Item 2.02. Results of Operations and Financial Condition

OGE Energy Corp. (the “Company”) is the parent company of Oklahoma Gas and Electric Company (“OG&E”), a regulated electric utility with approximately 777,000 customers in Oklahoma and western Arkansas, and Enogex LLC and its subsidiaries (“Enogex”), a midstream natural gas pipeline business with principal operations in Oklahoma.

On February 18, 2010, the Company issued a press release describing the Company’s consolidated financial results for the quarter and year ended December 31, 2009, which is furnished as Exhibit 99.01 and incorporated herein by reference. As described in the press release, the Company reported earnings of \$2.66 per diluted share for the year ended December 31, 2009 compared to \$2.49 per diluted share for the year ended December 31, 2008. Earnings were higher primarily due to a higher gross margin at OG&E primarily due to rate relief during 2009 and regulatory recoveries for utility investments partially offset by milder weather in OG&E’s service territory in 2009. Earnings at Enogex were lower in 2009 primarily due to lower commodity prices for most of 2009 partially offset by higher volumes of gathered gas, processed liquids and leased transportation capacity. Also affecting the Company’s earnings per share in 2009 was an increase in the number of outstanding shares of the Company’s common stock.

OG&E posted earnings of \$0.20 per diluted share in the fourth quarter of 2009 as compared to \$0.17 per diluted share in the fourth quarter of 2008. Enogex posted earnings of \$0.17 per diluted share in the fourth quarter of 2009 as compared to \$0.10 per diluted share in the fourth quarter of 2008. The holding company, including results from its marketing business, posted a loss of \$0.02 per diluted share in the fourth quarter of 2009 as compared to \$0.04 per diluted share in the fourth quarter of 2008.
