PART I - FINANCIAL INFORMATION

INDEPENDENT AUDITORS REPORT

The Shareholders

USCorp

4535 W. Sahara Ave. Suite 204

Las Vegas, Nevada 89102

I have reviewed the accompanying balance sheet of USCorp (formerly Fantasticon, Inc.) as of December 31, 2002 and 2001 and the related statements of income and changes in stockholders' equity, and cash flows for the quarter then ended. These financial statements are the responsibility of management. My responsibility is to express an opinion on

these financial statements based on my review.

I conducted my review in accordance with generally accepted reviewing standards. Those standards require that I plan and perform the review to obtain reasonable assurance about whether the financial statements presented are free from material misstatement. The review includes assessing the accounting principles used and significant estimates made by the management, as well as evaluating the overall financial statement presentation. I believe that my review provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of USCorp, a development stage company, for the dates indicated above and the results of operations, stockholders equity and cash flows for the year then ended in conformity with generally accepted accounting principles consistently applied.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in the Notes to the financial statements, the Company has suffered losses from operations and has a lack of net capital that raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in the Notes. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

 USCORP AND SUBSIDIARY

(a Development Stage Company)

Notes to Consolidated Financial Statements

December 31, 2002 and 2001

NOTE 1 - DESCRIPTION OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

USCorp (the Company) is a publicly held corporation formed in May 1989 in the state of Nevada as The Movie Greats Network, Inc. In 1994 the Company ceased operations and consequently wrote off all its assets, which consisted mainly of motion pictures rights and prints, accounts payable and notes payable. On August 4, 1992, the Company changed its name to the Program Entertainment Group, Inc. On August 5, 1997 the Company changed its name to Santa Maria Resources, Inc. In September 2000 the Company changed its name to Fantasticon, Inc. and acquired all of the issued and outstanding stock of Fantasticon.com, Inc., a Nevada Corporation.

In October 2000, pursuant to an agreement signed in September 2000, the Company's wholly owned subsidiary, Fantasticon.com, Inc., a Nevada corporation, merged with Fantasticon.Com, Inc., a Delaware corporation, Madman Backstage Productions, Inc., and Impact Interactive, Inc. Pursuant to the agreement, Santa Maria Resources Inc. changed its name to Fantasticon Inc. and effected a 1:2 reverse split of its common stock. As a condition of the agreement, Santa Maria divested itself of its business operations prior to the merger. The Company, through its wholly owned subsidiary, Fantasticon.com, Inc. (Nevada) was a multi-media developer and online entertainment company that operated an Internet-based entertainment community at www.Fantasticon.Com. The web site offered content about science fiction, television, action adventure movies, comic books, and video games. Its operations were located in Southfield, Michigan. The business operations of Fantasticon.com, Inc. ceased in March 2001.

On January 14, 2002 at a Special meeting of the Shareholders of the Company the merger of FANTASTICON.COM, INC., (Delaware), MADMAN BACKSTAGE PRODUCTIONS, INC. and IMPACT INTERACTIVE, INC. (collectively FM&I) into FANTASTICON.COM, INC., (Nevada), and that certain Earn Out Agreement between the Company, Michael Lee, the Management of the Company and the Shareholders of FM&I was rescinded and unwound in its entirety by majority vote of the Shareholders of the Company. The Shareholders determined that the terms and conditions of said merger and said Earn Out Agreement had not been met by the parties. It was the consensus of the Shareholders that the then current officers and directors of the Company had abandoned the Company and its business as evidenced by the fact that they were evicted from the corporate offices and the corporate telephone numbers had been disconnected; they had abandoned their corporate responsibilities and failed to prepare and file corporate diligence documents with state, federal and securities regulatory agencies; and they failed to perform their fiduciary duties and responsibilities.

The Shareholders agreed it was therefore incumbent upon them to take the actions necessary to preserve the legal status of the Company, the trading status of the common stock of the Company and to locate a viable business for the Company to pursue. 6,025,000 of the shares issued and held in escrow under the Merger Agreement and Earn Out Agreement were canceled and returned to the treasury stock of the Company by vote of a majority of the Shareholders of the then issued and outstanding stock of the Company and resolution of the Board of Directors.

In connection with the rescission of the Merger, Fantasticon changed its name to USCorp, pursuant to the Articles of Amendment to the Articles of Incorporation of the Company filed on January 23, 2002 with the Secretary of State of the State of Nevada. Effective from January 15, 2002, the Company's temporary executive offices are located at 4535 W. Sahara Ave. Suite 204 Las Vegas NV 89102, and its telephone number is (760) 933-4034.

Also in connection with the rescission of the Merger, by majority vote of the Shareholders the former officers and directors of the Registrant were replaced and subsequent to the acquisition of USMetals, Inc. on April 2, 2002 new Officers and Board members have been elected. Robert Dultz has been elected Chairman of the Board of Directors and Chief Executive Officer, Larry Dietz was elected a President and director, Carl W. O Baugh was elected Vice President and director, Donald E. Brown was elected Vice President and director, Michael Love was elected Vice President and director, Spencer Eubank was elected Secretary-Treasurer and a director, and Tom Owens was elected a director of USCorp. Mr. Dietz and Mr. O Baugh are former officers and directors of the Company under a prior name.

The statement of operations presented for the three months ended December 31, 2002 and 2001 and the balance sheet presented at December 31, 2002 represent the results of operations and financial position of USCorp only.

#### Basis of Presentation

(a) The consolidated financial statements and the related notes thereto are unaudited and have been prepared on the same basis as the audited financial statements of the Company for the fiscal year ended September 30, 2002. In the opinion of management, such unaudited financial statements include all adjustments, consisting of only normal recurring adjustments, necessary to present fairly the information set forth therein.

(b) Significant Accounting Policies - A description of USCorp's significant accounting policies can be found in the USCorp combined financial statements and the related notes thereto included in the footnotes to the Company's annual consolidated financial statements for the year ended September 30, 2002 included in its Annual Report filed on Form 10-KSB. The accompanying financial statements should be read in conjunction with those footnotes. The results for interim periods are not necessarily indicative of results to be expected for the year.

#### Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary. All significant inter-company accounts and transactions have been eliminated in consolidation.

Use of Estimates: The preparation of the financial statements in conformity with U. S. generally accepted accounting principals requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates.

Income taxes: The Company utilizes the asset and liability approach for financial accounting and reporting for income taxes. A valuation account is established when necessary to reduce deferred tax assets to the amounts expected to be realized.

#### Development Stage Company

The Company has had no revenues since 1994 and its activities have been limited to a developmental nature. The Company therefore has treated its activities since as a development stage company as per Statement of Financial Accounting Standards (SFAS) No. 7. As per SFAS No. 7, financial transactions are accounted for as per generally accepted accounted principles. Costs incurred during the development stage are accumulated in retained deficit and are reported in the Stockholders Equity section of the balance sheet.

#### Loss Per Share

Basic and diluted earnings per share for the three months ended December 31, 2002 are based on the weighted average number of shares of common stock issued and outstanding during that period. Basic and diluted earnings per share for the three months ended December 31, 2001 are based on the number of shares then issued and outstanding including those received in the merger by the stockholders of FantastiCon.com and Affiliates which subsequently were canceled and returned to the treasury stock of the Corporation.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis in conjunction with the Consolidated Financial Statements and Notes thereto, and the other financial data appearing elsewhere in this Report.

The information set forth in Management's Discussion and Analysis of Financial Condition and Results of Operations ( MD&A ) contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995, including, among others (i) expected changes in the Company's revenues and profitability, (ii) prospective business opportunities and (iii) the Company's strategy for financing its business. Forward-looking statements are statements other than historical information or statements of current condition. Some forward-looking statements may be identified by use of terms such as believes , anticipates , intends or expects . The forward-looking statements relate to the plans, objectives and expectations of the Company for future operations. Although the Company believes that its expectations with respect to the forward-looking statements are based upon reasonable assumptions within the bounds of its knowledge of its business and operations, in light of the risks and uncertainties inherent in all future projections, the inclusion of forward-looking statements in this report should not be regarded as a representation by the Company or any other person that the objectives or plans of the Company will be achieved.

The Company's revenues and results of operations could differ materially from those projected in the forward-looking statements as a result of numerous factors, including, but not limited to, the following: (i) changes in external competitive market factors, (ii) termination of certain operating agreements or inability to enter into additional operating agreements, (iii) inability to satisfy anticipated working capital or other cash requirements, (iv) changes in or developments under domestic or foreign laws, regulations, governmental requirements or in the mining industry, (v) changes in the Company's business strategy or an inability to execute its strategy due to unanticipated changes in the market, (vi) various competitive factors that may prevent the Company from competing successfully in the marketplace, and (ix) the Company's lack of liquidity and its ability to raise additional capital. In light of these risks and uncertainties, there can be no assurance that actual results, performance or achievements of the Company will not differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. The foregoing review of important factors should not be construed as exhaustive. The Company undertakes no obligation to release publicly the results of any future revisions it may make to forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

The Company is a development stage company. During the past three quarters the Company's operations centered around the development of its mining claims known as the Twin Peaks Mine. During that time, the Company did not commence commercially viable operations. The operating costs incurred to date were primarily for the development of the Company's mining properties, development and maintenance of the company's website, legal and accounting costs in conjunction with the Company's private placement and general and administrative expenses in anticipation of completing exploration and development of USMetals' mining property, the Twin Peaks Mine.

Significant Accounting Policies and Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses the Company's consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments, including those related to reserves and intangible assets. Management bases its estimates and judgments on historical experiences and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of the Company's financial statements include estimates as to the appropriate carrying value of certain assets which are not readily apparent from other sources, primarily allowance for the cost of the Mineral Properties based on the successful efforts method of accounting. These accounting policies are described at relevant sections in this discussion and analysis and in the notes to the consolidated financial statements included in our Annual Report on Form 10-KSB for the fiscal year ended September 30 2002.

## OVERVIEW

Prior to April 2002, the Company, a development-stage company, did not have any business operations.

On April 2, 2002, the Company acquired USMetals, Inc. ( USMetals ) for 24,200,000 shares of its common stock in a share-for-share exchange whereby USMetals became a wholly owned subsidiary of USCorp. USMetals owns the 141 lode mining claims known as the Twin Peaks mine near Baghdad, Arizona. The fair value of the property is based upon the values that were estimated by field personnel and mining professionals. The estimated fair market values of the assets acquired and liabilities assumed in the acquisition of USMetals are as follows:

## Estimated fair value of assets acquired

Property	\$19,600
Mine Development	
Hayes Mining, Phillips Mining	400,000
American Metals and Minerals	297,758
Santa Maria Resources	600,000
International Energy and Resources	<u>818,000</u>

Total fair value of assets	2,435,358
Liabilities assumed	
Annual Lease Payment	<u>14,108</u>
Estimated fair value of acquisition	<u>\$2,449,466</u>

12

As a result of the acquisition and change in control of the Company, the following individuals have been added to the Company's board of directors following the closing of the acquisition: Robert Dultz, Michael D. Love, Donald E. Brown and Tom Owens, an outside director. Mr. Dultz has become the Chairman of the Board of Directors and Mr. Love and Mr. Brown have become Vice Presidents of the Company. Complete details of the transaction have been disclosed in a Current Report on Form 8-K dated April 2, 2002.

Mr. Love and Mr. Brown have not been nominated for reelection to the Board of Directors by the Company's nominating committee. The remaining Board Members have been nominated for reelection and Ms. Judith Ahrens has also been nominated as a new outside director to serve on the audit committee with Mr. Owen.

All of the Company's mining business operations are conducted at this time through its subsidiary, USMetals. International Energy Resources, Inc. has agreed to continue to supervise and direct the work of the mine Exploration and Development Team upon adequate funding of the project.

As a result of the acquisition, the Company owns 141 unpatented contiguous mining claims totaling approximately 2,820 acres in Township 13, Yavapai County, Arizona. These claims have an anecdotal history of mining activity going back to the native population and the Spaniards who originally explored the area. Documented history of mining activity on these claims is from the middle of the 19th century through the middle of the 20th century. Gold, silver, copper and other minerals were recovered in important quantities. The previous owners started acquisition of this claim group in the early 1940's and by the mid-1980's the group totaled 134 claims. Exploration, drilling and assessment work was done and several geological reports were completed indicating the presence of economically viable deposits of precious metals and complex ores.

#### Appraisal and Valuation

The Late Mr. N. H. Carouso, formerly President of Geo-Processing, Inc., was retained in 1985 by the prior owners of these claims to prepare an Economic Evaluation of the 134 claims in the group at that time. Mr. Carouso earned a

Bachelor of Arts and a Master of Science degree from the University of California, College of Engineering, Department of Mineral Technology and Mining. His report was for the recovery of gold and silver only.

The following is a statement from Mr. Carouso's report:

The mining claims project area offers excellent economic potential. With the gold and silver mineralization cropping out at the surface and the favorable topography for surface mining techniques, it is felt that an early cash flow can be expected. The gross dollar potential of the areas evaluated, which the writer [Mr. Carouso] feels represents only about 30% of the potential of the entire group of claims, if combined, could be \$280,836,000.00. Even if one then takes a 50% confidence factor as to the grade of ore, the gross dollar potential would be \$115,418,000, and with an expected 70% recovery of precious metals, the adjusted gross dollar potential would be \$80,792,600.00 based on a spot price of \$325/oz, for gold and \$6.00/oz. for silver, and mining to a depth of 100 feet.

13

---

Other minerals are available from these claims as reported from the United States Geological Survey conducted in 1940. Of the minerals listed, one of the most notable was a content of Uranium Ore, U308 (Yellow Cake) which has a content ranging from .43% to 1.77% by volume. The Company has discussed the potential of mining U308 Uranium Ore. Management intends upon receipt of adequate funding to determine the feasibility of economical recovery of uranium.

Additional minerals referred to as Complex Ores that have been identified on these claims have been ignored due to the expensive and sophisticated process of mining Complex Ores. Management intends upon receipt of adequate funding to determine the extent of Complex Ore deposits and the feasibility of their economical recovery.

## MANAGEMENT PLANS

In order to improve operations and liquidity and meet its cash flow needs, the company has or intends to do the following:

- 

Raise \$20,000,000 in a private placement.

-

Resume and complete exploration and drilling on all claims of the Twin Peaks mine.

•

Build a test plant.

•

Complete feasibility studies on the Twin Peaks mine.

•

Bring the Twin Peaks mine to full-scale commercial mining.

•

Obtain a credit facility based in part on the value of its proven reserves when necessary and if appropriate given market conditions.

As a result of these plans, management believes that it will generate sufficient cash flows to meet its obligations in 2003 and 2004.

#### Discussion of Financial Condition.

As of December 31, 2002 the Company had total assets of \$2,449,487 with total liabilities of \$19,806 (compared with \$0 and \$0 respectively for December 31, 2001).

The Company expects to require significant additional funds in order to complete exploration and development of the Twin Peaks Mine. The Company has prepared a private placement memorandum in the amount of \$20 million which it seeks to raise from accredited investors. Based upon available cash on hand, management is of the opinion that, without additional financing, the Company will not have adequate funds available to meet its cash needs for the next three (3) months.

#### ITEM 3. CONTROLS AND PROCEDURES

(a) Evaluation of disclosure and controls and procedures. Our Chief Executive Officer and Chief Financial Officer has evaluated the effectiveness of the design and operation of our disclosure controls and procedures within 90 days of the

filing of this quarterly report. This evaluation was carried out under the supervision and with the participation of our management, including our principal executive officer and principal financial officer. Based on this evaluation, these officers have concluded that the design and operation of our disclosure controls and procedures are effective.

(b) Changes in internal controls. There were no significant changes to our internal controls or in other factors that could significantly affect internal controls subsequent to the date of their most recent evaluation.

Disclosure controls and procedures are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

CERTIFICATION

PURSUANT TO SECTION 302

THE SARBANES-OXLEY ACT OF 2002

I, Robert Dultz, Chief Executive Officer and acting Chief Financial Officer, certify that:

1. I have reviewed this quarterly report on Form 10-QSB of USCorp;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as

of, and for, the periods presented in this annual report;

4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and have:

a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;

b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and

c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):

a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and

b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
