Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended **March 31, 2016**

or

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from _____ to _____

Commission file number **001-33997**

KANDI TECHNOLOGIES GROUP, INC.

(Exact name of registrant as specified in charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

90-0363723

(I.R.S. Employer Identification No.)

Jinhua City Industrial Zone
Jinhua, Zhejiang Province
People's Republic of China
Post Code 321016

(Address of principal executive offices)

(86 - 579) 82239856

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files)

Yes No

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of May 3, 2016, the registrant had issued and outstanding 47,689,638 shares of common stock, par value \$0.001 per share.

NOTE 1 - ORGANIZATION AND PRINCIPAL ACTIVITIES

Kandi Technologies Group, Inc. (Kandi Technologies) was incorporated under the laws of the State of Delaware on March 31, 2004. Kandi Technologies changed its name from Stone Mountain Resources, Inc. to Kandi Technologies, Corp. on August 13, 2007. On December 21, 2012, Kandi Technologies changed its name to Kandi Technologies Group, Inc. As used herein, the term the Company means Kandi Technologies and its operating subsidiaries, as described below.

Headquartered in the Jinhua city, Zhejiang Province, China, the Company is one of China's leading producers and manufacturers of electrical vehicle products, electrical vehicle parts and off road vehicles for sale in the People's Republic of China (the PRC) and global markets. The Company conducts its primary business operations through its wholly-owned subsidiary, Zhejiang Kandi Vehicles Co., Ltd. (Kandi Vehicles), and the partial and wholly-owned subsidiaries of Kandi Vehicles.

The Company's organizational chart is as follows:

Operating Subsidiaries:

Pursuant to relevant agreements executed in January 2011, Kandi Vehicles is entitled to 100% of the economic benefits, voting rights and residual interests (100% profits and loss absorption rate) of Jinhua Kandi New Energy Vehicles Co., Ltd. (Kandi New Energy), a company in which Kandi Vehicles has 50% interest. Mr. Hu Xiaoming owns the other 50% which he entrusted Kandi Vehicles to manage Kandi New Energy. Kandi New Energy currently holds battery packing production rights (license), and supplies the battery pack to the JV Company (Defined below). It didn't maintain the special-purpose vehicle production rights (license) on manufacturing Kandi brand electric utility vehicles. According to the JV Agreement (defined below) Kandi is not allowed to produce EVs. To avoid the maintenance fee on this license, the Company shall sell the special-purpose vehicle production rights (license) to others.

In April 2012, pursuant to a share exchange agreement, the Company acquired 100% of Yongkang Scrou Electric Co, Ltd. (Yongkang Scrou), a manufacturer of automobile and EV parts. Yongkang Scrou currently manufactures and sells EV drive motors, EV controllers, air conditioners and other electrical products to the JV Company (defined below).

In March 2013, pursuant to a joint venture agreement (the JV Agreement) entered into by Kandi Vehicles and Shanghai Maple Guorun Automobile Co., Ltd. (Shanghai Guorun), a 99%-owned subsidiary of Geely Automobile Holdings Ltd. (Geely), the parties established Zhejiang Kandi Electric Vehicles Co., Ltd. (the JV Company) to develop, manufacture and sell EV products and related auto parts. Each of Kandi Vehicles and Shanghai Guorun has 50% ownership interest in the JV Company. In March 2014, the JV Company changed its name to Kandi Electric Vehicles Group Co., Ltd. At present, the JV Company is a holding company with products that are manufactured by its subsidiaries.

In March 2013, Kandi Vehicles formed Kandi Electric Vehicles (Changxing) Co., Ltd. (Kandi Changxing) in the Changxing (National) Economic and Technological Development Zone. Kandi Changxing is engaged in the production of EV products. In the fourth quarter of 2013, Kandi Vehicles entered into an ownership transfer agreement with the JV Company pursuant to which Kandi Vehicles transferred 100% of its ownership in Kandi Changxing to the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest in Kandi Changxing.

In July 2013, Zhejiang ZuoZhongYou Electric Vehicle Service Co., Ltd. (the Service Company) was formed. The Service Company is engaged in various pure EV leasing businesses, which is called Micro Public Transportation (MPT) program. The Company has 9.5% ownership interest in the Service Company through Kandi Vehicles.

In November 2013, Zhejiang Kandi Electric Vehicles Jinhua Co., Ltd. (Kandi Jinhua) was formed by the JV Company. The JV Company has 100% ownership interest in Kandi Jinhua, and the Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest in Kandi Jinhua.

In November 2013, Zhejiang JiHeKang Electric Vehicle Sales Co., Ltd. (JiHeKang) was formed by the JV Company and is engaged in car sales business. The JV Company has 100% ownership interest in JiHeKang, and the Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest in JiHeKang.

In December 2013, the JV Company entered into an ownership transfer agreement with Shanghai Guorun pursuant to which the JV Company acquired 100% ownership of Kandi Electric Vehicles (Shanghai) Co., Ltd. (Kandi Shanghai). As a result, Kandi Shanghai is a wholly-owned subsidiary of the JV Company, and the Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest in Kandi Shanghai.

In January 2014, Zhejiang Kandi Electric Vehicles Jiangsu Co., Ltd. (Kandi Jiangsu) was formed by the JV Company. The JV Company has 100% ownership interest in Kandi Jiangsu, and the Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest in Kandi Jiangsu. The company is mainly engaged in EV research and development, manufacturing and sales.

In November 2015, Hangzhou Puma Investment Management Co., Ltd. (Puma Investment) was formed by the JV Company, which focuses on the investment and consulting service. The JV Company has 50% ownership interest in Puma Investment, and the Company, indirectly through its JV Company, has 25% economic interest in Puma Investment. The other 50% ownership is held by the Service Company.

In November 2015, Hangzhou JiHeKang Electric Vehicle Service Co., Ltd. (JiHeKang Service Company) was formed by the JV Company, which focuses on the after-market service for the EV products sold. The JV Company has 100% ownership interest in JiHeKang Service Company, and the Company, indirectly through its JV Company, has 50% economic interest in JiHeKang Service Company.

In January 2016, Kandi Electric Vehicles (Hainan) Co., Ltd. (Kandi Hainan) was renamed from Kandi Electric Vehicles (Wanning) Co., Ltd. (Kandi Wanning) which was originally formed in Wanning City of Hainan Province by Kandi Vehicles and Kandi New Energy in April 2013 and then was transferred to Haikou City in January 2016. Kandi Vehicles has 90% ownership in Kandi Hainan, and Kandi New Energy has the remaining 10% interest. However, Kandi Vehicles is, effectively, entitled to 100% of the economic benefits, voting rights and residual interests (100% profits and losses) of Kandi Hainan.

The Company's primary business operations are the design, development, manufacturing and commercialization of EV products, EV parts and off road vehicles. As part of its strategic objective to become a leading manufacturer of EV products and related services, the Company has increased its focus on pure EV related products with a particular emphasis on expanding its market share in China.

NOTE 2 LIQUIDITY

The Company had a working capital surplus of \$72,489,812 as of March 31, 2016, an increase of \$12,572,659 from \$59,917,153 as of December 31, 2015.

As of March 31, 2016, the Company had credit lines from commercial banks of \$36,894,649. The Company believes that its cash flows generated internally may not be sufficient to support the growth of future operations and to repay short-term bank loans for the next twelve (12) months. However, the Company believes its access to existing financing sources and established relationships with PRC banks will enable it to meet its obligations and fund its ongoing operations.

The Company has historically financed its operations through short-term commercial bank loans from PRC banks. The term of these loans is typically for one year, and upon the payment of all outstanding principal and interest in a particular loan, the banks have typically rolled over the loan for an additional one-year term, with adjustments made to the interest rate to reflect prevailing market rates. The Company believes this practice has been ongoing year after year and that short-term bank loans remain available on normal trade terms if needed.

NOTE 3 - BASIS OF PRESENTATION

The Company maintains its general ledger and journals with the accrual method accounting for financial reporting purposes. The financial statements and notes are representations of management. Accounting policies adopted by the Company conform to generally accepted accounting principles in the United States (U.S. GAAP) and have been consistently applied in the presentation of financial statements.

The financial information included herein for the three-month ended March 31, 2016 are unaudited; however, such information reflects all adjustments, consisting of normal recurring adjustments, that are, in the opinion of management, necessary for a fair presentation of the Company s condensed consolidated financial statements for these interim periods.

The results of operations for the three-month ended March 31, 2016 are not necessarily indicative of the results expected for the entire fiscal year ending December 31, 2016.

NOTE 4 PRINCIPLES OF CONSOLIDATION

The consolidated financial statements reflect the accounts of the Company and its ownership interest in the following subsidiaries:

- (i) Continental, a wholly-owned subsidiary of the Company;
- (ii) Kandi Vehicles, a wholly-owned subsidiary of Continental;
- (iii) Kandi New Energy, a 50% owned subsidiary of Kandi Vehicles. Pursuant to relevant agreements executed in January 2011, Kandi Vehicles effectively controls a variable interest (VIE) of Kandi New Energy. PRC laws and regulations prohibit or restrict foreign 100% ownership of an entity who has the special purpose vehicle production license (maximum is 50%), to comply with these foreign ownership restrictions, the Company has entered various agreement with Mr. Hu Xiaoming to hold 50% equity share of Kandi New Energy on behalf. Based on the relevant agreements, Kandi Vehicles is entitled to 100% of the economic benefits, voting rights and residual interests of Kandi New Energy; Based on these contractual arrangements, the Company consolidates the financial results of Kandi New Energy required by Accounting Standards Codification (ASC) subtopic 810-10 (ASC 810-10), Consolidation: Overall (Pre-Codification): Financial Accounting Standards Board (FASB) Interpretation No. 46R, Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51. Based on the aforementioned agreements, the Company demonstrates its ability and intention to continue to exercise the ability to obtain substantially all of the profits and absorb all of the expected losses of Kandi New Energy. All significant intercompany accounts and transactions between the Company, its subsidiaries, and Kandi New energy have been eliminated in consolidation.
- (iv) Yongkang Scrou, a wholly-owned subsidiary of Kandi Vehicles;
- (v) Kandi Hainan, a subsidiary, 10% owned by Kandi New Energy and 90% owned by Kandi Vehicles.

Equity Method Investees

The consolidated net income also includes the Company's proportionate share of the net income or loss of its equity method investees as following:

- (vi) The JV Company, 50% owned subsidiary of Kandi Vehicles;
- (vii) Kandi Changxing, a wholly-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest;
- (viii) Kandi Jinhua, a wholly-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest;
- (ix) JiHeKang, a wholly-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest;
- (x) Kandi Shanghai, a wholly-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest;
- (xi) Kandi Jiangsu, a wholly-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest;
- (xii) Puma Investment, a 50%-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has 25% economic interest.
- (xiii) JiHeKang Service Company, a wholly-owned subsidiary of the JV Company. The Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest.

All intra-entity profits and losses with the Company's equity method investees have been eliminated.

NOTE 5 USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Management makes these estimates using the best information available at the time the estimates are made; however actual results when ultimately realized could differ from those estimates.

NOTE 6 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Economic and Political Risks

The Company's operations are conducted in the PRC. As a result, the Company's business, financial condition and results of operations may be influenced by the political, economic and legal environments in the PRC, and by the general state of the PRC economy. In addition, the Company's earnings are subject to movements in foreign currency exchange rates when transactions are denominated in Renminbi (RMB), which is the Company's functional currency. Accordingly, the Company's operating results are affected by changes in the exchange rate between the U.S. dollar and the RMB.

The Company's operations in the PRC are subject to special considerations and significant risks not typically associated with companies in North America and Western Europe. These include risks associated with, among others, the political, economic and legal environment and foreign currency exchange. The Company's performance may be adversely affected by changes in the political and social conditions in the PRC, and by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion, remittances abroad, and rates and methods of taxation, among other things.

(b) Fair Value of Financial Instruments

ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1 defined as observable inputs such as quoted prices in active markets;

Level 2 defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3 defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The company's financial instruments primarily consist of cash and cash equivalents, restricted cash, accounts receivable, notes receivable, other receivable, accounts payable, other payables and accrued liabilities, short-term bank loans, notes payable, and warrants.

The carrying value of cash and cash equivalents, restricted cash, accounts receivable, notes receivable, other receivable, accounts payable, other payables and accrued liabilities and notes payable approximate fair value because of the short term nature of these items. The estimated fair values of short-term bank loans were not materially different from their carrying value as presented due to the short maturities and that the interest rates on the borrowing approximate those that would have been available for loans of similar remaining maturity and risk profile. As the carrying amounts are reasonable estimates of the fair value, these financial instruments are classified within Level 1 of the fair value hierarchy. The Company identified notes payable as a Level 2 instrument due to the fact that the inputs to the valuation are primarily based upon readily observable pricing information. The balance of notes payable, which was measured and disclosed at fair value, was \$5,968,252 and \$3,850,478 at March 31, 2016 and 2015, respectively.

Warrants, which are accounted as liabilities, are treated as derivative instruments, and are measured at each reporting date for their fair value using Level 3 inputs. The fair value of warrants was \$537,250 and \$3,823,590 at March 31, 2016 and 2015, respectively. Also see Note 6(t).

(c) Cash and Cash Equivalents

The Company considers highly-liquid investments purchased with original maturities of three months or less to be cash equivalents.

Restricted cash, as of March 31, 2016 and December 31, 2015, represented time deposits on account for earning interest income. As of March 31, 2016, the Company's restricted cash were \$16,277,051, which reflects a one-year Certificate of Time Deposit (CD) with Hangzhou Bank Jinhua Branch.

(d) Inventories

Inventories are stated at the lower of cost or net realizable value (market value). The cost of raw materials is determined on the basis of weighted average. The cost of finished goods is determined on the weighted average basis and comprises direct materials, direct labor and an appropriate proportion of overhead.

Net realizable value is based on estimated selling prices less selling expenses and any further costs expected to be incurred for completion. Adjustments to reduce the cost of inventory to its net realizable value are made, if required, for estimated excess, obsolescence, or impaired balances.

(e) Accounts Receivable

Accounts receivable are recognized and carried at net realizable value. An allowance for doubtful accounts is recorded in periods in which the Company determines a loss is probable, based on its assessment of specific factors, such as troubled collections, historical experience, accounts aging, ongoing business relations and other factors. Accounts are written off after an exhaustive collection effort. If accounts receivable are to be provided for, or written off, they are recognized in the consolidated statement of operations within the operating expenses line item. As of March 31, 2016 and December 31, 2015, the Company had no allowance for doubtful accounts, as per the management's judgment based on their best knowledge.

As of March 31, 2016 and December 31, 2015, the credit terms with the Company's customers were typically 150 to 180 days after delivery.

(f) Notes receivable

Notes receivable represent short-term loans to third parties with the maximum term of one year. Interest income will be recognized according to each agreement between a borrower and the Company on an accrual basis. If notes receivable are paid back or written off, that transaction will be recognized in the relevant year. If the loan default is probable, reasonably assured and the loss can be reasonably estimated, the Company will recognize income if the written-off loan is recovered at a future date. In case of any foreclosure proceedings or legal actions being taken, the Company provides an accrual for the related foreclosure expenses and related litigation expenses. The Company also receives notes receivable from the JV Company to settle the accounts receivable.

(g) Prepayments

Prepayments represent cash paid in advance to suppliers, which also includes advances to raw material suppliers, mold manufacturers, and suppliers of equipment.

As of December 31, 2013, the Company recorded a significant prepayment made by the Company to a supplier Nanjing Shangtong (as defined in Note 16) as an advance of RMB 353 million (\$54,721,895) and deposited by Kandi Wanning (renamed to Kandi Hainan in January 2016) to Nanjing Shangtong. As of December 31, 2015, the advance to Nanjing Shangtong was transferred to construction-in-progress as described in Note 16.

Advances for raw materials purchases typically are settled within two months by the Company's receipt of raw materials. Prepayment is offset against purchase amount after equipment or materials are delivered.

(h) Plant and Equipment

Plant and equipment are carried at cost less accumulated depreciation. Depreciation is provided over the estimated useful lives of assets, using the straight-line method. Leasehold improvements are amortized over the life of the asset or the term of the lease, whichever is shorter. Estimated useful lives are as follows:

Buildings	30 years
Machinery and equipment	10 years
Office equipment	5 years
Motor vehicles	5 years
Molds	5 years

The cost and related accumulated depreciation of assets sold or otherwise retired are eliminated from the accounts and any gain or loss is included in the statement of income. The cost of maintenance and repairs is charged to expense as incurred, whereas significant renewals and betterments are capitalized.

(i) Construction in Progress

Construction in progress (CIP) represents the direct costs of construction, the acquisition cost of buildings or machinery and design fees. Capitalization of these costs ceases, and the construction in progress is transferred to plant and equipment, when substantially all the activities necessary to prepare the assets for their intended use are completed. No depreciation is provided until the assets are completed and ready for their intended use. No interest expense has been capitalized for CIP as of March 31, 2016, as the Company did not get loans for CIP.

(j) Land Use Rights

According to the Chinese laws, land in the PRC is owned by the government and land ownership rights cannot be sold to an individual or to a private company. However, the government grants the user a land use right to use the land. The land use rights granted to the Company are being amortized using the straight-line method over the term of fifty years.

(k) Accounting for the Impairment of Long-Lived Assets

The Company periodically evaluates the carrying value of long-lived assets to be held and used, including intangible assets subject to amortization, when events and circumstances warrant such a review, pursuant to the guidelines established in Statement of Financial Accounting Standards (SFAS) No. 144 (now known as ASC 360). The carrying value of a long-lived asset is considered impaired when the anticipated undiscounted cash flow from such asset is separately identifiable and is less than its carrying value. In that event, a loss is recognized based on the amount by which the carrying value exceeds the fair market value of the long-lived asset. Fair market value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved. Losses on long-lived assets to be disposed of are determined in a similar manner, except that fair market values are reduced for the cost to dispose.

During the reporting period, no impairment loss was recognized.

(l) Revenue Recognition

Revenue represents the invoiced value of goods sold. Revenue is recognized when the Company ships the goods to its customers and all of the following criteria are met:

- Persuasive evidence of an arrangement exists;
- Delivery has occurred or services have been rendered;
- The seller's price to the buyer is fixed or determinable; and
- Collectability is reasonably assured.

The Company recognized revenue when the products and the risk they carry are transferred to the other party.

(m) Research and Development

Expenditures relating to the development of new products and processes, including significant improvements to existing products, are expensed as incurred. Research and development expenses were \$205,968 and \$571,020 for the three months ended March 31, 2016 and 2015, respectively.

(n) Government Grants

Grants and subsidies received from the PRC Government are recognized when the proceeds are received or collectible.

For the three months ended March 31, 2016 and 2015, \$194,473 and \$0 grants were received by the Company's subsidiaries from the PRC government.

(o) Income Taxes

The Company accounts for income tax using an asset and liability approach, which allows for the recognition of deferred tax benefits in future years. Under the asset and liability approach, deferred taxes are provided for the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The accounting for deferred tax calculation represents the management's best estimate on the most likely future tax consequences of events that have been recognized in our financial statements or tax returns and related future anticipation. A valuation allowance is provided for deferred tax assets if it is more likely than not these items will either expire before the Company is able to realize their benefits, or that future realization is uncertain.

(p) Foreign Currency Translation

The accompanying consolidated financial statements are presented in United States dollars. The functional currency of the Company is the Renminbi (RMB). Capital accounts of the consolidated financial statements are translated into United States dollars from RMB at their historical exchange rates when the capital transactions occurred.

Assets and liabilities are translated at the exchange rates as of balance sheet date. Income and expenditures are translated at the average exchange rate of the reporting period, which rates are obtained from the website: <http://www.oanda.com>

	March 31, 2016	December 31, 2015	March 31, 2015
Period end RMB : USD exchange rate	6.45080	6.49270	6.13210
Average RMB : USD exchange rate	6.54144	6.24010	6.15290

(q) Comprehensive Income

Comprehensive income is defined to include all changes in equity except those resulting from investments by owners and distributions to owners. Among other disclosures, all items that are required to be recognized under current accounting standards as components of comprehensive income are required to be reported in a financial statement that is presented with the same prominence as other financial statements. Comprehensive income includes net income and the foreign currency translation changes.

(r) Segments

In accordance with ASC 280-10, *Segment Reporting* (ASC 280-10), the Company's chief operating decision makers rely upon the consolidated results of operations when making decisions about allocating resources and assessing performance of the Company. As a result of the assessment made by the chief operating decision makers, the Company has only one single operating segment. The Company does not distinguish between markets or segments for the purpose of internal reporting.

(s) Stock Option Expenses

The Company's stock option expenses are recorded in accordance with ASC 718 and ASC 505.

The fair value of stock options is estimated using the Black-Scholes-Merton model. The Company's expected volatility assumption is based on the historical volatility of the Company's common stock. The expected life assumption is primarily based on the expiration date of the option. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

The recognition of the stock option expenses is based on awards expected to vest, and there were no estimated forfeitures. ASC standards require forfeitures to be estimated at the time of grant and revised in subsequent periods, if necessary, if actual forfeitures differ from those estimates.

The stock-based option expenses for the three months ended March 31, 2016 and 2015 were \$6,109,666 and \$0, respectively. See Note 20.

(t) Warrant Costs

The Company's warrant costs are recorded in liabilities in accordance with ASC 480, ASC 505 and ASC 815.

The fair value of a warrant is estimated using the Black-Scholes-Merton model and the lattice valuation model. The Company's expected volatility assumption is based on the historical volatility of the Company's common stock. The expected life assumption is primarily based on the expiration date of the warrant. The risk-free interest rate for the expected term of the warrant is based on the U.S. Treasury yield curve in effect at the time of measurement. The warrants, which are freestanding derivatives and are classified as liabilities on the balance sheet, will be measured at fair value on each reporting date, with decreases in fair value recognized in earnings and increases in fair values were recognized in expenses.

(u) Goodwill

The Company allocates goodwill from business combinations to reporting units based on the expectation that the reporting unit is to benefit from the business combination. The Company evaluates its reporting units on an annual basis and, if necessary, reassigns goodwill using a relative fair value allocation approach. Goodwill is tested for impairment at the reporting unit level on an annual basis and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value. These events or circumstances could include a significant change in the business climate, legal factors, operating performance indicators, competition, or sale or disposition of a significant portion of a reporting unit.

Application of the goodwill impairment test requires judgments, including the identification of reporting units, assignment of assets and liabilities to reporting units, assignment of goodwill to reporting units, and the determination of the fair value of each reporting unit. The Company first assesses qualitative factors to determine whether it is more likely than not that goodwill is impaired. If the more likely than not threshold is met, the Company performs a quantitative impairment test.

As of March 31, 2016 and 2015, the Company determined that its goodwill was not impaired.

(v) Intangible assets

Intangible assets consist of trade names and customer relations associated with the purchase price from the allocation of Yongkang Scrou. Such assets are being amortized over their estimated useful lives of 9.7 years. Intangible assets are amortized as of March 31, 2016.

(w) Accounting for Sale of Common Stock and Warrants

Gross proceeds are firstly allocated according to the initial fair value of the freestanding derivative instruments (i.e. the warrants issued to the Company's investors in its previous offerings, or the Investor Warrants). The remaining proceeds are allocated to common stock. The related issuance expenses, including the placement agent cash fees, legal fees, the initial fair value of the warrants issued to the placement agent and others were allocated between the common stock and the Investor Warrants based on how the proceeds are allocated to these instruments. Expenses related to the issuance of common stock were charged to paid-in capital. Expenses related to the issuance of derivative instruments were expensed upon issuance.

(x) Consolidation of variable interest entities

In accordance with accounting standards regarding consolidation of variable interest entities, VIEs are generally entities that lack sufficient equity to finance their activities without additional financial support from other parties or whose equity holders lack adequate decision making ability. All VIEs with which the Company is involved must be evaluated to determine the primary beneficiary of the risks and rewards of the VIE. The primary beneficiary is required to consolidate the VIE for financial reporting purposes.

The Company has concluded, based on the contractual arrangements, that Kandi New Energy is a VIE and that the Company's wholly-owned subsidiary, Kandi Vehicles, absorbs a majority of the risk of loss from the activities of these companies, thereby enabling the Company, through Kandi Vehicles, to receive a majority of their respective expected residual returns.

Additionally, as Kandi New Energy is under common control with other entities, the consolidated financial statements have been prepared as if the transactions had occurred retroactively as to the beginning of the reporting period of these consolidated financial statements.

Control and common control are defined under the accounting standards as an individual, enterprise, or immediate family members who hold more than 50 percent of the voting ownership interest of each entity. Because the owners collectively own 100% of Kandi New Energy, and have agreed to vote their interests in concert since the establishment of each of these three companies as memorialized the Voting Rights Proxy Agreement, the Company believes that the owners collectively have control and common control of the company. Accordingly, the Company believes that Kandi New Energy was constructively held under common control by Kandi Vehicles as of the time the Contractual Agreements were entered into, establishing Kandi Vehicles as their primary beneficiary. Kandi Vehicles, in turn, is owned by Continental, which is owned by the Company.

NOTE 7 NEW ACCOUNTING PRONOUNCEMENTS

The FASB has issued No. 2016-07 Topic 323, Investments Equity Method and Joint Ventures: Simplifying the Transition to the Equity Method of Accounting, which aims to identify, evaluate, and improve areas of generally accepted accounting principles (GAAP) for which cost and complexity can be reduced while maintaining or improving the usefulness of the information provided to users of financial statements. The amendments in this Update affect all entities that have an investment that becomes qualified for the equity method of accounting as a result of an increase in the level of ownership interest or degree of influence. The amendments in this Update are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016. The amendments should be applied prospectively upon their effective date to increases in the level of ownership interest or degree of influence that result in the adoption of the equity method. Earlier application is permitted.

The FASB has issued No. 2016-08 Topic 606, Revenue from Contracts with Customers: Principal versus Agent Considerations (Reporting Revenue Gross versus Net), which requires the entity to determine whether the nature of its promise is to provide good or service to the customer (that is, the entity is a principal) or to arrange for the good or service to be provided to the customer by the other party (that is, the entity is an agent). This determination is based upon whether the entity controls the good or the service before it is transferred to the customer. The amendments in this Update affect entities with transactions included within the scope of Topic 606. The core principle of the guidance in Topic 606 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendments in this Update affect the guidance in Accounting Standards Update 2014-09, Revenue from Contracts with Customers (Topic 606), which is not yet effective. The effective date and transition requirements for the amendments in this Update are the same as the effective date and transition requirements of Update 2014-09. Accounting Standards Update No. 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, defers the effective date of Update 2014-09 by one year.

The FASB has issued No. 2016-09 Topic 718, Compensation Stock Compensation: Improvements to Employee Share-Based Payment Accounting, which aims to identify, evaluate, and improve areas of generally accepted accounting principles (GAAP) for which cost and complexity can be reduced while maintaining or improving the usefulness of the information provided to users of financial statements. The amendments in this Update affect all entities that issue share-based payment awards to their employees. The areas for simplification in this Update involve several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The amendments eliminate the guidance in Topic 718 that was indefinitely deferred shortly after the issuance of FASB Statement No. 123 (revised 2004), Share-Based Payment. For public business entities, the amendments in this Update are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. For all other entities, the amendments are effective for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted for any entity in any interim or annual period.

The FASB has issued No. 2016-10 Topic 606, Revenue from Contracts with Customers: Identifying Performance Obligations and Licensing. The amendments in this Update do not change the core principle of the guidance in Topic 606. Rather, the amendments in this Update clarify the following two aspects of Topic 606: identifying performance obligations and the licensing implementation guidance, while retaining the related principles for those areas. The amendments in this Update clarify that contractual provisions that, explicitly or implicitly, require an entity to transfer control of additional goods or services to a customer (for example, by requiring the entity to transfer control of additional rights to use or rights to access intellectual property that the customer does not already control) should be distinguished from contractual provisions that, explicitly or implicitly, define the attributes of a single promised license (for example, restrictions of time, geographical region, or use). The amendments in this Update affect the guidance in Accounting Standards Update 2014-09, Revenue from Contracts with Customers (Topic 606), which is not yet effective.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the Company's consolidated financial statements upon adoption.

NOTE 8 CONCENTRATIONS

(a) Customers

For the three-month period ended March 31, 2016, the Company's major customers, each of whom accounted for more than 10% of the Company's consolidated revenue, were as follows:

Major Customers	Sales		Accounts Receivable	
	Three Months Ended March 31 2016	Three Months Ended March 31 2015	March 31 2016	December 31 2015
Jinhua Chaoneng Automobile Sales Co. Ltd.	59%	-	26%	-
Kandi Electric Vehicles Group Co., Ltd.	26%	-	38%	46%

(b) Suppliers

For the three-month period ended March 31, 2016, the Company's material suppliers, each of whom accounted for more than 10% of the Company's total purchases, were as follows:

Major Suppliers	Purchases		Accounts Payable	
	Three Months Ended March 31 2016	Three Months Ended March 31 2015	March 31 2016	December 31 2015
Dongguan Chuangming Battery Technology Co., Ltd.	47%	10%	21%	15%
Zhejiang Tianneng Energy Technology Co., Ltd.	32%	38%	26%	24%

NOTE 9 EARNINGS PER SHARE

The Company calculates earnings per share in accordance with ASC 260, *Earnings Per Share*, which requires a dual presentation of basic and diluted earnings per share. Basic earnings per share are computed using the weighted average number of shares outstanding during the reporting period. Diluted earnings per share represents basic earnings per share adjusted to include the potentially dilutive effect of outstanding stock options, warrants and convertible notes (using the if-converted method). For the three months ended March 31, 2016 and 2015, the average number of potentially dilutive common shares was 17,910 and 116,694, respectively. The potential dilutive common shares as at the three months ended March 31, 2016 and 2015 was 5,849,419 and 1,076,679 shares respectively.

The following is the calculation of earnings per share:

	For three months ended March 31,	
	2016	2015
Net income	\$ 88,420	\$ 6,131,653
Weighted average shares used in basic computation	47,009,834	46,281,299
Dilutive shares	17,910	116,694
Weighted average shares used in diluted computation	47,027,744	46,397,993
Earnings per share:		
Basic	\$ 0.00	\$ 0.13
Diluted	\$ 0.00	\$ 0.13

NOTE 10 - ACCOUNTS RECEIVABLE

Accounts receivable are summarized as follows:

	March 31, 2016	December 31, 2015
Accounts receivable	\$ 40,867,698	\$ 8,136,421
Less: Provision for doubtful debts	-	-
Accounts receivable, net	\$ 40,867,698	\$ 8,136,421

NOTE 11 - INVENTORIES

Inventories are summarized as follows:

	March 31, 2016	December 31, 2015
Raw material	\$ 20,044,645	\$ 8,509,421
Work-in-progress	1,703,490	1,648,498
Finished goods	4,555,352	8,101,661
Total inventories	26,303,487	18,259,580
Less: provision for slowing moving inventories	(489,057)	(485,901)
Inventories, net	\$ 25,814,430	\$ 17,773,679

NOTE 12 - NOTES RECEIVABLE

Notes receivable are summarized as follows:

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-Q

	March 31, 2016	December 31, 2015
Notes receivable as below:		
Due September 30, 2016, interest at 7.2% per annum	\$ 7,884,560	\$ 10,578,574
Bank acceptance notes	3,391,827	2,454,741
Notes receivable	\$ 11,276,387	\$ 13,033,315

Details of Notes receivable are as below as of March 31, 2016:

Index	Amount (\$)	Counter party	Relationship	Nature	Manner of settlement
1	7,884,560	Yongkang HuiFeng Guarantee Co., Ltd	No relationship beyond loan	Receive interest income	Not due
2	1,376,573	Kandi Changxing	Subsidiary of the JV Company	Payments for sales	Not due
3	465,059	Kandi Shanghai	Subsidiary of the JV Company	Payments for sales	Not due
4	1,550,195	Beijing Pangda Xinhong New Energy Automobile Sales and Service Co. Ltd.	No relationship beyond loan	Payments for sales	Not due

Details of Notes receivable are as below as of December 31, 2015:

Index	Amount (\$)	Counter party	Relationship	Nature	Manner of settlement
1	10,578,574	Yongkang HuiFeng Guarantee Co., Ltd	No relationship beyond loan	Receive interest income	Not due
2	1,871,332	Kandi Electric Vehicles Group Co., Ltd.	Joint venture of the Company	Payments for sales	Not due
3	59,744	Kandi Shanghai	Subsidiary of the JV Company	Payments for sales	Not due
4	523,665	Zhuhai Enpower electrical Limited	No relationship beyond loan	Payments for sales	Not due

NOTE 13 AMOUNT DUE FROM RELATED PARTY

The details for amount due from related parties as at the March 31, 2016 and December 31, 2015 were as below:

	March 31, 2016	December 31, 2015
Service Company	5,585,613	40,606,162
Total due from related party	\$ 5,585,613	40,606,162

The Company has 9.5% ownership of the Service Company and the Chairman and CEO of the Company, Mr.Hu, has 13% ownership of the Service Company. The main transactions between the Company and the Service Company are those the Service Company bought battery for the speed upgrade and EV parts for repairing and maintenance for its operating electric vehicles.

The transaction with JV Company, please refer to Note 23.

NOTE 14 PLANT AND EQUIPMENT

Plant and equipment consisted of the following:

	March 31, 2016	December 31, 2015
At cost:		
Buildings	\$ 13,973,387	\$ 13,883,211
Machinery and equipment	9,322,054	7,804,097
Office equipment	486,395	395,328
Motor vehicles	337,404	335,227
Moulds	33,145,643	32,931,740
	57,264,883	55,349,603
Less : Accumulated depreciation		
Buildings	\$ (3,897,971)	\$ (3,755,582)
Machinery and equipment	(8,741,563)	(7,108,925)
Office equipment	(233,148)	(249,378)
Motor vehicles	(280,429)	(271,495)
Moulds	(24,517,781)	(23,385,363)
	(37,670,892)	(34,770,743)
Less: provision for impairment for fixed assets	(54,083)	(53,734)
Plant and equipment, net	\$ 19,539,908	\$ 20,525,126

As of March 31, 2016 and December 31, 2015, the net book value of plant and equipment pledged as collateral for bank loans was \$9,899,767 and \$9,949,661, respectively.

Depreciation expenses for the first quarter of 2016 and 2015 were \$1,132,732 and \$1,361,481, respectively.

NOTE 15 LAND USE RIGHTS

The Company's land use rights consisted of the following:

	March 31, 2016	December 31, 2015
Cost of land use rights	\$ 15,376,185	\$ 15,276,957
Less: Accumulated amortization	(2,441,977)	(2,341,836)
Land use rights, net	\$ 12,934,208	\$ 12,935,121

As of March 31, 2016 and December 31, 2015, the net book value of land use rights pledged as collateral for the Company's bank loans was \$9,506,449 and \$9,512,598, respectively. Also see Note 17.

The amortization expense for the three months ended March 31, 2016 and 2015 was \$69,987 and \$97,379, respectively. Amortization expense for the next five years and thereafter is as follows:

2016 (nine months)	\$ 209,961
2017	279,948
2018	279,948
2019	279,948
2020	279,948
Thereafter	11,604,455
Total	\$ 12,934,208

NOTE 16 - CONSTRUCTION-IN-PROGRESS

As of March 31, 2016, a total amount of advances to a supplier of RMB 353,000,000, or \$54,721,895, made by Kandi Hainan to Nanjing Shangtong Auto Technologies Co., Ltd. (Nanjing Shangtong) for equipment purchases was included in Construction in Process (CIP). None of the CIP was transferred to property, plant and equipment as of March 31, 2016.

Because the government of Hainan Province is enforcing a new plan to centralize the manufacturing in designated industry park, the Wanning facility will be relocated from Wanning City to Haikou City. In addition, all related expenses and assets disposal caused by the relocation were compensated by the local government. Currently Hainan facility is under construction and will be completed for production testing in the middle of 2017.

No depreciation is provided for CIP until such time as the facility is completed and placed into operation.

The contractual obligation under CIP of the Company as of March 31, 2016 is as follow:

Project	Total in CIP as of March 31, 2016	Contracted but not provided for	Total contract amount
Kandi Hainan facility	\$ 54,750,430	\$ 6,510,820	\$ 61,261,250
Total	\$ 54,750,430	\$ 6,510,820	\$ 61,261,250

As of March 31, 2016 and December 31, 2015, the Company had CIP amounting to \$54,750,430 and \$54,368,753, respectively.

No interest expense has been capitalized for CIP as of March 31, 2016 and 2015, respectively, as the Company did not get loans for CIP.

NOTE 17 SHORT TERM BANK LOANS

Short-term loans are summarized as follows:

	March 31, 2016	December 31, 2015
Loans from China Ever-bright Bank		
Interest rate 4.698% per annum, due October 28, 2016, secured by the assets of the Company, guaranteed by Mr. Hu Xiaoming and his wife.	12,091,523	12,013,492
Loans from Hangzhou Bank		
Interest rate 4.60% per annum, due October 13, 2016, secured by the assets of the Company. Also see Note 14 and Note 15.	7,564,953	7,516,134
Interest rate 4.82% per annum, due July 2, 2016, secured by the assets of the Company. Also see Note 14 and Note 15.	7,750,977	7,700,956
Interest rate 4.85% per annum, due July 12, 2016, secured by the assets of the Company. Also see Note 14 and Note 15.	3,441,434	3,419,225
Interest rate 4.35% per annum, due March 23, 2017, secured by the assets of the Company. Also see Note 14 and Note 15.	6,045,762	-
Interest rate 5.35% per annum, paid off on March 22, 2016, secured by the assets of the Company. Also see Note 14 and Note 15.	-	6,006,746
	\$ 36,894,649	36,656,553

The Interest Expenses for the three months ended March 31, 2016 and 2015 were \$442,079 and \$587,293, respectively.

As of March 31, 2016, the aggregate amount of short-term loans that was guaranteed by various third parties was \$0.

NOTE 18 NOTES PAYABLE

By issuing bank notes payables rather than paying cash to suppliers, the Company can defer the payments until the date the bank notes payable are due. Simultaneously, the Company may need to deposit restricted cash in banks to back up the bank notes payable. The restricted cash deposited in banks will generate interest income.

Notes payable for March 31, 2016 and December 31, 2015 were summarized as follows:

	March 31, 2016	December 31, 2015
Bank acceptance notes:		
Due May 12, 2016	\$ 2,325,293	\$ 2,310,287
Due June 17, 2016	1,550,195	1,540,191
Due July 6, 2016	1,550,195	-
Due July 14, 2016	232,529	-
Due August 23, 2016	155,020	-
Due September 30, 2016	155,020	-
Total	\$ 5,968,252	\$ 3,850,478

A bank acceptance note is a promised future payment or time draft, which is accepted and guaranteed by a bank and drawn on a deposit at the bank. The banker's acceptance notes specifies the amount of funds, the date, and the person to which the payment is due.

After acceptance, the draft becomes an unconditional liability of the bank, but the holder of the draft can sell (exchange) it for cash at a discount to a buyer who is willing to wait until the maturity date for the funds in the deposit. \$5,968,252 and \$3,850,478 were held as collateral for the notes payable as of March 31, 2016 and December 31, 2015, respectively.

NOTE 19 TAXES**(a) Corporation Income Tax**

In accordance with the relevant tax laws and regulations of the PRC, the applicable corporate income tax (CIT) rate for Kandi's subsidiaries are as below:

Company Name	Applicable Corporate Income Tax
Kandi Vehicles	15%
Kandi New Energy	25%
Yongkang Scruo	25%
Kandi Hainan	25%
JV Company	25%

The Company, qualified as a high technology company in China, was entitled to pay a reduced CIT rate of 15%. After combining with the research and development tax credit of 25% on certain qualified research and development expenses, the final effective reduced income tax rate was 15.88%. The combined tax benefits were 45.28%. The actual effective income tax rate was reduced from 25% to 13.68% in the first quarter of 2016.

According to the PRC CIT reporting system, the CIT sales cut-off base is concurrent with the value-added tax (VAT), which should reported to the State Administration of Taxation (SAT) on a quarterly basis. Since the VAT and CIT are accounted for on a VAT tax basis that recorded all sales on a State provided official invoices reporting system, the Company is reporting the CIT according to the SAT prescribed tax reporting rules. Under the VAT tax reporting system, sales cut-off is not done on an accrual basis but rather on a VAT taxable reporting basis. Therefore, when the Company adopted U.S. GAAP using an accrual basis, the sales cut-off CIT timing (due to the VAT reporting system) creates a temporary sales cut-off timing difference. This difference is reflected in the deferred tax assets or liabilities calculations on the income tax estimate reported elsewhere on the report.

Effective January 1, 2007, the Company adopted ASC 740, Income Taxes. The interpretation addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements.

Under ASC 740, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. ASC 740 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. As of March 31, 2016, the Company did not have a liability for unrecognized tax benefits. The Company files income tax returns to the U.S. Internal Revenue Services (IRS) and states where the Company has operations. The Company is subject to U.S. federal or state income tax examinations by the IRS and relevant state tax authorities for years after 2006. During the periods open to examination, the Company has net operating loss carry forwards (NOLs) for U.S. federal and state tax purposes that have attributes from closed periods. Since these NOLs may be utilized in future periods, they remain subject to examination. The Company also files certain tax returns in China. As of March 31, 2016, the Company was not aware of any pending income tax examinations by U.S. and China tax authorities. The Company's policy is to record interest and penalties on uncertain tax provisions as income tax expense. As of March 31, 2016, the Company has no accrued interest or penalties related to uncertain tax positions. The Company has not recorded a provision for U.S. federal income tax f as of March 31, 2016 due to the net operating loss in the first quarter of 2016 and an accumulated net operating loss carry forward from prior years in the United States.

Income tax expense (benefit) for the three months ended March 31, 2016 and 2015 is summarized as follows:

	For Three Months Ended		
	March 31,		
	(Unaudited)		
	2016		2015
Current:			
Provision for CIT	\$ (2,636,675)	\$	1,008,909
Provision for Federal Income Tax	-		-
Deferred:			
Provision for CIT	-		-
Income tax expense (benefit)	\$ (2,636,675)	\$	1,008,909

28

Edgar Filing: Kandi Technologies Group, Inc. - Form 10-Q

The Company's income tax expense (benefit) differs from the expected tax expense for the three months ended March 31, 2016 and 2015 (computed by applying the U.S. Federal Income Tax rate of 34% and PRC CIT rate of 25%, respectively, to income before income taxes) as follows:

For Three Months Ended			
March 31,			
(Unaudited)			
	2016		2015
Computed "expected" expense	\$ (3,957,325)	\$	3,109,591
Favorable tax rate	(113,208)		(2,416,981)
Permanent differences	(1,243,626)		(27,713)
Valuation allowance	2,677,484		344,012
Income tax expense (benefit)	\$ (2,636,675)	\$	1,008,909

The tax effects of temporary differences that give rise to the Company's net deferred tax assets and liabilities as of March 31, 2016 and December 31, 2015 are summarized as follows:

	March 31,	December 31,
	2016	2015
	(Unaudited)	
Current portion:		
Deferred tax assets (liabilities):		
Expense	\$ (170,862)	(272,953)
Subtotal	(170,862)	(272,953)
Deferred tax assets (liabilities):		
Sales cut-off difference derived from Value Added Tax reporting system to calculate PRC Corporation Income Tax in accordance with the PRC State Administration of Taxation		
Other	915,772	290,850
Subtotal	915,772	(2,101,971)
Total deferred tax assets (liabilities) - current portion	744,910	(2,374,924)
Non-current portion:		
Deferred tax assets (liabilities):		
Depreciation	(312,693)	(353,115)
Loss carried forward	2,677,484	7,645,386
Valuation allowance	(2,677,484)	(7,645,386)
Subtotal	(312,693)	(353,115)
Deferred tax liabilities:		
Accumulated other comprehensive gain	-	(1,240,467)
Subtotal	-	(1,240,467)
Total deferred tax assets - non-current portion	(312,693)	(1,593,582)
Net deferred tax assets (liabilities)	\$ 432,217	(3,968,506)

(b) Tax Benefit (Holiday) Effect

For the three months ended March 31, 2016 and 2015, the PRC CIT rate was 25%. Certain subsidiaries of the Company are entitled to tax benefit (holidays) for the three months ended March 31, 2016 and 2015.

The combined effects of the income tax expense exemptions and reductions available to the Company for the three months ended March 31, 2016 and 2015 are as follows:

	For the Three Months Ended		
	March 31,		
	(Unaudited)		
	2016		2015
Tax benefit (holiday) credit	\$ (113,208)	\$	2,416,981
Basic net income per share effect	\$ (0.002)	\$	0.052

NOTE 20 - STOCK OPTIONS AND WARRANTS

(a) Stock Options

On May 29, 2015, the Compensation Committee of the Board of Directors of the Company approved the grant of stock options to purchase 4,900,000 shares of common stock at an exercise price of \$9.72 per share to the Company's directors, officers and senior employees. The stock options will vest ratably over three years and expire on the tenth anniversary of the grant date. The Company valued the stock options at \$39,990,540 and will amortize the stock compensation expense using the straight-line method over the service period from May 29, 2015 through May 29, 2018. The value of the options was estimated using the Black Scholes Model with an expected volatility of 90%, expected life of 10 years, risk-free interest rate of 2.23% and expected dividend yield of 0.00%.

The fair value of the 4,900,000 options issued to the employees and directors on May 29, 2015 is \$8.1613 per share.

(b) Warrants

On June 26, 2013, the Company entered into a securities purchase agreement (the 2013 Securities Purchase Agreement) with certain institutional investors (the Third Round Investors) that closed on July 1, 2013, pursuant to which the Company sold to the Third Round Investors, in a registered direct offering, an aggregate of 4,376,036 shares of the Company's common stock at a negotiated purchase price of \$6.03 per share. Under the 2013 Securities Purchase Agreement, the Third Round Investors also received Series A warrants for the purchase of up to 1,750,415 shares of the Company's common stock at an exercise price of \$7.24 per share and an option to make an additional investment in the form of Series B warrants and Series C warrants, Series B warrants to purchase a maximum aggregate of 728,936 shares of the Company's common stock at an exercise price of \$7.24 per share and Series C warrants to purchase a maximum aggregate of 291,574 shares of the Company's common stock at an exercise price of \$8.69 (the Third Round Warrants). As of June 30, 2014, all the Third Round Warrants had been exercised on a cash basis. In addition, the placement agent for this transaction also received warrants for the purchase of up to 262,562 shares of the Company's common stock at an exercise price of \$7.24 per share (the Third Round Placement Agent Warrants), which will expire on July 1, 2016, with a fair value of \$1.054 per share. Based on the warrants agreement, they contain the downward ratchet protection and anti-dilution terms, so we clarified these warrants as liabilities on the balance sheet.

On January 15, 2014, the Company sold to certain institutional investors warrants to purchase an aggregate of 1,429,393 shares of the Company's common stock at an exercise price of \$15 per share (the January 2014 Warrants) for a total purchase price of approximately \$14,294. According to the warrant subscription agreement by and among the Company and the holders, the exercise price was reduced by a credit of \$0.01, which reflected the price per warrant share paid in connection with the issuance of the January 2014 Warrants. Consequently, the effective exercise price per warrant share is \$14.99. The January 2014 Warrants expired on January 30, 2015 and no investors exercised their warrants.

On March 19, 2014, the Company entered into a securities purchase agreement with certain purchasers (the Fourth Round Investors), pursuant to which the Company sold to the Fourth Round Investors, in a registered direct offering, an aggregate of 606,000 shares of common stock, at a negotiated purchase price of \$18.24 per share, for aggregate gross proceeds to the Company of approximately \$11,053,440, before deducting fees to the placement agent and other estimated offering expenses payable by the Company. As part of the transaction, the Fourth Round Investors also received warrants for the purchase of up to 90,900 shares of the Company's common stock at an exercise price of \$22.80 per share (the Fourth Round Warrants). In addition, the placement agent for this transaction also received warrants for the purchase of up to 36,360 shares of the Company's common stock at an exercise price of \$22.80 per share, which was adjusted to \$9.72 on July 27, 2015. The Fourth Round Warrants have a term of eighteen months and are exercisable by the holders at any time after the date of issuance. On August 8, 2015, the Company extended the expiration date of these warrants from September 21, 2015 to January 20, 2016, among these warrants, 44,783 share were exercised in January 2016 and the rest warrant shares were expired and without exercise. Based on the warrants agreement, they contains the downward ratchet protection and anti-dilution terms, so we clarified these warrants as liabilities on the balance sheet

On September 4, 2014, the Company entered in a securities purchase agreement with certain purchasers (the Fifth Round Investors), pursuant to which the Company sold to the Fifth Round Investors, in a registered direct offering, an aggregate of 4,127,908 shares of its common stock at a price of \$17.20 per share, for aggregate gross proceeds to the Company of approximately \$71 million, before deducting fees to the placement agent and other estimated offering expenses payable by the Company (the Fifth Round Financing). As part of the transaction, the Fifth Round Investors also received warrants for the purchase of up to 743,024 shares of the Company's common stock at an exercise price of \$21.50 per share (the Fifth Round Warrants), which was adjusted to \$9.72 on July 27, 2015. The Fifth Round Warrants have a term of seventeen months and are exercisable by the holders at any time after the date of issuance. On August 8, 2015, the Company extended the expiration date of these warrants from February 4, 2016 to June 3, 2016. In addition, the placement agent for this transaction also received warrants for the purchase of up to 206,395 shares of the Company's common stock at an exercise price of \$20.64 per share, which was adjusted to as exercise price of \$9.72 per share in December 2015 due to its financial consulting service. The placement agent's warrants are exercisable for a term of seventeen months after the six months from the issuance. As of March 31, 2016, the fair value of the Fifth Round Warrants was \$0.22 per share and the fair value of the Fifth Round Placement Agent Warrants was \$0.46 per share. Based on the warrants agreement, they contains the downward ratchet protection and anti-dilution terms, so we clarified these warrants as liabilities on the balance sheet.

NOTE 21 STOCK AWARD

In connection with the appointment of Mr. Henry Yu as a member of the Board of Directors (the Board), and as compensation, the Board authorized the Company to provide Mr. Henry Yu with 5,000 shares of Company's restricted common stock every six months, beginning in July 2011.

As compensation for having Mr. Jerry Lewin to serve as a member of the Board, the Board authorized the Company to provide Mr. Jerry Lewin with 5,000 shares of Company's restricted common stock every six months, beginning in August 2011.

As compensation for having Ms. Kewa Luo to serve as the Company's investor relation officer, the Board authorized the Company to provide Ms. Kewa Luo with 5,000 shares of Company's common stock every six months, beginning in September 2013.

The fair value of stock awards based on service is determined based on the closing price of the common stock on the date the shares are granted. The compensation costs for awards of common stock are recognized over the requisite service period of six months.

On December 30, 2013, the Board approved a proposal (as submitted by the Compensation Committee) of an award for selected executives and other key employees comprising a total of 335,000 shares of common stock for each fiscal year, beginning with the 2013 fiscal year, under the Company's 2008 Omnibus Long-Term Incentive Plan (the "Plan"), if the Company's Non-GAAP Net Income for the current fiscal year increased by 10% comparing to that of the prior year. The specific number of shares of common stock to be issued in respect of such award could proportionally increase or decrease if the actual Non-GAAP Net Income increase is more or less than 10%. Non-GAAP Net Income means the Company's net income for a particular year calculated in accordance with GAAP, excluding option-related expenses, stock award expenses, and the effects caused by the change of fair value of financial derivatives. For example, if Non-GAAP Net Income for the 2014 fiscal year increased by 10% compared to the Non-GAAP Net Income for the 2013 fiscal year, the selected executives and other key employees each would be granted his or her target amount of common stock of the Company. If Non-GAAP Net Income in 2014 is less than Non-GAAP Net Income in 2013, then no common stock would be granted. If Non-GAAP Net Income in 2014 increased compared to Non-GAAP Net Income in 2013 but the increase is less than 10%, then the target amount of the common stock grant would be proportionately decreased. If Non-GAAP Net Income in 2014 increased compared to Non-GAAP Net Income in 2013 but the increase is more than 10%, then the target amount of the common stock grant would be proportionately increased up to 200% of the target amount. Any such increase in the grant would be subject to the total number of shares available under the Plan, and the Company's Board and shareholders will need to approve an increase in the number of shares reserved under the Plan if the number of shares originally reserved is used up. On May 20, 2015, the shareholders of the Company approved an increase of 9,000,000 shares under the Plan at its annual meeting. The fair value of each award granted under the Plan is determined based on the closing price of the Company's stock on the date of grant of the award. To the extent that the performance goal is not met and so no shares become due, no compensation cost is recognized and any recognized compensation cost during the applicable year is reversed. The compensation expense is recognized in General and Administrative Expenses.

The stock award was below starting from 2013 based on the above award plan:

Issue Date (dd-mm-yyyyy)	For Year	Shares
22-05-2014	2013	801,163
15-04-2015 / 12-06-2015	2014	670,000
13-04-2016	2015	670,000

NOTE 22 INTANGIBLE ASSETS

The following table provides the gross carrying value and accumulated amortization for each major class of intangible assets other than goodwill:

	Remaining useful life	March 31, 2016	December 31, 2015
Gross carrying amount:			
Trade name	5.75 years	\$ 492,235	\$ 492,235
Customer relations	5.75 years	304,086	304,086
		796,321	796,321
Less : Accumulated amortization			
Trade name		\$ (198,756)	\$ (186,069)
Customer relations		(122,783)	(114,946)
		(321,539)	(301,015)
Intangible assets, net		\$ 474,782	\$ 495,306

The aggregate amortization expense for those intangible assets that continue to be amortized is reflected in amortization of intangible assets in the consolidated statements of income, and comprehensive income were \$20,523 and \$20,524 for the three months ended March 31, 2016 and 2015, respectively.

Amortization expense for the next five years and thereafter is as follows:

2016(nine months)	\$ 61,571
2017	82,095
2018	82,095
2019	82,095
2020	82,095
Thereafter	84,831
Total	\$ 474,782

NOTE 23 SUMMARIZED INFORMATION OF EQUITY METHOD INVESTMENT IN THE JV COMPANY

The Company's consolidated net income includes the Company's proportionate share of the net income or loss of the Company's equity method investees. When the Company records its proportionate share of net income, it increases equity income (loss) net in the Company's consolidated statements of income and the Company's carrying value in that investment. Conversely, when the Company records its proportionate share of a net loss, it decreases equity income (loss) net in the Company's consolidated statements of income and the Company's carrying value in that investment. All intra-entity profits and losses with the Company's equity method investees have been eliminated.

Kandi Electric Vehicles Group Co., Ltd. (the JV Company)

In March 2013, pursuant to a joint venture agreement (the JV Agreement) entered into between Kandi Vehicles and Shanghai Maple Guorun Automobile Co., Ltd. (Shanghai Guorun), a 99%-owned subsidiary of Geely Automobile Holdings Ltd. (Geely), the parties established Zhejiang Kandi Electric Vehicles Co., Ltd. (the JV Company) to develop, manufacture and sell electric vehicles (EVs) and related auto parts. Each of Kandi Vehicles and Shanghai Guorun has 50% ownership interest in the JV Company. In the fourth quarter of 2013, Kandi Vehicles entered into an ownership transfer agreement with the JV Company pursuant to which Kandi Vehicles transferred 100% of its ownership in Kandi Changxing to the JV Company. As a result, the Company indirectly has 50% economic interest in Kandi Changxing through its 50% ownership interest in the JV Company after this transfer. In November 2013, Zhejiang Kandi Electric Vehicles Jinhua Co., Ltd. (Kandi Jinhua) was formed by the JV Company. The JV Company has 100% ownership interest in Kandi Jinhua, and the Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest in Kandi Jinhua. In November 2013, Zhejiang JiHeKang Electric Vehicle Sales Co., Ltd. (JiHeKang) was formed by the JV Company. The JV Company has 100% ownership interest in JiHeKang, and the Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest in JiHeKang. In December 2013, the JV Company entered into an ownership transfer agreement with Shanghai Guorun pursuant to which the JV Company acquired 100% ownership of Kandi Electric Vehicles (Shanghai) Co., Ltd. (Kandi Shanghai). As a result, Kandi Shanghai is a wholly-owned subsidiary of the JV Company, and the Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest in Kandi Shanghai. In January 2014, Zhejiang Kandi Electric Vehicles Jiangsu Co., Ltd. (Kandi Jiangsu) was formed by the JV Company. The JV Company has 100% ownership interest in Kandi Jiangsu, and the Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest in Kandi Jiangsu. In addition, In July 2013, Zhejiang ZuoZhongYou Electric Vehicle Service Co., Ltd. (the Service Company) was formed. The JV Company had a 19% ownership interest in the Service Company. In March 2014, the JV Company changed its name to Kandi Electric Vehicles Group Co., Ltd. In August 2015, the JV Company transferred its shares of the Service Company to Shanghai Guorun and Kandi Vehicles for 9.5% respectively. As the result, the JV Company no longer has any ownership of the Service Company since the transfer. In November 2015, Hangzhou Puma Investment Management Co., Ltd. (Puma Investment) was formed by the JV Company. The JV Company has 50% ownership interest in Puma Investment and the Company, indirectly through its 50% ownership interest in the JV Company, has 25% economic interest in Puma Investment. In November 2015, Hangzhou JiHeKang Electric Vehicle Service Co., Ltd. (JiHeKang Service Company) was formed by the JV Company. The JV Company has 100% ownership interest in JiHeKang Service Company and the Company, indirectly through its 50% ownership interest in the JV Company, has 50% economic interest in JiHeKang Service Company.

As of March 31, 2016, the JV Company consolidated the following entities on its financial statements: (1) 100% interest in Kandi Changxing; (2) 100% interest in Kandi Jinhua; (3) 100% interest in JiHeKang; (4) 100% interest in Kandi Shanghai; (5) 100% interest in Kandi Jiangsu; (6) 100% interest in JiHeKang Service; and (7) 50% interest in Puma Investment. The Company accounted for its investments in the JV Company under the equity method of accounting as the Company has 50% ownership interest in the JV Company. Therefore, the Company's consolidated net income for the three months ended March 31, 2016, included equity income from the JV Company during such periods.

The combined results of operations and financial position of the JV Company are summarized below:

	Three months ended	
	March 31,	
	2016	2015
Condensed income statement information:		
Net sales	\$ (495,567)	\$ 30,564,996
Gross income	(1,062,647)	7,980,664
Net income	(8,068,447)	803,221
Company's equity in net income of JV	\$ (4,034,224)	\$ 401,610

	March 31,	December 31,
	2016	2015
Condensed balance sheet information:		
Current assets	\$ 411,728,560	\$ 455,368,595
Noncurrent assets	195,864,187	191,145,583
Total assets	\$ 607,592,746	\$ 646,514,178
Current liabilities	386,899,933	429,487,683
Noncurrent liabilities	47,023,088	36,348,514
Equity	173,669,725	180,677,981
Total liabilities and equity	\$ 607,592,746	\$ 646,514,178

Starting from January 1, 2016, one criterion for the EV models to receive NEV subsidy is that the highest speed must meet 100 kilometers per hour, and the Ministry of Industry and Information Technology of China, or the MIIT, announced a new list of qualified EV models to receive the national subsidy. However, the National Tax Bureau has not released the list of EV models to receive purchase tax exemption accordingly. As such, the JV Company had no EV products sold in the first quarter of 2016 because potential purchasers could not obtain any tax exemption before the updated list from the National Tax Bureau was promulgated. The JV Company received the tax exemption approval on four EV models in early April 2016 and has started to sell EV products.

Note: The following table illustrates the captions used in the Company's Income Statements for its equity based investment in the JV Company.

The Company's equity method investment in the JV Company for the three months ended March 31, 2016 and 2015 are as follows:

	Three Months ended March 31,	
	2016	2015
Investment in JV Company, beginning of the period,	\$ 90,337,899	\$ 83,309,095
Share of profit	(4,034,224)	401,610
Intercompany transaction elimination	(789,329)	(116,252)
Year 2015 unrealized profit realized	1,083	183,998
Exchange difference	519,013	292,327
Investment in JV Company, end of the period	\$ 86,034,442	\$ 84,070,778

Sales to the Company's customers, the JV Company and its subsidiaries, for the three months ended March 31, 2016 were \$13,474,975 or 28% of the Company's total revenue, a decrease of 53.6% of the sales to the JV Company from the same quarter last year. The sales to the JV Company and its subsidiaries were primarily the sales of battery packs, body parts, EV drive motors, EV controllers, air conditioning units and other auto parts, the breakdown of the sales to the JV Company and its subsidiaries is as follows:

	Three Months ended March 31,	
	2016	2015
JV Company	\$ 13,085,636	\$ -
Kandi Changxing	160,597	17,605,302
Kandi Shanghai	158,201	9,859,319
Kandi Jinhua	52,264	1,590,383
Kandi Jiangsu	18,277	-
Total sales to JV	\$ 13,474,975	\$ 29,055,004

As of March 31, 2016 and December 31, 2015, the amount due from the JV Company and its subsidiaries, net was \$92,789,650 and \$76,172,471, respectively, of which the majority was the balances with the JV Company, Kandi Jinhua, Kandi Changxing, Kandi Jiangsu and Kandi Shanghai. The breakdown is as below:

	March 31, 2016	December 31, 2015
Kandi Shanghai	\$ (295,339)	\$ (4,488,379)
Kandi Changxing	17,295,169	3,249,445
Kandi Jinhua	5,465,384	6,218,177
Kandi Jiangsu	18,533	11,453
JV Company	70,305,902	71,181,775
Consolidated JV	\$ 92,789,649	\$ 76,172,471

Within the receivables from the JV Company, the \$23,252,930 was a one-year entrusted loan that Kandi Vehicle lent to the JV Company from December 16, 2015 to June 15, 2016 carrying an annual interest rate 8.7%, which will not be adjusted after the withdrawal during the lending period. The loan was organized by Bank of Communications Hangzhou Zhongan Branch as the agent bank between Kandi Vehicle and the JV Company. Entrusted loans are commonly found in China, where direct borrowing and lending between commercial enterprises are restricted.

NOTE 24 COMMITMENTS AND CONTINGENCIES

Guarantees and pledged collateral for outer parties bank loans

As of March 31, 2016, the Company provided guarantees for the following outer parties:

(1) Guarantees for bank loans

	March 31, 2016	December 31, 2015
Guarantee provided to		
Zhejiang Shuguang industrial Co., Ltd.	4,495,566	4,466,555
Nanlong Group Co., Ltd.	3,100,391	3,080,383
Kandi Electric Vehicles Group Co., Ltd.	50,381,348	50,056,216
Total	\$ 57,977,305	\$ 57,603,154

On March 15, 2013, the Company entered into a guarantee contract to serve as the guarantor of Nanlong Group Co., Ltd. (NGCL) from March 15, 2016 to March 15, 2018 for NGCL's loan amount of \$3,100,391 from Shanghai Pudong Development Bank Jinhua Branch with related loan period from March 15, 2013 to March 15, 2016, which was extended to September 15, 2016. NGCL is not related to the Company but it has provided guarantees for the Company in the past due to industry customs. Under this guarantee contract, the Company agreed to perform all obligations of NGCL under the loan contract if NGCL fails to perform its obligations as set forth therein.

On July 20, 2015, the Company entered into a guarantee contract to serve as the guarantor for the JV Company from July 20, 2016 to July 19, 2018 for the bank loans of \$11,626,465 from Bank of China with related loan period from July 20, 2015 to July 19, 2016. Under this guarantee contract, the Company agreed to perform all obligations of the JV Company under the loan contract if the JV Company fails to perform its obligations as set forth therein.

On September 29, 2015, the Company entered into a guarantee contract to serve as the guarantor of Zhejiang Shuguang Industrial Co., Ltd. (ZSICL) from September 29, 2015 to September 28, 2018 for the bank loan amount of \$4,495,566 from Ping An Bank with related loan period from September 29, 2015 to September 28, 2016. ZSICL is not related to the Company. Under this guarantee contract, the Company agreed to perform all obligations of ZSICL under the loan contract if ZSICL fails to perform its obligations as set forth therein.

On December 14, 2015, the Company entered into a guarantee contract to serve as the guarantor for the JV Company from December 14, 2016 to December 13, 2018 for the bank loans of \$38,754,883 from China Import & Export Bank with related loan period from December 14, 2015 to December 13, 2016. Under this guarantee contract, the Company agreed to perform all obligations of the JV Company under the loan contract if the JV Company fails to perform its obligations as set forth therein.

For the Company guarantee for NGCL and ZSIC, it is a common practice that among companies in the region of the PRC in which the Company is located to exchange guarantees for bank debts with no additional consideration given. It is considered a favor for favor business practice and is commonly required by Chinese lending banks. Now with Kandi's creditability improvement in the bank, the related banks have no requirement to ask the third party to provide the company guarantee for Kandi, and then the Company shall also quit from the guarantee for them accordingly in the proper time.

The Company was a party to enter into contracts to indemnify a third party for certain liabilities, and as of March 31, 2016 and December 31, 2015, the Company guaranteed the third party's long-term loan from other companies amounting to \$57,977,305 and \$57,603,154 that matured at various times in 2018, as a guarantor. In most cases, the Company cannot estimate the potential amount of future payments under these indemnities until events arise that would result in a liability under the indemnities. The Company believes that the liabilities for potential future payments of these guarantees and indemnities are not probable.

(2) Pledged collateral for outer parties bank loans

As of March 31, 2016 and December 31, 2015, none of the Company's land use rights or plant and equipment were pledged as collateral securing bank loans to outer parties.

NOTE 25 SEGMENT REPORTING

The Company has only one single operating segment. The Company's revenue and long-lived assets are primarily derived from and located in the PRC. The Company only has operations in the PRC.

The following table sets forth revenues by geographic area:

	Three Months Ended March 31			
	2016		2015	
	Sales Revenue	Percentage	Sales Revenue	Percentage
Overseas	\$ 621,722	1%	\$ 786,496	2%
China	50,036,170	99%	42,994,590	98%
Total	\$ 50,657,893	100%	\$ 43,781,086	100%

NOTE 26 Related Party Transactions

The Board of Directors must approve all related party transactions. All material related party transactions will be made or entered into on terms that are no less favorable to the Company than can be obtained from unaffiliated third parties.

The following table lists the sales to related parties as of the three months ended March 31, 2016 and 2015:

	March 31, 2016	March 31, 2015
Service Company	3,208,502	-
Total	\$ 3,208,502	-

The Company has 9.5% ownership of the Service Company and Mr. Hu, Chairman and CEO of the Company, has 13% ownership of the Service Company. The main transactions between the Company and the Service Company is that the Service Company needs to buy battery for the speed upgrade and also EV parts for the repairing and maintenance for its operating electric vehicles.

For the transaction with JV Company, please refer to Note 23 for the details.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This report contains forward-looking statements within the meaning of the federal securities laws that relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology, such as may, will, should, could, expect, plan, anticipate, believe, estimate, project, potential or continue or the negative of such terms or other comparable terminology, although not all forward-looking statements contain such terms.

In addition, these forward-looking statements include, but are not limited to, statements regarding implementing our business strategy; development and marketing of our products; our estimates of future revenue and profitability; our expectations regarding future expenses, including research and development, sales and marketing, manufacturing and general and administrative expenses; difficulty or inability to raise additional financing, if needed, on terms acceptable to us; our estimates regarding our capital requirements and our needs for additional financing; attracting and retaining customers and employees; sources of revenue and anticipated revenue; and competition in our market.

Forward-looking statements are only predictions. Although we believe that the expectations reflected in these forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. All of our forward-looking information is subject to risks and uncertainties that could cause actual results to differ materially from the results expected. Although it is not possible to identify all factors, these risks and uncertainties include the risk factors and the timing of any of those risk factors described in our Annual Report on Form 10-K for the year ended December 31, 2015 and those set forth from time to time in our other filings with the Securities and Exchange Commission (SEC). These documents are available on the SEC's Electronic Data Gathering and Analysis Retrieval System at <http://www.sec.gov>.

Critical Accounting Policies and Estimates

This section should be read together with the Summary of Significant Accounting Policies in the attached condensed consolidated financial statements included in this report.

Policy affecting options and warrants

Our stock option cost is recorded in accordance with ASC 718 and ASC 505. The fair value of stock options is estimated using the Black-Scholes-Merton model. Our expected volatility assumption is based on the historical volatility of our common stock. The expected life assumption is primarily based on the expiration date of the option. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of grant. Stock option expense recognition is based on awards expected to vest. There were no estimated forfeitures. ASC standards require forfeitures to be estimated at the time of grant and revised in subsequent periods, if necessary, if actual forfeitures differ from those estimates.

Our warrant costs are recorded in liabilities in accordance with ASC 480, ASC 505 and ASC 815. The fair value of a warrant is estimated using the Black-Scholes-Merton model and the lattice valuation model. Our expected volatility assumption is based on the historical volatility of our common stock. The expected life assumption is primarily based on the expiration date of the warrant. The risk-free interest rate for the expected term of the warrant is based on the U.S. Treasury yield curve in effect at the time of measurement. The warrants, which are freestanding derivatives classified as liabilities on the balance sheet, are measured at fair value on each reporting date, with decreases in fair value recognized in earnings and increases in fair values recognized in expenses.

Estimates affecting accounts receivable and inventories

The preparation of our consolidated financial statements requires management to make estimates and assumptions that affect our reporting of assets and liabilities (and contingent assets and liabilities). These estimates are particularly significant where they affect the reported net realizable value of our accounts receivable and inventories.

Accounts receivable are recognized and carried at net realizable value. An allowance for doubtful accounts is recorded in the period when a loss is probable based on an assessment of specific factors, such as troubled collection, historical experience, accounts aging, ongoing business relations and other factors. Accounts are written off after exhaustive efforts at collection. If accounts receivable are to be provided for, or written off, they would be recognized in the consolidated statement of operations within operating expenses. As of March 31, 2016 and December 31, 2015, we recorded no allowance for doubtful accounts. This determination was made per our management's judgment, which was based on their best knowledge.

Inventory is stated at the lower of cost, determined on a weighted average basis, or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale. Adjustments to reduce the cost of inventory to its net realizable value are made, if required, for estimated excess, obsolescence, or impaired balances. When inventories are sold, their carrying amount is charged to expense in the year in which the revenue is recognized.

Write-downs for declines in net realizable value or for losses of inventories are recognized as an expense in the year the impairment or loss occurs.

Although we believe that there is little likelihood that actual results will differ materially from current estimates, if customer demand for our products decreases significantly in the near future, or if the financial condition of our customers deteriorates in the near future, we could realize significant write downs for slow-moving inventories or uncollectible accounts receivable.

Revenue Recognition

Our revenue recognition policy plays a key role in our consolidated financial statements. Revenues represent the invoiced value of goods sold, recognized upon the shipment of goods to customers, and revenues are recognized when all of the following criteria are met:

1. Persuasive evidence of an arrangement exists;
2. Delivery has occurred or services have been rendered;
3. The seller's price to the buyer is fixed or determinable; and
4. Collectability is reasonably assured.

The revenue recognition policies for our legacy products, including EV products, EV parts and Off-road vehicles, are the same: When the products are delivered, the associated risk of loss is deemed transferred, and at that time we recognize revenue.

Warranty Liability

Most of our non-EV products (the Legacy Products) are exported out of China to foreign countries that have legal and regulatory requirements with which we are not familiar with. Development of warranty policies for our Legacy Products in each of these countries would be virtually impossible and prohibitively expensive. Therefore, we provide price incentives and free parts to our customers and in exchange, our customers establish appropriate warranty policies and assume warranty responsibilities. Consequently, warranty issues are taken into consideration during the price negotiation for our products. The free parts are delivered along with the products, and when products are sold, the related parts are recorded as cost of goods sold. Due to the reliable quality of our products, we have been able to maintain this warranty policy and we have not had any product liabilities attributed to the quality of our products.

For the EV products that we sell in China, there is an eight-year or 120,000 kilometer manufacturer warranty. This warranty affects us through our participation and investment in the JV Company, which manufactures the EV products.

Results of Operations

Comparison of Three Months Ended March 31, 2016 and 2015

The following table sets forth the amounts and percentage relationship to revenue of certain items in our condensed consolidated statements of income (loss) and comprehensive income (loss) for the three months ended March 31, 2016 and 2015.

	Three Months Ended		Three Months Ended		Change in Amount
	March 31, 2016	% of Revenue	March 31, 2015	% of Revenue	
REVENUES, NET	\$ 50,657,893		\$ 43,781,086		6,876,807
COST OF GOODS SOLD	43,939,795	86.7%	37,410,353	85.4%	6,529,442

NET INCOME	88,420	0.2%	6,131,653	14.0%	(6,043,233)

(a) Revenue

For the three months ended March 31, 2016, our revenue was \$50,657,893 compared to \$43,781,086 for the same period of 2015, an increase of \$6,876,807 or 15.7%. The increase in revenue was mainly due to the increase in EV products sales during this quarter.

The following table summarizes our revenues by product types for the three months ended March 31, 2016 and 2015:

	Three Months Ended March 31		
	2016 Sales	2015 Sales	Growth %
EV parts	\$ 46,180,859	\$ 42,954,288	7.5%
EV products	3,777,270	-	
Off-road vehicles	699,764	826,798	-15.4%
Total	\$ 50,657,893	\$ 43,781,086	15.7%

44

EV Parts

Among our total revenues during the three months ended March 31, 2016, approximately \$46,180,859, or 91.2%, resulted from the sale of EV parts. We started the EV parts business in 2014, and our revenue of EV parts increased \$3,226,571 or 7.5% compared to the first quarter of 2015. Our EV parts sales primarily consisted of the sales of battery packs, body parts, EV drive motors, EV controllers, air conditioning units and other auto parts to the JV Company for manufacturing of EV products.

EV Products

Among our total revenues during the three months ended March 31, 2016, approximately \$3,777,270, or 7.8%, resulted from the sale of EV products. The EV products revenue increased \$ 3,777,270, or 100% compared to the same period of 2015. Under the JV Agreement with our joint venture partner, Shanghai Maple Guorun Automobile Co., Ltd., a 99%-owned subsidiary of Geely Automobile Holdings Ltd., starting from March 2013, our EV products manufacturing business has been gradually transferred to the JV Company, which was completed at the end of 2014, but the Company can continue to sell the EV products which were in the stock. We are now primarily responsible for supplying the JV Company with EV parts and the JV Company is primarily responsible for the production of EV products.

Off-Road Vehicles

Among our total revenues during the three months ended March 31, 2016, approximately \$699,764, or 1.4%, resulted from the sale of off-road vehicles. The off-road vehicles revenue decreased \$127,034, or 15.4% compared to the same period of 2015, mainly because the Company focused on the EV parts production which is in line with the long term strategy of the Company.

(b) Cost of goods sold

Cost of goods sold was \$43,939,795 during the three months ended March 31, 2016, representing an increase of \$6,529,442, or 17.5%, compared to the same period of 2015. This increase was mainly due to the increase for EV products in corresponding sales.

(c) Gross profit

The margins by products for the three months ended March 31, 2016 and 2015 are as below:

Three Months Ended March 31

	2016				2015			
	Sales	Cost	Gross Profit	Margin %	Sales	Cost	Gross Profit	Margin %
EV parts \$	46,180,859	39,621,682	6,559,177	14.2%	\$ 42,954,288	36,771,802	6,182,486	14.4%
EV products	3,777,270	3,713,644	63,626	1.7%	-	-	-	-
Off-road vehicles	699,764	604,469	95,295	13.6%	826,798	638,551	188,247	22.8%
Total	\$ 50,657,893	43,939,795	6,718,098	13.3%	\$ 43,781,086	37,410,353	6,370,733	14.6%

Gross profit for the first quarter of 2016 increased 5.5% to \$6,718,098, compared to \$6,370,733 for the same period last year. This was primarily attributable to the sales growth. Our gross margin decreased to 13.3% compared to 14.6% for the same period of 2015. The decrease in gross margin was mainly due to the one-time lower margin EV products sales happened in this quarter.

(d) Selling and distribution expenses

Selling and distribution expenses were \$46,335 for the first quarter of 2016, compared to \$113,895 for the same period last year, a decrease of \$67,560 or 59.3%. This decrease was primarily due to the transportation expense savings for the EV parts in this quarter.

(e) General and administrative expenses

General and administrative expenses were \$8,032,882 for the first quarter of 2016, compared to \$3,780,648 for the same period of last year, an increase of \$4,252,234 or 112.5%. For the three months ended March 31, 2016, general and administrative expenses included \$6,887,892 in expenses for common stock awards to employees and consultants, compared to \$2,049,683 for the same period in 2015. Excluding stock compensation expense, our net general and administrative expenses for the three months ended March 31, 2016 were \$1,144,990, a decrease of \$585,974, or 33.9%, from \$1,730,965 for the same period of 2015. The decrease was primarily due to the legal expenses paid in the first quarter of 2015 for the SEC investigation, which concluded in February 2015.

(f) Research and development

Research and development expenses were \$205,968 for the first quarter of 2016, a decrease of \$365,052 or 63.9% compared to the same period of last year. This decrease was primarily due to the materials savings in the first quarter of 2016.

(g) Government grants

Government grants were \$194,473 for the first quarter of 2016, compared to \$0 for the same quarter last year, representing an increase of \$194,473, or 100%. It was for the tax refund for the land use tax.

(h) Interest income

Interest income was \$780,181 for the first quarter of 2016, an increase \$189,701 or 32.1% compared to the same period of last year. This change was primarily attributable to the entrusted loan rate adjusted from 5.88% in the first quarter of 2015 to 8.7% in the same quarter of 2016 to the JV Company.

(i) Interest expense

Interest expense was \$442,079 for the first quarter of 2016, a decrease of \$156,512 or 26.1% compared to the same period of last year. This change was primarily due to the loan interest rate decrease in the first quarter of 2016 compared to the same period last year.

(j) Change in fair value of financial instruments

For the first quarter of 2016, the gain related to changes in the fair value of derivative liability relating to the warrants issued to the investors and a placement agent was \$3,286,340, a negative change of \$1,463,960 to the same period of last year. This change was mainly due to the stock price change during the first quarter of 2016, and the stock price was \$7.20 on March 31, 2016 compared to \$10.90 on December 31, 2015.

(k) Share of profit (loss) after tax of the JV Company

For the first quarter of 2016, the JV Company's net sales were \$-495,567, gross loss was \$1,062,647, and net loss was \$8,068,447. We accounted for our investments in the JV Company under the equity method of accounting as we have a 50% ownership interest in the JV Company. As a result, we recorded 50% of the JV Company's loss for \$4,034,224 for the first quarter of 2016. After eliminating intra-entity profits and losses, our share of the after tax loss of the JV Company was \$4,822,470 for the first quarter of 2016, a decrease of \$5,291,826 compared to the same period of last year. The main reasons for the decrease of the JV Company's profits was that there was no EV products sold in the first quarter of 2016 due to the impact of the government policy change. Starting from January 1, 2016, one criteria for EV Models to receive NEV subsidy is that the highest speed must meet 100 kilometers per hour, and the Ministry of Industry and Information Technology of China, or the MIIT, announced a new list of qualified EV models to receive the national subsidy. However, the National Tax Bureau has not released the list of EV models to receive purchase tax exemption accordingly. As such, the JV Company had no EV products sold in the first quarter of 2016 because potential purchasers cannot obtain any tax exemption before the updated list from the National Tax Bureau is promulgated. The JV Company received the tax exemption approval on four EV models in early April 2016 and has started to sell EV products after that.

During the first quarter of 2016, there were no EV products sold by the JV Company, compared to 1,670 units in the same quarter of 2015.

(l) Other income, net

Net other income was \$22,387 for the first quarter of 2016, a slight decrease of \$1,460 or 6.1% compared to the same period of last year.

(m) Net income from continuing operation

Net income was \$88,420 for the first quarter of 2016, a change of \$6,043,233 compared to \$6,131,653 for the same period of last year. The decrease in net income was primarily attributable to the stock option expense amortization, the loss from the JV Company and also the change of fair value of financial derivatives. Excluding the effects of stock compensation expenses which were \$6,887,892 and \$2,049,683 for the first quarter of 2016 and 2015, respectively, and the change of the fair value of financial derivatives which was an income of \$3,286,340 and an income of \$4,750,300 for the three months ended March 31, 2016 and 2015, respectively, our non-GAAP net income was \$3,689,972 for the three months ended March 31, 2016 as compared to non-GAAP net income \$3,431,036 for the same period of 2015, an increase of \$258,936, or 7.5%. This increase in net income (non-GAAP) was primarily attributable to the increase in sales of EV parts and also the corporate income tax benefits in this quarter.

We make reference to certain non-GAAP financial measure, i.e., the adjusted net income. Management believes that such adjusted financial result is useful to investors in evaluating our operating performance because it presents a meaningful measure of corporate performance. See the non-GAAP reconciliation table below. Any non-GAAP measures should not be considered as a substitute for, and should only be read in conjunction with measures of financial performance prepared in accordance with GAAP.

	Three Months Ended	
	March 31,	
	2016	2015
GAAP net income (loss) from continuing operations	\$ 88,420	\$ 6,131,653
Stock award expenses	6,887,892	2,049,683
Change of the fair value of financial derivatives	(3,286,340)	(4,750,300)
Non-GAAP net income (loss) from continuing operations	\$ 3,689,972	\$ 3,431,036

LIQUIDITY AND CAPITAL RESOURCES

Cash Flow

For the first quarter of 2016, cash used in operating activities was \$6,153,618, as compared to cash used by operating activities of \$9,476,551 for the same period of last year.

Below is the cash flow statement for the operating activities:

	Three Months Ended	
	March 31, 2016	March 31, 2015
CASH FLOWS FROM OPERATING ACTIVITIES:		
Net income	\$ 88,420	\$ 6,131,653
Adjustments to reconcile net income to net cash provided by operating activities		
Depreciation and amortization	1,223,243	1,479,384
Deferred taxes	(4,397,828)	-
Change in fair value of financial instruments	(3,286,340)	(4,750,300)
Share of profit after tax of JV Company	4,822,470	(469,356)
Stock Compensation cost	6,887,892	2,049,683
Changes in operating assets and liabilities, net of effects of acquisition:		
(Increase) Decrease In:		
Accounts receivable	(32,225,627)	(12,844,602)
Inventories	(7,815,491)	(11,246,265)
Other receivables	(144,118)	(65,602)
Due from employee	(67,798)	(10,225)
Prepayments and prepaid expenses	(441,602)	(527,687)
Amount due from JV Company	(15,899,018)	(19,570,708)
Increase (Decrease) In:		
Accounts payable	16,975,799	31,915,168
Other payables and accrued liabilities	(7,875,311)	(1,438,571)
Customer deposits	54,289	1,365
Income Tax payable	1,165,635	(130,488)
Due from related party	34,781,767	-
Net cash used in operating activities	\$ (6,153,618)	\$ (9,476,551)

The major operating activities that provided cash for the first quarter of 2016 were an increase in accounts payable of \$16,975,799 and a decrease in receivables from related party of \$34,781,767. The major operating activities that used cash for first quarter of 2016 were an increase in accounts receivable of \$32,225,627 and an increase in receivables from the JV Company of \$15,899,018.

Below is the cash flow statement for the investing activities:

	Three Months Ended	
	March 31, 2016	March 31, 2015
CASH FLOWS FROM INVESTING ACTIVITIES:		
Purchases of plant and equipment, net	(29,696)	(233,343)
Disposal of land use rights and other intangible assets	13,767	-
Purchases of construction in progress	(28,140)	(39,266)
Issuance of notes receivable	(614,592)	(4,225,884)
Repayment of notes receivable	2,430,657	2,584,147
Short Term Investment	(1,455,727)	-
Net cash provided by (used in) investing activities	\$ 316,269	\$ (1,914,346)

Cash provided by investing activities for the first quarter of 2016 was \$ 316,269 primarily due to the result of the repayment of notes receivable of \$2,430,657.

Below is the cash flow statement for the financing activities:

	Three Months Ended	
	March 31, 2016	March 31, 2015
CASH FLOWS FROM FINANCING ACTIVITIES:		
Restricted cash	-	(12,366,201)
Proceeds from short-term bank loans	-	6,338,475
Proceeds from notes payable	2,063,766	6,663,525
Warrant exercise	434,666	-
Net cash provided by financing activities	\$ 2,498,432	\$ 635,799

50

Cash provided by financing activities for the first quarter of 2016 was \$2,498,432, primarily due to the proceeds from notes payable of \$2,063,766.

Working Capital

We had a working capital surplus of \$72,489,812 at March 31, 2016, compared to \$59,917,153 as of December 31, 2015.

We have historically financed our operations through short-term commercial bank loans from PRC banks. The term of these loans is typically for one year, and upon the payment of all outstanding principal and interest in a particular loan, the banks have typically rolled over the loan for an additional one-year term, with adjustments made to the interest rate to reflect prevailing market rates. We believe that this situation has not changed and that short-term bank loans will be available on normal trade terms if needed.

Capital Requirements and Capital Provided

Capital requirements and capital provided for the three months ended March 31, 2016 were as follows:

	Three Months Ended March 31, 2016 (In Thousands)	
Capital requirements		
Purchase of plant and equipment	\$	30
Purchase of construction in progress		28
Issuance of notes receivable		615
Long term investment		1,456
Internal cash used in operations		6,154
Total capital Requirements	\$	8,283
Capital provided		
Repayments of notes receivable		2,431
Disposal of land use rights		14
Proceeds from notes payable		2,064
Warrant exercise		435
Decrease in cash		3,291
Total capital provided	\$	8,235

The difference between capital provided and capital required is caused the effect of exchange rate changes over the past three months.

Recent Development Activities:

On January 21, 2016, we endorsed that Zhejiang ZuoZhongYou Electric Vehicle Service Co., Ltd (the Service Company or ZZY) has signed a strategic partnership memorandum with China (Yangtze River Delta) High-speed Railway Tourism Alliance (Yangtze Alliance) to provide hourly car rental services under the MPT program at railway stations within Yangtze Alliance s network. ZZY and Yangtze Alliance aim to jointly establish a Railway + MPT hourly rental model to promote an environmentally friendly alternative for tourists self-guided trips. The partnership between ZZY and Yangtze Alliance will significantly increase the number of MPT stations within the regional high-speed railway tourism network, while accelerating the adoption of electric vehicle hourly rental services. We believe our unique MPT program will receive further recognition and support, and its rapid expansion will become one of Kandi s key growth engines.

On January 26, 2016, we announced that the JV Company has signed a strategic cooperation framework agreement with Pang Da Automobile Trade Co. Ltd. (Pang Da), a listed company on Shanghai Stock Exchange (601258.SS). The scope of the agreement includes, but is not limited to, establishment of Kandi and Pang Da sales teams that will share marketing resources, development of customized new energy vehicle for use at campus, and additionally, Pang Da is authorized to sell Kandi Brand pure electric vehicles (EVs) in specific regions. We believe this cooperation will well benefit our EV products direct sales channel in the future.

On January 28, 2016, we announced that Kandi Hainan held a groundbreaking ceremony at the construction site of the Haikou production facility at Haikou Mei An Hi-tech Zone. After completed the Haikou Facility, we expected to have an annual capacity of 100,000 electric vehicle (EV) products. The ceremony marks the beginning of Haikou Hi-tech Zone s first project under the government s 13th Five-Year Plan. Attendees of the ceremony include Ni Qiang, Mayor of Haikou, Ju Lei, Deputy Mayor, Hu Xiaoming, Chairman and CEO of Kandi and other officials of the municipal government. Our Haikou facility will help the Company s future growth and will also contribute to Hainan s economic and eco-environmental development.

In the second half year of 2015, the Company started to cooperate with the Micro Mobility System, a Switzerland Private Company which produces the famous Razor scooter on the market from 1999, to develop a new generation of micro EV product called Mircolino , which provides efficient methods to facilitate city mobility. The Microlino could become the next big thing in urban electric mobility, and we expect this new product will bring Kandi into the international EV market.

In early 2016, Mr. Hu Xiaoming, the Chariman of the Company, initiated a project with the wireless conductive technology and its application on EV products, and built a team with Tsinghua University and Zhejiang University to research and develop on this project. The team had certain initial progresses that successfully developed the model for the wireless conductive technology. We believe this technology may bring the revolution for the EV industry.

On April 13, 2016, we announced the appointment of BDO China Shu Lun Pan Certified Public Accountants LLP (BDO China) as the Company's new independent registered public accounting firm effective April 12, 2016. The appointment of BDO China was approved by the Company's audit committee. We believe that BDO China's experience and support will become an asset as we enter our next phase of business expansion.

On April 18, 2016, we announced two Geely Global Hawk brand electric vehicles (EV) models SMA7001BEV25 and SMA7000BEV05, manufactured by Kandi Electric Vehicles Group Co., Ltd. (the "JV Company", a 50/50 joint venture between Kandi and Geely Automobile), are listed on the 7th approved Directory of New Energy Vehicles, known as Public Notice No. 54, published by China's Ministry of Industry and Information Technology (MIIT) and State Administration of Taxation (SAT) on April 15, 2016. As a result, purchasers of SMA7001BEV25 and SMA7000BEV05 would be exempted from paying the purchase tax of approximately 10% of the purchase price. Additionally, SMA7000BEV06 and SMA7001BEV05, also produced by the JV Company, now under the new trademark Global Hawk , are included in the MIIT and SAT's published Public Notice No.16 the 282nd approved directory on April 1, 2016.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Exchange Rate Risk

Our operations are conducted mainly in the PRC. As such, our earnings are subject to movements in foreign currency exchange rates when transactions are denominated in Chinese Renminbi (RMB), which is our functional currency. Accordingly, our operating results are affected by changes in the exchange rate between the U.S. dollar and RMB currencies.

Economic and Political Risks

Our operations in the PRC are subject to special considerations and significant risks not typically associated with companies in North America and Western Europe. These include risks associated with, among others, the political, economic and legal environment in the PRC and foreign currency exchange. Our performance may be adversely affected by changes in the political and social conditions in the PRC, and by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion, remittances abroad, and rates and methods of taxation, among other things.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We have evaluated, under the supervision of our Chief Executive Officer (CEO) and our Chief Financial Officer (CFO), the effectiveness of disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)) as of March 31, 2015. Based on this evaluation, our CEO and CFO concluded that as of the end of the period covered by this report, our disclosure controls and procedures were effective.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act (a) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (b) is accumulated and communicated to management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure. Our management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives as described above.

Changes in Internal Control over Financial Reporting

There was no change to our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1A. Risk Factors.

Changes in the policies of the PRC government could have a significant impact upon the business we may be able to conduct in the PRC and the profitability of such business.

Although the central government has clear policies encouraging the qualified EVs, any reduction, elimination or discriminatory application of government subsidies and economic incentives because of policy changes may result in the diminished competitiveness of the alternative fuel vehicle industry generally or our EV products in particular.

For instance, on April 29, 2015, the four government departments in the PRC, Ministry of Finance, Ministry of Science and Technology, Ministry of Industry and Information Technology and National Development and Reform Commission jointly announced the subsidy policy for new energy vehicles from year 2016 to 2020, which indicated that the subsidy of year 2017-2018 will be reduced by 20% compared with that of the year 2016, and the subsidy of year 2019-2020 will be reduced by 40% compared with that of the year 2016.

In addition, starting from January 1, 2016, the MIIT announced a new list of qualified EV models to receive the national subsidy in which one criteria for EV models to receive NEV subsidy is that the highest speed must meet 100 kilometers per hour. However, the National Tax Bureau has not released the list of EV models to receive purchase tax exemption accordingly at the same time. As such, the JV Company had no EV products sold in the first quarter of 2016 because potential purchasers could not obtain any tax exemption before the updated list from the National Tax Bureau was promulgated. Although the JV Company received the tax exemption approval on four EV models it produces in early April 2016, similar policy changes or delay in policy implementation by any governmental agencies would keep impacting the Company's future business and profitability growth.

Item 6. Exhibits

Exhibit Number	Description
<u>31.1</u>	<u>Certification of Principal Executive Officer pursuant to Rule 13a-14(a)/15d-14(a) under the Securities Exchange Act of 1934</u>
