PROXY STATEMENT

FOR

SPECIAL MEETING OF STOCKHOLDERS

September 30, 2013

INTRODUCTION

This proxy statement is being furnished in connection with the solicitation of proxies by the board of directors of SofTech, Inc. (hereinafter we, us, our, the Company or SofTech) for use at a Special Meeting of Stockholders held on October 9, 2013 (the Special Meeting) at 10:00AM, local time, at 59 Lowes Way, Suite 401, Lowell, Massachusetts 01851, and any postponements or adjournments thereof. This proxy statement was first made available to stockholders on or about September 30, 2013.

At the Special Meeting, our stockholders will consider and act upon the following matters:

1.

To authorize the sale (the Asset Sale) by SofTech of substantially all of the assets of the CADRA product line of SofTech, including all intellectual property related to that technology but specifically excluding cash, billed accounts receivable and liabilities other than the deferred maintenance liability associated with CADRA customer maintenance contracts for support services (the CADRA Business), pursuant to the Asset Purchase Agreement by and between SofTech and Mentor Graphics Corporation (the Buyer or Mentor), dated August 30, 2013 (the Asset Purchase Agreement) as more fully described in the enclosed proxy statement (the Asset Sale Proposal);

2.

To consider and vote on a proposal to adjourn the Special Meeting, if necessary or appropriate, to solicit additional proxies if there are insufficient votes at the time of the Special Meeting to approve the Asset Sale Proposal; and

3.

To transact such other business as may properly come before the meeting and any postponements or adjournments thereof.

Only stockholders of record as of September 6, 2013 (the Record Date) will be entitled to vote at the Special Meeting and any postponements or adjournments thereof. As of that date, 875,135 shares of our common stock, \$0.10 par value, were outstanding and eligible to be voted. The holders of common stock are entitled to one vote per share on any proposal presented at the Special Meeting. Stockholders may vote in person or by proxy. Execution of a proxy will not in any way affect a stockholder's right to attend the Special Meeting and vote in person. Any proxy may be revoked by a stockholder at any time before it is exercised by delivery of a written revocation or a later executed proxy to the Secretary of the Company or by attending the Special Meeting and voting in person.

The costs of preparing, assembling and mailing this proxy statement and the other material enclosed and all clerical and other expenses of solicitation will be paid by SofTech. In addition to the solicitation of proxies by use of the mails, directors, officers and employees of SofTech, without receiving additional compensation, may solicit proxies by personal interview, mail, e-mail, telephone, facsimile or other means of communication. SofTech also will request brokerage houses and other custodians, nominees and fiduciaries to forward soliciting material to the beneficial owners of common stock held of record by such custodians and will reimburse such custodians for their expenses in forwarding soliciting materials.

These transactions have not been approved or disapproved by the SEC, and the SEC has not passed upon the fairness or merits of these transactions nor upon the accuracy or adequacy of the information contained in this proxy statement. Any representation to the contrary is unlawful.

SUMMARY TERM SHEET

This summary highlights information included elsewhere in this proxy statement. This summary may not contain all of the information you should consider before voting on the Asset Sale Proposal presented in this proxy statement. You should read the entire proxy statement carefully, including the annexes attached hereto. For your convenience, we have included cross references to direct you to a more complete description of the topics described in this summary.

The Asset Sale. We have agreed to sell the CADRA Business of SofTech to Mentor for up to \$3.95 million (the Total Purchase Price). The Total Purchase Price is comprised of (i) \$3.2 million, \$2.88 million of which will be paid at the closing and \$320 thousand (representing a 10% holdback) of which will be paid on the one year anniversary of the closing (subject to any indemnification claims), and (ii) an earn-out payment of up to an aggregate \$750 thousand over the three-year period subsequent to the closing, based on 10% of the net revenue generated by the CADRA Business, subject to the terms of an earn-out agreement (the Earn-Out Agreement). We will retain all of our other assets. We will also retain all of our other debts and liabilities, our senior executives, certain corporate vendors and professional advisors. For additional information regarding the terms of the Asset Purchase Agreement, including additional detail regarding the terms of the Earn-Out Agreement, see Proposal: The Asset Sale The Asset Purchase Agreement beginning on page 26.

Reasons for the Asset Sale. As previously disclosed, we believe the Asset Sale will enhance shareholder value as SofTech continues to seek opportunities to monetize assets that it considers undervalued, while significantly reducing the Company's financial risks associated with its debt position. Our board of directors' decision to enter into the Asset Purchase Agreement was based on a careful evaluation of (i) the Company's strategic alternatives, including continuing to operate the CADRA Business and seeking profitable growth opportunities related to that business, seeking buyers that might be willing to acquire or merge with the consolidated entity, and evaluating capital transactions that would allow us to retain the CADRA Business and reduce the financial risk of our debt facility; (ii) the board of directors' determination that the purchase price offered by Mentor was a fair value for the CADRA Business relative to other indications of value; (iii) the Company's need for additional liquidity and financial flexibility; (iv) the prospects of the CADRA Business as part of the Company's operations; and (v) the challenges and opportunities that would exist for the Company's remaining operations following the Asset Sale, among other factors. See Proposal: The Asset Sale Reasons for the Asset Sale beginning on page 19.

Indemnification of Buyer. As set forth in the Asset Purchase Agreement, the Company has agreed to indemnify the Buyer and certain of its related parties for any damages arising out of any inaccuracy of any of our representations or warranties in the Asset Purchase Agreement, the transfer of undertaking laws in Germany, or any breach or non-fulfillment by us of any covenants, agreements or other obligations contained in the Asset Purchase Agreement.

The representations, warranties, covenants and agreements made by SofTech in the Asset Purchase Agreement, and SofTech's liability for any breach or inaccuracy thereof, expire no later than twelve months following the closing date of the Asset Sale. Our maximum aggregate liability under the Asset Purchase Agreement is limited to \$3.95 million. See Proposal: The Asset Sale The Asset Purchase Agreement Indemnification of Buyer beginning on page 28.

Use of Proceeds. The Company, and not the Company's stockholders, will receive all of the net proceeds from the Asset Sale. The net proceeds from the Asset Sale will be retained in the business for at least one year as required by the Asset Purchase Agreement and will be used primarily to reduce financial risk related to the debt facility and for working capital purposes. The Company's lender, Prides Crossing Capital, has the right to require the repayment in full from the net proceeds but has expressed a non-binding intention to amend the debt facility to allow us to retain the proceeds with certain restrictions to be agreed upon. See Proposal: The Asset Sale Activities of SofTech Following the Asset Sale on page 20 and Proposal: The Asset Sale Use of Proceeds beginning on page 22.

Conditions to the Asset Sale. Completion of the Asset Sale requires the approval of our stockholders as well as the satisfaction or waiver of customary conditions set forth in the Asset Purchase Agreement. See Proposal: The Asset Sale The Asset Purchase Agreement Conditions to the Asset Sale beginning on page 29.

Termination of the Asset Purchase Agreement. The Asset Purchase Agreement may be terminated by us or the Buyer in certain circumstances, in which case the Asset Sale will not be completed. See Proposal: The Asset Sale The Asset Purchase Agreement Termination of the Asset Purchase Agreement beginning on page 30.

U.S. Federal Income Tax Consequences. Our U.S. stockholders will not realize any gain or loss for U.S. federal income tax purposes as a result of the Asset Sale. See Proposal: The Asset Sale U.S. Federal Income Tax Consequences of the Asset Sale beginning on page 22.

Appraisal Rights. Under the Massachusetts Business Corporation Act (the "MBCA"), holders of SofTech's common stock who do not vote for the approval of the Asset Sale and who properly exercise their appraisal rights may be entitled to receive a cash payment equal to the fair value of their shares as determined in accordance with the MBCA. Pursuant to the MBCA, fair value of the shares of SofTech's common stock held by a SofTech shareholder exercising appraisal rights means the value of such shares immediately before the effective date of the Asset Sale, excluding any element of value arising from the expectation or accomplishment of the Asset Sale, unless exclusion would be inequitable. Merely voting against the approval of the Asset Sale will not serve to assert the appraisal rights of a holder of SofTech's common stock under the MBCA. In addition, a proxy submitted by a record holder of SofTech's Common Stock not marked "Against" or "Abstain" will be voted "For" the approval of the Asset Sale and, accordingly, will result in the waiver of such record holder's appraisal rights. In addition to not voting, or causing or permitting to be voted, any of their shares of SofTech's common stock in favor of the Asset Sale, SofTech's shareholders who wish to exercise appraisal rights must comply with the other requirements under the MBCA for exercising and perfecting appraisal rights, as described in the section of this proxy statement entitled "Appraisal Rights" beginning on page 23. These requirements include, among others, that the shareholder deliver to SofTech, before the time the vote on the Asset Sale is taken, written notice of the shareholder's intent to demand payment for his, her or its shares of SofTech's common stock if the Asset Sale is completed. A shareholder's written notice is effective on the earliest of (a) receipt by SofTech, (b) five days after it was mailed (post paid and correctly addressed) by the shareholder to SofTech, or (c) the date shown on a return receipt it sent by registered or certified mail, return receipt requested or, if sent by messenger or delivery service, the date shown on the return receipt signed by or on behalf of SofTech. This written notice must be delivered to Joseph P. Mullaney, CEO, SofTech, Inc., 59 Lowes Way, Suite 401, Lowell, Massachusetts 01851 or facsimile number (978) 458-4108. SofTech recommends that any such notice be sent by a reliable overnight courier service with return receipt requested, or to the facsimile number provided above. Annex B to this proxy statement contains the full text of Sections 13.01 through 13.31 of the MBCA, which relate to appraisal rights. You are encouraged to read these provisions carefully and in their entirety.

Risk Factors. The Asset Sale involves a number of risks, including:

Following the sale of the CADRA Business, we will need to restructure our business to enable us to successfully operate as a significantly smaller company and to seek new sources of revenue and possible new strategic initiatives.

SofTech operating results subsequent to the sale of the CADRA Business may not be profitable, and we may be unsuccessful in developing new business opportunities;

We have discretion in the use of the net proceeds from the Asset Sale and may not use them effectively;

.

In order to obtain our lender's consent to the Asset Sale, we may have to repay some or all of our outstanding indebtedness and/or agree to restrictions or amendments to our debt facility that may be less favorable to us and result in us having less proceeds for our business;

.

A portion of the purchase price is contingent and we may not receive those payments;

.

We may be required to make a cash payment to shareholders who exercise appraisal rights in connection with the Asset Sale, which would reduce the amount of proceeds that we have to use in the business;

.

We will continue to incur the expenses of complying with public company reporting requirements following the closing of the Asset Sale even though compliance with such requirements will represent an even greater percentage of our expenses post-closing as we will be a significantly smaller company following the sale of the CADRA Business;

.

The announcement and pendency of the Asset Sale, whether or not consummated, may adversely affect our business;

.

We cannot be sure if or when the Asset Sale will be completed;

.

The Asset Purchase Agreement limits our ability to sell the CADRA Business to a party other than Mentor;

.

The Buyer is not assuming any of the excluded liabilities under the Asset Purchase Agreement;

.

The Asset Purchase Agreement may expose us to contingent liabilities; and

.

Our executive officers and directors may have interests in the Asset Sale other than, or in addition to, the interests of our stockholders generally.

See Risk Factors beginning on page 8.

PROPOSAL: The ASSET SALE

Q.

Why did the Company enter into the Asset Purchase Agreement?

A.

As previously disclosed, we believe the Asset Sale will enhance shareholder value as SofTech continues to seek opportunities to monetize assets that it considers undervalued, while significantly reducing the Company's financial risks associated with its debt position. Our board of directors' decision to enter into the Asset Purchase Agreement was based on a careful evaluation of (i) the Company's strategic alternatives, including continuing to operate the CADRA Business and seeking profitable growth opportunities related to that business, seeking buyers that might be willing to acquire or merge with the consolidated entity, and evaluating capital transactions that would allow us to retain the CADRA Business and reduce the financial risk of our debt facility; (ii) the board of directors' determination that the purchase price offered by Mentor was a fair value for the CADRA Business relative to other indications of value; (iii) the Company's need for additional liquidity and financial flexibility; (iv) the prospects of the CADRA

Business as part of the Company's operations; and (v) the challenges and opportunities that would exist for the Company's remaining operations following the Asset Sale, among other factors.

Q.

What will happen if the Asset Sale is authorized by our stockholders?

A.

If the Asset Sale is authorized by the requisite stockholder vote and the other conditions to the consummation of the Asset Sale are satisfied or waived, we will sell substantially all of our assets related to or used in the CADRA Business to the Buyer for a total cash purchase price of up to \$3.95 million. Following the Asset Sale, we intend to focus on our other technology offerings, including our ProductCenter and Connector technologies, and seek ways to monetize certain other assets, among other things, consistent with the enumerated strategy following the Recapitalization Transaction. See Proposal: The Asset Sale Activities of SofTech Following the Asset Sale beginning on page 20.

Q.

What will happen if the Asset Sale is not authorized?

A.

Pursuant to the terms of the Asset Purchase Agreement, if we fail to obtain a stockholder vote in favor of the Asset Sale Proposal, the Asset Sale will not occur.

Q.

What is the purchase price to be received by the Company?

A.

The total consideration to be received by the Company in the Asset Sale is up to \$3.95 million. Approximately \$2.9 million of the total consideration will be paid at the closing, \$320 thousand on the one year anniversary of the closing (subject to any indemnification claims) and up to \$750 thousand over the three-year period subsequent to the closing based on 10% of the revenue generated by that technology for the Buyer, subject to the terms of the Earn-Out Agreement.

Q.

What are the material terms of the Asset Purchase Agreement?

A.

In addition to the cash consideration we will receive at the closing of the Asset Sale, the Asset Purchase Agreement contains other important terms and provisions, including:

.

We have agreed to indemnify Buyer and certain of its related parties for any damages arising out of any inaccuracy of any of our representations or warranties in the Asset Purchase Agreement, the transfer of undertaking laws in Germany, or any breach or non-fulfillment by us of any covenants, agreements or other obligations contained in the Asset Purchase Agreement;

.

We have agreed to remain an active company and not to wind up or dissolve for a period of twelve months following the completion of the Asset Sale, without the prior written consent of Buyer, which will not be unreasonably withheld;

.

For a period of twelve months following the completion of the Asset Sale, we have agreed not to make any dividends to shareholders or repurchase any shares of our common stock without the prior written consent of the Buyer, which will not be unreasonably withheld, with the exception of (i) repurchasing unregistered and restricted shares of common stock held by Greenleaf Capital for a total purchase price not to exceed \$100,000, and/or (ii) repurchasing 50,000 shares of common stock from specified investors for \$5.50 per share under an existing put agreement that may be exercised by those investors, at their sole discretion, between June 1 and June 30, 2014;

.

We have agreed to conduct our business in the ordinary course and are subject to certain other restrictions on the conduct of the CADRA Business during the period between the signing of the Asset Purchase Agreement on August 30, 2013 and the close of the Asset Sale;

.

The obligations of Buyer and the Company to close the Asset Sale are subject to several closing conditions, including the authorization of the Asset Sale by our stockholders;

.

The Asset Purchase Agreement may be terminated by us or Buyer in certain circumstances, in which case the Asset Sale will not be completed; and

From the date of the signing of the Asset Purchase Agreement until the close of the Asset Sale, we have agreed not to initiate contact with or solicit any inquiry or proposal or engage in any discussions with any third party in connection with any possible proposal regarding a sale of the CADRA Business or any similar transaction. We agree to immediately provide notice to Buyer of any solicitation or offer made by any third party in connection with the sale of the CADRA Business or any similar transaction.

Q.

If consummated, how will the proceeds from the Asset Sale be used?

A.

The Company, and not the Company's stockholders, will receive, at least initially, all of the net proceeds from the Asset Sale. The net proceeds from the Asset Sale will be used as working capital and for general corporate purposes as described in Proposal: The Asset Sale Use of Proceeds beginning on page 22.

Q.

What does our board of directors recommend regarding the Asset Sale Proposal?

A.

Our board of directors has determined that the terms and conditions of the Asset Purchase Agreement and the transactions contemplated thereby, including the Asset Sale, are advisable to, and in the best interests of, the Company and its stockholders. This determination was made by a unanimous vote of all of the members of our board of directors. Our board of directors recommends that you vote FOR the Asset Sale Proposal.

Q.

Do I have appraisal rights in connection with the Asset Sale?

A.

To the extent that the Asset Sale may be deemed to constitute a sale of substantially all of the assets of SofTech within the meaning of Section 12.02 of the MBCA, SofTech's shareholders may have the right to assert and exercise appraisal rights with respect to the Asset Sale and obtain a cash payment in an amount equal to the fair value of their shares, as determined in accordance with the MBCA. Whether appraisal rights may apply to a given transaction is a matter of

some statutory interpretation. Any shareholder of SofTech believing he, she or it is entitled to appraisal rights and wishing to preserve such rights should carefully review Sections 13.01 through 13.31 of Chapter 156D of the MGL (the Massachusetts Appraisal Rights Statutes), which set forth the procedures to be complied with in perfecting any such rights. Failure to strictly comply with these procedures may result in the loss of any appraisal rights to which such shareholders otherwise may be entitled. In light of the complexity of Massachusetts Appraisal Rights Statutes, any Company shareholder wishing to dissent from any such Asset Sale and pursue appraisal rights may wish to consult his, her or its legal advisors. See Proposal: The Asset Sale Appraisal Rights beginning on page 23, and the text of the applicable provisions of the MBCA, which are included as Annex B to this proxy statement.

Q.

Are there any risks to the Asset Sale?

A.

Yes. You should carefully read the section entitled "Risk Factors" beginning on page 8.

Q.

What are the U.S. federal income tax consequences of the Asset Sale to U.S. stockholders?

A.

Our U.S. stockholders will not realize any gain or loss for U.S. federal income tax purposes as a result of the Asset Sale. See "Proposal: The Asset Sale - U.S. Federal Income Tax Consequences of the Asset Sale" beginning on page 22.

Q.

When is the closing of the Asset Sale expected to occur?

A.

If the Asset Sale is authorized by our stockholders and all conditions to completing the Asset Sale are satisfied or waived, the closing of the Asset Sale is expected to occur shortly after the Special Meeting. The Asset Purchase Agreement contains an outside date of November 30, 2013, by which if the Asset Sale is not completed either party may have a right of termination.

CERTAIN CLOSING CONDITIONS SPECIFIED IN THE ASSET PURCHASE AGREEMENT, SOFTECH'S ABILITY TO SUCCESSFULLY CLOSE THE ASSET SALE AND THE TIMING OF SUCH CLOSING, THE DIVERSION OF MANAGEMENT'S FOCUS AND ATTENTION PENDING THE COMPLETION OF THE ASSET SALE, THE IMPACT OF THE ANNOUNCEMENT OF THE ASSET SALE ON THE TRADING PRICE OF OUR COMMON STOCK, OUR BUSINESS AND ON OUR RELATIONSHIPS WITH OUR CUSTOMERS, SUPPLIERS, PARTNERS AND EMPLOYEES, THE RECEIPT AND USE OF THE CASH CONSIDERATION TO BE RECEIVED BY SOFTECH UNDER THE ASSET PURCHASE AGREEMENT, THE SUFFICIENCY OF SOFTECH'S CASH BALANCES AND CASH USED IN OPERATIONS, FINANCING AND/OR INVESTING ACTIVITIES FOR SOFTECH'S FUTURE LIQUIDITY AND CAPITAL RESOURCE NEEDS. ACTUAL EVENTS OR RESULTS MAY DIFFER MATERIALLY FROM THESE PROJECTIONS. INFORMATION REGARDING THE RISKS, UNCERTAINTIES AND OTHER FACTORS THAT COULD CAUSE ACTUAL RESULTS TO DIFFER FROM THE RESULTS IN THESE FORWARD-LOOKING STATEMENTS ARE DISCUSSED UNDER THE SECTION RISK FACTORS IN THIS PROXY STATEMENT. PLEASE CAREFULLY CONSIDER THESE FACTORS, AS WELL AS OTHER INFORMATION CONTAINED HEREIN AND IN OUR PERIODIC REPORTS AND DOCUMENTS FILED WITH THE SECURITIES AND EXCHANGE COMMISSION (SEC). WE DO NOT UNDERTAKE ANY OBLIGATION TO UPDATE OR SUPPLEMENT ANY FORWARD-LOOKING STATEMENTS TO REFLECT SUBSEQUENT EVENTS OR CIRCUMSTANCES, EXCEPT AS REQUIRED BY LAW.

RISK FACTORS

There are a number of factors that our stockholders should consider when deciding whether to vote to approve the Asset Sale Proposal.

Risks Related to SofTech Following the Sale of the CADRA Business

Following the sale of the CADRA Business, we will need to restructure our business to enable us to successfully operate as a significantly smaller company and to seek new sources of revenue and possible new strategic initiatives. SofTech operating results subsequent to the sale of the CADRA Business may not be profitable, and we may be unsuccessful in developing new business opportunities.

The CADRA Business was responsible for about half of the consolidated revenue in fiscal 2013 and the majority of the profitability and cash flow. See SofTech, Inc. Unaudited Pro Forma Consolidated Condensed Financial Statements for the Fiscal Year Ended May 31, 2013 in Annex D. The importance of CADRA Business to the consolidated results in fiscal 2013 was similar in at least the two immediately preceding fiscal years. The remaining product lines following the Asset Sale, namely ProductCenter and the Connector technologies, are product lines that have historically been less profitable than the CADRA Business, have fewer customers and have a more complex sales cycle. It is likely that the Company will need to reduce spending in order to achieve profitability, and ultimately will need to find new strategic directions and find new sources of business revenue in order to meaningfully increase the size of its business. The new product ideas that the management team has interest in pursuing as described in the patent filings over the last few years are speculative in that the products are still in development and the management team may not have the depth of experience required to be successful in those new markets.

We have discretion in the use of the net proceeds from the Asset Sale and may not use them effectively.

If the Asset Sale is consummated, the cash purchase price for the CADRA Business will be paid directly to the Company. Our management will have discretion in the application of the net proceeds from the Asset Sale and could spend the proceeds in ways that do not improve our results of operations or enhance the value of our common stock. The failure by our management to apply these funds effectively could result in financial losses that could have a material adverse effect on our business and cause the price of our common stock to decline. Pending their use, we may invest the net proceeds in a manner that does not produce income or that loses value. We currently intend to use all the proceeds from the Asset Sale and to retain all of our future earnings to finance the growth and development of our business. Further, the Asset Purchase Agreement restricts our ability to pay dividends or buyback shares (with the exception of certain defined repurchase activity) for a one year period after the closing. Furthermore, our debt agreement does not allow for dividends or share repurchases without written consent.

In order to obtain our lender's consent to the Asset Sale, we may have to repay some or all our outstanding indebtedness and/or agree to restrictions or amendments to our debt facility that may be less favorable to us, and result in us having less proceeds for our business.

The Company's assets, including the CADRA Business, secure the Company's outstanding debt facility of \$2.7 million with Prides Crossing Capital (Prides). In addition, the CADRA source code is held in escrow for the benefit of Prides. Under the debt facility, Prides may require full repayment of its outstanding debt in return for releasing the lien and the escrow arrangement on the CADRA Business, a closing condition of the Asset Sale. The Company has discussed an amendment to the existing debt facility with Prides to shorten the maturity of the debt facility and temporarily restricting a portion of the proceeds to be released in the period subsequent to the completion of the Asset Sale as performance measures, as yet undetermined, are met. Based on these discussions, the Company believes the debt facility will be amended before the completion of the Asset Sale to allow the Company to retain the proceeds, albeit with restrictions, but there can be no assurances in this regard at this time.

A portion of the purchase price is contingent and we may not receive those payments.

A portion of the purchase price, an amount equal to \$320,000, will be held back by the Buyer to secure any indemnification claims under the Asset Purchase Agreement. If indemnification claims are asserted, we may not receive all or any of the \$320,000 payable to us.

In addition, up to \$750,000 of the total purchase price is subject to an earn-out arrangement relating to the revenues generated by the CADRA Business during the three-year period following the Asset Sale. The Asset Purchase Agreement also allows the Buyer to withhold monies due under the earn-out arrangement if indemnification claims are asserted. The Buyer has broad discretion to operate its post-closing business, and may choose to do so in a manner which may or may not result in the payment of all of the CADRA royalties pursuant to the Earn-Out Agreement.

We may be required to make a cash payment to shareholders who exercise appraisal rights in connection with the Asset Sale, which would reduce the amount of proceeds that we have to use in the business.

Appraisal rights under the MBCA may be applicable in connection with the Asset Sale. Whether appraisal rights may apply to a given transaction is a matter of some statutory interpretation. Under the MBCA, if the Asset Sale is approved by the affirmative vote of the holders of two-thirds of the outstanding shares of our common stock, shareholders that did not vote in favor of the transaction and otherwise properly asserted their appraisal rights with respect to their shares may be entitled to receive a cash payment in an amount equal to the fair value of their shares (as determined in accordance with the provisions of the MBCA). Any cash payments to shareholders in connection with the assertion of appraisal rights would reduce the amount of proceeds available for use in the business following the completion of the Asset Sale.

We will continue to incur the expenses of complying with public company reporting requirements following the closing of the Asset Sale.

After the Asset Sale, we will continue to be required to comply with the applicable reporting requirements of the Securities Exchange Act of 1934, as amended (the Exchange Act), even though compliance with such reporting requirements is economically burdensome and will represent an even greater percentage of our expenses post-closing as we will be a significantly smaller company following the sale of the CADRA Business.

Risks Related to the Asset Purchase Agreement

The announcement and pendency of the Asset Sale, whether or not consummated, may adversely affect our business.

The announcement and pendency of the Asset Sale, whether or not consummated, may adversely affect the trading price of our common stock, our business or our relationships with customers, partners, suppliers and employees. In addition, pending the completion of the Asset Sale, our management's focus and attention and employee resources may be diverted from operational matters during the pendency of the Asset Sale.

In the event that the Asset Sale is not completed, the announcement of the termination of the Asset Purchase Agreement may also adversely affect the trading price of our common stock, our business or our relationships with customers, partners, suppliers and employees.

We cannot be sure if or when the Asset Sale will be completed.

The consummation of the Asset Sale is subject to the satisfaction or waiver of various conditions, including the authorization of the Asset Sale by our stockholders. We cannot guarantee that the closing conditions set forth in the Asset Purchase Agreement will be satisfied. If we are unable to satisfy the closing conditions in Buyer's favor or if other mutual closing conditions are not satisfied, Buyer will not be obligated to complete the Asset Sale.

If the Asset Sale is not completed, our board of directors, in discharging its fiduciary obligations to our stockholders, will evaluate other strategic alternatives that may be available, which alternatives may not be as favorable to our stockholders as the Asset Sale.

The Asset Purchase Agreement limits our ability to sell the CADRA Business to a party other than Mentor.

The Asset Purchase Agreement contains provisions that make it more difficult for us to sell the CADRA Business to a party other than Buyer, including a non-solicitation provision and a provision requiring us to notify Buyer of any solicitation or offer made by any third party in connection with the sale of the CADRA Business or any similar transaction. These provisions could discourage a third party that might have an interest in acquiring all of or a significant part of our CADRA Business from considering or proposing such an acquisition, even if that party were prepared to pay consideration with a higher value than the consideration to be paid by Buyer.

The Buyer is not assuming any of the excluded liabilities under the Asset Purchase Agreement.

Under the Asset Purchase Agreement, Buyer is not assuming all of the liabilities associated with the CADRA Business. Certain liabilities will remain with SofTech post-closing. For example, Buyer is only assuming customer support obligations and obligations for performance under the certain assigned contracts that arise after the closing, and is not assuming liability for any obligation or breach by SofTech occurring or arising prior to the closing. While the Company believes that it has adequately accrued for these liabilities or is adequately insured against certain of the risks associated with such excluded liabilities, there can be no assurances that additional expenditures will not be incurred in resolving these liabilities.

The Asset Purchase Agreement may expose us to contingent liabilities.

We have agreed to indemnify the Buyer for certain breaches of representations, warranties or covenants made by us in the Asset Purchase Agreement up to \$3.95 million. Significant indemnification claims by the Buyer could materially and adversely affect our business, financial condition and results of operations.

Our executive officers and directors may have interests in the Asset Sale other than, or in addition to, the interests of our stockholders generally.

Members of our board of directors and our executive officers may have interests in the Asset Sale that are different from, or are in addition to, the interests of our stockholders generally. Our board of directors was aware of these interests and considered them, among other matters, in approving the Asset Purchase Agreement. See PROPOSAL: THE ASSET SALE Interests of Certain Persons in the Asset Sale beginning on page 26.

THE SPECIAL MEETING

Time, Date and Place

The Special Meeting will be held on October 9, 2013 at 59 Lowes Way, Suite 401, Lowell, Massachusetts 01851 at 10:00AM local time.

Proposal

At the Special Meeting, holders of shares of our common stock as of the Record Date will consider and vote upon:

.
the Asset Sale Proposal;

a proposal to adjourn the Special Meeting, if necessary or appropriate, to solicit additional proxies if there are insufficient votes at the time of the Special Meeting to approve the Asset Sale Proposal; and

such other matters as may properly come before the Special Meeting and any postponements or adjournments thereof.

A description of the Asset Sale Proposal is included in this proxy statement. A copy of the Asset Purchase Agreement is attached as *Annex A* to this proxy statement.

Required Vote

Proposal: The Asset Sale Proposal

The authorization of the Asset Sale Proposal requires the affirmative vote of the holders of two-thirds of the outstanding shares of our common stock. You may vote **FOR**, **AGAINST** or **ABSTAIN**. Failures to vote, abstentions and broker non-votes, if any, will have the same effect as a vote **AGAINST** the Asset Sale Proposal.

Record Date

Holders of our common stock as of the close of business on September 6, 2013, the Record Date for the Special Meeting, are entitled to notice of, and to vote at, the Special Meeting and any postponements or adjournments of the Special Meeting. On the Record Date, there were 875,135 shares of common stock outstanding and entitled to vote at the Special Meeting and any postponements or adjournments of the Special Meeting. No other shares of capital stock were outstanding on the Record Date.

Ownership of Directors and Executive Officers

As of the Record Date, our directors and executive officers beneficially held approximately 27.8% in the aggregate of our shares of common stock entitled to vote at the Special Meeting. In addition, the directors have voting control over

an additional 11.6% of outstanding shares.

Quorum and Voting

The representation in person or by proxy of holders of at least a majority of the issued and outstanding shares of our common stock entitled to vote at the Special Meeting is necessary to constitute a quorum for the transaction of business at the Special Meeting. Votes withheld, abstentions and broker non-votes are counted as present or represented for purposes of determining the presence or absence of a quorum. A non-vote occurs when a broker holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because, in respect of such other proposal, the broker does not have discretionary voting power and has not received instructions from the beneficial owner. Each share of common stock issued and outstanding on the Record Date is entitled to one vote.

Proxies; Revocation of Proxies

If you are unable to attend the Special Meeting, we urge you to submit your proxy by completing and returning the enclosed proxy card. If your shares of common stock are held in street name (i.e., through a bank, broker or other nominee), you will receive instructions from your broker, bank or other nominee that you must follow in order to have your shares voted. If you elect to vote in person at the Special Meeting and your shares are held by a broker, bank or other nominee, you must bring to the Special Meeting a legal proxy from the broker, bank or other nominee authorizing you to vote your shares of common stock.

Unless contrary instructions are indicated on the proxy card, all shares of common stock represented by valid proxies will be voted **FOR** the Asset Sale Proposal and will be voted at the discretion of the persons named as proxies in respect of such other business as may properly be brought before the Special Meeting. As of the date of this proxy statement, our board of directors knows of no other business that will be presented for consideration at the Special Meeting other than the Asset Sale Proposal.

You may revoke your proxy and change your vote at any time before the polls close at the Special Meeting by:

- .
- giving written, dated notice to the Corporate Secretary of SofTech stating that you would like to revoke your proxy;
- .
- signing and returning to us in a timely manner another proxy card with a later date;
- .

if you are a stockholder of record or have a legal proxy from the stockholder of record, attending the Special Meeting in person and voting; or

if your shares are held in street name, following the instructions of your bank, broker or other nominee with respect to the revocation of proxies.

Simply attending the Special Meeting will not constitute a revocation of your proxy.

Adjournments

The Special Meeting may be adjourned by the holders of a majority of the shares of our common stock present in person or represented by proxy and entitled to vote at the Special Meeting for any purpose, including for the purpose of obtaining a quorum or soliciting additional proxies if there are insufficient votes to authorize the Asset Sale. Any adjournment may be made without notice. Any adjournment will allow our stockholders who have already sent in their proxies to revoke them at any time prior to their use at the Special Meeting as adjourned.

Broker Non-Votes

Broker non-votes occur when a broker holding stock in street name does not vote the shares on some or all matters. Brokers are permitted to vote on routine, non-controversial proposals in instances where they have not received voting instructions from the beneficial owner of the stock but are not permitted to vote on non-routine matters. Uncast votes on non-routine matters are referred to as broker non-votes. Because each proposal being considered at the Special Meeting is a non-routine matter, shares of our common stock as to which brokers have not received any voting instructions will not be deemed present for any purpose at the Special Meeting.

The inspector of elections will treat broker non-votes as shares that are not present and entitled to vote for the purpose of determining the presence of a quorum. However, because the votes required to approve the Asset Sale Proposal are based on a percentage of the total number of shares of common stock outstanding, broker non-votes will have the effect of a vote **AGAINST** the Asset Sale Proposal.

Solicitation of Proxies

This proxy solicitation is being made and paid for by SofTech on behalf of its board of directors. Our directors, officers and employees may also solicit proxies by personal interview, mail, e-mail, telephone, facsimile or other means of communication. These persons will not be paid any additional compensation for their efforts. We will also request brokers and other fiduciaries to forward proxy solicitation material to the beneficial owners of shares of our common stock that the brokers and fiduciaries hold of record. Upon request, we will reimburse them for their reasonable out-of-pocket expenses.

Questions and Additional Information

If you have more questions about the Asset Sale Proposal or how to submit your proxy, or if you need additional copies of this proxy statement or the enclosed proxy card or voting instructions, please contact SofTech, Inc., Attn: Corporate Secretary, Amy McGuire, 59 Lowes Way, Suite 401, Lowell, Massachusetts 01851, telephone number (978) 513-2725.

PROPOSAL: THE ASSET SALE

The following discussion is a summary of the material terms of the Asset Sale. We encourage you to read carefully and in its entirety the Asset Purchase Agreement, which is attached to this proxy statement as Annex A, as it is the legal document that governs the Asset Sale.

General Description of the Asset Sale

If the Asset Sale is completed, Buyer would purchase certain assets and assume specified liabilities of our design and drafting technology known as CADRA, which may constitute substantially all (as that term is defined under Massachusetts law) of SofTech's assets, for up to \$3.95 million. Approximately \$2.9 million of the Purchase Price will be paid at the closing, \$320 thousand on the one year anniversary of the closing (subject to any indemnification claims) and up to \$750 thousand over the three-year period subsequent to the closing based on 10% of the revenue generated by that technology for the Buyer, subject to the terms of the Earn-Out Agreement.

Background of the Asset Sale

SofTech acquired an \$11 million in revenue, Michigan based, systems integrator company in 1990 which included a group of three employees distributing third party hardware and software aimed at mechanical engineers. At the time, this group sold and supported workstations from Silicon Graphics, Inc. and computer aided design (CAD) software from Parametric Technology Corporation (PTC), and generated revenue of about \$1 million of the \$11 million annual revenue of the acquired entity.

By the fiscal year ended May 31, 1996, this CAD division had grown to approximately \$14 million in revenue and had 39 employees operating out of 6 offices in the United States. PTC 's CAD software was the core technology being offered by SofTech with the sale of workstations and services such as installation and training deriving from the sale of that software.

By September 1996, SofTech had sold off or closed down all its other business activities other than this CAD division. The proceeds from those business divestitures were distributed to shareholders (\$30 per share in cash in December 1996 and, in May 1997, \$20.60 per share in stock of another public company that had been received as part of the proceeds from one such product line sale), and a new management team was appointed with a plan to grow the CAD business. That management team nominated a new board of directors and the existing directors at the time resigned.

We were notified by PTC that, effective September 30, 1996, all sales of its popular Pro/Engineer software would be sold directly by PTC to the end user thereby eliminating all resellers. SofTech was the second largest reseller of Pro/Engineer in the U.S. at that time, had been offering the technology from its launch and had secured some very large accounts. Resellers such as SofTech were allowed to market a newly introduced PTC product called

PT/Modeler, a scaled down version of Pro/Engineer at a reduced price. The distribution agreement between PTC and the Company allowed for the termination of the arrangement for any reason whatsoever, or no reason at all, with 30 days notice.

Following the PTC decision regarding distribution of its technology as described above, SofTech developed and implemented an acquisition strategy. From 1997 through 2003 the Company completed seven acquisitions of technology and services companies focused on the CAD market and eventually ended all distribution of hardware and third party software products. At the heart of the strategy was putting the Company in a position where it owned its technology so as to avoid the risk of being put out of business as a reseller of another companies' technology.

The most significant acquisition was the CADRA technology in May 1998 for approximately \$11.4 million in cash. CADRA was a well-established design and drafting technology generating revenue of approximately \$15.9 million and net income of approximately \$1.6 million in the last full fiscal year prior to our acquisition. CADRA was first introduced in 1983 but was never able to attain a large enough customer base to be a dominant solution in that design and drafting market. The design and drafting market was dominated by Autodesk's AutoCAD technology, the de facto standard in 2D design. By 1998, the CAD market was shifting from complex, \$20,000 per unit, UNIX based, 3D solutions offered by billion dollar revenue companies such as Dassault, PTC and Structural Dynamics Research Corporation, to easy-to-use, \$5,000 per unit, CAD solutions offered only on the Microsoft platform by companies like SolidWorks, Autodesk and eventually Siemens.

Although the design and drafting market was eclipsed first by high-end 3D solutions in the late 1980's and then by lower priced, very powerful mid-range 3D solutions in the mid-1990's, SofTech believed that the CADRA technology would continue to be utilized in the marketplace for the foreseeable future. The CADRA technology acquired had a great reputation, a loyal but small (relative to AutoCAD's customer base) customer base and a deeply experienced employee group.

Our strategy was to market the CADRA technology through our 18 office locations throughout the United States, a significant improvement over the U.S. distribution of the CADRA technology prior to our acquisition. Most of our offices had previously marketed Pro/Engineer or other CAD technology and/or service offerings.

The acquisition strategy described above was funded primarily through a \$9 million debt facility with Imperial Bank (Imperial), and a \$5 million subordinated loan, a \$2.5 million bridge loan and an equity investment of \$1.5 million all from Greenleaf Capital, Inc. (Greenleaf).

The strategy to market and sell CADRA through the Company s existing sales offices was a failure. In the third quarter of fiscal 1999, we failed to meet a financial covenant on the Imperial debt facility and were declared in default on that arrangement. In the first quarter of fiscal 2000, Greenleaf provided an \$11 million debt facility to satisfy the Imperial loan and to provide us with additional working capital. In November 2002, Greenleaf increased the \$11 million loan facility to \$15 million and provided us with a \$3 million line of credit.

We believe the CADRA marketing and sales strategy failed because the Company s sales representatives and engineers were accustomed to representing PTC s Pro/Engineer solution that was a revolutionary 3D technology when introduced in 1988 and had a distinct technological advantage in the CAD marketplace through the mid-1990 s. Potential users were eager to get a product demonstration and existing users were broadening their deployment of the technology within their organizations. CADRA, on the other hand, was a design and drafting technology operating in a market dominated by Autodesk s AutoCAD solution that had become the de facto standard for design and drafting solutions.

The Company implemented a changed strategy with the CADRA technology under a new CEO in June 2001 after incurring cash losses (net loss adjusted for non-cash expenses and capital expenditures) totaling approximately \$10.1 million for the three-year period ended May 31, 2001, the three fiscal years that immediately followed the acquisition of the CADRA product line in May 1998.

The new strategy reflected the fact that there was no reasonable approach SofTech could implement to dislodge AutoCAD from its dominant position in the design and drafting market. However, SofTech could focus its resources on keeping its existing CADRA users satisfied with the technology so as not to move to another solution while keeping expenditures at or near the predictable recurring maintenance revenue, which historically had been about 60% to 65% of CADRA revenue. Most of the U.S. sales offices were closed in the first quarter of fiscal year 2002 under this new strategy and development resources were reduced.

This changed approach limited our potential for increasing CADRA s revenue, however, the profitability of that product line increased significantly and, because it was SofTech s largest operating unit at that time, had a dramatic and positive immediate impact on the consolidated results. Since the change in strategy with regard to the CADRA product line, SofTech has generated twelve straight fiscal years of positive cash flow (net income (loss) plus non-cash expenses less capital expenditures) totaling nearly \$9 million.

With the change in strategy, CADRA has been a reliable cash flow generator for the Company. Annual revenue has declined but operating profits as a percentage of revenue have been consistently in excess of 50%.

As previously described, Greenleaf initially loaned the Company \$7.5 million in subordinated loans to partially fund the acquisition strategy in 1998. Following the Company's default on its loan facility with Imperial, Greenleaf provided the Company with an additional \$11 million loan facility to repay Imperial in full and provide the Company with additional working capital, which was later increased to \$15 million along with a \$3 million line of credit.

At various times in the past, the Company sought alternatives that might allow it to reduce its highly leveraged financial position. In January 2008, Greenleaf and the Company contracted with the Company's current CEO, Joseph Mullaney (Mr. Mullaney previously served as CEO from June 2001 through December 2006), and former CFO, Douglas Potter (Mr. Potter served as CFO from June 1990 through December 1993), to identify and approach potential buyers for some or all of the business. In a project that spanned eight months Messrs. Mullaney and Potter identified and contacted 20 potential targets composed of both strategic and financial buyers. From those efforts, only one potential buyer emerged. In that one instance, the financial buyer (Entity A) indicated a value for the entire business of approximately \$5 million conditioned on a structure that would allow them to purchase 100% of the assets of the business without any liabilities. The SofTech board of directors at the time concluded that the value indication from Entity A was insufficient and the proposed structure too complicated to pursue the transaction further, and in October 2008 ceased the sale process.

In the summer of 2009, Mr. Mullaney had identified three new potential buyers for the SofTech business and approached Greenleaf to determine if there was any interest on their part in pursuing a sale. In August 2009, Mr. Mullaney entered into an Advisory Agreement with Greenleaf whereby a contingent fee arrangement was established in the event a final sale was completed with a buyer identified by Mr. Mullaney. All deal activities, however, were to be managed by the Greenleaf CFO, Michael Elliston, also a SofTech director, with the aid of the SofTech management team.

Mr. Elliston engaged exclusively with one of the three Mullaney identified prospects (Entity B) to determine if a sale could be completed. It was determined by Mr. Elliston that Entity B had the greatest financial capacity to complete a transaction. Mr. Elliston and the SofTech management team met with principals of Entity B in the fall of 2009 after signing a Non-Disclosure Agreement. After the presentations and preliminary due diligence, Entity B indicated that they were interested in purchasing SofTech for approximately \$6 million in cash but required additional due diligence to determine the structure of the transaction. The SofTech board of directors at the time and Greenleaf agreed to continue discussions and due diligence activities to determine if a transaction could be completed.

In June 2010, the Company defaulted on its loan agreement with Greenleaf by failing to make a scheduled principal and interest payment due on the loan. In August 2010, the Company and Greenleaf entered into a forbearance agreement whereby Greenleaf agreed not to enforce its rights under the loan agreement for repayment. Also in August 2010, William Johnston, Greenleaf's President and a director of SofTech, and Mr. Elliston, resigned as SofTech directors and the Company filed a Form 15 with the SEC to de-register its shares and immediately suspend all filing requirements on Forms 10-Q and 10-K. The forbearance agreement expired on October 1, 2010 and was not renewed.

In June 2010, the Company engaged outside counsel to assist them in preparing for a possible foreclosure action by Greenleaf to collect its outstanding debt of more than \$10 million. Greenleaf worked closely with management and outside counsel during this period to protect its investment in the Company by providing additional short term financing to continue operations. Between July 2010 and the Recapitalization Transaction, as defined hereunder, the Company incurred expenditures totaling nearly \$400,000 primarily related to services provided by outside counsel preparing for a court action that would in all probability have resulted in the complete loss of value for the SofTech equity holders.

After a lengthy period of due diligence, the Company received a non-binding letter of intent on August 26, 2010 from Entity B proposing a \$6 million cash purchase of substantially all of the assets conditioned on the Company going through a court procedure known as an Assignment for the Benefit of Creditors (ABC). Generally, after an ABC process is completed, the secured lender, in this case Greenleaf, would own 100% of the assets free and clear of all unsecured creditors' and equity holders' claims. The SofTech board of directors at the time and Greenleaf agreed to continue through the due diligence process with Entity B to determine if a deal could be completed on the terms outlined in the letter of intent.

In connection with evaluating the above described offer from Entity B, the board of directors at the time, determined, with the assistance of independent valuation firms, that the fair value of the business assuming no cash or debt and assuming no value for the Company's tax attributes was between \$3.2 and \$3.3 million.

On September 28, 2010, the Company received a non-binding letter of intent from an entity (Entity C) that had been identified by the Company's then CEO, Jean Croteau, indicating a willingness to pay Greenleaf between \$4 and \$5 million in full satisfaction of all monies due from SofTech so that a merger between Entity C and a debt free SofTech could be completed. No details were provided in that communication as to structure of the merger and how much, if

any, of the merged entity would be owned by the former SofTech shareholders after completion of the merger.

On October 19, 2010, after completing certain due diligence procedures including interviews of key employees, Entity C revised the letter of intent and offered to pay \$2 million in cash for 100% of the assets of the CADRA product line or, as an alternative, offered to pay \$3.5 million in cash for 100% of the Company's assets and up to another \$450,000 in a contingent arrangement based on a significant customer's maintenance renewal.

In a letter dated September 15, 2010, Entity B revised their August 26, 2010 letter of intent. Citing the time that had elapsed since their earlier letter and deterioration in the business, they reduced their cash offer from \$6 million to \$3 million. In a letter dated December 21, 2010, Entity B added to their \$3 million offer a contingent payment of up to \$500,000 based on 50% of all maintenance fees earned from a significant customer's maintenance renewals over the five year period subsequent to the close.

In a letter dated December 23, 2010, the Company received and shortly thereafter accepted a non-binding letter of intent from a group of investors organized by Mr. Mullaney whereby they offered to purchase 384,588 shares of common stock for an aggregate purchase price of \$421,765. That equity infusion together with a \$3.2 million loan facility from Danvers Bank to the Company arranged for by the investor group would be used to pay Greenleaf \$3 million in full satisfaction of the \$10.6 million it was owed. Greenleaf would retain its 5.4 million common shares (prior to the 1-20 reverse stock split in June 2011). This transaction was completed on March 11, 2011 (Recapitalization Transaction). Mr. Mullaney and Mr. Robert Anthonyson, a member of the investment group, were appointed CEO and VP of Business Development, respectively, and each was named a director. In addition, two new directors were appointed and the former directors resigned.

In making the case for the acceptance of this proposal, the investor group argued that avoiding an ABC procedure was beneficial to Greenleaf in that they may receive slightly less cash initially as compared to the other alternatives being considered but would retain equity that had the potential for upside value. In addition, other SofTech shareholders would have potential upside value as compared to the certainty of zero value in the event whereby the ABC process was completed thereby avoiding potential time consuming and expensive disputes with unsecured creditors and equity holders subsequent to the ABC procedure.

The strategy of the new management team has been threefold:

.

Stabilize the revenue for the three product lines: CADRA, ProductCenter and AMT;

.

Seek reasonable investment ideas that had the potential to grow the revenue profitably; and

.

Identify and implement actions to monetize Company assets to enhance shareholder value.

The new management team believes it is in a better position to enhance shareholder value, relative to the overwhelming debt position of the Company prior to the Recapitalization Transaction, given the greatly improved financial position of the Company and the experience of the investor group.

In March 2012, the Company engaged Monadnock Advisors (Monadnock) to provide business advisory and investment banking services. Hank Nelson, a current SofTech director, is the principal of Monadnock and was responsible for assisting the investor group in securing the debt financing from Danvers Bank in March 2011. Danvers Bank was purchased by People s Bank in June 2011.

Monadnock initially worked with management to develop the descriptive materials and presentations, articulate the strategy, prepare financial forecasts, research the complex issues related to the tax attributes and identify potential companies (M&A Partners) that might benefit from SofTech s assets. These assets included a loyal customer base, strong recurring maintenance revenue, a deeply experienced and long-tenured employee group, two profitable product lines (AMT product line was sold in May 2011) and certain federal and state tax attributes totaling approximately \$25 million. The Company had a valuation reserve against those tax attributes due to the uncertainty regarding realization.

As part of the preliminary investment banking efforts, Monadnock identified a total of 58 companies that, on initial evaluation, appeared to be synergistic with the Company. The targets were divided into three different groups based on an assessment of the likelihood that a mutually beneficial transaction might be consummated. Management worked with Monadnock to further assess and narrow the list.

In July 2012, the agreement with Monadnock was amended to re-direct its focus from identifying M&A Partners to assisting the Company in its efforts to refinance its debt. This amendment was necessitated by the aforementioned acquisition of Danvers Bank by People's Bank. The debt facility obtained by the Company in March 2011 from Danvers Bank was based on the historical and projected cash flows of the business. Danvers Bank had a business unit that focused on cash flow lending. Following the acquisition by People's Bank, many of the people within this specialized cash flow lending group departed and the newly assigned account relationship managers made it clear to the Company that People's Bank: (i) would not have made the loan to SofTech; and (ii) was more focused and interested in traditional asset based lending for which SofTech would not qualify. In addition, the basic banking services provided by People's Bank deteriorated significantly subsequent to the transaction in a number of ways. Based on this, the Company believed it could not rely on People's Bank as a dependable debt provider in the event whereby we encountered any disruption in expected business activity. In fact, the Company viewed its deteriorated relationship with People's Bank to represent a significant financial risk and that attempting to mitigate that risk with a refinancing would protect shareholder value.

In connection with refinancing activities, Monadnock contacted sixteen traditional debt providers and fourteen alternative financing sources over the months between July 2012 and about April 2013. These efforts included communications, delivery of background information, meetings and detailed presentations with several of the thirty financing sources contacted. This activity resulted in two term sheets and the refinancing in May 2013 with Prides Capital.

The Company's experience both during the efforts to secure debt financing prior to the March 2011 Recapitalization Transaction and the refinancing activity described above clearly demonstrated to us that there are few reasonably priced debt providers willing to lend on cash flow to companies with our financial profile despite a twelve year history of positive results, defined as earnings before interest and tax expense, depreciation and amortization (EBITDA), one of the primary measures used by debt providers for basing their lending decisions.

During the period whereby the Company was attempting to refinance its debt, we remained in compliance with various debt covenants of the debt facility with People's Bank but the margin by which we complied was insufficient, in management's view. For example, for the twelve months ended August 31, 2012 our ratio of EBITDA to outstanding debt (Leverage Ratio) had to be 1.75:1 or less. Our actual Leverage Ratio for that period was 1.59:1 and we were in compliance. However, had our EBITDA for that quarter been \$180,000 rather than the \$285,000 actual operating results, we would have violated our Leverage Ratio. As described above, we did not believe our banking relationship was strong enough to renegotiate the terms of the facility had we violated any covenants. The revenue from the sale of our patents in the first and second quarters of fiscal 2013 for \$200,000 and \$100,000, respectively, were the incremental contributions to EBITDA that allowed us to remain in compliance with the Leverage Ratio.

On September 22, 2012, Monadnock was contacted by Mr. Kwame James of Global Vantage inquiring as to SofTech's possible interest in an equity investment for a majority stake. This led to an introductory phone conversation between and among Mr. Syed Gilani, Director of Business Development, Continuing Engineering Division for Mentor, Joseph Mullaney, CEO of SofTech and Hank Nelson, Principal of Monadnock on October 11, 2012 and sharing of preliminary overview information. On November 20, 2012, the Company entered into a Non-Disclosure Agreement with Mentor and provided additional information including non-public information and forecasts. On December 13, 2012, SofTech representatives Joe Mullaney, Bob Anthonyson, Vice President of Business Development, and Hank Nelson met with Mentor representatives Henry Potts, Vice President and General Manager, Systems Design Division, Syed Gilani, Mike Griesbach, PADS Product Line Director, and Dan Boncella, Director of Marketing, Systems Design Division, to share preliminary information about our respective companies. On December 19, 2012, Mike Griesbach visited SofTech's headquarters and was given a demonstration of the CADRA technology.

Over the subsequent several months the companies engaged in informal discussions regarding product lines, valuation, customer base and other matters related to the CADRA Business.

In late January 2013, uncertain as to whether a transaction could be completed with Mentor, Mr. Mullaney instructed Monadnock to contact other potential M&A Partners. The Company and Monadnock together reviewed the entities initially and preliminarily identified prior to the Company redirecting Monadnock to the refinancing effort and, from that list, selected those entities for which we believed SofTech represented the most value. Over the subsequent weeks, a total of nine entities were contacted, several Non-Disclosure Agreements signed and descriptive materials regarding SofTech shared.

At the same time the informal discussions continued between and among Kwame James, Syed Gilani, Hank Nelson and Joe Mullaney sharing information, financial modeling, customer data, and trends in the CADRA Business; all primarily aimed at narrowing the valuation gap between the parties.

On March 14, 2013, the Company received a draft term sheet (Term Sheet) from Mentor detailing the terms under which they would be interested in purchasing the CADRA product line from SofTech in an asset deal. On March 20, 2013, the SofTech board of directors met for the sole purpose of reviewing the Mentor Term Sheet and an Exclusivity

Agreement. Management reviewed the key terms of the draft documents, provided preliminary financial analysis such as the estimated net present value of the proceeds to be received in the transaction, the estimated cash to be generated from the sale along with pro forma financial statements assuming the transaction would be completed on or before May 31, 2013. The board of directors also reviewed the status of communications between the Company and the nine entities contacted since late January 2013. The board of directors authorized management to move forward with the Mentor discussions and provided specific feedback on the provisions of the Term Sheet.

After additional discussions with Mentor, the two parties agreed upon the non-binding Term Sheet and on March 26, 2013 signed a binding Exclusivity Agreement restricting SofTech from negotiating for the sale of CADRA to a party other than Mentor through May 31, 2013.

Following the execution of the Exclusivity Agreement, the parties engaged in due diligence activities including negotiating the Asset Purchase Agreement, the Earn-Out Agreement and the Distribution Agreement. Between March 26, 2013 and August 30, 2013, the date the Asset Purchase Agreement was signed, the SofTech board of directors met in person or by conference call on five dates to discuss, among other things, the transaction with Mentor.

On April 9, 2013, the board of directors met. Management reported that that the initial due diligence request from Mentor had been received and information was being gathered. A data room was being established to upload materials responsive to the request. A preliminary timeline for deal completion was reviewed and the most difficult issues that needed to be resolved were identified.

The board again met on May 30, 2013 and, among other matters, discussed the Mentor transaction. Management reported that there were three critical issues that needed resolution before the final stages of due diligence could be completed. The issues were significant enough to delay these due diligence tasks which would involve technology assessment by third party vendors and interaction with the employees of the Company's CADRA development group. The directors had a discussion regarding the advantages and disadvantages of completing the sale, the prospects for profitable growth from the remaining operations subsequent to the sale of CADRA, the possible reaction to an announcement from employees, customers, partners and investors and other matters that might impact shareholder value should the contemplated transaction be completed. Following this discussion, the board authorized management to continue negotiations towards resolving the critical issues so that the remaining due diligence tasks may be completed.

On June 18, 2013, the board of directors held a conference call to discuss the Earn-Out Agreement. Specifically, the Company was seeking certain assurances regarding unit pricing and/or operational controls during the three-year period wherein the Company would be receiving royalty payments. Mentor discussed with the Company its plans for the business subsequent to acquisition but was unwilling to commit to operational controls including unit pricing during the earn out period. Management provided the board with its assessment of the risk to the SofTech shareholders of not having such operational controls contractually provided for in the Earn-Out Agreement. Specifically, it was reasoned, the Company maximized its \$750 thousand in contingent payments if the CADRA Business generated an average of \$2.5 million per year for Mentor over the three-year period following the completion of the transaction. The average revenue for CADRA over the last three fiscal years was in excess of \$3.0 million. Given SofTech's continued involvement as a reseller in Europe (except for Germany) and account control over Sikorsky, the largest U.S. CADRA user, for one year, it was management's view that the Company would have a direct contribution towards maximizing the royalty. In addition, over the last three fiscal years approximately 65% of the annual CADRA revenue had been derived from recurring annual maintenance revenue contracts that are reasonably predictable in that they represent customers protecting their investment rather than making a new technology investment. Historically, CADRA maintenance support contracts had renewals rates of approximately 90%. After further discussion, the board of directors authorized management to acquiesce to Mentor's position on this matter.

On August 1, 2013, the board met to discuss several matters, among them the Asset Sale. Management reported that while not all matters were completely resolved, significant progress had been made and it did not appear that there were any material issues that couldn't be resolved. It was estimated that the Asset Purchase Agreement and related agreements would be ready for a final board review and vote in the last two weeks of August 2013. Management then reviewed the process and timeline for announcing the transaction, scheduling a shareholder meeting and filing the proxy statement in the event whereby the board did vote to approve the transaction.

On August 20, 2013, board of directors met to review the final documents related to the proposed Asset Sale. Management first summarized the key activities related to the transaction that had been completed over the last month including third party assessment of the CADRA source code, discussions with employees, interactions with Prides Capital concerning the debt facility and final negotiation of the terms of the Asset Purchase Agreement and ancillary agreements associated with the contemplated transaction. Considerable time was spent reviewing each of the significant terms of the Asset Purchase Agreement and the Earn-Out Agreement. Lastly, an estimated timeline of events was presented in the event whereby the board voted to approve the transaction. Management concluded the presentation with a recommendation that the board vote to give management the authority to complete the transaction.

The board then unanimously voted to give management the authority to complete the Asset Sale on terms not materially different from those reviewed with the board.

Reasons for the Asset Sale

The board of directors has determined that the sale of CADRA Business in this transaction is in the best interests of the shareholders because it believes that the purchase price represents a full valuation of the CADRA Business and that the Company will have a better chance of increasing shareholder value by selling the CADRA Business in this transaction than it would if it retained the CADRA product line and continued to operate it. Specifically, the cash proceeds from the Asset Sale will provide the Company with needed financial liquidity and flexibility, which is important to the Company and its shareholders in order to avoid the risk of defaulting on the covenants in its current debt facility with its lender and to provide the Company with the opportunity to continue to operate its remaining business while pursuing other initiatives intended to increase shareholder value. In evaluating the terms under which Mentor offered to purchase the CADRA product line, the board considered many factors. The most important factors considered were the following:

Value. The board of directors determined that the purchase price offered by Mentor was a fair value for the CADRA Business relative to other indicators of value, considering the \$2.88 million in cash to be paid at the closing, the 10% one-year holdback (equaling \$320,000), the earn-out payments of up to \$750,000 over the three year period following the closing date, the liabilities assumed and the billed receivables retained by SofTech. Other indicators of value included discussions with unrelated third parties over the recent past, market value of the business as reflected in the stock price and the market value as indicated by the investors that purchased 39% of the Company's equity in the Recapitalization Transaction for \$421,765;

Liquidity. The transaction would result in the Company having a positive net cash (cash less debt) position immediately following the closing for the first time since 1997. While reasonable levels of borrowing can enhance shareholder value it also increases the financial risk profile of the business. The actual performance of the business as compared to the performance against certain debt covenants does not provide the business with an adequate cushion to insulate it from uneven order flow and/or unexpected expenditures. For example, for the twelve months ended August 31, 2012 our Leverage Ratio had to be 1.75:1 or less. Our actual Leverage Ratio for that period was 1.59:1 and we were in compliance. However, had our EBITDA for that quarter been \$180,000 rather than the \$285,000 actual operating results, we would have violated our Leverage Ratio. As described above, we did not believe our banking relationship was strong enough to renegotiate the terms of the facility had we violated any covenants. The revenue from the sale of our patents in the first and second quarters of fiscal 2013 for \$200,000 and \$100,000, respectively, were the incremental contributions to EBITDA that allowed us to remain in compliance with the Leverage Ratio. The Company experienced debt default in both 1999 and again in 2010. Default on debt allows the lender, at its discretion, to seek immediate repayment through foreclosure or other means that can significantly diminish or completely destroy shareholder value. As described above, this is exactly the situation faced by the SofTech shareholders before the Recapitalization Transaction.

Prospects of the CADRA Business as Part of Company's Operations. For more than a decade through fiscal 2010, we had experienced revenue declines in our CADRA product line. The revenue declines were due to the age of the product, the introduction of robust 3D solutions for less than \$5,000 per unit and the dominance of AutoCAD in the 2D market, a product offered by Autodesk. However, in fiscal years 2011 and 2012 CADRA revenue increased as compared in each case to the immediately preceding fiscal year, primarily driven by our existing non-maintenance CADRA customers that repurchased licenses due to the upgrade of their operating system. Older versions of CADRA do not function on the Windows 7 operating system. If the Company were to continue to operate the CADRA Business, it would expect to benefit from this kind of activity from time to time as Windows 7 adoption expands. However, it is difficult to predict the extent of this kind of inoperability-related revenue. Given the foregoing and the fundamental trend of this product line, the board of directors has determined that the long-term interests of the shareholders are best served by using the proceeds from the Asset Sale to focus on the Company's other businesses, while pursuing new strategic activities.

Strategy. The current management team took operational control in March 2011. Prior to that Recapitalization Transaction, Greenleaf and the previous management team were evaluating various alternatives for resolving the default on the Greenleaf debt facility including putting the Company through an Assignment for the Benefit of Creditors which would have reduced the value of the common shares to zero. The stated strategy of the new management team has been to enhance shareholder value from the \$1.09 per common share price on the date the Recapitalization Transaction was completed (March 11, 2011). A core tenet of the management team's strategy following the Recapitalization Transaction has been to actively consider ways to monetize some or all of the Company's assets and to pursue new strategic initiatives, such as potential business combinations, sale transactions or strategic partnerships. The sale of the Company's AMT product line in May 2011 and the sale of its patents in June 2012 and September 2012 reflected implementation of that strategy. The Company's tax attributes allowed these taxable events to be offset resulting in no federal or state tax being assessed. The proposed sale of the CADRA product line is a continuation of that stated strategy. The board of directors believes that the Company has a better chance of enhancing shareholder value by using the proceeds from the Asset Sale to pursue strategic initiatives than by continuing to operate the CADRA Business.

The Buyer. Mentor is a company with worldwide operations, more than \$1 billion in revenue and the financial strength to complete the transaction and invest in CADRA's success. The Company has a financial interest in the success of the CADRA technology after completion of the transaction through potential earn-out payments of up to \$750,000, and strongly believes Mentor can and will grow the CADRA user base. As such, we will continue to seek opportunities to support Mentor's growth initiatives with the technology. Furthermore, for a minimum of one year following the Asset Sale, the Company will continue to offer CADRA in Europe through its wholly-owned Italian subsidiary and will be responsible for managing the marketing and sales activity to Sikorsky Aircraft, the largest CADRA user in the United States.

Use of Tax Attributes to Reduce Taxable Income. At the Recapitalization Transaction date, the Company had certain federal and state tax attributes totaling approximately \$24 million. The Company has spent a considerable amount of time and money seeking ways to both protect the tax attributes from being limited and using the attributes to reduce taxable income prior to the expiration of the tax assets. The transaction whereby Greenleaf agreed to accept \$3 million in exchange for its \$10.6 million indebtedness, the taxable gain from the sale of the AMT product line and the sale of the Company's patents utilized federal and state tax attributes to completely offset federal and state tax payments that might otherwise be due. Management estimates that the sale of the CADRA Business will generate a significant taxable gain that will be substantially reduced or completely offset from federal and state taxes as a result of utilizing these tax attributes.

Remaining Operations. The board of directors carefully considered the challenges and opportunities that would exist for the Company's remaining operations following the Asset Sale. As described under the caption *Activities of SofTech Following the Asset Sale*, subsequent to the sale of the CADRA product line, we will continue operating as a going concern developing and offering our ProductCenter and Connector technologies, reselling CADRA through our Italian subsidiary and marketing our technology partners' offerings.

The above described businesses and prospects, together with estimated tangible assets of about \$5.6 million subsequent to the transaction, holdback and contingent payments from Mentor over the next three years of up to \$1,070,000 and a 30% interest in potential future recoveries by Acacia Research Group and its wholly-owned subsidiary Auto-Dimensions LLC (Acacia) provide additional opportunities for the Company to continue to positively impact shareholder value subsequent to the CADRA sale. The arrangement between SofTech and Acacia is more fully described in Note J to the Company's Annual Report on Form 10-K for the fiscal year ended May 31, 2013. The Company's liquidity would be significantly enhanced, its financial risk profile substantially reduced and management's ability to continue its March 2011 strategy of enhancing shareholder value strengthened as a direct result of completing this proposed transaction.

The foregoing discussion of the factors considered by our board of directors is not intended to be exhaustive, but rather includes material factors considered by the directors. Our board of directors also considered other factors, including those described in the section entitled Risk Factors in this proxy statement, in deciding to approve, and unanimously recommending that our stockholders approve, the Asset Sale. In reaching its decision and recommendation to our stockholders, our board of directors did not quantify or assign any relative weights to the factors considered and individual directors may have given different weights to different factors. In addition, our board of directors did not undertake to make any specific determination as to whether any particular factor, or any aspect of any particular factor, was favorable or unfavorable to its ultimate determination, but rather conducted an overall analysis of the factors described above.

Recommendation of Our Board of Directors

After careful consideration by the board of directors, the board unanimously approved the Asset Purchase Agreement and the other transactions contemplated thereby, and unanimously determined that the terms of the Asset Purchase Agreement are advisable and are fair to and in the best interests of the Company and its shareholders. Accordingly, the board unanimously recommends that shareholders approve the transaction as described herein.

Activities of SofTech Following the Asset Sale

As further described under the caption Reasons for the Asset Sale, the board of directors believes that increasing shareholder value will be more likely achieved by selling the CADRA Business in this transaction than by retaining the CADRA product line and continuing to operate it. Following the sale of the CADRA Business, we will need to restructure our business to enable us to successfully operate as a significantly smaller company and to seek new sources of revenue and possible new strategic initiatives. The board of directors currently believes that the long-term interests of the shareholders is best served by the Company pursuing the activities described below and other strategic initiatives that the board of directors may subsequently determine are in the best interests of the shareholders.

PLM Business

Subsequent to the completion of the sale of the CADRA Business to Mentor, SofTech will continue to offer its ProductCenter and Connector technologies to design and manufacturing companies. Our ProductCenter technology manages the engineering data and electronic files of discrete parts designed in third party proprietary design technologies offered primarily by SolidWorks, PTC and Autodesk. The Connector platform is a technology that allows for a direct interface between Aras Innovator a PLM solution which features modern, web-based technology, and various well-established CAD technologies. The Aras technology is offered under a subscription revenue model as is our Connector technology. We entered into a partnership agreement with Aras in 2012, pursuant to which we provide distribution and consulting services, as further described below. For a description of the risks related to our PLM business, see Risk Factors Risks Related to Our Business in our Form 10-K for fiscal year 2013.

Over the last six months, the Company has developed for one of its largest customers an easy to use product offering combining a third party analysis solution with a 2D solution that allows a mechanical design engineer to simulate the movement of his or her design with limited training. Giving the mechanical design engineer the ability to detect design flaws and correct them with this easy to use technology represents an advancement, we believe, and one we hope to capitalize on in the coming years. We will seek to further develop this solution and introduce it to our customers over the coming fiscal year.

Distribution Activity

In connection with the Asset Sale, SofTech will enter into a distribution agreement with Mentor to market and support the CADRA technology throughout Europe (except Germany), for a minimum of one year following the Asset Sale, to approximately 40 existing customers through its wholly-owned subsidiary in Italy, SofTech Srl. In addition, pursuant to the terms of the distribution agreement, for a period of one year from the closing, SofTech will be the account representative for Sikorsky Aircraft, the largest CADRA user in the United States. The margin to be earned by SofTech for this distribution activity will be consistent with the margin earned by distributors in the industry.

In addition, we will continue to market and distribute third party technologies from Aras and SpaceClaim as we have since 2012.

Consulting

SofTech has been engaged in the PLM market since 1993. Our consulting group is composed of deeply experienced, long tenured experts solving very complex problems relating to data migration, customization, data control, access,

version control, connectivity between proprietary systems and a myriad of other problems encountered by our customers. Our revenue from consulting activities for fiscal year 2013 was about \$875,000, representing an increase of 19% over the prior year period. This increase in consulting revenue was driven partly by our new partnership agreement with Aras, a rapidly growing PLM company that is disrupting the status quo. We intend to continue to grow and invest in our consulting business following the Asset Sale.

Exploring Strategic Initiatives

Since the completion of the Recapitalization Transaction in March 2011, the stated strategy of the new management team has been to enhance shareholder value from the \$1.09 per common share price on the date of the Recapitalization Transaction. A core tenet of the management team's strategy following the Recapitalization Transaction has been to actively consider ways to monetize some or all of the Company's assets and to pursue new strategic initiatives, such as potential business combinations, sale transactions or strategic partnerships.

Developing Remaining Patent Estate. The Company has filed three provisional patents and purchased the rights to one provisional patent since March 2011. These patents remain in process at the United States Patent and Trademark Office as of the date of this proxy statement, and the Company intends to continue to pursue the resolution to these filings. These patents generally relate to methods of accumulating buyers' information in a database in ways that allow the information to be shared with sellers so as to allow the sellers to make targeted, relevant offers to the buyers. While these patents, which could generally be considered eCommerce related, pertain to technologies that are not directly related to our historical revenue producing business activities, we believe they may have applications in those areas.

Analyzing the potential of the technologies described in these patents and the business case for us to invest in efforts to commercialize any of them is part of an ongoing evaluation. It is possible that our efforts will be limited to securing the patent awards and monetizing the patents as we did in fiscal year 2013 for our five patents in the PLM space. While many of these businesses would be new to us, we believe that we possess underlying competencies from our existing businesses, such as strong engineering and software capabilities especially in database technologies, and other attributes, such as numerous long-term client relationships with technology companies, that may be complementary to developing new businesses around these technologies. However, any investment by us to attempt to commercialize the technologies described in these patents could be costly and prove to be unsuccessful.

Strategic Transactions. We will continue to evaluate business combination and other sale opportunities. We believe that, in addition to our remaining businesses and prospects described above, our status as a publicly traded company and tax attributes could make us an attractive strategic partner. As of May 31, 2013, SofTech had approximately \$20 million in federal tax attributes and approximately \$7 million in state tax attributes. We expect to generate taxable income in fiscal year 2014 from this transaction, which we believe will be significantly or completely offset from federal and state taxation by use of these tax assets. We will continue to seek strategic transactions for the benefit of our shareholders, but there can be no assurances in this regard.

Other

Deferred CADRA Purchase Price. The sale of the CADRA assets includes a contingent earn-out payment equal to 10% of Mentor's revenue derived from the CADRA technology up to a maximum of \$750,000 over the three year period following completion of the transaction. Therefore, SofTech has a direct financial interest in the continued success of the CADRA technology subsequent to the sale.

Contingent Rights with Respect to Transferred Patents. In addition to our technology offerings, the Company retained its financial interest in the patents sold to Acacia in June 2012. In December 2012, Acacia filed infringement lawsuits in East Texas against Dassault Systemes SolidWorks, Autodesk and Siemens seeking treble damages for the unauthorized use of the technology described in those patents. SofTech received \$300,000 as a non-recoverable advance payment against 30% of the net proceeds received by Acacia. A trial date has been set for November 2015. We believe there are other technology companies other than the three that have been sued that are also using the ideas protected by these patents. Acacia has complete control with regard to actions it may take or not take with regard to enforcing these patents. SofTech has a contractual obligation to support Acacia in its legal proceedings. In July 2013, Dassault Systemes SolidWorks (Dassault) filed a third party claim against SofTech in connection with the above described suit by Acacia against them. Dassault alleges that SofTech promised an arrangement that would protect Dassault from claims of infringement of the patents in question. Among other things, Dassault is seeking reimbursement from SofTech of any amounts it may have to pay for infringing the patents, including legal fees. SofTech believes that Dassault's claims are without merit and intends to vigorously defend itself against them.

Management believes that the above described activities represent opportunities for SofTech to improve its shareholder value. Further, SofTech's improved financial position as a direct result of the sale of the CADRA Business in this transaction will provide the capital to pursue these activities. As further described in this proxy statement, the Asset Purchase Agreement restricts our ability to pay dividends or buyback shares (with the exception of certain defined repurchase activities) for a one year period after the closing. Furthermore, our debt agreement does not allow for dividends or share repurchases without written consent. However, we believe that in many situations repurchases and/or dividends can play an important role in maximizing shareholder value and may seek the consent of the lender to do so subsequent to the one year anniversary of the transaction, though there can be no assurance that we will do so or that we will be able to obtain lender consent.

Use of Proceeds

Currently, we expect that the net proceeds from the Asset Sale will be used as working capital and for the activities described above in Proposal: The Asset Sale Activities of SofTech Following the Asset Sale. Pending such use, the proceeds from the Asset Sale may also be used to repay a portion of, or all of, our indebtedness and other general corporate purposes, including but not limited to the repurchase of shares held by Greenleaf for a total purchase price not to exceed \$100,000 and/or the repurchase of 50,000 shares from specified investors for \$5.50 per share under an existing put agreement that may be exercised by those investors, at their sole discretion, between June 1, 2014 and June 30, 2014, as permitted by the Asset Purchase Agreement and further described in Proposal: The Asset Sale Interests of Certain Persons in the Asset Sale .

U.S. Federal Income Tax Consequences of the Asset Sale

The following discussion is a general summary of the anticipated U.S. federal income tax consequences of the Asset Sale. The following discussion is based upon the Code, its legislative history, currently applicable and proposed Treasury regulations under the Code and published rulings and decisions, all as currently in effect as of the date of this proxy statement, and all of which are subject to change, possibly with retroactive effect. Tax considerations under state, local and non-U.S. laws, or federal laws other than those pertaining to income tax, are not addressed in this proxy statement. The following discussion has no binding effect on the Internal Revenue Service (the IRS) or the courts.

The proposed Asset Sale will be treated as a sale of corporate assets in exchange for cash. The proposed Asset Sale is a taxable transaction for U.S. federal income tax purposes upon which we will recognize gain or loss. The amount of gain or loss we recognize with respect to the sale of a particular asset will be measured by the difference between the amount realized by us on the sale of that asset and our tax basis in that asset. The determination of whether we will recognize gain or loss will be made with respect to each of the assets to be sold. Accordingly, we may recognize gain on the sale of certain assets and loss on the sale of certain others, depending on the amount of consideration allocated to an asset as compared with the basis of that asset. Further, the sale of certain assets may result in ordinary income or loss, depending on the nature of the asset. The determination of whether SofTech will realize gain or loss on the Asset Sale and whether and to what extent SofTech's tax attributes will be available is highly complex and is based in part upon facts that will not be known until the completion of the Asset Sale. Therefore, it is possible that the proposed Asset Sale will generate a U.S. federal income tax liability to SofTech, however, we believe our tax assets can be used to mitigate or eliminate any tax liabilities that may arise from this transaction.

The proposed Asset Sale by SofTech is entirely a corporate action. Our U.S. stockholders will not realize any gain or loss for U.S. federal income tax purposes as a result of the Asset Sale.

Accounting Treatment of the Asset Sale

The sale of the CADRA Business will not be presented as a discontinued operation in the Company's consolidated financial statements due to our continued involvement as a distributor of the CADRA technology. Specifically, our involvement in the CADRA Business subsequent to the sale of the CADRA Business as a distributor of the technology throughout Europe, except for Germany, for a minimum of one year following the Asset Sale, and in our account management role for CADRA's largest U.S. user, Sikorsky Aircraft, for one year represents material activity in the cash flows of the CADRA Business which precludes discontinued operations presentation. The gain or loss on the sale of the CADRA Business will be presented as a separate line item in the Statement of Operations as sale proceeds are earned and/or cash is received after reducing such proceeds for the net book value of the assets sold to, and liabilities assumed by, Mentor in the transaction.

Government Approvals

We believe that the notification and waiting period requirements of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (the "HSR Act") do not apply to the Asset Sale and that we will not be required to make any filings with the Department of Justice's Antitrust Division or the Federal Trade Commission ("FTC"). However, the FTC and the Antitrust Division frequently scrutinize the legality under the antitrust laws of transactions such as the Asset Sale. At any time before or after the consummation of the Asset Sale, the FTC or the Antitrust Division could take such action under the antitrust laws as it deems necessary or desirable in the public interest, including seeking to

enjoin the transaction or seeking the divestiture of substantial assets of Buyer, SofTech or their respective subsidiaries. Private parties, state attorneys general or foreign governmental entities may also bring legal action under antitrust laws under certain circumstances. Based upon an examination of information available relating to the businesses in which Buyer, SofTech and their respective subsidiaries are engaged, the parties believe that the Asset Sale will not violate the antitrust laws. Nevertheless, there can be no assurance that a challenge to the Asset Sale on antitrust grounds will not be made or, if such a challenge is made, what the result would be.

We believe we are not required to make any other material filings or obtain any material governmental consents or approvals before the consummation of the Asset Sale. If any approvals, consents or filings are required to consummate the Asset Sale, we will seek or make such consents, approvals or filings as promptly as possible.

Appraisal Rights

General. Section 13.02(a) of the MBCA provides that shareholders of a Massachusetts corporation, such as SofTech, are generally entitled to appraisal rights in the event of the sale of substantially all of a corporation's assets. Whether appraisal rights may apply to a given transaction is a matter of some statutory interpretation. Any shareholder of SofTech believing he, she or it is entitled to appraisal rights and wishing to preserve such rights should carefully review the Massachusetts Appraisal Rights Statutes, which set forth the procedures to be complied with in perfecting any such rights. Failure to strictly comply with these procedures may result in the loss of any appraisal rights to which such shareholders otherwise may be entitled. In light of the complexity of Massachusetts Appraisal Rights Statutes, any Company shareholder wishing to dissent from any such Asset Sale and pursue appraisal rights may wish to consult his, her or its legal advisors.

Any SofTech shareholder who wishes to exercise appraisal rights or who wishes to preserve that right should review carefully the following discussion and Sections 13.01 through 13.31 of the MBCA, a copy of which is attached as Annex B to this proxy statement. **A shareholder's failure to strictly comply with the procedures specified in such sections of the MBCA may result in a loss of the shareholder's appraisal rights.**

Notice of Intent and Demand for Payment. Any holder of SofTech's common stock wishing to exercise the right to demand appraisal under the MBCA must (i) deliver to SofTech, before the vote to approve the Asset Sale is taken at the Special Meeting of SofTech's shareholders to be held on October 9, 2013 (or any adjournment or postponement thereof), written notice of the shareholder's intent to demand payment for his, her or its shares of SofTech's common stock if the Asset Sale is completed, and (ii) not vote, or cause or permit to be voted, any such shares in favor of the Asset Sale. If a SofTech shareholder returns a signed proxy but does not specify a vote against the Asset Sale or a direction to abstain with respect to such vote, the proxy will be voted FOR the Asset Sale, which will have the effect of waiving that shareholder's appraisal rights. A shareholder's written notice is effective on the earliest of (a) receipt by SofTech, (b) five days after it was mailed (postpaid and correctly addressed) by the shareholder to SofTech, or (c) the date shown on a return receipt if sent by registered or certified mail, return receipt requested or, if sent by messenger or delivery service, the date shown on the return receipt signed by or on behalf of SofTech. The written notice described in clause (i) above must be delivered to Joseph P. Mullaney, CEO, SofTech, Inc., 59 Lowes Way, Suite 401, Lowell, Massachusetts 01851, or facsimile number (978) 458-4108. **SofTech recommends that any such notice be sent by a reliable overnight courier service with return receipt requested, or to the facsimile number provided above.**

Generally, a shareholder may assert appraisal rights only if the shareholder seeks appraisal rights with respect to all of his, her or its shares of SofTech's common stock. A shareholder of record for more than one beneficial shareholder may assert appraisal rights with respect to fewer than all of the shares registered in such shareholder of record's name, provided that such shareholder of record notifies SofTech in writing of the name and address of each beneficial shareholder on whose behalf such shareholder of record is asserting appraisal rights and, with respect to each such beneficial shareholder, appraisal rights are asserted in respect of all shares of SofTech's common stock owned by the beneficial shareholder. A beneficial shareholder may assert appraisal rights as to shares of SofTech's common stock only if he, she or it (i) submits to SofTech the shareholder of record's written consent to the assertion of such rights not fewer than 40 nor more than 60 days after SofTech sends out the written appraisal notice described below, and (ii) asserts such appraisal rights with respect to all of his, her or its shares of SofTech's common stock. **SofTech shareholders who hold their shares in brokerage accounts or other nominee forms and who wish to exercise appraisal rights are urged to consult with their brokers or other nominees to determine the appropriate procedures for the making of a demand for appraisal by the nominee.**

Appraisal Notice and Form. If the Asset Sale is completed, within 10 days after the effective date of the Asset Sale, SofTech will deliver a written appraisal notice and a form containing certain information to all shareholders who have properly demanded appraisal rights. The appraisal notice will include a copy of Sections 13.01 through 13.31 of the MBCA and a form that specifies the date of the first announcement to shareholders of the principal terms of the Asset Sale. The form will require the shareholder asserting appraisal rights to certify (i) whether or not beneficial ownership of the shares for which appraisal rights are asserted were acquired before the date of the first announcement of the Asset Sale and (ii) that the shareholder did not vote, or cause or permit to be voted, any of his, her or its shares of SofTech's common stock in favor of the Asset Sale. The form provided with the appraisal notice will state:

where the form must be returned, where certificates for shares must be deposited and the date by which such certificates must be deposited;

the date on which the form is due, which will not be fewer than 40 nor more than 60 days after the date the appraisal notice and form are sent, and notice that the shareholder shall have waived the right to demand appraisal with respect to such shares unless the form is received by the specified date;

SofTech's estimate of the fair value of the shares of SofTech's common stock, as determined in accordance with the MBCA, as described below;

that, if requested in writing, SofTech will provide within 10 days after the date on which all forms are due, the number of shareholders who have returned the forms and the total number of shares owned by such shareholders; and

the date by which the shareholder may withdraw his, her or its notice of intent to demand appraisal rights, which date will be within 20 days after the date on which all forms are due.

Fair Value Determination. Under the MBCA, fair value of the shares of SofTech's common stock with respect to which appraisal rights are exercised means, for all purposes of the appraisal rights process, the value of the shares immediately before the effective date of the asset sale, excluding any element of value arising from the expectation or accomplishment of the asset sale unless exclusion would be inequitable.

Perfection of Rights. A SofTech shareholder who wishes to exercise appraisal rights shall execute and return the form provided, with all certifications completed, and deposit such shareholder's certificates representing his, her or its shares of SofTech's common stock in accordance with the terms of the notice. Once a shareholder deposits such stock certificates, the shareholder loses all rights as a shareholder of SofTech unless the shareholder withdraws his, her or its election in accordance with the withdrawal procedures summarized below. If a shareholder fails to make the certification on the appraisal form that such shareholder acquired the shares before the date of the first announcement of the Asset Sale, SofTech may elect to treat the shareholder's shares as after-acquired shares, as described below.

Withdrawal of Appraisal Rights. A SofTech shareholder who has otherwise properly perfected his, her or its appraisal rights may decline to exercise such appraisal rights and withdraw from the appraisal process by notifying SofTech in writing within 20 days after the date on which the appraisal form was due. If the shareholder fails to withdraw from the appraisal process before the expiration of the withdrawal period, such shareholder may not thereafter withdraw without SofTech's written consent.

Payment. Within 30 days after the date on which the appraisal form is due, SofTech will pay in cash to each shareholder who has properly perfected his, her or its appraisal rights the amount SofTech estimates to be the fair value of the shareholder's shares (as determined in accordance with the MBCA, as described above), plus interest but subject to any applicable withholding taxes. The payment to each shareholder will be accompanied by:

.
the required financial statements of SofTech;

.
a statement of SofTech's estimate of the fair value of the shares (as determined in accordance with the MBCA, as described above), which estimate will equal or exceed the estimate given with the appraisal notice; and

.
a statement that the shareholder may demand further payment if he, she or it is dissatisfied with the payment or offer in accordance with the procedures set forth in Section 13.26 of the MBCA, as described below.

Notwithstanding the foregoing, in the event that the shareholder is demanding payment for after-acquired shares, SofTech may elect to withhold payment from such shareholder, in which case SofTech must, within 30 days after the date on which the appraisal form is due, provide all shareholders who have after-acquired shares with the required financial statements of SofTech and notify them:

.
of SofTech's estimate of the fair value of the shares (as determined in accordance with the MBCA, as described above), which estimate will equal or exceed the estimate given with the appraisal notice;

.
that the shareholders may accept such offered payment in full satisfaction of their demands or demand appraisal under Section 13.26 of the MBCA, as described below;

that those shareholders who wish to accept SofTech's offer shall notify SofTech of their acceptance within 30 days after receiving such offer; and

that those shareholders who do not satisfy the requirements for demanding appraisal under Section 13.26 of the MBCA shall be deemed to have accepted SofTech's offer.

Within 10 days after receiving the shareholder's acceptance of the offer, SofTech will pay in cash the amount offered to each shareholder who agreed to accept SofTech's offer for his, her or its after-acquired shares. Within 40 days after sending the notice to holders of after-acquired shares, SofTech must pay in cash the amount offered to each shareholder who does not satisfy the requirements for demanding appraisal under Section 13.26 of the MBCA.

Procedure if Shareholder is Dissatisfied with Payment or Offer. Pursuant to Section 13.26 of the MBCA, within 30 days after receipt of payment for his, her or its shares, a shareholder who properly perfected and exercised appraisal rights and is dissatisfied with the amount of the payment received for his, her or its shares shall notify SofTech in writing of that shareholder's estimate of the fair value of the shares (which shall be determined in accordance with the MBCA, as described above) and demand payment of that estimate plus interest, less any payment previously paid. In addition, within 30 days after receiving SofTech's offer to pay for a shareholder's after-acquired shares, a shareholder holding after-acquired shares who was offered payment, as described above, and who is dissatisfied with that offer shall reject the offer and demand payment of the shareholder's stated estimate of the fair value of the shares (which shall be determined in accordance with the MBCA, as described above) plus interest. A shareholder who fails to so notify SofTech within the applicable 30 day period described above will be deemed to have waived the right to demand payment and shall be entitled only to the payment made or offered, as described above.

Court Proceedings. If a shareholder makes a proper and timely demand for payment that remains unsettled, SofTech will commence an equitable proceeding within 60 days after receiving the payment demand and petition the court to determine the fair value of the shares (as determined in accordance with the MBCA, as described above) and accrued interest. If SofTech does not commence the proceeding within the 60-day period, it will pay in cash to each shareholder the amount the shareholder demanded, plus interest.

The foregoing discussion is not a complete statement of the law pertaining to appraisal rights under the MBCA and is qualified in its entirety by reference to the full text of Sections 13.01 through 13.31 of the MBCA, which is attached to this proxy statement as Annex B. The foregoing discussion does not constitute any legal or other advice nor does it constitute a recommendation as to whether or not holders of SofTech's common stock should exercise their appraisal rights. Any SofTech shareholder wishing to exercise appraisal rights is urged to consult with his, her or its legal counsel before attempting to do so, as a failure to strictly comply with all of the procedures set forth in Sections 13.01 through 13.31 of the MBCA may result in the loss of the shareholder's appraisal rights.

Interests of Certain Persons in the Asset Sale

As described below, members of our board of directors and our executive officers may have interests in the Asset Sale that are different from, or are in addition to, the interests of our stockholders generally. Our board of directors was aware of these interests and considered them, among other matters, in approving the Asset Purchase Agreement.

Monadnock Engagement Letter

As detailed above, on March 1, 2012, the Company entered into an engagement letter agreement with Monadnock to provide business advisory and investment banking services (the Engagement Letter). The Engagement Letter was amended (Amendment) on July 1, 2012 to reflect the additional assistance Monadnock was providing the Company in identifying a new debt facility to replace the People's debt facility. Pursuant to the terms of the Engagement Letter, SofTech is obligated to pay a transaction fee equal to between 4% and 4.5% (Transaction Fee) of the Value Consideration, as defined in the Engagement Letter, upon the consummation of a transaction with a party identified by Monadnock. Value Consideration shall be determined by the Company's board of directors at the closing of the transaction and shall be measured with specific emphasis on the amount recognized as fixed and determinable to the Company's pre-transaction shareholders after considering the value of the Company's: a) Net Operating Losses; b) contingent payments; c) common stock that may continue to be thinly traded; and d) other non-guaranteed items of value. The Engagement Letter provides that in the event whereby certain elements of Value Consideration are contingent or not reasonably ascertainable by the board at the transaction date, 60% of the Transaction Fee shall be paid at the closing with the remainder due when the uncertainty is clarified. Pursuant to the terms of the Amendment, SofTech was obligated to pay a fee (Refinancing Fee) equal to 2% of the total amount of the new debt facility.

The Engagement Letter provides Monadnock with a monthly retainer of \$5,000 (Retainer). The Retainer is non-recoverable but reimbursable from Transaction and/or Refinancing Fees due under the agreements. Between March 2012 and August 2013, Monadnock has been advanced Retainer payments totaling \$90,000. Monadnock earned a Refinancing Fee of \$54,000 upon completion of the debt refinancing in May 2013 with Prides. No additional monies were paid for the earned Refinancing Fee but instead were applied to reduce the amount of advanced Retainer payments to \$36,000 as of August 31, 2013.

The board has not yet determined Value Consideration related to this transaction but expects to meet prior to the closing of the transaction to consider this matter. It is estimated that the Transaction Fee prior to applying the unreimbursed Retainer amount related to this transaction will be between \$150,000 and \$250,000. Given the uncertainty regarding certain elements of Value Consideration, the board will consider the provision in the Engagement Letter that allows 60% of the estimated Transaction Fee to be paid at the closing of the transaction with the remainder paid when the uncertainties are resolved.

Satisfaction of a Put Right

From November 2012 through February 2013, we sold an aggregate of 50,000 shares to certain accredited investors in a private placement for \$5.00 per share, for an aggregate \$250,000. Pursuant to the terms of the private placement, the investors have the right to require SofTech to repurchase the common stock acquired in this private placement at \$5.50 per share between June 1, 2014 and June 30, 2014 (the Put Right). One of the investors in the private placement was SofTech director J. Phillip Cooper, who purchased 5,000 shares of common stock. As described above in Proposal: The Asset Sale Use of Proceeds, we may use a portion of the proceeds to satisfy the Put Right held by certain investors, including SofTech director J. Phillip Cooper, pursuant to which Mr. Cooper would receive \$27,500.

The Asset Purchase Agreement

Below and elsewhere in this proxy statement is a summary of the material terms of the Asset Purchase Agreement, a copy of which is attached to this proxy statement as *Annex A* and which we incorporate by reference into this proxy statement. We encourage you to carefully read the Asset Purchase Agreement in its entirety as the summaries contained herein may not contain all of the information about the Asset Purchase Agreement that is important to you. Certain terms defined in the Asset Purchase Agreement have the same meaning as the defined terms used below in this description.

The Asset Purchase Agreement has been included to provide you with information regarding its terms, and we recommend that you carefully read the Asset Purchase Agreement in its entirety. Except for its status as a contractual document that establishes and governs the legal relations among the parties thereto with respect to the Asset Sale, we do not intend for its text to be a source of factual, business or operational information about us. The Asset Purchase Agreement contains representations, warranties and covenants that are qualified and limited, including by information in the disclosure schedules referenced in the Asset Purchase Agreement that the parties delivered in connection with the execution of the Asset Purchase Agreement. Representations and warranties may be used as a tool to allocate risks between the respective parties to the Asset Purchase Agreement, including where the parties do not have complete knowledge of all facts, instead of establishing such matters as facts. Furthermore, the representations and warranties may be subject to different standards of materiality applicable to the contracting parties, which may differ from what may be viewed as material to stockholders. These representations may or may not have been accurate as of any specific date and do not purport to be accurate as of the date of this proxy statement. Moreover, information concerning the subject matter of the representations and warranties may have changed since the date of the Asset Purchase Agreement and subsequent developments or new information qualifying a representation or warranty may have been included in this proxy statement. You should not rely on its representations, warranties or covenants as characterizations of the actual state of facts or condition of SofTech or any of our affiliates.

Consideration to be Received by SofTech and the Earn-Out Agreement

The Total Purchase Price for the Asset Sale is up to \$3.95 million, which is comprised of (i) \$3.2 million, \$2.88 million of which will be paid at the closing and \$320 thousand (representing a 10% holdback) of which will be paid on the one year anniversary of the closing (subject to any indemnification claims), and (ii) earn-out payment of up to an aggregate \$750 thousand over the three-year period subsequent to the closing, based on 10% of the net revenue generated by the CADRA Business, subject to the terms of the Earn-Out Agreement.

Pursuant to the Earn-Out agreement, the Buyer makes no representations, warranties, covenants, promises or guarantees as to the level of efforts it will expend in the development, marketing or sales of the CADRA product line. Furthermore, the Buyer makes no representations, warranties, covenants, promises or guarantees as to the amount of resulting net revenue that may be generated by the CADRA Business during the three year period subsequent to the closing. As such, the amount of earn-out payments we may receive, is speculative.

Indemnification of Buyer

From and after the closing of the Asset Sale, we will indemnify the Buyer of any of the foregoing in respect of, and hold the Buyer harmless against, any Losses, including all reasonable fees, costs and expenses of any kind related to Losses, including without limitation, attorney's fees, collectively referred to in this proxy statement as damages, incurred as a result or arising out of:

·
any inaccuracy of any representation or warranty of SofTech which is contained in the Asset Purchase Agreement;

·
the transfer of undertaking laws in Germany; or

·
any breach or non-fulfillment by Seller of any covenants, agreements or other obligations contained in the Asset Purchase Agreement.

Buyer's damages from Losses must exceed \$30,000 in the aggregate before SofTech is required to pay for any indemnification claim (at which point the Buyer will be entitled to recover the amount of Losses, including the initial \$30,000 in Losses). Our maximum aggregate liability under the Asset Purchase Agreement is limited to \$3.95 million.

The representations, warranties, covenants and agreements made by SofTech in the Asset Purchase Agreement, and our liability for any breach or inaccuracy thereof, expire twelve months following the closing date of the Asset Sale.

The Asset Purchase Agreement contains certain representations and warranties made by SofTech regarding, among other things:

Covenants Relating to the Conduct of the Business

We have agreed in the Asset Purchase Agreement that, between signing and closing of the Asset Purchase Agreement, SofTech will:

.
except as authorized or permitted by the Asset Purchase Agreement, conduct its business and operations according to its ordinary and usual course of business and materially consistent with past practices;

.
not enter into any material contract, agreement, arrangement or other understanding related to the CADRA Business with any customer or other third party in a manner that materially deviates from SofTech's past business practices. SofTech will obtain Buyer's prior written approval before it makes any offer, commitment, accepts any order or enters into any material contract, agreement, arrangement or understanding to provide a customer or other third party of the Business with discounted product or support services in a manner that materially deviates from SofTech's past business practices, irrespective of whether this is a new customer order or a renewal. SofTech further agrees not to accept any early renewals related to the Business in any manner outside of its normal course of business prior to Close;

.
not materially increase the rate or terms of compensation payable or to become payable by SofTech to employees of the CADRA Business or commit itself to any additional, bonus, insurance, pension or other employee benefit plan, payment or arrangement made to, for or with any employees of the CADRA Business (except for merit increases to employees made in the ordinary course of business consistent with past practices);

We may, however, do any of the above prohibited actions with Buyer's prior written consent.

No Solicitation

The Asset Purchase Agreement requires that we, from signing until the earlier of the termination of the Asset Purchase Agreement or close, not initiate contact with or solicit any inquiry or proposal or engage in any discussions with any third party in connection with any possible proposal regarding a sale of the CADRA Business or any similar transaction. We agree to immediately provide notice to Buyer of any solicitation or offer made by any third party in connection with the sale of the CADRA Business or any similar transaction.

Expenses

Whether or not the Asset Sale is completed, each party will be required to pay its own costs and expenses (including legal fees and expenses) incurred by it in connection with the Asset Purchase Agreement and the Asset Sale.

Conditions to the Asset Sale

SofTech and Buyer will not be obligated to complete the Asset Sale unless a number of conditions are satisfied or waived. These joint closing conditions include:

.

no order, stay, injunction or decree of any court of competent jurisdiction or of an arbitrator shall have been issued and be in effect restraining or prohibiting the consummation of the transactions contemplated in the Asset Purchase Agreement. No action, suit or proceeding before any court or any governmental or regulatory entity shall be pending (or threatened by any governmental or regulatory entity), and no investigation by any governmental or regulatory entity shall have been commenced (and be pending) seeking to restrain or prohibit (or questioning the validity or legality of) the consummation of the transactions contemplated by the Asset Purchase Agreement;

In addition, the obligations of SofTech to effect the Asset Sale are subject to the satisfaction or waiver of additional conditions, including:

.

each of the representations and warranties made by the Buyer contained in the Asset Purchase Agreement shall be true as of the closing, except for changes permitted or authorized by the Asset Purchase Agreement and except to the extent that any representation and warranty is made as of a specified date, in which case, such representation and warranty shall be true as of that date;

.

each of the obligations of the Buyer required by the Asset Purchase Agreement to be performed at or prior to the closing shall have been duly performed and complied with as of the closing;

.

stockholder approval shall have been obtained;

.

consent of Prides Capital has been obtained; and

.

transfer of license for automated dimensioning patents from Acacia.

In addition, the obligation of Buyer to effect the Asset Sale is subject to the satisfaction or waiver of additional closing conditions, including:

.

each of the representations and warranties made by SofTech contained in the Asset Purchase Agreement shall be materially true as of the closing, except for changes permitted or authorized by the Asset Purchase Agreement and except to the extent that any representation or warranty is made as of a specified date, in which case, such representation and warranty shall be true as of such date;

.

each of the obligations of SofTech required by the Asset Purchase Agreement to be performed by it at or prior to the closing shall have been materially performed and complied with as of the closing;

each document required by Section 1.6 of the Asset Purchase Agreement to be delivered by SofTech shall have been delivered;

at the closing, the Buyer shall have received a certificate, dated as of the closing date and duly executed by SofTech, to the effect that the conditions set forth in the preceding three paragraphs have been satisfied and that complete sets of all the deliverables described in Section 1.6 of the Asset Purchase Agreement have been delivered to Buyer;

SofTech has complied with local laws and regulations related to board of directors resolutions, shareholder resolutions and consents, as required to consummate the transactions contemplated in the Asset Purchase Agreement; and

no event shall have occurred with respect to SofTech, its business or properties that is reasonably expected to have a Material Adverse Effect as defined in Section 2.1 of the Asset Purchase Agreement.

Termination of the Asset Purchase Agreement

We may mutually agree with the Buyer at any time to terminate the Asset Purchase Agreement, even after our stockholders have authorized the Asset Sale pursuant to the Asset Purchase Agreement.

The Asset Purchase Agreement may also be terminated under certain circumstances, including:

Under the federal securities laws, the deadline for submitting shareholder proposals for inclusion in the Company's proxy statement and form of proxy for the Company's 2013 Annual Meeting of Shareholders was July 11, 2013. If a shareholder of the Company wishes to present a proposal before the 2013 Annual Meeting of Shareholders or wishes to nominate a candidate for election to the Company's board of directors, such shareholder must also give written notice to the Secretary of the Company at the address noted above. The Secretary must receive such notice not less than 60 days nor more than 90 days prior to the 2013 Annual Meeting of Shareholders; provided that, in the event that less than 70 days' notice or prior public disclosure of the date of the 2013 Annual Meeting of Shareholders is given or made, notice by the shareholder must be received not later than the close of business on the 10th day following the date on which such notice of the date of the meeting was mailed or such public disclosure was made, whichever occurs first. 2.20

Open Source: Standard Setting Organizations. Seller warrants that the Technology is not subject to the GNU General Public License (GPL), any copyleft license, or any other open source or quasi-open source license that requires as a condition of use, modification and/or distribution of code associated with the Technology, that the Technology (or any portion of it) be: (i) disclosed or distributed in source code form; (ii) licensed for the purpose of making derivative works; (iii) redistributable at no charge; or (iv) licensed under terms approved by the Open Source Initiative or similar organizations. Seller represents and warrants that the documentation and training materials are not subject to the GNU Free Documentation License or other license that imposes any of the conditions listed above for code. Seller owns or possesses adequate licenses or other rights to use, free and clear of encumbrances (except in the case of licenses, the interests of the licensing party), orders, arbitration awards and contingent licenses arising from termination provisions (or other causes) in agreements between Seller and any other party, all of the Assets and associated documentation and all Technology. Seller represents that a third party, including any current or former employees or contractors, has not claimed ownership of any of the Technology since Seller purchased the Technology.

2.22

No Infringement by Seller. Seller warrants that the products and services used, marketed, sold or licensed by Seller, and all Technology (including without limitation unregistered copyrights) used in the conduct of the Business as currently conducted, do not infringe upon, violate or constitute the unauthorized use of any rights owned or controlled by any third party, including any intellectual property of any third party.

2.23

No Infringement by Third Parties. Seller warrants that, to the best of its Knowledge, no third party is misappropriating, infringing, diluting or violating any Technology owned or exclusively licensed by Seller, and no claims for any of the foregoing have been brought against any third party by Seller. Seller has taken reasonable steps in accordance with normal industry practice for a company with revenue less than \$10 million per year to protect its Technology, including without limitation unregistered copyrights.

2.24

Development or Acquisition of Technology. The Technology owned or purported to be owned by Seller was: (i) developed by employees of Seller within the scope of their employment; (ii) developed by independent contractors

who have assigned their rights to Seller pursuant to written agreements; or (iii) otherwise acquired by Seller from a third party who assigned all Intellectual Property rights in the Technology to Seller, and all of the foregoing have expressly waived any moral rights or similar equitable rights they may have in their assigned work product. Since Seller purchased the Technology, the Technology has never been pre-released in an experimental or alpha or beta state.

2.25

Performance of Existing Products. Seller's currently licensed and marketed commercially available products related to the Business, including any customized products, perform in all material respects in accordance with the functions described in any agreed written specifications or end user documentation provided to customers or potential customers of Seller and in accordance with Seller's contractual obligations to Seller's customers. Seller has not been notified, either verbally or in writing, that such products do not perform as set forth above.

2.26

2.28

3.2

Effectiveness. This Agreement has been duly executed and delivered by Purchaser and is binding upon and enforceable against Purchaser in accordance with its terms, subject, as to the enforcement of remedies, to applicable bankruptcy, insolvency, moratorium, and other laws affecting the rights of creditors generally. The execution, delivery and performance of this Agreement by Purchaser has been duly and effectively authorized by all necessary corporate action.

3.3

3.3.1

Violate Purchaser's Articles of Incorporation or Bylaws, in each case as amended to the date hereof;

3.3.2

Result in the breach of any of the terms or conditions of, or constitute a default under or violate, as the case may be, any agreement or other document or undertaking, oral or written, to which Purchaser is a party or by which it is bound or by which it or any of its properties or assets may be affected; or

3.3.3

Violate any statute, ordinance, rule, regulations, or order of any court, administrative agency, or governmental body.

ARTICLE IV. COVENANTS

4.1

Conduct of Seller Business. Except as authorized or permitted by this Agreement, from the Effective Date, Seller will conduct its business and operations according to its ordinary and usual course of business and materially consistent with past practices until Closing. Without limiting the generality of the foregoing, and, except as expressly contemplated in this Agreement, from the Effective Date until the Closing Date, without the prior written consent of Purchaser, Seller will not:

4.1.1

Enter into any material contract, agreement, arrangement or other understanding related to the Business with any customer or other third party in a manner that materially deviates from Seller's past business practices. Seller will obtain Purchaser's prior written approval before it makes any offer, commitment, accepts any order or enters into any material contract, agreement, arrangement or understanding to provide a customer or other third party of the Business with discounted product or support services in a manner that materially deviates from Seller's past business practices, irrespective of whether this is a new customer order or a renewal. Seller further agrees not to accept any early renewals related to the Business in any manner outside of its normal course of business prior to Close;

4.1.2

Materially increase the rate or terms of compensation payable or to become payable by Seller to employees of the Business or commit itself to any additional, bonus, insurance, pension or other employee benefit plan, payment or arrangement made to, for or with any employees of the Business (except for merit increases to employees made in the ordinary course of business consistent with past practices);

4.1.3

Take or omit to take any other action that would be reasonably expected to cause any of the representations and warranties contained in this Agreement to be untrue in any material respect; or

4.1.4

Enter into any contract, agreement, arrangement or other understanding to do any act prohibited by, or to refrain from doing any act required by, any of the foregoing provisions of this Section.

4.2

Access to Information. Until Closing, Seller shall, during ordinary business hours and on at least two days prior written notice, and subject to Section 4.3 below: (a) give Purchaser and its authorized representatives reasonable access to all books, records, plants, offices and other facilities and properties of Seller, (b) permit Purchaser to make such inspections thereof as Purchaser may reasonably request, and (c) cause its officers and advisors to furnish Purchaser with such financial, technical and operating data and other information with respect to the Business as Purchaser may from time to time reasonably request. Any such inspection or investigation shall be conducted in such a manner so as not to interfere unreasonably with the operation of the business of Seller.

A-8

4.3

Notification of Certain Matters; Further Financial Reports. Seller shall give prompt notice in writing to Purchaser if any of the following occur prior to Closing: (a) the occurrence of any event which has resulted, or may result, in a Material Adverse Effect, as defined in Section 2.1 of this Agreement, that could result in the failure to satisfy any condition specified in this Agreement; or (b) any written notice or other written communication from any third person alleging that the consent of such third person is or may be required in connection with the transactions contemplated by this Agreement (collectively, Supplemental Information). Purchaser shall be deemed to have waived its rights to seek indemnification under Article VIII hereof with respect to a breach of a representation or warranty by the Company to the extent such breach arises from a circumstance or event occurring in its entirety after the date hereof (Subsequent Event) that is described in such Supplemental Information if the Purchaser elects nevertheless to consummate the transactions contemplated by this Agreement notwithstanding such Subsequent Event. In addition, between the Effective Date and the Closing, Seller shall provide promptly to Purchaser financial reports related to the Business prepared by Seller in the ordinary course of business, and such other information as Purchaser may reasonably request, promptly upon such request.

4.4

Negotiations with Others. From the Effective Date until the earlier of the termination of this Agreement or the Closing Date, Seller will not initiate contact with or solicit any inquiry or proposal or engage in any discussions with any third party in connection with any possible proposal regarding a sale of the Business or any similar transaction. Seller agrees to immediately provide notice to Purchaser of any solicitation or offer made by any third party in connection with the sale of the Business or any similar transaction.

4.5

Cooperation on Tax Matters. Purchaser and Seller shall cooperate fully, as and to the extent reasonably requested by the other party, in connection with the filing of tax returns and any audit, litigation or other proceeding with respect to taxes. Such cooperation shall include the retention and (upon the other party's request) the provision of records and information reasonably relevant to any such audit, litigation or other proceeding and making employees available on a mutually convenient basis to provide additional information and explanation of any material provided under this Agreement.

4.6

Confidentiality; Publicity. All information furnished under this Agreement to either party or its representatives will be held in confidence in accordance with the Non-Disclosure Agreement signed by the parties dated November 20, 2012. Neither party will issue any press release describing this transaction except with the prior written approval of the other party; *provided, however*, if a party determines, based upon advice of counsel, that a press release or public announcement is required, or reasonably necessary to comply with, the rules and regulations of NASDAQ or any other securities exchange on which either party's shares are listed, such party may make such press release or public announcement, in which case that party shall use commercially reasonable efforts to provide the other party reasonable time to comment on such release or announcement in advance of such issuance. Purchaser acknowledges

that Seller shall be required to provide information to its shareholders subsequent to the Effective Date in order to solicit approval for completion of this transaction. Notwithstanding the foregoing, or anything to the contrary in the Non-Disclosure Agreement referenced above, Seller acknowledges that after Closing Purchaser will be unrestricted in its right to use and disclose information related to the Assets, information provided under this Agreement or the Non-Disclosure Agreement and the existence and terms of this transaction. Purchaser acknowledges that after Closing Seller will be unrestricted in its right to disclose information related to the Assets, information provided under this Agreement or the Non-Disclosure Agreement and the existence and terms of this transaction so long as such disclosure is for the purpose of obtaining shareholder approval of this transaction or is required by applicable law or stock exchange requirements (based upon reasonable advice of counsel or is required by the Seller's certified public accountants.

4.8

No Dissolution Filing for Twelve Months. Seller will remain an active company and Seller will not wind up or dissolve Seller for a period of twelve months from the Closing without prior written consent from Purchaser, which will not be unreasonably withheld provided, however, that the foregoing shall not apply to any transaction in which the Seller sells itself, regardless of whether by merger, asset sale or otherwise, and the buyer or successor assumes (whether by contract or operation of law) Seller's indemnity obligations hereunder.

4.9

No Dividends or Share Repurchases. Subsequent to the Effective Date, Seller will not make any dividends to shareholders or repurchase any Seller shares, for a period of twelve months from the Closing without the prior written consent from Purchaser, which shall not be unreasonably withheld with the exception of (i) repurchasing shares held by Greenleaf Capital for a total purchase price not to exceed US\$100,000, and/or (ii) repurchasing 50,000 shares from specified investors for \$5.50 per share under an existing put agreement that may be exercised by those investors, at their sole discretion, between June 1 and 30, 2014.

ARTICLE VII. TERMINATION AND ABANDONMENT

7.1

Termination. Except as specifically provided hereunder, this Agreement may not be terminated at any time prior to Closing:

7.1.1

by mutual written consent of Seller and Purchaser;

7.1.2

by Seller or Purchaser at any time after November 30, 2013 (Termination Date), provided that, if the Closing has not occurred by the Termination Date because a party is in material breach of this Agreement and has failed to cure such material breach prior to Closing, then the party responsible for such breach may not avail itself of the right under this Section, and provided further that in any such event, the non-breaching party shall not be deprived of any remedy under this Agreement or at law against the breaching party;

7.1.3

by Purchaser, if there has been a breach by Seller of a representation or warranty contained in this Agreement or failure by Seller to perform any covenant or condition to closing the transactions contemplated under this Agreement and such breach or failure has not been waived by Purchaser or cured by Seller prior to Closing; or

7.1.4

by Seller, if there has been a breach by Purchaser of a representation or warranty contained in this agreement or failure by Purchaser to perform any covenant or condition to closing the transactions contemplated under this Agreement and such breach or failure has not been waived by Seller or cured by Purchaser prior to Closing.

7.2

Procedure and Effect of Termination. In the event of termination of this Agreement and abandonment of the contemplated transactions by any or all of the parties pursuant to Section 7.1, written notice shall promptly be given by the terminating party to the other party and, in such event, this Agreement shall terminate and the contemplated transactions shall be abandoned, without further action by any of the parties; provided, however, that the foregoing shall not be construed to deprive any party of any remedy under this Agreement or at law if this Agreement is terminated in violation of this Agreement or if it is terminated pursuant to Sections 7.1.3 or 7.1.4.

ARTICLE VIII. POST CLOSING CLAIMS

8.1

Survival of Representations, Warranties and Covenants. All representations, warranties, covenants and agreements of Seller made in this Agreement, or in any schedule to this Agreement, and the liabilities of Seller for the breach or inaccuracy of any such representation, warranty or promise shall survive the Closing for a period of one year from the Closing Date.

8.2

Indemnification.

8.2.1

Seller shall indemnify and hold harmless Purchaser from and against losses, damages, liabilities and claims (Losses) arising out of, based upon or resulting from: (i) any inaccuracy of any representation or warranty of Seller which is contained in this Agreement; (ii) the transfer of undertaking laws in Germany; or (iii) any breach or non-fulfillment by Seller of any covenants, agreements or other obligations contained in this Agreement; provided that Purchaser provides Written Notice to Seller in compliance with Section 9.6. Losses under this Section 8.2 shall include all reasonable fees, costs and expenses of any kind related to Losses, including without limitation, attorney s fees, except costs and expenses related to Purchaser s employees time and Purchaser s overhead shall be excluded. Subject to Section 8.3, Purchaser shall have the right to hold back payments from the Holdback and the Earn-Out Payments equal to a reasonable and good faith estimate of Losses arising from such claim pending resolution of such claim. If a claim is resolved following the Holdback Period or the date any Earn-Out Payments are due and Losses with respect to such claim are less than the amount withheld by Purchaser, Purchaser shall promptly release any amount due to Seller with the amount remaining following the Holdback Period or the date any Earn-Out Payments are due to be used solely as recourse for the particular claim pending, or otherwise released to Seller. In the event that no claims for

Losses have been made against the Holdback or Earn-Out Payments on the date such payments are due, the entire payment shall promptly be distributed to Seller, as applicable.

A-11

8.2.2

Notwithstanding anything to the contrary set forth in this Agreement, Purchaser shall not make a claim for Losses until the aggregate dollar amount of all Losses that would otherwise be indemnifiable pursuant to Section 8.2.1 exceeds \$30,000 (the Basket Amount), in which case Purchaser may make claims for indemnification for all Losses, including the Basket Amount.

8.3

Notice of Claims; Resolution of Claims.

8.3.1

Purchaser shall give Seller timely written notice (the Written Notice) pursuant to Section 9.6 of this Agreement, as it becomes aware of any Losses it seeks to have satisfied out of the Holdback or the Earn-Out Payments. Written Notice shall (i) include the amount of such Losses (which, in the case of Losses not yet incurred or paid may be the maximum amount reasonably likely to be incurred or paid) and (ii) specify in reasonable detail the facts and circumstances related to the breach and the individual items of such Losses arising out of, resulting from or in connection with such breach.

8.3.2

For claims under this Article V, the Claim Date is the date written notice is provided to Seller under Section 9.6. Seller shall have fifteen calendar days after the Claim Date within which to provide Purchaser with detailed written notice objecting to any Losses claimed by Purchaser (the Objection Period). In the event Seller does not provide such detailed written notice to Purchaser before the end of the Objection Period, Purchaser may reduce the Holdback or the Earn-Out Payments by an amount equal in value to the accumulated dollar amount of Losses in accordance with this Agreement. The remainder of the Holdback or the Earn-Out Payments shall be retained for Seller's benefit until the date such payment is due, and released to Seller thereon.

In the event Purchaser receives a detailed written notice before the end of the Objection Period from Seller objecting to any Losses:

(a)

Purchaser shall be entitled to retain the portion of the Holdback or Earn-Out Payments equal in value to the accumulated dollar amount of Losses objected to by Seller (the Disputed Loss Amount) until such dispute is resolved, and shall release to Seller the portion of the Holdback or Earn-Out Payments (as applicable) equal in value to the accumulated dollar amount of Losses not being objected to.

(b)

Purchaser and Seller shall work together in good faith to resolve any dispute related to the Disputed Loss Amount.

(c)

If a determination as to the distribution of the Disputed Loss Amount cannot be made by mutual agreement between Purchaser and Seller within 90 calendar days after the Claim Date, then either party may submit the matter to a court of competent jurisdiction for resolution.

(d)

Purchaser shall distribute or retain the Disputed Loss Amount (i) in accordance with the mutual agreement of Purchaser and Seller or (ii) in accordance with a final order from a court of competent jurisdiction to which the matter was submitted. In the event whereby Purchaser has been found to have retained an amount in excess of 25% more than it had the right to retain, Purchaser shall reimburse Seller for reasonable legal expenses incurred in pursuing resolution which shall not exceed US\$20,000.

8.4

Matters Involving Third Parties. If any third party notifies either party (the Indemnified Party) with respect to any matter (a Third Party Claim) which may give rise to a claim for indemnification against the other party (the Indemnifying Party) under this Article VIII, then the Indemnified Party shall promptly (and in any event within five business days after receiving notice of the Third Party Claim) notify the Indemnifying Party thereof in writing. The Indemnifying Party will have the right at any time to assume and thereafter conduct the defense of the Third Party Claim with counsel of its choice. Unless and until the Indemnifying Party assumes the defense of the Third Party Claim, the Indemnified Party may defend against the Third Party claim in any manner it may reasonably deem appropriate. In no event will the Indemnified Party consent to the entry of any judgment on or enter into any settlement with respect to the Third Party Claim without the prior written consent of the Indemnifying Party.

ARTICLE IX. MISCELLANEOUS

9.1

Absence of Brokerage Fee. Seller and Purchaser shall share equally any fees paid to Kwame James in connection with the transactions contemplated by this Agreement. Notwithstanding the foregoing, Purchaser's responsibility to Kwame James will not exceed US\$20,000. 9.5

Fees and Expenses. All fees and expenses incurred by Seller in connection with this Agreement shall be borne by Seller and all fees and expenses incurred by Purchaser in connection with this Agreement shall be borne by Purchaser.

Each of the parties to this Agreement irrevocably waives any and all right to trial by jury in any legal proceeding arising out of or related to this Agreement or the transactions contemplated by this Agreement.

9.8

Counterparts. This Agreement may be executed simultaneously in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

9.9

Integration. The terms set forth in this Agreement and the schedules attached to this Agreement are intended by the parties as a final, complete and exclusive expression of the terms of their agreement and may not be contradicted, explained or supplemented by evidence of any prior written or oral agreement, representation or warranty or any consistent additional terms. his shares are then redeemable by the corporation at a price not greater than the cash to be received in exchange for his shares; or

(ii)

the sale or exchange is pursuant to court order; or

(4)

an amendment of the articles of organization that materially and adversely affects rights in respect of a shareholder's shares because it:

(i)

creates, alters or abolishes the stated rights or preferences of the shares with respect to distributions or to dissolution, including making non-cumulative in whole or in part a dividend theretofore stated as cumulative;

(ii)

creates, alters or abolishes a stated right in respect of conversion or redemption, including any provision relating to any sinking fund or purchase, of the shares;

(iii)

alters or abolishes a preemptive right of the holder of the shares to acquire shares or other securities;

(iv)

excludes or limits the right of the holder of the shares to vote on any matter, or to cumulate votes, except as such right may be limited by voting rights given to new shares then being authorized of an existing or new class; or

(v)

reduces the number of shares owned by the shareholder to a fraction of a share if the fractional share so created is to be acquired for cash under section 6.04;

(5)

an amendment of the articles of organization or of the bylaws or the entering into by the corporation of any agreement to which the shareholder is not a party that adds restrictions on the transfer or registration of any outstanding shares held by the shareholder or amends any pre-existing restrictions on the transfer or registration of his shares in a manner which is materially adverse to the ability of the shareholder to transfer his shares;

(6)

any corporate action taken pursuant to a shareholder vote to the extent the articles of organization, bylaws or a resolution of the board of directors provides that voting or nonvoting shareholders are entitled to appraisal;

(7)

consummation of a conversion of the corporation to nonprofit status pursuant to subdivision B of PART 9; or

(8)

consummation of a conversion of the corporation into a form of other entity pursuant to subdivision D of PART 9.

(b)

Except as otherwise provided in subsection (a) of section 13.03, in the event of corporate action specified in clauses (1), (2), (3), (7) or (8) of subsection (a), a shareholder may assert appraisal rights only if he seeks them with respect to all of his shares of whatever class or series.

(c)

Except as otherwise provided in subsection (a) of section 13.03, in the event of an amendment to the articles of organization specified in clause (4) of subsection (a) or in the event of an amendment of the articles of organization or the bylaws or an agreement to which the shareholder is not a party specified in clause (5) of subsection (a), a shareholder may assert appraisal rights with respect to those shares adversely affected by the amendment or agreement only if he seeks them as to all of such shares and, in the case of an amendment to the articles of organization or the bylaws, has not voted any of his shares of any class or series in favor of the proposed amendment.

(d)

The shareholder's right to obtain payment of the fair value of his shares shall terminate upon the occurrence of any of the following events:

(1)

the proposed action is abandoned or rescinded; or

(2)

a court having jurisdiction permanently enjoins or sets aside the action; or

(3)

the shareholder's demand for payment is withdrawn with the written consent of the corporation.

(e)

A shareholder entitled to appraisal rights under this chapter may not challenge the action creating his entitlement unless the action is unlawful or fraudulent with respect to the shareholder or the corporation.

B-3

Section 13.03. Assertion of Rights by Nominees and Beneficial Owners.

(a)

A record shareholder may assert appraisal rights as to fewer than all the shares registered in the record shareholder's name but owned by a beneficial shareholder only if the record shareholder objects with respect to all shares of the class or series owned by the beneficial shareholder and notifies the corporation in writing of the name and address of each beneficial shareholder on whose behalf appraisal rights are being asserted. The rights of a record shareholder who asserts appraisal rights for only part of the shares held of record in the record shareholder's name under this subsection shall be determined as if the shares as to which the record shareholder objects and the record shareholder's other shares were registered in the names of different record shareholders.

(b)

A beneficial shareholder may assert appraisal rights as to shares of any class or series held on behalf of the shareholder only if such shareholder:

(1)

submits to the corporation the record shareholder's written consent to the assertion of such rights no later than the date referred to in subclause (ii) of clause (2) of subsection (b) of section 13.22; and

(2)

does so with respect to all shares of the class or series that are beneficially owned by the beneficial shareholder.

SUBDIVISION B. PROCEDURE FOR EXERCISE OF APPRAISAL RIGHTS

Section 13.20. Notice of Appraisal Rights.

(a)

If proposed corporate action described in subsection (a) of section 13.02 is to be submitted to a vote at a shareholders meeting or through the solicitation of written consents, the meeting notice or solicitation of consents shall state that the corporation has concluded that shareholders are, are not or may be entitled to assert appraisal rights under this chapter and refer to the necessity of the shareholder delivering, before the vote is taken, written notice of his intent to demand payment and to the requirement that he not vote his shares in favor of the proposed action. If the corporation concludes that appraisal rights are or may be available, a copy of this chapter shall accompany the meeting notice sent to those record shareholders entitled to exercise appraisal rights.

(b)

In a merger pursuant to section 11.05, the parent corporation shall notify in writing all record shareholders of the subsidiary who are entitled to assert appraisal rights that the corporate action became effective. Such notice shall be sent within 10 days after the corporate action became effective and include the materials described in section 13.22.

Section 13.21. Notice of Intent to Demand Payment.

(a)

If proposed corporate action requiring appraisal rights under section 13.09 is submitted to vote at a shareholders meeting, a shareholder who wishes to assert appraisal rights with respect to any class or series of shares:

(1)

shall deliver to the corporation before the vote is taken written notice of the shareholder's intent to demand payment if the proposed action is effectuated; and

(2)

shall not vote, or cause or permit to be voted, any shares of such class or series in favor of the proposed action.

(b)

A shareholder who does not satisfy the requirements of subsection (a) is not entitled to payment under this chapter.

B-4

Section 13.22. Appraisal Notice and Form.

(a)

If proposed corporate action requiring appraisal rights under subsection (a) of section 13.02 becomes effective, the corporation shall deliver a written appraisal notice and form required by clause (1) of subsection (b) to all shareholders who satisfied the requirements of section 13.21 or, if the action was taken by written consent, did not consent. In the case of a merger under section 11.05, the parent shall deliver a written appraisal notice and form to all record shareholders who may be entitled to assert appraisal rights.

(b)

The appraisal notice shall be sent no earlier than the date the corporate action became effective and no later than 10 days after such date and must:

(1)

supply a form that specifies the date of the first announcement to shareholders of the principal terms of the proposed corporate action and requires the shareholder asserting appraisal rights to certify (e) whether or not beneficial ownership of those shares for which appraisal rights are asserted was acquired before that date and (f) that the shareholder did not vote for the transaction;

(2)

state:

(i)

where the form shall be sent and where certificates for certificated shares shall be deposited and the date by which those certificates shall be deposited, which date may not be earlier than the date for receiving the required form under subclause (ii);

(ii)

a date by which the corporation shall receive the form which date may not be fewer than 40 nor more than 60 days after the date the subsection (a) appraisal notice and form are sent, and state that the shareholder shall have waived the right to demand appraisal with respect to the shares unless the form is received by the corporation by such specified date;

(iii)

the corporation's estimate of the fair value of the shares;

(iv)

that, if requested in writing, the corporation will provide, to the shareholder so requesting, within 10 days after the date specified in clause (ii) the number of shareholders who return the forms by the specified date and the total number of shares owned by them; and

(v)

the date by which the notice to withdraw under section 13.23 shall be received, which date shall be within 20 days after the date specified in subclause (ii) of this subsection; and

(3)

be accompanied by a copy of this chapter.

Section 13.23. Perfection of Rights; Right to Withdraw.

(a)

A shareholder who receives notice pursuant to section 13.22 and who wishes to exercise appraisal rights shall certify on the form sent by the corporation whether the beneficial owner of the shares acquired beneficial ownership of the shares before the date required to be set forth in the notice pursuant to clause (1) of subsection (b) of section 13.22. If a shareholder fails to make this certification, the corporation may elect to treat the shareholder's shares as after-acquired shares under section 13.25. In addition, a shareholder who wishes to exercise appraisal rights shall execute and return the form and, in the case of certificated shares, deposit the shareholder's certificates in accordance with the terms of the notice by the date referred to in the notice pursuant to subclause (ii) of clause (2) of subsection (b) of section 13.22. Once a shareholder deposits that shareholder's certificates or, in the case of uncertificated shares, returns the executed forms, that shareholder loses all rights as a shareholder, unless the shareholder withdraws pursuant to said subsection (b).

(b)

A shareholder who has complied with subsection (a) may nevertheless decline to exercise appraisal rights and withdraw from the appraisal process by so notifying the corporation in writing by the date set forth in the appraisal notice pursuant to subclause (v) of clause (2) of subsection (b) of section 13.22. A shareholder who fails to so withdraw from the appraisal process may not thereafter withdraw without the corporation's written consent.

(c)

A shareholder who does not execute and return the form and, in the case of certificated shares, deposit that shareholder's share certificates where required, each by the date set forth in the notice described in subsection (b) of section 13.22, shall not be entitled to under this chapter.

B-5

Section 13.24. Payment.

(a)

Except as provided in section 13.25, within 30 days after the form required by subclause (ii) of clause (2) of subsection (b) of section 13.22 is due, the corporation shall pay in cash to those shareholders who complied with subsection (a) of section 13.23 the amount the corporation estimates to be the fair value of their shares, plus interest.

(b)

The payment to each shareholder pursuant to subsection (a) shall be accompanied by:

(1)

financial statements of the corporation that issued the shares to be appraised, consisting of a balance sheet as of the end of a fiscal year ending not more than 16 months before the date of payment, an income statement for that year, a statement of changes in shareholders' equity for that year, and the latest available interim financial statements, if any;

(2)

a statement of the corporation's estimate of the fair value of the shares, which estimate shall equal or exceed the corporation's estimate given pursuant to subclause (iii) of clause (2) of subsection (b) of section 13.22; and

(3)

a statement that shareholders described in subsection (a) have the right to demand further payment under section 13.26 and that if any such shareholder does not do so within the time period specified therein, such shareholder shall be deemed to have accepted the payment in full satisfaction of the corporation's obligations under this chapter.

Section 13.25. After-Acquired Shares.

(a)

A corporation may elect to withhold payment required by section 13.24 from any shareholder who did not certify that beneficial ownership of all of the shareholder's shares for which appraisal rights are asserted was acquired before the date set forth in the appraisal notice sent pursuant to clause (1) subsection (b) of section 13.22.

(b)

If the corporation elected to withhold payment under subsection (a) it must, within 30 days after the form required by subclause (ii) of clause (2) of subsection (b) of section 13.22 is due, notify all shareholders who are described in subsection (a):

(1)

of the information required by clause (1) of subsection (b) of section 13.24:

(2)

of the corporation's estimate of fair value pursuant to clause (2) of subsection (b) of said section 13.24;

(3)

that they may accept the corporation's estimate of fair value, plus interest, in full satisfaction of their demands or demand appraisal under section 13.26;

(4)

that those shareholders who wish to accept the offer shall so notify the corporation of their acceptance of the corporation's offer within 30 days after receiving the offer; and

(5)

that those shareholders who do not satisfy the requirements for demanding appraisal under section 13.26 shall be deemed to have accepted the corporation's offer.

(c)

Within 10 days after receiving the shareholder's acceptance pursuant to subsection (b), the corporation shall pay in cash the amount it offered under clause (2) of subsection (b) to each shareholder who agreed to accept the corporation's offer in full satisfaction of the shareholder's demand.

(d)

Within 40 days after sending the notice described in subsection (b), the corporation must pay in cash the amount if offered to pay under clause (2) of subsection (b) to each shareholder deserved in clause (5) of subsection (b).

B-6

Section 13.26. Procedure if Shareholder Dissatisfied With Payment or Offer.

(a)

A shareholder paid pursuant to section 13.24 who is dissatisfied with the amount of the payment shall notify the corporation in writing of that shareholder's estimate of the fair value of the shares and demand payment of that estimate plus interest, less any payment under section 13.24. A shareholder offered payment under section 13.25 who is dissatisfied with that offer shall reject the offer and demand payment of the shareholder's stated estimate of the fair value of the shares plus interest.

(b)

A shareholder who fails to notify the corporation in writing of that shareholder's demand to be paid the shareholder's stated estimate of the fair value plus interest under subsection (a) within 30 days after receiving the corporation's payment or offer of payment under section 13.24 or section 13.25, respectively, waives the right to demand payment under this section and shall be entitled only to the payment made or offered pursuant to those respective sections.

SUBDIVISION C. JUDICIAL APPRAISAL OF SHARES

Section 13.30. Court Action.

(a)

If a shareholder makes demand for payment under section 13.26 which remains unsettled, the corporation shall commence an equitable proceeding within 60 days after receiving the payment demand and petition the court to determine the fair value of the shares and accrued interest. If the corporation does not commence the proceeding within the 60-day period, it shall pay in cash to each shareholder the amount the shareholder demanded pursuant to section 13.26 plus interest.

(b)

The corporation shall commence the proceeding in the appropriate court of the county where the corporation's principal office, or, if none, its registered office, in the commonwealth is located. If the corporation is a foreign corporation without a registered office in the commonwealth, it shall commence the proceeding in the county in the commonwealth where the principal office or registered office of the domestic corporation merged with the foreign corporation was located at the time of the transaction.

(c)

The corporation shall make all shareholders, whether or not residents of the commonwealth, whose demands remain unsettled parties to the proceeding as an action against their shares, and all parties shall be served with a copy of the petition. Nonresidents may be served by registered or certified mail or by publication as provided by law or otherwise as ordered by the court.

(d)

The jurisdiction of the court in which the proceeding is commenced under subsection (b) is plenary and exclusive. The court may appoint 1 or more persons as appraisers to receive evidence and recommend a decision on the question of fair value. The appraisers shall have the powers described in the order appointing them, or in any amendment to it. The shareholders demanding appraisal rights are entitled to the same discovery rights as parties in other civil proceedings.

(e)

Each shareholder made a party to the proceeding is entitled to judgment (x) for the amount, if any, by which the court finds the fair value of the shareholder's shares, plus interest, exceeds the amount paid by the corporation to the shareholder for such shares or (xi) for the fair value, plus interest, of the shareholder's shares for which the corporation elected to withhold payment under section 13.25.

Section 13.31. Court Costs and Counsel Fees.

(a)

The court in an appraisal proceeding commenced under section 13.30 shall determine all costs of the proceeding, including the reasonable compensation and expenses of appraisers appointed by the court. The court shall assess the costs against the corporation, except that the court may assess cost against all or some of the shareholders demanding appraisal, in amounts the court finds equitable, to the extent the court finds such shareholders acted arbitrarily, vexatiously, or not in good faith with respect to the rights provided by this chapter.

(b)

The court in an appraisal proceeding may also assess the fees and expenses of counsel and experts for the respective parties, in amounts the court finds equitable:

(1)

against the corporation and in favor of any or all shareholders demanding appraisal if the court finds the corporation did not substantially comply with the requirements of sections 13.20, 13.22, 13.24 or 13.25; or

(2)

against either the corporation or a shareholder demanding appraisal, in favor of any other party, if the court finds that the party against whom the fees and expenses are assessed acted arbitrarily, vexatiously, or not in good faith with respect to the rights provided by this chapter.

(c)

If the court in an appraisal proceeding finds that the services of counsel for any shareholder were of substantial benefit to other shareholders similarly situated, and that the fees for those services should not be assessed against the corporation, the court may award to such counsel reasonable fees to be paid out of the amounts awarded the shareholders who were benefited.

(d)

To the extent the corporation fails to make a required payment pursuant to sections 13.24, 13.25, or 13.26, the shareholder may sue directly for the amount owed and, to the extent successful, shall be entitled to recover from the corporation all costs and expenses of the suit, including counsel fees.

SOFTECH, INC. AUDITED CONSOLIDATED FINANCIAL STATEMENTS FOR
THE FISCAL YEARS ENDED MAY 31, 2013 AND 2012

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders

SofTech, Inc.

Lowell, MA

We have audited the accompanying consolidated balance sheets of SofTech, Inc. and subsidiaries as of May 31, 2013 and 2012, and the related consolidated statements of operations, comprehensive income, changes in redeemable common stock and shareholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of SofTech, Inc. and subsidiaries as of May 31, 2013 and 2012, and the results of their operations and their cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.
