REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of Alliance Data
Systems Corporation, Compensation Committee of
the Board of Directors and Plan Administrator
of the Alliance Data Systems 401(k) and
Retirement Savings Plan:

We have audited the accompanying statements of net assets available for benefits of the Alliance Data Systems 401(k) and Retirement Savings Plan (the "Plan") as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying supplemental schedule of delinquent participant contributions and schedule of assets (held at end of year) as of or for the year ended December 31, 2014, have been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The information in the supplemental schedules are the responsibility of the Plan's management. Our audit procedures included determining whether the information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedules. In forming our opinion on the information, we evaluated whether such information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the schedule of delinquent participant contributions and schedule of assets (held at end of year) are fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ Ary Roepcke Mulchaey, P.C.

Alliance Data Systems 401(k) and Retirement Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013

1. Description of the plan

General

The Alliance Data Systems 401(k) and Retirement Savings Plan (the "Plan") is a defined contribution plan covering certain employees of ADS Alliance Data Systems, Inc. ("ADSI") and its affiliates (the "Employer"). Employees of the Employer that are 18 years of age, are generally eligible to participate immediately. Seasonal, temporary, and on-call employees who perform more than 1,000 hours of service within one year are also eligible.

The Plan was amended and restated as of January 1, 2014, to among other things change the Employer match percentage as noted below.

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") as amended.

Contributions

Employer's Contributions

The Employer may authorize a discretionary profit sharing contribution ("Profit Sharing Contribution") for eligible classes of employees, which will be a specified percentage of the participant's eligible compensation as defined by the Plan ("Eligible Compensation") and may be integrated with Social Security to the extent permitted under the Internal Revenue Code ("Code"). To be eligible, a participant must not have separated from service as of the end of the Plan year unless due to death, total and permanent disability, or retirement on or after normal retirement age. The annual Eligible Compensation of each participant taken into account under the Plan is limited to the maximum amount permitted under Section 401(a)(17) of the Code. The annual Eligible Compensation limit for the Plan years ended December 31, 2014 and 2013 was \$260,000 and \$255,000, respectively.

The Profit Sharing Contribution for the years ended December 31, 2014 and 2013 was \$8,252,575 and \$9,925,914, respectively.

The Employer will provide a 100% matching contribution on the first 5% of a participant's voluntary contributions based on a payroll period basis for participants who have completed either 180 days of uninterrupted service with the Employer or a year of eligibility service, whichever occurs first. As of the end of the Plan year, the Employer will provide a true up matching contribution based on the above percentages, voluntary contributions, and Eligible Compensation for the Plan year. Prior to January 1, 2014 the Employer provided a 100% matching contribution on the first 3% and 50% on the next 2% of a participant's voluntary contributions.

Alliance Data Systems 401(k) and Retirement Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013

1. Description of the plan (continued)

Contributions (continued)

Participant's Voluntary Contributions

A participant may elect to make voluntary contributions of 1% to 85% of his or her annual Eligible Compensation. The participant may designate their voluntary contributions as tax-deferred, after-tax Roth, after-tax regular contributions, or any combination thereof. Tax-deferred and after-tax Roth contributions are limited to the maximum permitted under Section 402(g) of the Code adjusted annually (\$17,500 at both December 31, 2014 and 2013). Regular after-tax contributions are limited by the Code based on total employee and Employer contributions to the participant. Sections 401(k)(3) and 401(m)(3) of the Code may limit the voluntary contribution.

A participant age 50 and over before the close of the Plan year may elect a catch-up voluntary tax-deferred or after-tax contribution up to \$5,500 for the Plan years ended December 31, 2014 and 2013.

A participant may also contribute amounts representing a distribution from another qualified defined benefit or defined contribution plan (rollover).

Investment options

The participant directs both their own and the Employer's contributions into the investment alternatives offered by the Plan. At any time, participants may also elect to reallocate existing account balances between investment alternatives or to change their investment elections for future contributions. The Plan currently offers fourteen common collective trusts, six mutual funds, self-directed brokerage accounts, and the Employer's common stock ("Employer Securities") as investment alternatives. The Employer periodically reviews and may make changes to the investment alternatives available. On July 31, 2013, the Plan replaced its series of twelve Vanguard Target Retirement target date mutual funds with twelve Vanguard Fiduciary Trust Company Target Retirement target date common collective trust funds. If a participant makes no investment election, all contributions made into such participant's account are invested in the Plan's qualified default investment alternative ("QDIA"). The Plan's QDIA is the age-appropriate Vanguard Fiduciary Trust Company Target Retirement target date fund, which is selected based on the participant's date of birth.

Participant accounts

The Plan credits each participant's account with the participant's contributions and allocations of 1) the Employer's contributions, 2) investment earnings, and 3) administrative expenses. The benefit to which a participant is entitled is equal to the vested balance in the participant's account.

Alliance Data Systems 401(k) and Retirement Savings Plan
 Notes to Financial Statements
 December 31, 2014 and 2013

1. Description of the plan (continued)

Vesting

A participant is fully and immediately vested for voluntary, rollover, and Employer matching contributions provided after December 31, 2004, and is credited with a year of vesting service in the Employer's other contributions for each Plan year that the participant is credited with at least 500 hours of service.

A summary of vesting percentages relating to the Employer's Profit Sharing Contributions follows:

For all associates employed as of or subsequent to January 1, 2007:

<u>Years of vested service</u>	<u>Percentage</u>
Less than 3 years	0%
3 years	100

For all associates terminated prior to January 1, 2007:

<u>Years of vested service</u>	<u>Percentage</u>
Less than 5 years	0%
5 years	100

A summary of vesting percentages relating to Employer's matching contributions provided prior to December 31, 2004 follows:

<u>Years of vested service</u>	<u>Percentage</u>
Less than 1 year	0%
1 year	20
2 years	40
3 years	60
4 years	80
5 years	100

Alliance Data Systems 401(k) and Retirement Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013

1. Description of the plan (continued)

Payment of benefits

The full value of participants' accounts becomes payable upon retirement, disability, or death. Upon termination of employment for any other reason, participants' accounts, to the extent vested, become payable. Those participants with vested account balances greater than \$1,000 have the option of leaving their accounts invested in the Plan until age 70 1/2. All benefits are paid as a lump-sum distribution. Those participants holding shares of Employer Securities will have the option of receiving such amounts in whole shares of Employer Securities and cash for any fractional shares. Participants have the option of having their benefit paid directly to an eligible retirement plan or individual retirement account specified by the participant.

In service withdrawals

A participant may elect to withdraw an amount in cash from the participant's after-tax account and their rollover account.

A participant, upon reaching age 59 1/2, may withdraw up to 100% of the participant's vested account balance.

A participant may request a hardship distribution due to an immediate and heavy financial need based on the terms of the Plan.

Participant loans

Participants are permitted to borrow from their account the lesser of \$50,000 or 50% of the vested balance of their account with repayment made from payroll deductions. All loans become due and payable in full upon a participant's termination of employment with the Employer. The borrowing is a separate earmarked investment of the participant's account. Interest on the borrowing is based on the prime interest rate as reported in the Wall Street Journal on the first business day of the month in which the loan occurs plus two percent.

Amounts allocated to participants withdrawn from the Plan

Amounts allocated, but not yet paid, to participants withdrawn from the Plan were \$321,703 and \$0 at December 31, 2014 and 2013, respectively.

Forfeitures

The Plan may use forfeitures to reduce Employer contributions or pay Plan expenses if so elected. The Plan used forfeitures to reduce Employer contributions by \$367,119 and \$448,607 for the years ended December 31, 2014 and 2013, respectively. There were no unused forfeitures at December 31, 2014 and 2013.

Alliance Data Systems 401(k) and Retirement Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013

1. Description of the plan (continued)

Fee Income

Revenue sharing and sub transfer agent fees received from certain of the investments are credited to an administrative account and can be used to reduce administrative fees charged to participants. These fees are reported in the Plan's financial statements as fee income. During 2014 and 2013, the Plan used \$328,458 and \$548, respectively, to reduce fees charged directly to participants' accounts. As of December 31, 2014 and 2013, there was unused fee income of \$26,223 and \$277,033, respectively. These balances represent unallocated amounts. Effective May 2014 these fees are being credited to those participants who have invested in the funds that generate the fee revenue.

Expenses

Expenses are charged to participant's accounts, excluding those paid directly by the Employer, unless paid from fee income and have been reported in the financial statements as administrative expenses. Brokerage fees, transfer taxes and other expenses incurred in connection with the investments of the Plan's assets increases the cost of investments purchased or deducted from the proceeds of investments sold.

2. Summary of accounting policies

Basis of presentation

The accompanying financial statements have been prepared on the accrual basis of accounting, including investment valuation and income recognition.

Estimates

The Plan's financial statements are prepared in conformity with U.S. generally accepted accounting principles ("GAAP"), which requires management to make estimates and assumptions that affect the reported amounts of net assets available for Plan benefits at the date of the financial statements and the changes in net assets available for Plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

Risks

The Plan provides for the various investment options as described in Note 1. Any investment is exposed to various risks, such as interest rate, market, and credit risks. These risks could result in a material effect on participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Alliance Data Systems 401(k) and Retirement Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013

2. Summary of accounting policies (continued)

Net appreciation in fair value of investments

Net realized and unrealized appreciation is presented in the accompanying statements of changes in net assets available for benefits as net appreciation in fair value of investments.

Benefit payments

Benefits are recorded when paid.

Notes receivable from participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. An allowance for defaulted loans of \$152,274 and \$23,426 has been recorded for December 31, 2014 and 2013, respectively, with the change recorded under distributions.

Investment valuation and income recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 3 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis using fair market value, except for those investments in investment contracts, which are transacted at contract value. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis.

The Wells Fargo Stable Return Fund invests in fully benefit-responsive investment contracts. The fund is recorded at fair value (see Note 3); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Alliance Data Systems 401(k) and Retirement Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013

2. Summary of accounting policies (continued)

New accounting pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) ("ASU 2015-07"). ASU 2015-07 amended Accounting Standards Codification ("ASC") 820, Fair Value Measurement, to remove the requirement to categorize with the fair value hierarchy all investments for which fair value is measured using the net asset per share practical expedient as well as to remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments are to be applied retrospectively and are effective for annual periods beginning after December 15, 2015, with early application permitted. The adoption is not expected to have a material effect on the Plan's statements of net assets available for benefits or statements of changes in net assets available for benefits.

3. Fair value measurements

ASC 820 establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets and liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Alliance Data Systems 401(k) and Retirement Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013

3. Fair value measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the techniques and inputs used for each major class of assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded and are classified within Level 1 of the valuation hierarchy.

Mutual funds: Valued at the Net Asset Value ("NAV") of shares held at the closing price reported in an active market on which the funds are traded and are classified within Level 1 of the valuation hierarchy.

Common collective trusts: Valued at the respective NAV as reported by such trusts, which are reported at fair value. The value of each unit is determined by subtracting total liabilities from the total value of the assets, including accrued income, and dividing the amount remaining by the number of units outstanding on the valuation date. The Plan does not have any contractual obligations to further invest in these trusts. See Note 5 "Restrictions" below. The NAV is a quoted price in a market that is not active and classified within Level 2 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Alliance Data Systems 401(k) and Retirement Savings Plan
Notes to Financial Statements

Total	\$129,629,882	\$360,902,139	\$ -	\$490,532,021

The trusts are target dated trusts based on estimated retirement dates, which seek current income and some capital appreciation for the most current retirement date and move more to capital appreciation and some current income as the retirement dates become later. The trusts invest primarily in mutual funds.

The trust seeks to maintain principle value, protect against market price volatility, obtain consistent income return, and provide liquidity for benefit payments and withdrawals. The trust invests primarily in investment contracts issued by insurance companies, banks and other financial institutions.

The trust seeks long-term capital appreciation. The trust invests primarily in large cap common stocks with market capitalizations generally in the range of the companies in the Russell 1000 Growth Index.

* Includes \$108,986 and \$54,690 held under self directed brokerage accounts as of December 31, 2014 and 2013, respectively.

Alliance Data Systems 401(k) and Retirement Savings Plan
 Notes to Financial Statements
 December 31, 2014 and 2013

4. Investments (continued)

During 2014 and 2013, the Plan's investments (including investments bought, sold, and held during each year) appreciated as follows:

	2014	2013
Common collective trust	\$26,954,890	\$25,991,958
Shares of registered investment companies	4,694,224	44,183,483
Common stock	4,103,131	20,119,964
Net appreciation	\$35,752,245	\$90,295,405

5. Restrictions

The declaration of trust for the Wells Fargo Stable Return Fund contains a restriction that the trustee of the fund may impose, in its sole discretion a prior notice period of up to 12 months for any Employer initiated withdrawal of assets from the fund. At December 31, 2014, no prior notice period has been imposed.

6. Tax status

The Plan obtained its latest determination letter on January 6, 2010, in which the Internal Revenue Service ("IRS") stated that the Plan was designed in accordance with the applicable requirements of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended and restated since the version that the determination letter applies to, the Plan administration believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

GAAP requires management responsible for the Plan to evaluate uncertain tax positions. The financial statement effect of a tax position is recognized when the position is more likely than not, based on the financial merits, to be sustained upon examination by the IRS. The Plan's administrator has analyzed the tax positions, and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's administrator believes it is no longer subject to income tax examination for years prior to 2011.

7. Plan administration

A committee comprised of members appointed by the compensation committee of the board of directors of the Employer administers the Plan.

8. Plan termination

Although the Employer has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time. The Employer has the right at any time, by action of its board of directors, to terminate the Plan subject to provisions of ERISA. Upon Plan termination or partial termination, participants will become fully

vested in their accounts.
