PROXY STATEMENT

INTRODUCTION

General

The enclosed proxy is solicited by the Board of Directors of Bally Technologies, Inc. ("we," "us," the "Company," or "Bally") on behalf of the Company in connection with the 2009 Annual Meeting of Stockholders of the Company (the "Meeting") to be held at 11:00 a.m., local time, at the Company's principal executive offices, 6601 South Bermuda Road, Las Vegas, Nevada 89119, on Wednesday, December 2, 2009, and any adjournment or postponement thereof. At the Meeting, stockholders will be asked to vote on the following matters:

1. To elect one director for a term of three years;
2. To approve the Company's 2010 Long Term Incentive Plan, which amends and restates the Company's Amended and Restated 2001 Long Term Incentive Plan to, among other things, allow for the grant of cash incentive bonuses and permit the grant of awards that are structured to comply with Section 162(m) of the Internal Revenue Code of 1986, as amended;
3. To ratify the appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm for the fiscal year ending June 30, 2010; and
4. To consider such other matters that may be properly brought before the Meeting.

This Proxy Statement and accompanying proxy card were first mailed to stockholders on or about October 30, 2009.

The Company will bear the cost of the solicitation of proxies, including the charges and expenses of brokerage firms and others forwarding the solicitation materials to beneficial owners of shares of the Company's common stock. In addition to the use of the mail, directors, officers, employees and certain stockholders of the Company, none of whom will receive additional compensation therefor, may solicit proxies on behalf of the Company personally, by telephone or by facsimile transmission. The Company's principal executive offices are located at 6601 South Bermuda Road, Las Vegas, Nevada 89119, telephone (702) 584-7700.

Proxies

All shares of Company common stock represented by proxy will be voted as specified by you if the proxy or voting instruction card is properly executed and returned. If no contrary instructions are given, your shares will be voted to elect the one director nominee named herein for a term of three years, to approve the 2010 Long Term Incentive Plan, and to ratify the appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm for the fiscal year ending June 30, 2010. You may revoke your proxy at any time before it has been voted by filing with the Corporate Secretary of the Company an instrument revoking the proxy, by submitting a substitute proxy bearing a later date, or by voting in person at the Meeting.

Number of Shares of Common Stock Outstanding and Voting

Only stockholders of record of shares of Company common stock at the close of business on October 13, 2009, the record date for the Meeting fixed by the Board of Directors, are entitled to receive notice of and to vote at the Meeting. On that date, there were 54,556,624 shares of common stock outstanding and entitled to vote at the Meeting. Each share is entitled to one vote.

Transaction of Business

A majority of the outstanding shares of common stock as of the record date must be present at the Meeting in order to hold the Meeting and conduct business. This is called a "quorum." A stockholder's shares are counted as present at the Meeting if the stockholder is present at the Meeting and votes in person, if a proxy has been properly submitted by the stockholder or on the stockholder's behalf. Abstentions and broker non-votes are counted as present for the purpose of determining the presence of a quorum.

"Broker non-votes" are shares of common stock held by brokers or nominees over which the broker or nominee lacks discretionary power to vote and for which the broker or nominee has not received specific voting instructions from the beneficial owner. Shares of common stock that reflect "broker non-votes" are treated as shares that are present and entitled to vote for the purposes of determining the presence of a quorum. However, for purposes of determining the outcome of any matter as to which the broker or nominee does not have discretionary authority to vote, those shares will be treated as not present and not entitled to vote with respect to that matter, even though the shares of common stock are considered present and entitled to vote for the purposes of determining a quorum and voting on other matters.

Treatment of Votes for each Proposal

Directors are elected by a plurality of the votes cast. This means that the individual nominated for election to the Board of Directors who receives the most "FOR" votes will be elected. Abstentions are not counted for purposes of election of directors.

To be adopted, Proposals 2 and 3 must receive the affirmative vote of a majority of the shares of common stock present in person or by proxy at the Meeting and entitled to vote. Abstentions have the effect of a vote "against" Proposals 2 and 3, while broker non-votes will have no effect.

Important Notice Regarding Availability of Proxy Materials for the Stockholder Meeting to be Held on December 2, 2009. The proxy statement and annual report to security holders are available at www.ballytech.com/2009proxy.

The Company believes that it has procedures and practices in place that are designed to enhance and protect the interests of its stockholders.

Corporate Governance Guidelines. In furtherance of this practice, the Board of Directors has approved Corporate Governance Guidelines for the Company. The Corporate Governance Guidelines address, among other things:

composition of the Board of Directors;

separation of the roles of Chairman of the Board of Directors and Chief Executive Officer;

how nominees for director are selected;

orientation and continuing education for directors;

meetings of the Board of Directors, including executive sessions of non-employee directors;

policies and principles for selecting a successor to the Chief Executive Officer as well as other members of management;

expectations of directors; and

annual performance evaluations of the Board of Directors and the Chief Executive Officer.

The full text of the Corporate Governance Guidelines is available by following links to "Investor Relations" and "Governance" on the Company's website www.ballytech.com, or upon written request to the Company, as set forth below under "Additional Information."

Code of Ethics. The Board of Directors has also adopted a Code of Ethics and Business Conduct applicable to all of the Company's employees, including the chief executive, chief financial, and principal accounting officers, as well as the Company's directors (the "Code of Ethics"). The Code of Ethics, along

with the Corporate Governance Guidelines, serves as the foundation for the Company's system of corporate governance. Among other things, the Code of Ethics:

provides guidance for maintaining ethical behavior;

requires that directors, officers and employees comply with applicable laws and regulations;

addresses how individuals should handle Company assets and opportunities;

prohibits conflicts of interest; and

provides mechanisms for reporting violations of the Company's policies and procedures.

In the event the Company makes any amendment to, or grants any waiver from, a provision of the Code of Ethics that applies to the Company's principal executive officer, principal financial officer or principal accounting officer that requires disclosure under applicable SEC rules, the Company intends to disclose the amendment or waiver and the reasons for it on the Company's website www.ballytech.com. The full text of the Code of Ethics is available by following links to "Investor Relations" and "Governance" on the Company's website www.ballytech.com, or upon written request to the Company, as set forth below under "Additional Information."

Directors' Compensation

The Company's directors who are also employees are not separately compensated for their services as directors. Mr. Haddrill, the only director who is also an employee, did not receive separate compensation for his services as a director during fiscal year 2009.

The following table sets forth the compensation earned by the Company's other directors in respect of their services as such during fiscal year 2009:

Name	Fees Earned or Paid in Cash (\$)	Stock Awards(1)(2) (\$)	Option Awards(1)(3)(4) (\$)	Total (\$)
Jacques André	70,000	186,097	99,448	355,545
Robert Guido	77,500	223,331		300,831
David Robbins	147,500	222,870	99,448	469,818
Kevin Verner	99,667	195,894	99,448	395,009

(1) Amounts shown reflect the dollar value recognized, before forfeiture assumptions, by the Company for financial statement reporting purposes in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 718-10-10, for the fiscal year ended June 30, 2009. Assumptions used to determine these values can be found in Note 10, *Share-Based Compensation*, of Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2009.

(2) The grant date fair value of the stock awards granted in fiscal 2009 to Mr. André, Mr. Guido, Mr. Robbins, and Mr. Verner, computed in accordance with ASC 718-10-10, was \$249,980, \$299,942, \$324,963 and \$269,956, respectively.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form DEF 14A

On May 13, 2009, the Company amended the terms of certain outstanding options previously granted to certain members of the Board of Directors, including Messrs. David Robbins, Jacques Andre, and Kevin Verner, to extend the expiration date thereof, subject to certain restrictions. The options were originally granted on January 8, 2004 to each director for the

purchase of 195,000 shares of Company common stock at an exercise price of \$24.65 per share. Pursuant to the amendments, and subject to certain exceptions, any unexercised portion of a grant will now expire on July 8, 2013. The fair value of the amendment to the option awards in fiscal 2009, computed in accordance with ASC 718-10-10, was \$99,448 for each director. This expense is reflected in the values in the table.

(4)

The number of stock options outstanding for the non-employee directors as of June 30, 2009 was as follows: Mr. André, 328,242; Mr. Guido, 51,350; Mr. Robbins, 467,242; and Mr. Verner, 313,242.

Cash compensation. Beginning January 1, 2009, each non-employee director receives \$60,000 per year. Prior to January 1, 2009, the annual cash retainer was \$50,000. In addition, beginning January 1, 2009, each non-employee director receives \$15,000 per year for serving on the Audit Committee, and the chair of the Audit Committee receives \$35,000 per year. Prior to this change, each Audit Committee member received \$5,000 per year and the chair received \$25,000 per year. Directors who serve on the Nominating and Corporate Governance Committee or the Compensation Committee receive \$5,000 per year for serving on each of these committees, and the chair of each of these committees receives \$10,000 per year. Mr. Robbins received an additional \$85,000 for serving as Chairman of the Board of Directors. Mr. Robbins and Mr. Verner each received an additional \$25,000 for serving as members of the Office of the Chairman. Mr. Verner also received an additional \$5,000 for serving on the Company's regulatory compliance committee and \$5,000 for serving in the office of the Chief Technology Officer. Directors are also reimbursed for their reasonable out-of-pocket expenses incurred on Company business.

Equity compensation. Beginning January 1, 2009, on the first trading day of each calendar year each non-employee director receives an annual grant of \$250,000 of restricted stock for the director's service for the following year. The number of shares is calculated based on the closing price of the stock on the grant date and vests on the first anniversary of the grant date. Directors may elect to take some or all of the grant in the form of restricted stock units. Newly appointed directors receive the same grants but the number of shares is pro-rated based on the number of days between the date of the director's appointment and the first trading day of the following calendar year. In addition, each newly appointed director receives an initial grant of options to acquire 50,000 shares of stock, vesting in three equal installments on the first, second, and third anniversaries of the director's election or appointment.

Prior to January 1, 2009, on the first trading day of the calendar year, each non-employee director received an annual grant of \$125,000 of options and \$125,000 of restricted stock in respect of the director's service for the following year. The number of options was calculated based on a Black-Scholes analysis as of the grant date, and the number of shares of restricted stock was calculated based on the closing price of the stock on the grant date. The options were fully vested on grant, and the restricted stock vested on the first anniversary of the grant date.

Each non-employee director may elect to receive restricted stock or RSUs in lieu of all or a portion of the cash compensation otherwise payable to the director. Directors must make the election with respect to the cash compensation for a particular calendar year not later than five business days before the end of the previous calendar year. The restricted stock or RSUs are awarded on the first trading day of the calendar year for which the election is made, and the number of shares awarded is calculated based on the closing price of the stock on the grant date. The shares of stock vest in their entirety on the first anniversary of the date of grant, subject to the director's continuous services as a director through the vesting date.

If the director's service as director terminates for any reason before the first anniversary of the grant date, the vesting of a prorated portion of the restricted stock or RSUs $1/365$ for each day between the grant date and the termination date is accelerated as of the termination date, so that the restriction on sale or other transfer of the prorated stock is lifted as of the termination date for the prorated portion. On retirement, death, or other termination of the director's service as a director for any reason, a pro rata

portion of any then unvested award of restricted stock will vest upon such termination, and the remaining unvested portion of the award, if any, will immediately lapse.

Additional compensation. The Company may grant non-employee directors both additional cash compensation and options as time commitments, responsibilities, and other circumstances may warrant.

On December 10, 2008, the Board awarded Mr. Guido an additional \$25,000 in cash in further recognition of his service as Audit Committee Chair during the preceding year.

Stock holdings by non-employee directors. Within three years after being appointed or elected, each non-employee director is required to acquire and hold, either through exercise of stock options, purchase on the open market, or otherwise, for the director's own account, Company stock with a value equal to four times the annual base compensation paid to the director at the time of the director's appointment or election. Value is determined by the price of the stock at the time of acquisition. The director is required to retain at least that amount of stock throughout the director's tenure. The Board has discretion to grant relief from this requirement in exigent circumstances, cases of hardship, or in other individual cases where the Board determines enforcement of the policy is not in the Company's best interests. All non-employee directors are in compliance with this requirement.

On May 13, 2009, the Company amended the terms of certain outstanding options previously granted to certain members of the Board of Directors, including Mr. Richard Haddrill, who was a non-employee director at the time of grant and currently serves as the Company's Chief Executive Officer, to extend the expiration date thereof, subject to certain conditions, as approved by the Board. Specifically, the Company amended awards originally granted to each of Mr. Haddrill, Mr. Robbins, Mr. André, and Mr. Verner on January 8, 2004, of options to purchase 195,000 shares of Company common stock at an exercise price of \$24.65 per share. Each of these grants was originally scheduled to expire on July 8, 2011.

Pursuant to the amendments, any unexercised portion of a grant will now expire on July 8, 2013, except that a grant may expire prior to July 8, 2013, as follows: (i) a grant will expire on July 8, 2011, if the optionee ceases to serve as a member of the Board on or before July 8, 2011, for any reason other than the optionee's death or disability or the failure of the Company to nominate the optionee for re-election to the Board, and (ii) a grant will expire 60 days after the date the optionee ceases to serve as a member of the Board if the optionee ceases to serve as a member of the Board after July 8, 2011, but on or before July 8, 2013, for any reason other than the optionee's death or disability or the failure of the Company to nominate the optionee for re-election to the Board. If an optionee ceases to serve as a member of the Board because of the optionee's death or disability, the unexercised portion of such optionee's grant shall expire in accordance with the provisions of the Company's Amended and Restated 2001 Long Term Incentive Plan applicable in the case of death or disability.

Director Nomination Process

The Nominating and Corporate Governance Committee, with the assistance of a third-party search firm, identifies candidates for director nominees. The Nominating and Corporate Governance Committee considers a number of factors including the following criteria in identifying, evaluating, and recommending director nominees to the Board, including whether to recommend any candidates nominated by the Company's stockholders; the candidate's personal qualities and characteristics, accomplishments, and reputation in the business community; the candidate's current knowledge and contacts in the communities in which the Company does business, in the gaming industry, and in other industries relevant to the Company's business; the candidate's ability and willingness to commit adequate time to matters of the Board of Directors and committees; the fit of the candidate's skills and personality with those of other directors and potential directors in building an effective, collegial, and responsive Board of Directors; and the overall diversity of viewpoints, background, experience, and other demographics of the Board of Directors. The Company's Nominating and Corporate Governance Committee will also consider whether to recommend stockholder nominations of candidates for director, assuming the stockholder has satisfied

certain requirements regarding the nomination, set forth in the Bylaws, as set forth below under "Stockholder Proposals and Nominations for Director for the 2010 Annual Meeting of Stockholders."

Communication with the Board of Directors

Stockholders and other interested parties may communicate directly with individual directors, the Board of Directors as a group, the presiding director of executive sessions of non-employee directors, or with non-employee directors as a group, by writing to Board of Directors, Bally Technologies, Inc., 6601 South Bermuda Road, Las Vegas, Nevada 89119, or by email to *boardofdirectors@ballytech.com*, indicating to whose attention the communication should be directed. All communications will be received and processed by the Company's legal department. Unless indicated otherwise, communications about accounting, internal controls, and audits will be referred to the Audit Committee and all other communications will be referred to the Chairman of the Board of Directors. You may communicate anonymously if you wish.

Individuals may submit at any time a good faith complaint regarding any questionable accounting, internal accounting controls, or auditing matters concerning the Company without fear of dismissal or retaliation of any kind. Anonymous reports may be made confidentially:

1. By Company employees pursuant to the Company's Corporate Integrity hotline; or
2. By all other individuals by either (i) writing to Chair of the Audit Committee, Bally Technologies, Inc., 6601 South Bermuda Road, Las Vegas, Nevada 89119, in an envelope marked confidential; or (ii) sending an email to *boardofdirectors@ballytech.com* with a reference to "confidential accounting related matters" in the subject line.

Proposal No. 2:

**APPROVAL OF THE COMPANY'S 2010 LONG TERM INCENTIVE PLAN
(an Amendment and Restatement of the Company's 2001 Long Term Incentive Plan)**

On October 1, 2009, the Board of Directors adopted a proposed amendment to and restatement of the Company's Amended and Restated 2001 Long Term Incentive Plan, which will now be called the "2010 Long Term Incentive Plan" (as amended and restated, the "2010 LTIP"), to, among other things, allow for the grant of cash incentive bonuses and grant awards of cash incentive bonuses, restricted stock and RSUs that can be structured to satisfy the requirements for "performance-based compensation" within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"). The proposed amendment and restatement is subject to approval by the stockholders at the Meeting.

The principal features of the 2010 LTIP are summarized below and are qualified in their entirety by reference to the full text of the 2010 LTIP, which is attached to this Proxy Statement as *Appendix B*. Copies of the 2010 LTIP will be available at the Meeting, or upon written request to the Company, as set forth under "Additional Information."

Amendments Incorporated into the 2010 LTIP

No share increase is being requested in connection with this proposal; all of the material changes incorporated into the 2010 LTIP are being driven by the Company's desire to have the ability to grant awards of restricted stock, RSUs, and cash incentive bonuses that are structured to comply with Section 162(m) of the Code. The current terms of the 2010 LTIP, before the proposed amendments, allow for the award of stock options and stock appreciation rights ("SARs") that qualify as "performance-based compensation" within the meaning of Section 162(m) of the Code."

Promotion of Good Corporate Governance Practices

The Company and the Board of Directors have designed the 2010 LTIP to include a number of provisions that we believe promote best practices by reinforcing the alignment between equity compensation arrangements and stockholders' interests. These provisions include, but are not limited to:

options and stock appreciation rights ("SARs") may not be granted with exercise prices lower than the fair market value of the underlying shares on the grant date;

at any time when the exercise price of an option or SAR is above the fair market value of Company common stock, the Company cannot, without stockholder approval, "reprice" those awards by reducing the exercise price of such option or SAR or exchanging such option or SAR for a new award with a lower (or no) exercise price;

there is no automatic right to accelerated vesting of unvested awards upon the occurrence of a change in control or similar transaction as the 2010 LTIP leaves the treatment of awards in connection with a change in control to the Administering Body (as defined below); and

subject to certain exceptions, restricted stock, and RSUs that vest based upon performance criteria and level of achievement versus such criteria are subject to a performance period of not less than twelve months, and restricted stock and RSUs that vest based upon continued service and/or time may not vest or be settled in full prior to three years following the date of grant.

Section 162(m) of the Code

The Board of Directors believes that it is in the best interests of the Company and its stockholders to provide for an equity incentive plan under which compensation awards made to the Company's executive officers can qualify for deductibility by the Company for federal income tax purposes. Accordingly, the 2010 LTIP has been structured in a manner such that awards granted under it can satisfy the requirements

for "performance-based compensation" within the meaning of Section 162(m) of the Code. In general, under Section 162(m) of the Code, in order for the Company to be able to deduct compensation in excess of \$1,000,000 paid in any one year to the Company's chief executive officer or any of the Company's three other most highly compensated executive officers (other than the Company's chief financial officer), such compensation must qualify as "performance-based." One of the requirements of "performance-based compensation" for purposes of Section 162(m) of the Code is that the material terms of the performance goals under which compensation may be paid be disclosed to and approved by the Company's stockholders. For purposes of Section 162(m) of the Code, the material terms include (i) the employees eligible to receive compensation, (ii) a description of the business criteria on which the performance goal is based and (iii) the maximum amount of compensation that can be paid to an employee under the performance goal. With respect to the various types of awards under the 2010 LTIP, each of these aspects is discussed below, and stockholder approval of the 2010 LTIP will be deemed to constitute approval of each of these aspects of the 2010 LTIP for purposes of the approval requirements of Section 162(m) of the Code.

Summary of the 2010 LTIP

Purpose of the 2010 LTIP. The 2010 LTIP is intended to encourage ownership of common stock by directors, employees and designated paid consultants of the Company and its subsidiaries to increase their economic interest in the success of the Company.

Administration. The 2010 LTIP is administered by the Board of Directors or, if the Board so determines, by the Compensation Committee or other committee established by the Board for this purpose (such committee administering the 2010 LTIP, the "Committee," and collectively, with the Board of Directors, the "Administering Body"). However, except as otherwise provided below and unless the Board of Directors expressly determines otherwise, in the case of awards granted to directors and officers subject to Section 16 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the Committee has exclusive responsibility for and authority to administer the 2010 LTIP. The Committee has all of the powers and duties set forth in the 2010 LTIP, as well as such additional powers and duties delegated thereto by the Board of Directors. Subject to the foregoing and as provided for in the 2010 LTIP, the Administering Body will have plenary authority, in its sole discretion, to make all determinations it deems necessary or advisable for the administration of the 2010 LTIP. The Committee must at all times consist of at least two members of the Board of Directors and must be constituted such that, if possible, the 2010 LTIP complies with Rule 16b-3 promulgated under the Exchange Act or any successor rule, and Section 162(m) of the Code. However, the Board of Directors retains the right to (i) determine whether the shares of common stock reserved for issuance upon the exercise and/or payment in respect of awards granted under the 2010 LTIP shall be issued shares or unissued shares, (ii) appoint the members of the Committee and (iii) terminate or amend the 2010 LTIP, subject to stockholder approval, as required.

Number of Shares. The number of shares of common stock available for issuance with respect to awards granted under the 2010 LTIP is limited to 12,050,000 shares. Individual grantees may not receive awards of options, SARs, restricted stock, or RSUs with more than 1,500,000 shares of common stock underlying such awards in any fiscal year and no more than 1,400,000 shares of common stock may be granted as awards of restricted stock or RSUs.

The shares of common stock reserved for issuance pursuant to the 2010 LTIP may consist either of authorized but unissued shares of common stock or of previously issued shares of common stock that have been reacquired by the Company. If any portion of any award granted under the 2010 LTIP expires, terminates or is canceled or forfeited for any reason, the shares of common stock subject to such portion of the award may again be made available for award grants under the 2010 LTIP. Notwithstanding the foregoing, common stock subject to an award may not again be made available for issuance under the 2010 LTIP if the common stock is: (i) common stock that was subject to a stock-settled SAR and was not issued upon the net settlement or net exercise of such SAR; (ii) common stock used to pay the exercise price of

an option; (iii) common stock delivered to or withheld to pay the withholding taxes related to an award; or (iv) common stock repurchased on the open market with the proceeds of an option exercise.

Options. Two types of stock options are authorized to be granted under the 2010 LTIP, options that qualify as incentive stock options pursuant to Section 422 of the Code and options that do not qualify as incentive stock options, i.e., nonstatutory stock options. To the extent that the aggregate fair market value of the common stock, determined as of the date of grant, underlying any incentive stock options granted pursuant to any Company plans that first become exercisable during a calendar year with respect to an individual grantee exceeds \$100,000, such stock options shall be treated as nonstatutory stock options.

The exercise price with respect to a stock option may not be less than the fair market value of a share of common stock on the date of grant, as determined pursuant to the 2010 LTIP. However, if an employee beneficially owns common stock representing more than 10 percent of the total combined voting power of all classes of capital stock of the Company or of any of its subsidiaries at the time an incentive stock option is granted, then the exercise price with respect to such incentive stock options must be at least 110 percent of the fair market value of a share of common stock on the date of grant. In no event may an incentive stock option be exercisable more than ten years after the date of grant; however, an incentive stock option granted to an employee with an exercise price required to be at least 110 percent of the fair market value of a share of common stock on the date of grant may not be exercisable for more than five years after the date of grant.

The exercise price may be paid in cash or in shares of any class of issued and outstanding capital stock of the Company held by the option holder, or a combination thereof. If any portion of the exercise price is paid in shares of capital stock of the Company, such shares shall be valued at their then fair market value, as determined in accordance with the 2010 LTIP. The Administering Body may also permit grantees to pay the option price through withholding of shares of stock otherwise issuable upon exercise of the option and/or to exercise their options pursuant to a cashless exercise, by simultaneously exercising options and selling a certain number of the shares of the common stock issued in connection with such exercise to cover the aggregate exercise price with respect thereto.

Other than in connection with a change in the Company's capitalization, the exercise price of an option may not be reduced without stockholder approval (including canceling previously awarded options in exchange for cash, other awards, or options or SARs with an exercise price that is less than the exercise price of the original award).

Restricted Stock. The Administering Body may place such restrictions as it deems appropriate on any shares of restricted stock awarded under the 2010 LTIP. In general, other than with respect to awards to directors who are not also employees of the Company, the grant, issuance, retention, vesting or settlement of shares of restricted stock that is based on performance criteria and level of achievement versus such criteria will be subject to a performance period of not less than twelve months, and, subject to certain exceptions, the grant, issuance, retention, vesting and/or settlement of shares of restricted stock that is based solely upon continued employment or service or the passage of time may not vest or be settled in full prior to three years following the date of grant, but may be subject to pro-rata vesting over such period. Unless unvested shares are forfeited in accordance with the terms of the underlying agreement, the holder will have full voting rights and the right to receive any and all distributions with respect to such shares of restricted stock.

RSUs. The Administering Body may place such restrictions as it deems appropriate on any RSUs awarded under the 2010 LTIP. In general, other than with respect to awards to directors who are not also employees of the Company, the grant, issuance, retention, vesting and/or settlement of shares of stock underlying an RSU award that is based on performance criteria and level of achievement versus such criteria will be subject to a performance period of not less than twelve months, and, subject to certain exceptions, the grant, issuance, retention, vesting or settlement of shares of stock underlying an RSU

award that is based solely upon continued employment or service or the passage of time may not vest or be settled in full prior to three years following the date of grant, but may be subject to pro-rata vesting over such period. No holder of an RSU will be deemed to be the holder of, or to have any of the rights with respect to, any shares of common stock subject to such RSU until the Company has issued the underlying shares of common stock and the holder's name has been entered on the books of the Company, after which the holder has full voting and ownership rights with respect to the shares.

Stock Appreciation Rights (SARs). A SAR is an award granted with respect to a specified number of shares of common stock entitling the grantee to receive an amount equal to the excess of (i) the fair market value of a share of common stock on the date of exercise over (ii) the fair market value of a share of common stock on the date of grant of the SAR (the "Base Price"), multiplied by the number of shares of common stock with respect to which the SAR has been exercised at that price. SARs may be granted in addition to any other award under the 2010 LTIP or in tandem with stock options. Subject to the provisions of the applicable award agreement, the Company may pay cash or issue shares of restricted or unrestricted common stock upon exercise of a SAR.

Other than in connection with a change in the Company's capitalization, the Base Price of a SAR may not be reduced without stockholder approval (including canceling previously awarded SARs in exchange for cash, other Awards, or options or SARs with an exercise price that is less than the exercise price of the original award).

Incentive Bonuses. Each incentive bonus award will confer upon the grantee the opportunity to earn a future payment tied to the level of achievement with respect to one or more performance criteria established for a performance period specified by the Committee. The Committee will determine the timing of payment of any incentive bonus. Payment of the amount due under an incentive bonus may be made in cash, in restricted stock, in shares of unrestricted Stock, or in any combination thereof, as the Board or the Committee, in its sole discretion, determines. The maximum amount payable pursuant to that portion of an incentive bonus granted in any fiscal year to any grantee under the 2010 LTIP that is intended to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code will not exceed \$10,000,000.

Performance Criteria. The Committee may establish performance criteria and level of achievement versus such criteria that will determine the number of shares of stock to be granted, retained, vested, issued or issuable under or in settlement of or the amount payable pursuant to an award, which criteria may be based on Qualifying Performance Criteria (as defined below) or other standards of financial performance or personal performance evaluations. In addition, the Committee may specify that an award or a portion of an award is intended to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code, provided that the performance criteria for such award or portion of an award that is intended by the Committee to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code will be a measure based on one or more Qualifying Performance Criteria selected by the Committee and specified at the time the award is granted. The Committee will certify the extent to which any Qualifying Performance Criteria has been satisfied, and the amount payable as a result thereof, prior to payment, settlement, or vesting of any award that is intended to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code.

For purposes of the 2010 LTIP, the term "Qualifying Performance Criteria" means any one or more of the following performance criteria, or derivations of such performance criteria, either individually, alternatively, or in any combination, applied to either the Company as a whole or to a business unit or subsidiary, either individually, alternatively, or in any combination, and measured either annually or cumulatively over a period of years, on an absolute basis or relative to a pre-established target, to previous years' results or to a designated comparison group, in each case as specified by the Committee: (i) revenues; (ii) earnings per share (basic or diluted), earnings from operations, earnings before or after taxes, earnings before or after interest, depreciation, amortization, incentives, service fees, or extraordinary

or special items; (iii) net income or net income per common share (basic or diluted); (iv) return on assets, return on net assets, return on investment, return on capital, or return on equity; (v) cash flow, free cash flow, cash flow return on investment, or net cash provided by operations; (vi) economic value created or added; (vii) operating margin or profit margin; (viii) stock price, dividends or total stockholder return; and (ix) strategic business criteria, consisting of one or more objectives based on meeting specified market penetration or value added, market share, product development or introduction, geographic business expansion goals, cost targets, debt reduction, customer satisfaction, employee satisfaction, information technology, and goals relating to acquisitions or divestitures of subsidiaries, affiliates or joint ventures. To the extent consistent with Section 162(m) of the Code, the Committee (a) may appropriately adjust any evaluation of performance under a Qualifying Performance Criteria to eliminate the effects of charges for restructurings, discontinued operations, extraordinary items and all items of gain, loss or expense determined to be extraordinary or unusual in nature or related to the disposal of a segment of a business or related to a change in accounting principle all as determined in accordance with accounting principles generally accepted in the United States, as well as the cumulative effect of accounting changes, in each case as determined in accordance with generally accepted accounting principles or identified in the Company's financial statements or notes to the financial statements, and (b) may appropriately adjust any evaluation of performance under a Qualifying Performance Criteria to exclude any of the following events that occurs during a performance period: (1) asset write-downs, (2) litigation, claims, judgments, or settlements, (3) the effect of changes in tax law or other such laws or provisions affecting reported results, (4) accruals for reorganization and restructuring programs, and (5) accruals of any amounts for payment under the 2010 LTIP or any other compensation arrangement maintained by the Company.

Eligibility. Awards may be granted to directors, employees and paid consultants of the Company or its subsidiaries. However, only regular full-time employees of the Company or its subsidiaries are eligible to receive incentive stock options. As of October 1, 2009, in addition to the chief executive officer who is an officer and a director, there were 8 executive officers, 4 directors and approximately 2,800 employees eligible to receive grants under the 2010 LTIP.

Termination of Employment. If an employee award holder retires as a result of normal retirement or his or her employment is terminated because of disability, each as defined in the 2010 LTIP, any stock options or SARs will be freely exercisable at any time within the remaining term of such award and any restricted stock and RSUs freely transferable, unless otherwise determined by the Administering Body at the time of grant. If a grantee dies, any stock option or SAR will be exercisable by such grantee's estate or heirs for its remaining term, but in no case for more than two years. If a holder of restricted stock, RSUs or an incentive bonus dies prior to the lapse of all applicable restrictions, any unvested portion of such award held by such person on the date of his death will be forfeited, unless otherwise determined by the Administering Body at the time of grant. Unless provided for otherwise in the applicable award or employment agreement, if an award holder ceases to be either a director, employee or paid consultant of the Company,

any unvested portion of any restricted stock, RSUs or an incentive bonus subject to such holder's award will be forfeited as of the last date such person was either a director, employee, or paid consultant of the Company or a subsidiary; and

any stock options or SARs subject to such holders award will continue to be exercisable or transferable to the same extent as immediately prior to such cessation for a period of sixty days, whereupon any stock options or SARs will be terminated, unless such cessation was for Cause, as defined in the 2010 LTIP, in which case any such stock option or SAR will terminate ten days thereafter.

Adjustments. In the event there is a change in the number of shares of outstanding common stock of the Company by reason of a stock split, stock dividend, combination or reclassification of shares, recapitalization or similar event, the Administering Body will proportionally adjust the number and kind of

shares subject to the 2010 LTIP, the number and kind of shares then subject to unexercised options and SARs and outstanding awards of restricted stock and RSUs, as well as the exercise price or Base Price, as the case may be, of unexercised options and SARs. In the event of any merger, spin-off, split-off or other similar consolidation, reorganization or change affecting any class of stock of the Company (a "Merger Event") subject to awards made under the 2010 LTIP, or any distribution other than normal cash dividends to holders of such stock, the Administering Body will make fair and equitable provision and adjustment with respect to all unexercised options or SARs and all then outstanding awards of restricted stock, RSUs and incentive bonuses to give proper effect to such event and preserve the value, rights and benefits of such options, SARs, restricted stock, RSUs and incentive bonuses. In the case of any Merger Event pursuant to which the Company is not the surviving corporation and pursuant to which the former holders of common stock do not hold more than a majority of the voting securities of the resulting entity immediately after each Merger Event, or in connection with any acquisition by any person of more than 50 percent of the outstanding shares of common stock, the Administering Body may provide that each option or SAR holder shall receive a cash payment, in exchange for and in cancellation of such option or SAR, equal to the difference (if positive) between the value of the per share consideration received by the holders of the stock in such Merger Event and the exercise or Base Price of such option or SAR, multiplied by the number of shares of common stock underlying such option or SAR. In addition, in the event of any Merger Event pursuant to which all of the outstanding common stock held by the stockholders of the Company is exchanged for any lawful consideration, all unvested and unexercisable options or SARs outstanding on the date on which stockholder approval of such Merger Event is obtained shall become fully vested and exercisable, and all restrictions then applicable to awards of restricted stock and restricted stock units outstanding on the date on which stockholder approval of the Merger Event is obtained will lapse and such awards will thereafter be fully vested and transferable.

Amendment and Termination. The Board of Directors may amend the 2010 LTIP, subject to any required regulatory and stockholder approval, as well as suspend or terminate the 2010 LTIP, at any time. The 2010 LTIP, unless sooner terminated, will terminate on the tenth anniversary of its adoption by the Board of Directors but such termination will not affect any award theretofore granted.

Federal Income Tax Consequences

The following is a brief description of the Company's understanding of the federal income tax consequences to the Company and participants subject to United States taxation with respect to awards granted under the 2010 LTIP. This description may be inapplicable if such laws and regulations are changed. This summary is not intended to be exhaustive or constitute tax advice and does not address any state, local, or foreign tax consequences.

Nonstatutory Stock Options. A recipient will generally not realize taxable income upon the grant of a nonstatutory option, nor will the Company then be entitled to any deductions at that time. If the shares that are received upon exercise of nonstatutory stock options are vested, or if the participant makes a Section 83(b) election with respect to unvested shares acquired upon exercise of a nonstatutory stock option, the participant will generally recognize ordinary income in an amount equal to the difference between the option exercise price and the fair market value of the stock at the date of exercise. If the shares received upon exercise of nonstatutory stock options are not vested and the participant does not make the Section 83(b) election, the participant will be taxed at ordinary income tax rates as those shares vest, and the amount of ordinary income for each such share will equal the excess of the fair market value of the share on the date the share vests over the exercise price paid for the share. The Company may be required to withhold taxes (including but not limited to employment and income taxes) on the ordinary income realized by an optionee as a result of the exercise of nonstatutory options. The holding period for the shares received upon the exercise of nonstatutory stock options generally will begin on the day after exercise, except that the holding period for shares that are not vested upon exercise and for which no Section 83(b) election is made will begin just after the shares become vested. Provided the shares received

upon exercise of the nonstatutory stock option are held as a capital asset, upon the subsequent disposition of the shares, an optionee will recognize capital gain or loss in an amount equal to the difference between the proceeds received upon disposition and the recipient's basis for the shares. The recipient's basis will be equal to the sum of the price paid for the shares and the amount of income realized upon exercise of the nonstatutory stock option. Any capital gain or loss will be characterized as long-term or short-term, depending upon the holding period of the shares.

Incentive Stock Options. No taxable income is recognized by a participant at the time of the grant of an incentive stock option. In addition, the participant will not recognize income for regular federal income tax purposes at the time of the exercise of an incentive stock option. A participant may, however, be subject to alternative minimum tax upon the exercise of an incentive stock option since the excess of the fair market value of the shares acquired upon the exercise of an incentive stock option (referred to as the "ISO Shares") over the exercise price must be included in "alternative minimum taxable income." A participant's basis in the ISO Shares for regular federal income tax purposes will generally be the price paid upon the exercise of the incentive stock options. The Company will not be entitled to a deduction at the time of the grant or the exercise of an incentive stock option.

If a recipient sells the ISO Shares at any time within one year after the date the Company transfers those shares or within two years after the date the Company grants the incentive stock option (such a sale being referred to as a "Disqualifying Disposition"), then:

if the recipient's sales price exceeds the price paid for the ISO Shares upon exercise of the incentive stock option, the recipient will recognize a capital gain equal to the excess, if any, of the sales price over the fair market value of the ISO Shares on the date of exercise, and the recipient will recognize ordinary income equal to the excess, if any, of the lesser of the sales price or the fair market value of shares on the date of exercise over the price paid for the ISO Shares upon exercise of the incentive stock option; or

if a recipient's sales price is less than the price paid for the ISO Shares upon exercise of the incentive stock option, the recipient will recognize a capital loss equal to the excess of the price paid upon exercise of the incentive stock option over the sales price of the ISO shares.

If the recipient sells the ISO Shares acquired upon exercise of an incentive stock option at any time after the shares have been held for at least one year after the date the Company transfers the shares pursuant to the exercise of the incentive stock option and at least two years after the date the Company grants the incentive stock option, then the recipient will recognize capital gain or loss equal to the difference between the sales price and the price paid upon exercise of the incentive stock option.

Stock Awards. A participant who is awarded vested shares is required to recognize ordinary income in an amount equal to the excess of (i) the fair market value of the shares on the date the shares are granted to the participant over (ii) the purchase price (if any) paid for the shares. The tax consequences to a participant who is awarded unvested shares will generally be the same as the tax consequences to participants who acquire shares upon the exercise of a nonstatutory stock option. A recipient of a stock unit award will generally realize ordinary income upon the issuance of the shares of common stock underlying such stock units in an amount equal to the difference between the value of such shares and the purchase price for such units and/or shares.

SARs. The holder of a SAR will not recognize taxable income upon the receipt of the SAR. Upon exercise, the holder will generally realize ordinary income equal to the difference between the base price of the SAR and the then current value of the Company's common stock.

Incentive Bonuses. A participant will have taxable income at the time an incentive bonus award becomes payable. At that time, the participant will recognize ordinary income equal to the value of the amount then payable.

Tax Effects for the Company. The Company generally will be entitled to a deduction for federal income tax purposes equal to the amount of any ordinary income a grantee recognizes.

For the individual serving as the chief executive officer of the Company at the end of the taxable year and for the individuals serving as officers of the Company or a subsidiary at the end of such year who are among the three highest compensated officers (other than the chief executive officer and chief financial officer) for proxy reporting purposes, Section 162(m) of the Code limits the amount of compensation otherwise deductible by the Company and its subsidiaries for such year to \$1,000,000 for each such individual except to the extent that such compensation is "performance-based compensation." The Company expects that nonstatutory stock options, incentive stock options, and SARs should qualify as performance-based compensation. The Committee may establish performance conditions and other terms with respect to grants of restricted stock, restricted stock units and cash incentive bonuses in order to qualify such grants as performance-based compensation for purposes of Section 162(m) of the Code.

Miscellaneous Issues. Generally, the Company will be required to withhold applicable taxes with respect to any ordinary income recognized in connection with any awards made under the 2010 LTIP. A recipient may be required to pay the withholding taxes to the Company or make other provisions satisfactory to the Company for the payment of the withholding taxes as a condition to the issuing of any common stock or the paying of any benefit under the 2010 LTIP. Whether or not such withholdings are required, the Company will make such information reports to the Internal Revenue Service as may be required with respect to any income attributable to transactions involving awards under the 2010 LTIP.

Special rules will apply in cases where an optionee pays the exercise or purchase price of the option or applicable withholding tax obligations under the 2010 LTIP by delivering previously owned shares of common stock or by reducing the amount of shares otherwise issuable pursuant to the 2010 LTIP. The surrender or reduction of such shares of common stock will in specific circumstances result in the recognition of income with respect to such shares or a carryover basis in the shares acquired and may constitute a Disqualifying Disposition with respect to shares acquired upon exercise of an incentive stock option.

The preceding discussion is intended merely as a general presentation of United States federal income tax consequences related to certain awards issued under the 2010 LTIP. As to the specific tax consequences to particular employees or other participants, the Company urges you to consult your tax advisor.

Plan Benefits

Because benefits under the 2010 LTIP will depend on future grants approved by the Board of Directors and the fair market value of the Company's common stock on such dates of approval, it is not possible to determine the benefits that will be received by officers, directors and other employees if the amendment to the 2010 LTIP is approved by the stockholders.

The Board of Directors recommends that stockholders vote "FOR" the 2010 LTIP.

Proposal No. 3:

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

At the Meeting, a vote will be taken on a proposal by the Board of Directors to ratify the selection of Deloitte & Touche LLP to serve as the Company's independent registered public accounting firm for the fiscal year ending June 30, 2010. Deloitte & Touche LLP has audited the Company's financial statements beginning with the fiscal year ended June 30, 2001.

A representative of Deloitte & Touche LLP will be present at the Meeting, will have an opportunity to make a statement if he so desires, and is expected to be available to respond to appropriate questions.

The Board of Directors recommends that stockholders vote "FOR" the ratification of the appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm.

The following table presents the aggregate fees billed by the Company's principal independent registered public accounting firm, Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu, and their respective affiliates (collectively, the "Deloitte Entities") for services provided during fiscal years 2009 and 2008:

- (2) Consists primarily of fees paid for tax compliance, consultation and preparation services.

The Audit Committee reviews and approves all services to be provided by the Deloitte Entities. The Audit Committee has considered the effect of non-audit services on the independence of the Deloitte Entities, and does not believe that such independence has been impaired or otherwise compromised.

Pre-Approval Policy

Pursuant to the Audit Committee's pre-approval policies and procedures for certain audit and non-audit services, the Company's independent registered public accounting firm cannot be engaged to provide any audit and non-audit services to the Company unless the engagement is pre-approved by the Audit Committee in compliance with the Sarbanes-Oxley Act of 2002. All services related to the fees set forth in the table above were pre-approved by the Audit Committee pursuant to this pre-approval policy.

Report of the Audit Committee

Management has the primary responsibility with respect to the financial statements and the reporting process of the Company, and the Company's independent registered public accounting firm is responsible for expressing an opinion on the conformity of the Company's audited financial statements to generally accepted accounting principles. The Audit Committee hereby reports as follows:

1. The Audit Committee has reviewed and discussed the audited financial statements for the fiscal year ended June 30, 2009, with the Company's management.
2. The Audit Committee has discussed with Deloitte & Touche LLP, the Company's independent registered public accounting firm, the matters required to be discussed by the statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1, AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T, among other things.

COMPENSATION DISCUSSION AND ANALYSIS

The Company's Compensation Philosophy & Objectives

The Company's compensation program for executive officers, which has been endorsed by the Compensation Committee of the Board of Directors, is designed to enhance stockholder value by tying a large portion of senior executive compensation to the Company's overall performance, as reflected in the value of the Company's common stock. In furtherance of this objective, the Company provides competitive opportunities with respect to salary, annual incentive/bonus, and grants of long-term incentives upon hire and periodically during the term of employment in comparison to both peer organizations within the gaming and technology industries and similarly sized companies. The Company believes this compensation structure enables the Company to attract and retain key executives critical to the Company's long-term vision and success, and to motivate its executives to enhance long-term stockholder value by focusing on growth, productivity, profitability and operating margins.

Role of the Compensation Committee

General. The Compensation Committee, which is comprised of three independent members of the Company's Board of Directors, as discussed in greater detail under "Board of Directors Director Independence" is responsible for, among other things,

The review and approval of the Company's compensation philosophy;

The approval of all executive compensation plans and structures, including that of the Company's and its subsidiaries' executives and senior management;

The approval of bonus criteria and annual and long-term incentive performance metrics, as well as payouts thereunder; and

The approval of other executive benefit plans, including perquisites and retirement benefits, and the Employee Stock Purchase Plan.

The Compensation Committee, in consultation with Pearl Meyer & Partners, the independent executive compensation consultant it has retained, also analyzes the reasonableness of the Company's overall executive compensation package. The Compensation Committee's functions are more fully set forth in its charter which has been approved by the Board of Directors, as discussed under "Board of Directors Committees of the Board of Directors Compensation Committee."

While the Chief Executive Officer and other senior executive officers may attend meetings of the Compensation Committee, the ultimate decisions regarding executive officer compensation are made solely by the Compensation Committee. These decisions are based not only on the Compensation Committee's deliberations, but also from input requested from outside advisors, including its independent compensation consultant, with respect to, among other things, market data analyses. The final decisions relating to the Chief Executive Officer's compensation are made in executive session of the Compensation Committee without the presence of management. Decisions regarding the other executive officers are typically made by the Compensation Committee after considering recommendations from the Chief Executive Officer.

Compensation Consultants. The Compensation Committee historically engages the services of an independent compensation consulting firm to advise it in connection with making executive compensation determinations. The Compensation Committee retained the services of Pearl Meyer & Partners with respect to fiscal year 2009. The Chairman of the Compensation Committee defines the scope of any consultant's engagement. The responsibilities may include, among other things, advising on issues of executive or Board of Directors compensation, equity compensation structure or preparing compensation disclosure for inclusion in the Company's SEC filings.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form DEF 14A

The Compensation Committee retained Pearl Meyer & Partners directly. However, in fulfilling its responsibilities, Pearl Meyer & Partners may interact with management or the Company's other outside advisors to the extent necessary or appropriate. The Company's management retained Pearl Meyer & Partners for limited consulting and advisory services, totaling less than \$5,000, during fiscal year 2009.

Compensation Structure

Although the final structure may vary from year to year and officer to officer, the Compensation Committee utilizes three main components for executive officer compensation:

Base Salary fixed pay that takes into account the individual's duties and responsibilities, experience, expertise and individual performance;

Annual Incentive/Bonus variable cash compensation that takes into account both the Company's and the individual's performance; and

Long-Term Incentives share-based awards including both stock options and restricted stock that reflect the performance of the Company's common stock and align executive officer and stockholder interests.

For fiscal year 2009, the final level and mix of compensation was based on the Compensation Committee's understanding of the objective data relating to the Company's competitive environment and the Company's performance, as well as the subjective factors outlined below.

Pay Mix. The Compensation Committee believes that the particular elements of compensation identified above produce a well-balanced mix of security-oriented compensation, retention value, and at-risk compensation that provide the executive officers with both short-term and long-term performance incentives. Base pay provides the executive officer with a measure of security as to the minimum level of compensation he or she will receive while the annual and long-term incentive components motivate the executive officer to focus on the business metrics that will produce a high level of Company performance over the long-term. The Compensation Committee believes that this approach not only leads to increases in stockholder value and long-term wealth creation for the executive, but also reduces the risk of losing top executives to competitors.

Further, the Compensation Committee believes the components of executive compensation should be weighted towards at-risk pay. This allocation is consistent with the Compensation Committee's overall philosophy with respect to the Named Executive Officers, as defined under "Executive Compensation Summary Compensation Table," of pay-for-performance. When past equity compensation awards are combined with the contractual salary and targeted bonuses for the term of each Named Executive Officer's employment agreement (or the vesting schedule of the Named Executive Officer's equity award upon hire), the aggregate base salary payable to each Named Executive Officer over such period comprises between 33 percent and 51 percent of the aggregate value of each officer's targeted compensation for the period. The individual components of each of the Named Executive Officer's compensation package are described in more detail below under "Individual Named Executive Officer Compensation."

Compensation Levels and Benchmarking. Overall compensation levels for executives are determined based on one or more of the following factors:

the individual's duties and responsibilities within the Company;

the individual's experience and expertise;

the compensation levels for the individual's peers within the Company;

the compensation levels for similar positions in the industry or in the technology industry more generally;

the performance of the individual and the Company as a whole; and

the levels of compensation necessary to recruit new executives.

The Company does not attempt to target a particular pay positioning (relative to the Company's principal competitors) for executive officers individually or as a group. Instead, the Company assesses each executive on the previously identified factors to determine appropriate levels of compensation. The Company and the Compensation Committee believe that the resulting compensation package is competitive.

The gaming and gaming systems industries are highly competitive, and have a limited pool of executive officer candidates with the desired level of industry experience. The Compensation Committee considers information from a variety of sources when assessing the competitiveness of the Company's current and future compensation levels. These sources include, but are not limited to, management, other members of the Board of Directors, publicly available compensation data regarding executive officers both within and outside the industry, what the Company understands of compensation arrangements of other local companies, and opinions from the Compensation Committee's consultants. The Compensation Committee believes that these sources provide it with an understanding of the competitive marketplace for executive talent among the Company's principal competitors, including International Game Technology, Aristocrat Leisure, GTECH Holdings, Konami, Shuffle Master, and WMS Industries. In making compensation decisions for the Named Executive Officers for fiscal year 2009, the Compensation Committee reviewed the terms and conditions of each Named Executive Officer's employment agreement, each of which provides for a set level of base salary and annual incentive/bonus opportunity, as well as long-term incentives and benefits. To the extent not governed by contractual commitments, compensation decisions for the Named Executive Officers were made based on the Compensation Committee's understanding of the market pay for similar positions, internal equity, changes in the price of a share of the Company's common stock to the extent it influenced outstanding equity grants, and the amount of unvested outstanding equity grants.

Individual Named Executive Officer Compensation

Base Salary. The Compensation Committee annually reviews each executive's base salary, and determines whether such individual deserves any increases or decreases thereto. These reviews include considerations of, among other things, factors such as the Company's overall performance, new duties and/or responsibilities assumed by the executive, the overall performance of the executive's area of responsibility, the executive's impact on strategic goals, and the executive's length of service with the Company. However, there is no specific weighting applied to any one factor in setting the level of base salary, and the process ultimately relies on the subjective exercise of the Compensation Committee's judgment.

Each of the Named Executive Officers was hired pursuant to an employment agreement which established each Named Executive Officer's initial salary. Each employment agreement was the result of negotiation between the Company and the Named Executive Officer. Although the Compensation Committee has the ability to modify each executive's salary, none of the Named Executive Officers' salaries was modified in fiscal year 2008 except through amendments to their respective employment agreements. During fiscal year 2009, the Compensation Committee assessed each of the Named Executive Officers' (other than Mr. Haddrill) current salary levels in light of the Compensation Committee's understanding of the competitive marketplace (based on individual experiences and not a formal benchmarking study), the Company's performance for fiscal year 2008, each individual's contributions to the Company's performance, and outstanding employment arrangements. The Compensation Committee approved adjustments for several of the Named Executive Officers (as discussed in further detail below).

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form DEF 14A

The following table is a summary of Executive Compensation for the 2009 fiscal year:

Fiscal Year 2009

Executive	2009 Base Salary	2009 vs. 2008	Date of Adjustment
Richard Hadrill	\$ 998,000	0%	
Robert Caller	\$ 365,000	7%	10/1/08
Michael Gavin Isaacs	\$ 600,000	76%	9/1/08
Ramesh Srinivasan	\$ 350,000	27%	10/1/08
Mark Lerner	\$ 270,000	23%	10/1/08

Salary increases for Messrs. Caller, Srinivasan, and Lerner were made without adjustment to their respective employment agreements. The amendment to Mr. Isaacs' agreement was filed with the SEC as an exhibit to the Form 8-K filed on September 2, 2008, and incorporated by reference in the exhibit index to our Annual Report on Form 10-K for the fiscal year ended June 30, 2009. The following is a brief description of fiscal 2009 salary decisions with respect to each of the Named Executive Officer's:

Richard Hadrill. There were no salary changes for Mr. Hadrill in fiscal 2009.

Robert Caller. On October 1, 2008, Mr. Caller's base salary was increased to \$365,000 in light of the Compensation Committee's assessment of his salary relative to market practices (based on individual experiences and not a formal benchmarking study) and internal comparisons, Company performance, and his individual performance, including his efforts related to the growth in the finance function, enhancing internal and external reporting, and resolution of the SEC's investigation of historical revenue accounting.

Michael Gavin Isaacs. On September 1, 2008, Mr. Isaacs' base salary was increased to \$600,000. Mr. Isaacs' salary was increased due to his and the Company's performance, and in consideration for extending his contract's non-competition provisions as well as in consideration of his expected increase in responsibilities, his salary relative to the competitive marketplace (based on individual experiences and not a formal benchmarking study), and internal comparisons. The Compensation Committee also considered a provision in the Isaacs Agreement which would have required the Company to elect between making salary continuation payments or terminating Mr. Isaacs non-compete if his salary was not increased to at least \$490,000 on September 1, 2008, and Mr. Isaacs terminated his employment within 30 days thereafter.

Ramesh Srinivasan. On October 1, 2008, Mr. Srinivasan's base salary was increased to \$350,000 in light of the Compensation Committee's assessment of his salary relative to market practices (based on individual experiences and not a formal benchmarking study), internal comparisons, Company performance and his individual performance including the superior growth in revenue and market share and margins of the worldwide systems business. On October 19, 2009, Mr. Srinivasan's base salary was increased to \$400,000 in light of the Compensation Committee's assessment of his salary relative to internal comparisons and an assessment of his individual performance including the continued growth in revenue and market share and margins of the worldwide systems business.

Mark Lerner. On October 1, 2008, Mr. Lerner's base salary was increased to \$270,000 in light of the Compensation Committee's assessment of his salary relative to market practices (based on individual experiences and not a formal benchmarking study), Company performance, the expansion of the litigation and SEC responses over the past several years, and his individual performance in maintaining the regulatory compliance of the Company and managing SEC and litigation matters for the Company.

Annual Cash Incentive Programs. The Company believes that an incentive program tied to annual performance is an effective means of motivating and rewarding executives to enhance long-term stockholder value. This structure is accomplished by providing annual cash incentives under the Company's Management Incentive Plan ("MIP"). Each of the Named Executive Officers, except Mr. Haddrill participates, or is eligible to participate in, the MIP. For the remaining executives, annual performance bonuses are tied to the Company's overall performance, as well as to both the performance of each individual executive and the performance of his or her area of responsibility.

Under the MIP, the Compensation Committee establishes a target incentive opportunity, the range of possible incentive awards, the performance measures used, and the level of performance that will correspond to a particular incentive payment, all of which the Compensation Committee uses to determine an executive's annual cash incentive awards. Target incentive opportunities under the MIP for each of the Named Executive Officers, other than Mr. Haddrill, are 60 percent of base salary. This award level can vary between a maximum payout of 102 percent of salary, a threshold payout of 18 percent of salary, and \$0. For fiscal year 2009, the performance goals that affected potential payouts for the Named Executive Officers were as follows: (i) 70 percent of each executive's award was tied to the Company's performance and (ii) 30 percent of each executive's award was tied to individual goals as determined by the Chief Executive Officer. For 2009, the award amount related to Company performance, if achieved at the maximum level, would result in a payout equal to 84 percent of such executive's base salary; and (ii) the award amount related to individual goals, if achieved at the maximum level, would result in a payout equal to 18 percent of such executive's base salary. Under the MIP, the Company may elect to distribute any award in restricted stock. The Company may modify, amend or eliminate the MIP at any time.

The Compensation Committee sets and approves certain financial or operational objectives for determining the portion of bonuses that are tied to Company performance. Threshold Company performance must be met to receive a payout. For fiscal year 2009, Diluted EPS was chosen as the Company performance measure. The Compensation Committee chose Diluted EPS as the Company performance measure because the Company and the Compensation Committee believe that Diluted EPS is a good indicator of the Company's achievement with respect to its overall business objectives and a significant driver of stock price performance.

The Compensation Committee established threshold Company performance for fiscal year 2009 to be Diluted EPS of \$2.00, a target of Diluted EPS of \$2.38, and a maximum performance goal of Diluted EPS of \$2.80. For Company performance results that are between the threshold and target, or between the target and the maximum, the bonus amount is determined by straight line interpolation.

The individual performance component of the bonus is based on the Compensation Committee's subjective evaluation of the overall performance of each executive. The Compensation Committee reviews the executive's individual contributions and efforts during the year as well as recommendations of the Chief Executive Officer. The recommendations of the Chief Executive Officer are based on individual goals set by the Chief Executive Officer and the executive. The following briefly outlines the goals established for each of the Named Executive Officers for fiscal years 2009.

Robert Caller. Mr. Caller's individual performance goals for fiscal 2009, some of which had a subset of goals, included (i) develop and implement process improvements designed at automating the Company's internal controls over financial reporting, (ii) reduce departmental costs, (iii) improve working capital, (iv) restructure the Company's credit facility, (v) continue lead role in the cost reduction initiative within the Company, and (vi) continue to improve investor relations.

Michael Gavin Isaacs. Mr. Isaacs' individual performance goals for fiscal 2009 included (i) improve standard cost for the Company's products, (ii) successfully launch new game products, (iii) successfully improve the video product line, (iv) improve gross margin related to the games and gaming operations division, (v) reduce costs for business unit, (vi) manage and maintain inventory levels, and (vii) continue to build cross departmental relationships.

Ramesh Srinivasan. Mr. Srinivasan's individual performance goals for fiscal 2009 included (i) increase revenue and operating margin, (ii) ensure success of deployments and product releases, (iii) obtain new customers and increase regional road shows, (iv) increase new product implementations and improve new contract success rates, (v) create and maintain teams and departments, (vi) improve existing systems content and increase enhanced deployments, and (vii) create new systems and increase deployments.

Mark Lerner. Mr. Lerner's individual performance goals for fiscal 2009 included (i) successfully oversee existing litigation matters, (ii) improve partnerships with business unit leaders, (iii) input and maintain contracts database, (iv) reduce outside counsel costs, (iv) increase license application processing efficiency, (v) expand contracts database internationally, and (vi) improve delivery of domestic sales contracts and implement feedback surveys.

For fiscal year 2009, the Company earned Diluted EPS of \$2.22, resulting in 75 percent achievement of target with respect to the 70 percent of an executive's bonus tied to Company performance.

During fiscal year 2009, with respect to the 30 percent of an executive's bonus that is tied to individual performance, the Compensation Committee approved, upon the recommendation of the Chief Executive Officer, payouts at 80 percent of target regarding the individual performance component of cash incentives for all Named Executive Officers.

Target and actual incentive amounts for each Named Executive Officer for fiscal year 2009 were as follows:

Officer	FY 2009 Target MIP	FY 2009 MIP
Richard Haddrill	n/a	n/a
Robert Caller	\$ 219,000	\$ 154,395
Michael Gavin Isaacs	\$ 360,000	\$ 253,800
Ramesh Srinivasan	\$ 210,000	\$ 148,050
Mark Lerner	\$ 162,000	\$ 114,210

Long-Term Incentives. The Company's long-term incentive program is the component of executive compensation that is most aligned with the long-term interests of stockholders. A significant portion of the Named Executive Officers' target compensation is in the form of long-term incentives. Long-term incentive compensation also enables the Company to motivate leaders and key employees through the use of stock options which only have value if the stock price appreciates as well as encourage them to provide long-term service to the Company through the use of restricted stock or RSUs which only have value if the participant remains through the service period and whose value is dependent on the Company's stock price. These long-term incentives are generally granted under the Amended and Restated 2001 Long Term Incentive Plan (the "Amended and Restated Plan").

The Compensation Committee annually reviews each executive's outstanding equity and determines whether such individual deserves an additional grant of stock options, restricted stock or restricted stock units or both. These reviews include considerations of, among other things, factors such as the Company's overall performance, duties and/or responsibilities assumed by the executive, the overall performance of the executive's area of responsibility, the executive's impact on strategic goals, prior levels of total compensation, the mix of outstanding equity awards, and the desired emphasis on retention and motivation. However, there is no specific weighting applied to any one factor in determining the level of equity awards or the mix between stock options and restricted stock or RSUs, and the process ultimately relies on the subjective exercise of the Compensation Committee's judgment.

Fiscal Year 2009. On October 17, 2008, the Compensation Committee approved annual awards for certain of the Named Executive Officers in respect of fiscal year 2008 performance. The following is a brief description of such grants of stock options, restricted stock and RSUs as well as the Compensation Committee's determination of award vesting:

Richard Hadrill. Mr. Hadrill was granted 50,000 stock options at a per-share exercise price equal to the market price thereof on October 17, 2008, which vest in full on December 31, 2010. Mr. Hadrill was also granted 66,745 RSUs having a value equal to \$1.7 million on October 17, 2008, which vest in full on December 31, 2010. The equity awards were granted pursuant to the October 22, 2008, amendment to the Hadrill Agreement. The awards were intended to approximate the annualized value of historic awards provided to Mr. Hadrill as of the grant determination date. After consideration of Mr. Hadrill's current outstanding awards of restricted stock and stock options, the Compensation Committee provided for a mix of awards between stock options and restricted stock to encourage both retention and focus on share appreciation. On May 13, 2009, the Company amended the terms of the January 8, 2004, option grant for members of the Board of Directors of the Company, including Mr. Hadrill, in light of the shortened exercise period of the initial option grant and provision that the awards were subject to extension for the length of any "black out" periods during which the director was not permitted to sell the Company's stock. The Board of Directors determined that extensive "black out" period which began in June 2004 and ended in December 2007, and amended the awards to allow for continued exercise of any unexercised portion of the grant until July 8, 2013, subject to continued service, other than for death or disability, as a member of the Board.

Robert Caller. Mr. Caller was granted 736 shares of restricted stock on August 12, 2008, which vested in full immediately, and 5,219 shares of restricted stock on December 10, 2008, which vest in full on December 10, 2009. The awards were intended to provide Mr. Caller with total direct compensation targeted above the amount previously provided. This was due to his and the Company's superior performance and reflects his roles, responsibilities and expected future contributions as well as the Compensation Committee's understanding of market pay.

Michael Gavin Isaacs. Mr. Isaacs was granted 1,472 shares of restricted stock on August 12, 2008, which vested in full immediately. Mr. Isaacs was also granted 25,000 shares of restricted stock, which vest in full on October 17, 2012. Mr. Isaacs was also granted 50,000 stock options at a per-share exercise price equal to the market price thereof on October 17, 2008, 25,000 of which will vest on October 17, 2010, 12,500 of which will vest on October 17, 2011, and 12,500 of which will vest on October 17, 2012. The awards were intended to provide Mr. Isaacs with total direct compensation targeted above the amount previously provided. This was due to his and the Company's superior performance and reflects his roles, responsibilities, and expected future contributions as well as the Compensation Committee's understanding of market pay and internal comparisons. These awards were intended to continue to provide for a balance between restricted stock and stock options to encourage both retention and focus on share appreciation.

Ramesh Srinivasan. Mr. Srinivasan was granted 1,472 shares of restricted stock on August 12, 2008 which vested in full immediately. Mr. Srinivasan was also granted 20,000 shares of restricted stock that vest in full on December 31, 2010. Mr. Srinivasan was also granted 40,000 stock options at a per-share exercise price equal to the market price thereof on October 17, 2008, 20,000 of which vest on December 31, 2009, and 20,000 of which vest on December 31, 2010. The awards were intended to provide Mr. Srinivasan with total direct compensation targeted above the amount previously provided. This was due to his, the System's Division, and the Company's superior performance and reflects his role, responsibilities, and expected future contributions as well as the Compensation Committee's understanding of market pay and internal comparisons. These awards were intended to continue to provide for a balance between restricted stock and stock options to encourage both retention and focus on share appreciation.

Mark Lerner. Mr. Lerner was granted 588 shares of restricted stock on August 12, 2008, which vested in full immediately. Mr. Lerner was also granted 10,000 stock options at a per-share exercise price equal to the market price thereof on October 17, 2008, 5,000 of which vest on October 17, 2010, 2,500 of which vest on October 17, 2011, and 2,500 of which vest on October 17, 2012. The awards were intended to provide Mr. Lerner with total direct compensation targeted above the amount previously provided. This was due to his and the Company's performance and reflects the increased complexity of managing the legal department as well as the Compensation Committee's understanding of market pay. These awards were intended to provide for a balance between restricted stock and stock options and to encourage both retention and focus on share appreciation.

Fiscal Year 2010. On October 16, 2009, the Compensation Committee approved annual awards for certain of the Named Executive Officers in respect of fiscal year 2009 performance. The following is a brief description of such grants of stock options and restricted stock as well as the Compensation Committee's determination of award vesting:

Robert Caller. Mr. Caller was granted 2,543 shares of restricted stock having a value equal to \$100,000 on August 24, 2009, which vested in full on February 1, 2012. The awards were intended to provide Mr. Caller with total direct compensation targeted above the amount previously provided. This was due to his and the Company's continued performance and reflects his roles, responsibilities and expected future contributions as well as the Compensation Committee's understanding of market pay.

Michael Gavin Isaacs. Mr. Isaacs was granted 12,500 shares of restricted stock, 6,250 of which will vest on October 16, 2011, 3,125 of which will vest on October 16, 2012, and 3,125 of which will vest on October 16, 2013. Mr. Isaacs was also granted 30,000 stock options at a per-share exercise price equal to the market price thereof on October 16, 2009, 15,000 of which will vest on October 16, 2011, 7,500 of which will vest on October 16, 2012, and 7,500 of which will vest on October 16, 2013. The awards were intended to provide Mr. Isaacs with total direct compensation targeted above the amount previously provided. This was due to his and the Company's continued performance and reflects his roles, responsibilities, and expected future contributions as well as the Compensation Committee's understanding of market pay and internal comparisons. These awards were intended to continue to provide for a balance between restricted stock and stock options to encourage both retention and focus on share appreciation.

Ramesh Srinivasan. Mr. Srinivasan was granted 12,500 shares of restricted stock, 6,250 of which will vest on October 16, 2011, 3,125 of which will vest on October 16, 2012, and 3,125 of which will vest on October 16, 2013. The awards were intended to provide Mr. Srinivasan with total direct compensation targeted above the amount previously provided. This was due to his, the System's Division, and the Company's continued performance and reflects his role, responsibilities, and expected future contributions as well as the Compensation Committee's understanding of market pay and internal comparisons.

Mark Lerner. Mr. Lerner was granted 2,000 shares of restricted stock, 1,000 of which will vest on October 16, 2011, 500 of which will vest on October 16, 2012, and 500 of which will vest on October 16, 2013. Mr. Lerner was also granted 6,000 stock options at a per-share exercise price equal to the market price thereof on October 16, 2009, 3,000 of which vest on October 16, 2011, 1,500 of which vest on October 16, 2012, and 1,500 of which vest on October 16, 2013. The awards were intended to provide Mr. Lerner with total direct compensation targeted above the amount previously provided. This was due to his and the Company's continued performance as well as the Compensation Committee's understanding of market pay. These awards were intended to provide for a balance between restricted stock and stock options and to encourage both retention and focus on share appreciation.

Other Executive Benefits, including Perquisites and Retirement Benefits. The Named Executive Officers are entitled to the same employee benefits generally available to all full-time employees, subject to certain conditions such as fulfilling any minimum service period. These benefits include, among other things, vacation, health and welfare benefits, and participation in the Company's Employee Stock Purchase Plan and the Company's 401(k) Savings Plan. Certain other perquisites are also made available to executives, including the Named Executive Officers. These benefits include reimbursement for the cost, including any taxable amount, of biennial physical exams.

In designing these elements, the Company seeks to provide an overall level of benefits that are competitive with those offered by similarly situated companies in the markets in which the Company operates based upon its general understanding of industry practice. The Company believes that these particular plans and programs provide a valuable recruiting and retention mechanism for its executives and enable the Company to compete more successfully for qualified executive talent. In addition, the use of such perquisites in lieu of salary increases to compensate for the loss of those benefits avoids the increased costs that would otherwise occur with respect to certain other benefits that are tied to the level of an executive's base salary (such as annual cash incentive compensation). Further details regarding these types of benefits paid to the Named Executive Officers are set forth in the "All Other Compensation" column and the accompanying footnotes in the "Executive Compensation Summary Compensation Table."

Actions Taken after Fiscal Year 2009

The Company and Mr. Hadrill determined upon Mr. Hadrill's hiring to more effectively link his compensation to the success of the implementation of intermediate and long-term strategies as well as stockholder returns, and that the most desirable compensation program for him would include substantial equity incentive grants up front with multi-year service requirements, and in some cases, performance contingencies. Subsequent to the fiscal year end 2009, the Board of Directors reassessed the compensation opportunity and mix of pay for Mr. Hadrill in light of his outstanding equity awards and Company objectives over the next several years.

The Board of Directors amended Mr. Hadrill's agreement to provide for a lump sum cash payment of \$2,500,000 upon the first to occur of: (i) the achievement of certain strategic initiatives established by the Board of Directors on or before December 31, 2010, as determined by the Board of Directors, in its sole discretion, or (ii) a Change of Control (as defined in the Hadrill Agreement) occurring on or before December 31, 2010. The Board of Directors further determined that Mr. Hadrill would be entitled, subject to stockholder approval of Proposal No. 2 contained in this Proxy Statement, a cash bonus, if earned, ranging in value from \$1,000,000 to \$3,500,000, based upon the Company's achievement of cumulative diluted EPS targets established by the Board of Directors with respect to the Company's combined fiscal year 2010-2011 period. Mr. Hadrill was granted 41,989 RSUs having a value equal to \$1.5 million, which vest in full on January 1, 2011. In consideration of the extended agreement, the Hadrill Agreement was amended to prohibit Mr. Hadrill from entering into business arrangements with specific competitors for a period of four years, or from engaging in activities that compete with the Company for one year after termination, regardless of the reason for termination. Mr. Hadrill is prohibited from soliciting the Company's customers, employees, or consultants for one year after termination, regardless of the reason for termination.

The Board of Directors believes that the revised agreement secures an additional two years of non-competition, provides similar compensation opportunities as previously awarded, and modifies the pay mix to focus on a multi-year earnings goal as well as strategic objectives.

Timing of Equity Grants

Executives receive long-term equity awards pursuant to the terms of the Amended and Restated Plan, which was approved by the Company's stockholders. Awards are also granted outside of the Amended and

Restated Plan to the extent those grants are permitted by the rules of the NYSE. The Board of Directors, or as delegated to the Compensation Committee, administers the Amended and Restated Plan and establishes the rules for all awards granted under the Plan, including grant guidelines, vesting schedules and other provisions. The Board of Directors or the Compensation Committee reviews these rules periodically and considers, among other things, the interests of the stockholders, market conditions, information provided by independent advisors, performance objectives, and recommendations made by the Chief Executive Officer.

The Board of Directors or the Compensation Committee reviews awards for all employees. For annual awards, the Compensation Committee has established a process where the Compensation Committee reviews the recommendations of the Chief Executive Officer for executives and other employees, modifies the proposed grants in certain circumstances, and approves the awards effective as of the date of its approval. The annual grants are generally determined following the end of each fiscal year, and in conjunction with the recommendation for annual bonuses. Pursuant to the terms of the Amended and Restated Plan, the Board of Directors has delegated certain limited authority to the Chairman of the Compensation Committee and the Chief Executive Officer to make equity grants in accordance with the rules established by the Board of Directors for, in the case of the Chief Executive Officer, non-direct reports of the Chief Executive Officer, throughout the year. The Chairman of the Compensation Committee has been delegated limited authority to make equity grants to all employees. The exercise price of stock option grants are set at 100 percent of the closing market price of a share of Company common stock on the date the Board of Directors or Compensation Committee approves the grants, or upon the date such approval is made by the Chairman of the Compensation Committee or Chief Executive Officer under the limited delegated authority referenced above, to be reported to the Board of Directors or Compensation Committee at its next regularly scheduled meeting. The exercise price of new hire awards and relocation or retention grants is determined as set forth above, except that the exercise price is set on the date of hire or effective date of the underlying agreement providing for such grant rather than the date of the approval thereof.

Employment Agreements and Post-Termination Payments

As previously discussed, the Company maintains employment agreements with each Named Executive Officer. The Compensation Committee determined that the compensation packages provided under these agreements was fair and reasonable on the basis of its assessment of comparable compensation opportunities available to the individuals, including the compensation arrangements of each Named Executive Officer at his prior place of employment.

Payments due Upon Termination or a Change in Control. Prior to the effectiveness of the Plan Amendment on August 8, 2006, the Amended and Restated Plan provided for the accelerated vesting of stock options, restricted stock, and RSUs in the event of a change in control in which all of the outstanding stock held by the stockholders of the Company is exchanged for any lawful consideration. The Amended and Restated Plan currently provides for the accelerated vesting of equity awards in the event of a change in control and subsequent termination of employment without Cause or for Good Reason within twelve months after the change of control. In addition, certain employment agreements, as discussed in the section "Executive Compensation Potential Payments upon Termination or Change in Control at Fiscal Year-End 2009," as well as certain forms of equity agreements, also set forth specific terms with respect to the accelerated vesting of equity awards upon either a change in control or a change in control followed by a termination of employment.

The Compensation Committee believes that for senior executives, including the Named Executive Officers, accelerated vesting of stock options in the event of a change in control is generally appropriate because in some change in control situations equity of the target company is cancelled making immediate acceleration necessary in order to preserve the value of the award. In addition, as previously discussed, the Company relies primarily on long-term incentive awards to provide the Named Executive Officers with the

opportunity to accumulate substantial resources to fund their retirement income, and the Compensation Committee believes that a change in control event is an appropriate liquidation point for awards designed for such purpose. Although the Company continues to believe that single trigger change in control vesting is appropriate under the circumstances described above, the Company adopted the Plan Amendment to provide additional flexibility in circumstances where the Company believes that it is more appropriate to require a termination of employment within one year following a change in control before vesting is accelerated. The Company presumes that such a termination would likely be due to the change in control and not the employee's performance and therefore the award should be earned. For employees not terminated within twelve months of a change in control, the employees would continue to vest in their awards as they contribute to the success of the surviving company. The Company anticipates that such double trigger vesting acceleration will be used mainly for those employees who receive equity awards that are not a substantial component of their annual compensation or for whom it is considered unlikely in many circumstances that a terminating event would occur for those employees upon a change in control.

In addition, certain executives, including each of the Named Executive Officers, receive cash severance in certain circumstances that result in termination of employment. The Company determined upon Mr. Hadrill's initial employment in 2004 to make an additional payment equal to any excise tax payable on the severance benefit or on any other benefit or payment provided by the Company to the participant in the event of a Change in Control of the Company due to his agreed upon compensation arrangements which emphasize long-term incentive compensation rather than cash compensation. The Compensation Committee believes these provisions are fair and reasonable based on its understanding of market practice among industry competitors noted above and within the broader environment of technology companies and similarly sized businesses.

Calculations of the payments due to the Named Executive Officers upon certain terminations of employment and/or in connection with a change in control are set forth under "Executive Compensation Potential Payments upon Termination or Change in Control at Fiscal Year-End 2009."

Stock Ownership Guidelines and Hedging Policies

The Company has neither adopted stock ownership guidelines for executive officers nor any policies prohibiting executives from holding Company securities in a margin account or pledging Company securities as collateral for a loan. However, the Company discourages speculation in Company common stock and encourages employees to diversify their stock holdings. In addition, under Section 304 of the Sarbanes-Oxley Act, if the Company is required to restate its financial statements due to material noncompliance with any financial reporting requirements as a result of misconduct, the Chief Executive Officer and Chief Financial Officer may be required to reimburse the Company for (i) any bonus or other incentive-based or equity-based compensation received during the 12 months following the first public issuance of the non-complying document, and (ii) any profits realized from the sale of securities of the Company during that 12-month period.

Impact of Tax and Accounting

As a general matter, the Compensation Committee takes into account the various tax and accounting implications of the compensation vehicles employed by the Company.

When determining amounts of long-term incentive grants to executives and employees, the Compensation Committee examines the accounting cost associated with the grants. Under ASC 718-10-10, grants of stock options, restricted stock, and RSUs result in an accounting charge for the Company equal to the grant date fair value of those securities. For restricted stock and RSUs, the accounting value is generally equal to the fair market value of the underlying shares of common stock on the date of the award. The value, adjusted for possible forfeitures, is then amortized over the requisite service period. With respect to stock options, the Company calculates the grant date fair value based on the Black-Scholes

formula with an adjustment for possible forfeitures and amortizes that value as compensation expense over the requisite service period.

Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code") does not permit publicly-traded companies to take income tax deductions for compensation paid to the Chief Executive Officer and certain other executive officers to the extent that compensation exceeds \$1.0 million per officer in any taxable year and does not otherwise qualify as performance-based compensation. The Amended and Restated Plan is structured so that the compensation deemed paid to an executive officer in connection with the exercise of stock options granted under the Amended and Restated Plan should qualify as performance-based compensation not subject to the \$1.0 million limitation. In addition, awards of restricted stock or RSUs made under the Amended and Restated Plan may or may not qualify as performance-based compensation. The restricted stock issued to Messrs. Hadrill, Isaacs, Srinivasan, Caller, and Lerner during fiscal year 2009 did not qualify as performance-based compensation under Section 162(m) of the Code and therefore may not be deductible for income tax purposes.

The MIP cash incentive program for fiscal year 2009 is not designed to provide bonus payments that would qualify as performance-based compensation as defined in Section 162(m) of the Code, nor would any guaranteed bonus payments qualify as performance-based compensation. In addition, discretionary bonuses do not qualify as performance-based compensation as defined in Section 162(m) of the Code.

The Compensation Committee will continue to consider steps that might be in the Company's best interests to comply with Section 162(m) of the Code. However, in establishing the cash and equity incentive compensation programs for the Named Executive Officers, the Compensation Committee believes that the potential deductibility of the compensation payable under those programs should be only one of a number of relevant factors taken into consideration, and not the sole or primary factor. The Compensation Committee believes that cash and equity incentive compensation must be maintained at the requisite level to attract and retain the executive officers essential to the Company's financial success, even if all or part of that compensation may not be deductible by reason of the limitations of Section 162(m) of the Code.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the foregoing Compensation Discussion and Analysis with management. Based on its review and discussion with management, the Compensation Committee has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement for the year ended June 30, 2009.

- (1) Represents cash incentive opportunities under the MIP.
- (2) All shares were issued under the Amended and Restated Plan.
- (3) The exercise price reflects the closing price of a share of the Company's common stock on the grant date.
- (4) Represents the grant date fair value of equity awarded, determined in accordance with ASC 718-10-10, adjusted, however, to exclude the effects of estimated forfeitures. Assumptions used to determine these values can be found in Note 10, Share-Based Compensation, of Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2009.
- (5) On May 13, 2009, the Company amended the terms of certain outstanding options previously granted to certain members of the Board of Directors, including Messr. Richard Hadrill, to extend the expiration date thereof, subject to certain restrictions. The options were originally granted on January 8, 2004. Pursuant to the amendments, and subject to certain exceptions, any unexercised portion of a grant will now expire on July 8, 2013. The fair value of the amendment to the option awards in fiscal 2009, computed in accordance with ASC 718-10-10. This expense is reflected in the values in the table.

Narrative to the Summary Compensation Table and Grants of Plan Based Awards Table

Long-Term Incentives. The Company's long-term incentive program is the component of executive compensation that is most aligned with the long-term interests of stockholders. A significant portion of the Named Executive Officers' target compensation is in the form of long-term incentives. Long-term incentive compensation also enables the Company to motivate leaders and key employees through the use of

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form DEF 14A

stock options which only have value if the stock price appreciates as well as encourage them to provide long-term service to the Company through the use of restricted stock or restricted stock units which only have value if the participant remains through the service period and whose value is dependent on the Company's stock price. These long-term incentives are generally granted under the Amended and Restated 2001 Long Term Incentive Plan (the "Amended and Restated Plan").

The Compensation Committee annually reviews each executive's outstanding equity and determines whether such individual deserves an additional grant of stock options, restricted stock or restricted stock

units or both. These reviews include considerations of, among other things, factors such as the Company's overall performance, duties and/or responsibilities assumed by the executive, the overall performance of the executive's area of responsibility, the executive's impact on strategic goals, prior levels of total compensation, the mix of outstanding equity awards, and the desired emphasis on retention and motivation. However, there is no specific weighting applied to any one factor in determining the level of equity awards or the mix between stock options and restricted stock or restricted stock units, and the process ultimately relies on the subjective exercise of the Compensation Committee's judgment.

Stock Options. Generally, each stock option granted under the Amended and Restated Plan entitles its holder to purchase one share of the Company's common stock at its fair market value on the date of grant. Stock options granted as part of a long-term incentive award generally vest over three to five years. Prior to the Board resolution on October 29, 2007, each granted stock option generally expired after ten years. On October 29, 2007, the Board considered the accounting expense of a ten-year exercisable option relative to the accounting expense of a seven-year exercisable option. The Board concluded that the value of an option that expired after seven years, as perceived by a recipient, would not be materially different than if the recipient had received an option which expires after ten years. Accordingly, the Board determined that the standard form of an option award will provide for expiration after seven years. Unless provided otherwise by the Board of Directors or the Compensation Committee at the time of grant, or in certain other circumstances, the terms of stock options are generally as follows:

Unvested stock options vest upon a normal retirement (termination of employment by recipient after he or she attains age 65);

Unvested stock options will vest upon becoming "Permanently Disabled";

Unvested stock options granted prior to the amendment to the Amended and Restated Plan in August 2006 (the "Plan Amendment") will vest upon a change in control in which all of the Company's outstanding stock is exchanged;

Unvested stock options granted after the Plan Amendment will vest upon a change in control if the recipient is terminated without "Cause" or for "Good Reason" within twelve months of the change in control;

Vested stock options remain exercisable for ten days after termination for "Cause";

Vested stock options remain exercisable for two years upon death; and

Vested stock options remain exercisable for 60 days (or three months in the case of incentive stock options) after termination if the individual is terminated for any reason other than for "Cause" or upon death.

Restricted Stock and RSUs. A grant of restricted stock is an award of common stock where the vesting thereof is subject to certain restrictions established by the Board of Directors or the Compensation Committee. RSUs represent a conditional contractual right to receive one share of the Company's common stock at a specified future date subject to certain restrictions such as a vesting period. For RSUs, the underlying stock is not issued until the time restrictions lapse, at which time the RSU is settled or, if previously elected, deferred. In the event a cash dividend is declared and paid on the Company's common stock, holders of RSUs do not receive dividend equivalents. RSUs do not have voting rights because they are not considered legally issued or outstanding shares of common stock. Unless provided otherwise by the Board of Directors or the Compensation Committee at the time of grant, or in certain other circumstances, the terms of restricted stock and RSUs are generally as follows:

Immediate vesting and settlement occurs in the event of normal retirement (defined above) or Permanent Disability;

Immediate vesting and settlement occurs in the event of a change in control (for awards granted after the Plan Amendment) if a recipient is subsequently terminated without "Cause" or for "Good Reason" within twelve months of the change in control; and

Forfeiture of the award upon termination of employment or upon death to the extent the award's restrictions have not lapsed.

For purposes of the Amended and Restated Plan:

"Cause" means (i) the grantee being convicted of a felony, (ii) the grantee willfully committing an act of embezzlement or malfeasance which is intended to materially enrich himself or herself at the expense of the Company or any of its subsidiaries or is otherwise intended to materially harm the Company, or (iii) the grantee being rejected for an applicable license or approval by a gaming regulatory authority having jurisdiction over the Company as a result of an explicit finding of lack of suitability solely as a result of the grantee's commission of a crime or an act of embezzlement or malfeasance.

"Good Reason" means unless otherwise provided in a Grantee's employment agreement, (i) a material reduction in the grantee's base salary, or (ii) a material reduction in the grantee's duties and responsibilities.

"Permanently Disabled" means that, as interpreted by the Compensation Committee, (i) the grantee cannot perform the work previously performed, (ii) the grantee cannot adjust to other position requirements due to a medical condition, and (iii) the grantee's disability has lasted or is expected to last for at least one year or result in death.

The seventh amendment also provides that Mr. Hadrill will receive a grant of a number of restricted stock units having a value equal to \$1.5 million as of August 10, 2009, the date of grant, based on the average per share closing price of a share of Company common stock for the 20 business days immediately prior to the date of grant.

For purposes of the Hadrill Agreement:

"Cause" means an act or acts or an omission to act by Mr. Hadrill involving: (i) willful and continual failure to substantially perform his duties with the Company (other than a failure resulting from Mr. Hadrill's incapacity due to physical or mental illness) and such failure continues for a period of thirty days after Mr. Hadrill's receipt of written notice from the Company providing a reasonable description of the basis for the determination that Mr. Hadrill has failed to perform his duties; (ii) conviction of a felony other than a conviction not disclosable under the federal securities laws; (iii) breach of the Hadrill Agreement in any material respect and such breach is not susceptible to remedy or cure or has already materially damaged the Company, or such breach is susceptible to remedy or cure and no such damage has occurred and such breach is not cured or remedied reasonably promptly after Mr. Hadrill's receipt of written notice from the Company providing a reasonable description of the breach; (iv) Mr. Hadrill's failure to qualify (or having so qualified being thereafter

disqualified) under a suitability or licensing requirement of any jurisdiction or regulatory authority that is material to the Company and to which Mr. Haddrill may be subject by reason of his position with the Company and its affiliates or subsidiaries; (v) the Company obtains from any source information with respect to Mr. Haddrill or the Haddrill Agreement that could reasonably be expected, in the reasonable written opinion of both the Company and its outside counsel, to jeopardize the gaming licenses, permits, or status of the Company or any of its subsidiaries or affiliates with any gaming commission, board, or similar

regulatory or law enforcement authority; or (vi) conduct to the material detriment of the Company that is dishonest, fraudulent, unlawful or grossly negligent or which is not in compliance with the Company's Code of Conduct or similar applicable set of standards or conduct and business practices set forth in writing and provided to Mr. Haddrill prior to such conduct and which has a material detriment to the Company and is not susceptible to remedy or cure by Mr. Haddrill.

"Change of Control" means (i) the acquisition, directly or indirectly, by any unaffiliated person, entity or group of beneficial ownership of more than 50 percent of the combined voting power of the Company's then outstanding voting securities entitled to vote generally in the election of directors; (ii) consummation of (1) a reorganization, merger or consolidation of the Company, or (2) a liquidation or dissolution of the Company or (3) a sale of all or substantially all of the assets of the Company (whether such assets are held directly or indirectly) to any unaffiliated person, entity or group; or (iii) the individuals who as of the date of the Haddrill Agreement are members of the Board of Directors (together with any directors elected or nominated by a majority of such individuals) cease for any reason to constitute at least a majority of the members of the Board of Directors; except that any event or transaction which would be a "Change of Control" under (i) or (ii) (1) of this definition, shall not be a Change of Control if persons who were the equity holders of the Company immediately prior to such event or transaction (other than the acquirer in the case of a reorganization, merger or consolidation), immediately thereafter, beneficially own more than 50 percent of the combined voting power of the Company's or the reorganized, merged or consolidated company's then outstanding voting securities entitled to vote generally in the election of directors.

"Good Cause" means the occurrence of any one or more of the following events without the consent of Mr. Haddrill: (i) the assignment to Mr. Haddrill of any duties materially inconsistent with his duties and position as set forth in the Haddrill Agreement (including, without limitation, status, titles and reporting requirements), or any other action by the Company that results in a material diminution in such duties or position, excluding for this purpose isolated and inadvertent action not taken in bad faith and remedied by the Company promptly after receipt of notice thereof given by Mr. Haddrill; (ii) a reduction by the Company in Mr. Haddrill's base salary or participation in any other compensation plan, program, arrangement or benefit below that Mr. Haddrill is entitled to under the Haddrill Agreement; (iii) the Company's requiring Mr. Haddrill to be based anywhere other than the Las Vegas, Nevada area, except for reasonably required travel on business of the Company; or (iv) any material breach by the Company of any provision of the Haddrill Agreement and such breach continues for a period of thirty days after the Company's receipt of written notice from Mr. Haddrill providing a reasonable description of the material breach claimed by Mr. Haddrill.

If Mr. Caller's employment is terminated without "Cause" or if Mr. Caller terminates his employment as a result of a "Diminution of Duties" occurring within one year following a "Change in Control," he shall continue to receive his salary until September 30, 2009. In the event Mr. Caller terminates his employment as a result of a Diminution of Duties occurring within one year following a Change in Control, he shall continue to receive his salary for a period of one year following termination and each unvested installment of stock options granted pursuant to the Caller Agreement will be deemed to have vested on the date of such termination and shall be exercisable for one year from such date. If Mr. Caller's employment is terminated without Cause, any installment that would have vested within one year of the date of termination will vest and, along with any other previously vested stock options, shall be exercisable for one year thereafter. If Mr. Caller's employment is terminated with Cause or if he quits for any reason, he will have ninety days to exercise any stock options that have vested as of the date of such termination. Pursuant to the Amended and Restated Plan, if Mr. Caller is Permanently Disabled (as defined in the Company's 401(k) Plan), all awards granted under the Amended and Restated Plan would vest in full. Any such payments subsequent to termination shall be subject to offset in respect of any income Mr. Isaacs earns from any other employment during such one year period. Pursuant to the Amended and Restated Plan, if Mr. Isaacs is terminated without Cause or with Good Reason (each as defined in the Amended and Restated Plan) within one year of a change in control all unvested stock options will vest and restrictions on restricted shares will lapse. Certain Relationships and Related Transactions

It is the Company's general policy not to enter into transactions with executive officers, directors, nominees for director, greater than 5 percent beneficial owners of the Company's common stock, or an immediate family member of any of the foregoing, regardless of the dollar amount involved. To the extent a related party has an interest in a transaction involving the Company or any of its subsidiaries, other than solely as a result of being an executive officer, director, nominee for director or beneficial owner of Company common stock, whether that interest is direct or indirect, the Board of Directors reviews such transaction to determine whether the transaction is in the best interests of the Company and its stockholders and whether it should be approved or ratified. In reviewing the transaction in question, the Board takes into account, among other factors it deems appropriate, the type of transaction, the extent of the related party's interest, and whether the transaction is on terms no less favorable to the Company or its subsidiary than the terms that would generally be agreed to with an unaffiliated third-party under the same or similar circumstances. If a related party transaction is approved or ratified and will be ongoing, at the time of approval or ratification, the Board may establish guidelines for the Company's management to follow in its ongoing dealings with the related party in question. Thereafter, the Board, on at least an annual basis, reviews and assesses ongoing relationships with the related parties to see that they are in compliance with guidelines established by the Board and that the transaction generally remains appropriate.

All matters with respect to the review, approval or ratification of related party transactions, including any guidelines for ongoing transactions, are evidenced in the minutes of the applicable meetings of the Board. No director participates in any discussion, approval, or ratification of a related party transaction for which he or she (or an immediate family member) is involved other than to provide all material information concerning the transaction to the Board.

Compensation Committee Interlocks and Insider Participation

During the fiscal year ended June 30, 2009, Messrs. André, Robbins, and Verner served on the Compensation Committee of the Board of Directors. During the fiscal year ended June 30, 2009, there were no relationships or transactions between the Company and any member of the Compensation Committee requiring disclosure hereunder.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Company's directors and executive officers, and persons who own more than 10 percent of a registered class of the Company's equity securities, to file with the SEC and the NYSE initial reports of ownership and reports of changes in ownership of the Company's common stock and other equity securities. To the Company's knowledge, all Section 16(a) filing requirements applicable to the Company's directors, executive officers, and greater than 10 percent beneficial owners were complied with on a timely basis during the fiscal year ended June 30, 2009, except for the late filing of a Form 4 filed on August 14, 2008, on behalf of Richard M. Hadrill, reporting a reduction in shares to satisfy the tax withholding obligation of the Company with respect to the vesting on July 1, 2008, of 26,499 shares of restricted stock held by Mr. Hadrill.

HOUSEHOLDING OF PROXY MATERIALS

The SEC has adopted rules that permit companies and intermediaries such as brokers to satisfy delivery requirements for proxy statements with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as "householding," potentially provides extra convenience for stockholders and cost savings for companies. The Company and some brokers household proxy materials, delivering a single proxy statement to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker or the Company

that they or the Company will be householding materials to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement, or if you are receiving multiple copies of the proxy statement and wish to receive only one, please notify your broker if your shares are held in a brokerage account or the Company if you hold common stock directly. Requests should be addressed to: Bally Technologies, Inc., 6601 South Bermuda Road, Las Vegas, Nevada 89119, telephone (702) 584-7700, Attention: Corporate Secretary.

OTHER MATTERS

The Board of Directors does not know of any other matter that will be brought before the Meeting. However, if any other matter that may properly be acted upon properly comes before the Meeting or any adjournment or postponement thereof, the proxies solicited hereby will be voted on such matter in accordance with the discretion of the proxy holders named therein.

You are urged to sign, date, and return the enclosed proxy card in the envelope provided. No further postage is required if the envelope is mailed within the United States. If you later decide to attend the Meeting and wish to vote your shares, you may do so. Your cooperation in giving this matter your prompt attention is appreciated.

Independence Guidelines

No director qualifies as "independent" unless the board of directors affirmatively determines that the director has no material relationship with the listed company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the company). Companies must identify which directors are independent and disclose the basis for that determination.

In addition, a director is not independent if:

(i) The director is, or has been within the last three years, an employee of the listed company, or an immediate family member is, or has been within the last three years, an executive officer, of the listed company.

(ii) The director has received, or has an immediate family member who has received, during any twelve-month period within the last three years, more than \$100,000 in direct compensation from the listed company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service).

(iii) (A) The director or an immediate family member is a current partner of a firm that is the company's internal or external auditor; (B) the director is a current employee of such a firm; (C) the director has an immediate family member who is a current employee of such a firm and who participates in the firm's audit, assurance or tax compliance (but not tax planning) practice; or (D) the director or an immediate family member was within the last three years (but is no longer) a partner or employee of such a firm and personally worked on the listed company's audit within that time.

(iv) The director or an immediate family member is, or has been within the last three years, employed as an executive officer of another company where any of the listed company's present executive officers at the same time serves or served on that company's compensation committee.

(v) The director is a current employee, or an immediate family member is a current executive officer, of a company that has made payments to, or received payments from, the listed company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million, or 2 percent of such other company's consolidated gross revenues.

An "immediate family member" includes a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone (other than domestic employees) who shares such person's home. However, for the purposes of applying the look-back provisions discussed above, individuals who are no longer immediate family members as a result of legal separation or divorce, or those who have died or become incapacitated, need not be considered.

BALLY TECHNOLOGIES, INC.
2010 LONG TERM INCENTIVE PLAN

The Bally Technologies, Inc. 2010 Long Term Incentive Plan (the "Plan") is an amendment and restatement of the Bally Technologies, Inc. 2001 Long Term Incentive Plan and was established by the Board of Directors (the "Board") of Bally Technologies, Inc. (the "Company") on October 1, 2009, subject to approval by the Company's stockholders at a meeting of the Company's stockholders or by written consent in accordance with the laws of the State of Nevada, which approval must be obtained within twelve (12) months of the adoption of this Plan by the Board. The Plan will continue in effect until terminated by the Board in accordance with the terms of the Plan.

1. PURPOSE OF THE PLAN

The Plan is intended to encourage stock ownership by directors, employees and designated paid consultants of the Company and its subsidiaries (collectively, the "Subsidiaries" and individually, a "Subsidiary"), in order to increase their proprietary interest in the success of the Company and to encourage them to remain in the employ of the Company or a Subsidiary.

Options granted under the Plan may be either Incentive Stock Options or Nonstatutory Stock Options; the term "Option" when used hereinafter refers to either Incentive Stock Options or Nonstatutory Stock Options, or both. Restricted Stock and Restricted Stock Units awarded under the Plan are subject to restrictions as determined in each specific case by the Board or by a duly appointed committee of the Board (the "Committee"). Stock Appreciation Rights and Incentive Bonuses may also be granted under the Plan. The term "Award" when used hereinafter collectively refers to Options, Stock Appreciation Rights, Restricted Stock, Restricted Stock Units awarded under the Plan.

2. ADMINISTRATION

Administration of the Plan. The Plan is administered by the Board or, if the Board so determines, by the Committee, provided that except as otherwise provided below, in the case of Awards to directors or officers subject to Section 16 of the Securities Exchange Act of 1934 (the "Exchange Act"), the Committee has exclusive responsibility for and authority to administer the Plan unless the Board expressly determines otherwise. The membership of the Committee consists of not less than two members of the Board and will be constituted, if possible, to permit the Plan to comply with Rule 16b-3 promulgated under the Exchange Act or any successor rule ("Rule 16b-3") and with the requirements of Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"). Duly authorized actions of the Committee constitute actions of the Board for the purposes of the Plan and its administration. The Board or the Committee, as applicable, has authority in its sole discretion:

to determine which directors, employees and consultants, to which of such directors, employees and consultants, if any, Awards shall be granted hereunder and the timing of any such Awards;

to grant Awards to directors, employees and consultants and determine the terms and conditions thereof, including the number of shares of Stock or amount of cash subject to Awards and the exercise or purchase price of such shares and the circumstances under which Awards become exercisable, vested or payable or are forfeited or expire, which terms may but need not be conditioned upon the passage of time, continued employment, the satisfaction of performance criteria, the occurrence of certain events, or other factors;

to determine the base price of any Stock Appreciation Right, the Incentive Stock Option Price or the Nonstatutory Stock Option Price (both as defined below) of, and the number of shares of Stock

(as defined below) to be covered by, Stock Appreciation Rights and Options granted under the Plan;

to establish and verify the extent of satisfaction of any performance goals or other conditions applicable to the grant, issuance, exercisability, vesting, payment and/or ability to retain any Award;

to prescribe and amend the terms of the agreements or other documents evidencing Awards made under this Plan (which need not be identical) and the terms of or form of any document or notice required to be delivered to the Company by holders of Awards under this Plan;

to approve corrections in the documentation or administration of any Award;

to require or permit elections and/or consents under this Plan to be made by means of such electronic media as the Committee may prescribe;

to interpret the Plan, to prescribe, amend and rescind rules and regulations relating to it, and to define terms not otherwise defined herein; and

to make all other determinations which the Board or Committee, as applicable, deem necessary or advisable for the administration of the Plan.

Reserved Authority of the Board. The Committee has all the powers and duties set forth above, as well as any additional powers and duties that the Board may delegate to it; provided, however, that the Board expressly retains the right (i) to determine whether the shares of Stock reserved for issuance upon the exercise and/or payment in respect of Awards granted under the Plan shall be issued shares or unissued shares, (ii) to appoint the members of the Committee, and (iii) to terminate or amend the Plan. The Board may from time to time appoint members of the Committee in substitution for or in addition to members previously appointed, may fill vacancies in the Committee, and may discharge the Committee.

3. COMMON STOCK SUBJECT TO THE PLAN

Limitation on Number of Shares. The number of shares which may be issued pursuant to all Awards granted under the Plan is limited to an aggregate of 12,050,000 shares of the common stock, \$.10 par value, of the Company (the "Stock"). The shares reserved for issuance pursuant to the Plan may consist either of authorized but previously unissued shares of Stock, or of issued shares of Stock which have been reacquired by the Company, as determined from time to time by the Board. If any Option or Stock Appreciation Right granted under the Plan expires, terminates or is canceled for any reason without having been exercised in full, or any other Award is forfeited for any reason, the shares of Stock allocable to the unexercised portion of the Option or Stock Appreciation Right or to the forfeited portion of the Award may again be made subject to an Option or Award under the Plan. Notwithstanding the foregoing, Stock subject to an Award may not again be made available for issuance under the Plan if such Stock is: (i) Stock that was subject to a stock-settled Stock Appreciation Right and was not issued upon the net settlement or net exercise of such Stock Appreciation Right; (ii) Stock used to pay the exercise price of an Option; (iii) Stock delivered to or withheld to pay the withholding taxes related to an Award; or (iv) Stock repurchased on the open market with the proceeds of an Option exercise.

Adjustments of Number of Shares. In the event of a change in the common stock of the Company that is limited to a change in the designation thereof to "Capital Stock" or other similar designation, or to a change in the par value thereof, or from par value to no par value, without increase or decrease in the number of issued shares, the shares resulting from any such change are deemed to be the common stock for purposes of the Plan.

4. ELIGIBILITY

Awards may be granted under the Plan to paid consultants, directors and employees of the Company or a Subsidiary designated by the Board or the Committee, provided that Incentive Stock Options may be

awarded only to regular full-time employees of the Company or a Subsidiary (including employees who serve as officers or directors). As used in the Plan, "paid consultant" means a natural person who is an independent contractor retained to perform continuing and substantial services for the Company or any subsidiary, and designated as a paid consultant by the Board or the Committee, except that no individual shall be designated a "paid consultant" for purposes of this Plan if such individual is engaged in promoting or maintaining a market in the securities of the Company, or in any other capacity that would result in the Form S-8 registration statement being ineffective as to any Awards made to such individual. Any person granted an Award under the Plan (a "Grantee") remains eligible to receive one or more additional grants thereafter, notwithstanding that Options or Stock Appreciation Rights previously granted to such person remain unexercised in whole or in part, or that the applicable restrictions on any Restricted Stock or Restricted Stock Units issued to such person have not lapsed.

5. STOCK OPTIONS

In General. The Plan authorizes the Board or the Committee to grant Options that qualify as incentive stock Options pursuant to Section 422 of the Code ("Incentive Stock Options"), or Options that do not so qualify ("Nonstatutory Stock Options"). Each Option granted under the Plan is evidenced by a written and executed Option agreement which will specify whether the Option granted therein is an Incentive Stock Option or a Nonstatutory Stock Option.

Incentive Stock Options. Each stock Option agreement covering an Incentive Stock Option granted under the Plan and any amendment thereof, other than an amendment to convert an Incentive Stock Option into a Nonstatutory Stock Option, will conform to the following provisions and may contain other terms and provisions consistent with the requirements of the Plan as the Board or the Committee deem appropriate:

Option Price. The purchase price of each of the shares of Stock subject to an Incentive Stock Option (the "Incentive Stock Option Price") will be a stated price which is not less than the fair market value of such share of Stock, determined in accordance with Section 11 below, or the par value of such share if greater, as of the date such Incentive Stock Option is granted; provided, however, that if an employee, at the time an Incentive Stock Option is granted to him or her, owns stock representing more than 10 percent of the total combined voting power of all classes of stock of the Company or of the parent corporation (as defined in Section 424(e) of the Code), if any, of the Company or of any of the Subsidiaries (or, under Section 424(d) of the Code, is deemed to own stock representing more than 10 percent of the total combined voting power of all such classes of stock, by reason of the ownership of such classes of stock, directly or indirectly, by or for any brother, sister, spouse, ancestor, or lineal descendent of such employee, or by or for any corporation, partnership, estate or trust of which such employee is a stockholder, partner or beneficiary), then the Incentive Stock Option Price of each share of Stock subject to such Incentive Stock Option will be at least 110 percent of the fair market value of such share of Stock, as determined in accordance with Section 11 below.

Term. Incentive Stock Options granted under the Plan will be exercisable for the periods determined by the Board or the Committee at the time of grant of each Incentive Stock Option, but in no event is an Incentive Stock Option exercisable after the expiration of ten years from the date of grant; provided, however, that an Incentive Stock Option granted to any employee as to whom the Incentive Stock Option Price of each share of Stock subject thereto is required to be 110 percent of the fair market value of the share of Stock pursuant to the preceding paragraph will not be exercisable after the expiration of five years from the date of grant. Each Incentive Stock Option granted under the Plan is also subject to earlier termination as provided in the Plan.

Exercise. Generally under the Plan, Incentive Stock Options may be exercised in whole or in installments, to the extent, and at the time or times during the terms thereof, as determined by the Board or the Committee at the time of grant of each Option.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form DEF 14A

Incentive Stock Options granted under the Plan are exercisable only by delivery to the Company of written notice of exercise, which states the number of shares with respect to which such Incentive Stock Option is exercised, the date of grant of the Incentive Stock Option, the aggregate purchase price for the shares with respect to which the Incentive Stock Option is exercised and the effective date of such exercise, which date may not be earlier than the date the notice is received by the Company nor later than the date upon which the Incentive Stock Option expires. The written notice of exercise must be sent together with the full Incentive Stock Option Price of the shares purchased, which may be paid in cash or in shares of any class of issued and outstanding stock of the Company held by the Option holder, whether preferred or common, or partly in cash and partly in such shares of stock. If any portion of the Incentive Stock Option Price is paid in shares of stock of the Company, the shares will be valued at their fair market value, as determined in accordance with Section 11 below, as of the effective date of exercise of the Incentive Stock Option. The delivery of shares of stock upon exercise of an Incentive Stock Option shall be subject to such restrictions as the Board or the Committee may determine to be appropriate, including, without limitation, a requirement that such shares be held by an agent designated by the Company until sold or otherwise disposed of by the Option holder, to assure that the Company is advised of any disposition of such shares by the Option holder within two years of the date of grant of the Incentive Stock Option or within one year after the date of exercise of the Incentive Stock Option.

In general, an Incentive Stock Option granted under the Plan remains outstanding and is exercisable only so long as the person to whom the Incentive Stock Option was granted remains an officer or employee of the Company, the parent corporation, if any, of the Company, or any of the Subsidiaries. All Incentive Stock Options granted under the Plan are nontransferable, except by will or the laws of descent and distribution, and are exercisable during the lifetime of the person to whom granted only by such person (or his duly appointed, qualified, and acting personal representative).

No Incentive Stock Option may be exercised as to fewer than 100 shares of Stock at any one time without the consent of the Board or the Committee, unless the number of shares to be purchased upon the exercise is the total number of shares at the time available for purchase under the Incentive Stock Option.

The Board or the Committee may also permit Grantees (either on a selective or group basis) pay the Incentive Stock Option Price through withholding of shares of Stock otherwise issuable upon exercise of the Option and/or to simultaneously exercise Options and sell the shares of the Stock thereby acquired pursuant to a "cashless exercise" arrangement or program selected by and approved of in all respects in advance by the Board or the Committee. Payment instruments shall be received by the Company subject to collection. The proceeds received by the Company upon exercise of any Option may be used by the Company for general corporate purposes. Any portion of an Option that is exercised may not be exercised again.

Nonstatutory Stock Options. Each stock Option agreement covering a Nonstatutory Stock Option granted under the Plan and any amendment thereof will conform to the following provisions and may contain other terms and provisions consistent with the requirements of the Plan as the Board or the Committee deem appropriate:

Option Price. The purchase price of each of the shares of Stock subject to a Nonstatutory Stock Option (the "Nonstatutory Stock Option Price") will be a fixed price determined by the Board or the Committee at the time of grant, which will not be less than the greater of the par value of such share, or 100 percent of the fair market value of such share, determined in accordance with Section 11 below, on the date of the grant of the Nonstatutory Stock Option.

Term. Nonstatutory Stock Options granted under the Plan will be exercisable for the periods determined by the Board or the Committee at the time of grant of each Nonstatutory Stock Option, but in no event is a Nonstatutory Stock Option exercisable after the expiration of ten years from the time of

grant. Each Nonstatutory Stock Option granted under the Plan will also be subject to earlier termination as provided in the Plan.

Exercise. Generally, under the Plan, Nonstatutory Stock Options may be exercised in whole or in installments to the extent, and at the time or times during the terms thereof, as determined by the Board or the Committee at the time of grant of each Option.

Nonstatutory Stock Options granted under the Plan are exercisable only by delivery to the Company of written notice of exercise, which states the number of shares with respect to which such Nonstatutory Stock Option is exercised, the date of grant of the Nonstatutory Stock Option, the aggregate purchase price for the shares with respect to which the Nonstatutory Stock Option is exercised and the effective date of such exercise, which date may not be earlier than the date the notice is received by the Company nor later than the date upon which the Nonstatutory Stock Option expires. The written notice of exercise must be sent together with the full Nonstatutory Stock Option Price of the shares purchased, which may be paid in cash or in shares of any class of issued and outstanding stock of the Company held by the Option holder, whether preferred or common, or partly in cash and partly in such shares of stock. If any portion of the Nonstatutory Stock Option Price is paid in shares of stock of the Company, the shares will be valued at their fair market value, as determined in accordance with Section 11 below, as of the effective date of exercise of the Nonstatutory Stock Option.

In general, a Nonstatutory Stock Option granted under the Plan remains outstanding and is exercisable only so long as the person to whom the Nonstatutory Stock Option was granted remains either a director, employee or paid consultant of the Company, the parent corporation, if any, of the Company, or any of the Subsidiaries. A person is deemed to be a paid consultant only so long as he or she continues to perform and be compensated for substantial services for the Company, the parent corporation, if any, of the Company, or a Subsidiary, as to which the determination of the Board or the Committee, as applicable, will be binding and conclusive. Unless the Board or Committee determines otherwise, all Nonstatutory Stock Options granted under the Plan will be nontransferable, except by will or the laws of descent and distribution.

No Nonstatutory Stock Option may be exercised as to fewer than 100 shares at any one time without the consent of the Board or the Committee, unless the number of shares to be purchased upon the exercise is the total number of shares at the time available for purchase under the Nonstatutory Stock Option.

The Board or the Committee may also permit Grantees (either on a selective or group basis) to pay the Nonstatutory Stock Option Price through withholding of shares of Stock otherwise issuable upon exercise of the Option and/or to simultaneously exercise Options and sell the shares of the Stock thereby acquired pursuant to a "cashless exercise" arrangement or program selected by and approved of in all respects in advance by the Board or the Committee. Payment instruments shall be received by the Company subject to collection. The proceeds received by the Company upon exercise of any Option may be used by the Company for general corporate purposes. Any portion of an Option that is exercised may not be exercised again.

6. RESTRICTIONS APPLICABLE TO RESTRICTED STOCK

The Board or the Committee may place any restrictions it deems appropriate on any shares of Stock awarded under this Section 6 ("Restricted Stock") to an employee, director or paid consultant; provided, however, that shares of Restricted Stock awarded under this Section 6 are subject to certain restrictions including the following:

Vesting. In general, other than with respect to Awards to directors who are not also employees of the Company, the grant, issuance, retention, vesting and/or settlement of shares of Restricted Stock that is based on performance criteria and level of achievement versus such criteria will be subject to a performance period of not less than twelve months, and the grant, issuance, retention, vesting and/or

settlement of shares of Restricted Stock that is based solely upon continued employment or service and/or the passage of time may not vest or be settled in full prior to three years following its date of grant, but may be subject to pro-rata vesting over such period, except that the Committee may provide for the satisfaction and/or lapse of all conditions under any such Award as set forth in Sections 12 and 13 below, and the Committee may provide that any such restriction or limitation will not apply in the case of an Award that is issued in payment or settlement of compensation that has been earned by the Grantee. Any shares of Restricted Stock remaining subject to forfeiture in accordance with the related vesting schedule are hereinafter referred to as "Unvested Shares." Notwithstanding anything in this Plan to the contrary, the performance criteria for any Restricted Stock that is intended to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code will be a measure based on one or more Qualifying Performance Criteria selected by the Committee and specified when the Award is granted.

Delivery to Escrow. Unless the Board or the Committee determines otherwise, upon issuance of a certificate evidencing such shares the recipient will be required to deliver the certificate, endorsed in blank or with a duly executed stock power attached, to the Secretary of the Company, or such other person or entity as the Board or the Committee may designate, to be held until any vesting restrictions applicable thereto have lapsed or any Unvested Shares have been forfeited.

Legend. Unless the Board or the Committee determines otherwise, each certificate evidencing Unvested Shares issued under the Plan will bear a legend to the effect that such shares are subject to potential forfeiture and may not be sold, exchanged, transferred, pledged, hypothecated or otherwise disposed of except in accordance with the terms of an agreement between the issuer and the registered owner.

7. RESTRICTED STOCK UNITS

The Committee may at any time and from time to time grant Restricted Stock Units under the Plan in such amounts as it determines. Each Restricted Stock Unit shall entitle the Grantee to receive from the Company at the end of the vesting period applicable to such unit one share of Stock, unless the Grantee elects in a timely fashion prior to the end of the vesting period to defer the receipt of the shares of Stock subject to the Award of Restricted Stock Units. Each grant of Restricted Stock Units shall be evidenced by an Award Agreement which shall specify the applicable restrictions on such units including the following:

Vesting. In general, other than with respect to Awards to directors who are not also employees of the Company, the grant, issuance, retention, vesting and/or settlement of shares of Stock underlying an Award of Restricted Stock Units that is based on performance criteria and level of achievement versus such criteria will be subject to a performance period of not less than twelve months, and the grant, issuance, retention, vesting and/or settlement of shares of Stock underlying an Award of Restricted Stock Units that is based solely upon continued employment or service and/or the passage of time may not vest or be settled in full prior to three years following its date of grant, but may be subject to pro-rata vesting over such period, except that the Committee may provide for the satisfaction and/or lapse of all conditions under any such Award as set forth in Sections 12 and 13 below, and the Committee may provide that any such restriction or limitation will not apply in the case of an Award that is issued in payment or settlement of compensation that has been earned by the Grantee. Any Restricted Stock Units that have not yet vested in accordance with the related vesting schedule are hereinafter referred to as "Unvested Units." Notwithstanding anything in this Plan to the contrary, the performance criteria for any Restricted Stock Units that is intended to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code will be a measure based on one or more Qualifying Performance Criteria selected by the Committee and specified when the Award is granted.

8. STOCK APPRECIATION RIGHTS

The grant of Stock Appreciation Rights under the Plan is subject to the following terms and conditions and any additional terms and conditions, not inconsistent with the express terms and provisions of the Plan, as the Board or the Committee sets forth in the relevant Award agreement:

Stock Appreciation Rights. A Stock Appreciation Right is an Award granted with respect to a specified number of shares of Stock entitling the Grantee to receive an amount equal to the excess of (a) the fair market value of a share of Stock on the date of exercise over (b) the fair market value of a share of Stock on the date of grant of the Stock Appreciation Right (the "Base Price") multiplied by the number of shares of Stock with respect to which the Stock Appreciation Right has been exercised. Fair market value is determined in accordance with Section 11 below.

Grant. A Stock Appreciation Right may be granted in addition to any other Award under the Plan or in tandem with or independent of any Nonstatutory Stock Option or Incentive Stock Option.

Date of Exercisability. Unless otherwise provided in the Grantee's Award agreement in respect of any Stock Appreciation Right, a Stock Appreciation Right may be exercised by the Grantee, in accordance with and subject to all of the procedures established by the Board or the Committee, in whole or in part at any time and from time to time during its specified term. Notwithstanding the preceding sentence, in no event is a Stock Appreciation Right exercisable prior to the exercisability of any Non-Qualified Stock Option or Incentive Stock Option with which it is granted in tandem. The Board or the Committee may also provide, as set forth in the relevant Award agreement, that some Stock Appreciation Rights will be automatically exercised on one or more dates specified by the Board or the Committee.

Form of Payment. Upon exercise of a Stock Appreciation Right, payment may be made in cash, in Restricted Stock or in shares of unrestricted Stock, or in any combination thereof, as the Board or the Committee, in its sole discretion, determines and provides in the relevant Award agreement.

Tandem Grant. The right of the Grantee to exercise a tandem Stock Appreciation Right terminates to the extent the Grantee exercises the Non-Qualified Stock Option or the Incentive Stock Option to which the Stock Appreciation Right is related.

9. INCENTIVE BONUSES

The grant of Incentive Bonuses under the Plan is subject to the following terms and conditions and any additional terms and conditions, not inconsistent with the express terms and provisions of the Plan, as the Board or the Committee sets forth in the relevant Award documentation:

Incentive Bonuses. Each Incentive Bonus Award will confer upon the Grantee the opportunity to earn a future payment tied to the level of achievement with respect to one or more performance criteria established for a performance period specified by the Committee.

Performance Criteria. The Committee shall establish the performance criteria and level of achievement versus these criteria that shall determine the target, threshold and maximum amount payable under an Incentive Bonus, which criteria may be based on financial performance and/or personal performance evaluations. The Committee may specify the percentage of the target Incentive Bonus that is intended to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code. Notwithstanding anything to the contrary herein, the performance criteria for any portion of an Incentive Bonus that is intended by the Committee to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code shall be a measure based on one or more Qualifying Performance Criteria selected by the Committee and specified at the time the Incentive Bonus is granted. The Committee shall certify the extent to which any Qualifying Performance Criteria has been satisfied, and the amount payable as a result thereof, prior to payment of any Incentive Bonus that is intended to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form DEF 14A

Timing and Form of Payment. The Committee shall determine the timing of payment of any Incentive Bonus. Payment of the amount due under an Incentive Bonus may be made in cash, in Restricted Stock or in shares of unrestricted Stock, or in any combination thereof, as the Board or the Committee, in its sole discretion, determines.

Discretionary Adjustments. Notwithstanding satisfaction of any performance goals, the amount paid under an Incentive Bonus on account of either financial performance or personal performance evaluations may, to the extent specified in the Award documentation, be reduced, but not increased, by the Committee on the basis of such further considerations as the Committee shall determine.

10. RIGHTS OF GRANTEES

Timing and Form of Payment. The Committee shall determine the timing of payment of any Incentive Bonus. Payment of the amount due under an Incentive Bonus may be made in cash, in Restricted Stock or in shares of unrestricted Stock, or in any combination thereof, as the Board or the Committee, in its sole discretion, determines.

Discretionary Adjustments. Notwithstanding satisfaction of any performance goals, the amount paid under an Incentive Bonus on account of either financial performance or personal performance evaluations may, to the extent specified in the Award documentation, be reduced, but not increased, by the Committee on the basis of such further considerations as the Committee shall determine.

Options; Stock Appreciation Rights. No holder of an Option or Stock Appreciation Right will be deemed to be the holder of, or to have any of the rights of a holder with respect to, any shares of Stock subject to such Option or Stock Appreciation Right unless and until his or her Option or Stock Appreciation Right has been exercised pursuant to the terms thereof, the Company has issued and delivered to the holder of the Option or Stock Appreciation Right the shares of Stock as to which the holder has exercised his or her Option or Stock Appreciation Right, and the holder's name has been entered as a stockholder of record on the books of the Company. Thereupon, such person shall have full voting and other ownership rights with respect to such shares of Stock.

Restricted Stock. Each recipient of a Restricted Stock Award is deemed to be the registered owner of any Unvested Shares subject to such award, notwithstanding that such shares may be subject to restrictions and possible forfeiture under the terms of the agreement pursuant to which they were received. Unless and until all or a portion of the Unvested Shares are forfeited in accordance with the terms of such agreement, the recipient thereof will have full voting rights with respect to such shares as well as the right to receive any and all distributions thereon.

Restricted Stock Units. No holder of a Restricted Stock Unit will be deemed to be the holder of, or to have any of the rights of a holder with respect to, any shares of Stock subject to such Restricted Stock Unit unless and until the Company has issued and delivered to the holder of the Restricted Stock Unit the shares of Stock as to which the Award of Restricted Stock Units has vested, and the holder's name has been entered as a stockholder of record on the books of the Company. Thereupon, such person shall have full voting and other ownership rights with respect to such shares of Stock.

11. DETERMINATION OF FAIR MARKET VALUE

For the purposes of the Plan, "fair market value" means the fair market value of Stock, Awards or other property as determined in good faith by the Committee or under procedures established by the Committee. Unless otherwise determined by the Committee, the fair market value of Stock as of any given date shall be the closing sale price per share of Stock reported on a consolidated basis for securities listed on the principal stock exchange or market on which Stock is traded on the date as of which such value is being determined or, if there is no sale on the principal stock exchange or market that day, then on the last previous day on which a sale on the principal stock exchange or market was reported. Notwithstanding

anything herein to the contrary, the Board or the Committee may determine the fair market value of a share of Stock on the basis of such factors as it deems appropriate, consistent with Section 409A of the Code, if it determines in good faith that the approach specified above does not properly reflect the fair market value of such Stock.

12. RETIREMENT, TERMINATION OF EMPLOYMENT OR DEATH OF HOLDERS OF AWARDS

Retirement or Disability. If a Grantee retires from employment with the Company or any of its Subsidiaries as a result of normal retirement (that is, termination of employment by the Grantee after he or she attains age sixty-five (65)), or terminates employment or service with the Company after becoming "permanently disabled" (as defined in the Bally Technologies, Inc. 401(k) Plan as in effect on the date of adoption of the Plan by the Board), any restrictions then applicable to his or her Award will lapse and it will thereafter be exercisable (in the case of Options and Stock Appreciation Rights) or vested and transferable (in the case of Restricted Stock and Restricted Stock Units) in whole or in part, by the person to whom granted (or his or her duly appointed, qualified, and acting personal representative) in the manner set forth in Sections 5, 6, 7 and 8 above, at any time within the remaining term of the Award, unless otherwise determined by the Board or the Committee at the time of grant.

Other Termination of Service or Employment. Except as determined by the Board or the Committee at the time of grant, or as otherwise provided herein or in a Grantee's employment agreement, (a) if a person to whom Restricted Stock has been awarded under the Plan ceases to be either a director, employee or paid consultant of the Company or a Subsidiary, any Unvested Shares of Restricted Stock held by the person are forfeited as of the last date he or she was either a director, employee or paid consultant of the Company or a Subsidiary, (b) if a person to whom Restricted Stock Units and/or an Incentive Bonuses have been awarded under the Plan ceases to be either a director, employee or paid consultant of the Company or a Subsidiary, the unvested portion, if any, of such Awards held by the person are forfeited as of the last date he or she was either a director, employee or paid consultant of the Company or a Subsidiary, and (c) if a person to whom an Option or Stock Appreciation Right has been granted under the Plan ceases to be either a director, employee or paid consultant of the Company or a Subsidiary, such Option or Stock Appreciation Right will continue to be exercisable or transferable to the same extent that it was exercisable on the last day on which he or she was either a director, employee or paid consultant for a period of 60 days thereafter, whereupon such Option or Stock Appreciation Right will terminate and not be exercisable thereafter; provided, however, that in the event of termination of employment, termination of service as a paid consultant, or removal from office as a director for Cause (as defined below), any such Option or Stock Appreciation Right will terminate ten days after such termination of employment, service or removal from office rather than 60 days thereafter. Notwithstanding the immediately preceding sentence, the term during which an Option or Stock Appreciation Right may be exercised shall not in any event extend beyond the remaining term of such Award as specified in connection with the grant thereof. No Award made under the Plan will be affected by any change of duties or position of the person to whom the Award was made or by any temporary leave of absence granted to the person by the Company or any of its Subsidiaries. For purposes of the Plan, "Cause" means (i) the Grantee being convicted of a felony, (ii) the Grantee willfully committing an act of embezzlement or malfeasance which is intended to materially enrich himself or herself at the expense of the Company or any of its Subsidiaries or is otherwise intended to materially harm the Company, or (iii) the Grantee being rejected for an applicable license or approval by a gaming regulatory authority having jurisdiction over the Company as a result of an explicit finding of lack of suitability solely as a result of the Grantee's commission of a crime or an act of embezzlement or malfeasance.

Death. Unless otherwise determined by the Board or the Committee at the time of grant, (a) if a person to whom an Option or Stock Appreciation Right has been granted under the Plan dies prior to the expiration of the term of the Option or Stock Appreciation Right, the Option or Stock Appreciation Right is exercisable by the estate of the Grantee, or by a person who acquired the right to exercise such Option or Stock Appreciation Right by bequest or inheritance from the Grantee, at any time within two years after the death of the person and prior to the date upon which such Option or Stock Appreciation Right expires

as specified in connection with the grant thereof, to the extent and in the manner exercisable by the Grantee at the date of his or her death; (b) if a person to whom Restricted Stock has been awarded under the Plan dies prior to the lapse of all restrictions applicable to such Restricted Stock, any Unvested Shares held by such person on the date of his or her death will be forfeited; and (c) if a person to whom Restricted Stock Units and/or Incentive Bonuses have been awarded under the Plan dies, the unvested portion, if any, of such Awards held by the person on the date of his or her death will be forfeited.

Termination with Board Approval. If a Grantee ceases to be either a director, employee or paid consultant of the Company or a Subsidiary for any reason other than removal for Cause, and the Board or the Committee expressly determines that such termination of service or employment is in the best interests of the Company, then an Option or Stock Appreciation Right awarded to the Grantee under the Plan will be exercisable by the Grantee or by the estate of the Grantee, by a person who acquired the right to exercise such Option or Stock Appreciation Right by bequest or inheritance from the Grantee or otherwise, for an additional period following termination of service or employment as determined by the Board or the Committee but in no event later than the date upon which such Option or Stock Appreciation Right would have expired absent such termination of service or employment. Any such extended Option or Stock Appreciation Right will be exercisable only to the extent and in the manner exercisable by the Grantee at the time of such termination of service or employment.

Incentive Stock Options. Notwithstanding anything herein to the contrary or the provisions of any employment agreement, no Incentive Stock Option shall be exercisable after the date that is (a) in the case of the Grantee's termination of employment for any reason other than death or disability, three months following such termination of employment, or (b) in the case of the Grantee's termination of employment due to death or Total and Permanent Disability (as defined in Code section 22(e)(3)), twelve months following such termination of employment.

13. ADJUSTMENTS

Changes in Capitalization. In the event of any change in the number of shares of the outstanding Stock of the Company by reason of a stock split, stock dividend, combination or reclassification of shares, recapitalization, or similar event, the Board or the Committee will adjust proportionally (a) the number and kind of shares subject to the Plan, (b) the number and kind of shares then subject to unexercised Options and Stock Appreciation Rights and outstanding Awards of Restricted Stock and Restricted Stock Units and (c) the per share Incentive Stock Option Price, Nonstatutory Stock Option Price or Base Price (as the case may be) of unexercised Options and Stock Appreciation Rights. Any such adjustment will be made without a change in the aggregate purchase price or aggregate Base Price of the shares of the Stock subject to the unexercised portion of any Option or Stock Appreciation Right.

Merger Event. In the event of any merger, spin-off, split-off or other similar consolidation, reorganization or change affecting any class of stock of the Company (a "Merger Event") subject to Awards made under the Plan, or any distribution (other than normal cash dividends) to holders of the stock, fair and equitable adjustment will be made in good faith by the Board or the Committee, including (without limitation) adjustments to avoid fractional shares, in respect of (a) all unexercised Options or Stock Appreciation Rights and (b) all then outstanding Awards of Restricted Stock, Restricted Stock Units or Incentive Bonuses to give proper effect to such event and preserve the value, rights and benefits of such Awards; provided, however, that the Board or the Committee may, in the case of any Merger Event pursuant to which the Company is not the surviving corporation and pursuant to which the former holders of the Stock do not hold, directly or indirectly, more than a majority of the voting securities of the resulting entity immediately after the Merger Event or in connection with any acquisition by any person of more than 50 percent of the outstanding shares of the Stock, provide that each Option or Stock Appreciation Right holder will receive a cash payment (in exchange for and in cancellation of such Option or Stock Appreciation Right) equal to the difference (if greater than zero) between the value of the per share consideration received by the holders of the Stock in the Merger Event or the acquisition and the purchase price or Base

Price of such Option or Stock Appreciation Right, multiplied by the number of shares of the Stock underlying such Option or Stock Appreciation Right (and if the difference is equal to or less than zero, the Committee may provide that each such holder will receive no payment, nor any other compensation, in exchange for and in cancellation of any such Option or Stock Appreciation Right). In addition, in the event that (i) there occurs any Merger Event pursuant to which all of the outstanding Stock held by the stockholders of the Company is exchanged for any lawful consideration and (ii) within twelve months following the date of such Merger Event, a Grantee's employment or service with the Company is terminated either by the Company without Cause or by the Grantee for Good Reason (as defined below), then, effective immediately prior to such termination of employment or service, all vested and unexercisable Options or Stock Appreciation Rights held by the Grantee on the date on which his or her employment or service terminated will become 100 percent vested and exercisable, and all restrictions then applicable to Awards of Restricted Stock and Restricted Stock Units held by the Grantee on the date on which his or her employment or service terminated will lapse and such Awards will thereafter be fully vested and transferable. For purposes of the Plan, "Good Reason" means, unless otherwise provided in a Grantee's employment agreement, (x) a material reduction in the Grantee's base salary or (y) a material reduction in the Grantee's duties or responsibilities.

14. MAXIMUM AWARDS

The following maximum annual and other amounts are subject to adjustment under Section 13 above and are subject to the Plan maximum under Section 3 above. Each individual Grantee may not receive in any fiscal year Awards of Options, Stock Appreciation Rights, Restricted Stock and/or Restricted Stock Units exceeding 1,500,000 underlying shares of Stock. The maximum amount payable pursuant to that portion of an Incentive Bonus granted in any fiscal year to any Grantee under this Plan that is intended to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code shall not exceed ten million dollars (\$10,000,000). No more than 1,400,000 shares of Stock may be granted as Awards of Restricted Stock or Restricted Stock Units. Notwithstanding the foregoing, to the extent that the aggregate fair market value of stock (determined at the time of grant of the Option) for which Incentive Stock Options first become exercisable by a Grantee during a calendar year (under all Option plans of the Company) exceeds \$100,000, such Options shall be treated as Options that are not Incentive Stock Options.

15. QUALIFYING PERFORMANCE CRITERIA

General. The Committee may establish performance criteria and level of achievement versus such criteria that shall determine the number of shares of Stock to be granted, retained, vested, issued or issuable under or in settlement of or the amount payable pursuant to an Award, which criteria may be based on Qualifying Performance Criteria or other standards of financial performance and/or personal performance evaluations. In addition, the Committee may specify that an Award or a portion of an Award is intended to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code, provided that the performance criteria for such Award or portion of an Award that is intended by the Committee to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code shall be a measure based on one or more Qualifying Performance Criteria selected by the Committee and specified at the time the Award is granted. The Committee shall certify the extent to which any Qualifying Performance Criteria has been satisfied, and the amount payable as a result thereof, prior to payment, settlement or vesting of any Award that is intended to satisfy the requirements for "performance-based compensation" under Section 162(m) of the Code.

Qualifying Performance Criteria. For purposes of this Plan, the term "Qualifying Performance Criteria" shall mean any one or more of the following performance criteria, or derivations of such performance criteria, either individually, alternatively or in any combination, applied to either the Company as a whole or to a business unit or Subsidiary, either individually, alternatively or in any combination, and measured either annually or cumulatively over a period of years, on an absolute basis or

relative to a pre-established target, to previous years' results or to a designated comparison group, in each case as specified by the Committee: (a) revenues; (b) earnings per share (basic or diluted), earnings from operations, earnings before or after taxes, earnings before or after interest, depreciation, amortization, incentives, service fees or extraordinary or special items; (c) net income or net income per common share (basic or diluted); (d) return on assets, return on net assets, return on investment, return on capital, or return on equity; (e) cash flow, free cash flow, cash flow return on investment, or net cash provided by operations; (f) economic value created or added; (g) operating margin or profit margin; (h) stock price, dividends or total stockholder return; and (i) strategic business criteria, consisting of one or more objectives based on meeting specified market penetration or value added, market share, product development or introduction, geographic business expansion goals, cost targets, debt reduction, customer satisfaction, employee satisfaction, information technology, and goals relating to acquisitions or divestitures of subsidiaries, affiliates or joint ventures. To the extent consistent with Section 162(m) of the Code, the Committee (i) may appropriately adjust any evaluation of performance under a Qualifying Performance Criteria to eliminate the effects of charges for restructurings, discontinued operations, extraordinary items and all items of gain, loss or expense determined to be extraordinary or unusual in nature or related to the disposal of a segment of a business or related to a change in accounting principle all as determined in accordance with accounting principles generally accepted in the United States of America, as well as the cumulative effect of accounting changes, in each case as determined in accordance with generally accepted accounting principles or identified in the Company's financial statements or notes to the financial statements, and (ii) may appropriately adjust any evaluation of performance under a Qualifying Performance Criteria to exclude any of the following events that occurs during a performance period: (1) asset write-downs, (2) litigation, claims, judgments or settlements, (3) the effect of changes in tax law or other such laws or provisions affecting reported results, (4) accruals for reorganization and restructuring programs and (5) accruals of any amounts for payment under this Plan or any other compensation arrangement maintained by the Company.

16. MANNER OF GRANT

Nothing contained in the Plan or in any resolution adopted by the Board or any committee thereof or by the stockholders of the Company with respect to the Plan, except as provided in the Plan, will constitute the granting of an Award under the Plan. The granting of an Award under the Plan is deemed to occur only upon the date on which the Board or the Committee approves the grant of the Award. Each Award granted under the Plan shall be evidenced by a written agreement, in the form determined by the Board or the Committee, signed by a representative of the Board or the Committee and the recipient thereof.

17. COMPLIANCE WITH LAWS AND REGULATIONS

The obligation of the Company to sell and deliver any shares of Stock under the Plan is subject to all applicable laws, rules and regulations, and the obtaining of all approvals by governmental agencies deemed necessary or appropriate by the Board or the Committee. In general, the Board or the Committee may make such changes in the Plan and include such terms in any Award agreement as may be necessary or appropriate, in the opinion of counsel to the Company, to comply with the rules and regulations of any governmental authority, or to obtain for employees granted Incentive Stock Options the tax benefits under the applicable provisions of the Code and the regulations thereunder.

18. TAX WITHHOLDING

The Company or Subsidiary for which services are performed by a director, employee or paid consultant granted an Award under the Plan has the right to deduct or otherwise effect a withholding of any tax (including, without limitation, any FICA (employment) tax required to be withheld under Chapter 21 of the Code, any income tax required to be withheld under Chapter 24 of the Code, and any similar tax imposed under state, local, or foreign law) required by federal, state, local or foreign laws to be withheld or otherwise deducted and paid with respect to the grant, vesting or exercise of any Award; or, in

lieu of such withholding, to require that the Grantee or person holding such Award pay to the Company or such Subsidiary in cash (or, at the sole discretion of the Board or the Committee, in the form of shares of Stock) the amount of any taxes required to be withheld or otherwise deducted and paid by the Company or its Subsidiary in connection with the grant, vesting or exercise of any Award. The Company may condition any delivery of stock certificates or other evidence of ownership of shares of Stock on payment of the tax amounts referred to in this Section 18.

19. CERTAIN LIMITATIONS ON AWARDS TO ENSURE COMPLIANCE WITH CODE SECTION 409A.

For purposes of this Plan, references to an award term or event (including any authority or right of the Company or a Participant) being consistent with Code Section 409A shall mean that the term or event will not cause the Participant to be liable for payment of interest or a tax penalty under Code Section 409A. Other provisions of the Plan notwithstanding, the terms of any award including any authority of the Company and rights of the Participant with respect to the award, shall be limited to those terms permitted under Code Section 409A, and any terms not permitted under Code Section 409A shall be automatically modified and limited to the extent necessary to conform with Code Section 409A. For this purpose, other provisions of the Plan notwithstanding, the Company shall have no authority to accelerate distributions relating to 409A Awards in excess of the authority permitted under Code Section 409A, and any distribution subject to Code Section 409A(a)(2)(A)(i) (separation from service) to a "key employee" as defined under Code Section 409A(a)(2)(B)(i), shall not occur earlier than the earliest time permitted under Code Section 409A(a)(2)(B)(i). Notwithstanding any other provisions of the Plan, the Company does not guarantee to any Participant or any other person that any Award intended to be exempt from Section 409A of the Code shall be so exempt, nor that any Award intended to comply with Section 409A of the Code shall so comply, nor will the Company indemnify, defend or hold harmless any individual with respect to the tax consequences of any such failure.

20. NO REPRICING WITHOUT STOCKHOLDER APPROVAL

Other than in connection with a change in the Company's capitalization (as described in Section 13 below) the Option Price or Base Price of an Option or Stock Appreciation Right may not be reduced without stockholder approval (including canceling previously awarded Options in exchange for cash, other Awards, or Options or Stock Appreciation Rights with an exercise price that is less than the exercise price of the original Award).

21. NONEXCLUSIVITY OF THE PLAN

Neither the adoption of the Plan by the Board nor the submission of the Plan to the stockholders of the Company for approval has any impact on existing qualified or nonqualified retirement, bonus or Option plans of the Company or creates any limitations on the power of the Board to adopt any other incentive arrangements that it may deem desirable, including, without limitation, the granting of stock Options, Stock Appreciation Rights, Restricted Stock, Restricted Stock Units or Incentive Bonuses otherwise than under the Plan, and such arrangements may be either applicable generally or only in specific cases.

22. AMENDMENT

The Board at any time, and from time to time, may amend the Plan, subject to any required regulatory approval and subject to the limitation that, except as provided above in Section 13, no amendment is effective unless approved within 12 months after the date of the adoption of such amendment by the affirmative vote of the holders of a majority of the shares of the Company's Voting Stock present in person or represented by proxy at a duly held meeting at which a quorum is present (or by such greater vote as may be required by applicable law, regulation or provision of the certificate of incorporation or bylaws of

the Company) if the amendment would, but for such approval, prevent the issuance of Incentive Stock Options under the Plan or cause the Plan to no longer comply with the requirements of Section 162(m) of the Code.

Except as provided in Section 13 above, rights and obligations under any Awards granted before amendment of the Plan may not be altered or impaired by amendment of the Plan in any manner having a significant adverse effect on a Grantee, except with the consent of the Grantee thereof.

23. TERMINATION OR SUSPENSION

The Board at any time may suspend or terminate the Plan. The Plan, unless sooner terminated, will terminate on the 10th anniversary of its adoption by the Board or its approval by the stockholders of the Company, whichever is earlier, but such termination will not affect any Award theretofore granted. No Award may be granted under the Plan while the Plan is suspended or after it is terminated. In general, no rights or obligations under any Award granted while the Plan is in effect will be altered or impaired by suspension or termination of the Plan, except with the consent of the person to whom the Award was granted. Any Award granted under the Plan may be terminated by agreement between the holder thereof and the Company and, in lieu of the terminated Award, a new Award may be granted.

24. MISCELLANEOUS

Nothing contained in the Plan (or in any written Award agreement) obligates the Company or any Subsidiary to continue for any period to elect any individual as a director or to employ an employee or consultant to whom an Award has been granted, or interfere with the right of the Company or any Subsidiary to vary the terms of the person's service or employment or reduce the person's compensation.

25. EXCULPATION AND INDEMNIFICATION

To the fullest extent permitted by applicable law and regulation, the Company will indemnify and hold harmless the members of the Board and the members of the Committee from and against any and all liabilities, costs, and expenses incurred by them as a result of any act, or omission to act, in connection with the performance of their duties, responsibilities, and obligations under the Plan, other than such liabilities, costs and expenses as may result from the gross negligence, bad faith, willful misconduct, or criminal acts of such persons.

26. GOVERNING LAW

The Plan and all actions taken thereunder are governed by and construed in accordance with the laws of the State of Nevada, without reference to the principles of conflict of laws thereof.

27. UNFUNDED PLAN

The Plan is unfunded and the Company is not required to segregate any assets in connection with any Awards under the Plan. Any liability of the Company to any person with respect to any Award under the Plan or any Award agreement is based solely upon the contractual obligations that may be created as a result of the Plan or any such Award or agreement. No such obligation of the Company will be deemed to be secured by any pledge of, encumbrance on, or other interest in, any property or asset of the Company or any Subsidiary. Nothing contained in the Plan or any Award agreement will be construed as creating in respect of any Grantee (or beneficiary thereof or any other person) any equity or other interest of any kind in any assets of the Company or any Subsidiary or creating a trust of any kind or a fiduciary relationship of any kind between the Company, any Subsidiary and/or any such Grantee, any beneficiary thereof or any other person.
