Frank T. MacInnis, Chairman and CEO of EMCOR Group, commented, "We are very pleased with our strong performance during the second quarter, which built upon the excellent start we had to 2006. Our success was driven by solid performance across all of our businesses, including improved results within our UK and Canadian operations. The second quarter also saw the continued successful growth of our facilities services business, reflecting over 20% revenue growth for both the second quarter and six-month period. Facilities Services reported enhanced profitability due to strong market demand and our ability to leverage that business' existing infrastructure."

Mr. MacInnis added, "Over the past few years, EMCOR Group has executed on a strategy of reducing our exposure to certain public sector markets and reserving capacity for an expected recovery within the more profitable private and commercial sectors. We have seen this recovery over the past few quarters, and today over half of our contract backlog is represented by the commercial and hospitality sectors, while we have maintained strong positions in other attractive sectors of the marketplace. We believe the actions we have taken have resulted in a stronger, better balanced backlog that positions us well for continued performance in the future."

Mr. MacInnis concluded, "We continue to see strong demand within our targeted markets, including additional growth in the small-task projects that are typical of our facilities services business. At the same time, we remain in an excellent position financially to invest in the future growth of our business. Based on current market conditions, we expect revenues for 2006 of between \$5.0 billion and \$5.2 billion, resulting in diluted earnings per share for the year of

between \$1.90 and \$2.10, which includes \$0.07 per diluted share in expenses related to the Company's adoption of FAS 123(R)."
