Dear Shareholder:

You are cordially invited to attend the 2013 Annual Meeting of Shareholders of The Dun & Bradstreet Corporation ("D&B") on Wednesday, May 8, 2013, at 8:00 a.m. at The Hilton Short Hills, 41 JFK Parkway, Short Hills, New Jersey.

The Notice of Annual Meeting and Proxy Statement accompanying this letter more fully describes the business to be acted upon at the meeting. Our Annual Report on Form 10-K for the year ended December 31, 2012 is also attached.

Pursuant to rules adopted by the U.S. Securities and Exchange Commission we are once again providing to our shareholders access to our proxy materials over the Internet. We continue to believe that this e-proxy process allows us to provide our shareholders with the information they need while lowering printing and mailing costs, reducing the environmental impact of our Annual Meeting and more efficiently complying with our obligations under the securities laws. On or about March 26, 2013, we mailed to our beneficial shareholders a Notice of Internet Availability of Proxy Materials containing instructions on how to access our 2013 Proxy Statement and Annual Report and vote online. Registered shareholders will be furnished a printed copy of the 2013 Proxy Statement and Annual Report by mail, unless they have opted for e-proxy access over the Internet.

Whether or not you plan to attend the meeting, your vote is important. In addition to voting in person, shareholders of record may vote via a toll-free telephone number or over the Internet. Shareholders who received a paper copy of the 2013 Proxy Statement and Annual Report by mail may also vote by completing, signing and mailing the enclosed proxy card promptly in the return envelope provided. If your shares are held in the name of a bank, broker or other holder of record, check your proxy card to see which of these options is available to you.

On behalf of our Board of Directors, thank you for your continued support of D&B.

Sincerely,

Sara Mathew
Chairman and Chief Executive Officer

PROXY STATEMENT

GENERAL INFORMATION

The Board of Directors of The Dun & Bradstreet Corporation ("D&B" or "we" or "our" or the "Company") is soliciting your proxy for use at the Annual Meeting of Shareholders to be held on May 8, 2013, or Annual Meeting. On or about March 26, 2013, we mailed to our beneficial holders a Notice of Internet Availability of Proxy Materials containing instructions on how to access the proxy materials on the Internet, and we mailed to our registered shareholders a printed copy of the proxy materials. Our principal executive offices are located at 103 JFK Parkway, Short Hills, New Jersey 07078-2708, and our main telephone number is 973-921-5500. D&B is listed on the New York Stock Exchange, or NYSE, with the ticker symbol DNB.

Notice of Internet Availability of Proxy Materials

In accordance with the notice and access rule adopted by the U.S. Securities and Exchange Commission, or SEC, we are making the proxy materials available to all of our shareholders on the Internet and our beneficial holders will receive a Notice of Internet Availability of Proxy Materials, or Notice, containing instructions on how to access our proxy materials and how to vote on the Internet and by telephone. We are mailing to our registered shareholders a printed copy of our proxy materials, unless they have opted to receive a Notice containing instructions on how to access our proxy materials and how to vote on the Internet and by telephone. If you received a Notice and would like to receive a printed copy of our proxy materials, free of charge, you should follow the instructions for requesting such materials included in the Notice.

Annual Meeting Admission

To attend the Annual Meeting, you will need an admission ticket or other evidence of stock ownership as of the record date, which is March 12, 2013. Only shareholders as of the record date will be entitled to attend the meeting.

Registered shareholders. If you are a registered shareholder and you plan to attend the Annual Meeting in person, please bring your admission ticket attached to the proxy card or other evidence of stock ownership as of the record date.

Beneficial holders. If your shares are held in the name of a bank, broker or other holder of record (in "street name") and you plan to attend the Annual Meeting in person, please bring your Notice or other evidence of stock ownership as of the record date. You may also obtain an admission ticket in advance of the meeting by sending a written request, along with evidence of stock ownership as of the record date, such as a bank or brokerage account statement, to our Corporate Secretary at the address of our principal executive offices noted above. Please make such requests at least two weeks in advance of the Annual Meeting so that we may be able to accommodate your request.

Who Can Vote

Only shareholders of record at the close of business on March 12, 2013 are eligible to vote at the meeting. As of the close of business on that date, there were 40,173,958 shares of our common stock outstanding.

Table of Contents

How to Vote

In addition to voting in person at the meeting, shareholders of record can vote by proxy by calling a toll-free telephone number, by using the Internet or, for shareholders who received a printed copy of the proxy materials, by mailing a completed and signed proxy card. The telephone and Internet voting procedures are designed to authenticate shareholders' identities, to allow shareholders to give their voting instructions and to confirm that shareholders' instructions have been recorded properly. Shareholders voting by telephone or the Internet should understand that there may be costs associated with voting in these manners, such as usage charges from telephone companies and Internet service providers, which must be borne by the shareholder.

A proxy card that is signed and returned by a shareholder of record without specifications marked in the instruction boxes will be voted in accordance with the recommendations of the Board of Directors, as outlined in this proxy statement. If any other proposals are properly brought before the meeting and submitted to a vote, all proxies will be voted on those other proposals in accordance with the judgment of the persons voting the proxies.

Specific voting instructions are set forth below and can also be found on the Notice and on the proxy card. If you received more than one Notice or proxy card, your shares are registered in more than one name or are registered in different accounts. Please follow the voting instructions included in each Notice and proxy card to ensure that all of your shares are voted.

Registered Shareholders

Vote by Telephone. Registered shareholders can vote by calling toll-free at 800-690-6903. Voice prompts allow you to vote your shares and confirm that your instructions have been properly recorded.

Vote on the Internet. Registered shareholders can vote on the Internet at the website www.proxyvote.com. As with telephone voting, you can confirm that your instructions have been properly recorded.

Vote by Mail. Registered shareholders can vote by mail by simply indicating your response on your proxy card, dating and signing it, and returning your proxy card in the postage-paid envelope provided. If the envelope is missing, please mail your completed proxy card to The Dun & Bradstreet Corporation, c/o Broadridge Financial Solutions, Inc., 51 Mercedes Way, Edgewood, New York 11717.

Beneficial Holders

If your shares are held in street name, the Notice mailed to you from the organization that is the record owner of your shares contains instructions on how to vote your shares. Beneficial holders that received a printed copy of the proxy materials may complete and mail the proxy card or may vote by telephone or over the Internet as instructed in the proxy card by the organization that is the record owner of your shares. For a beneficial holder to vote in person at the Annual Meeting, you must obtain a legal proxy from the record owner.

Revocation of Proxies

A shareholder of record may revoke a proxy at any time before the vote is taken at the Annual Meeting by sending written notice of the revocation to our Corporate Secretary at The Dun & Bradstreet Corporation, 103 JFK Parkway, Short Hills, New Jersey 07078-2708, by submitting another proxy that is properly signed and bears a later date, or by voting in person at the meeting. All properly executed proxies not revoked will be voted at the meeting in accordance with their instructions.

Voting Shares in the D&B Plans

If you are a current or former D&B employee who currently holds D&B shares in your name in the D&B Common Stock Fund of The Dun & Bradstreet Corporation 401(k) Plan, referred to as the 401(k) Plan, or a current or former Moody's Corporation employee who holds D&B shares in your name in the Moody's Corporation Profit Participation Plan, referred to as the PPP, you are entitled to give voting instructions for the shares held in your account. If you receive a printed copy of the proxy materials by mail, you will receive only one proxy card for all of the D&B shares you hold in the 401(k) Plan and PPP. Your proxy card will serve as a voting instruction card for the plans' trustees. However, most active D&B employees who have shares in the 401(k) Plan will receive an e-mail containing instructions on how to access our proxy materials and how to vote such shares on the Internet.

If you do not vote your shares or specify your voting instructions on your proxy card, the applicable plan's trustee will vote your shares in the same proportion as the shares for which voting instructions have been received from other participants of the 401(k) Plan and PPP, except as otherwise required by law. To allow sufficient time for voting by the trustee of each plan, your voting instructions must be received by the applicable trustee by May 3, 2013.

If you are a current or former D&B employee who currently holds D&B shares in the D&B Employee Stock Purchase Plan, or ESPP, you are considered a beneficial holder as described above and should follow the voting instructions provided in the Notice sent to you by the ESPP plan administrator.

List of Shareholders

The names of registered shareholders of record entitled to vote at the Annual Meeting will be available for inspection at the Annual Meeting and, for ten days prior to the meeting, at the office of our Corporate Secretary at The Dun & Bradstreet Corporation, 103 JFK Parkway, Short Hills, New Jersey 07078-2708.

Householding Information

We have adopted a procedure approved by the SEC called householding. Under this procedure, shareholders of record who have the same address and last name and do not participate in electronic delivery of proxy materials will receive only one copy of our Proxy Statement and Annual Report, unless one or more of the shareholders at that address notifies us that they wish to continue receiving individual copies. We believe this procedure provides greater convenience to our shareholders, saves money by reducing our printing and mailing costs, and reduces the environmental impact of our Annual Meeting.

If you and other shareholders of record with whom you share an address and last name currently receive multiple copies of our Proxy Statement and Annual Report and would like to participate in our householding program, please contact Broadridge Financial Solutions, or Broadridge, by calling toll-free at 800-542-1061, or by writing to Broadridge Financial Solutions, Inc., Householding Department, 51 Mercedes Way, Edgewood, New York 11717. Alternatively, if you participate in householding and wish to revoke your consent and receive separate copies of our Proxy Statement and Annual Report, please contact Broadridge, as described above.

A number of brokerage firms have instituted householding. If you hold your shares in street name, please contact your bank, broker or other holder of record to request information about householding.

Table of Contents

Proxy Solicitation

Our directors, officers and employees may solicit proxies on our behalf by communicating with shareholders personally or by telephone, facsimile, e-mail, mail or other forms of social media. We have also retained the firm of Morrow & Co., LLC, 470 West Ave., Stamford, Connecticut 06902, to assist in the solicitation of proxies for a fee estimated at \$8,500 plus expenses. We will pay all expenses related to such solicitations of proxies. D&B and Morrow & Co. will request banks and brokers to solicit proxies from their customers, where appropriate, and will reimburse them for reasonable out-of-pocket expenses.

Quorum and Voting Requirements

Our by-laws provide that a majority of the shares issued, outstanding and entitled to vote, whether present in person or represented by proxy, constitutes a quorum at meetings of shareholders. Abstentions and broker non-votes are counted for purposes of establishing a quorum. A broker non-vote occurs when a broker holding shares for a beneficial owner does not vote on a particular proposal because the broker has not received instructions from the beneficial owner and does not have discretionary voting power for that particular matter. Brokers are permitted by the NYSE to vote shares without instructions from beneficial owners on routine matters, which includes only Proposal No. 2 (ratification of the appointment of our independent registered public accounting firm for 2013), as discussed below.

This means that for all proposals except Proposal No. 2, brokers may not vote your shares in the absence of your specific instructions as to how to vote. Please return your proxy card so your vote can be counted.

Election of directors (Proposal No. 1) shall be determined by a majority of the voting power present in person or represented by proxy and entitled to vote on the matter. *For purposes of this proposal, a majority of the voting power present means that the number of shares voted "for" a director must exceed the number of shares voted "against" that director.* As a result, shares present in person at the meeting that are not voted for a nominee, shares present by proxy for which the shareholder has abstained from voting for a nominee and shares not voted for a nominee as a result of broker non-votes will not be counted as voting for or against that nominee's achievement of a majority. If a current director is not re-elected, the director shall offer to tender his or her resignation to the Board of Directors. The Board Affairs Committee will make a recommendation to the Board on whether to accept or reject the resignation, or whether other action should be taken. The Board will act on the Committee's recommendation and publicly disclose its decision and the rationale behind it within 90 days from the date of the certification of the election results. The director who tenders his or her resignation will not participate in the Board's decision.

Ratification of the appointment of our independent registered public accounting firm for 2013 (Proposal No. 2), advisory approval of our executive compensation (Say on Pay) (Proposal No. 3), and approval of amendments to our certificate of incorporation and by-laws to permit shareholders to act by written consent (Proposal No. 4), shall each be determined by the affirmative vote of the holders of a majority of the voting power present in person or represented by proxy at the meeting and entitled to vote on the applicable matter. As a result, shares present in person at the meeting that are not voted for any such matter, shares present by proxy for which the shareholder has abstained from voting for any such matter and broker non-votes with respect to Proposal Nos. 3 or 4, if any, with respect to any such matter will not be counted toward each such matter's achievement of a majority.

CORPORATE GOVERNANCE

Board of Directors

Our Board of Directors, or Board, currently consists of eight members, all of whom are independent except for our Chairman of the Board and Chief Executive Officer, or Chairman and CEO, Sara Mathew. The objective of our Board of Directors is to conduct our business activities so as to enhance shareholder value. Our Board of Directors believes that good corporate governance practices support successful business performance and thus the creation of shareholder value. To institutionalize the Board's view of governance, our Board has adopted Corporate Governance Principles. These principles, which were last reviewed in December 2012, cover Board composition and performance (*e.g.*, director independence, qualifications of directors, outside directorships and committee service, selection of director nominees, director orientation and continuing education), the relationship of the Board with senior management (*e.g.*, attendance of non-directors at Board meetings and Board access to senior leadership), Board meetings, Board committee review and management review.

The Board has four standing committees: the Audit Committee, the Board Affairs Committee, the Compensation & Benefits Committee and the Innovation & Technology Committee. Each Board committee has its own charter setting forth its purpose and responsibilities, including, where applicable, those required by the NYSE listing standards. Each of the committees and their charters are described in more detail below.

Our Corporate Governance Principles and the charters of each of our committees of the Board of Directors are available in the Investor Relations section of our website (<http://investor.dnb.com>) and are also available in print, without charge, to any shareholder upon request to our Corporate Secretary at The Dun & Bradstreet Corporation, 103 JFK Parkway, Short Hills, New Jersey 07078-2708.

Leadership Structure of the Board. Our Board is currently led by our Chairman and CEO, Sara Mathew. D&B's Board of Directors does not have a policy on whether the roles of Chairman of the Board and CEO should be separate; however, these positions have historically been held by the same person. The Board Affairs Committee of the Board of Directors regularly evaluates governance trends and issues, including leadership structure of the Board, and has concluded that having a single Chairman and CEO is appropriate for D&B.

Our Board believes that its leadership structure is effective in providing independent oversight of management, including with respect to one of the Board's primary functions enhancing shareholder value. The Chairman of the Board has neither a greater nor lesser vote on matters considered by the Board than any other director. All of our directors are bound by fiduciary obligations, imposed by law, to serve the best interests of our shareholders. Additionally, our Board believes that there are certain efficiencies inherent in having the CEO (who is the person responsible for the day-to-day operations and strategy of the Company) chair the Board of Directors, such as ensuring efficiency and clarity in decision making and ensuring key business issues are brought to the Board's attention.

Our Board of Directors acknowledges that independent Board leadership is important. Accordingly, the Company's Corporate Governance Principles provide for an independent Lead Director to be designated by the Board from time to time. Christopher J. Coughlin currently serves as our Lead Director.

The Lead Director (i) presides over the non-management executive sessions of the Board of Directors, (ii) collects feedback from the Board meetings and provides it to the CEO, (iii) may call a meeting of the non-management directors at any time, (iv) leads the annual CEO evaluation process,

Table of Contents

and (v) performs such other responsibilities as the Board may from time to time delegate to assist the Board in performing its responsibilities. The Lead Director is appointed to a term of three years, with no limit on the number of terms the Lead Director may serve, either in succession or in the aggregate. We believe a term of three years provides an opportunity, if appropriate in the discretion of the Board, for rotation of the Lead Director position among the directors. Mr. Coughlin has served as Lead Director since August 2010 and more information relating to Mr. Coughlin's role as Lead Director can be found under the "Board Meetings" section of this proxy statement.

In addition, our Board and committee composition promotes independence and protects against too much power being placed with the Chairman and CEO. All of the Board committees are comprised entirely of independent directors as determined under criteria established by the SEC and NYSE for the applicable committees and as set forth in our Corporate Governance Principles. As a result of this structure, independent directors oversee such critical matters as the integrity of the Company's financial statements, the compensation of executive management (including the CEO), the direction of the Company's innovation and technology strategy, the selection and evaluation of directors and the development and implementation of the Company's corporate governance policies and structures. In addition, seven of the eight members of our Board (with the exception of our Chairman and CEO) are independent under the foregoing standards. Our Board believes that its leadership structure enhances the Board's ability to provide insight and direction to management on important strategic initiatives and, at the same time, ensures that the appropriate level of independent oversight is applied to all Board decisions.

The Board's Role in Risk Oversight. The Board provides oversight of risk by directly reviewing strategic risks, as noted below, by delegating matters to, and using the expertise of, certain of its committees and by receiving reports from such committees. Specifically, the Board has delegated to the Audit Committee, the Board Affairs Committee, the Compensation & Benefits Committee, or C&BC, and the Innovation & Technology Committee, or I&TC, responsibilities related to risk oversight as described herein.

The Audit Committee oversees the Company's major financial risk exposures and the steps management has taken to monitor and control such exposures, including the Company's risk assessment and risk management policies. In addition, the Audit Committee oversees, and reviews with the internal auditors and management, the Company's enterprise risk management process, including the prioritization of the identified risks and management's mitigation plans. As part of the enterprise risk management process to identify and prioritize risks to the Company, management uses the framework set forth by the Committee of Sponsoring Organizations of the Treadway Commission, or COSO, which analyzes enterprise risks from the standpoint of a company's strategic, operational, compliance and financial reporting objectives. As noted above, strategic risks are discussed with and managed by the entire Board of Directors. The remaining categories of risk are overseen by the Audit Committee, the I&TC, the C&BC or the Board Affairs Committee, depending upon the nature of the risk.

Particular members of management report both internally and to the Audit Committee as follows:

The Leader of Internal Audit and Enterprise Risk Management reports both to the Chief Financial Officer and the Chairman of the Audit Committee. The Audit Committee reviews and discusses with the Leader of Internal Audit and Enterprise Risk Management the Company's internal system of audit and financial controls, internal audit plans, and the periodic report of audit activities.

The Principal Accounting Officer reports to the Chief Financial Officer and discusses financial controls with the Audit Committee in his capacity as leader of the Company's

Table of Contents

Sarbanes-Oxley controls. On a quarterly basis, the Principal Accounting Officer reviews progress on the testing and mitigation of any identified risks with the Audit Committee.

The Chief Compliance Officer reports to the General Counsel and provides updates (at least quarterly) to the Audit Committee on compliance risks and controls.

In addition, at least quarterly, the Audit Committee meets in private session separately with each of the Leader of Internal Audit and Enterprise Risk Management, the Principal Accounting Officer, the Chief Financial Officer, the Chief Compliance Officer and the Company's independent registered public accounting firm.

Periodically, the Board Affairs Committee may review the Company's policies and programs related to (i) political actions and legislative affairs, (ii) employee health and safety, (iii) equal employment opportunity, and (iv) charitable contributions.

The C&BC reviews with management the compensation policies and practices of the Company, including those applicable to non-executive officers, to determine the extent to which risks arising from the Company's compensation policies and practices are reasonably likely to have a material adverse effect on the Company. The compensation-related risk analysis considers the major components of compensation at the Company (base salary, cash incentives and equity-based compensation) and how each component may impact risk-taking activities by employees, including how the policies may engender activities that could impact the Company's brand and financial results. The analysis is prepared by management and reviewed and agreed upon by an interdisciplinary management team comprised of senior leaders from finance, internal audit and risk management, sales operations, legal, human resources and compensation. In addition, the Company's independent executive compensation consultant, Meridian Compensation Partners, as well as the Company's external legal counsel, reviewed and provided feedback on the analysis. Based on this analysis, the C&BC agreed with management that the risks arising from our compensation policies and practices are not reasonably likely to have a material adverse effect on the Company.

The I&TC reviews with management the commercial risks of the Company's technology infrastructure and platforms, including marketplace and financial risks and information technology security risks. For example, management reviews with the I&TC the progress of the implementation of our technology investments.

Each of the Audit Committee, Board Affairs Committee, C&BC and I&TC periodically reports to the Board of Directors on any such matters under review, as appropriate.

Independence of the Board and Committees

Our Corporate Governance Principles require that at least two-thirds of the Board meet the criteria for independence established by the NYSE and applicable laws. After considering all relevant facts and circumstances, our Board has determined that each of its members except, as noted above, Sara Mathew, our Chairman and CEO, is independent under the NYSE listing standards and applicable laws. Our Board has also determined that each member of each of the Audit Committee, the Board Affairs Committee, the C&BC and the I&TC is independent under the NYSE listing standards and applicable laws (although I&TC member independence is not required because it is not an NYSE-required committee).

Pursuant to NYSE rules, a director is not independent if the director is, or has been within the last three years, an employee of the Company. In addition, for a director to be considered independent,

Table of Contents

the Board must affirmatively determine that the director has no material relationship with us (either directly or indirectly, such as a partner, shareholder or officer of an organization that has a relationship with the Company). Our Corporate Governance Principles set forth categorical standards to assist the Board in determining what constitutes a material relationship with the Company. Generally, under these categorical standards, the following relationships are deemed *not* to be material:

the director is the beneficial owner of less than five percent of our outstanding equity interests;

the director is an officer or other employee of an entity, or his or her immediate family member is an executive officer (as defined in Section 303A.02 of the NYSE listing standards) of an entity that, in either case, has received payments from us for property or services or has made payments to us for property or services and the amount of such payments in each of the last three fiscal years is less than the greater of (i) \$1 million, or (ii) 2% of the entity's consolidated gross revenues (as such term is construed by the NYSE for purposes of Section 303A.02(b)(v));

the director is a director or officer of an entity that is indebted to us, or to which we are indebted, and the total amount of indebtedness is less than 2% of the total consolidated assets of such entity as of the end of the previous fiscal year;

the director, or any entity in which the director is an equity owner, director, officer or other employee, has obtained products or services from us on terms generally available to our customers for such products or services; or

the director is an officer, trustee, director or is otherwise affiliated with a tax-exempt organization and we made, within the preceding three fiscal years, contributions in any fiscal year that were less than the greater of (i) \$1 million, or (ii) 2% of the tax-exempt organization's consolidated gross revenues (as such term is construed by the NYSE for purposes of Section 303A.02(b)(v)), based upon the tax-exempt organization's latest publicly available information.

The Board retains the sole right to interpret and apply the foregoing standards in determining the materiality of any relationship. Also, in determining the independence of our directors, the Board considers the tenure of each director.

Board Meetings

Our Board held eight meetings in 2012, with no director attending fewer than 75% of the aggregate number of meetings of the Board and of the committees of the Board on which he or she served.

The Chairman of the Board drafts the agenda for each Board meeting and distributes it to the Board in advance of each meeting. Each Board member is encouraged to suggest items for inclusion on the agenda.

Information and data that are important to the Board's understanding of the business and of scheduled agenda items are distributed sufficiently in advance of each Board meeting to give the directors a reasonable opportunity for review. Generally, directors receive Board materials no fewer than three days in advance of a meeting.

Table of Contents

Our non-management directors meet in regularly scheduled executive sessions without members of management. Our Lead Director, Christopher J. Coughlin, presides over executive sessions of the Board. In the event of Mr. Coughlin's absence from any executive session, the Chairman of the Board will designate a substitute Lead Director. Mr. Coughlin has served as the Lead Director since August 2010. The non-management directors held six executive sessions of the Board in 2012. More information relating to Mr. Coughlin's responsibilities as Lead Director can be found under the "Leadership Structure of the Board" section of this proxy statement.

Committee Chairman

The Audit Committee. Under the terms of its charter, the Audit Committee's primary function is to appoint annually the independent registered public accounting firm and to assist the Board in the oversight of: (1) the integrity of our financial statements, (2) the independent registered public accounting firm's qualifications and independence, (3) the performance of our internal audit function and independent registered public accounting firm, and (4) our compliance with legal and regulatory requirements. A copy of the Audit Committee's charter can be found in the Investor Relations section of our website (<http://investor.dnb.com>). The Report of the Audit Committee can be found under the "Audit Committee Information" section of this proxy statement.

Our Board has reviewed the qualifications and experience of each of the Audit Committee members and determined that all members of the Audit Committee are "financially literate" as required by the NYSE listing standards.

Our Board has also determined that James N. Fernandez qualifies as an "audit committee financial expert" as that term has been defined by the rules of the SEC and has "accounting or related financial management expertise" within the meaning of the NYSE listing standards.

The Board Affairs Committee. Under the terms of its charter, the Board Affairs Committee's primary responsibilities include: (1) identifying individuals qualified to become Board members, (2) recommending candidates to fill Board vacancies and newly created director positions, (3) recommending whether incumbent directors should be nominated for reelection to the Board upon expiration of their terms, (4) developing and recommending to the Board a set of corporate governance principles applicable to the Board, and (5) overseeing the evaluation of the Board. A copy of the Board Affairs Committee charter can be found in the Investor Relations section of our website (<http://investor.dnb.com>).

Table of Contents

In accordance with our Corporate Governance Principles and the Board Affairs Committee charter, the Board Affairs Committee oversees the entire process of selection and nomination of Board nominees, including screening candidates for directorships in accordance with the Board-approved criteria described below. The Committee, with input from the Chairman of the Board, will identify individuals believed to be qualified to become Board members. The Committee solicits candidates from its current directors and, if deemed appropriate, retains for a fee, one or more third party search firms to identify and help evaluate candidates. The Committee will recommend candidates to the Board to fill new or vacant positions based on such factors as it deems appropriate, including independence, potential conflicts of interest (including any affiliation with an entity that competes or appears to compete with the Company), professional experience, personal character, integrity, diversity, outside commitments (e.g., service on other Boards) and particular areas of expertise all within the context of the needs of the Board. The Committee does not use a formula for these factors, including diversity, but instead applies its judgment based on the needs of the Company.

The Board Affairs Committee will also consider director nominees recommended by our shareholders. Any shareholder wishing to propose a future nominee for consideration by the Board Affairs Committee may nominate persons for election to the Board of Directors if such shareholder complies with the notice procedures set forth in our by-laws and summarized under the "Shareholder Proposals for the 2014 Annual Meeting" section of this proxy statement. The Committee uses the same criteria described above to evaluate nominees recommended by our shareholders.

No individuals were proposed for nomination by any shareholders in connection with this proxy statement or the 2013 Annual Meeting of Shareholders.

The Compensation & Benefits Committee. Under the terms of its charter, the primary function of the C&BC is to discharge the Board's responsibilities relating to compensation of our Chairman and CEO and our other executive officers. Among other things, the C&BC: (1) evaluates the CEO's performance and reviews with the CEO the performance of other executive officers, (2) establishes and administers our policies, programs and procedures for compensating our executive officers, (3) has oversight responsibility for the administration of our employee benefit plans, (4) oversees the evaluation of management, including CEO succession planning and management development, and (5) reviews the non-employee director compensation program, recommending any changes to the Board of Directors for approval. The C&BC may, in its discretion, delegate all or a portion of its duties and responsibilities to a subcommittee or, to the extent otherwise permitted by applicable plans (including employee benefits plans subject to ERISA), laws or regulations (including NYSE listing standards), to any other body, individual or management. A copy of the C&BC charter can be found in the Investor Relations section of our website (<http://investor.dnb.com>).

The C&BC has appointed the following committees comprised of employees of the Company to perform certain settlor, fiduciary and administrative responsibilities for our employee benefit plans:

The Plan Benefits Committee, which severally with the C&BC has settlor powers with respect to employee benefit plan design changes, except that the Plan Benefits Committee cannot take any action with respect to an employee benefit plan or create or terminate an employee benefit plan if it would result in an annual financial impact to the Company of greater than \$1 million. In addition, the Plan Benefits Committee does not have any fiduciary responsibilities, which are solely within the province of the Qualified Plan Investment Committee and the Plan Administration Committee;

The Qualified Plan Investment Committee, which severally with the C&BC has certain fiduciary and administrative powers under the employee benefit plans with respect to the plans' investments and the financial performance of the plans' assets; and

The Plan Administration Committee, which severally with the C&BC has fiduciary and administrative powers under the employee benefit plans to implement and maintain the administrative and claims procedures for the plans.

The C&BC has also delegated to our CEO the authority to make limited grants under our equity compensation plans to non-executive officers. A detailed description of our processes and procedures for the determination of compensation for our executive officers and directors, including the role of the C&BC, our independent compensation consultant and our Chairman and CEO in determining or recommending the amount or form of compensation, is included in the "Compensation Discussion & Analysis" section of this proxy statement.

The C&BC has retained the services of an independent compensation consultant. The mandate to the consultant is to work for the C&BC in connection with its review of executive and non-employee director compensation practices, including the competitiveness of executive pay levels, executive incentive design issues, market trends in executive compensation and technical considerations. The nature and scope of services rendered by the consultant on the C&BC's behalf is described below:

Competitive market pay analyses for executive positions, non-employee director pay studies, proxy data studies, dilution analyses, and market trends in executive and non-employee director compensation;

Pay for performance analyses and commentary on risk in the Company's executive pay programs;

Ongoing support with regard to the latest relevant regulatory, governance, technical, and/or financial considerations impacting executive compensation and benefit programs;

Assistance with the design of executive compensation or benefit programs, as needed; and

Preparation for and attendance at C&BC and selected management or Board meetings.

The C&BC's independent executive compensation consultant is Meridian Compensation Partners, or Meridian. Meridian's services to the Company are limited exclusively to advising the C&BC with respect to executive officer and director compensation. The C&BC reviews and evaluates the independence of its consultant each year and has the final authority to hire and terminate the consultant. In considering Meridian's independence, the C&BC reviewed numerous factors relating to Meridian and the individuals actually providing services to D&B, including those required by the SEC and the NYSE. Based on a review of these factors, the C&BC has determined that (i) Meridian is independent and (ii) Meridian's engagement presents no conflicts of interest.

The Innovation & Technology Committee. Under the terms of its charter, the primary function of the I&TC is to review our approach to information technology and innovation, including: (1) the information technology platforms required to enable customer centric innovation, cost effective organic growth and competitive advantage with respect to M&A opportunities, (2) the process and approach required to drive product innovation such as customer research, design and product development to enable customer success, (3) advising the innovation and technology senior management team as may be needed in connection with the Committee's duties and responsibilities outlined above, and (4) assisting the Board of Directors in fulfilling its oversight responsibilities regarding the Company's information technology and innovation. In addition, the I&TC reviews with management the

commercial risks of the Company's technology infrastructure and platforms, including marketplace and financial risks and information technology security risks. The I&TC may also delegate all or a portion of its duties and responsibilities to a subcommittee or, to the extent otherwise permitted by applicable laws or regulations, to any other body, individual or management. A copy of the I&TC charter can be found in the Investor Relations section of our website (<http://investor.dnb.com>).

Communications with the Board and Audit Committee

We have a process in place that permits shareholders and other interested persons to communicate with our Board of Directors through its Lead Director, Christopher J. Coughlin, and with the Audit Committee through its Chairman, James N. Fernandez. To report complaints about our accounting, internal accounting controls or auditing matters, shareholders and other interested persons should write to the D&B Audit Committee Chairman, care of our third party compliance vendor, at: AlertLine, NAVEX Global, Inc., 13950 Ballantyne Corporate Place, Suite 300, Charlotte, North Carolina 28277. To report all other concerns to the non-management directors, shareholders and other interested persons should write to the Lead Director of the D&B Board, care of AlertLine, NAVEX Global, Inc., at the address noted above. Communications that are not specifically addressed will be provided to the Lead Director of our Board. Concerns can be reported anonymously by not including a name and/or contact information, or confidentially by marking the envelope containing the communication as "Confidential." All communications received by AlertLine will be sent first to our internal compliance officer, who will forward them on to the applicable director after review. The compliance officer will not forward non-substantive communications that are unrelated to the duties and responsibilities of the Board, such as: spam, business solicitations or advertisements, resumes, product related inquiries, junk mail or mass mailings, service complaints or inquiries, personal grievances, any threatening or hostile communications or similarly unsuitable communications. As appropriate, such items may be redirected to internal management for investigation, resolution and/or response. These instructions can also be found in the Corporate Governance information maintained in the Investor Relations section of our website (<http://investor.dnb.com>).

Attendance at Annual Meetings

We expect directors to be available to attend our Annual Meeting. All but two of our directors attended our 2012 Annual Meeting of Shareholders, due to scheduling conflicts.

Service on Multiple Audit Committees

Our Corporate Governance Principles prohibit our Audit Committee members from serving as members of more than two other public company audit committees without the Board's approval. Any determination by the Board approving of service on more than two other public company audit committees will be disclosed in our annual proxy statement. No Audit Committee member currently serves on more than one other audit committee of a public company.

Related Persons Transactions and Approval Policy

Our Board of Directors recognizes that related persons transactions present a heightened risk of conflicts of interest and therefore has adopted a written policy to be followed in connection with all related persons transactions involving D&B.

Under this policy, the Board has delegated to the Board Affairs Committee the responsibility for reviewing certain related persons transactions in excess of \$120,000, in which the related person may have a direct or indirect interest. The Board has empowered the Corporate Secretary to review all related persons transactions in excess of \$120,000. Our Corporate Secretary will refer to the Board

Table of Contents

Affairs Committee those transactions in which the related person may have a direct or indirect material interest. For purposes of this policy, a transaction includes, but is not limited to, any financial transaction, arrangement or relationship (including any guarantee of indebtedness) or any series of similar transactions, arrangements or relationships.

In approving related persons transactions, the Board Affairs Committee shall determine whether each related persons transaction referred to the Committee was the product of fair dealing and whether it was fair to D&B.

Under this policy, we review our records and inquire of our directors and executive officers to identify any person who may be considered a related person. Using this information, we search our books and records for any related persons transactions that involved amounts, individually or in the aggregate, that exceed \$120,000.

In December 2011 and February 2012 we entered into consulting agreements with Caribou Technology Consulting, LLC, or Caribou, pursuant to which Caribou provided consulting services for the development and deployment of certain of our strategic technology investments. Mr. Bruce Sink, who became our Senior Vice President, Technology and Chief Information Officer effective October 22, 2012, is the founder and sole owner of Caribou. D&B engaged Caribou based upon Mr. Sink's proven global expertise in large-scale IT systems architecture, strategy and development. In addition, Mr. Sink's leadership skills in managing large, high-performing teams on projects having a track record of consistent 99.999% systems availability was important to our technology buildout. We paid Caribou approximately \$815,000 for such services performed in 2012. All work by Caribou under the consulting agreements terminated when Mr. Sink became an executive officer of the Company and the agreements with Caribou have been terminated.

Promoters and Control Persons

There are no reportable transactions pursuant to this requirement.

Compensation Committee Interlocks and Insider Participation

None of the members of our C&BC are, or have been, an employee or officer of D&B. During fiscal year 2012, no member of our C&BC had any relationship with D&B requiring disclosure under Item 404 of Regulation S-K, the SEC rule regarding disclosure of related persons transactions. During fiscal year 2012, none of our executive officers served on the compensation committee or equivalent or board of directors of another entity whose executive officer(s) served as a director of D&B or as a member of our C&BC.

Code of Conduct

We have adopted a Code of Conduct that applies to all of our directors, officers and employees (including our CEO, Chief Financial Officer and Principal Accounting Officer) and have posted the Code of Conduct in the Investor Relations section of our website (<http://investor.dnb.com>). We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K, if any, relating to amendments to or waivers from any provision of our Code of Conduct applicable to our CEO, Chief Financial Officer and Principal Accounting Officer by posting this information on our website.

Our Code of Conduct is also available in print, without charge, to any shareholder upon request to our Corporate Secretary at The Dun & Bradstreet Corporation, 103 JFK Parkway, Short Hills, New Jersey 07078-2708.

COMPENSATION OF DIRECTORS

Overview of Non-employee Director Compensation

For 2012, our non-employee directors' total compensation program consisted of both cash and equity-based compensation awards as follows:

Annual cash retainer of \$70,000;

Additional annual cash retainer for the Lead Director and each Committee Chairman of \$20,000; and

Annual grant of restricted stock units, or RSUs, with a value of approximately \$120,000 that vest in full on the earlier of (i) the third anniversary of the date of grant or (ii) the separation of service from the Board of Directors for any reason, and are payable in shares of our common stock upon vesting. The number of RSUs is based on the mean of the high and low trading prices of our common stock on the date of grant. Directors receive dividend equivalents with respect to the RSUs prior to settlement.

Cash compensation was paid in semi-annual installments on the first business day in March and July of 2012. No separate fees are paid for attendance at Board or Committee meetings. The RSU grant is made at the beginning of the year, typically early February, five business days after the release of the Company's year-end earnings statement.

In addition, non-employee directors may elect to defer all or a portion of their annual cash retainer and/or Lead Director/Committee Chairman cash retainer into our non-employee directors' deferred compensation plan. Directors who defer their cash retainers into the D&B Common Stock Fund under the plan receive a 10% premium payment credited to their account. This premium vests in three years provided that the director does not transfer the underlying deferred amounts out of the stock fund prior to vesting. RSU awards may also be voluntarily deferred into our non-employee directors' deferred compensation plan. RSUs are credited with dividend equivalents while deferred.

Upon joining the Board, each new non-employee director receives a one-time stock option grant with a grant value of approximately \$35,000. The number of options is based on a modified Black-Scholes methodology. These stock options vest in full one year from the date of grant. In addition, each new non-employee director receives a pro rata allocation of the other components of the total compensation program as described above.

In 2012, exclusive of the 10% premium, the total compensation paid to each of our non-employee directors was approximately \$190,000. Each non-employee director who served as a Committee Chairman, as well as our Lead Director, received an additional \$20,000. In 2012, about 60% of the total direct compensation for each non-employee director was paid in the form of equity (exclusive of the 10% premium). This ratio ensures that the interests of our directors are aligned with those of our shareholders and underscores the Board's commitment that its non-employee directors have a significant stake in the success of D&B.

Non-employee directors are also provided with the following benefits:

Reimbursement for reasonable Company-related travel;

Director continuing education and other expenses;

Travel accident insurance when traveling on Company business;

Table of Contents

Personal liability insurance; and

Participation in our charitable matching gift program of up to \$4,000 per calendar year.

Only non-employee directors receive compensation for serving on the Board. A director who is also an employee of the Company receives no additional compensation for serving as a director.

Stock Ownership Guidelines

Non-employee directors are required to hold at least 50% of all equity obtained through the non-employee director compensation program throughout their tenure as directors of D&B, including net shares acquired upon the exercise of stock options. These guidelines further align the interests of directors and shareholders.

The following table summarizes the compensation paid to our non-employee directors in 2012:

Non-employee Director Compensation Table

- (1) In addition to the \$70,000 annual cash retainer for each non-employee director except Ms. Seligman and Messrs. Garcia and Quinlan, the following non-employee directors earned additional fees for serving as the Lead Director or a Committee Chairman: Mr. Coughlin \$32,912 (for serving as Lead Director and for serving pro rata as Chairman of the Board Affairs Committee); Mr. Alden \$20,000 (for serving pro rata as Chairman of the Board Affairs Committee and pro rata as Chairman of the C&BC); Mr. Fernandez \$20,000 (for serving as Chairman of the Audit Committee); Ms. Peterson \$20,000 (for serving as Chairman of the I&TC); and Mr. Quinlan \$7,143 (for serving pro rata as Chairman of the C&BC). Ms. Seligman and Mr. Quinlan received a pro rata annual cash retainer since both completed their service with our Board on May 9, 2012. Mr. Garcia received a pro rata annual cash retainer because he joined our Board on May 9, 2012.
- (2) Amounts shown represent the aggregate grant date fair value. For more information on how we value stock-based awards for directors, which is similar to our valuation for our employees (including all assumptions made in such valuation), refer to "Note 11. Employee Stock Plans" in the "Notes to Consolidated Financial Statements" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012.
- (3) With the exception of Ms. Seligman and Mr. Garcia, each non-employee director was granted 1,517 RSUs on February 13, 2012. Ms. Seligman was granted a pro rata number of RSUs (539) since she was completing her service with our Board on May 9, 2012. As previously announced in our 2012 Proxy Statement, Ms. Seligman reached the recommended retirement age of 72 in 2011 as set forth in our Corporate Governance Principles. However, Ms. Seligman was asked to stay on an additional year given her ongoing advice and guidance in the technology area. Mr. Garcia was granted a pro rata number of RSUs (1,224) in conjunction with his appointment to our Board of Directors on May 9, 2012.

Edgar Filing: DUN & BRADSTREET CORP/NW - Form DEF 14A

The per share grant date fair value is equal to the mean of the high and low trading prices of D&B stock on the NYSE as of the date of grant. On February 13, 2012, the per share grant date fair value was \$79.11. Therefore, excluding dividend

equivalent units, the total full fair value for RSUs granted to each non-employee director in 2012, with the exception of Ms. Seligman, was approximately \$120,000. Ms. Seligman's pro rata grant on February 13, 2012 was valued at approximately \$42,600. On May 9, 2012, the per share grant date fair value was \$63.44. Therefore, the total fair value for RSUs granted to Mr. Garcia in 2012 was approximately \$77,600. These RSUs vest in full on the third anniversary of the date of grant or at the director's termination of service, whichever is earlier.

In addition, the following non-employee directors were granted the number of shares as noted in 2012 or later, reflecting payment of dividend equivalent units with respect to RSUs whose restrictions had lapsed in 2012, as follows:

Director	Date	Number of Shares
John W. Alden	2/4/2012	87
Douglas A. Kehring	8/7/2012	29
Michael R. Quinlan	5/9/2012	1,334
Naomi O. Seligman	5/9/2012	380

Dividend equivalent units vest in full when the restrictions on the corresponding RSUs lapse. The annual equity grants were reviewed by the C&BC and were made five business days after our annual earnings release. The value of the dividend equivalent units paid with respect to RSUs is reported in the All Other Compensation column. The amount for each non-employee director represents the value of all dividend equivalent units credited in 2012.

- (4) On May 9, 2012, we granted Mr. Garcia 1,788 stock options with an exercise price of \$63.44, which was equal to the fair market value of our common stock on that date, as computed in accordance with FASB ASC Topic 718 (*i.e.*, the mean of the high and low trading prices). This grant of stock options to Mr. Garcia was in recognition of his appointment to our Board as a non-employee director. The stock options vest in full on the first anniversary of the date of grant. Stock options not yet vested terminate upon the director's termination of service, except that if the director's service terminates by reason of death, disability or retirement before the first anniversary, a pro rata portion of such stock options vest. The stock options expire on May 9, 2022.
- (5) Three non-employee directors elected to defer all or a portion of their 2012 cash retainers into the D&B Common Stock Fund under our non-employee directors' deferred compensation plan. The directors received a 10% premium on such deferred amounts. The 10% premiums are credited as additional deferrals under the D&B Common Stock Fund and vest on the third anniversary of the deferral; provided that none of the related deferred amounts are removed from the fund prior to this time. For the non-employee directors who elected to defer amounts into the D&B Common Stock Fund, the 10% premium was: Mr. Coughlin \$10,291, Mr. Fernandez \$9,000 and Mr. Quinlan \$3,214.
- (6) In addition, amounts shown for Messrs. Adams, Coughlin, Fernandez and Garcia include matching gifts of \$4,000 each, made pursuant to the D&B Corporate Giving Program available to all of our employees and directors.
- (7) The amounts shown also include the value of all dividend equivalent units credited in 2012 or later. In 2012, the Company paid a quarterly dividend of \$0.38 per share. The value of all dividend equivalent units equals the number of RSUs as of the record date multiplied by the quarterly dividend. The resulting value is then divided by the fair market value of our common stock on the dividend payment date to arrive at the number of dividend equivalent units to be credited. In 2012, the total value of all dividend equivalent units credited to our non-employee directors was as follows:

Name	Value of RSU Dividend Credit (\$)
Christopher J. Coughlin (<i>Lead Director</i>)	15,758
Austin A. Adams	11,565

AUDIT COMMITTEE INFORMATION

Report of the Audit Committee

The Board of Directors has determined that each member of the Audit Committee is "independent" within the meaning of the SEC regulations and the NYSE listing standards. The Audit Committee selects our independent registered public accounting firm. Management has the primary responsibility for our financial reporting process, including our system of internal controls, and for the preparation of consolidated financial statements in compliance with generally accepted accounting principles, applicable laws and regulations. Our independent registered public accounting firm is responsible for performing an independent audit of the financial statements in accordance with the standards of the Public Company Accounting Oversight Board and expressing an opinion as to the conformity of such financial statements with generally accepted accounting principles, or GAAP, in the United States and the effectiveness of internal control over financial reporting. It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures.

Management has represented to the Audit Committee that our financial statements were prepared in accordance with GAAP in the United States, and the Audit Committee has reviewed and discussed the financial statements with management and the independent registered public accounting firm in the course of performing its oversight role.

The Audit Committee has reviewed and discussed with management and our independent registered public accountant, PricewaterhouseCoopers LLP, the Company's Annual Report on Form 10-K, which includes the Company's audited consolidated financial statements for the year ended December 31, 2012.

The Audit Committee has discussed with PricewaterhouseCoopers LLP, the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1. AU Section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

In addition, the Audit Committee has received and reviewed the written disclosures and the letter from PricewaterhouseCoopers LLP, required by the applicable requirements of the Public Company Accounting Oversight Board regarding PricewaterhouseCoopers LLP's communications with the Audit Committee concerning independence, and has discussed with PricewaterhouseCoopers LLP their independence from the Company and management.

The Audit Committee met regularly with the Leader of Internal Audit and Enterprise Risk Management, Principal Accounting Officer, Chief Financial Officer, Chief Compliance Officer and the independent registered public accounting firm, with and without management present, to discuss the results of their examinations, their evaluations of our internal controls, and the overall quality of our financial reporting.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in this proxy statement and in our Annual Report on Form 10-K for the year ended December 31, 2012 for filing with the SEC.

PROPOSAL NO. 2

**RATIFICATION OF APPOINTMENT OF
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2013**

The Audit Committee has appointed PricewaterhouseCoopers LLP as our independent registered public accounting firm to audit the consolidated financial statements for the year ending December 31, 2013. Although shareholder approval of this appointment is not required, the Audit Committee and the Board of Directors believe that submitting the appointment to the shareholders for ratification is a matter of good corporate governance. If the shareholders do not ratify the appointment, the Audit Committee will review its future selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm in light of the shareholder vote, but still may retain them. Even if the appointment is ratified, the Audit Committee, at its discretion, may change the appointment at any time during the year if it determines that such a change would be in the best interests of D&B and our shareholders.

PricewaterhouseCoopers LLP acted as our independent registered public accounting firm for the 2012 fiscal year. In addition to its audit of our consolidated financial statements, PricewaterhouseCoopers LLP also performed statutory audits required by certain international jurisdictions, audited the financial statements of our various benefit plans, and performed certain non-audit services. Fees for these services are described under the "Fees Paid to Independent Registered Public Accounting Firm" section of this proxy statement.

A representative of PricewaterhouseCoopers LLP is expected to be present at the 2013 Annual Meeting of Shareholders. Such representative will have the opportunity to make a statement, if he or she so desires, and is expected to be available to respond to questions.

PROPOSAL NO. 3

ADVISORY APPROVAL OF THE COMPANY'S EXECUTIVE COMPENSATION (SAY ON PAY)

We believe that our executive compensation program, policies and procedures are founded on pay for performance and are strongly aligned with the long-term interests of our shareholders. This proposal, commonly known as "Say on Pay," gives shareholders the opportunity to express their favor or disfavor with the Company's executive compensation program, policies and procedures.

Our executive compensation program is described more fully in the "Compensation Discussion & Analysis" section of this proxy statement and the related tables and narrative that follow it. Shareholders are, therefore, encouraged to read that information in its entirety to obtain a complete understanding of our executive compensation program.

We believe that the design, development and execution of our pay program, policies and procedures has resulted in executive compensation decisions that are appropriate and that have benefitted the Company and shareholders over time. As noted in the "Compensation Discussion & Analysis" section of this proxy statement, our executive pay levels have generally aligned well based on relative performance when measured against our compensation comparison group.

Response to 2012 "Say on Pay" Vote and Shareholder Outreach

At our 2012 Annual Meeting, our advisory vote on executive pay passed by a vote of 64%, significantly lower than the vote received in 2011. The vote outcome was disappointing, especially since our executive pay program remained substantially the same in 2012.

In 2012, we broadened our shareholder outreach effort to gain a better understanding of how our executive pay programs and practices might be improved. Feedback from these discussions as well as emerging governance trends formed the basis of several changes to our executive pay program which we adopted effective January 1, 2013 (unless otherwise noted):

New Long-term Incentive Plan for 2013: We revised the vehicles, metrics and timeframe of our long-term incentive plan, so that all equity awards will be performance-based:

Stock options have been replaced by leveraged restricted stock units (LRSUs) that are performance-based, with payouts ranging from 0% to 200% of the target grant over 1-, 2- and 3-year periods.

The 1-year performance-based RSU opportunity has been replaced with a 3-year performance unit plan based on our total shareholder return, or TSR⁽¹⁾, relative to the S&P 500 and revenue growth.

Revised Peer Group in 2012: We reconfigured our peer group by lowering the maximum revenue for company inclusion to \$5 billion, eliminating some of the larger companies previously included.

Introduced New "Clawback" Policy: We implemented a new "clawback" policy that enables the C&BC to recover or reduce excess cash and equity incentive compensation under certain circumstances. Our Incentive Compensation Recoupment Policy, or clawback policy, is available in the Investor Relations section of our website (<http://investor.dnb.com>) and is filed as an Exhibit to our Annual Report on Form 10-K for the year ended December 31, 2012.

(1) Total shareholder return over a specified period is defined as the net stock price change plus the value of dividends reinvested in the month they are paid.

Table of Contents

Revised Future Change in Control Equity Vesting from a "Single Trigger" to "Double Trigger" Requirement

Reduced Cash Severance for New Executive Officers following Change in Control: We reduced our change in control benefits for new executive officers from three to two times annual base salary and target bonus.

Ongoing Pay for Performance Policies and Good Governance Practices

Other important and ongoing features of our current executive compensation program that contribute to pay for performance and good governance practices include the following:

Our pay mix is heavily weighted toward variable compensation;

Our equity value must be earned based on performance;

We require our executives to maintain a significant level of ownership in the Company;

We do not offer our executive officers any perquisites;

We do not provide employment agreements;

We eliminated the supplemental executive retirement benefit for new executives in 2011;

We eliminated the excise tax payment and gross-up in the Company's change in control agreement for new executives in 2010;

We have an insider trading policy that prohibits hedging;

Our C&BC charter requires a periodic review of risks in our compensation program; and

The executive compensation consultant to the C&BC is independent.

For the reasons noted above and given the information provided elsewhere in this proxy statement, the Board of Directors asks you to approve the following resolution:

Resolved, that the shareholders approve the Company's overall executive compensation program, policies and procedures as described in the Compensation Discussion & Analysis, the tabular disclosure regarding named executive officer compensation, and the accompanying narrative disclosure in this proxy statement.

As this is a proposal for advisory approval, the result is not binding upon the Company. However, the C&BC, which is responsible for designing and administering the Company's executive compensation program, values the opinions expressed by shareholders in their vote on this proposal. The C&BC will consider the outcome of this advisory vote when making future compensation decisions for our executive officers.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE *FOR* APPROVAL OF OUR COMPANY'S OVERALL EXECUTIVE COMPENSATION PROGRAM, POLICIES AND PROCEDURES.

PROPOSAL NO. 4

APPROVAL OF AMENDMENTS TO THE COMPANY'S AMENDED AND RESTATED CERTIFICATE OF INCORPORATION, AS AMENDED, AND FOURTH AMENDED AND RESTATED BY-LAWS, AS AMENDED, TO PERMIT SHAREHOLDERS TO ACT BY WRITTEN CONSENT

The Company's Board of Directors has proposed, and recommends that shareholders approve at the Annual Meeting, amendments, or Amendments, to the Company's Amended and Restated Certificate of Incorporation, as amended, or Charter, and Fourth Amended and Restated By-Laws, as amended, or By-Laws, that would add a right permitting the holders of at least 40% of the Company's outstanding common stock to act by written consent. Currently, the Company's Charter and By-Laws do not permit shareholders to act by written consent. The Board, upon the recommendation of the Board Affairs Committee, has unanimously adopted resolutions approving the Amendments and recommending approval of the Amendments to our shareholders. The Amendments also include procedural requirements with which shareholders would be required to comply in order to act by written consent.

The Amendments to the Charter permit shareholders holding at least 40% of the voting power of the outstanding capital stock entitled to vote on an action the right to request that the Board set a record date for determining the shareholders entitled to vote by written consent on such action. The 40% threshold is consistent with the 40% threshold that must be met for our shareholders to call a special meeting, which our shareholders approved at last year's Annual Meeting. Additionally, certain other procedural requirements relating to the right to act by written consent are similar to the requirements for our shareholders to call special meetings. For example, as with the request to call a special meeting, the Board is not required to take action (in this case, set a record date) if: (i) the request is received during the period commencing 90 days prior to the first anniversary of the date of the immediately preceding annual meeting of shareholders and ending on the date of the next annual meeting; (ii) a similar item (as determined in good faith by the Board) was presented at a meeting of shareholders held not more than 120 days before the request is received; or (iii) the Board or the Chief Executive Officer has called or calls for an annual or special meeting of shareholders to be held within 90 days after the request is received and the business to be conducted at such meeting is a similar item. The Board believes that the procedures for acting by written consent and calling a special meeting should be as similar as possible, since the two serve the same purpose a process for shareholders to take action outside the annual meeting cycle and there should be no advantage to proceeding in one way versus the other.

The Board believes that providing the right to act by written consent is a valuable shareholder right and a good governance step for the Company to take. However, the Board also believes that the written consent process requires certain additional procedural safeguards to ensure that shareholders have the same opportunity to discuss the proposed action and listen to all viewpoints that they would have if action were taken at a special meeting, and to ensure complete fairness and transparency in the process for all shareholders. As such, the Amendments to the Charter include requirements that:

- (i) the Board set a record date within ten (10) business days following receipt of the notice to fix a record date;
- (ii) consents must be solicited in accordance with Regulation 14A of the Securities Exchange Act of 1934, which requires the public filing of a proxy statement by the shareholder proponent to inform all shareholders of the action; and
- (iii) consents may not be delivered to the Company until 50 days after the applicable record date, so that all shareholders are given time to fully consider and discuss the action before it

Table of Contents

becomes effective, as well as to provide the Board the opportunity to present its views regarding the proposal and, in appropriate cases, to pursue alternate options for action by the Company.

Attached to this proxy statement as Exhibits A and B, respectively, are the relevant sections of the Charter and By-Laws which reflect the Amendments. The general description above is qualified in its entirety by reference to the text of the Amendments in Exhibits A and B. If approved, the Amendments to the Charter will become effective upon the filing of a Certificate of Amendment to the Charter, or an Amended and Restated Charter reflecting such Amendments, with the Secretary of State of the State of Delaware. The Company would make such a filing promptly after approval of the Amendments by the shareholders at the Annual Meeting. The Amendments to the By-Laws will become effective when the Amendments to the Charter become effective.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE *FOR* APPROVAL OF AMENDMENTS TO THE COMPANY'S CHARTER AND BY-LAWS TO PERMIT SHAREHOLDERS TO ACT BY WRITTEN CONSENT.

Table of Contents**COMPENSATION DISCUSSION & ANALYSIS****Executive Summary**

The C&BC continuously reviews the executive compensation program of the Company to ensure that it is meeting its objectives, including: pay for performance, alignment with shareholder interests, offering a competitive level of pay to attract and retain executive talent, reinforcing the right behaviors consistent with our strategy and providing transparency to our shareholders.

Response to 2012 "Say on Pay" Vote and Shareholder Outreach

At our 2012 Annual Meeting, our advisory vote on executive pay passed by a vote of 64%. This result was a significant change from the 87% favorable vote received in 2011. The vote outcome was disappointing, especially since our executive pay program remained substantially the same in 2012 and incorporated a number of policies contributing to pay for performance and good governance practices.

In connection with the 2012 shareholder vote, we broadened our shareholder outreach effort by inviting more than 30 of our institutional investors, representing nearly two-thirds of our outstanding shares, to one-on-one discussions about our executive compensation program and policies. From the shareholders who accepted our invitation, we learned that there was general approval of our executive compensation program. However, several shareholders offered comments and suggestions about specific aspects of our executive pay programs and practices that might be improved. Feedback from these discussions was shared with the C&BC and formed the basis of changes in our executive pay program to strengthen pay for performance and shareholder alignment. As a result, we made the following changes to our executive compensation program effective January 1, 2013 (unless otherwise noted):

Component	2012 Executive Pay Program	What We Heard from Shareholders	Revised 2013 Executive Pay Program
Long-Term Incentives	Our annual equity grant included:		Effective January 1, 2013, 100% of the equity awarded will be performance-based:
	Stock options (50% of value). Vested pro rata over 4 years.	There was a strong preference for performance-based equity.	Replaced stock options with leveraged RSUs (50% of value). Final award will vary from 0% to 200% of target based on stock price movement over 1, 2 and 3 years.

Component	2012 Executive Pay Program	What We Heard from Shareholders	Revised 2013 Executive Pay Program
Equity Vesting Following Change in Control	Current equity awards allow for "single trigger" equity vesting upon a change in control.	No comments received.	In light of governance trends, equity awards made after January 1, 2013 will have a "double trigger," requiring both a change in control and a qualified termination in order to vest.
Change in Control Cash Severance Levels	Current benefits include three times salary and target bonus in the event of qualified termination following a change in control.	No comments received.	In light of governance trends regarding severance payments, new executive officers will be entitled to two times salary and target bonus in the event of qualified termination following a change in control.

In addition to the changes we are making to the Company's executive compensation program going forward, the existing program continues to include several features that contribute to pay for performance and good governance practices:

Summary of Policies Contributing to Pay for Performance

Our pay mix is heavily weighted toward variable compensation: 76% of our named executive officers' total compensation is variable or performance-based with 23% in the form of cash incentives and 53% in the form of equity or long-term incentives; only 24% is base salary.

Our equity value must be earned based on performance: In 2012, a performance-based RSU opportunity comprised 50% of the equity grant to five of our six named executive officers (for a description of our named executive officers, refer to the "Purpose" section of this Compensation Discussion & Analysis below). The actual number of RSUs earned was based on financial, strategy, customer and engagement goals. Further, to earn RSUs above target, a 3-year TSR goal must be met or exceeded. The other 50% of the 2012 equity grant to five of our six named executive officers included stock options which only have value if our stock price appreciates over time. For 2013, the pay for performance aspect of our equity program is further enhanced based on the long-term incentive changes described in the table above.

The total compensation of our named executive officers generally aligns well with our performance: Measured against our compensation comparison group, our total compensation generally aligns well with our operational performance.

We require our executives to maintain ownership in the Company: Our named executive officers, as well as other designated executives, must achieve targeted levels of ownership in our common stock to encourage a focus on long-term value creation.

Table of Contents

We do not offer our executive officers any perquisites: Our named executive officers do not receive any perquisites and participate in the same broad-based benefits programs offered by the Company on the same basis as other full-time team members.

We do not provide employment agreements: None of our named executive officers has an employment agreement, and severance benefits (excluding change in control benefits) are provided through the same severance plan available to other employees of the Company.

Summary of Policies Contributing to Good Governance Practice

We eliminated the supplemental executive retirement benefit for new executives: Effective January 1, 2011, the C&BC eliminated this benefit for all future executive new hires. Five of our six named executive officers continue to have this benefit due to prior commitments.

We eliminated the excise tax payment and gross-up in the Company's change in control agreement for new participants: Effective July 1, 2010, the C&BC eliminated the excise tax payment and gross-up for any new change in control agreements. As a result, four of our named executive officers do not have this provision. The new change in control plan, effective January 1, 2013 (as noted in the "Change in Control Benefits" section of this Compensation Discussion & Analysis below, and in the "Change in Control" section of this proxy statement), also does not provide this benefit.

We have an insider trading policy that prohibits hedging: Directors, officers and other team members of the Company are expressly prohibited from purchasing or selling D&B securities on a short-term basis (less than three months), purchasing any listed or over-the-counter options on our common stock or engaging in equivalent derivative transactions, engaging in the short sale of D&B securities, or borrowing against D&B securities.

Our C&BC charter requires a periodic review of risks in our compensation program: The C&BC conducted such a review in 2012 and concluded that the Company's compensation plans, programs and arrangements do not create risks that are reasonably likely to have a material adverse impact on the Company.

The executive compensation consultant to the C&BC is independent: The current advisor to the C&BC was hired by and reports directly to the C&BC and does not provide any other consulting services to the Company.

We manage our equity-based compensation program effectively: Our annualized run rate on equity grants is less than the median run rate of our compensation comparison group, we have a shareholder approved stock incentive plan that expressly prohibits stock option re-pricing and cash buyouts and we have never re-priced or exchanged options for shares, new options or cash.

Linking Pay and Performance

We continuously review and revise our executive pay program so that it delivers rewards that are aligned with important measures of company performance and shareholder returns. In our view, the best analysis of pay for performance is one that:

First, includes compensation that was actually paid or realizable over the performance period and not compensation that is based on accounting assumptions or theoretical financial valuations; and

Second, includes a multi-year performance period in which a company can demonstrate general alignment between levels of realizable pay and the performance levels achieved.

The analyses below meet these important criteria. Each chart includes the level of realizable pay provided to our Chairman and CEO in each of the last three years: 2010, 2011 and 2012. For each year, realizable pay included our Chairman and CEO's salary and actual bonus, the spread value of stock options granted (*i.e.*, the D&B stock price on December 31 of the year versus the exercise price of the stock options, which is the mean of high and low trading prices of D&B stock on the date of grant) and the restricted stock units granted for that year's performance valued as of December 31 of the performance year. In relation to our Chairman and CEO's annual realizable pay, we compared four measures of D&B's performance:

Core revenue growth before the effect of foreign exchange¹;

Operating income growth before non-core gains and charges²;

Diluted earnings per share attributable to D&B common shareholders growth before non-core gains and charges²; and

TSR.

Over the last three years, our performance has not met all of our plan objectives. Therefore, annual and long-term incentives have paid out below target levels. While 2010-2012 operating income before non-core gains and charges and earnings per share before non-core gains and charges performance have been strong relative to our targets, revenue results and performance versus non-financial goals (such as strategy and customer satisfaction) have not consistently met expectations. This below target level of overall performance has resulted in shareholder returns that are essentially flat over the recent 3-year time period illustrated in the charts below. Our objective is to provide increasing returns to our shareholders by meeting or exceeding performance goals that drive shareholder value creation. Since we did not meet our goals, Chairman and CEO compensation has

Management's Discussion and Analysis of Financial Condition and Results of Operations: How We Manage Our Business" in our Annual Report on Form 10-K for the year ended December 31, 2012 for a discussion of why we use core revenue growth before the effects of foreign exchange and why management believes this measure provides useful information to investors.

declined. We believe the following charts illustrate how our program is linked not only to our goals, but also to shareholders' interest.

Table of Contents

In 2012, the variable pay opportunity of five of our six named executive officers was based on measures designed to increase shareholder value, ensure continued execution of our business strategy, and improve customer satisfaction and team member engagement. This past year we achieved:

Core revenue before the effect of foreign exchange growth of 1%;

Operating income before non-core gains and charges growth of 4%;

Table of Contents

Diluted earnings per share attributable to D&B common shareholders before non-core gains and charges growth of 11%;

Customer results including improvements in: (1) customer retention, (2) new customer acquisition growth, and (3) customer satisfaction (although we did not meet the target results associated with the first two components of our customer goal, we exceeded our customer satisfaction objective);

Progress toward the implementation of our strategy including: (1) continuing to rebuild the data supply chain to improve our processing capabilities as part of our strategic technology investment program announced in February 2010, which we referred to as "MaxCV" for Maximizing Customer Value, which was aimed at strengthening our leading position in commercial data and improving our current technology platform to meet the emerging needs of our customers, (2) strengthening our business model through targeted acquisitions and divestitures and (3) establishing our 2013 business trajectory (although we achieved the first component of our strategy goal with respect to our 2012 stated deliverables, and partially achieved the second component, we did not meet our expectations on the third component); and

Team member engagement improvement of 10 points as measured by our Engagement Survey conducted by Aon Hewitt, an external human resources consulting organization.

Based on the assessment of results versus these goals and our named executive officer's individual performance, the C&BC awarded bonuses to five of our six named executive officers equaling 47% or less of target (a more detailed discussion of our attainment of 2012 goals and how that relates to performance awards is included in the "Annual Cash Incentive Plan" section of this proxy statement). In addition, performance-based RSUs were awarded to five of our six named executive officers at 47% or less of target, reflecting the most recent performance of our Company and the named officer's individual performance. The actual realized value from the RSU awards, as well as from the stock option awards, will be linked to future stock price performance, and therefore, to our shareholders' interests.

In summary, the following chart illustrates how the C&BC viewed its compensation decisions for our Chairman and CEO in 2012. The decisions reflect the fact that D&B did not meet all of its performance expectations for 2012. Therefore, pay was lower than target and lower than last year's compensation awards. These numbers are lower than those disclosed in our Summary Compensation Table, where the performance-based RSU opportunity is reported at target, not the actual award based on performance.

Purpose

The purpose of this Compensation Discussion & Analysis, or CD&A, is to provide material information about our executive compensation program, policies, and objectives and to share with investors how we arrived at the levels and form of compensation for our named executive officers. We will describe not only what we pay, but why and how we link executive compensation to our business results. In this section we cover:

The objectives of our executive compensation program;

The components of our executive compensation program and why we provide these components;

What our executive compensation program is designed to reward, especially our variable pay program;

How we determine the level to pay for each component; and

How each component of our executive compensation program fits within our overall objectives and impacts decisions we make about other components.

The CD&A and the tables included herein cover the compensation paid to our named executive officers, which includes the following five executives serving in the roles noted for the entire fiscal year (except as noted), plus one additional executive as described below:

Sara Mathew, who served as Chairman of the Board and Chief Executive Officer (our principal executive officer);

Richard H. Veldran, who served as Senior Vice President and Chief Financial Officer (our principal financial officer);

Our three highest compensated executive officers, other than our principal executive officer and our principal financial officer, include:

Joshua L. Peirez, who served as President, Global Product, Marketing and Innovation;

Byron C. Vielehr, who served as President, North America and who became our President, International and Global Operations effective on January 1, 2013; and

Bruce R. Sink, who was appointed Senior Vice President, Technology and Chief Information Officer on October 22, 2012. Prior to joining D&B, Mr. Sink served as a consultant to D&B through his consulting firm, Caribou Technology Consulting, LLC, which he founded in 2002. Mr. Sink's inclusion as a named executive officer is based on the aggregate compensation he received as both a consultant to, and employee of, D&B in 2012. Based solely on compensation as an employee, Mr. Sink would not have been included as a named executive officer in this year's proxy statement and we currently do not anticipate that he will be a named executive officer in next year's proxy statement. (Note: when we refer to "five of our six named executive officers" throughout this proxy statement, we are excluding Mr. Sink from the specific disclosure that follows.)

In addition, to provide year-over-year consistency, we are including our next highest compensated executive officer after the three executive officers noted above:

Edgar Filing: DUN & BRADSTREET CORP/NW - Form DEF 14A

Emanuele A. Conti, who served as President, International for the entire fiscal year and also as Chief Administrative Officer from January 1, 2012 through May 22, 2012. Mr. Conti was a named executive officer in our 2012 proxy statement. He ranked relatively close to Mr. Sink

Table of Contents

in terms of 2012 total compensation and was promoted to President, North America on January 1, 2013 (our largest business unit).

Objectives of our Executive Compensation Program

The objectives of our executive compensation program are as follows:

Ensure a strong relationship between pay and performance, including both rewards for results that meet or exceed performance targets and consequences for results that are below performance targets;

Align executive and shareholder interests through short-and long-term incentives that link the executive to shareholder value creation;

Provide a total compensation opportunity that is competitive with the market for senior executives, thereby enabling us to attract, retain and motivate the executive talent necessary to execute our strategy and achieve our growth targets;

Reinforce behaviors that are consistent with our strategy as measured by our three constituencies: our shareholders, our customers, and our team members; and

Allow for consistency in application from year-to-year and transparency to shareholders.

Pay Positioning and Pay Mix

Although each of our named executive officer's annual base salary may be positioned above or below the market target, in the aggregate, annual base salaries for our named executive officers as a group are targeted at the median of the compensation comparison group (described below). Variable pay including target annual cash incentive and long-term incentives may be positioned higher competitively relative to the market median providing our named executive officers with a total compensation opportunity that is between the median and 65th percentile of our compensation comparison group. This level of total compensation, however, is realized only when our performance goals are achieved or exceeded. As noted earlier, due to performance relative to goals which was below expectations and lower stock price performance, realizable 3-year pay for our Chairman and CEO for 2010-2012 was below targeted total compensation levels.

In addition to external pay positioning, we also reviewed pay mix when determining the amount of annual base salary, annual cash incentives and long-term incentives to provide each of our named executive officers. Our pay for performance principle requires that a significant portion of the total compensation mix be variable. In addition, we reinforce the importance of long-term results by placing an emphasis on equity in the total compensation mix. Individual variable and equity compensation varies based on our named executive officer's role, level of responsibility within the organization and market data for comparable jobs in the compensation comparison group. For our current named executive officers as a group, the total compensation mix is 24% fixed and 76% variable, and 47% cash and 53% equity. The following table illustrates the significant emphasis placed on variable and equity compensation:

	Fixed/Variable Pay Mix		Cash/Equity Pay Mix	
	Fixed	Variable	Cash	Equity
Sara Mathew	15%	85%	35%	65%
Richard H. Veldran	34%	66%	60%	40%
Joshua L. Peirez	28%	72%	51%	49%
Byron C. Vielehr	27%	73%	51%	49%
Bruce R. Sink	36%	64%	64%	36%
Emanuele A. Conti	35%	65%	62%	38%

Elements of our Executive Compensation Program

To meet the objectives of our executive compensation program, the 2012 compensation of our named executive officers consisted of the following components:

Total cash compensation, which includes a base salary and a target annual cash incentive opportunity;

Long-term equity incentives including a grant of stock options and a performance-based RSU opportunity;

Required stock ownership guidelines;

Voluntary deferral of compensation under our non-qualified deferred compensation plan;

Supplemental retirement benefits;

Eligibility to receive severance benefits (which are also available to all employees); and

Eligibility to receive benefits payable upon a change in control of D&B.

We do not offer any perquisites to our executive officers beyond those that are available to all employees. We believe that perquisites are entitlement-driven rather than performance-based and, therefore, do not fit within the objectives of our executive compensation program. Instead, we seek to attract and retain executive talent that is motivated by a competitive total compensation package that rewards for performance and the delivery of increased shareholder value.

In addition to the components listed above, our named executive officers are eligible to participate in certain benefit programs that are available to all of our U.S. employees including: our cash balance retirement account (which was frozen as of July 1, 2007 for all participants and closed to new entrants), our qualified defined contribution plan, our medical and dental benefits, our life, voluntary group accident, long-term disability, legal, and business travel accident insurance benefits, and our health care and dependent care spending accounts.

As part of its oversight, the C&BC reviews the full value of payments that may be made in the event of our named executive officer's termination (discussed below as potential post-employment compensation).

Base Salary. Salary provides a base level of compensation commensurate with our named executive officer's role in the organization, experience, skill, and job performance. With 76% of total compensation "at risk" or variable, base salary provides our named executive officer with a consistent level of compensation related to the daily performance of his or her leadership role and responsibilities.

The base salary provided to our named executive officers is reviewed by the C&BC annually. Any adjustment to salary is based on a number of factors and considerations including:

The market data for comparable executive positions in the compensation comparison group (described below);

The scope of responsibility and accountability within the organization;

Demonstrated leadership competencies and skills; and

Individual performance.

Table of Contents

Target Annual Cash Incentive Opportunity. In addition to base salary, our named executive officers have the opportunity to earn an annual cash incentive that is tied to Company and individual performance as discussed below. We offer this cash opportunity to reinforce the outcomes and behaviors necessary to meet or exceed our annual commitment to our shareholders and customers.

Company performance is an important component of our annual cash incentive. We believe that consistent, year-over-year growth in revenue and earnings are key drivers of increased shareholder value over the long term. Therefore, our annual cash incentive rewards company performance as measured by the following:

Financial results growth in revenue, operating income, and earnings per share are the most important measures in our executive compensation program and carry the greatest weight because we believe that profitable revenue growth over time will create value for our shareholders.

Customer goal we measure improvements in customer satisfaction through a broadened customer goal that includes three critical metrics: customer retention, new customer acquisition and customer satisfaction. We link the results we achieve on these metrics to our executive compensation program because improving our customers' experience and the value D&B provides is fundamental to the current and future success of our business.

Strategic goal our strategy goal focuses on the transformation of our business model and has three key components:

Continuing to rebuild our data supply chain to improve our processing capabilities on time and within plan;

Acquiring businesses that are value creating and divesting ones that do not connect to our strategy; and

Establishing a growth trajectory to achieve 2013 revenue goals.

Team member engagement our team member engagement goal underscores the importance of making D&B "most trusted" by our customers and returning D&B to delivering sustainable results. Each year, we ask to hear every team member's voice to identify ways we can make D&B an even better place to work. Having team members fully engaged in our journey and in their work is fundamental to our success and is what will enable us to achieve our goals. Based on research by Aon Hewitt, an external human resources consulting firm, companies with highly engaged employees are also companies with higher long-term total shareholder returns.

In addition to company performance, individual goals and leadership performance carry an important weight in our annual cash incentive. The success of our Company is directly tied to strong leadership that drives results and creates shareholder value. We expect all employees, especially our named executive officers, to demonstrate behavior that is consistent with our principles-based leadership model.

At the end of the year, our Chairman and CEO evaluates the performance of each of her direct reports, including our named executive officers. Each named executive officer is assessed on:

Achievement of specific team and individual goals in support of our strategy and business objectives; and

Table of Contents

Demonstration of leadership competencies that, among other important skills, intensify our focus on the customer and enable us to work collaboratively toward the achievement of a common set of company goals.

The results of this assessment can adjust positively or negatively each of our named executive officer's earned annual cash incentive award for company performance. Through this assessment process, judgment is applied relative to the individual's demonstrated success against his or her goals.

The C&BC also performs a similar assessment of our Chairman and CEO after the conclusion of the fiscal year.

Long-term Equity Incentives. While cash is tied to the achievement of short-term results, equity is directly linked to the creation of increased shareholder value over the long term. Approximately 53% of the target total compensation opportunity provided to five of our six named executive officers in 2012 was equity-based. This emphasis reflects our view that there should be a close alignment between executive officer rewards and shareholder value creation.

Under our 2012 long-term incentive program, 50% of the total value of five of our six named executive officer's equity compensation is a performance-based RSU opportunity with the remaining 50% in stock options. Any RSUs granted at the end of the performance period must be earned based on the same goals described above for our target annual cash incentive opportunity. In addition, in order for RSU awards to exceed target, D&B's 3-year TSR must be at or above the 60th percentile of our external group, comprised of our compensation comparison group and the S&P 500 companies.

Stock Ownership Guidelines. Under the Company's stock ownership guidelines, our named executive officers and other members of senior management are expected to achieve over time a minimum specified level of ownership in our common stock. These guidelines were implemented to reinforce the objectives of our executive compensation program as follows:

Align senior executives' individual financial interests with those of shareholders; and

Encourage senior executives to focus on long-term value creation.

The levels of stock ownership are a multiple of the executive officer's salary. For our Chairman and CEO, the minimum level of stock ownership is six times salary. For our other named executive officers, the minimum level of stock ownership is four times salary. These multiples, which are above the general market median, demonstrate our senior executives' commitment to D&B and their personal financial stake in the Company.

Shares counted toward satisfaction of the ownership guidelines include all stock owned outright, restricted stock, RSUs, units in the D&B Common Stock Fund of our 401(k) Plan, and one-half of the shares underlying vested stock options. There is no timeframe for achieving the ownership guidelines. However, all executives covered by our stock ownership guidelines are expected to retain 100% of the net shares resulting from equity compensation awards and shares otherwise acquired by them outright until the stock ownership guidelines are achieved. Once the stock ownership guidelines are met, covered executives must retain a sufficient number of shares to comply with the guidelines until termination of their service with the Company. Only shares in excess of the guidelines may be traded within designated open window periods in accordance with the Company's Inside Information and Securities Trading Policy.

Each year, the C&BC reviews each of our named executive officer's status and progress towards achieving the stock ownership guidelines. The stock ownership of each of our named executive officers as of December 31, 2012 is noted below.

Mr. Sink's level of ownership reflects the fact that he was appointed an executive officer on October 22, 2012.

Non-qualified Deferred Compensation. Our Key Employees' Non-qualified Deferred Compensation Plan is designed to provide our named executive officers and eligible key employees with an opportunity to defer receipt of current income into the future and/or to accumulate capital on a tax-deferred basis for a planned future event. This voluntary plan can also provide our named executive officer with an effective tax planning vehicle and allow the officer to defer additional income for retirement. We offer this plan to provide a competitive and comprehensive total compensation package that is designed to attract and retain key executives. Under this plan, participants may defer the payment of both salary and annual cash incentives. A further description of the plan is set forth below under the Non-qualified Deferred Compensation Table. In 2012, Ms. Mathew and Mr. Conti were the only named executive officers who elected to participate in the plan.

Non-qualified Retirement Benefits. Five of our six named executive officers participate in our non-qualified executive retirement plan, or ERP. The plan was originally designed to provide retirement income and disability benefits necessary to attract and retain the executives of the Company, including, in particular, those executives who join the Company in the middle of their career. Effective January 1, 2011, the ERP was closed to new participants.

Additional details on the non-qualified retirement plans can be found in the applicable section following the Pension Benefits Table.

Change in Control Benefits. Five of our six named executive officers are covered by existing change in control agreements entered into prior to the Board's approval of a new change in control plan effective January 1, 2013. The new change in control plan is being applied prospectively to designated new executive officers in the Company.

In the event of a change in control, for equity granted prior to January 1, 2013 unvested options become immediately vested and exercisable, and restrictions on restricted stock and RSUs immediately lapse. Cash benefits (such as severance) and equity granted on or after January 1, 2013 do not become payable unless the executive's employment is terminated, as defined in the applicable change in control agreement or plan, within the twenty-four month period following a change in control event (including certain pre-change in control terminations that are directly related to a change in control).

Some of our existing change in control agreements (applicable to two of our six named executive officers) also provide a gross-up for any payments that are subject to excise taxes under Section 280G of the Internal Revenue Code. However, in 2010 this provision was removed for prospective executive officers of the Company and is not part of our new change in control plan.

Table of Contents

We believe that change in control benefits are an important component of our named executive officers' total compensation packages and help protect shareholder interests in the event of a change in control. These benefits enable our officers to make decisions in the interest of our shareholders without concern over the impact on them personally. In addition, our change in control benefits provide an incentive for our named executive officers to continue their employment with D&B during the change in control event, because cash benefits are only paid if our named executive officer is terminated without cause or resigns for good reason following the change in control. Our named executive officer will not receive any benefits provided for in the change in control agreements if he or she voluntarily leaves D&B without good reason or terminates prior to a change in control.

A detailed description of our change in control benefits as applicable to each of our named executive officers is set forth under the "Change in Control" section of this proxy statement.

Severance Benefits. We also provide our named executive officers with severance benefits if their employment is terminated as a result of a reduction in force, job elimination, unsatisfactory job performance (not constituting cause) or a mutually agreed-upon resignation, in each case not related to a change in control of D&B. Severance benefits are provided through our Career Transition Plan, in which all of our named executive officers participate. These same severance benefits are available to all employees of the Company. We believe that severance benefits are an important component of our named executive officers' total compensation package. They enable our program to remain competitive with the market for executive talent.

A detailed description of our severance plan is set forth under the "Overview of Change in Control, Severance and Other Arrangements" section of this proxy statement.

External Benchmarking

Market data provide a reference and framework for decisions about the base salary, target annual cash incentives, and the appropriate level of long-term incentives to be provided to each of our named executive officers. However, due to year-over-year variability and the inexact science of matching and pricing executive jobs, we believe market data should be interpreted within the context of other important factors and should not be used as the sole criterion in determining a specific pay level. Therefore, in setting the target pay for our named executive officers, the C&BC reviews market data along with other factors, including: the scope of responsibility and accountability within the organization, prior experience, leadership competencies and individual performance.

Market data also help ensure our other executive compensation program components are competitive with market practice and trends. Therefore, we periodically review our stock ownership guidelines, deferred compensation plan, and supplemental retirement plan, severance and change in control benefits against both our compensation comparison group as well as general industry.

Compensation Comparison Group. Our compensation comparison group includes 24 companies in financial services, business information and technology services. In consultation with Meridian Compensation Partners, our independent compensation consultant, the C&BC used these companies for the compensation comparison group because they:

are within our general "industry";

are broadly within our size range, using revenue and market capitalization as measures;

Table of Contents

have executive positions comparable to ours, requiring a similar set of leadership skills and experience; and

are representative of those with whom we compete for business and/or executive talent.

In addition to the above, companies were included in the compensation comparison group only if executive pay data were available either through Aon Hewitt Associate's Total Compensation Management proprietary compensation database or through publicly available proxy information.

As noted in our Executive Summary, the C&BC revised our 2012 compensation comparison group in response to feedback we received during our shareholder outreach and from proxy advisory organizations. A key concern raised by that feedback was that certain companies in our compensation comparison group were "aspirational" from a revenue perspective and may be too large for continued inclusion. As a result, the C&BC removed from our 2012 compensation comparison group three companies with revenue size greater than three times that of D&B (*i.e.*, approximately \$5 billion) and added four relevant companies with revenue between approximately \$1 billion and \$3 billion.

The three companies deleted from our compensation comparison group included the following (revenue is as reported in each company's respective Annual Report on Form 10-K for the fiscal year ending December 31, 2011):

McGraw-Hill Companies, Inc. \$6.25 billion

NCR Corporation \$5.44 billion

The Nielsen Company \$5.53 billion

The four companies added to our compensation comparison group for 2012 included the following (except as noted, revenue is as reported in each company's respective Annual Report on Form 10-K for the fiscal year ending December 31, 2011):

Deluxe Corporation \$1.42 billion

ICF International, Inc. \$0.84 billion

Navigant Consulting, Inc. \$0.78 billion

TD Ameritrade Holding Corporation \$2.64 billion (for fiscal year ending September 30, 2012)

Companies in bold are new to our peer group in 2012

Our current and prior named executive officers were recruited from companies like those in our peer group. We continue to attract executive officer talent from comparable roles at companies whose size range and businesses are represented by our compensation comparison group. Based on data publically available as of October 2012, companies in our 2012 peer group range from 0.4 to 2.7 times D&B's annual total revenue size of approximately \$1.7 billion and from 0.1 to 3.3 times D&B's market capitalization of approximately \$3.6 billion. This places D&B near the median of the peer group in terms of revenue size and at the median in terms of market capitalization. Therefore, our Chairman and CEO is accountable for the leadership and growth of an enterprise that is generally comparable in revenue and market capitalization to that of the chief executive officers in the compensation comparison group. For that reason, as well as for the qualitative criteria cited above, the C&BC views the compensation comparison group as an appropriate group for benchmarking purposes.

Each year our pay positioning and performance versus our compensation comparison group is reviewed by the C&BC. As noted in the "Corporate Governance" section of this proxy statement, the C&BC retained the services of Meridian to perform this review.

In 2012 the C&BC analyzed:

Base salary;

Target and actual annual cash incentives;

Target and actual annual total cash (*i.e.*, base salary plus target and actual annual cash incentive);

Long-term incentives (grant date and actual values); and

Target and actual total direct compensation (*i.e.*, target and actual annual total cash plus grant date and actual values of long-term incentives).

The analyses covered both unadjusted and regression size-adjusted data (adjusted for revenue size and market capitalization) to provide a comprehensive perspective of market pay. We focus on

Table of Contents

unadjusted data because we recruit new executive talent to grow our business from financial services, business information and technology services companies regardless of size. In addition, we strongly believe that there should be a link between a company's performance and its pay levels. Therefore, the analyses included the relationship between executive officer compensation and company performance over several years. As described earlier in the Executive Summary, this review focused on measures of growth, operational efficiency and shareholder value creation.

2012 Base Salaries

As noted above, the base salaries provided to our named executive officers are reviewed by the C&BC annually and any adjustment to base salary is based on a number of factors and considerations. Based on the C&BC's review, three of our six named executive officers received a base salary increase in 2012 as noted below:

Name	Rationale	Base Salary Market Position	Base Salary		Increase	Effective
			From	To	%	
Sara Mathew	The C&BC increased Ms. Mathew's base salary as part of an overall multi-year objective to bring her total compensation toward the market value of her role in line with her performance and leadership of the Company.	Below median pay positioning	\$ 800,000	\$ 825,000	3.1%	1/1/2012
Byron C. Vielehr	In consideration of assuming the role of President, North America mid-year 2011, the C&BC increased Mr. Vielehr's base salary as part of an overall change in his total compensation, reflecting his management of our largest business unit.	Median pay positioning	\$ 425,000	\$ 440,000	3.5%	1/1/2012
Emanuele A. Conti	In consideration of his appointment to President, International mid-year 2011, the C&BC increased Mr. Conti's base salary as part of an overall change in total compensation in line with the median market value of his consolidated role, including D&B international, human resources, corporate strategy and mergers and acquisitions.	Median pay positioning	\$ 400,000	\$ 416,000	4.0%	1/1/2012

Messrs. Peirez and Veldran did not receive a base salary increase effective in 2012 and Mr. Sink was hired in October 2012. As disclosed in last year's CD&A, Mr. Veldran received a salary increase, retroactively effective as of June 1, 2011, in consideration of his promotion to Chief Financial Officer.

Annual Cash Incentive Plan

Through the annual cash incentive plan, about half of 2012 target total cash compensation was "at risk" since payment was based on performance against predetermined annual measures. Five of our six named executive officers were designated by the C&BC as participants in our Covered Employee Incentive Plan, or CEIP, which is a shareholder approved plan.

Table of Contents

Maximum Incentive Opportunity. On February 22, 2012, the C&BC established a maximum annual cash incentive opportunity of eight-tenths of one percent of our 2012 earnings before taxes for our Chairman and CEO and five-tenths of one percent of our 2012 earnings before taxes for our other applicable named executive officers. Consistent with prior years, the C&BC selected earnings before taxes as the appropriate measure in setting the maximum incentive opportunity since it considers profitable revenue growth over time as a key driver in creating value for our shareholders. The percentages selected for our Chairman and CEO and for our other participating named executive officers were deemed, based on historical results, to generate reasonable levels of maximum incentive opportunity given the nature and scope of our executive positions. Actual annual cash incentive payouts to our Chairman and CEO and our other participating named executive officers were less than these maximums as described below. In 2012, our earnings before taxes were \$378.3 million. Therefore, the maximum annual cash incentive opportunity for our Chairman and CEO was \$3,026,400 and for our other participating named executive officers the maximum was \$1,891,500 per participant. The amounts determined by this formula represent the maximum value of the cash incentive that could have been paid to our applicable named executive officers in 2012.

We established the maximum incentive opportunity to comply with the performance-based exemption available under Section 162(m) of the Internal Revenue Code and to enhance the likelihood that any cash amount paid to our participating named executive officers under the CEIP will be fully deductible. We believe that the measure of earnings before taxes links directly to our objective of rewarding for financial goals that will drive shareholder value creation.

Incentive Payout Targets. In determining whether to award the maximum annual cash incentive generated by the pre-tax earnings formula, the C&BC also considered performance against five measures weighted as follows:

40% Company-wide core revenue growth;

20% Growth in diluted earnings per share before non-core gains and charges and operating income before non-core gains and charges;

20% Customer goal (as measured by customer retention, new customer acquisition and customer satisfaction);

10% Strategy goal (including establishing a trajectory to achieve 2013 growth goals, executing our data supply chain, and strengthening our business model); and

10% Team member engagement goal (as measured by improvement in our employee engagement survey conducted by Aon Hewitt, an independent external human resources consulting firm).

The above aggregate 60% weight allocated to growth in revenue, earnings per share, and operating income results is linked to our objective to provide profitable revenue growth year-over-year. Our customer, strategy and team member engagement goals, assigned a total aggregate weight of 40%, are tied to our long-term objective of increasing the level of sustained revenue growth. The allocation of these goals and weights balances our commitment to achieve strong financial results in 2012 with our commitment to deliver on our long-term strategic objectives.

The range of incentive payout for each performance goal was 0% to 200% resulting in a potential annual cash incentive payment between 0% and 200% of the target incentive for each of our participating named executive officers. The performance measures for 2012, as well as the principles for assessing results, were approved by the C&BC on February 22, 2012.

Table of Contents

Individual Performance Adjustments. Actual cash incentive payments made to each of our participating named executive officers were subject to a discretionary adjustment based on individual performance assessments and demonstrated leadership, and are approved by the C&BC. Such adjustments may positively or negatively impact the final award to our named executive officers for company performance. In no instance, however, will such adjustments exceed the maximum annual cash incentive opportunity generated by the pre-tax earnings formula described above. The C&BC may also approve adjustments to performance goals to include or exclude the impact of non-core gains and charges or extraordinary items.

Attainment of 2012 Performance Measures. In 2012, results against the five measures that the C&BC used to evaluate the level of our participating named executive officers' 2012 annual incentive payout for company performance were as follows:

Company Goal	Weight	Incentive Target	Result	Assessment
Company Core Revenue Growth (1)	40%	3% to 5%	1%	Overall, core revenue growth was 1%, in line with our revised guidance of 0% to 3%. However, this result was below the lower end of our incentive target range, which was the same as our original guidance. Based on these considerations, the C&BC assessed this result as below target, or 0%.
Diluted EPS Growth (Before Non-core Gains and Charges) / Total Operating Income (Before Non-core Gains and Charges) (2)	20%	<u>EPS</u> 8% to 11% <u>Op Inc</u> 4% to 7%	<u>EPS</u> 11% <u>Op Inc</u> 4%	EPS growth for the year was at the upper end of the incentive target range. Operating income was within our incentive target range reflecting our focus on tight expense controls. We returned approximately \$550 million of cash to shareholders in 2012, through dividends and share buybacks. Excluding two key actions not in our plan (<i>i.e.</i> , incremental share repurchase offset by make whole expense), EPS was still at the upper end of the incentive target range. Based on these considerations, the C&BC assessed this result as above target, or 125%.

Table of Contents

Company Goal	Weight	Incentive Target	Result	Assessment
Customer Goal	20%	Improvements in customer retention, new customer acquisition and customer satisfaction	1 out of 3 components achieved	Our customer satisfaction exceeded our expectations, while customer retention and new customer acquisition did not. Based on these considerations, the C&BC assessed this result as below target, or 25%.
Strategy	10%	Progress toward the implementation of our strategy, by continuing to rebuild the data supply chain, strengthening our business model and establishing our 2013 business trajectory	2 out of 3 components achieved	We achieved the rebuilding of our data supply chain with respect to 2012 deliverables and we partially met our goal to strengthen our business model through targeted divestitures. We did not meet our goal of establishing our 2013 business trajectory. Based on these considerations, the C&BC assessed this overall result as below target, or 35%.
Team Member Engagement	10%	Up to 6 points of improvement	10 points of improvement	Our team members' engagement score improved by 10 points, exceeding our goal of +6. Participation was a best-in-class 87% per Aon Hewitt, an external human resources consulting firm who conducts the team member engagement survey for D&B and compiles the results. Based on these considerations, the C&BC assessed this result as above target, or 125%.

- (1) For 2012, our core revenue before the effect of foreign exchange grew 1%. We used this measure in our annual cash incentive plan. Total revenue for 2012, in accordance with U.S. Generally Accepted Accounting Principles, or GAAP, decreased 5%, and core revenue was flat on a GAAP basis. See Schedule I to this proxy statement for a quantitative reconciliation of total revenue to core revenue and the effect of foreign exchange on core revenue growth. See "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations: How We Manage Our Business" in our Annual Report on Form 10-K for the year ended December 31, 2012 for a discussion of why we use core revenue growth before the effects of foreign exchange and why management believes this measure provides useful information to investors.
- (2) For 2012, our diluted EPS attributable to D&B common shareholders before non-core gains and (charges) grew 11% and our operating income before non-core gains and (charges) increased 4%. We used these measures in our annual cash incentive plan. On a GAAP basis for 2012, we reported an increase in diluted EPS attributable to D&B common shareholders of 22% and an increase in operating income of 2%. See Schedules II and III to this proxy statement for a quantitative reconciliation of: (i) reported diluted EPS attributable to D&B common shareholders to diluted EPS attributable to D&B common shareholders before non-core gains and (charges); and (ii) reported operating income to operating income before non-core gains and (charges). See "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations: How We Manage Our Business" in our Annual Report on Form 10-K for the year ended December 31, 2012 for a discussion of why we use Diluted EPS before non-core gains and (charges) and operating income before non-core gains and (charges) and why management believes these measures provide useful information to investors.

Table of Contents

During the year, management met with the C&BC quarterly at four separate meetings and finally in February 2013 to discuss its quantitative and qualitative assessment of company performance and the appropriate level of aggregate reward for that performance.

Based on the overall quantitative and qualitative assessment of company performance as noted in the table above, the C&BC determined the final payout for 2012 company performance to be 47% of the target annual cash incentive opportunity. As noted earlier, under our annual cash incentive plan, the payout for company performance is combined with any positive or negative discretionary adjustments for individual performance and leadership to determine the final 2012 annual cash incentive payments to our named executive officers. The table below summarizes the final payouts to our named executive officers.

2012 Annual Cash Incentive

Hired in October 2012 and, therefore, not eligible for 2012 annual cash incentive.

Long-term Equity Incentives

For 2012, long-term equity incentive compensation represented the largest component of the total compensation awarded to our applicable named executive officers. The equity compensation included a grant of stock options (50% of the total long-term incentive value) and a target performance-based RSU opportunity (the remaining 50% of the total long-term incentive value).

In determining the amounts of the equity compensation awarded, the C&BC considered a variety of factors including: individual performance, leadership competencies, prior executive experience, scope of responsibility and accountability within the organization and market position for variable pay versus comparable executive data in the compensation comparison group.

2012 Stock Option Grant. As shown in the Grants of Plan Based Awards Table below, we granted stock options to five of our six named executive officers on March 1, 2012. These grants were approved by the C&BC at its meeting on February 22, 2012. The total economic value of the 2012 stock option grants made to our applicable named executive officers was greater than 2011 with the exception of Ms. Mathew, who received the same level of total economic value as 2011. Messrs. Peirez and Vielehr received an increase of \$25,000 in the value of their stock option grants in recognition of their increased responsibilities and the criticality of their roles in the Company. Messrs. Conti and Veldran received increases of \$12,500 and \$45,000, respectively, in the value of their stock option grants in recognition of their promotions to new roles in the Company and their relative pay positioning versus comparable executive roles in our peer group.

The timing of the March 1, 2012 stock option grants was the same as 2011 and was in keeping with our general practice of (1) having annual grants of stock options to all employees reviewed and approved by the C&BC at the start of the year (at the January or February meeting); and (2) setting

Table of Contents

the grant date associated with those options after our fourth quarter and year-end earnings release. Therefore, information about our most recent performance has been made public and that news is reflected in the stock price used to determine the exercise price of the stock options. In addition, this timing enables our Chairman and CEO to have a single conversation with each of our named executive officers about all annual equity grants made to each individual, including:

A stock option grant made as part of the current year's (2012) total compensation opportunity;

A performance-based RSU opportunity award to be paid on March 1, 2013 based on 2012 performance (see the "2012 Performance-based Restricted Stock Unit Opportunity" section of this proxy statement); and

An RSU grant made on March 1, 2012 for the prior year's (2011) performance (see the "2012 Restricted Stock Unit Grant" section of this proxy statement).

The exercise price of the 2012 stock option grant is \$82.80, which was the mean of high and low trading prices for D&B stock on the date of grant. All stock options vest in four equal installments commencing on the first anniversary of the grant and have a ten-year term. We believe that this vesting schedule and option term, in conjunction with our stock ownership guidelines, encourages long-term commitment and allows the executive to build ownership in D&B over time.

2012 Performance-based Restricted Stock Unit Opportunity. At its meeting on February 22, 2012, the C&BC set a target dollar value for each of our named executive officer's RSU opportunity as set forth in the Grants of Plan-based Awards Table. This dollar value represents the target dollar value of RSUs that each of our named executive officers could be awarded in 2013 based on the attainment of the same company performance goals set forth under the annual cash incentive plan for 2012, including the Section 162(m) maximum amount generated by the pre-tax earnings formula as separately applied to the RSU opportunity. The maximum dollar award that each of our named executive officers may be awarded relative to the 2012 performance-based RSU opportunity was additionally capped by D&B's 3-year (2010-2012) TSR performance versus that of the compensation comparison group and the S&P 500 (which we refer to collectively as our external group) as follows:

D&B's 3-year (2010-2012) TSR versus External Group	Maximum Award or Cap as % of Dollar Target
Less than 60th Percentile	100%
60th Percentile or Greater	Up to 200%

Based on the attainment of the goals in the annual cash incentive plan and D&B's 3-year (2010-2012) TSR performance, each of our named executive officers received an award of RSUs on March 1, 2013 as approved by the C&BC on February 26, 2013. The number of RSUs granted is determined by dividing the dollar value earned by the average fair market value (*i.e.*, mean of high and low trading prices) of our common stock in a 30-day period prior to the C&BC meeting and approval date. Following the grant date, the RSUs are subject to time-based vesting as follows: 20% on the first anniversary of the grant, 30% on the second anniversary of the grant and 50% on the third anniversary of the grant.

The performance-based RSU award earned for 2012 was granted after the conclusion of the fiscal year and will be reported in the Outstanding Equity Awards at Fiscal Year-end Table in our 2014 proxy

Hired in October 2012 and, therefore, not eligible for 2012 RSU grant based on 2011 performance.

These awards were contingent on our 2011 performance against the same measures and performance goals that were used by the C&BC in determining payout under the 2011 annual cash incentive plan as described in our 2012 proxy statement. Since 2011 performance fell below the incentive targets set for that year, awards as a percentage of opportunity were 81% as discussed in more detail in our 2012 proxy statement.

These RSUs are subject to the same vesting schedule as the RSU grants described above: 20% on the first anniversary of the grant, 30% on the second anniversary of the grant and 50% on the third anniversary of the grant. These grants are reflected in the Outstanding Equity Awards at Fiscal Year-end Table.

Special 2012 Equity Grant. In consideration of his promotion to Senior Vice President and Chief Financial Officer in 2011, the C&BC approved a special equity grant for Mr. Veldran of 6,250 RSUs valued at the time at approximately \$500,000. This special grant was effective March 1, 2012 and vests 50% on the third anniversary of the grant, 25% on the fourth anniversary of the grant and 25% on the fifth anniversary of the grant.

As part of his total compensation offer to join D&B in October 2012, the C&BC approved a hire-on equity grant for Mr. Sink of 6,090 RSUs valued at the time at approximately \$500,000. This special grant was effective November 1, 2012 and vests 100% on the third anniversary of the grant.

Retention of key executives is critical to the achievement of our business objectives. In recognition of that principle, the C&BC may periodically make special equity grants to executives it deems critical to the Company's current and future success. The vesting schedules of these special equity grants are different from the schedule described above for our regular RSU grants. Tailored to each situation, the C&BC viewed these longer-term vesting schedules as more valuable from a retention perspective.
