Frank T. MacInnis, Chairman and CEO of EMCOR Group, commented, "As we anticipated, the first quarter of 2007 saw the continued strong growth trends we experienced at the end of 2006. Driven by a robust, balanced backlog, strong demand for our services across our markets and our continued focus on excellent operational execution and cost control, we reported a very good start to the year."

Mr. MacInnis continued, "The quarter saw outstanding performance in most of our operating segments, with our U.S. Electrical and U.S. Mechanical operations both generating higher revenues and substantial increases in profitability. Within our Facilities Services segment, the first quarter saw a good balance between site-based and mobile services, and its solid revenue growth during the quarter resulted in nearly double its operating income from the year ago period. At the same time, we were also able to effectively manage our growth, reducing SG&A expenses as a percentage of revenues and generating a substantial improvement in cash flow from year ago levels."

Mr. MacInnis concluded, "Having positioned ourselves to take advantage of an improvement in the private sector, we began to see demand from this sector increase in 2006, and the private sector markets have improved further as we've moved into 2007. Looking ahead, the strong organic growth in all aspects of our business remains favorable, as we continue to generate dynamic growth within our targeted markets while maintaining the financial strength to take advantage of growth opportunities. Based on information currently available, we confidently reiterate our previously issued 2007 performance estimates of \$5.3B - \$5.5B of revenue and 2007 diluted earnings per share of \$2.45 - \$2.80. We are currently in the midst of our operations reforecast cycle, and expect to be in a position to revise our guidance, if appropriate, at the conclusion of that cycle in early to mid-June."
