Machines are distributed principally through a worldwide organization of dealers (dealer network), 50 located in the United States and 138 located outside the United States. Worldwide, these dealers serve 182 countries and operate 3,475 places of business, including 1,341 dealer rental outlets. Reciprocating engines are sold principally through the dealer network and to other manufacturers for use in products manufactured by them. Our dealers do not deal exclusively with our products; however, in most cases sales and servicing of our products are the dealers' principal business. Turbines are sold through sales forces employed by the company. At times, these employees are assisted by independent sales representatives.

Pending acquisition of Bucyrus

On November 14, 2010, we entered into an Agreement and Plan of Merger (the "Merger Agreement") with Bucyrus International, Inc. ("Bucyrus") and Badger Merger Sub, Inc., a wholly owned subsidiary of ours ("Sub"). Pursuant to the Merger Agreement, and subject to the satisfaction or waiver of certain closing conditions, Sub will merge with and into Bucyrus, with Bucyrus surviving as a wholly owned subsidiary of Caterpillar (the "Merger"). The anticipated aggregate consideration to be paid by Caterpillar to Bucyrus' stockholders to consummate the Merger is approximately \$7.6 billion. The consummation of the Merger is subject to certain conditions, including, among others, the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (the "HSR Act"), which expiration occurred on May 19, 2011, and obtaining antitrust approvals in certain other jurisdictions. At a special meeting of Bucyrus stockholders held on January 20, 2011, the Bucyrus stockholders voted to adopt the Merger Agreement. The completion of the Merger is not subject to a financing condition. We expect the Merger to close in mid-2011.

Bucyrus is a leading designer, manufacturer and marketer of high productivity mining equipment. Bucyrus operates in two business segments: surface mining and underground mining. Major markets for the surface mining industry are copper, coal, oil sands and iron ore. The major market for the underground mining industry is coal. Most of Bucyrus' surface mining customers are large multinational corporations with operations in the various major surface mining markets throughout the world. Most of Bucyrus' underground mining customers are multinational coal mining corporations, but tend to be smaller in size than Bucyrus' surface mining customers. In addition to the manufacture of original equipment, an important part of Bucyrus' business consists of aftermarket sales, such as supplying parts, maintenance and repair services and technical advice, as well as refurbishing and relocating older, installed original equipment. Bucyrus has manufacturing facilities in Australia, China, the Czech Republic,

Risk factors

You should carefully consider the following risk factors and the information under the heading "Risk factors" in the accompanying prospectus and in our Annual Report on Form 10-K for the year ended December 31, 2010, which is incorporated by reference into this prospectus supplement, as well as the other information included or incorporated by reference into this prospectus supplement and the accompanying prospectus, before making an investment decision. In addition, there may be other risks that a prospective investor should consider that are relevant to its own particular circumstances or generally.

Risks related to the notes

The Notes are effectively junior to the existing and future liabilities of our subsidiaries.

The Notes are our unsecured obligations and will rank equally in right of payment with all of our other existing and future unsecured, senior obligations. The Notes are not secured by any of our assets. As of March 31, 2011, we did not have any secured debt outstanding. Any future claims of secured lenders with respect to assets securing their loans will be prior to any claim of the holders of the Notes with respect to those assets.

Our subsidiaries are separate and distinct legal entities from us. Our subsidiaries have no obligation to pay any amounts due on the Notes. In addition, any payment of dividends, loans or advances by our subsidiaries could be subject to statutory or contractual restrictions. Payments to us by our subsidiaries will also be contingent upon the subsidiaries' earnings and business considerations. Our right to receive any assets of any of our subsidiaries upon their bankruptcy, liquidation or reorganization, and therefore the right of the holders of the Notes to participate in those assets, will be effectively subordinated to the claims of that subsidiary's creditors, including trade creditors. In addition, even if we are a creditor of any of our subsidiaries, our right as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any indebtedness of our subsidiaries senior to that held by us. At March 31, 2011, we had approximately \$29.6 billion of indebtedness outstanding on a consolidated basis, approximately \$24.8 billion of which is subsidiary indebtedness that is structurally senior to the Notes.

The Notes do not restrict our ability to incur additional debt or prohibit us from taking other actions that could negatively impact holders of the Notes.

The Notes and indenture under which the Notes will be issued do not place any limitation on the amount of unsecured debt that may be incurred by us. Our incurrence of additional debt may have important consequences for you as a holder of the Notes, including making it more difficult for us to satisfy our obligations with respect to the Notes, a loss in the market value of your Notes and a risk that the credit rating of the Notes is lowered or withdrawn.

In addition, the Notes do not require us to achieve or maintain any minimum financial results relating to our financial position or results of operations. Our ability to recapitalize, incur additional debt, secure existing or future debt or take a number of other actions that are not limited by the terms of the indenture and the Notes, including repurchasing indebtedness or common shares or preferred shares, if any, or paying dividends, could have the effect of diminishing our ability to make payments on the Notes when due.

Table of Contents

Our credit ratings may not reflect all risks of an investment in the Notes.

The credit ratings assigned to the Notes may not reflect the potential impact of all risks related to trading markets, if any, for, or trading value of, the Notes. In addition, real or anticipated changes in our credit ratings will generally affect any trading market, if any, for, or trading value of, the Notes. Agency ratings are not a recommendation to buy, sell or hold any security, and may be revised or withdrawn at any time by the issuing organization. Each agency's rating should be evaluated independently of any other agency's rating. Accordingly, you should consult your own financial and legal advisors as to the risks entailed by an investment in the Notes and the suitability of investing in the Notes in light of your particular circumstances.

If an active trading market does not develop for the Notes, you may be unable to sell your Notes or to sell your Notes at a price that you deem sufficient.

The Notes are new issues of securities for which there currently is no established trading market. We do not intend to list the Notes on a national securities exchange or arrange for quotation on any automated dealer quotation system. While the underwriters of the Notes have advised us that they intend to make a market in the Notes, the underwriters will not be obligated to do so and may stop their market making at any time. No assurance can be given:

that a market for the Notes will develop or continue;

as to the liquidity of any market that does develop; or

as to your ability to sell any Notes you may own or the price at which you may be able to sell your Notes.

We may redeem your Fixed Rate Notes at our option, which may adversely affect your return.

As described under "Description of the Notes Optional redemption," we have the right to redeem the Fixed Rate Notes of any series in whole or from time to time in part. We may choose to exercise this redemption right when prevailing interest rates are relatively low. As a result, you generally will not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the Fixed Rate Notes.

If we do not complete the Merger with Bucyrus within the timeframes set out in the Notes, we will be required to redeem the Notes, and as a result, you may not obtain your expected return on the Notes.

Our ability to consummate the Merger is subject to various closing conditions, many of which are beyond our control, and we may not be able to consummate the Merger prior to June 30, 2012, the timeframe specified under "Description of the Notes Special mandatory redemption." If we are not able to consummate the Merger on or prior to June 30, 2012, or if the Merger Agreement is terminated at any time on or prior to that date, we will be required to redeem all of the Notes at a redemption price equal to 101% of the aggregate principal amount thereof, plus accrued and unpaid interest from the date of initial issuance to, but excluding, the special mandatory redemption date. However, there is no escrow account or security interest for the benefit of the noteholders, and it is possible that we will not have sufficient financial resources available to satisfy our obligations to redeem the Notes. In addition, even if we are able to redeem the Notes pursuant to the special mandatory redemption provisions you may not obtain your expected return on such Notes and may not be able to reinvest the proceeds from a special mandatory redemption in an investment that

results in a comparable return. Your decision to invest in the Notes is made at the time of the offering of the Notes. You will have no rights under the special mandatory redemption provisions as long as the Merger closes, nor will you have any right to require us to repurchase your Notes if, between the closing of the Notes offering and the closing of the Merger, we experience any changes in our business or financial condition, or if the terms of the Merger or the financing thereof change.

Description of Bucyrus acquisition

On November 14, 2010, we entered into the Merger Agreement with Bucyrus and Sub. Pursuant to the Merger Agreement, and subject to the satisfaction or waiver of certain closing conditions, Sub will merge with and into Bucyrus, with Bucyrus surviving as a wholly owned subsidiary of Caterpillar. As described below under " Merger Agreement," the consummation of the Merger is subject to certain conditions, including, among others, the expiration or termination of the applicable waiting period under the HSR Act, which expiration occurred on May 19, 2011, and obtaining antitrust approvals in certain other jurisdictions. At a special meeting of Bucyrus stockholders held on January 20, 2011, the Bucyrus stockholders voted to adopt the Merger Agreement. We expect the Merger to close in mid-2011.

At the effective time of the Merger, each issued and outstanding share of Bucyrus common stock (other than shares owned by Bucyrus, Caterpillar or Sub or any other direct or indirect wholly owned subsidiary of Caterpillar, and shares for which appraisal rights are properly exercised) will be converted into the right to receive \$92.00 in cash, without interest. The anticipated aggregate consideration to be paid by Caterpillar to Bucyrus' stockholders to consummate the Merger is approximately \$7.6 billion.

Bucyrus is a leading designer, manufacturer and marketer of high productivity mining equipment. Bucyrus operates in two business segments: surface mining and underground mining. Major markets for the surface mining industry are copper, coal, oil sands and iron ore. The major market for the underground mining industry is coal. Most of Bucyrus' surface mining customers are large multinational corporations with operations in the various major surface mining markets throughout the world. Most of Bucyrus' underground mining customers are multinational coal mining corporations, but tend to be smaller in size than Bucyrus' surface mining customers. In addition to the manufacture of original equipment, an important part of Bucyrus' business consists of aftermarket sales, such as supplying parts, maintenance and repair services and technical advice, as well as refurbishing and relocating older, installed original equipment. Bucyrus has manufacturing facilities in Australia, China, the Czech Republic, Germany, Mexico, the United Kingdom and the United States and service and sales centers in Australia, Brazil, Canada, Chile, China, India, Indonesia, Peru, Russia, South Africa and the United States. Bucyrus' corporate headquarters is located in South Milwaukee, Wisconsin, USA.

Bucyrus' common stock is listed on the NASDAQ Global Select Stock Market under the symbol "BUCY." Bucyrus files reports and other information with NASDAQ and the SEC.

Merger Agreement

Conditions

The Merger Agreement provides that the consummation of the Merger with Bucyrus is subject to certain conditions, including, among others, (i) the expiration or earlier termination of the applicable waiting period under the HSR Act, which expiration occurred on May 19, 2011, and obtaining antitrust approvals in certain other jurisdictions; (ii) no temporary restraining order, preliminary or permanent injunction or other judgment issued by any court of competent jurisdiction or other legal restraint or prohibition that has the effect of preventing the consummation of the Merger will be in effect; and (iii) other customary closing conditions. The completion of the Merger is not subject to a financing condition. There can be no assurance as to whether or, if so, when the conditions to consummation of the Merger will be satisfied.

Table of Contents

Covenants

The Merger Agreement contains customary covenants, including covenants providing for no solicitation of alternate transactions related to the Merger by Bucyrus and for each of the parties to use reasonable best efforts to cause the Merger and the other transactions contemplated by the Merger Agreement to be consummated.

Governmental approvals

Caterpillar and Bucyrus have each agreed to use their respective reasonable best efforts to obtain all governmental and regulatory approvals required to complete the transactions contemplated by the Merger Agreement. These approvals include the expiration or earlier termination of the applicable waiting period under the HSR Act and the receipt of all other competition, merger control and antitrust approvals or filings required by the laws of Australia, Canada, China, India (to the extent necessary), South Africa and the European Commission. The waiting period under the HSR Act expired on May 19, 2011.

Termination

The Merger Agreement contains certain termination rights for both Caterpillar and Bucyrus. If the Merger Agreement is terminated under certain specified circumstances, Bucyrus must pay Caterpillar a termination fee of \$200 million.

Financing

Caterpillar intends to finance all or a portion of the consideration to be paid to Bucyrus' stockholders to consummate the Merger. On December 3, 2010, we entered into a Bridge Loan Agreement (the "Bridge Loan Agreement") with JPMorgan Chase Bank, N.A., as agent, and the lenders party thereto, pursuant to which and subject to the conditions set forth therein, the lenders committed to provide an unsecured bridge financing of up to \$8.6 billion (the "Bridge Loan Facility"). The Bridge Loan Agreement will mature on the first anniversary of the closing date of the Merger. The Bridge Loan Agreement provides, among other things, that the funding of the Bridge Loan Facility is subject to certain conditions, including the absence of a Closing Company Material Adverse Effect (as defined in the Merger Agreement) and the maintenance by Caterpillar of certain minimum credit ratings.

Under the terms of the Bridge Loan Agreement, we have the option to issue senior notes and/or equity in lieu of all or a portion of the drawing under the Bridge Loan Facility and, if we choose to borrow under the Bridge Loan Facility, we may refinance all or a portion of the Bridge Loan Facility at a later date. The Notes in this offering are being issued in lieu of our drawing on the Bridge Loan Facility. Pursuant to the terms of the Bridge Loan Agreement, the bridge lenders' commitments will be automatically and permanently reduced in an aggregate amount equal to the net proceeds of this offering and will no longer be available to us after this offering.

The foregoing summaries of the Merger Agreement and the Bridge Loan Agreement and the transactions contemplated thereby do not purport to be complete and are subject to, and qualified in their entirety by, the full text of such agreements, which are filed as exhibits to our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, which is incorporated herein by reference. See "Where you can find more information."

Table of Contents**Use of proceeds**

The net proceeds from the offering of the 2012 Notes, the 2013 Notes, the 2014 Notes, the 2021 Notes and the 2041 Notes, after deducting the respective underwriting discounts and estimated offering expenses payable by us, are expected to be approximately \$499.2 million, \$748.7 million, \$748.1 million, \$1,238.4 million and \$1,236.3 million, respectively, or \$4,470.7 million in the aggregate. We intend to use the net proceeds from this offering to pay a portion of the merger consideration for our acquisition of Bucyrus and to pay certain fees and expenses relating to the Merger. We expect to fund the remaining merger consideration from cash on hand.

If we do not consummate the Merger with Bucyrus on or prior to June 30, 2012, or if the Merger Agreement is terminated at any time prior to such date, we must redeem all of the Notes at a redemption price equal to 101% of the aggregate principal amount of the Notes, plus accrued and unpaid interest from the date of initial issuance, or the most recent date to which interest has been paid or provided for, as the case may be, to but excluding the special mandatory redemption date. See "Description of the Notes Special mandatory redemption."

Ratio of earnings to fixed charges

Our ratios of earnings to fixed charges for each of the periods indicated are set forth below. The information set forth below should be read together with the financial statements and the accompanying notes incorporated by reference into this prospectus. See "Where you can find more information."

	Year ended December 31,				Three months ended March 31,

3.7	1.3	3.8	4.2	4.5	6.4	2.3

These ratios include Caterpillar and its consolidated subsidiaries. Earnings are determined by adding pretax income from continuing operations before adjustments for noncontrolling interest and equity investments' profit, and fixed charges excluding capitalized interest. Fixed charges consist of interest expense, an estimated amount of rental expense that is deemed to be representative of the interest factor, and capitalized interest.

Actual as adjusted amounts may vary from amounts set forth below depending on several factors, including potential changes in our financing plans as a result of market conditions or other factors, the timing of the consummation of the respective transactions and other factors. Description of the Notes

General

The 2012 Notes will be initially limited to \$500,000,000 aggregate principal amount. The 2013 Notes will be initially limited to \$750,000,000 aggregate principal amount. The 2014 Notes will be initially limited to \$750,000,000 aggregate principal amount. The 2021 Notes will be initially limited to \$1,250,000,000 aggregate principal amount. The 2041 Notes will be initially limited to \$1,250,000,000 aggregate principal amount. All references to the "Notes" refer to the 2012 Notes, the 2013 Notes, the 2014 Notes, the 2021 Notes and the 2041 Notes, collectively. The Notes are to be issued under that certain indenture dated as of May 1, 1987, as amended and supplemented, between us and U.S. Bank National Association ("U.S. Bank"), as successor trustee.

The Notes will be issued in a minimum denomination of \$2,000 and integral multiples of \$1,000 thereafter.

Interest on Fixed Rate Notes

Each Fixed Rate Note will bear interest at the rate per annum stated on the cover page of this prospectus supplement. Interest on the Fixed Rate Notes will be payable semi-annually on May 27 and November 27 of each year, beginning on November 27, 2011. Interest payable on the Fixed Rate Notes will be paid to the respective holders of record on May 15 and November 15, respectively, immediately preceding the interest payment date. The 2012 Notes will mature on November 21, 2012. The 2013 Notes will mature on May 21, 2013. The 2014 Notes will mature on May 27, 2014. The 2021 Notes will mature on May 27, 2021. The 2041 Notes will mature on May 27, 2041.

If an interest payment date or maturity date is not a Business Day, we will pay interest or principal on the next Business Day. However, interest on the payments will not accrue for the period from the original payment date to the date we make the payments. We will calculate the interest based on a 360-day year consisting of twelve 30-day months.

Interest on Floating Rate Notes

Interest on Floating Rate Notes will be payable quarterly on February 21, May 21, August 21 and November 21 of each year, beginning on August 21, 2011 to the persons in whose names the Floating Rate Notes are registered at the close of business on the 15th calendar day immediately preceding such interest payment date, provided that if interest is due on a day that is not a Business Day, interest will be paid on the next succeeding Business Day, except that if that Business Day is in the immediately succeeding calendar month, the interest payment date shall be the immediately preceding Business Day.

The interest rate on the Floating Rate Notes will be reset quarterly on February 21, May 21, August 21 and November 21 of each year, commencing May 25, 2011, and at maturity (each an "interest reset date").

The initial interest period will be the period from and including the settlement date to but excluding the first interest reset date. Thereafter, each "interest reset period" (or "interest

Table of Contents

period") will be the period from and including an interest reset date to but excluding the immediately succeeding interest reset date; provided that the final interest reset period for the Floating Rate Notes will be the period from and including the interest reset date immediately preceding the maturity date of such Notes to but excluding the maturity date. Interest on the Floating Rate Notes will be computed on the basis of the actual number of days elapsed over a 360-day year. The interest rate for the first interest period (or "initial interest reset period") will be equal to the three-month U.S. Dollar ("USD") London Interbank Offered Rate ("LIBOR"), as determined on May 25, 2011, plus a margin of 0.10% for the 2012 Notes and 0.17% for the 2013 Notes. Thereafter, the interest rate for any interest period will be equal to the three-month USD LIBOR, as determined on the applicable Interest Determination Date (as defined below), plus a margin of 0.10% for the 2012 Notes and 0.17% for the 2013 Notes.

The amount of interest for each day the Floating Rate Notes are outstanding (the "daily interest amount") will be calculated by dividing the interest rate in effect for that day by 360 and multiplying the result by the principal amount of the Floating Rate Notes. The amount of interest to be paid on the Floating Rate Notes on any interest payment date will be calculated by adding the daily interest amounts for each day in the interest period.

Floating Rate Notes will bear interest for each interest period at a per annum rate equal to the three-month USD LIBOR, as determined by the Calculation Agent (as defined below) on the Interest Determination Date for such period, plus a margin of 0.10% for the 2012 Notes and 0.17% for the 2013 Notes. Promptly upon determination, the Calculation Agent will inform the trustee and us of the interest rate for the next interest period. Absent manifest error, the determination of the interest rate by the Calculation Agent shall be binding and conclusive on the holders of the Floating Rate Notes, the trustee and us. The interest rate will in no event be higher than the maximum rate permitted by New York law as the same may be modified by United States law of general application.

All percentages resulting from these calculations will be rounded, if necessary, to the nearest one hundred thousandth of a percentage point, with five one millionths of a percentage point rounded upwards (e.g., 9.876545% (or .09876545) being rounded to 9.87655% (or .0987655)) and all dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent being rounded upwards).

On any Interest Determination Date, USD LIBOR will be equal to the offered rate for deposits in U.S. dollars having an index maturity of three months, in amounts of at least \$1,000,000, as such rate appears on "Reuters Page LIBOR01" at approximately 11:00 a.m., London time, on such Interest Determination Date. If on an Interest Determination Date, such rate does not appear on the "Reuters Page LIBOR01" as of 11:00 a.m. (London time), or if the "Reuters Page LIBOR01" is not available on such date, the trustee will obtain such rate from Bloomberg L.P.'s page "BBAM."

If no offered rate appears on "Reuters Page LIBOR01" or Bloomberg L.P.'s page "BBAM" on an Interest Determination Date at approximately 11:00 a.m., London time, then the Calculation Agent (after consultation with us) will select four major banks in the London interbank market and shall request each of their principal London offices to provide a quotation of the rate at which three-month deposits in U.S. dollars in amounts of at least \$1,000,000 are offered by it to prime banks in the London interbank market, on that date and at that time, that is representative of single transactions at that time. If at least two quotations are provided, USD

Table of Contents

LIBOR will be the arithmetic average of the quotations provided. Otherwise, the Calculation Agent will select three major banks in New York City and shall request each of them to provide a quotation of the rate offered by them at approximately 11:00 a.m., New York City time, on the Interest Determination Date for loans in U.S. dollars to leading European banks having an index maturity of three months for the applicable interest period in an amount of at least \$1,000,000 that is representative of single transactions at that time. If three quotations are provided, USD LIBOR will be the arithmetic average of the quotations provided. Otherwise, the rate of USD LIBOR for the next interest period will be set equal to the rate of USD LIBOR for the then current interest period.

Upon request from any holder of the Floating Rate Notes, the Calculation Agent will provide the interest rate in effect on the Floating Rate Notes for the current interest period and, if it has been determined, the interest rate to be in effect for the next interest period.

For purposes of the foregoing discussion of interest payable on Floating Rate Notes, the following definitions are applicable:

"Calculation Agent" means the calculation agent as appointed by us, which initially shall be the trustee.

"Interest Determination Date" with respect to an interest period will be the second London Business Day preceding the first day of the interest period.

"London Business Day" is a day on which dealings in deposits in U.S. dollars are transacted in the London interbank market.

Further issuances

We may, from time to time, without notice to or the consent of the holders or the beneficial owners of the Notes, create and issue additional notes having the same terms as the 2012 Notes, 2013 Notes, 2014 Notes, 2021 Notes or 2041 Notes in all respects (except for the issue date, issue price, payment of interest accruing prior to the issue date of the Notes and, in some cases, the initial interest payment date of the Notes), provided that if the additional notes are not fungible with the previously outstanding notes of that series for United States federal income tax purposes, such additional notes will have a separate CUSIP number so that such further notes may be consolidated and form a single series with Notes being offered by this prospectus supplement and accompanying prospectus.

For additional important information on the Notes, see "Description of Debt Securities" in the accompanying prospectus. That information includes:

- additional information on the terms of the Notes;
- general information on the indenture and the trustee;
- a description of certain restrictive covenants contained in the indenture; and
- a description of events of default under the indenture.

Payment and paying agents

We will maintain in the place of payment for the Notes an office or agency where the Notes may be presented or surrendered for payment or for registration of transfer or exchange and

Table of Contents

where holders may serve us with notices and demands in respect of the Notes and the indenture.

We will give prompt written notice to the trustee of the location, and any change in the location, of such office or agency. If we fail to maintain any required office or agency or fail to furnish the trustee with the address of such office or agency, presentations, surrenders, notices and demands may be made or served at the corporate trust office of the trustee. We have appointed the trustee as our agent to receive all presentations, surrenders, notices and demands with respect to the Notes.

Special mandatory redemption

We intend to use the net proceeds from this offering to pay a portion of the consideration of our Merger with Bucyrus and to pay certain fees and expenses relating to the Merger as described under the heading "Use of proceeds." The closing of this offering is expected to occur prior to the completion of the Merger. The Notes will be subject to a special mandatory redemption in the event the Merger is not consummated on or prior to June 30, 2012, or if prior to June 30, 2012, the Merger Agreement governing the Merger is terminated (each such event, a "redemption event"). In such an event, the Notes will be redeemed at a special mandatory redemption price equal to 101% of the principal amount thereof plus accrued and unpaid interest from the date of initial issuance, or the most recent date to which interest has been paid or provided for, whichever is later, to but excluding the special mandatory redemption date. The "special mandatory redemption date" means the earlier to occur of (1) June 30, 2012, if the Merger has not been completed on or prior to June 30, 2012, or (2) the 30th day (or if such day is not a Business Day, the first Business Day thereafter) following the termination of the Merger Agreement.

We will cause the notice of special mandatory redemption to be mailed, with a copy to the trustee, within five business days after the occurrence of the redemption event to each holder at its registered address. If funds sufficient to pay the special mandatory redemption price of all Notes to be redeemed on the special mandatory redemption date are deposited with the paying agent on or before such special mandatory redemption date, and certain other conditions are satisfied, on and after such special mandatory redemption date, the Notes will cease to bear interest and all rights under the Notes shall terminate.

Optional redemption

The Fixed Rate Notes may be redeemed in whole at any time or in part from time to time, at our option, at a redemption price equal to the greater of:

100% of the principal amount of the Fixed Rate Notes to be redeemed, or

the sum of the present values of the remaining scheduled payments of principal and interest on the Fixed Rate Notes to be redeemed, discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the applicable Treasury Rate plus 7.5 basis points in the case of the 2014 Notes, 12.5 basis points in the case of the 2021 Notes and 15.0 basis points in the case of the 2041 Notes,

plus, in each case, accrued and unpaid interest on the principal amount being redeemed to the redemption date.

Table of Contents

We will not have the right to redeem any of the Floating Rate Notes, except as set forth above under " Special mandatory redemption."

"Treasury Rate" means, with respect to any redemption date, (1) the yield, under the heading which represents the average for the immediately preceding week, appearing in the most recently published statistical release designated "H.15(519)" or any successor publication which is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded United States Treasury securities adjusted to constant maturity under the caption "Treasury Constant Maturities," for the maturity corresponding to the Comparable Treasury Issue (or, if no maturity is within three months before or after the Remaining Life, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue will be determined and the Treasury Rate will be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month), or (2) if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per annum equal to the semi-annual equivalent yield-to-maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price of such redemption date. The Treasury Rate will be calculated on the third Business Day preceding the redemption date.

"Business Day" means any calendar day that is not a Saturday, Sunday or legal holiday in New York, New York and on which commercial banks are open for business in New York, New York.

"Comparable Treasury Issue" means the United States Treasury security selected by the Independent Investment Banker as having a maturity comparable to the remaining term ("Remaining Life") of the Fixed Rate Notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the Remaining Life of such Fixed Rate Notes.

"Comparable Treasury Price" means (1) the average of five Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest Reference Treasury Dealer Quotations, or (2) if, after seeking at least five Reference Treasury Dealer Quotations and excluding the highest and lowest Reference Treasury Dealer Quotations, the Independent Investment Banker obtains fewer than five such Reference Dealer Quotations, the average of all such quotations.

"Independent Investment Banker" means any of Barclays Capital Inc., J.P. Morgan Securities LLC, RBS Securities Inc., Citigroup Global Markets Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated or SG Americas Securities, LLC and any of their respective successors, as appointed by us, or, if any of the foregoing is unwilling or unable to select the Comparable Treasury Issue, a nationally recognized investment banking institution which is a Primary Treasury Dealer appointed by us.

"Reference Treasury Dealer" means (1) any of Barclays Capital Inc., J.P. Morgan Securities LLC, RBS Securities Inc., Citigroup Global Markets Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated or SG Americas Securities, LLC and any of their respective successors, as appointed by us, provided, however, that if any of the foregoing shall cease to be a primary U.S. government securities dealer (a "Primary Treasury Dealer"), we will substitute for such dealer

Table of Contents

another Primary Treasury Dealer, and (2) any other nationally recognized Primary Treasury Dealer selected by the Independent Investment Banker and acceptable to us.

"Reference Treasury Dealer Quotations" means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker at 5:00 p.m., New York, New York time, on the third Business Day preceding such redemption date.

Holders of Fixed Rate Notes to be redeemed will receive notice thereof by first-class mail at least 30 and not more than 60 days before the date fixed for redemption. If fewer than all of the Fixed Rate Notes are to be redeemed, the trustee will select the particular Fixed Rate Notes or portions thereof for redemption from the outstanding Fixed Rate Notes not previously called, pro rata or by lot, or in such other manner as we shall direct.

Sinking fund

The Notes will not be entitled to any sinking fund.

Events of default

With respect to each series of Notes, "Event of Default" shall have the meaning set forth in the accompanying prospectus under "Description of Debt Securities Events of Default."

Book-entry system; global clearance and settlement procedures

The Notes will be issued in book-entry form, will be represented by one or more permanent global certificates in fully registered form without interest coupons and will be deposited with the trustee of The Depository Trust Company ("DTC") and registered in the name of Cede & Co. or another nominee designated by DTC. Holders of the Notes may elect to hold interests in a global security through DTC, Clearstream Banking, *société anonyme* ("Clearstream") or Euroclear Bank S.A., as operator of the Euroclear System ("Euroclear"), if they are participants of such systems, or indirectly through organizations that are participants in such systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers' securities accounts in Clearstream and Euroclear's names on the books of their respective depositories, which in turn will hold such interests in customers' securities accounts in the depositories' names on DTC's books. For more information on book-entry and DTC, please see "Book-Entry Issuance and Global Securities" in the accompanying prospectus.

Payments, deliveries, transfers, exchanges, notices and other matters relating to the Notes made through Euroclear or Clearstream must comply with the rules and procedures of those systems. Those systems could change their rules and procedures at any time. We have no control over those systems or their participants and we take no responsibility for their activities. Transactions between participants in Euroclear or Clearstream, on the one hand, and other participants in DTC, on the other hand, would also be subject to the rules and procedures of DTC.

Investors will be able to make and receive through Euroclear and Clearstream payments, deliveries, transfers, exchanges, notices and other transactions involving any securities held

Table of Contents

through those systems only on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States.

In addition, because of time-zone differences, U.S. investors who hold their interests in the Notes through these systems and wish to transfer their interests, or to receive or make a payment or delivery or exercise any other right with respect to their interests, on a particular day may find that the transaction will not be effected until the next business day in Luxembourg or Brussels, as applicable. Thus, investors who wish to exercise rights that expire on a particular day may need to act before the expiration date. In addition, investors who hold their interests through both DTC and Euroclear or Clearstream may need to make special arrangements to finance any purchases or sales of their interests between the U.S. and European clearing systems, and those transactions may settle later than transactions within one clearing system.

Trustee

U.S. Bank has performed and may in the future perform for Caterpillar and its subsidiaries various commercial banking services, for which it has received and will receive customary fees and expenses.

Certain United States federal income tax considerations

This section describes the material United States federal income tax consequences of purchases, ownership and disposition of the Notes we are offering. This discussion applies to you only if you acquire the Notes in the offering and you hold the Notes as capital assets for tax purposes. This section does not apply to you if you are a member of a class of holders subject to special rules, such as:

a dealer in securities or currencies;

a regulated investment company;

a bank;

a real estate investment trust;

a trader in securities that elects to use a mark-to-market method of accounting for your securities holdings;

a life insurance company;

a tax-exempt organization;

a partnership or other entity classified as a partnership for U.S. federal income tax purposes;

a person that owns debt securities that are a hedge or that are hedged against interest rate risks;

a person that owns debt securities as part of a straddle or conversion transaction for tax purposes; or

a United States holder (as defined below) whose functional currency for tax purposes is not the U.S. dollar.

This section is based on the Internal Revenue Code of 1986, as amended (the "Code"), its legislative history, existing and proposed regulations under the Code, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis.

If a partnership holds the Notes, the United States federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership holding the Notes should consult its tax advisor with regard to the United States federal income tax treatment of an investment in the Notes.

Please consult your own tax advisor concerning the consequences of owning any of the Notes in your particular circumstances under the Code and the laws of any other taxing jurisdiction.

United States holders

This subsection describes the tax consequences to a United States holder. You are a United States holder if you are a beneficial owner of any of the Notes and you are:

a citizen or resident of the United States;

S-25

Table of Contents

a domestic corporation or other entity taxable as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or of any political subdivision thereof;

an estate whose income is subject to United States federal income tax regardless of its source; or

a trust if a United States court can exercise primary supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust.

If you are not a United States holder, this subsection does not apply to you and you should refer to "United States Alien Holders" below.

Payments of interest

You will be taxed on any interest on your Notes as ordinary income at the time you receive the interest or when it accrues, depending on your method of accounting for tax purposes.

Payments under certain events

If we are not able to consummate the Merger on or prior to June 30, 2012 or if the Merger Agreement is terminated at any time on or prior to that date, we will be required to redeem all of the Notes at a redemption price equal to 101% of the aggregate principal amount thereof, plus accrued and unpaid interest from the date of initial issuance to, but excluding, the special mandatory redemption date. See "Description of the Notes Special mandatory redemption." These contingencies could subject the Notes to the provisions of the U.S. Treasury regulations relating to "contingent payment debt instruments." We believe and intend to take the position that the foregoing contingencies should not result in the Notes being treated as contingent payment debt instruments. Our position is binding on a holder, unless the holder discloses in the proper manner to the Internal Revenue Service that it is taking a different position. If the Internal Revenue Service were to successfully challenge this position, the amount, timing and character of payments under the Notes may differ, which could increase the present value of a United States holder's U.S. federal income tax liability with respect to the Notes. The remainder of this discussion assumes that the Notes will not be treated as contingent payment debt instruments.

Sale, exchange or redemption of the notes

Upon the sale, exchange, redemption or other taxable disposition of the Notes, you generally will recognize gain or loss equal to the difference, if any, between (i) the amount realized upon the sale, exchange, redemption or other taxable disposition of the Notes, other than amounts attributable to accrued and unpaid interest (which will be taxed as ordinary interest income to the extent such interest has not been previously included in income), and (ii) your adjusted tax basis in the Notes. Your amount realized is the sum of cash plus the fair market value of all other property received on such sale, exchange, redemption or other taxable disposition. Your adjusted tax basis in the Notes generally will be your cost for the Notes.

Gain or loss recognized on the sale, exchange, redemption or other taxable disposition of the Notes generally will be capital gain or loss. Such gain or loss generally will be long-term capital

Table of Contents

gain or loss if you have held the Notes for more than 12 consecutive months. For non-corporate United States holders, long-term capital gains are currently taxed at a lower rate than ordinary income. The deductibility of capital losses is subject to limitations. You should consult your own tax advisor regarding the deductibility of capital losses in your particular circumstances.

United States alien holders

This subsection describes the tax consequences to a United States alien holder. You are a United States alien holder if you are the beneficial owner of any of the Notes (other than a partnership) and are not a United States holder.

If you are a United States holder, this subsection does not apply to you.

Under current United States federal income and estate tax law, and subject to the discussion of backup withholding below, if you are a United States alien holder of any of the Notes:

We and other U.S. payors generally will not be required to deduct United States withholding tax from payments of principal and interest to you if, in the case of payments of interest:

1. you do not actually or constructively own 10% or more of the total combined voting power of all classes of stock of Caterpillar entitled to vote;
2. you are not a controlled foreign corporation for U.S. tax purposes that is related to Caterpillar through stock ownership;
3. you are not a bank receiving interest described in Code Section 881(c)(3)(A); and
4. we do not have actual knowledge or reason to know that you are a United States person and either:
 - a. you have furnished to the U.S. payor an Internal Revenue Service Form W-8BEN or an acceptable substitute form upon which you certify, under penalties of perjury, that you are a non-United States person; or
 - b. the U.S. payor has received a withholding certificate (furnished on an appropriate Internal Revenue Service Form W-8 or an acceptable substitute form) from a person claiming to be:
 - i. a qualified intermediary (generally a non-United States financial institution or clearing organization or a non-United States branch or office of a United States financial institution or clearing organization that is a party to a withholding agreement with the Internal Revenue Service), or
 - ii. a U.S. branch of a non-United States bank or of a non-United States insurance company,and the qualified intermediary or the U.S. branch has received documentation upon which it may rely to treat the payment as made to a non-United States person that is, for United States federal income tax purposes, the beneficial owner of the payment on the Notes in accordance with U.S. Treasury regulations (or, in the case

Table of Contents

of a qualified intermediary, in accordance with its agreement with the Internal Revenue Service); or

- c. the U.S. payor receives a statement from a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business,
 - i. certifying to the U.S. payor under penalties of perjury that an Internal Revenue Service Form W-8BEN or an acceptable substitute form has been received from you by it or by a similar financial institution between it and you, and
 - ii. to which is attached a copy of the Internal Revenue Service Form W-8BEN or acceptable substitute form.

Special rules regarding exemption from, or reduced rates of, U.S. withholding tax may apply in the case of Notes held by partnerships or certain types of trusts. Partnerships and trusts that are prospective purchasers should consult their tax advisors regarding special rules that may be applicable in their particular circumstances.

Even if you do not meet the above requirements, interest payments will not be subject to the withholding of U.S. federal income tax (or will be subject to withholding at a reduced rate) if you certify on the appropriate Internal Revenue Service Form W-8 that either (i) an applicable tax treaty exempts, or provides for a reduction in, such withholding or (ii) interest paid on a Note is effectively connected with your trade or business in the United States and therefore is not subject to withholding (as described in greater detail below).

If you are engaged in a trade or business in the United States, and if interest on a Note is effectively connected with the conduct of such trade or business, you generally will be subject to regular U.S. federal income tax on such interest in the same manner as if you were a United States holder. In lieu of providing an Internal Revenue Service Form W-8BEN, you will be required to provide a properly executed Internal Revenue Service Form W-8ECI in order to claim an exemption from withholding. In addition, if you are a foreign corporation, you may be subject to branch profits tax equal to 30%, or such lower rate as may be provided by an applicable treaty, of your effectively connected earnings and profits for the taxable year, subject to certain adjustments.

No deduction for any United States federal withholding tax will be made from any gain that you realize on the sale or exchange of your Notes.

Further, any of the Notes held by an individual who at death is not a citizen or resident of the United States will not be includible in the individual's gross estate for United States federal estate tax purposes if:

the decedent did not actually or constructively own 10% or more of the total combined voting power of all classes of stock of Caterpillar entitled to vote at the time of death, and

the income on the Note would not have been effectively connected with a United States trade or business of the decedent at the same time.

Backup withholding and information reporting

In general, if you are a noncorporate United States holder, we and other payors are required to report to the Internal Revenue Service all payments of principal of and interest on your Notes. In addition, we and other payors are required to report to the Internal Revenue Service any payment of proceeds of the sale of your Notes before maturity within the United States. Additionally, backup withholding will apply to any payments if you fail to provide an accurate taxpayer identification number, or you are notified by the Internal Revenue Service that you have failed to report all interest and dividends required to be shown on your federal income tax returns.

In general, if you are a United States alien holder, payments of principal or interest made by us and other payors to you will not be subject to backup withholding and information reporting, provided that the certification requirements described above under "United States alien holders" are satisfied or you otherwise establish an exemption. However, we and other payors are required to report payments of interest on your Notes on Internal Revenue Service Form 1042-S even if the payments are not otherwise subject to information reporting requirements. In addition, payment of the proceeds from the sale of Notes effected at a United States office of a broker will not be subject to backup withholding and information reporting provided that:

the broker does not have actual knowledge or reason to know that you are a United States person and you have furnished to the broker:

an appropriate Internal Revenue Service Form W-8 or an acceptable substitute form upon which you certify, under penalties of perjury, that you are not a United States person, or

other documentation upon which it may rely to treat the payment as made to a non-United States person in accordance with U.S. Treasury regulations, or

you otherwise establish an exemption.

If you fail to establish an exemption and the broker does not possess adequate documentation of your status as a non-United States person, the payments may be subject to information reporting and backup withholding. However, backup withholding will not apply with respect to payments made to an offshore account maintained by you unless the broker has actual knowledge that you are a United States person.

In general, payment of the proceeds from the sale of Notes effected at a foreign office of a broker will not be subject to information reporting or backup withholding. However, a sale effected at a foreign office of a broker will be subject to information reporting and backup withholding if:

the proceeds are transferred to an account maintained by you in the United States,

the payment of proceeds or the confirmation of the sale is mailed to you at a United States address, or

the sale has some other specified connection with the United States as provided in U.S. Treasury regulations, unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above

Edgar Filing: CATERPILLAR INC - Form 424B2

Table of Contents

(relating to a sale of debt securities effected at a United States office of a broker) are met or you otherwise establish an exemption.

In addition, payment of the proceeds from the sale of Notes effected at a foreign office of a broker will be subject to information reporting if the broker is:

a United States person,

a controlled foreign corporation for United States tax purposes,

a foreign person 50% or more of whose gross income is effectively connected with the conduct of a United States trade or business for a specified three-year period, or

a foreign partnership, if at any time during its tax year:

one or more of its partners are "U.S. persons", as defined in U.S. Treasury regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership, or

such foreign partnership is engaged in the conduct of a United States trade or business,

unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above (relating to a sale of Notes effected at a United States office of a broker) are met or you otherwise establish an exemption. Backup withholding will apply if the sale is subject to information reporting and the broker has actual knowledge that you are a United States person.

Table of Contents

The underwriters initially propose to offer all or part of the Notes to the public at the public offering prices that appear on the cover page of this prospectus supplement. In addition, the underwriters may offer the Notes to certain dealers at prices that represent a concession not in excess of 0.075%, 0.100%, 0.100%, 0.300% and 0.500% of the principal amount of the 2012 Notes, the 2013 Notes, the 2014 Notes, the 2021 Notes and the 2041 Notes, respectively. Any underwriter may allow, and any such dealer may reallow, a concession not in excess of 0.025%, 0.025%, 0.025%, 0.125% and 0.250% of the principal amount of the 2012 Notes, the 2013 Notes, the 2014 Notes, the 2021 Notes and the 2041 Notes, respectively, to certain other dealers. After the initial offering of the Notes, the underwriters may from time to time vary the offering prices and other selling terms. The underwriters may offer and sell Notes through certain of their affiliates.

The following table shows the underwriting discount that we will pay to the underwriters in connection with the offering of the Notes:

Paid by us

Per 2012 Note	0.125%
Per 2013 Note	0.150%
Per 2014 Note	0.150%
Per 2021 Note	0.450%
Per 2041 Note	0.875%
Total	\$ 19,437,500

Expenses associated with this offering to be paid by us, other than underwriting discounts, are estimated to be approximately \$800,000.

We have also agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments which the underwriters may be required to make in respect of any such liabilities.

The Notes are a new issue of securities, and there is currently no established trading market for the Notes. We do not intend to apply for the Notes to be listed on any securities exchange or to arrange for the Notes to be quoted on any quotation system. The underwriters have advised us that they intend to make a market in the Notes, but they are not obligated to do so. The underwriters may discontinue any market making in the Notes at any time at their sole discretion. Accordingly, we cannot assure you that a liquid trading market will develop for the Notes, that you will be able to sell your Notes at a particular time or that the prices you receive when you sell will be favorable.

In connection with the offering of the Notes, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the prices of the Notes. Specifically, the underwriters may overallocate in connection with the offering of the Notes, creating syndicate short positions. In addition, the underwriters may bid for and purchase Notes in the open market to cover syndicate short positions or to stabilize the prices of the Notes. Finally, the underwriting syndicate may reclaim selling concessions allowed for distributing the Notes in the offering of the Notes, if the syndicate repurchases previously distributed Notes in syndicate covering transactions, stabilization transactions or otherwise. Any of these activities may stabilize or

maintain the market prices of the Notes above independent market levels. The underwriters are not required to engage in any of these activities, and may end any of them at any time.

The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

This prospectus is part of a "shelf" registration statement that we have filed with the Securities and Exchange Commission (the "SEC"). By using a shelf registration statement, we may sell, at any time and from time to time, in one or more offerings, any combination of securities described in this prospectus. For further information about our business and the securities, you should refer to the registration statement and its exhibits. The exhibits to our registration statement contain the full text of certain contracts and other important documents we have summarized in this prospectus. This prospectus only provides you with a general description of the securities we may offer. Each time we sell securities, we will file with the SEC a prospectus supplement that contains specific information about the terms of those securities. The prospectus supplement may also add, update or change information contained in this prospectus. Except as otherwise indicated, references in this prospectus to "Caterpillar," the "company," "we," "us" and "our" refer to Caterpillar Inc. and its subsidiaries.

the information contained in or incorporated by reference into this prospectus;

the information contained in or incorporated by reference into any prospectus supplement relating to specific offerings of securities;

the risks described in our Annual Report on Form 10-K for our most recent fiscal year and in any Quarterly Report on Form 10-Q which we have filed since our most recent Annual Report on Form 10-K, each of which is incorporated by reference into this prospectus; and

The discussion of risks related to our business contained in or incorporated by reference into this prospectus or into any prospectus supplement comprises material risks of which we are aware. Our

business, financial condition, results of operations and prospects could be materially adversely affected by any of these risks. The trading price of our securities could decline due to any of these risks, and you could lose all or part of your investment.

FORWARD-LOOKING STATEMENTS

Some of the information included or incorporated by reference in this prospectus contains "forward-looking statements," or statements related to future events. Forward-looking statements often address our expected future business and financial performance, and often contain words such as "may," "will," "would," "could," "should," "believes," "estimates," "projects," "potential," "expects," "plans," "anticipates," "intends," "continues" and other similar terminology. For us, particular uncertainties that could adversely or positively affect our future results include:

- (i) Adverse changes in general economic conditions;

- (iii) Caterpillar's ability to manage material, including steel, and freight costs;
- (iv) Caterpillar's ability to generate cash from operations, secure external funding for its operations and manage its liquidity needs;
- (v) Material adverse changes in customers' access to liquidity and capital;
- (vi) Currency exchange or interest rates changes;
- (vii) Political instability;
- (viii) Market acceptance of the company's products and services;
- (ix) Significant changes in the competitive environment;
- (x) Epidemic diseases;
- (xi) Severe changes in weather conditions negatively impacting operations;
- (xii) Changes in law, regulations and tax rates; and
- (xiii) Other general economic, business and financing conditions and factors described in more detail in our third quarter report on Form 10-Q filed with the SEC on October 30, 2009 and in our future SEC filings, which are incorporated by reference in this prospectus.

These uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.

USE OF PROCEEDS

Unless otherwise specified in a prospectus supplement accompanying this prospectus, the net proceeds from the sale of the securities to which this prospectus relates will be used for general corporate purposes. General corporate purposes may include repayment of debt, acquisitions, additions to working capital, capital expenditures and investments in our subsidiaries. Net proceeds may be temporarily invested prior to use.

RATIO OF EARNINGS TO FIXED CHARGES

The ratio of earnings to fixed charges for the periods indicated below were as follows:

Ratio of Earnings to Fixed Charges

Nine Months Ended	Year Ended December 31,					
	September 30, 2009	2008	2007	2006	2005	2004
	1.3	3.8	4.2	4.5	4.5	4.2

These ratios include Caterpillar and its consolidated subsidiaries. Earnings are determined by adding consolidated profit before taxes and fixed charges excluding capitalized interest. Fixed charges consist of interest expense, an estimated amount of rental expense that is deemed to be representative of the interest factor, and capitalized interest. Neither Caterpillar nor any of its consolidated subsidiaries had any outstanding shares of preferred stock for the periods shown above. Accordingly, the ratio of combined fixed charges and preference dividends to earnings is identical to the ratio of earnings to fixed charges for the periods shown above.

GENERAL DESCRIPTION OF SECURITIES

We may offer under this prospectus our debt securities, common stock, preferred stock, and warrants to purchase debt securities or common stock, or any combination of the foregoing, either separately or together in any combination and as a separate series.

The following description of the terms of these securities sets forth some of the general terms and provisions of securities that we may offer. The particular terms of securities offered by any prospectus supplement and the extent, if any, to which the general terms set forth below do not apply to those securities, will be described in the related prospectus supplement. In addition, if we offer securities in any combination of the above securities, the terms of such combined securities will be described in the applicable prospectus supplement. If the information contained in the prospectus supplement differs from the following description, you should rely on the information in the prospectus supplement.

DESCRIPTION OF DEBT SECURITIES

We have provided below a summary description of our debt securities. This description is not complete and is qualified in its entirety by reference to the full text of our Indenture dated as of May 1, 1987, as amended and supplemented, between us and U.S. Bank National Association, as successor trustee. You should read the full text of our Indenture.

We will issue the debt securities under an indenture dated as of May 1, 1987, as amended and supplemented, between us and U.S. Bank National Association, the successor trustee. This prospectus briefly outlines some of the indenture provisions. See "Where You Can Find More Information" on how to locate the indenture and the supplements. You may also review the indenture at the Trustee's offices located in New York, New York.

The indenture does not limit the amount of debt securities that may be issued and each series of debt securities may differ as to its terms. The debt securities may be issued up to the principal amount that may be authorized by us and may be in any currency or currency unit designated by us.

The debt securities will be unsecured and unsubordinated and will rank equally with all our unsecured and unsubordinated indebtedness. The debt securities will not be subject to any conversion, amortization, or sinking fund. It is anticipated that the debt securities will be "book-entry," represented by a permanent global certificate registered in the name of The Depository Trust Company or its nominee. However, we reserve the right to issue the securities in certificate form registered in the name of the security holders.

Edgar Filing: CATERPILLAR INC - Form 424B2

For current information on our debt outstanding, see our most recent Form 10-K and our Form 8-K filed with the SEC on May 14, 2009. See "Where You Can Find More Information."

Exchange, Registration, Transfer, and Payment

Principal and interest on the debt securities will be payable, and the exchange or transfer of debt securities will be registrable at a location designated in the prospectus supplement. No service charge will be applied for a registration of transfer or exchange of debt securities except to cover tax or any governmental charge.

Certain Restrictive Covenants

Unless the applicable prospectus supplement otherwise provides, we will be required to comply with certain restrictive covenants described below. These covenants apply to us and our Restricted Subsidiaries.

What is a Restricted or Unrestricted Subsidiary?

A "Restricted Subsidiary" is defined as any subsidiary, other than an Unrestricted Subsidiary, and any Unrestricted Subsidiary designated by our Board of Directors after May 1, 1987 as a Restricted Subsidiary.

An "Unrestricted Subsidiary" is defined as:

any subsidiary acquired or organized by us after May 1, 1987, as long as that subsidiary is not a successor to a Restricted Subsidiary;

any subsidiary with principal business and assets located outside the United States (its territories and possessions) and Canada;

any subsidiary with the principal business of financing our dealers and distributors, as well as acquisitions and dispositions of our products by dealers, distributors, or other customers;

any subsidiary with the principal business of owning, leasing, dealing in or developing real property; and

any subsidiary with substantially all assets consisting of securities of subsidiaries described above.

Other Definitions

Important Property: means any manufacturing plants or facilities of us or any Restricted Subsidiary located in the United States, Canada, or Puerto Rico having a gross book value (without deduction for depreciation) in excess of 1% of Consolidated Net Tangible Assets, other than any plant or other facility our Board believes is not important to our business as a whole.

Consolidated Net Tangible Assets: means the total of all assets appearing on the consolidated balance sheet of Caterpillar and its consolidated subsidiaries prepared in accordance with accounting principles generally accepted in the United States of America, excluding the sum of (1) all current liabilities and (2) all goodwill, patents, copyrights, trademarks and other like intangibles.

Secured Debt: means indebtedness secured by a mortgage, pledge, lien, security interest or encumbrance on:

any Important Property of Caterpillar or any Restricted Subsidiary; or

any shares of stock or indebtedness of a Restricted Subsidiary.

Edgar Filing: CATERPILLAR INC - Form 424B2

Value: means with respect to a Sale and Leaseback Transaction, an amount equal to the greater of:

the net proceeds of the sale of the property leased pursuant to the Sale and Leaseback Transaction; or

the fair value of the property at the time of the Sale and Leaseback Transaction, as determined by our Board of Directors.

In either case, the amount derived is first divided by the term of the lease and then multiplied by the number of years remaining on the lease at the time of determination.

Restrictions on Secured Debt

The indenture prohibits us and our Restricted Subsidiaries from creating Secured Debt (without securing the debt securities equally and ratably with Secured Debt), with the following exceptions:

certain mortgages, pledges, liens, security interests or encumbrances to secure payment of all or part of the cost of acquisition, construction or improvement of our property or the property of a Restricted Subsidiary;

mortgages, pledges, liens, security interests or encumbrances on property acquired, whether or not assumed by us or a Restricted Subsidiary;

mortgages, pledges, liens, security interests or encumbrances on property, stock, or indebtedness of a Restricted Subsidiary at the time it becomes such;

mortgages, pledges, liens, security interests or encumbrances on property of a corporation merged with us or a Restricted Subsidiary or at the time of a disposition of substantially all of the property of another corporation to us or a Restricted Subsidiary;

mortgages, pledges, liens, security interests, or encumbrances on our property or the property of a Restricted Subsidiary in favor of a governmental entity pursuant to contract or statute or to secure certain indebtedness;

any extension, renewal or replacement of any mortgage, pledge, lien or encumbrance referred to above; or

any mortgage, pledge, lien, security interest, or encumbrance securing debt owed by us or a Restricted Subsidiary to us or a Restricted Subsidiary.

In addition to these exceptions, we or a Restricted Subsidiary may create, assume, or guarantee other Secured Debt without securing the debt securities if the total amount of Secured Debt outstanding and value of Sale and Leaseback Transactions at the time does not exceed 10% of Consolidated Net Tangible Assets.

Restrictions on Sale and Leaseback Transactions

Neither we nor any Restricted Subsidiary can sell or transfer (except to us or a Restricted Subsidiary) any Important Property we own with the intention of taking back a lease on the property, except for a lease not exceeding three years, with the following exceptions:

if we or a Restricted Subsidiary could incur Secured Debt equal to the amount received on a sale or transfer secured by a mortgage on the property to be leased without equally and ratably securing the debt securities; or

Edgar Filing: CATERPILLAR INC - Form 424B2

if we or a Restricted Subsidiary apply an amount equal to the value of the property leased to the retirement, within 120 days after the effective date of the arrangement, of indebtedness for

money borrowed by us or a Restricted Subsidiary recorded as funded debt as of the date of its creation and which, in the case of indebtedness of us, is not subordinated in right of payment to the prior payment of the debt securities. The amount applied to the retirement of that indebtedness shall be reduced by (i) the principal amount of any debt securities delivered within 120 days of the effective date to the Trustee for retirement and cancellation, and (ii) the principal amount of the indebtedness, other than debt securities, retired by us or a Restricted Subsidiary within 120 days of the effective date of the arrangement.

Restriction on Transfer of Important Property

Neither we nor a Restricted Subsidiary can transfer Important Property to an Unrestricted Subsidiary except in limited circumstances. The transfer can occur if we apply an amount equal to the fair value of the property at the time of transfer (as determined by our Board of Directors) to the retirement of indebtedness of us or a Restricted Subsidiary that is recorded as funded debt and is not subordinated in right of payment to the debt securities. The debt retirement must occur within 120 days of the transfer. No such retirement may be by payment at maturity or under a mandatory prepayment provision.

Events of Default

Unless we indicate otherwise in a prospectus supplement, the following events are defined in the indenture as "Events of Default" regarding the debt securities of any series:

failure to pay principal of or premium on any debt securities when due;

failure to pay interest on any debt securities when due, continued for 60 days;

failure to deposit any sinking fund payment when due;

failure to perform any other covenant in the indenture for 60 days after we have received written notice of the failure;

certain events in bankruptcy, insolvency or reorganization; and

any other Event of Default stipulated.

Unless stated otherwise in a prospectus supplement, any Event of Default on a particular series of debt securities is not necessarily an Event of Default on another series of debt securities.

If an Event of Default occurs on outstanding debt securities of a particular series and continues, the Trustee or holders of at least 25% of that series' debt securities may declare the principal amount of all debt securities in the series due and payable. Under certain circumstances, holders of a majority of the debt securities in the series may rescind that declaration.

The Trustee must within 90 days after a default occurs notify the holders of debt securities of that series of the default if we have not remedied it. The Trustee may withhold notice to the holders of any default (except in the payment of principal or interest) if it in good faith considers such withholding to be in the interest of holders. We are required to file an annual certificate with the Trustee, signed by an officer, about any default by us under any provisions of the indenture.

Subject to the provisions of the indenture relating to its duties in case of default, the Trustee shall be under no obligation to exercise any of its rights or powers under the indenture at the request, order or direction of any holders unless such holders offer the Trustee reasonable indemnity. Subject to the provisions for indemnification, the holders of a majority in principal amount of the debt securities of a series may direct the time, method and place of conducting any proceedings for any remedy available to, or exercising any trust or power conferred on, the Trustee with respect to such debt securities.

Modification of Indenture

Under the indenture, our rights and obligations and the rights of the holders of debt securities may be changed. Certain changes require the consent of the holders of not less than 66²/₃% in aggregate principal amount of the outstanding debt of all series to be affected. However, the following changes may not be made without the consent of each holder of the debt securities:

changes to the stated maturity date of the principal or any interest installment;

reductions in the principal amount or interest due;

changes to the place or currency regarding payment of principal;

impairment of the right to institute suit for the enforcement of payment;

reduction in the stated percentage of holders necessary to modify the indenture; or

modifications to any of these requirements or to reduce the percentage of outstanding debt securities necessary to waive compliance with certain provisions of the indenture or for the waiver of certain defaults.

Consolidation, Merger, or Sale

We cannot merge with another company or sell or lease substantially all of our property to another company unless:

we are the continuing corporation or the successor corporation is a domestic corporation and expressly assumes the payment of principal of and interest on the debt securities and the performance and observance of all the covenants and conditions of the indenture binding on us;

we, or the successor corporation, are not immediately after the merger, consolidation, or sale in default in the performance of a covenant or condition in the indenture; and

if as a result of the merger, consolidation or sale we become subject to a mortgage, pledge, lien, security interest or other encumbrance not permitted by the indenture, we or the successor corporation take steps necessary to secure the debt securities equally and ratably with all indebtedness secured.

Defeasance

Under certain circumstances we may be discharged from our obligations on the debt securities of a series at any time before the stated maturity if we deposit with the Trustee money or certain equivalents sufficient to pay principal of and interest on the debt securities. One condition for such defeasance is that we must deliver to the Trustee an opinion of counsel that holders of the debt securities will not recognize income, gain or loss for federal income tax purposes as a result of the defeasance.

DESCRIPTION OF CAPITAL STOCK

We have provided below a summary description of our capital stock. This description is not complete and is qualified in its entirety by reference to the full text of our Restated Certificate of Incorporation and Bylaws, and the applicable certificate of designations for any series of preferred stock that we may issue. You should read the full text of our Restated Certificate of Incorporation and Bylaws, any applicable certificate of designations, and the provisions of applicable Delaware law.

Description of Common Stock

The authorized common stock of the Company consists of 900,000,000 shares of common stock, par value \$1.00 per share. At October 30, 2009, there were 623,584,946 shares of common stock issued and outstanding.

All issued and outstanding shares of common stock of the Company, including the shares of common stock offered pursuant to this prospectus, are or will be fully paid and non-assessable. Holders of common stock have no preemptive, subscription or conversion rights and are not liable for further calls or assessments. Subject to the prior right of any future series of preferred stock, holders of common stock are entitled to receive such dividends as may be declared by the Board of Directors out of funds legally available and to share ratably in the assets available for distribution upon liquidation. Each share of common stock is entitled to one vote at all meetings of stockholders. The holders of common stock are not entitled to cumulative voting rights in the election of directors.

The common stock is listed on the New York and Chicago Stock Exchanges in the United States. In addition, the common stock or stock equivalents are traded on stock exchanges in Belgium, France, Germany, Great Britain and Switzerland. The Transfer Agent and Registrar for the common stock is BNY Mellon Shareowner Services.

Description of Preferred Stock

Our restated certificate of incorporation authorizes our board of directors to cause preferred stock to be issued in one or more series, without stockholder action. They are authorized to issue up to 5,000,000 shares of preferred stock, with par value of \$1.00 per share, and can determine the number of shares of each series, as well as the rights, preferences and limitations of each series. We may amend the certificate of incorporation to increase the number of authorized shares of preferred stock in a manner permitted by the certificate of incorporation and Delaware law. As of the date of this prospectus, no preferred stock is outstanding.

The particular terms of any series of preferred stock offered by us will be described in the prospectus supplement relating to that series of preferred stock. Those terms relating to the series of preferred stock offered may include:

the number of shares of the preferred stock being offered;

the title and liquidation preference per share of the preferred stock;

the purchase price of the preferred stock;

the dividend rate or method for determining the dividend rate;

the dates on which dividends will be paid;

whether dividends on the preferred stock will be cumulative or non-cumulative and, if cumulative, the dates from which dividends shall start to accumulate;

the voting rights of the preferred stock;

whether the preferred stock will be convertible into or exchangeable for other securities;

any redemption or sinking fund provisions applicable to the preferred stock;

any securities exchange on which the preferred stock may be listed; and

Edgar Filing: CATERPILLAR INC - Form 424B2

any other rights and restrictions applicable to the preferred stock.

The following summary is not complete. You should refer to the certificate of designations relating to any series of preferred stock for the complete terms of that preferred stock. The certificate of

designations will be filed with the SEC at the time of the offering of the preferred stock. Unless otherwise specified in the prospectus supplement, if we liquidate, dissolve or wind-up our business, each series of preferred stock will have the same rank as to dividends and distributions as each other series of preferred stock we may issue in the future. Preferred stock will have no pre-emptive rights.

Transfer Agent and Registrar

We will appoint a transfer agent, registrar, and dividend disbursement agent for the preferred stock. The registrar for the preferred stock will send notices to the holders of the preferred stock of any meeting to which those holders will have the right to elect directors or to vote on any matter.

Possible Anti-Takeover Provisions

Shares of the Company's authorized and unissued common stock and preferred stock could (within the limits imposed by applicable law and any applicable rules of the New York Stock Exchange) be issued in one or more transactions or preferred stock could be issued with terms, provisions and rights which would make a takeover of the Company more difficult or more costly and, therefore, less likely. For example, the Board may issue such capital stock to a holder or holders who might thereby obtain sufficient voting power, either by voting with the common stock or separately as a class, to defeat or delay a proposed business combination which may be opposed by the Board, or to assure that any proposal to remove directors, or to alter, amend or repeal certain provisions in the Company's Restated Certificate of Incorporation would not receive the required supermajority stockholder vote or any class vote which would be required to effect such changes. Any such issuance of additional stock could be effected by the Board acting alone without further stockholder approval.

Set forth below are descriptions of certain provisions of the Company's Restated Certificate of Incorporation and Bylaws which could make more difficult certain unsolicited or hostile attempts to take over the Company.

The Company's Restated Certificate of Incorporation provides that the amendment of certain provisions in the Certificate and Bylaws, including the provisions discussed in the following three paragraphs, requires the affirmative vote of the holders of 75% of the outstanding stock of the Company entitled to vote generally in the election of directors voting as a single class ("75% Stockholder Vote").

The Company's Board of Directors is divided into three classes with staggered three-year terms. At each annual meeting of stockholders, one of the three classes is subject to election, with the remaining directors continuing in office.

The Company's Bylaws also provide that no action shall be taken by stockholders by written consent and that special meetings of the stockholders may be called only by the Board of Directors pursuant to a resolution approved by a majority of the entire Board of Directors or by the Chairman of the Board.

In addition, the Restated Certificate of Incorporation and Bylaws provide that directors may be removed without cause but only by a 75% Stockholder Vote and that vacancies on the Board of Directors shall be filled by the affirmative vote of a majority of the remaining directors then in office and not by the stockholders. The Company's Restated Certificate and Bylaws further provide certain advance notice requirements in connection with stockholder nominations for the election of directors and other matters to be properly brought before an annual meeting by a stockholder.

Delaware's anti-takeover law (the "Anti-Takeover Law") prevents, subject to certain exceptions, certain Delaware corporations from engaging, under certain circumstances, in a "business combination" (which includes a merger or sale of more than 10% of the corporation's assets) with any "interested stockholder" (a stockholder who owns 15% or more of the corporation's outstanding voting stock) for

three years following the date that such stockholder became an "interested stockholder." A Delaware corporation may "opt out" of the Anti-Takeover Law with an express provision in its original certificate of incorporation or an express provision in its certificate of incorporation or bylaws resulting from an amendment approved by at least a majority of the outstanding voting shares. The Company is a Delaware corporation that is covered by the Anti-Takeover Law and has not "opted out" of its provisions.

DESCRIPTION OF WARRANTS

We have provided below a summary description of warrants that we may issue. This description is not complete and is qualified in its entirety by reference to the full text of the applicable warrant agreement. You should read the full text of any such warrant agreement.

We may issue warrants, in one or more series, for the purchase of debt securities or shares of our common stock. Warrants may be issued independently or together with our debt securities or common stock and may be attached to or separate from any offered securities. In addition to this summary, you should refer to the detailed provisions of the specific warrant agreement for complete terms of the warrants. Unless otherwise specified in a prospectus supplement accompanying this prospectus, each warrant agreement will be between Caterpillar and a banking institution organized under the laws of the United States or a state thereof as warrant agent. A form of warrant agreement will be filed with the SEC as an exhibit to the Registration Statement by post-effective amendment or a Current Report on Form 8-K.

The warrants will be evidenced by warrant certificates. Unless otherwise specified in the prospectus supplement, the warrant certificates may be traded separately from the debt securities or common stock, if any, with which the warrant certificates were issued. Warrant certificates may be exchanged for new warrant certificates of different denominations at the office of an agent that we will appoint. Until a warrant is exercised, the holder of a warrant does not have any of the rights of a holder of our debt securities or common stock and is not entitled to any payments on any debt securities or common stock issuable upon exercise of the warrants.

A prospectus supplement accompanying this prospectus relating to a particular series of warrants to issue debt securities or common stock will describe the terms of those warrants, including:

the title and the aggregate number of warrants;

the offering price for such warrants;

the debt securities or common stock for which each warrant is exercisable;

the date or dates on which the right to exercise such warrants commence and expire;

the price or prices at which such warrants are exercisable;

the terms of any antidilution or other adjustment provisions;

the currency or currencies in which such warrants are exercisable;

the periods during which and places at which such warrants are exercisable;

the terms of any mandatory or optional call provisions;

Edgar Filing: CATERPILLAR INC - Form 424B2

the price or prices, if any, at which the warrants may be redeemed at the option of the holder or will be redeemed upon expiration;

the identity of the warrant agent;

the exchanges, if any, on which such warrants may be listed; and

any additional terms of such warrants.

Edgar Filing: CATERPILLAR INC - Form 424B2

You may exercise warrants by payment to our warrant agent of the exercise price, in each case in such currency or currencies as are specified in the warrant, and by giving your identity and the number of warrants to be exercised. Once you pay our warrant agent and deliver the properly completed and executed warrant certificate to our warrant agent at the specified office, our warrant agent will, as soon as practicable, forward securities to you in authorized denominations or share amounts. If you exercise less than all of the warrants evidenced by your warrant certificate, you will be issued a new warrant certificate for the remaining amount of warrants.

PLAN OF DISTRIBUTION

We may sell the securities:

to or through underwriters or dealers for resale;

through agents; or

directly to other purchasers.

The related prospectus supplement will set forth the terms of the offering of the securities, including the following:

the name or names of any underwriters, dealers, or agents;

the purchase price and the proceeds we will receive from the sale;

any underwriting discounts or commissions and other items constituting underwriters' compensation; and

any initial public offering price and any discounts or concessions allowed or paid to dealers.

If underwriters are used in the sale, the securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The securities may be either offered to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. The obligations of the underwriters to purchase securities will be subject to conditions precedent, and the underwriters will be obligated to purchase all the securities of a series if any are purchased. Any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

Securities may be sold directly by us or through agents designated by us from time to time. Any agent involved in the offer or sale of the securities in respect of which this prospectus is delivered will be named, and any commissions payable by us to that agent will be set forth in the related prospectus supplement. Unless otherwise indicated in the related prospectus supplement, any agent will be acting on a best efforts basis for the period of its appointment.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement so indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and will be identified in the applicable prospectus supplement.

Each series of debt securities, preferred stock or warrants will be a new issue of securities with no established trading market. Underwriters and agents may from time to time purchase and sell the securities described in this prospectus and the relevant prospectus supplement in the secondary market,

but are not obligated to do so. No assurance can be given that there will be a secondary market for the securities or liquidity in the secondary market if one develops. From time to time, underwriters and dealers may make a market in the securities.

To facilitate the offering of the securities, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of these securities or any other securities the prices of which may be used to determine payments on these securities. Specifically, the underwriters may over-allot in connection with the offering, creating a short position in the securities for their own accounts. In addition, to cover over-allotments or to stabilize the price of the securities or of any other securities, the underwriters may bid for, and purchase, the securities or any other securities in the open market. Finally, in any offering of the securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the securities in the offering, if the syndicate repurchases previously distributed securities in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the securities above independent market levels. The underwriters are not required to engage in these activities, and may end any of these activities at any time.

Underwriters named in a prospectus supplement are, and dealers and agents named in a prospectus supplement may be, deemed to be "underwriters" within the meaning of the Securities Act of 1933, which we refer to as the Securities Act, in connection with the securities offered thereby, and any discounts or commissions they receive from us and any profit on their resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act.

Unless indicated in the applicable prospectus supplement, we do not expect to apply to list the debt securities, preferred stock or warrants on a securities exchange.

Agents and underwriters may be entitled to indemnification by us against civil liabilities arising out of this prospectus, including liabilities under the Securities Act, or to contribution with respect to payments which the agents or underwriters may be required to make relating to those liabilities.

Agents and underwriters may be engaged in transactions with, or perform commercial or investment banking or other services for us, our subsidiaries or affiliates, in the ordinary course of business.

We will estimate our expenses associated with any offering of debt securities, preferred stock, common stock or warrants in the prospectus supplement relating to such offering.

BOOK-ENTRY ISSUANCE AND GLOBAL SECURITIES

Unless otherwise specified in the applicable prospectus supplement, issues of debt securities will be book entry securities and will be cleared and settled through the Depository Trust Company, or DTC, a securities depository. Upon issuance, all book-entry securities of the same issue will be represented by one or more fully registered global securities. Each global security will be deposited with, or on behalf of, DTC and will be registered in the name of DTC or a nominee of DTC. DTC will thus be the only registered holder of these securities and will be considered the sole owner of the securities.

Purchasers may only hold interests in the global securities through DTC if they are participants in the DTC system. Purchasers may also hold interests through a securities intermediary a bank, brokerage house or other institution that maintains securities accounts for customers that has an account with DTC or its nominee. DTC will maintain accounts showing the securities holdings of its participants, and these participants will in turn maintain accounts showing the securities holdings of their customers. Some of these customers may themselves be securities intermediaries holding securities for their customers. Thus, each beneficial owner of a book-entry security will hold that security directly

through a hierarchy of intermediaries, with DTC at the top and the beneficial owner's own securities intermediary at the bottom.

The securities of each beneficial owner of a book-entry security will be evidenced solely by entries on the books of the beneficial owner's securities intermediary. The actual purchaser of the securities will generally not be entitled to have the securities represented by the global securities registered in its name and will not be considered the owner. In most cases, a beneficial owner will also not be able to obtain a paper certificate evidencing the holder's ownership of securities. The book-entry system for holding securities eliminates the need for physical movement of certificates. The laws of some jurisdictions require some purchasers of securities to take physical delivery of their securities in definitive or paper form. These laws may impair the ability to transfer book-entry securities.

Unless otherwise specified in the prospectus supplement with respect to a series of debt securities, beneficial owners of book-entry securities represented by a global security may exchange the securities for definitive or paper securities only if:

DTC is unwilling or unable to continue as a depository for such global security and Caterpillar is unable to find a qualified replacement for DTC within 90 days;

At any time, DTC ceases to be a "clearing agency" registered under the Securities Act of 1934;

Caterpillar, in its sole discretion, decides to allow some or all book-entry securities to be exchangeable for definitive or paper securities in registered form; or

For debt securities, there is a continuing Event of Default as further described in the "Description of Debt Securities" starting on page 7.

Any global security that is exchangeable will be exchangeable in whole for definitive securities in registered form with the same terms, and in the case of debt securities, in an equal aggregate principal amount in denominations of \$1,000 and whole multiples of \$1,000. Definitive securities will be registered in the name or names of the person or persons specified by DTC in a written instruction to the registrar of the securities. DTC may base its written instruction upon directions it receives from its participants.

In this prospectus and the accompanying prospectus supplement for book-entry securities, references to actions taken by security holders will mean actions taken by DTC upon instructions from its participants, and references to payments and notices of redemption to security holders will mean payments and notices of redemption to DTC as the registered holder of the securities for distribution to participants in accordance with DTC's procedures.

DTC is a limited purpose trust company organized under the laws of the State of New York, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered under Section 17A of the Securities Exchange Act. The rules applicable to DTC and its participants are on file with the SEC.

Caterpillar will not have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the book-entry securities or for maintaining, supervising or reviewing any records relating to the beneficial ownership interests.

Certain legal matters will be passed upon for Caterpillar by Joseph H. Currin, Esq., Corporate Counsel, Caterpillar Inc. Mr. Currin, along with members of his family, owns and has other interests in shares of common stock of Caterpillar.
