1 QUARTER REPORT

Central Fund is currently 97.5% invested in gold and silver bullion. At January 31, 2005 Central Fund's gold holdings were 614,242 fine oz. of physical bullion and 5,349 fine oz. of gold bullion certificates. Silver holdings were 30,728,142 oz. of physical bullion and 245,572 oz. of silver bullion certificates. The physical bullion is insured and held in safekeeping by a Canadian chartered bank in segregated vault storage. Central Fund continues to fulfil its mandate as "The Sound Monetary Fund".

On behalf of the Board of Directors:

MANAGEMENT DISCUSSION & ANALYSIS

Results of Operations Change in Net Assets

Net assets increased by approximately \$63,426,488 during the three months ended January 31, 2005. Of that amount, \$80,904,000 was the result of the issuance of 15,000,000 Class A shares through a public offering on November 3, 2004. These shares were issued at a premium to net asset value such that there was no dilution of existing Class A shareholders' interests. Details of this private placement are provided in Note 3 to the accompanying financial statements.

The share capital now issued and outstanding is 94,296,320 fully participating Class A shares listed on the American Stock Exchange and The Toronto Stock Exchange. Common shares remain at 40,000 issued and outstanding.

Results of Operations Net Income (Loss)

Central Fund's earned income objective is secondary to its investment objective of holding the vast majority of its net assets in gold and silver bullion. Generally, Central Fund only seeks to maintain adequate cash reserves to enable it to pay operating expenses, taxes and Class A share dividends. Because gold and silver bullion do not generate revenue, Central Fund's actual revenues are a miniscule percentage of its net assets. However, early adoption of a new Canadian Institute of Chartered Accounting policy now compels Central Fund to record unrealized appreciation (depreciation) of investments in income.

The net loss (inclusive of unrealized depreciation) for the three months ended January 31, 2005 was \$17,477,512 compared to net income (inclusive of unrealized appreciation) of \$21,295,524 for the same period in 2004. Since January 31, 2004, net assets have increased by approximately \$194,366,163 or 68%. The Company has used the bulk of the proceeds of the two Class A share issues over the past twelve months to purchase gold and silver bullion, primarily in bar form. Certain expenses, such as administration fees that are scaled, and together with income taxes, vary in proportion to net asset levels, or, in the case of stock exchange fees (included in shareholder information), with issuances of Class A shares. Safekeeping fees and bullion insurance costs increased as a result of the purchases of physical gold and silver bullion discussed above. Administrative fees remitted to The Central Group Alberta Limited for the three months increased to \$386,818 from \$213,565, such increase being at the rate of one-quarter of one percent per annum on the increased assets under administration. Finally, professional fees increased as a result of legal and audit work required to adopt guidelines for complying with new audit and corporate governance rules and regulations.

Despite an increase in overall expense levels, the operating expenses (before income taxes) as a percentage of average net assets declined, being 0.13% for the three months ended January 31, 2005 compared to 0.12% for the same three-month period in 2004. For the twelve months ended January 31, 2005, the operating expense ratio was 0.48% compared to 0.61% for the prior twelve-month period.

Liquidity and Capital Resources

Central Fund's dollar liquidity objective is to hold cash reserves primarily for the payment of operating expenses, taxes and Class A share dividends. Should Central Fund not have sufficient cash to meet its needs, a nominal portion of Central Fund's bullion holdings may be sold to fund tax and dividend payments, provide working capital, and pay for redemptions of Class A shares (if any).

For the three months ended January 31, 2005, Central Fund's cash reserves increased by \$3,117,067 as amounts used to pay operating expenses, taxes and the Class A share dividend were more than offset by amounts retained in interest-bearing cash deposits for working capital purposes from the public offering completed in November 2004. Management monitors Central Fund's cash position with an emphasis on maintaining its mandate to hold maximum amounts of gold and silver bullion.

3.

On November 3, 2004, the Company, through a public offering issued 15,000,000 Class A shares for proceeds of \$81,504,000 net of underwriting fees of \$3,396,000. Costs relating to this public offering were approximately \$600,000 and net proceeds were approximately \$80,904,000.

The Company used the net proceeds from this public offering to purchase 96,000 fine ounces of gold at a cost of \$40,790,400 and 4,800,000 ounces of silver at a cost of \$35,376,000, both in physical bar form. The balance of the net proceeds, approximately \$4,837,600, was retained by the Company in interest-bearing cash deposits for working capital purposes.

4.

Contributed surplus is used to eliminate any deficit that may arise from net losses before unrealized appreciation (depreciation) of investments and on the payment of the Class A shares' stated dividend per share. Accordingly, \$788,879 (2004, \$499,293) has been transferred from contributed surplus on January 31, 2005 and 2004 representing the net loss before unrealized appreciation (depreciation) of investments for the three months then ended.

Notes:

This change does not affect the net asset value of the Company.

5.

For the quarter ended January 31, 2005, with retroactive application to prior periods, the Company early adopted Accounting Guideline 18, Investment Companies ("AcG 18"), which requires that, for qualifying entities, investments held are to be measured and reported in the financial statements at their fair value with changes in fair value recognized in income in the period in which the change occurred. While the Company's accounting policy, prior to adoption of AcG 18, had been to measure its investments at fair value, the Company did not recognize the unrealized gains and losses in income, but instead recognized them only as a separate component of shareholders' equity until realized, at which time they were recognized in income.

	Period Ended	
	Jan 31/05	Jan 31/04
Net loss prior to change in accounting policy	(788,879)	(499,301)
Adjustment for change in accounting policy	(16,688,633)	21,794,816
Net income (loss) as reported	(17,477,512)	21,295,515

The adoption of AcG 18 had no effect on the Company's financial position as at January 31, 2005 or January 31, 2004.
