**Item 8.01 Other Events.**

On September 6, 2005, SigmaTel, Inc. acquired Oasis Semiconductor, Inc. ( Oasis ), a privately held company, by means of a merger. Immediately prior to the closing of the merger, Oasis issued a dividend to its shareholders. At the time of the dividend and merger, j2 Global Communications, Inc. (the Company ) owned shares in Oasis. The Company was therefore entitled to receive a pro rata portion of the dividend and, at the effective time of the merger, the Company's shares in Oasis were automatically converted into a right to receive a pro rata portion of

the merger consideration. As a result of the dividend

and merger, the Company received an aggregate of approximately \$8.7 million in cash on September 6, 2005 and also has a right to receive an additional approximate \$800,000, which additional amount will be held in escrow for one year from the closing date. The funds held in escrow are subject to reduction should the acquiror assert claims for damages under the merger agreement, and so there is no guarantee that the Company will actually receive any or all of these additional funds.

The Company also has a right to receive a pro rata portion of any additional purchase price payable under an earn-out described in the merger agreement for this transaction, which could result in the Company receiving up to an additional approximate \$3.65 million in cash consideration. The earn-out is contingent upon Oasis achieving specified revenues for calendar year 2006 and, as a result, there is no guarantee that the Company will receive any or all of these additional funds.

Substantially all of the approximate \$8.7 million received on the closing date and the approximate \$800,000 held in escrow will represent pre-tax gain to the Company in the third quarter of 2005.
