PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in this prospectus and does not contain all of the information that you should consider in making your investment decision. Before deciding to invest in our securities, you should read this entire prospectus carefully, including the sections of this prospectus entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our financial statements and related notes contained elsewhere in this prospectus. References in this prospectus to “we,” “us,” “our”, the “Company” and similar words, refer to Genius Brands International, Inc. and its wholly-owned subsidiary, A Squared Entertainment LLC, unless the context otherwise indicates.

Overview

Genius Brands International, Inc. is a global content and brand management company dedicated to providing entertaining and enriching “content and products with a purpose” for toddlers to tweens. Led by industry veterans Andrew Heyward (Chief Executive Officer) and Amy Moynihan Heyward (President), we produce original content and license the rights to that content to a variety of partners. Our licensees include (i) companies to which the audio-visual rights are licensed for exhibition in various formats such as Pay Television, Free or Broadcast Television, Video-on-Demand (“VOD”), subscription on demand (“SVOD”), DVDs/CDs and more and (ii) companies that develop and distribute products based on our content within different product categories such as toys, electronics, publishing, home goods, stationary, gifts, and more.

We own a portfolio of original children’s entertainment that is targeted at toddlers to teens including the award-winning *Baby Genius*, Warren Buffett's *Secret Millionaires Club*, *Thomas Edison's Secret Lab* and *Stan Lee's Mighty 7*, the first project from *Stan Lee Comics, LLC*, a joint venture with legendary Stan Lee's POW! Entertainment.

In addition to our wholly-owned brands, we also act as licensing agent for certain brands, leveraging our existing licensing infrastructure to expand these brands into new product categories, new retailers, and new territories. These include the best-selling children’s book series, *Llama Llama*; *Psycho Bunny*, a luxury apparel line; *From Frank*, a humor greeting card and product line; and *Celescence Technologies*, the world's leading microencapsulation company.

On April 2, 2014, we filed a Certificate of Amendment to our Articles of Incorporation to effect a one-for-one-hundred reverse split of our common stock (the “Reverse Split”). All per share amounts referenced herein are reflective of the Reverse Split.

Products

Original Content

We own and produce original content that is meant to entertain and enrich toddlers to tweens. We have found it generally requires a period of three years from the inception of an idea, through production of the content and development and distribution of a range of consumer products to retail, creating an inevitable lag between the creation of the intellectual property to the realization of economic or accounting benefit of those assets. Our goal is to maintain a robust and diverse portfolio of brands, appealing to various interests and ages, featuring evergreen topics with global appeal. Our portfolio of intellectual property can be licensed, re-licensed, and exploited for years to come, with revenue derived from multiple sources and territories.

Licensing Agent

Augmenting our original content, we act as an agent for established brands which maximizes the existing infrastructure while creating incremental sources of revenue for us without additional overhead:

Psycho Bunny: Inspired by the 17th-century maritime marauders and secret societies such as the infamous Skull & Bones, Psycho Bunny creates timeless wardrobe essentials that couple refined English tailoring with bold American design. Currently available in limited product categories in upscale department stores, we are expanding this popular brand to additional product lines, new retail outlets, and additional international territories. We have already signed licensees for headwear and footwear.

From Frank: Already a popular line of greeting cards, we are expanding the brand into new product categories and have already signed licensees for publishing, stationery, gifts, lottery and more.

Celessence: Celessence's microencapsulation technology releases fragrance and is used to scent products including socks, stationery, toys, bedding and pillows. We are licensing this technology to a range of products from homewares, bedding, fragrance, automotive, pets, apparel and more.

Llama Llama: With 9.4 million units in print, Anna Dewdney's Llama Llama books have all been New York Times bestsellers, with several titles claiming the #1 spot. Her work has been translated into eight languages. Praised as a "geographer extraordinaire of the emotional terrain of preschoolers and their mothers" (Chicago Tribune), Dewdney's soothing tales are synonymous with calming early childhood anxiety. Llama Llama Red Pajama was chosen as Jumpstart's Read for the Record book in 2011, setting the world record for the most reads of a particular book on one day. Dewdney is an outspoken advocate for literacy and many states and non-profits use her books for literacy campaigns and programs, including the Library of Congress.

RISK FACTORS

Any investment in our common stock involves a high degree of risk. Investors should carefully consider the risks described below and all of the information contained in this prospectus before deciding whether to purchase our common stock. Our business, financial condition or results of operations could be materially adversely affected by these risks. This prospectus also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks we face as described below and elsewhere in this prospectus.

Risks Related to Our Business

We have incurred net losses since inception.

We have a history of operating losses and incurred net losses in each fiscal quarter since our inception. For the six months ended June 30, 2015, we generated revenues of \$430,249 and incurred a net loss of \$1,624,117. For the year ended December 31, 2014, we generated revenues of \$925,788 and incurred a net loss of \$3,728,599, while for the previous year, we generated revenue of \$2,556,538 and incurred a net loss of \$7,216,031. These losses, among other things, have had an adverse effect on our results of operations, financial condition, stockholders' equity, net current assets and working capital.

We will need to generate additional revenue to achieve profitability. We have already achieved significant cost savings and are beginning to generate revenues derived from our existing properties, properties in production, new brands being introduced into the marketplace, the re-launch of Baby Genius, and incremental revenue derived from the licensing business we manage on behalf of our clients. However, the ability to sustain these revenues and generate significant additional revenues or achieve profitability will depend upon numerous factors some of which are outside of our control.

We may need additional capital to fund our growing operations. If we are not able to obtain sufficient capital, we may then be forced to limit the scope of our operations.

We expect that as our business continues to grow we may need additional working capital. While we believe that we will be able to fund our business through operating cash flows generated through our enhanced business model, if these cash flows are less than anticipated or do not come to fruition in the time horizon we anticipate, we will require additional debt and /or equity financing to sustain our operations. If adequate additional debt and/or equity financing

is not available on reasonable terms or at all, we may not be able to continue to expand our business, and we will have to modify our business plans accordingly. These factors could have a material adverse effect on our future operating results and our financial condition.

If we reach a point where we are unable to raise needed additional funds to continue as a going concern, we could be forced to cease our activities and dissolve. In such an event, we will need to satisfy various creditors and other claimants, severance, lease termination and other dissolution-related obligations.

Our ability to raise financing through sales of equity securities depends on general market conditions and the demand for our common stock. We may be unable to raise adequate capital through sales of equity securities, and if our stock has a low market price at the time of such sales, our existing stockholders could experience substantial dilution. If adequate financing is not available or unavailable on acceptable terms, we may find we are unable to fund expansion, continue offering products and services, take advantage of acquisition opportunities, develop or enhance services or products, or to respond to competitive pressures in the industry which may jeopardize our ability to continue operations.

Our revenues and results of operations may fluctuate from period to period.

Cash flow and projections for any entertainment company producing original content can be expected to fluctuate until the animated content and ancillary consumer products are in the market and could fluctuate thereafter even when the content and products are in the marketplace. There is significant lead time in developing and producing animated content before that content is in the marketplace. Unanticipated delays in entertainment production can delay the release of the content into the marketplace. Structured retail windows that dictate when new products can be introduced at retail are also out of our control. While we believe we have mitigated this in part by creating a slate of properties at various stages of development or production as well as representing certain established brands which contribute immediately to cash flow, any delays in the production and release of our content and products or any changes in the preferences of our customers could result in lower than anticipated cash flows.

As with our cash flows, our revenues and results of operations depend significantly upon the appeal of our content to our customers, the timing of releases of our products and the commercial success of our products, none of which can be predicted with certainty. Accordingly, our revenues and results of operations may fluctuate from period to period. The results of one period may not be indicative of the results of any future period. Any quarterly fluctuations that we report in the future may not match the expectations of market analysts and investors. This could cause the price of our common stock to fluctuate.

Production cost will be amortized according to the individual film forecasting methodology. If estimated remaining revenue is not sufficient to recover the unamortized production costs, the unamortized production costs will be written down to fair value. In any given quarter, if we lower our previous forecast with respect to total anticipated revenue, we will be required to adjust amortization of related production costs. These adjustments would adversely impact our business, operating results and financial condition.

Changes in the United States, global or regional economic conditions could adversely affect the profitability of our business.

A decrease in economic activity in the United States or in other regions of the world in which we do business could adversely affect demand for our products, thus reducing our revenue and earnings. A decline in economic conditions could reduce demand for and sales of our products. In addition, an increase in price levels generally, or in price levels in a particular sector, could result in a shift in consumer demand away from the animated content and consumer products we offer, which could also decrease our revenues, increase our costs, or both.

Inaccurately anticipating changes and trends in popular culture, media and movies, fashion, or technology can negatively affect our sales.

While trends in the toddler to tween sector change quickly, we respond to trends and developments by modifying, refreshing, extending, and expanding our product offerings on an on-going basis. However, we operate in extremely competitive industries where the ultimate appeal and popularity of content and products targeted to this sector can be difficult to predict. We believe our focus on “content and products with a purpose” serves an underrepresented area of the toddler to tween market; however, if the interest of our audience trends away from our current properties toward other offerings based on current media, movies, animated content or characters, and if we fail to accurately anticipate trends in popular culture, movies, media, fashion, or technology, our products may not be accepted by children, parents, or families and our revenues, profitability, and results of operations may be adversely affected.

If we are unable to compete effectively with existing or new competitors, our sales and market share could decline.

The industries in which we operate are competitive, and our results of operations are sensitive to, and may be adversely affected by, competitive pricing, promotional pressures, additional competitor offerings and other factors, many of which are beyond our control. Indirectly through our licensing arrangements, we compete for retailers as well as other outlets for the sale and promotion of our licensed merchandise. Our primary competition comes from competitors such as The Walt Disney Company, Nickelodeon Studios, and the Cartoon Network.

We have sought a competitive advantage by providing “content and products with a purpose” which are both entertaining and enriching for children and offer differentiated value that parents seek in making purchasing decisions for their children. While we do not believe that this value proposition is specifically offered by our competitors, our competitors have greater financial resources and more developed marketing channels than we do which could affect our ability, through our licensees, to secure shelf space thereby decreasing our revenues or affecting our profitability and results of operations.

The production of our animated content is accomplished through third-party production and animation studios around the world, and any failure of these third-parties could negatively impact our business.

As part of our business model, to manage cash flows, we have partnered with a number of third-party production and animation studios around the world for the production of our new content in which these partners fund the production of the content in exchange for a portion of revenues generated in certain territories. We are reliant on our partners to produce and deliver the content on a timely basis meeting the predetermined specifications for that product. The delivery of inferior content could result in additional expenditures by us to correct any problems to ensure marketability. Further, delays in the delivery of the finished content to us could result in our failing to deliver the product to broadcasters to which it has been pre-licensed. While we believe we have mitigated this risk by aligning the economic interests of our partners with ours and managing the production process remotely on a daily basis, any failures or delays from our production partners could negatively affect our profitability.

If we fail to honor our obligations under the terms of our third party supply agreements, our business may be adversely affected.

In early 2014, we entered into an exclusive 3-year arrangement with Sony DADC US Inc. which gives Sony the right to fulfill our DVD and CD duplication requirements for our product. In consideration for these exclusive rights we received an initial marketing support payment of \$750,000 with an additional \$750,000 paid in February 2015. Sony will recoup the marketing support payment through a premium on the physical media unit costs. We are obligated to repay a pro-rata portion of the marketing support payment if we do not order a minimum number of DVD/CD units during the term. However, while we believe the minimum order threshold is achievable over the term based on our existing properties and properties currently in production or in development, if we does not meet the minimum order threshold we would be obligated to repay any outstanding balances in 2017 and to do so may require it to divert funds from operations which may have a material adverse effect on its business.

Failure to successfully market or advertise our products could have an adverse effect on our business, financial condition and results of operations.

Our products are marketed worldwide through a diverse spectrum of advertising and promotional programs. Our ability to sell products is dependent in part upon the success of these programs. If we or our licensees do not successfully market our products or if media or other advertising or promotional costs increase, these factors could have an adverse effect on our business, financial condition, and results of operations.

In addition, the availability of retailer programs relating to product placement, co-op advertising and market development funds, and our ability and willingness to pay for such programs, are important with respect to promoting our properties. In addition, although we may have agreements for the advertising and promotion of our products through our licensees, we will not be in direct control of those marketing efforts and those efforts may not be done in a manner that will maximize sales of our products and may have a material adverse effect on our business and operations.

We may not be able to keep pace with technological advances.

The entertainment industry in general, and the music and motion picture industries in particular, continue to undergo significant changes, primarily due to technological developments. Because of the rapid growth of technology, shifting consumer tastes and the popularity and availability of other forms of entertainment, it is impossible to predict the overall effect these factors could have on potential revenue from, and profitability of, distributing entertainment programming. As it is also impossible to predict the overall effect these factors could have on our ability to compete effectively in a changing market, if we are not able to keep pace with these technological advances, our revenues, profitability and results from operations may be materially adversely affected.

Loss of key personnel may adversely affect our business.

Our success greatly depends on the performance of our executive management team, including Andrew Heyward, our Chief Executive Officer and Amy Moynihan Heyward, our President. The loss of the services of any member of our core executive management team or other key persons could have a material adverse effect on our business, results of operations and financial condition.

Our management team currently owns a substantial interest in our voting stock.

Our officers and directors control a substantial portion of our voting securities. Therefore, our management may significantly affect the outcome of all corporate actions and decisions for an indefinite period of time including election of directors, amendment of charter documents and approval of mergers and other significant corporate transactions. In addition, sales of significant amounts of shares held by our directors and executive officers, or the prospect of these sales, could adversely affect the market price of our common stock.

Litigation may harm our business or otherwise distract management.

Substantial, complex or extended litigation could cause us to incur large expenditures and could distract management. For example, lawsuits by licensors, consumers, employees or stockholders could be very costly and disrupt business. While disputes from time to time are not uncommon, we may not be able to resolve such disputes on terms favorable to us.

Our vendors and licensees may be subject to various laws and government regulations, violation of which could subject these parties to sanctions which could lead to increased costs or the interruption of normal business operations that could negatively impact our financial condition and results of operations.

Our vendors and licensees may operate in a highly regulated environment in the US and international markets. Federal, state and local governmental entities and foreign governments may regulate aspects of their businesses, including the production or distribution of our content or products. These regulations may include accounting standards, taxation requirements (including changes in applicable income tax rates, new tax laws and revised tax law interpretations), product safety and other safety standards, trade restrictions, regulations regarding financial matters, environmental regulations, advertising directed toward children, product content, and other administrative and regulatory restrictions. While we believe our vendors and licensees take all the steps necessary to comply with these laws and regulations, there can be no assurance that they are compliant or will be in compliance in the future. Failure to comply could result in monetary liabilities and other sanctions which could increase our costs or decrease our revenue resulting in a negative impact on our business, financial condition and results of operations.

Protecting and defending against intellectual property claims may have a material adverse effect on our business.

Our ability to compete in the animated content and entertainment industry depends, in part, upon successful protection of our proprietary and intellectual property. We protect our property rights to our productions through available copyright and trademark laws and licensing and distribution arrangements with reputable companies in specific territories and media for limited durations. Despite these precautions, existing copyright and trademark laws afford only limited, or no, practical protection in some jurisdictions. It may be possible for unauthorized third parties to copy and distribute our productions or portions of our productions. In addition, although we own most of the music and intellectual property included in our products, there are some titles which the music or other elements are in the public domain and for which it is difficult or even impossible to determine whether anyone has obtained ownership or royalty rights. It is an inherent risk in our industry that people may make such claims with respect to any title already included in our products, whether or not such claims can be substantiated. Litigation may be necessary in the future to enforce our intellectual property rights, to protect our trade secrets, to determine the validity and scope of the proprietary rights of others or to defend against claims of infringement or invalidity. Any such litigation could result in substantial costs and the resulting diversion of resources could have an adverse effect on our business, operating results or financial condition.

Risks Related to Our Common Stock and This Offering

Our common stock may be affected by limited trading volume and price fluctuations which could adversely impact the value of our common stock.

Trading in our common stock can fluctuate significantly and there can be no assurance that an active trading market will either develop or be maintained. Our common stock is expected to continue to experience significant price and volume fluctuations. This trading activity could adversely affect the market price of our common stock without regard to our operating performance. In addition, we believe that factors such as quarterly fluctuations in our financial results and changes in the overall economy or the condition of the financial markets could cause the price of our common stock to fluctuate substantially. These fluctuations may also cause short sellers to periodically enter the market in the belief that our stock price will decline in the future. We cannot predict the actions of market participants or the stock market as a whole. We can offer no assurances that the market for our common stock will be stable or that our stock price will fluctuate in a manner that is consistent with our operating results.

We do not expect to pay dividends in the future and any return on investment may be limited to the value of our common stock.

We do not currently anticipate paying cash dividends in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition and other business and economic factors affecting it at such time as the Board of Directors may consider relevant. Our current intention is to apply net earnings, if any, in the foreseeable future to increasing our capital base and development and marketing efforts. There can be no assurance that we will ever have sufficient earnings to declare and pay dividends to the holders of our common stock, and in any event, a decision to declare and pay dividends is at the sole discretion of our Board of Directors. If we do not pay dividends, our common stock may be less valuable because the return on investment will only occur if its stock price appreciates.

The warrants are speculative in nature.

The warrants to be issued to investors in this offering do not confer any rights of common stock ownership on their holders, such as voting rights or the right to receive dividends, but rather merely represent the right to acquire shares of common stock at a fixed price for a limited period of time. Specifically, commencing on the date of issuance, holders of the warrants may exercise their right to acquire the common stock and pay an exercise price of \$___ per share, prior to years from the date of issuance after which date any unexercised warrants will expire and have no further value. Moreover, following this offering, the market value of the warrants is uncertain and there can be no assurance that the market value of the warrants will equal or exceed their public offering price. The warrants will not be listed or quoted for trading on any market or exchange. There can be no assurance that the market price of the common stock will ever equal or exceed the exercise price of the warrants, and consequently, whether it will ever be profitable for holders of the warrants to exercise the warrants.

We are authorized to issue “blank check” preferred stock without stockholder approval, which could adversely impact the rights of holders of our common stock.

Our Articles of Incorporation authorize us to issue up to 10,000,000 shares of blank check preferred stock, 6,000 shares of which have been designated Series A Convertible Preferred Stock (see “Description of Securities”). Any additional preferred stock that we issue in the future may rank ahead of our common stock in terms of dividend priority or liquidation premiums and may have greater voting rights than our common stock. In addition, such preferred stock may contain provisions allowing those shares to be converted into shares of common stock, which could dilute the value of common stock to current stockholders and could adversely affect the market price, if any, of our common stock. In addition, the preferred stock could be utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of the Company. Although we have no present intention to issue any additional shares of authorized preferred stock, there can be no assurance that we will not do so in the future.

Our management will have broad discretion over the use of the net proceeds from this offering and we may use the net proceeds in ways with which you disagree.

We currently intend to use the net proceeds from this offering for working capital and general corporate purposes and possibly acquisitions of other companies, content, products or technologies, though no such acquisitions are currently contemplated. We have not allocated specific amounts of the net proceeds from this offering for any of the foregoing purposes. Accordingly, our management will have significant discretion and flexibility in applying the net proceeds of this offering. You will be relying on the judgment of our management with regard to the use of these net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately. It is possible that the net proceeds will be invested in a way that does not yield a favorable, or any, return for us or our stockholders. The failure of our management to use such funds effectively could have a material adverse effect on our business, prospects, financial condition, and results of operation.

Additional stock offerings in the future may dilute your percentage ownership of our company.

Given our plans and expectations that we may need additional capital and personnel, we may need to issue additional shares of common stock or securities convertible or exercisable for shares of common stock, including convertible preferred stock, convertible notes, stock options or warrants. The issuance of additional securities in the future will dilute the percentage ownership of then current stockholders.

You will experience immediate and substantial dilution as a result of this offering and may experience additional dilution in the future.

You will incur immediate and substantial dilution as a result of this offering. After giving effect to the sale by us of Units offered in this offering at an assumed public offering price of \$ per Unit (the closing price of a share of our common stock on , 2015), and after deducting the underwriter's discount and estimated offering expenses payable by us, investors in this offering can expect an immediate dilution of \$ per share. In addition, in the past, we issued options and warrants to acquire shares of common stock. To the extent these options or warrants are ultimately exercised, you will sustain future dilution.

If we fail to maintain effective internal controls over financial reporting, the price of our common stock may be adversely affected.

Our internal control over financial reporting may have weaknesses and conditions that could require correction or remediation, the disclosure of which may have an adverse impact on the price of our common stock. We are required to establish and maintain appropriate internal controls over financial reporting. Failure to establish those controls, or any failure of those controls once established, could adversely affect our public disclosures regarding our business, prospects, financial condition or results of operations.

Rules adopted by the SEC pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 require an annual assessment of internal controls over financial reporting, and for certain issuers an attestation of this assessment by the issuer's independent registered public accounting firm. The standards that must be met for management to assess the internal controls over financial reporting as effective are evolving and complex, and require significant documentation, testing, and possible remediation to meet the detailed standards. We expect to incur significant expenses and to devote resources to Section 404 compliance on an ongoing basis. It is difficult for us to predict how long it will take or costly it will be to complete the assessment of the effectiveness of our internal control over financial reporting for each year and to remediate any deficiencies in our internal control over financial reporting. As a result, we may not be able to complete the assessment and remediation process on a timely basis. In addition, management's assessment of internal controls over financial reporting may identify weaknesses and conditions that need to be addressed in our internal controls over financial reporting or other matters that may raise concerns for investors. Any actual or perceived weaknesses and conditions that need to be addressed in our internal control over financial reporting or disclosure of management's assessment of our internal controls over financial reporting may have an adverse impact on the price of our common stock.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS AND INDUSTRY DATA

Such statements include statements regarding our expectations, hopes, beliefs or intentions regarding the future, including but not limited to statements regarding our market, strategy, competition, development plans (including acquisitions and expansion), financing, revenues, operations, and compliance with applicable laws. Forward-looking statements involve certain risks and uncertainties, and actual results may differ materially from those discussed in any such statement. Factors that could cause actual results to differ materially from such forward-looking statements include the risks described in greater detail in the section of this prospectus entitled "Risk Factors". All forward-looking statements in this document are made as of the date hereof, based on information available to us as of the date hereof, and we assume no obligation to update any forward-looking statement, except as may be required under applicable securities laws. Market data used throughout this prospectus is based on published third party reports or the good faith estimates of management, which estimates are based upon their review of internal surveys, independent industry publications and other publicly available information. Management believes such third party sources are reliable, but there can be no assurance that such data is in fact accurate.

You should review carefully the section entitled "Risk Factors" for a discussion of these and other risks that relate to our business and investing in shares of our common stock.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the Units offered pursuant to this prospectus will be approximately \$ million, or approximately \$ million if the underwriter exercises in full its option to purchase additional shares and/or additional warrants, after deducting the underwriting discount and the estimated offering expenses that are payable by us.

We currently intend to use the net proceeds from this offering for a combination of both general corporate purposes, which may include product development costs, marketing and sales, expansion of our development capabilities, and working capital and possibly acquisitions of other companies, content, products or technologies, though no such acquisitions are currently contemplated.

We have not yet determined the amount of net proceeds to be used specifically for any of the foregoing purposes. Accordingly, our management will have significant discretion and flexibility in applying the net proceeds from this offering. Pending any use as described above, we intend to invest the net proceeds in high-quality, short-term, interest-bearing securities.

The following table sets forth our capitalization, as of June 30, 2015:

You should consider this table in conjunction with our financial statements and the notes to those financial statements included elsewhere in this prospectus.

DILUTION

If you invest in our securities, your interest will be immediately and substantially diluted to the extent of the difference between the public offering price per Unit (without assigning any value to the warrants being sold) and the pro forma net tangible book value per share of our common stock after giving effect to this offering.

Our net tangible book value as of June 30, 2015 was \$(205,691) or approximately \$(0.03) per share of common stock, based upon 6,529,450 shares outstanding as of June 30, 2015. After giving effect to the sale of the Units in this offering at the assumed public offering price of \$_____ per Unit and after deducting underwriting discounts and commissions and other estimated offering expenses payable by us, our pro forma net tangible book value at June 30, 2015 would have been approximately \$_____ or \$_____ per share. This represents an immediate increase in pro forma net tangible book value of approximately \$_____ per share to our existing stockholders, and an immediate dilution of \$_____ per share to investors purchasing securities in this offering.

Dilution in pro forma net tangible book value per share represents the difference between the amount per share paid by purchasers of our common stock in this offering and the pro forma net tangible book value per share of our common stock immediately after this offering.

The following table illustrates the per share dilution to investors purchasing shares in the offering:

Assumed public offering price per Unit	\$
Net tangible book value per share as of June 30, 2015	\$(0.03)
Increase in net tangible book value per share attributable to this offering	\$
Pro forma net tangible book value per share after this offering	\$
Amount of dilution in net tangible book value per share to new investors in this offering	\$

The information above assumes that the underwriter does not exercise its over-allotment option. If the underwriter exercises its over-allotment option in full, the pro forma net tangible book value will increase to \$_____ per share, representing an immediate increase to existing stockholders of \$_____ per share and an immediate dilution of \$_____ per share to new investors. If any shares are issued upon exercise of outstanding options or warrants, or conversion of outstanding convertible preferred stock, new investors will experience further dilution.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read together with our financial statements and the related notes appearing elsewhere in this prospectus. This discussion contains forward-looking statements reflecting our current expectations that involve risks and uncertainties. See "Cautionary Note Regarding Forward-Looking Statements and Industry Data" for a discussion of the uncertainties, risks and assumptions associated with these statements. Actual results and the timing of events could differ materially from those discussed in our forward-looking statements as a result of many factors, including those set forth under "Risk Factors" and elsewhere in this prospectus.

Overview

The MD&A is based on our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make certain estimates and judgments that affect the reported amounts of assets, liabilities and expenses and related disclosure of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Results of Operations

Comparison of Results of Operations for the Three months Ended June 30, 2015 and 2014

Below is a discussion of our operating results for the three months ended June 30, 2015, compared to our operating results during the comparable period in 2014. The decrease in net loss resulted from a decrease in revenue, a decrease in costs of sales, increases in operating costs, and offset by decreases in other expense, as described below.

Revenues.

	6/30/2015	6/30/2014	Change	% Change
Licensing & Royalties	\$ 121,322	\$ 61,887	\$ 59,435	96%

Television & Home Entertainment revenue is generated from distribution of our properties for broadcast on television, VOD, or SVOD in domestic and foreign markets and the sale of DVDs for home entertainment. During the three months ended June 30, 2015, Television & Home Entertainment revenue decreased \$27,939 compared to the three months ended June 30, 2014, as we continue to earn revenue from properties previously completed and in anticipation of meeting revenue recognition criteria of our current but yet to be delivered projects.

Product sales represent physical products including DVDs and CDs in which the Company holds intellectual property rights such as trademarks and copyrights to the characters and which are manufactured and sold by the Company either directly at wholesale to retail stores or online retailers. During the three months ended June 30, 2015, product sales decreased by \$115,077 compared to the three months ended June 30, 2014 due to the change in business strategy whereby the Company has transitioned from the direct production and sale of physical products to a licensing model in which these functions were outsourced to industry experts and category leaders. The Company plans to re-launch its *Baby Genius* brand in September 2015 utilizing a newly designed and expanded product line, resulting in a period-over-period loss in *Baby Genius* sales.

The decrease was a result of the decrease in product sales discussed above as well as the elimination of the overhead associated with handling sales directly, replaced by a new model whereby these costs will be borne by our licensee.

General and administrative costs for the three months ended June 30, 2015 increased \$17,720 compared to the same period in 2014. Comparison of Results of Operations for the twelve months ended December 31, 2014 and 2013

Below is a discussion of our 2014 operating results compared to our 2013 operating results. 2014 represented a transitional year as the Company restructured and changed the way it will manage its operations in the future to a licensing model whereby the Company minimizes its risk and outsources the manufacturing and distribution of its products to industry leaders in their respective industries. In addition, the Company plans to re-launch its *Baby Genius* brand in September 2015 using a newly designed and expanded product line, resulting in a year over year loss in *Baby Genius* sales. In addition to the re-launch of *Baby Genius* this year, the Company will also be introducing several new brands in addition to the licensing business it now manages on behalf of three existing retail brands.

Our summary results for the twelve months ended December 31, 2014 and 2013 are below.

Revenues. Revenues by product segment and for the Company as a whole were as follows:

	12/31/2014	12/31/2013	Change	% Change
Product Sales	\$497,273	\$1,682,780	\$(1,185,507)	-70%
Television & Home Entertainment	117,670	505,552	(387,882)	-77%
Licensing & Royalties	310,845	368,206	(57,361)	-16%

Product sales represent physical products in which the Company holds intellectual property rights such as trademarks and copyrights, whether registered or unregistered, to the characters and which are manufactured and sold by the Company either directly at wholesale to retail stores or online retailers. During the twelve months ended December 31, 2014, product sales decreased by \$1,185,507 due to the change in business strategy whereby the Company has transitioned from the direct production and sale of physical products including DVDs and CDs to a licensing model in which these functions were outsourced to industry experts and category leaders. The Company plans to re-launch its *Baby Genius* brand in September 2015 utilizing a newly designed and expanded product line, resulting in a year over year loss in *Baby Genius* sales.

Television & Home Entertainment revenue is generated from distribution of our properties for broadcast on television and other platforms in domestic and foreign markets and the sale of DVDs for home entertainment. Television & Home Entertainment revenue totaled \$117,670 during the twelve months ended December 31, 2014 compared to \$505,552 in the prior period. Higher revenue in the 2013 period related to the distribution of certain properties for which revenue recognition criteria had been met. While the Company has expanded its portfolio of properties in 2014 and is actively licensing these properties in advance of their release into the marketplace, revenue related to these properties, especially *Thomas Edison's Secret Lab*, will be recognized in future periods once revenue recognition criteria have been met.

Licensing and royalty revenue includes items for which we license the rights to our copyrights and trademarks of our brands and those of the brands in which we act as a licensing agent. During the twelve months ended December 31, 2014 compared to December 31, 2013, this category decreased \$57,361. This decrease is due to the liquidation of previously held DVD titles that are not consistent with the Company's new "content and products with a purpose" focus.

Critical Accounting Policies

The Company's accounting policies are described in the notes to the financial statements. Below is a summary of the critical accounting policies, among others, that management believes involve significant judgments and estimates used in the preparation of its financial statements.

Principles of Consolidation

The Company's consolidated financial statements include the accounts of Genius Brands International, Inc. and its wholly owned subsidiary A Squared Entertainment, LLC. All significant inter-company balances and transactions have been eliminated in consolidation.

Goodwill and Intangible Assets

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with ASC Topic 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. The Company completes the annual goodwill and indefinite-lived intangible asset impairment tests during the fourth quarter. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units. While we may use a variety of methods to estimate fair value for impairment testing, our primary methods are discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill.

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. Additionally, the Company develops new videos, music, books and digital applications in addition to adding content, improved animation and bonus songs/features to its existing product catalog. In accordance with ASC 350 Intangible Assets and ASC 730 Research and Development, the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

Films and Televisions Costs

The Company capitalizes production costs for episodic series produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. The Company expenses all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

The Company capitalizes production costs for films produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. The Company evaluates their capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

Revenue Recognition

The Company recognized revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by ASC 605 Revenue Recognition.

Revenues associated with the sale of products, are recorded when shipped to customers pursuant to approved customer purchase orders resulting in the transfer of title and risk of loss. Cost of sales, rebates and discounts are recorded at the time of revenue recognition or at each financial reporting date.

The Company recognizes revenue in accordance with ASC Topic 926-605 Entertainment-Films - Revenue Recognition. Accordingly, the Company recognizes revenue when (i) persuasive evidence of a sale with customer exists, (ii) the film is complete and has been delivered or is available for delivery, (iii) the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale, (iv) the arrangement fee is

fixed or determinable, and (v) collection of the arrangement fee is reasonably assured.

For its distribution, TV, and home entertainment income the Company generally enters in to flat fee arrangements to deliver multiple films or episodes. The Company allocates revenue to each film or episode based on their relative fair market values and recognizes revenue as each film or episode is complete and available for delivery.

The Company's licensing and royalty revenue represents both (a) variable payments based on net sales from brand licensees for content distribution rights. These license agreements are held in conjunction with third parties that are responsible for collecting fees due and remitting to the Company its share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees and (b) licensing income the Company recognizes revenue as an agent in accordance with ASC 605-45 Revenue Recognition - Principal Agent. Accordingly, the Company's revenue is its gross billings to its customers less the amounts it pays to suppliers for their products and services.

Other Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Off-Balance Sheet Arrangements

We do not have any off balance sheet arrangements.

BUSINESS

General

Genius Brands International, Inc. is a global content and brand management company dedicated to providing entertaining and enriching “content and products with a purpose” for toddlers to tweens. Led by industry veterans Andrew Heyward (Chief Executive Officer) and Amy Moynihan Heyward (President), we produce original content and license the rights to that content to a variety of partners. Our licensees include (i) companies to which the audio-visual rights are licensed for exhibition in various formats such as Pay Television, Free or Broadcast Television, Video-on-Demand (“VOD”), subscription on demand (“SVOD”), DVDs/CDs and more and (ii) companies that develop and distribute products based on our content within different product categories such as toys, electronics, publishing, home goods, stationary, gifts, and more.

We own a portfolio of original children’s entertainment that is targeted at toddlers to teens including the award-winning *Baby Genius*, Warren Buffett’s *Secret Millionaires Club*, *Thomas Edison’s Secret Lab* and *Stan Lee’s Mighty 7*, the first project from *Stan Lee Comics, LLC*, a joint venture with legendary Stan Lee’s POW! Entertainment.

In addition to our wholly-owned brands, we also act as licensing agent for certain brands, leveraging our existing licensing infrastructure to expand these brands into new product categories, new retailers, and new territories. These include the best-selling children’s book series, *Llama Llama*; *Psycho Bunny*, a luxury apparel line; *From Frank*, a humor greeting card and product line; *Celessence Technologies*, the world’s leading microencapsulation company.

We commenced operations in January 2006, assuming all of the rights and obligations of our then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which we obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Little Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In October 2011, we (i) changed our domicile to Nevada from California, and (ii) changed our name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, the trading symbol of our common stock changed from “PENT” to “GNUS”.

On November 15, 2013, we entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC, its newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a

wholly-owned subsidiary of the Company. As a result of the Merger, we acquired the business and operations of A Squared.

Strategic Initiatives

During 2014, we began a series of strategic initiatives to restructure certain areas of business in an effort to operate more profitably in the long run. This included product sales, content distribution, production, and product development, including as follows:

1) During the second quarter of 2014, we began phasing out the direct production and sale of physical products including DVDs and CDs and shifted to a licensing model whereby these functions were outsourced to industry experts and category leaders in their respective industries. On July 14, 2014, we hired Stone Newman in the newly created position of President - Global Consumer Products to leverage his experience and relationships to manage all consumer products, licensing and merchandising sales for the Company's brands.

2) Prior to the third quarter of 2014, we utilized an agency to license our content to international television broadcasters, home video, and digital distribution outlets. To exert greater control over the distribution of our expanding portfolio of content, during the second quarter of 2014, we formed a new global distribution division and appointed Andrew Berman to the newly created position of Senior Vice President - International Sales to oversee the division and the appointment of regional agents to represent us locally in key regions.

3) During the third and fourth quarter of 2014, we partnered with various pre-production, production, and animation companies to provide services to us for the production of *Thomas Edison's Secret Lab* in exchange for a certain percentage of the series' forthcoming adjusted net revenues and the ability to distribute the series in certain languages in certain territories. This model helps to better manage our cash flows while enabling us to exploit territories that would otherwise be challenging to manage and monetize. We intend to replicate the model for future productions.

4) The infrastructure we have put in place enables us to efficiently exploit a growing portfolio of brands. We are actively developing a number of new brands to add to our growing portfolio and consistently look for existing brands to acquire or act as licensing agent, as with the best-selling line of books, *Llama Llama* which we recently signed. We remain focused on brands that lend themselves to interactive exploitation in multiple areas and are consistent with our primary point of differentiation: providing multi-media "content and products with a purpose" that entertain and enrich kids.

Recent Events

Consistent with our strategy of securing widespread distribution for our content in a variety of formats and building awareness and engagement for our brands that in turn drives our consumer products business, we have expanded our successful relationship with Comcast, beyond the already popular *Baby Genius* on-demand offering. We have announced we will launch and operate everything from advertising to programming of a new Kid Genius Cartoon Channel in the Fall of 2015, offering video-on-demand content on an on-demand basis that will be consistent with our “content and products with a purpose” mission. The new video on-demand channel will include our own content, in addition to other content we will curate to offer a robust line-up for kids. Our Senior Vice President- International Sales, Andrew Berman, will oversee the channel.

Products

Original Content

We own and produce original content that is meant to entertain and enrich toddlers to tweens. We have found it generally requires a period of three years from the inception of an idea, through production of the content and development and distribution of a range of consumer products to retail, creating an inevitable lag between the creation of the intellectual property to the realization of economic or accounting benefit of those assets. Our goal is to maintain a robust and diverse portfolio of brands, appealing to various interests and ages, featuring evergreen topics with global appeal. Our portfolio of intellectual property can be licensed, re-licensed, and exploited for years to come, with revenue derived from multiple sources and territories.

Our portfolio of original content includes:

Content in Development

Llama Llama: We recently announced we have been appointed to lead the worldwide expansion of Anna Dewdney's New York Times bestselling and multiple award-winning children's book franchise, Llama Llama. We will be creating, for the first time, animated content based on the Llama Llama books for multiplatform distribution in addition to a global licensing and merchandise program for Llama Llama across a multitude of categories, including toys, games, apparel, accessories, bedding, and healthy snacks to be introduced in 2016.

Licensing Agent

Augmenting our original content, we act as an agent for the following established brands which maximizes the existing infrastructure while creating incremental sources of revenue for us without additional overhead:

Psycho Bunny: Inspired by the 17th-century maritime marauders and secret societies such as the infamous Skull & Bones, Psycho Bunny creates timeless wardrobe essentials that couple refined English tailoring with bold American design. Currently available in limited product categories in upscale department stores, we are expanding this popular brand to additional product lines, new retail outlets, and additional international territories. We have already signed licensees for headwear and footwear.

From Frank: Already a popular line of greeting cards, we are expanding the brand into new product categories and have already signed licensees for publishing, stationery, gifts, lottery and more.

Celessence: Celessence's microencapsulation technology releases fragrance and is used to scent products including socks, stationery, toys, bedding and pillows. We are licensing this technology to a range of products from homewares, bedding, fragrance, automotive, pets, apparel and more.

Llama Llama: With 9.4 million units in print, Anna Dewdney's Llama Llama books have all been New York Times bestsellers, with several titles claiming the #1 spot. Her work has been translated into eight languages. Praised as a "geographer extraordinaire of the emotional terrain of preschoolers and their mothers" (Chicago Tribune), Dewdney's soothing tales are synonymous with calming early childhood anxiety. Llama Llama Red Pajama was chosen as Jumpstart's Read for the Record book in 2011, setting the world record for the most reads of a particular book on one day. Dewdney is an outspoken advocate for literacy and many states and non-profits use her books for literacy campaigns and programs, including the Library of Congress.

Distribution

Children today spend upwards of 35 hours/week consuming various forms of media, a 7% increase or an additional 2.2 hours since 2009 (Source: Nickelodeon, November 2013). With the increased demand for and impact of media on kids' lives, we are focused on serving an underrepresented segment of the industry, namely "content with a purpose" meaning content that is both entertaining and enriching in a variety of interactive formats. With this distinct and focused mission, we are focused on expanding content distribution across multi-media platforms, extending our domestic and international presence, building awareness for our brands and building an engaged audience which in turn drives demand for its consumer products.

During 2014, we recruited and hired a number of key personnel to manage the distribution of our content across all platforms in all markets:

We formed a new global distribution division and appointed Andrew Berman to the newly created position of Senior Vice President - International Sales to oversee the division and the appointment of regional agents to represent us locally in key regions and in all formats, including Pay Television, Free or Broadcast Television, Video-on-Demand (“VOD”), subscription on demand (“SVOD”), DVDs/CDs and more.

We formed a new global consumer products division and appointed Stone Newman to the newly created position of President, Global Consumer Products to manage all consumer products, licensing and merchandising sales for the Company’s brands, including toys, electronics, publishing, home goods, stationary, gifts, and much more.

Additionally, during the first quarter of 2014, we entered into an exclusive three year agreement with Sony DADC, the optical disc manufacturing and fulfillment arm of Sony, to provide all CD, DVD and BD replication, packaging and distribution to our customers. Under the terms of the long-term, exclusive supply chain services agreement, we will order a minimum level of disc replication, packaging and distribution services for our content across all physical media, including DVD, CD, and Blu-ray from Sony DADC. As consideration for these minimum order levels, we received a total of \$1,500,000, \$750,000 during the first quarter of 2014 and \$750,000 during the first quarter of 2015.

Marketing

The commercial success of every Genius Brands property is reliant on our ability to attract an engaged audience that in turn drives demand for our products. As our properties are introduced into the marketplace, these efforts will intensify to ensure parents and kids are aware of our offerings. For example:

We formed a new Digital division and appointed industry veteran Jason Brumbaugh to the newly created position of Vice President of Digital, responsible for our digital presence in addition to all forms of online marketing that will be critical to building engaged audiences online. Mr. Brumbaugh held producer and senior producer positions at Disney Interactive Media Group, the Hub Network, DIC Entertainment, and Knowledge Kid Network.

We work with 360-Communications, a public relations agency that proactively solicits publicity for our content and products, both among the trade and consumers.

Competition

We compete against creators of children's content, including Disney, Nickelodeon, Cartoon Network, Sesame Street, and many others, small and large. In the crowded children's entertainment space, we compete with other content creators for distribution and retail shelf space that is largely now dedicated to the large studios. To compete, we are focused on filling a void in the marketplace by offering something the big studios do not: "content and products with a purpose," a positioning and important point of differentiation embraced by the industry, as well as parents and educators.

Customers and Licensees

During 2014, we were reliant on one or a few major customers. However, given the changes in our business model, we will be working with a larger network of customers and partners from around the world including broadcasters, consumer products licensees, and retailers. This broad cross section includes companies such as Comcast, Netflix, Sony, PBS, Leap Frog Enterprises, Enesco, Zak Designs, Penguin Publishing, Manhattan Toys, Amazon, Barnes & Noble, Target, Bertelsmann Music Group, InGrooves, Discovery International, TF1 and many others both domestically and internationally.

Government Regulation

The FCC requires broadcast networks to air a required number of hours of Educational and Informational content (E/I). We are also subject to online distribution regulations, namely the FTC's Children's Online Privacy Protection Act (COPPA) which regulates the collection of information of kids younger than 13 years old.

We are currently subject to regulations applicable to businesses generally, including numerous federal and state laws that impose disclosure and other requirements upon the origination, servicing, enforcement and advertising of credit accounts, and limitations on the maximum amount of finance charges that may be charged by a credit provider. Although credit to some of our customers is provided by third parties without recourse to us based upon a customer's failure to pay, any restrictive change in the regulation of credit, including the imposition of, or changes in, interest rate ceilings, could adversely affect the cost or availability of credit to our customers and, consequently, our results of operations or financial condition.

Licensed toy products are subject to regulation under the Consumer Product Safety Act and regulations issued thereunder. These laws authorize the Consumer Product Safety Commission (the "CPSC") to protect the public from

products which present a substantial risk of injury. The CPSC can require the manufacturer of defective products to repurchase or recall such products. The CPSC may also impose fines or penalties on manufacturers or retailers. Similar laws exist in some cities and other countries in which we plan to market our products. Although we do not manufacture and may not directly distribute the toy products, a recall of any of the products may adversely affect our business, financial condition, results of operations and prospects.

We also maintain websites which include our corporate website located at www.gnusbrands.com, as well as www.babygenius.com, www.smckids.com, www.slam7.com, and www.edisonsecretlab.com. These websites are subject to laws and regulations directly applicable to Internet communications and commerce, which is a currently developing area of the law. The United States has enacted Internet laws on children's privacy, copyrights and taxation. However, laws governing the Internet remain largely unsettled. The growth of the market for Internet commerce may result in more stringent consumer protection laws, both in the United States and abroad, that place additional burdens on companies conducting business over the Internet. We cannot predict with certainty what impact such laws will have on our business in the future. In order to comply with new or existing laws regulating Internet commerce, we may need to modify the manner in which we conduct our website business, which may result in additional expense.

Because our products are manufactured by third parties and licensees, we are not significantly affected by federal, state and local environmental laws and do not have significant costs associated with compliance with such laws and regulations.

Corporate Governance

General

We believe that good corporate governance is important to ensure that the Company is managed for the long-term benefit of our stockholders. This section describes key corporate governance practices that we have adopted.

Board Leadership Structure and Role in Risk Oversight

The Board of Directors has responsibility for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The primary responsibility of our Board of Directors is to oversee the management of our company and, in doing so, serve the best interests of the Company and our stockholders. The Board of Directors selects, evaluates and provides for the succession of executive officers and, subject to stockholder election, directors. It reviews and approves corporate objectives and strategies, and evaluates significant policies and proposed major commitments of corporate resources. Our Board of Directors also participates in decisions that have a potential major economic impact on our company. Management keeps the directors informed of company activity through regular communication, including written reports and presentations at Board of Directors and committee meetings.

Although we have not adopted a formal policy on whether the Chairman and Chief Executive Officer positions should be separate or combined, we have traditionally determined that it is in the best interest of the Company and its shareholders to partially combine these roles. Due to the small size of the Company, we believe it is currently most effective to have the Chairman and Chief Executive Officers positions combined.

The Company currently has eight directors, including Mr. Heyward, its Chairman, who also serves as the Company's Chief Executive Officer. The Chairman and the Board are actively involved in the oversight of the Company's day to day activities.

Board Committees

On June 9, 2014, the Board of Directors of the Company unanimously decided to form an Audit Committee, Compensation Committee and Nominating Committee.

The following table sets forth the three standing committees of our board and the members of each committee:

Joseph "Gray" Davis	X			
P. Clark Hallren	X	Chair	X	
Lynne Segall	X			Chair

To assist it in carrying out its duties, the Board of Directors has delegated certain authority to an Audit Committee, a Compensation Committee and a Nominating Committee as the functions of each are described below.

Compensation Committee

Messrs. Thomopoulos and Hallren serve on the Compensation Committee. The Compensation Committee's policy is to offer our executive officers competitive compensation packages that will permit us to attract and retain highly qualified individuals and to motivate and reward these individuals in an appropriate fashion aligned with the long-term interests of our Company and our stockholders.

Compensation Committee Risk Assessment. We have assessed our compensation programs and concluded that our compensation practices do not create risks that are reasonably likely to have a material adverse effect on us.

Nominating Committee

Ms. Segall serves on our Nominating Committee. The Nominating Committee's responsibilities include:

· identify qualified individuals to serve as members of the Company's board of directors;

Capital Stock Issued and Outstanding

As of July 15, 2015, we have issued and outstanding:

·6,529,450 shares of common Stock; and

·5,690 shares of Series A Convertible Preferred Stock which are convertible into 2,845,000 shares of common stock.

Common Stock

The holders of our common stock are entitled to one vote per share. In addition, the holders of our common stock will be entitled to receive ratably such dividends, if any, as may be declared by our Board of Directors out of legally available funds; however, the current policy of our Board of Directors is to retain earnings, if any, for operations and growth. Upon liquidation, dissolution or winding-up, the holders of our common stock will be entitled to share ratably in all assets that are legally available for distribution. The holders of our common stock will have no preemptive, subscription, redemption or conversion rights. The rights, preferences and privileges of holders of our common stock will be subject to, and may be adversely affected by, the rights of the holders of any series of preferred stock, which may be designated solely by action of our board of directors and issued in the future.

Warrants

Each purchaser of Units in this offering will receive, for each Unit purchased, one warrant representing the right to purchase one share of common stock at an exercise price of % of the public offering price per Unit. The number of shares of common stock issued to each purchaser will be equal to the number of Units purchased by such purchaser in this offering. The warrants will be exercisable on the date that the warrants are issued and will terminate on the anniversary date the warrants are first exercisable. The exercise price and number of shares for which each warrant may be exercised is subject to adjustment in the event of stock dividends, stock splits, reorganizations or similar events affecting our common stock.

We do not intend to apply to list the warrants on any securities exchange. Without an active market, the liquidity of the warrants will be limited. In the event our common stock price does not exceed the per share exercise price of the warrants during the period when the warrants are exercisable, the warrants will not have any value.

Holders of the warrants may exercise their warrants to purchase shares of our common stock on or before the termination date by delivering an exercise notice, appropriately completed and duly signed. Payment of the exercise price for the number of shares for which the warrant is being exercised must be made within two trading days following such exercise. In the event that the registration statement relating to the warrant shares is not effective, a holder of warrants may exercise its warrants for a net number of warrant shares pursuant to the cashless exercise procedures specified in the warrants. Warrants may be exercised in whole or in part, and any portion of a warrant not exercised prior to the termination date shall be and become void and of no value. The absence of an effective registration statement or applicable exemption from registration does not alleviate our obligation to deliver common stock issuable upon exercise of a warrant.

Upon the holder's exercise of a warrant, we will issue the shares of common stock issuable upon exercise of the warrant within three trading days of our receipt of notice of exercise, subject to timely payment of the aggregate exercise price therefor.

The shares of common stock issuable on exercise of the warrants will be, when issued in accordance with the warrants, duly and validly authorized, issued and fully paid and non-assessable. We will authorize and reserve at least that number of shares of common stock equal to the number of shares of common stock issuable upon exercise of all outstanding warrants.

If, at any time a warrant is outstanding, we consummate any fundamental transaction, as described in the warrants and generally including any consolidation or merger into another corporation, the consummation of a transaction whereby another entity acquires more than 50% of our outstanding common stock, or the sale of all or substantially all of our assets, or other transaction in which our common stock is converted into or exchanged for other securities or other consideration, the holder of any warrants will thereafter receive upon exercise of the warrants, the securities or other consideration to which a holder of the number of shares of common stock then deliverable upon the exercise or conversion of such warrants would have been entitled upon such consolidation or merger or other transaction.

[In the event that we issue shares of common stock or securities convertible into or exercisable for common stock at below \$ per share, except in the event of an "exempt issuance", as defined in the warrant agreement which is filed as an exhibit to the registration statement of which this prospectus forms a part, then the exercise price of the warrants shall be adjusted to such lower price.]

The warrants are not exercisable by their holder to the extent (but only to the extent) that such holder or any of its affiliates would beneficially own in excess of 4.99% of our common stock.

Amendments and waivers of the terms of the warrants require the written consent of the holder of such warrant and us. The warrants will be issued in book-entry form under a warrant agent agreement between VStock Transfer LLC as warrant agent, and us, and shall initially be represented by one or more book-entry certificates deposited with The Depository Trust Company, or DTC, and registered in the name of Cede & Co., a nominee of DTC, or as otherwise directed by DTC.

You should review a copy of the warrant agent agreement and the form of warrant, each of which are included as exhibits to the registration statement of which this prospectus forms a part.

Preferred Stock

Our Board of Directors is authorized, subject to any limitations prescribed by law, without further vote or action by our stockholders, to issue from time to time shares of preferred stock in one or more series. Each series of preferred stock will have such number of shares, designations, preferences, voting powers, qualifications and special or relative rights or privileges as shall be determined by our Board of Directors, which may include, among others, dividend rights, voting rights, liquidation preferences, conversion rights and preemptive rights.

Series A Convertible Preferred Stock

We have designated six thousand (6,000) shares of preferred stock as Series A Convertible Preferred Stock. Each share of Series A Preferred Stock is convertible into shares of our common stock based on a conversion calculation equal to the Base Amount divided by the conversion price. The Base Amount is defined as the sum of (i) the aggregate stated value of the Series A Preferred Stock to be converted and (ii) all unpaid dividends thereon. The stated value of each share of the Series A Preferred Stock is \$1,000 and the initial conversion price is \$2.00 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. Additionally, in the event we issue shares of our common stock or common stock equivalents at a per share price that is lower than the conversion price then in effect, the conversion price shall be adjusted to such lower price, subject to certain exceptions. We are prohibited from effecting a conversion of the Series A Preferred Stock to the extent that as a result of such conversion, the holder would beneficially own more than 9.99% in the aggregate of the issued and outstanding shares of our common stock, calculated immediately after giving effect to the issuance of shares of common stock upon conversion of the Series A Preferred Stock. The shares of Series A Preferred Stock possess no voting rights.

DISCLOSURE OF COMMISSION POSITION ON INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Section 78.7502(1) of the Nevada Revised Statutes provides that a corporation may indemnify any person who was or is a party, or is threatened to be made a party, to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (except in an action brought by or on behalf of the corporation) if that person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation or enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by that person in connection with such action, suit or proceeding, if that person acted in good faith and in a manner which that person reasonably believed to be in, or not opposed to, the best interests of the corporation, and, with respect to any criminal action or proceedings, had no reasonable cause to believe his conduct was unlawful. The termination of any

action, suit or proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent, alone, does not create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in, or not opposed to, the best interests of the corporation, and that, with respect to any criminal action or proceeding, the person had reasonable cause to believe his action was unlawful.

Section 78.7502(2) of the Nevada Revised Statutes provides that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit brought by or on behalf of the corporation to procure a judgment in its favor because the person acted in any of the capacities set forth above, against expenses, including amounts paid in settlement and attorneys' fees, actually and reasonably incurred by that person in connection with the defense or settlement of such action or suit, if the person acted in accordance with the standard set forth above, except that no indemnification may be made in respect of any claim, issue or matter as to which such person shall have been adjudged by a court of competent jurisdiction after exhaustion of all appeals therefrom to be liable to the corporation or for amounts paid in settlement to the corporation unless and only to the extent that the court in which such action or suit was brought or other court of competent jurisdiction determines that, in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

Section 78.7502(3) of the Nevada Revised Statutes further provides that, to the extent a director or officer of a corporation has been successful on the merits or otherwise in the defense of any action, suit or proceeding referred to in subsections 1 and 2 thereof, or in the defense of any claim, issue or matter therein, that person shall be indemnified by the corporation against expenses (including attorneys' fees) actually and reasonably incurred by that person in connection therewith.

Section 78.751 of the Nevada Revised Statutes provides that unless indemnification is ordered by a court, the determination to provide indemnification must be made by the stockholders, by a majority vote of a quorum of the board of directors who were not parties to the action, suit or proceeding, or in specified circumstances by independent legal counsel in a written opinion. In addition, the articles of incorporation, bylaws or an agreement made by the corporation may provide for the payment of the expenses of a director or officer of the expenses of defending an action as incurred upon receipt of an undertaking to repay the amount if it is ultimately determined by a court of competent jurisdiction that the person is not entitled to indemnification. Section 78.751 of the Nevada Revised Statutes further provides that the indemnification provided for therein shall not be deemed exclusive of any other rights to which the indemnified party may be entitled and that the scope of indemnification shall continue as to directors, officers, employees or agents who have ceased to hold such positions, and to their heirs, executors and administrators.

Section 78.752 of the Nevada Revised Statutes provides that a corporation may purchase and maintain insurance on behalf of a director, officer, employee or agent of the corporation against any liability asserted against him or incurred by him in any such capacity or arising out of his status as such whether or not the corporation would have the authority to indemnify him against such liabilities and expenses.

Our Articles of Incorporation and By-Laws provide that, to the fullest extent permitted by applicable law, none of our directors will be personally liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director. Any repeal or modification of this provision will be prospective only and will not adversely affect any limitation, right or protection of a director of our company existing at the time of such repeal or modification.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended (the “Securities Act”) may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by us is against public policy as expressed hereby in the Securities Act and we will be governed by the final adjudication of such issue.

UNDERWRITING

We have entered into an underwriting agreement dated _____, 2015 with Chardan Capital Markets, LLC (“Chardan”) as the underwriter and the sole book-running manager of this offering. The underwriting agreement provides for the purchase of a specific number of Units. Subject to the terms and conditions of the underwriting agreement, the underwriter has agreed to purchase the number of our securities set forth opposite its name below:

<u>Name of Underwriter</u>	<u>Number of Units</u>
Chardan Capital Markets, LLC	

The underwriting agreement provides that the underwriter is obligated to purchase all of the Units offered by us other than those covered by the option to purchase additional securities, if the underwriter purchases any Units. The obligations of the underwriter may be terminated upon the occurrence of certain events specified in the underwriting agreement. Furthermore, pursuant to the underwriting agreement, the underwriter’s obligations are subject to customary conditions, representations and warranties contained in the underwriting agreement, such as receipt by the underwriter of officers’ certificates and legal opinions.

We have agreed to indemnify the underwriter against specified liabilities, including liabilities under the Securities Act, and to contribute to payments the underwriter may be required to make in respect thereof.

The underwriter is offering the Units, subject to prior sale, when, as and if issued to and accepted by it, subject to approval of legal matters by its counsel and other conditions specified in the underwriting agreement. The underwriter reserves the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

We have granted the underwriter an over-allotment option. This option, which is exercisable for up to [45] days after the date of this prospectus, permits the underwriter to purchase up to _____ additional shares of common stock and/or warrants to purchase up to an additional _____ shares of common stock or any combination thereof from us to cover over-allotments, if any. If the underwriter exercises all or part of this option, it will purchase shares and/or warrants covered by the option at the public offering prices that appears on the cover page of this prospectus, less the underwriting discount. If this option is exercised in full, the total price to the public will be \$ _____ and the total net proceeds, before expenses, to us will be \$ _____.

Discounts and Commissions

The following table shows the public offering price, underwriting discount and proceeds, before expenses, to us. The information assumes either no exercise or full exercise by the underwriter of its over-allotment option.

	Per Units	Total Without Over- Allotment	With Over- Allotment
Public offering price	\$		
Underwriting discount (7%)	\$		
Proceeds, before expenses, to us	\$		

The underwriter proposes to offer the Units offered by us to the public at the public offering price set forth on the cover of this prospectus. In addition, the underwriter may offer some of the Units to other securities dealers at such price less a concession of \$ _____ per Unit. If all of the Units offered by us are not sold at the public offering price, the underwriter may change the offering price and other selling terms by means of a supplement to this prospectus.

We have paid an expense deposit of \$25,000 to Chardan, which will be applied against the out-of-pocket accountable expenses that will be paid by us to the underwriter in connection with this offering. The underwriting agreement, however, provides that in the event the offering is terminated, the underwriter shall return any portion of the \$25,000 out-of-pocket expense deposit paid to it to the extent such expenses are not actually incurred in accordance with FINRA Rule 5110(f)(2)(C).

We have also agreed to pay the underwriter's actual and reasonable out-of-pocket expenses relating to the offering, which in the event the offering is not consummated, will be limited to an aggregate of \$125,000.

We estimate that the total expenses of the offering payable by us, excluding the total underwriting discount and expense reimbursement, will be approximately \$.

Discretionary Accounts

The underwriter does not intend to confirm sales of the securities offered hereby to any accounts over which any of them has discretionary authority.

Lock-Up Agreements

Pursuant to certain “lock-up” agreements, (a) our executive officers and directors as of the pricing date of the offering, will agree, subject to certain exceptions, not to offer, issue, sell, contract to sell, encumber, grant any option for the sale of or otherwise dispose of any securities of the company without the prior written consent of the underwriter, for a period of 90 days from the date of the pricing of the offering, and (b) we, and any successor, will agree, subject to certain exceptions, not to for a period of 90 days from the date of the pricing of the offering (1) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any shares of our capital stock; (2) file or caused to be filed any registration statement with the SEC relating to the offering of any shares of our capital stock or any securities convertible into or exercisable or exchangeable for shares of our capital stock; or (3) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of our capital stock, whether any such transaction described in (1), (2), or (3) above is to be settled by delivery of shares of our capital stock or such other securities, in cash or otherwise. The 90-day lock-up period is subject to extension such that, in the event that either (i) during the last 17 days of the “lock-up” period, we issue an earnings or financial results release or material news or a material event relating to us occurs, or (ii) prior to the expiration of the “lock-up” period, we announce that we will release earnings or financial results during the 16-day period beginning on the last day of the “lock-up” period, then in either case the expiration of the “lock-up” period will be automatically extended until the expiration of the 18-day period beginning on the issuance of the earnings or financial results release or the occurrence of the material news or material event, as applicable, unless the underwriter waives, in writing, such an extension.

This lock-up provision applies to common stock and to securities convertible into or exchangeable or exercisable for common stock. It also applies to common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition. The exceptions permit, among other things, (1) the issuance by us of stock options pursuant to our existing stock incentive plans, or (2) the issuance of common stock upon the exercise of outstanding stock options and warrants.

Underwriter’s Warrants

We have agreed to issue to the underwriter warrants, or the underwriter's warrants, to purchase up to _____ shares of common stock or 10% of the shares of common stock sold in this offering (excluding shares issuable upon exercise of the overallotment option). The warrants are exercisable at a per share price equal to \$_____, at any time, and from time to time, in whole or in part, during the four-year period from commencing one year from the effective date of the offering, which period shall not extend further than five years from the effective date of the offering in compliance with FINRA Rule 5110(f)(2)(G). The underwriter (or permitted assignees under Rule 5110(g)(1)) will not sell, transfer, assign, pledge, or hypothecate these warrants or the securities underlying these warrants, nor will they engage in any hedging, short sale, derivative, put, or call transaction that would result in the effective economic disposition of the warrants or the underlying securities for a period of 180 days from the effective date of the offering, except the transfer of any security (i) by operation of law or by reason of reorganization of our company, (ii) to any FINRA member firm participating in the offering and the officers or partners thereof, if all securities so transferred remain subject to the lock-up restriction set forth above for the remainder of the time period, (iii) if the aggregate amount of securities of our company held by the holder of the underwriter's warrants or related person do not exceed 1% of the securities being offered, (iv) that is beneficially owned on a pro-rata basis by all equity owners of an investment fund, provided that no participating member manages or otherwise directs investments by the fund, and participating members in the aggregate do not own more than 10% of the equity in the fund and (v) the exercise or conversion of any security, if all securities received remain subject to the lock-up restriction set forth above for the remainder of the time period. We will bear all fees and expenses attendant to registering the securities issuable on exercise of the warrants other than underwriting commissions incurred and payable by the holders. The exercise price and number of shares issuable upon exercise of the warrants may be adjusted in certain circumstances including in the event of a stock dividend, extraordinary cash dividend or our recapitalization, reorganization, merger or consolidation. However, the warrant exercise price or underlying shares will not be adjusted for issuances of shares of common stock at a price below the warrant exercise price.

Right of Participation

Upon the closing of the offering, we will grant Chardan a six (6) month right of participation to act as (i) a co-placement agent on any future placement of our securities in which we elect to engage a placement agent, or (ii) a co-lead managing underwriter and bookrunner on any public offering of our securities with at least 30% of the economics paid to placement agents and/or underwriters in any such private placement or public offering.

Electronic Offer, Sale and Distribution of Units

A prospectus in electronic format may be made available on the websites maintained by one or more of the underwriter or selling group members, if any, participating in this offering and the underwriter may distribute prospectuses electronically. The underwriter may agree to allocate a number of Units to selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriter and selling group members that will make internet distributions on the same basis as other allocations. Other than the prospectus in electronic format, the information on these websites is not part of, nor incorporated by reference into, this prospectus or the registration statement of which this prospectus forms a part, has not been approved or endorsed by us or the underwriter, and should not be relied upon by investors.

Stabilization

In connection with this offering, the underwriter may engage in stabilizing transactions, over-allotment transactions, syndicate-covering transactions, penalty bids and purchases to cover positions created by short sales.

Stabilizing transactions permit bids to purchase shares so long as the stabilizing bids do not exceed a specified maximum, and are engaged in for the purpose of preventing or retarding a decline in the market price of the Units or shares while the offering is in progress.

Over-allotment transactions involve sales by the underwriter of Units in excess of the number of Units the underwriter is obligated to purchase. This creates a syndicate short position which may be either a covered short position or a naked short position. In a covered short position, the number of Units over-allotted by the underwriter is not greater than the number of Units that it may purchase in the over-allotment option. In a naked short position, the number of Units involved is greater than the number of Units in the over-allotment option. The underwriter may close out any short position by exercising its over-allotment option and/or purchasing shares and/or warrants in the open market.

Syndicate covering transactions involve purchases of shares, warrants or Units in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of securities to close out the short position, the underwriter will consider, among other things, the price of shares, warrants or Units available for purchase in the open market as compared with the price at which they may purchase such securities through exercise of the over-allotment option. If the underwriter sells more Units than could be covered by exercise of the over-allotment option and, therefore, have a naked short position, the position can be closed out only by buying shares and/or warrants in the open market. A naked short position is more likely to be created if the underwriter is concerned that after pricing there could be downward pressure on the price of the shares in the open market that could adversely affect investors who purchase in the offering.

Penalty bids permit the underwriter to reclaim a selling concession from a syndicate member when the Units originally sold by that syndicate member are purchased in stabilizing or syndicate covering transactions to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our shares of common stock, the warrants or Units, or preventing or retarding a decline in the market price of our shares of common stock. As a result, the price of our common stock in the open market may be higher than it would otherwise be in the absence of these transactions. Neither we nor the underwriter make any representation or prediction as to the effect that the transactions described above may have on the price of our common stock. These transactions may be effected on the NASDAQ Capital Market or otherwise and, if commenced, may be discontinued at any time.

Passive market making

In connection with this offering, the underwriter and selling group members may engage in passive market making transactions in our common stock on the NASDAQ Capital Market or otherwise in accordance with Rule 103 of Regulation M under the Exchange Act, during a period before the commencement of offers or sales of the shares and extending through the completion of the distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, then that bid must then be lowered when specified purchase limits are exceeded.

Other Relationships

The underwriter and its affiliates have provided, and may in the future provide, various investment banking and other financial services for us and our affiliates for which they have received, and may in the future receive, customary fees, however, except as disclosed in this prospectus, we have no present arrangements with any underwriter for any further services.

Genius Brands International, Inc.

Notes to Financial Statements

March 31, 2015 (unaudited)

Note 1: Organization and Business

Organization and Nature of Business

Genius Brands International, Inc. (“we”, “us”, “our”, “GBI” or the “Company”) is a global content and brand management company dedicated to providing entertaining and enriching “content and products with a purpose” for toddlers to tweens. Led by industry veterans Andrew Heyward (Chief Executive Officer) and Amy Moynihan Heyward (President), the Company produces original content and licenses the rights to that content to a variety of partners. Our licensees include (i) companies to which the audio-visual rights are licensed for exhibition in various formats, including but not limited to, Pay Television, Free or Broadcast Television, Video-on-Demand (“VOD”), subscription on demand (“SVOD”), DVDs/CDs and (ii) companies that develop and distribute products based on our content within different product categories, including but not limited to, toys, electronics, publishing, home goods, stationary, gifts.

The Company owns a portfolio of original children’s entertainment that is targeted at children from toddlers to teens including the award-winning *Baby Genius*, Warren Buffett's *Secret Millionaires Club*, *Thomas Edison's Secret Lab* and *Stan Lee's Mighty 7*, the first project from *Stan Lee Comics, LLC*, a joint venture with legendary Stan Lee's POW! Entertainment.

In addition to the Company’s wholly-owned brands, it also acts as licensing agent for certain brands, leveraging its existing licensing infrastructure to expand these brands into new product categories, new retailers, and new territories. These include the best-selling children’s book series, *Llama Llama; Psycho Bunny*, a luxury apparel line; *From Frank*, a humor greeting card and product line; *Celescence Technologies*, the world's leading microencapsulation company.

Consistent with the Company’s strategy of securing widespread distribution for its content in a variety of formats and building awareness and engagement for its brands that in turn drives its consumer products business, the Company has expanded its successful relationship with Comcast beyond the already popular *Baby Genius* on-demand offering. The Company has announced it will launch a new Kid Genius Channel in the Fall of 2015, offering 24-hours of video on-demand content that will be consistent with the Company’s “content and products with a purpose” mission. The new video on-demand channel will include the Company’s own content, in addition to other content the Company will curate, to offer a robust line-up for kids. The Company’s Senior Vice President - International Sales, Andrew Berman,

will oversee the channel.

The Company commenced operations in January 2006, assuming all of the rights and obligations of its then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which the Company obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Little Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In October 2011, the Company (i) changed its domicile to Nevada from California, and (ii) changed its name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, the Company changed its trading symbol from “PENT” to “GNUS”.

On November 15, 2013, the Company entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC, its newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

On April 2, 2014, the Company filed a certificate of amendment to its Articles of Incorporation to affect a reverse split of its issued and outstanding common stock on a one-for-one-hundred basis. The reverse stock split was effective with FINRA (Financial Industry Regulatory Authority) on April 7, 2014 (the “Reverse Split”). All per share amounts referenced herein are reflective of the Reverse Split.

Strategic Initiatives

During 2014, the Company began a series of strategic initiatives to restructure certain areas of business in an effort to operate more profitably in the long run. This included product sales, content distribution, production, and product development:

During the second quarter of 2014, the Company began phasing out the direct production and sale of physical products including DVDs and CDs and shifted to a licensing model whereby these functions were outsourced to 1) industry experts and category leaders in their respective industries. On July 14, 2014, the Company employed Stone Newman in the newly created position of President - Global Consumer Products to manage all consumer products, licensing and merchandising sales for the Company’s brands.

- 2) Prior to the third quarter of 2014, the Company utilized an agency to license its content to international television broadcasters, home video, and digital distribution outlets. To exert greater control over the

distribution of its expanding portfolio of content, during the second quarter of 2014, the Company formed a new global distribution division and appointed Andrew Berman to the newly created position of Senior Vice President - International Sales to oversee the division and the appointment of regional agents to represent the Company locally in key regions.

3) During the third and fourth quarter of 2014, the Company partnered with various pre-production, production, and animation companies to provide services to the Company for the production of *Thomas Edison's Secret Lab* in exchange for a certain percentage of the series' forthcoming adjusted net revenues and the ability to distribute the series in certain languages in certain territories. This model helps to better manage the Company's cash flows while enabling it to exploit territories that would otherwise be challenging to manage and monetize. The Company intends to replicate the model for future productions.

4) The infrastructure the Company has put in place enables it to efficiently exploit a growing portfolio of brands. The Company is actively developing a number of new brands to add to its growing portfolio and consistently looks for existing brands to acquire or act as licensing agent, as with the best-selling line of books, *Llama Llama* which the Company recently signed. The Company remains focused on brands that lend themselves to interactive exploitation in multiple areas and are consistent with the Company's primary point of differentiation: providing multi-media "content and products with a purpose" that entertain and enrich kids.

Liquidity

Historically, the Company has incurred net losses. As of June 30, 2015, the Company had an accumulated deficit of \$22,776,771 and a total stockholders' equity of \$12,108,450. At June 30, 2015, the Company had current assets of \$3,228,240 including cash of \$2,872,253 and current liabilities of \$2,234,215, including short-term debt to related parties which bears no interest and has no stated maturity of \$411,533 and certain trade payables of \$925,000 to which the Company disputes the claim, resulting in working capital of \$994,025. For the six months ended June 30, 2015 and 2014, the Company reported a net loss of \$1,624,117 and \$1,994,792, respectively, and reported net cash used by operating activities during six months ended June 30, 2015 of \$1,896,298.

During the six months ended June 30, 2015, the Company received \$750,000 in proceeds from the second payment of its long term supply chain services agreement. While the Company believes that these funds plus its working capital will be sufficient to fund operations for the next twelve months, there can be no assurance that cash flows from operations will continue to improve in the near future. If the Company is unable to attain profitable operations and positive operating cash flows in a reasonable period of time, it may need to (i) seek additional funding, (ii) scale back its development plans, or (iii) reduce certain operations.

Note 2: Summary of Significant Accounting Policies

Cash Equivalents

The Company considers all highly liquid debt instruments with initial maturities of six months or less to be cash equivalents.

Reverse Stock Split

On April 2, 2014, we effected the Reverse Split which was deemed effective with FINRA on April 7, 2014. All common stock share and per share information in this Form 10-Q, including the accompanying consolidated financial statements and notes thereto, have been adjusted to reflect retrospective application of the Reverse Split, unless otherwise indicated.

Business Combination

On November 15, 2013, the Company entered into the Merger Agreement with A Squared, the Member, and the Acquisition Sub. Upon closing of the Merger, which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

The audited financial statements have been prepared using the acquisition method of accounting in accordance with FASB Accounting Standards Codification (“ASC”) 805 Business Combinations.

See Note 3 - Business Combination for additional information.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Genius Brands International, Inc. and its wholly owned subsidiary A Squared. All significant inter-company balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Financial Statement Reclassification

Certain account balances from prior periods have been reclassified in these unaudited consolidated financial statements so as to conform to current period classifications.

Allowance for Sales Returns

An Allowance for Sales Returns is estimated based on average sales during the previous year. Based on experience, sales growth, and our customer base, the Company concluded that the allowance for sales returns at June 30, 2015 and December 31, 2014 should be \$44,108 and \$45,582, respectively.

Inventories

Inventories are stated at the lower of cost (average) or market and consist of finished goods such as DVDs, CDs and other products. A reserve for slow-moving and obsolete inventory is established for all inventory deemed potentially non-saleable by management in the period in which it is determined to be potentially non-saleable. The current inventory is considered properly valued and saleable. The Company concluded that there was an appropriate reserve for slow moving and obsolete inventory of \$53,338 and \$54,673 established as of June 30, 2015 and December 31, 2014.

Property and Equipment

Property and equipment are recorded at cost. Depreciation on property and equipment is computed using the straight-line method over the estimated useful lives of the assets, which range from two to seven years. Maintenance, repairs, and renewals, which neither materially add to the value of the assets nor appreciably prolong their lives, are charged to expense as incurred. Gains and losses from any dispositions of property and equipment are reflected in the statement of operations.

Goodwill and Intangible Assets

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with ASC 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. The Company completes the annual goodwill and indefinite-lived intangible asset impairment tests at the end of each fiscal year. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units, of which we have one. While we may use a variety of methods to estimate fair value for impairment testing, our primary methods are discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill of indefinite lived intangible assets in future periods.

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. Additionally, the Company develops new videos, music, books and digital applications in addition to adding content, improved animation and bonus songs/features to its existing product catalog. In accordance with ASC 350 Intangible Assets and ASC 730 Research and Development, the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

Films and Televisions Costs

The Company capitalizes production costs for episodic series produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. The Company expenses all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

The Company capitalizes production costs for films produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. The Company evaluates their capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

Revenue Recognition

The Company recognized revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by ASC 605 Revenue Recognition.

Revenues associated with the sale of products are recorded when shipped to customers pursuant to approved customer purchase orders resulting in the transfer of title and risk of loss. Cost of sales, rebates and discounts are recorded at the time of revenue recognition or at each financial reporting date.

The Company recognizes revenue in accordance with ASC 926-605 Entertainment-Films - Revenue Recognition. Accordingly, the Company recognizes revenue when (i) persuasive evidence of a sale with customer exists, (ii) the film is complete and has been delivered or is available for delivery, (iii) the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale, (iv) the arrangement fee is fixed or determinable, and (v) collection of the arrangement fee is reasonably assured.

For its distribution, TV, and home entertainment income the Company generally enters in to flat fee arrangements to deliver multiple films or episodes. The Company allocates revenue to each film or episode based on their relative fair market values and recognizes revenue as each film or episode is complete and available for delivery.

The Company's licensing and royalty revenue represents both (a) variable payments based on net sales from brand licensees for content distribution rights. These license agreements are held in conjunction with third parties that are responsible for collecting fees due and remitting to the Company its share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees and (b) licensing income the Company recognizes revenue as an agent in accordance with ASC 605-45 Revenue Recognition - Principal Agent. Accordingly, the Company's revenue is its gross billings to its customers less the amounts it pays to suppliers for their products and services.

Earnings Per Share

Basic earnings (loss) per common share ("EPS") is calculated by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted EPS is calculated by dividing net income (loss) by the weighted average number of common shares outstanding, plus the assumed exercise of all dilutive securities using the treasury stock or "as converted" method, as appropriate. During periods of net loss, all common stock equivalents are excluded from the diluted EPS calculation because they are antidilutive.

Income Taxes

Deferred income tax assets and liabilities are recognized based on differences between the financial statement and tax basis of assets and liabilities using presently enacted tax rates. At each balance sheet date, the Company evaluates the available evidence about future taxable income and other possible sources of realization of deferred tax assets, and records a valuation allowance that reduces the deferred tax assets to an amount that represents management's best estimate of the amount of such deferred tax assets that more likely than not will be realized.

Recent Accounting Pronouncements

In July 2013, the FASB issued Accounting Standards Update No. 2013-11, "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists" ("ASU No. 2013-11"). ASU No. 2013-11 requires an entity to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, with limited exceptions. ASU No. 2013-11 is effective for interim and annual periods beginning after December 15, 2013 and may be applied retrospectively. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In April 2014, the FASB issued Accounting Standards Update No. 2014-08, “Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity” (“ASU 2014-08”), which raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the new definition of a discontinued operation. It also allows an entity to present a discontinued operation even when it has continuing cash flows and significant continuing involvement with the disposed component. The amendments in ASU 2014-08 are effective prospectively for disposals (or classifications as held for sale) of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. Early adoption is permitted but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available for issuance. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, “Revenue from Contracts with Customers (Topic 606)” (“ASU 2014-09”). The core principle of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps: identify the contract(s) with a customer; identify the performance obligations in the contract; determine the transaction price; allocate the transaction price to the performance obligations in the contract; and recognize revenue when (or as) the entity satisfies a performance obligation. ASU 2014-09 supersedes the revenue recognition requirements in Accounting Standards Codification Topic No. 605, “Revenue Recognition,” most industry-specific guidance throughout the industry topics of the accounting standards codification, and some cost guidance related to construction-type and production-type contracts. ASU 2014-09 is effective for public entities for annual periods and interim periods within those annual periods beginning after December 15, 2016. Early adoption is not permitted. Companies may use either a full retrospective or a modified retrospective approach to adopt ASU 2014-09. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In June 2014, the FASB issued Accounting Standards Update No. 2014-12, “Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period” (“ASU 2014-12”). The amendments in ASU 2014-12 require that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Accounting Standards Codification Topic No. 718, “Compensation - Stock Compensation” (“ASC 718”), as it relates to awards with performance conditions that affect vesting to account for such awards. The amendments in ASU 2014-12 are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Early adoption is permitted. Entities may apply the amendments in ASU 2014-12 either: (a) prospectively to all awards granted or modified after the effective date; or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

Various other accounting pronouncements have been recently issued, most of which represented technical corrections to the accounting literature or were applicable to specific industries, and are not expected to have a material effect on

our financial position, results of operations, or cash flows.

Note 3: Business Combination

Overview

On November 15, 2013, the Company entered into the Merger Agreement with A Squared and Acquisition Sub. Upon closing of the Merger, which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

Immediately following the Merger, the Company's pre-Merger shareholders and option holders owned approximately 50% of the Company's common stock on a fully-diluted basis, and former A Squared members directly and indirectly owned approximately 50% of the Company's common stock on a fully diluted basis.

Pursuant to the terms and conditions of the Merger:

At the closing of the Merger, the membership interests of A Squared issued and outstanding immediately prior to the closing of the Merger were cancelled, and the Member received 2,972,183 shares of our common stock.

Upon the closing of the Merger, Klaus Moeller resigned as the Company's Chief Executive Officer and Chairman, Larry Balaban resigned as the Company's Corporate Secretary, and Howard Balaban resigned as the Company's Vice President of Business Development. Simultaneously with the effectiveness of the Merger, Andrew Heyward was appointed as the Company's Chief Executive Officer, Amy Moynihan Heyward was appointed as the Company's President and Gregory Payne was appointed as the Company's Corporate Secretary. Mr. Moeller remained a director of the Company until his subsequent resignation on May 15, 2014.

Effective upon the Company's meeting its information obligations under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), Michael Meader, Larry Balaban, Howard Balaban and Saul Hyatt resigned as directors of the Company, and Andrew Heyward, Amy Moynihan Heyward, Lynne Segall, Jeffrey Weiss, Joseph "Gray" Davis, William McDonough and Bernard Cahill were appointed as directors of the Company. On December 9, 2013, these changes to the Board of Directors were made effective.

Accounting Treatment

Although the transaction was structured as a merger of equals, the merger was treated as a business combination for accounting purposes. The audited financial statements have been prepared using the acquisition method of accounting in accordance with ASC 805, Business Combinations. Genius Brands is the deemed accounting acquirer, and A Squared is the deemed accounting acquiree based on the following factors: the transfer of the Company's equity as consideration for the merger, the relative size of the pre-merger assets and revenue bases with the Company holding a significantly larger asset and revenue base as compared to A Squared, and the fact that the Company paid a premium over the pre-combination fair value of A Squared.

The following table summarizes the final purchase accounting for the fair value of the assets acquired and liabilities assumed at the date of the Merger:

	Allocated Fair Value

Stockholders, representing at least a majority of outstanding shares of the Company's voting capital as of the Record Date voted by written consent to approve an amendment to the Company's Article of Incorporation in order to increase the number of common stock authorized to 700,000,000 from 250,000,000. The stated value of each share of the Series A Preferred Stock is \$1,000 and the initial conversion price is \$2.00 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. Additionally, in the event the Company issues shares of its common stock or common stock equivalents at a per share price that is lower than the conversion price then in effect, the conversion price shall be adjusted to such lower price, subject to certain exceptions. The Company is prohibited from effecting a conversion of the Series A Preferred Stock to the extent that as a result of such conversion, the investor would beneficially own more than 9.99% in the aggregate of the issued and outstanding shares of the Company’s common stock, calculated immediately after giving effect to the issuance of shares of common stock upon conversion of the Series A Preferred Stock. Holders of our outstanding shares of Series A Preferred Stock are entitled to vote on an “as converted” basis with the holders of Common Stock, equal to the number of shares of Common Stock into which such shares of Series A Preferred Stock are convertible, but not in excess of any applicable beneficial ownership limitations governing such shares.
