertible Preferred Stock, this prospectus generally covers the resale of 125% of the maximum number of shares of common stock issuable upon conversion of the Series A Preferred Stock, determined as if the outstanding Series A Preferred Stock were converted in full (without regard to any limitations on conversion contained therein) as of the trading day immediately preceding the date the registration statement of which this prospectus forms a part was initially filed with the SEC. Because the conversion price of the Series A Preferred Stock may be adjusted, the number of shares that will actually be issued may be more or less than the number of shares being offered by this prospectus. The fourth column assumes the sale of all of the shares offered by the selling stockholders pursuant to this prospectus.

Under the terms of the certificate of designations for the Series A Preferred Stock, a selling stockholder may not convert the Series A Preferred Stock to the extent (but only to the extent) such selling stockholder or any of its affiliates would beneficially own a number of shares of our common stock which would exceed 9.99%. The number of shares in the second column reflects these limitations. The selling stockholders may sell all, some or none of their shares in this offering. See "Plan of Distribution."

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission. The selling stockholders' percentage of ownership of our outstanding shares in the table below is based upon 6,383,269 shares of Common Stock outstanding as of June 6, 2014.

PLAN OF DISTRIBUTION

We are registering the shares of common stock previously issued and the shares of common stock issuable upon conversion of the preferred shares to permit the resale of these shares of common stock by the holders of the common stock and the preferred shares from time to time after the date of this prospectus. We will not receive any of the proceeds from the sale by the selling stockholders of the shares of common stock. We will bear all fees and expenses incident to our obligation to register the shares of common stock.

The selling stockholders may sell all or a portion of the shares of common stock held by them and offered hereby from time to time directly or through one or more underwriters, broker-dealers or agents. If the shares of common stock are sold through underwriters or broker-dealers, the selling stockholders will be responsible for underwriting discounts or commissions or agent's commissions. The shares of common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions,

pursuant to one or more of the following methods:

on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;

in the over-the-counter market;

in transactions otherwise than on these exchanges or systems or in the over-the-counter market;

through the writing or settlement of options, whether such options are listed on an options exchange or otherwise;

ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;

privately negotiated transactions;

short sales made after the date the Registration Statement is declared effective by the SEC;

broker-dealers may agree with a selling securityholder to sell a specified number of such shares at a stipulated price per share;

a combination of any such methods of sale; and

any other method permitted pursuant to applicable law.

The selling stockholders may also sell shares of common stock under Rule 144 promulgated under the Securities Act of 1933, as amended, if available, rather than under this prospectus. In addition, the selling stockholders may transfer the shares of common stock by other means not described in this prospectus. If the selling stockholders effect such transactions by selling shares of common stock to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling stockholders or commissions from purchasers of the shares of common stock for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be in excess of those customary in the types of transactions involved). In connection with sales of the shares of common stock or otherwise, the selling stockholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the shares of common stock in the course of hedging in positions they assume. The selling stockholders may also sell shares of common stock short and deliver shares of common stock covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling stockholders may also loan or pledge shares of common stock to broker-dealers that in turn may sell such shares.

The selling stockholders may pledge or grant a security interest in some or all of the preferred shares or shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time pursuant to this prospectus or any amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending, if necessary, the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus. The selling stockholders also may transfer and donate the shares of common stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

To the extent required by the Securities Act and the rules and regulations thereunder, the selling stockholders and any broker-dealer participating in the distribution of the shares of common stock may be deemed to be “underwriters” within the meaning of the Securities Act, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act. At the time a particular offering of the shares of common stock is made, a prospectus supplement, if required, will be distributed, which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling stockholders and any discounts, commissions or concessions allowed or re-allowed or paid to broker-dealers.

Under the securities laws of some states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of common stock may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that any selling stockholder will sell any or all of the shares of common stock registered pursuant to the registration statement of which this prospectus forms a part.

The selling stockholders and any other person participating in such distribution will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder, including, without limitation, to the extent applicable, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of common stock by the selling stockholders and any other participating person. To the extent applicable, Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to engage in market-making activities with respect to the shares of common stock. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

We will pay all expenses of the registration of the shares of common stock pursuant to the registration rights agreement, estimated to be \$45,000 in total, including, without limitation, Securities and Exchange Commission filing

fees and expenses of compliance with state securities or “blue sky” laws; provided, however, a selling stockholder will pay all underwriting discounts and selling commissions, if any. We will indemnify the selling stockholders against liabilities, including some liabilities under the Securities Act in accordance with the registration rights agreements or the selling stockholders will be entitled to contribution. We may be indemnified by the selling stockholders against civil liabilities, including liabilities under the Securities Act that may arise from any written information furnished to us by the selling stockholder specifically for use in this prospectus, in accordance with the related registration rights agreements or we may be entitled to contribution.

Once sold under the registration statement of which this prospectus forms a part, the shares of common stock will be freely tradable in the hands of persons other than our affiliates.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders

Genius Brands International, Inc.

Beverly Hills, California

We have audited the accompanying consolidated balance sheets of Genius Brands International, Inc. and Subsidiaries as of December 31, 2013 and 2012, and the related consolidated statements of operations, stockholders' equity (deficit), and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Genius Brands International, Inc. and Subsidiaries as of December 31, 2013 and 2012, and the results of their operations and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

Genius Brands International, Inc.

Notes to Financial Statements

December 31, 2013 (audited)

Note 1: Organization and Business

Organization and Nature of Business

Genius Brands International, Inc. (“we”, “us”, “our” or the “Company”), creates, produces and distributes original “content with a purpose” for kids, meaning multi-media, multi-format content for kids that we believe is as entertaining as it is enriching. In most cases, the Company wholly owns the original content it produces, and works with a variety of partners who are experts in their respective categories, to develop and distribute it in multiple formats around the world. The Company owns and is developing a portfolio of original children’s entertainment to appeal to toddlers to teens.

The Company commenced operations in January 2006, assuming all of the rights and obligations of its then Chief Executive Officer, Klaus Moeller, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which we obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Little Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. On October 17, 2011 and October 18, 2011, Genius Brands International, Inc., filed Articles of Merger with the Secretary of State of the State of Nevada and with the Secretary of State of the State of California, respectively. As previously described on the Company’s Schedule 14C Information Statement, filed with the Securities and Exchange Commission on September 21, 2011, by filing the Articles of Merger, the Company (i) changed its domicile to Nevada from California, and (ii) changed its name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, on October 12, 2011, the Company filed an Issuer Company-Related Action Notification Form with the Financial Industry Regulatory Authority (“FINRA”) and on November 29, 2011 our trading symbol changed from “PENT” to “GNUS”.

On November 15, 2013, we entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC, our newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared. A Squared created, produced and distributed original “content with a purpose” for kids 6-11,

whereas Genius Brands previously focused on toddlers. Today the merged company is focused on providing “content with a purpose” for toddlers to tweens, in all media formats, relevant consumer products categories, in territories around the world.

On April 2, 2014, we filed a certificate of amendment to our Articles of Incorporation to affect a reverse split of our issued and outstanding common stock on a one-for-one hundred basis. The reverse stock split was effective with FINRA (Financial Industry Regulatory Authority) on April 7, 2014. All common stock share and per share information in this Annual Report, including the accompanying consolidated financial statements and notes thereto, have been adjusted to reflect retrospective application of the reverse split, unless otherwise indicated

Liquidity

Historically, the Company has incurred net losses. As of December 31, 2013, the Company had an accumulated deficit of \$17,424,055 and a total stockholders' equity of \$11,496,102. At December 31, 2013, the Company had current assets of \$2,227,343, including cash of \$527,110 and current liabilities of \$3,096,075, including short-term debt to related parties which bears no interest and has no stated maturity of \$516,659 and certain disputed trade payables of \$925,000 to which the Company disputes the claim, resulting in a working capital deficit of \$868,732. For the year ended December 31, 2013, the Company reported a net loss of \$7,216,031 and net cash used by operating activities of \$1,120,317. Management believes that its sales and cash provided by operations, the non-recurrence of certain legal and accounting expenses related to the Merger, and the funds from the issuance of common stock in the fourth quarter will be sufficient to fund planned operations for the next twelve months. However, there can be no assurance that operations and operating cash flows will continue at the current levels or improve in the near future. If the Company is unable to obtain profitable operations and positive operating cash flows, it may need to seek additional funding or be forced to scale back its development plans or to significantly reduce or terminate operations. Subsequent to December 31, 2013, the Company issued 102,858 shares of the Company's common stock in a private placement to certain investors at \$3.50 per share. The Company received gross proceeds of \$360,000. Additionally, subsequent to December 31, 2013, the Company entered into a long-term, exclusive supply chain services agreement for which it received \$750,000 during the first quarter of 2014 with the remaining \$750,000 due by January 17, 2015.

Note 2: Summary of Significant Accounting Policies

Cash Equivalents

The Company considers all highly liquid debt instruments with initial maturities of three months or less to be cash equivalents.

Reverse Stock Split

On April 2, 2014, we filed a certificate of amendment to our Articles of Incorporation to affect a reverse split of our issued and outstanding common stock on a one-for-one hundred basis. The reverse stock split was effective with FINRA (Financial Industry Regulatory Authority) on April 7, 2014. Business Combination

On November 15, 2013, the Company entered into an Agreement and Plan of Reorganization (the "Merger Agreement") with A Squared Entertainment LLC, a Delaware limited liability company ("A Squared"), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the "Parent Member") and A2E Acquisition LLC, our newly formed, wholly-owned Delaware subsidiary ("Acquisition Sub"). Upon closing of the transactions contemplated under the Merger Agreement (the "Merger"), which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

The audited financial statements have been prepared using the acquisition method of accounting in accordance with FASB Accounting Standards Codification ("ASC") 805, Business Combinations.

See Note 3 - Business Combination for additional information.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Genius Brands International, Inc. and its wholly owned subsidiary A Squared Entertainment, LLC. All significant inter-company balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Financial Statement Reclassification

Certain account balances from prior periods have been reclassified in these consolidated financial statements so as to conform with current year classifications.

Significant Accounting Policies

Allowance for Sales Returns - An Allowance for Sales Returns is estimated based on average sales during the previous year. Based on experience, sales growth, and our customer base, the Company concluded that the allowance for sales returns at December 31, 2013 and 2012 should be \$43,000 and \$53,000, respectively.

Inventories - Inventories are stated at the lower of cost (average) or market and consist of finished goods such as DVDs, CDs and other products. A reserve for slow-moving and obsolete inventory is established for all inventory deemed potentially non-saleable by management in the period in which it is determined to be potentially non-saleable. The current inventory is considered properly valued and saleable. The Company concluded that there was an appropriate reserve for slow moving and obsolete inventory of \$93,607 and \$57,305 established as of December 31, 2013 and 2012, respectively.

Property and Equipment - Property and equipment are recorded at cost. Depreciation on property and equipment is computed using the straight-line method over the estimated useful lives of the assets, which range from 5 to 39 years. Maintenance, repairs, and renewals, which neither materially add to the value of the assets nor appreciably prolong their lives, are charged to expense as incurred. Gains and losses from dispositions of property and equipment are reflected in the statement of operations.

Intangible Assets - Intangible Assets acquired, either individually or with a group of other assets, are initially recognized and measured based on fair value. In the 2005 acquisition of the assets from Genius Products, fair value was calculated using a discounted cash flow analysis of the revenue streams for the estimated life of the assets. In the 2013 acquisition of the identifiable artistic-related assets from A Squared, fair value was determined through an independent appraisal. The Company determined that these assets are indefinite-lived. Additional, the Merger transaction with A Squared gave rise to goodwill representing the future economic benefits arising from the assets of A Squared that could not be individually identified and recognized.

The Company develops new video, music, books and digital applications, in addition to adding content, improved animation and songs/features to their existing productions. The costs of new product development and significant

improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred. The Company begins amortization of new products when it is available for general release. Annual amortization cost of intangible assets are computed based on the straight-line method over the remaining economic life of the product, generally such deferred costs are amortized over five years.

The Company reviews all intangible assets periodically to determine if the value has been impaired following the guidance of ASC 350-20 - Goodwill and ASC 350-30 - General Intangibles Other Than Goodwill.

Capitalized Production Cost - The Company capitalizes production costs for episodic series produced in accordance with ASC 926-20, Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. The Company expenses all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

The Company capitalizes production costs for films produced in accordance with ASC 926-20, Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. The Company evaluates their capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

The Company also develops new videos, music, books and digital applications in addition to adding content, improved animation and bonus songs/features to its existing product catalog. In accordance with ASC 350 - Intangible Assets and ASC 730 - Research and Development, the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred.

Revenue Recognition - The Company recognized revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by ASC 605 - Revenue Recognition.

Revenues associated with the sale of products, are recorded when shipped to customers pursuant to approved customer purchase orders resulting in the transfer of title and risk of loss. Cost of sales, rebates and discounts are recorded at the time of revenue recognition or at each financial reporting date.

The Company recognizes revenue in accordance with ASC 926-605, Entertainment-Films - Revenue Recognition. Accordingly, the Company recognizes revenue when (i) persuasive evidence of a sale with customer exists, (ii) the film is complete and has been delivered or is available for delivery, (iii) the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale, (iv) the arrangement fee is fixed or determinable, and (v) collection of the arrangement fee is reasonably assured.

For its distribution, TV, and home entertainment income the Company generally enters in to flat fee arrangements to deliver multiple films or episodes. The Company allocates revenue to each film or episode based on their relative fair market values and recognizes revenue as each film or episode is complete and available for delivery.

The Company's licensing and royalty revenue represents both (a) variable payments based on net sales from brand licensees for content distribution rights. These license agreements are held in conjunction with third parties that are responsible for collecting fees due and remitting to the Company its share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees and (b) licensing income the Company recognizes revenue as an agent in accordance with ASC 605-45, Revenue Recognition - Principal Agent. Accordingly, the Company's revenue is its gross billings to its customers less the amounts it pays to suppliers for their products and services.

Shipping and Handling - The Company records shipping and handling expenses in the period in which they are incurred and are included in the Cost of Goods Sold.

Stock Based Compensation - As required by ASC 718 - Stock Compensation, the Company recognizes an expense related to the fair value of our stock-based compensation awards, including stock options, using the Black-Scholes calculation as of the date of grant.

Advertising Costs - The Company's marketing and sales costs are primarily related to advertising, trade shows, public relation fees and production and distribution of collateral materials. In accordance with ASC 720 regarding Advertising Costs, the Company expenses advertising costs in the period in which the expense is incurred. Marketing and Sales costs incurred by licensees are borne fully by the licensee and are not the responsibility of the Company. Advertising expense for the years ended December 31, 2013 and 2012 was \$113,879 and \$54,454, respectively.

Earnings Per Share - Basic earnings (loss) per common share ("EPS") is calculated by dividing net loss by the weighted average number of common shares outstanding for the period. Diluted EPS is calculated by dividing net loss by the weighted average number of common shares outstanding, plus the assumed exercise of all dilutive securities using the treasury stock or "as converted" method, as appropriate. During periods of net loss, all common stock equivalents are excluded from the diluted EPS calculation because they are antidilutive. Stock options to purchase 37,150 shares of common stock at December 31, 2013 have not been included as they would be anti-dilutive.

Income Taxes- Deferred income tax assets and liabilities are recognized based on differences between the financial statement and tax basis of assets and liabilities using presently enacted tax rates. At each balance sheet date, the Company evaluates the available evidence about future taxable income and other possible sources of realization of deferred tax assets, and records a valuation allowance that reduces the deferred tax assets to an amount that represents management's best estimate of the amount of such deferred tax assets that more likely than not will be realized.

Concentration of Risk - The Company's cash is maintained at one financial institution and from time to time the balances for this account exceed the Federal Deposit Insurance Corporation's ("FDIC's") insured amount. Balances on interest bearing deposits at banks in the United States are insured by the FDIC up to \$250,000 per account. As of December 31, 2013, the Company had one account with an uninsured balance of \$123,053. As of December 31, 2012, the Company had one account with an uninsured balance of \$135,971.

For fiscal year 2013, the Company had three customers whose total revenue exceeded 10% of the total consolidated revenue. These customers account for 21.5%, 19.8%, and 13.7% of total revenue, respectively. Those three accounts made up 0%, 6.3%, and 39.2% of accounts receivable, respectively. For fiscal year 2012, the revenue from two customers comprised 43.8% and 17.7% of the Company's total revenue. Those two accounts made up 0%, and 28.5% of the total accounts receivable balance at December 31, 2012, respectively. The major customers for the year ending December 31, 2013 are not necessarily the same as the major customers at December 31, 2012. There is significant financial risk associated with a dependence upon a small number of customers. The Company periodically assesses the financial strength of these customers and establishes allowances for any anticipated bad debt. At December 31, 2013 and 2012, no allowance for bad debt has been established for the major customers as these amounts are believed to be fully collectible.

Fair value of financial instruments - The carrying amounts of cash, receivables and accrued liabilities approximate fair value due to the short-term maturity of the instruments.

We adopted ASC 820 as of January 1, 2008 for financial instruments measured at fair value on a recurring basis. ASC Topic 820 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States and expands disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Recent Accounting Pronouncements

In July 2013, the FASB issued Accounting Standards Update No. 2013-11, "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists" ("ASU No. 2013-11"). ASU No. 2013-11 requires an entity to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, with limited exceptions. ASU No. 2013-11 is effective for interim and annual periods beginning after December 15, 2013 and may be applied retrospectively.

Management does not believe that any other recently issued, but not effective, accounting standards if currently adopted would have a material effect on the accompanying consolidated financial statements.

Note 3: Business Combination

Overview

On November 15, 2013, the Company entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC, our newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared. A Squared is a children’s entertainment production company that produces original content for children and families that provide entertaining and educational media experiences. A Squared also creates comprehensive consumer product programs in the forms of toys, books and electronics. A Squared works with broadcasters, digital and online distributors and retailers worldwide as well as major toy companies, video game companies and top licensees in the kids and family arena.

Immediately following the Merger, the Company’s pre-Merger shareholders and option holders owned approximately 50% of the Company’s common stock on a fully-diluted basis, and former A Squared shareholders owned approximately 50% of the Company’s common stock on a fully diluted basis.

Pursuant to the terms and conditions of the Merger:

At the closing of the Merger, the membership interests of A Squared issued and outstanding immediately prior to the closing of the Merger were cancelled and the Parent Member received shares of our common stock. Accordingly, an aggregate of 2,972,183 shares of our common stock were issued to the Parent Member.

Upon the closing of the Merger, Klaus Moeller resigned as the Company’s Chief Executive Officer and Chairman, Larry Balaban resigned as the Company’s Corporate Secretary, and Howard Balaban resigned as the Company’s Vice President of Business Development. Simultaneously with the effectiveness of the Merger, Andrew Heyward was appointed as the Company’s Chief Executive Officer, Amy Moynihan Heyward was appointed as the Company’s President and Gregory Payne was appointed as the Company’s Corporate Secretary. Mr. Moeller remains a director of the Company.

Effective upon the Company’s meeting its information obligations under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), Michael Meader, Larry Balaban, Howard Balaban and Saul Hyatt were to resign as directors of the Company and Andrew Heyward, Amy Moynihan Heyward, Lynne Segall, Jeffrey Weiss, Joseph “Gray” Davis, William McDonough and Bernard Cahill were to be appointed as directors of the Company. On December 9, 2013, these changes to the Board of Directors were made effective.

Accounting Treatment

Although the transaction has been structured as a merger of equals, the merger will be treated as a business combination for accounting purposes. The audited financial statements have been prepared using the acquisition method of accounting in accordance with ASC 805, Business Combinations. Genius Brands is the deemed accounting acquirer, and A Squared is the deemed accounting acquiree based on the following factors: the transfer of the Company's equity as consideration for the merger, the relative size of the pre-merger assets and revenue bases with the Company holding a significantly larger asset and revenue base as compared to A Squared, and the fact that the Company paid a premium over the pre-combination fair value of A Squared.

Note 4: Investment in Stan Lee Comics LLC

In November 2009, A Squared Entertainment LLC (“A Squared”) formed a joint venture, Stan Lee Comics, LLC, with POW Entertainment Inc. (“POW”), a California corporation, and Archie Comic Publications, Inc. (“Archie”), a New York corporation, to create, distribute, and exploit comic books and other intellectual property based on exclusive properties created by Stan Lee and owned by POW Entertainment, Inc. Each of A Squared, POW, and Archie own one-third of Stan Lee Comics, LLC.

Upon formation, the parties agreed that POW would contribute certain properties to Stan Lee Comics, LLC as consideration for its ownership interest. Similarly, A Squared would contribute certain creative development functions and be entitled to the exercise of all audio-visual development, production and distribution rights in all media, as well as all merchandising rights, in and to the contributed properties as consideration for its ownership interest. Finally, Archie would be entitled to all comic book publication and distribution rights in and to the contributed properties as consideration for its ownership interest. Each party would be entitled to one-third of any net proceeds derived from the contributed properties or their derivative works after recoupment of production cost and fees. Stan Lee Comics, LLC is the owner of the *Stan Lee and the Mighty 7* property.

Upon closing of the Merger, the Company assumed the rights to Stan Lee Comics, LLC held by A Squared Entertainment, LLC.

Pursuant to ASC 323-30, as of December 31, 2013, the Company has recorded the Investment in Stan Lee Comics LLC at \$0 as no monetary consideration was paid by A Squared Entertainment LLC, or assumed by the Company in the Merger, for the ownership interest in Stan Lee Comics, LLC.

Note 5: Property and Equipment, Net

The Company has property and equipment as follows as of December 31, 2013 and 2012:

	12/31/2013	12/31/2012

Software	15,737	–
Less Accumulated Depreciation	(81,645)	(65,423)

Property and Equipment, Net \$ 78,748 \$ 23,736

The increase in property and equipment is primarily the result of the assumption of \$75,385 in net assets due to the Merger. These increases were offset by certain non-Merger related dispositions of \$70,481 in gross assets which gave rise to a loss on disposition of assets of \$9,469.

During the years ended December 31, 2013 and 2012, the Company recorded depreciation expense of \$13,730 and \$11,056, respectively.

Note 6: Goodwill and Intangible Assets, Net

Goodwill

In association with the Merger, the Company recognized \$10,365,805 in Goodwill, representing the excess of the fair value of the consideration for the Merger over net identifiable assets acquired (See Note 3 - Business Combination for additional information). Pursuant to ASC 350-20, Goodwill is not subject to amortization but is subject to annual review to determine if certain events warrant impairment to the Goodwill asset. As of December 31, 2013, no impairment was warranted or recognized.

Intangible Assets, Net

The Company had following intangible assets as of December 31, 2013 and 2012:

These assets, related to certain properties owned by A Squared and assumed by the Company, were valued using an independent firm during the fourth quarter of 2013. Based on certain legal, regulatory, contractual, and economic factors, the Company has deemed these assets to be indefinite-lived. Hence, pursuant to ASC 350-30, these assets are not subject to amortization. They are tested annually for the recognition of impairment expense. As of December 31, 2013, no impairment was warranted or recognized.

Pursuant to ASC 350-30-35, the Company reviews these intangible assets periodically to determine if the value should be retired or impaired due to recent events. At December 31, 2013, it was determined that certain "Other Intangible Assets" totaling \$470,685 in gross asset value, with accumulated amortization of \$228,961, were to be retired giving rise to an associated loss on disposition of assets totaling \$241,723. On June 27, 2012, the Company entered into a Securities Purchase Agreement whereby the Company issued and sold (i) a \$1,000,000 16% senior secured convertible debenture due June 27, 2014 (the “Debenture”), and (ii) a common stock purchase warrant (the “Debenture Warrant”) to purchase up to 50,000 shares of the Company’s common stock. The initial closing of the Debenture and Warrant Transaction occurred on June 27, 2012 (“Original Issue Date”). The Company issued the Debenture and the Debenture Warrant for the purchase price of \$1,000,000.

(a) The Debenture is convertible, in whole or in part, into shares of Common Stock upon notice by the holder to the Company, subject to certain conversion limitations set forth in the Debenture. The conversion price for the Debenture is \$21.00 per share, subject to adjustments. Interest on the Debenture accrues at the rate of 16% annually and is payable quarterly on February 1, May 1, August 1 and November 1, beginning on November 1, 2012, on any redemption, conversion and at maturity. Interest is payable in cash or at the Company’s option in shares of the Company’s common stock; provided certain conditions are met.

On August 29, 2013, pursuant to an agreement between the Company and certain holders, the original Debenture was assigned and exchanged for an aggregate of \$1,163,333 in new notes with the same provisions (the "Reissued Debenture"). The interest rate and maturity date were not changed. Commencing on December 27, 2013, the Company was to be obligated to redeem a certain amount under the Reissued Debentures on a quarterly basis, in an amount equal to \$300,000 on each of December 27, 2013 and March 27, 2014 and \$488,033 on June 27, 2014. At the assignment to new note holders, the conversion rate of the Reissued Debentures was changed to \$1.212 per share.

On September 6, 2013, a holder of the Reissued Debenture issued notice of voluntary conversion for \$75,000 of the issuance price reducing the aggregate amount of the outstanding debentures to \$1,088,333. The Company issued 61,882 shares of common stock. In conjunction with this issuance there was a reduction in the derivative liability of \$200,495, a reduction in the debt discount of \$67,500, and a loss on the conversion was recorded in the amount of \$67,376.

Note 14: Income Taxes

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carry forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Net deferred tax liabilities consist of the following components as of December 31, 2013 and 2012:

	2013	2012
Deferred tax assets:		
NOL Carryover	\$3,252,200	\$2,531,500
Returns Reserve	16,800	20,700
Inventory Reserve	36,500	22,300
Accrued Related Party Interest	—	36,700
Accrued Officer Compensation	—	158,600

Edgar Filing: Genius Brands International, Inc. - Form 424B3

Accrued Compensated Absences	14,800	38,100
Charitable Contributions	1,300	1,900

Net deferred tax asset	\$-	\$-

F-27

The income tax provision differs from the amount of income tax determined by applying the U.S. federal tax rate to pretax income from continuing operations for the years ended December 31, 2013 and 2012 due to the following:

	2013	2012
Book Loss	\$(2,813,900)	\$(806,400)
Meals and Entertainment	5,900	2,800
Stock Compensation for Services	525,900	229,600
Stock issued for debt extinguishment	1,762,000	(66,800)
Related Party Interest	(12,500)	(45,700)
Accrued Compensated Absences	(23,300)	11,200
Accrued Officer Compensation	(158,600)	116,800
Returns Reserve	(3,900)	(12,100)
Inventory Reserve	14,200	5,800
Depreciation and Amortization	10,200	33,300

At December 31, 2013, the Company had net operating loss carry forwards of approximately \$8,339,000 that may be offset against future taxable income from the year 2014 through 2033. No tax benefit has been reported in the December 31, 2012 financial statements since the potential tax benefit is offset by a valuation allowance of the same amount.

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carry forwards for Federal income tax reporting purposes are subject to annual limitations. Should a change in ownership occur, net operating loss carry forwards may be limited as to use in future years.

The Company accounts for income taxes in accordance with Accounting Standards Codification Topic 740, Income Taxes ("Topic 740"), which requires the recognition of deferred tax liabilities and assets at currently enacted tax rates for the expected future tax consequences of events that have been included in the financial statements or tax returns. A valuation allowance is recognized to reduce the net deferred tax asset to an amount that is more likely than not to be realized.

Topic 740 provides guidance on the accounting for uncertainty in income taxes recognized in a company's financial statements. Topic 740 requires a company to determine whether it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position. If the more-likely-than-not threshold is met, a company must measure the tax position to determine the amount to recognize in the financial statements.

At the adoption date of January 1, 2008, the Company had no unrecognized tax benefit which would affect the effective tax rate if recognized.

The Company includes interest and penalties arising from the underpayment of income taxes in the statements of operation in the provision for income taxes. As of December 31, 2013, the Company had no accrued interest or penalties related to uncertain tax positions.

The Company files income tax returns in the U.S. federal jurisdiction and in the state of California. The Company is currently subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities since inception of the Company.

Note 15: Employment Agreements

On April 26, 2011, the Company and each of Messrs. Moeller, Meader, Larry Balaban and Howard Balaban (the “Pre-Merger Executives”) agreed to terminate all then existing employment agreements for the Pre-Merger Executives and enter into new five-year employment agreements unless written termination is provided by either party. Each employment agreement provides for a graduated base salary beginning at \$165,000 per annum retroactive to March 20, 2011, continuing to December 31, 2011, increasing to \$195,000 for 2012 and \$225,000 for 2013. After 2013, the agreement provided for base salary increases at the discretion of the Board of Directors, with a minimum 5% increase. In addition to base salary, each Pre-Merger Executive was to receive an annual car allowance of \$11,400, and four weeks paid vacation per annum.

On January 10, 2013, Messrs. Moeller, Meader and Howard Balaban agreed to reduce the amount of payments for salary effective January 1, 2013 through January 19, 2013 to \$165,000 and a further reduction to \$140,000 commencing January 20, 2013, continuing until further notice by each one to the Board of Directors. The agreements with each of Messrs. Moeller, Meader and Howard Balaban included the accrual of unpaid salary, the right to convert any or all of the accrued but unpaid salary to common stock of the Company at a conversion price of \$21.00 per share and an amendment to all outstanding stock option grant notices to allow each to retain all rights until the expiration date upon termination unless for cause, as defined in the employment agreement.

On March 28, 2013, Mr. Meader voluntarily resigned his position as President effective April 1, 2013. The Company agreed to the retention of all stock options granted to Mr. Meader as of the date of termination, vesting and expiration dates in accordance with the original grant notices in exchange for a general release of all claims against the Company. The Company entered into a consulting agreement with Mr. Meader to provide continued services for an initial period of twelve months.

On May 2, 2012, the Company entered into a five-year “at will” employment agreement with Jeanene Morgan to serve as the Company’s Chief Financial Officer. The agreement provided a base salary of \$165,000 per annum from January 1, 2012 to December 31, 2012, increasing to \$190,000 on January 1, 2013 and \$215,000 on January 1, 2014. After 2014, the agreement provided for base salary increases at the discretion of the Board of Directors with a minimum 5% increase. The Board of Directors, in its sole discretion, may grant Ms. Morgan a year-end bonus with a value of no less than 2% of EBITDA of the Company (assuming a positive figure) and up to 100% of Ms. Morgan’s base salary. Ms. Morgan was granted an option to purchase 2,000 shares of the Company’s common stock. Ms. Morgan was permitted to participate in all benefit plans of the Company and received four weeks paid vacation.

On January 10, 2013, Ms. Morgan agreed to defer the payment of the salary increase which would have become effective January 1, 2013. The deferral would continue until further notice by Ms. Morgan to the Board of Directors. The agreement included the accrual of unpaid salary, the right to convert any or all of the accrued but unpaid salary to common stock of the Company at a conversion price of \$21.00 per share and an amendment to all outstanding stock

option grant notices to allow Ms. Morgan to retain all rights until the expiration date upon termination unless for cause, as defined in the employment agreement.

On October 29, 2013, the Company executed new two year employment agreements with Messrs. Klaus Moeller, Howard Balaban and Larry Balaban, with an effective date of October 1, 2013, whereby the employees agreed to a reduction of salary. Each was to receive (i) an annual salary of \$20,800 (except that if the Company generates cash flow from operations of at least \$300,000 on an annual basis, the annual salary shall be \$100,000 plus an additional payment of \$75,000 per annum, payable in cash or shares of the Company's common stock in quarterly installments of \$18,750 each, and (ii) the acceleration of vesting of all previously issued option grants to Mr. Moeller under the Company's 2008 Stock Option Plan as well as participation in other Company benefit plans and the ability to receive a year-end performance bonus, at the discretion of the Company's Board of Directors. In the event employment is terminated by the Company without "Cause" as defined in the agreement, the employee shall be entitled to severance payments for twelve months, based on the annual salary rate of \$100,000.

On October 29, 2013, the Company and Ms. Morgan agreed to execute a new employment agreement, effective October 1, 2013, whereby Ms. Morgan agreed to continue to serve as the Company's Chief Financial Officer for a period of two years in consideration for (i) a reduction in annual salary to \$175,000 and (ii) the acceleration of vesting of all previously issued option grants to Ms. Morgan under the Company's 2008 Stock Option Plan as well as participation in other Company benefit plans and the ability to receive a year-end performance bonus, at the discretion of the Company's Board of Directors. In the event Ms. Morgan's employment is terminated by the Company without "Cause" (as defined in the Morgan Employment Agreement), Ms. Morgan shall be entitled to severance payments for twelve months. Additional information regarding Ms. Morgan's agreement is available on the Form 8-K filed on October 30, 2013.

On November 15, 2013, as a closing condition to the Merger, each of Messrs. Moeller, Larry Balaban and Howard Balaban resigned their executive positions with the Company. Accrued but unpaid salaries and benefits payable to these individuals were converted into the Company's common stock.

On November 15, 2013, as a closing condition to the Merger, the Company entered into five-year employment agreements with Andrew Heyward, to serve as Chief Executive Officer, and Amy Moynihan Heyward, to serve as President of the Company, for which each will receive an annual base salary of \$200,000 and \$180,000, respectively.

Subsequent to December 31, 2013, Jeanene Morgan resigned from her position as Chief Financial Officer of the Company.

In addition, the Company has also entered into an agreement with XingXing Digital Corporation, an animation company based in China pursuant to which in exchange for the investment of 100% of the costs of the animation, XingXing is entitled to receive a specified percentage of the net proceeds received by the Company from the exploitation of those series on which XingXing has provided animation services. The series covered by this arrangement are *Secret Millionaires Club* and *Gisele & the Green Team* .

The Company has also entered into a similar arrangement with another production vendor, BangZoom Entertainment, which calls for a payment of \$120,000 from the net profits received by the Company from the exploitation of the series *Secret Millionaires Club* . Note 18: Discontinued Operations

On September 20, 2010, the Company entered into a joint venture agreement between the Company and Dr. Shulamit Ritblatt to form Circle of Education, LLC, a California limited liability company, for the purpose of creation and distribution of a curriculum to promote school readiness for children ages 0-5 years (“COE”). The Company obtained an initial voting and economic interest of seventy-five percent of the outstanding units of the newly formed company in exchange for the contribution of all intellectual property rights the Company had in the Circle of Education program.

In March 2012, the Company and Dr. Ritblatt agreed to terminate the joint venture agreement. COE transferred equal right of ownership in the intellectual property developed as of the date of termination (“IP”) to each of the Company and

Dr. Ritblatt, and in exchange for the rights to the IP, Dr. Ritblatt transferred her units of COE to the Company. Each party will have the right to continue development of the IP and products based on the IP with no further obligation to the other party. Subject to certain limitations for specific channels of distribution reserved for each party for a period of twelve months from the execution of the agreements, both parties have non-exclusive and non-restrictive rights to the use, sublicense or sale of the IP and products created based on the IP.

The Company consolidated the results for the twelve month period ended December 31, 2012 and December 31, 2011 with the results of COE. There were no sales or cost of sales in the twelve month period ended December 31, 2012 and December 31, 2011. COE had general and administrative costs of \$0 and \$21,461 for the twelve month period ended December 31, 2012 and 2011, respectively. As the Company has an economic interest of 100 percent of the total subsidiary as a result of the agreement to terminate COE, the Company recognized 100 percent of the loss, or \$5,366, as noncontrolling interest on the financial statements for the twelve months ended December 31, 2011.

On December 31, 2013, given no activity during the years ended December 31, 2013 and 2012, the Company discontinued all activities related to COE. Note 19: Fair Value Measurements

We adopted ASC Topic 820 (originally issued as SFAS 157, "Fair Value Measurements") as of January 1, 2008 for financial instruments measured at fair value on a recurring basis. ASC Topic 820 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States and expands disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

We measure certain financial instruments at fair value on a recurring basis. As of December 31, 2013, there were no assets or liabilities measured at fair value on a recurring basis. As of December 31, 2012, assets and liabilities measured at fair value on a recurring basis were as:

	Total	Level 1	Level 2	Level 3
Assets	\$-	\$ -	\$ -	\$-
Total assets measured at fair value	-	-	-	-
Liabilities				
Derivative Liability	68,962	-	-	68,962
Convertible Debenture, net of discount	514,853	-	-	514,853
Total liabilities measured at fair value	\$583,815	\$ -	\$ -	\$583,815

Genius Brands International, Inc.

Notes to Financial Statements

March 31, 2014 (unaudited)

Note 1: Organization and Business

Organization and Nature of Business

Genius Brands International, Inc. (“we”, “us”, “our” or the “Company”), creates, produces and distributes original “content with a purpose” for kids, meaning multi-media, multi-format content for kids that we believe is as entertaining as it is enriching. In most cases, the Company wholly owns the original content it produces, and works with a variety of partners who are experts in their respective categories, to develop and distribute it in multiple formats around the world. The Company owns and is developing a portfolio of original children’s entertainment to appeal to toddlers to teens.

The Company commenced operations in January 2006, assuming all of the rights and obligations of its then Chief Executive Officer, Klaus Moeller, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which the Company obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Little Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. On October 17, 2011 and October 18, 2011, the Company filed Articles of Merger with the Secretary of State of the State of Nevada and with the Secretary of State of the State of California, respectively. As previously described on the Company’s Schedule 14C Information Statement, filed with the Securities and Exchange Commission on September 21, 2011, by filing the Articles of Merger, the Company (i) changed its state of incorporation to Nevada from California, and (ii) changed its name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, on October 12, 2011, the Company filed an Issuer Company-Related Action Notification Form with the Financial Industry Regulatory Authority (“FINRA”) and on November 29, 2011 our trading symbol changed from “PENT” to “GNUS”.

On November 15, 2013, we entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the “Member”) and A2E Acquisition LLC, our newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared. A Squared creates, produces and distributes original “content with a purpose” for kids 6-11, whereas Genius

Brands previously focused on toddlers. Today the merged company is focused on providing “content with a purpose” for toddlers to tweens, in all media formats, relevant consumer products categories, in territories around the world.

On April 2, 2014, we filed a certificate of amendment to our Articles of Incorporation to affect a reverse split of our issued and outstanding common stock on a one-for-one hundred basis. The reverse stock split was effective with FINRA on April 7, 2014. All common stock share and per share information in this Quarterly Report, including the accompanying consolidated financial statements and notes thereto, have been adjusted to reflect retrospective application of the reverse split, unless otherwise indicated.

Liquidity

Historically, the Company has incurred net losses. As of March 31, 2014, the Company had an accumulated deficit of \$18,278,217 and a total stockholders' equity of \$11,099,791. At March 31, 2014, the Company had current assets of \$2,159,340, including cash of \$992,753 and current liabilities of \$2,802,119, including short-term debt to related parties which bears no interest and has no stated maturity of \$415,787 and certain disputed trade payables of \$925,000 to which the Company disputes the claim, resulting in a working capital deficit of \$642,779. For the quarter ended March 31, 2014, the Company reported a net loss of \$854,162 and net cash used by operating activities of \$476,146. Management believes that its sales and cash provided by operations, funds from the issuance of common stock in the first quarter of 2014, and proceeds from a long-term, exclusive supply chain services agreement for which it received \$750,000 during the first quarter of 2014 will be sufficient to fund planned operations for the next twelve months. However, there can be no assurance that operations and operating cash flows will continue at the current levels or improve in the near future. If the Company is unable to obtain profitable operations and positive operating cash flows, it may need to seek additional funding or be forced to scale back its development plans or to significantly reduce or terminate operations. Subsequent to March 31, 2014, the Company sold 6,000 Series A Convertible Preferred Shares to accredited investors at a price of \$1,000 per share for which it received gross proceeds of \$6,000,000 and paid offering costs of \$535,000. Additionally, the Company entered into an agreement for musical composition administration services with a third party for which the Company received an advance of \$250,000.

Note 2: Summary of Significant Accounting Policies

Cash Equivalents

The Company considers all highly liquid debt instruments with initial maturities of three months or less to be cash equivalents.

Reverse Stock Split

On April 2, 2014, we filed a certificate of amendment to our Articles of Incorporation to affect a reverse split of our issued and outstanding common stock on a one-for-one hundred basis. The reverse stock split was effective with FINRA on April 7, 2014. All common stock share and per share information in this Form 10-Q, including the accompanying consolidated financial statements and notes thereto, have been adjusted to reflect retrospective application of the reverse split, unless otherwise indicated.

Business Combination

On November 15, 2013, the Company entered into an Agreement and Plan of Reorganization (the "Merger Agreement") with A Squared Entertainment LLC, a Delaware limited liability company ("A Squared"), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the "Parent Member") and A2E Acquisition LLC, our newly formed, wholly-owned Delaware subsidiary ("Acquisition Sub"). Upon closing of the transactions contemplated under the Merger Agreement (the "Merger"), which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

The audited financial statements have been prepared using the acquisition method of accounting in accordance with FASB Accounting Standards Codification ("ASC") 805, Business Combinations.

See Note 3 - Business Combination for additional information.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Genius Brands International, Inc. and its wholly owned subsidiary A Squared Entertainment, LLC. All significant inter-company balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Financial Statement Reclassification

Certain account balances from prior periods have been reclassified in these unaudited consolidated financial statements so as to conform to current period classifications.

Significant Accounting Policies

Allowance for Sales Returns - An Allowance for Sales Returns is estimated based on average sales during the previous year. Based on experience, sales growth, and our customer base, the Company concluded that the allowance for sales returns at March 31, 2014 and December 31, 2013 should be \$43,000 and \$43,000, respectively.

Inventories - Inventories are stated at the lower of cost (average) or market and consist of finished goods such as DVDs, CDs and other products. A reserve for slow-moving and obsolete inventory is established for all inventory deemed potentially non-saleable by management in the period in which it is determined to be potentially non-saleable. The current inventory is considered properly valued and saleable. The Company concluded that there was an appropriate reserve for slow moving and obsolete inventory of \$99,278 and \$93,607 established as of March 31, 2014 and December 31, 2013, respectively.

Property and Equipment - Property and equipment are recorded at cost. Depreciation on property and equipment is computed using the straight-line method over the estimated useful lives of the assets, which range from 5 to 39 years. Maintenance, repairs, and renewals, which neither materially add to the value of the assets nor appreciably prolong their lives, are charged to expense as incurred. Gains and losses from dispositions of property and equipment are reflected in the statement of operations.

Intangible Assets - Intangible Assets acquired, either individually or with a group of other assets, are initially recognized and measured based on fair value. In the 2005 acquisition of the assets from Genius Products, fair value was calculated using a discounted cash flow analysis of the revenue streams for the estimated life of the assets. In the 2013 acquisition of the identifiable artistic-related assets from A Squared, fair value was determined through an independent appraisal. The Company determined that these assets are indefinite-lived. Additionally, the Merger transaction with A Squared gave rise to goodwill representing the future economic benefits arising from the assets of A Squared that could not be individually identified and recognized.

The Company develops new video, music, books and digital applications, in addition to adding content, improved animation and songs/features to their existing productions. The costs of new product development and significant

improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred. The Company begins amortization of new products when it is available for general release. Annual amortization cost of intangible assets are computed based on the straight-line method over the remaining economic life of the product, generally such deferred costs are amortized over five years.

The Company reviews all intangible assets periodically to determine if the value has been impaired following the guidance of ASC 350-20 - Goodwill and ASC 350-30 - General Intangibles Other Than Goodwill.

Capitalized Production Cost - The Company capitalizes production costs for episodic series produced in accordance with ASC 926-20, Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. The Company expenses all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

The Company capitalizes production costs for films produced in accordance with ASC 926-20, Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. The Company evaluates their capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

The Company also develops new videos, music, books and digital applications in addition to adding content, improved animation and bonus songs/features to its existing product catalog. In accordance with ASC 350 - Intangible Assets and ASC 730 - Research and Development, the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred.

Revenue Recognition - The Company recognized revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by ASC 605 - Revenue Recognition.

Revenues associated with the sale of products, are recorded when shipped to customers pursuant to approved customer purchase orders resulting in the transfer of title and risk of loss. Cost of sales, rebates and discounts are recorded at the time of revenue recognition or at each financial reporting date.

The Company recognizes revenue in accordance with ASC 926-605, Entertainment-Films - Revenue Recognition. Accordingly, the Company recognizes revenue when (i) persuasive evidence of a sale with customer exists, (ii) the film is complete and has been delivered or is available for delivery, (iii) the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale, (iv) the arrangement fee is fixed or determinable, and (v) collection of the arrangement fee is reasonably assured.

For its distribution, TV, and home entertainment income the Company generally enters in to flat fee arrangements to deliver multiple films or episodes. The Company allocates revenue to each film or episode based on their relative fair market values and recognizes revenue as each film or episode is complete and available for delivery.

The Company's licensing and royalty revenue represents both (a) variable payments based on net sales from brand licensees for content distribution rights. These license agreements are held in conjunction with third parties that are responsible for collecting fees due and remitting to the Company its share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees and (b) licensing income the Company recognizes revenue as an agent in accordance with ASC 605-45, Revenue Recognition - Principal Agent. Accordingly, the Company's revenue is its gross billings to its customers less the amounts it pays to suppliers for their products and services.

Shipping and Handling - The Company records shipping and handling expenses in the period in which they are incurred and are included in the Cost of Goods Sold.

Stock Based Compensation - As required by ASC 718 - Stock Compensation, the Company recognizes an expense related to the fair value of our stock-based compensation awards, including stock options, using the Black-Scholes calculation as of the date of grant.

Advertising Costs - The Company's marketing and sales costs are primarily related to advertising, trade shows, public relation fees and production and distribution of collateral materials. In accordance with ASC 720 regarding Advertising Costs, the Company expenses advertising costs in the period in which the expense is incurred. Marketing and Sales costs incurred by licensees are borne fully by the licensee and are not the responsibility of the Company. Advertising expense for the three months ended March 31, 2014 and 2013 was \$27,406 and \$13,500, respectively.

Earnings Per Share - Basic earnings (loss) per common share ("EPS") is calculated by dividing net loss by the weighted average number of common shares outstanding for the period. Diluted EPS is calculated by dividing net loss by the weighted average number of common shares outstanding, plus the assumed exercise of all dilutive securities using the treasury stock or "as converted" method, as appropriate. During periods of net loss, all common stock equivalents are excluded from the diluted EPS calculation because they are antidilutive. Stock options to purchase 37,150 shares of common stock at March 31, 2014 have not been included as they would be anti-dilutive.

Income Taxes- Deferred income tax assets and liabilities are recognized based on differences between the financial statement and tax basis of assets and liabilities using presently enacted tax rates. At each balance sheet date, the Company evaluates the available evidence about future taxable income and other possible sources of realization of deferred tax assets, and records a valuation allowance that reduces the deferred tax assets to an amount that represents management's best estimate of the amount of such deferred tax assets that more likely than not will be realized.

Fair value of financial instruments - The carrying amounts of cash, receivables and accrued liabilities approximate fair value due to the short-term maturity of the instruments.

We adopted ASC 820 as of January 1, 2008 for financial instruments measured at fair value on a recurring basis. ASC Topic 820 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States and expands disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;

- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and

- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Recent Accounting Pronouncements

In July 2013, the FASB issued Accounting Standards Update No. 2013-11, "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists" ("ASU No. 2013-11"). ASU No. 2013-11 requires an entity to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, with limited exceptions. ASU No. 2013-11 is effective for interim and annual periods beginning after December 15, 2013 and may be applied retrospectively.

Management does not believe that any other recently issued, but not effective, accounting standards if currently adopted would have a material effect on the accompanying consolidated financial statements.

Note 3: Business Combination

Overview

On November 15, 2013, the Company entered into the Merger Agreement with A Squared and Acquisition Sub. Upon closing of the Merger, which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared. A Squared is a children's entertainment production company that produces original content for children and families that provide entertaining and educational media experiences. A Squared also creates comprehensive consumer product programs in the forms of toys, books and electronics. A Squared works with broadcasters, digital and online distributors and retailers worldwide as well as major toy companies, video game companies and top licensees in the kids and family arena.

F-43

Immediately following the Merger, the Company's pre-Merger shareholders and option holders owned approximately 50% of the Company's common stock on a fully-diluted basis, and former A Squared members owned approximately 50% of the Company's common stock on a fully diluted basis.

Pursuant to the terms and conditions of the Merger:

At the closing of the Merger, the membership interests of A Squared issued and outstanding immediately prior to the closing of the Merger were cancelled and the Member received shares of our common stock. Accordingly, an aggregate of 2,972,183 shares of our common stock were issued to the Parent Member.

Upon the closing of the Merger, Klaus Moeller resigned as the Company's Chief Executive Officer and Chairman, Larry Balaban resigned as the Company's Corporate Secretary, and Howard Balaban resigned as the Company's Vice President of Business Development. Simultaneously with the effectiveness of the Merger, Andrew Heyward was appointed as the Company's Chief Executive Officer, Amy Moynihan Heyward was appointed as the Company's President and Gregory Payne was appointed as the Company's Corporate Secretary. Mr. Moeller remains a director of the Company.

Effective upon the Company's meeting its information obligations under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), Michael Meader, Larry Balaban, Howard Balaban and Saul Hyatt resigned as directors of the Company and Andrew Heyward, Amy Moynihan Heyward, Lynne Segall, Jeffrey Weiss, Joseph "Gray" Davis, William McDonough and Bernard Cahill were appointed as directors of the Company. On December 9, 2013, these changes to the Board of Directors were made effective.

Accounting Treatment

Although the transaction has been structured as a merger of equals, the merger will be treated as a business combination for accounting purposes. The audited financial statements have been prepared using the acquisition method of accounting in accordance with ASC 805, Business Combinations. Genius Brands is the deemed accounting acquirer, and A Squared is the deemed accounting acquiree based on the following factors: the transfer of the Company's equity as consideration for the merger, the relative size of the pre-merger assets and revenue bases with the Company holding a significantly larger asset and revenue base as compared to A Squared, and the fact that the Company paid a premium over the pre-combination fair value of A Squared.
