QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission File Number: 001-15749

ALLIANCE DATA SYSTEMS CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

31-1429215

(I.R.S. Employer Identification No.)

7500 Dallas Parkway, Suite 700

Plano, Texas 75024

(Address of principal executive office, including zip code)

(214) 494-3000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulations S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	Accelerated filer
Non-accelerated filer	(Do not check if a smaller reporting company)
Smaller reporting company	Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

As of July 26, 2017, 55,483,440 shares of common stock were outstanding.

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The unaudited condensed consolidated financial statements included herein have been prepared by Alliance Data Systems Corporation (“ADSC” or, including its consolidated subsidiaries and variable interest entities (“VIEs”), the “Company”), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) have been condensed or omitted pursuant to such rules and regulations. However, the Company believes that the disclosures are adequate to make the information presented not misleading. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016, filed with the SEC on February 27, 2017.

The unaudited condensed consolidated financial statements included herein reflect all adjustments (consisting of normal, recurring adjustments) which are, in the opinion of management, necessary to state fairly the results for the interim periods presented. The results of operations for the interim periods presented are not necessarily indicative of the operating results to be expected for any subsequent interim period or for the fiscal year.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect (1) the reported amounts of assets; (2) liabilities and disclosure of contingent assets and liabilities at the date of the financial statements; and (3) the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

For purposes of comparability, certain prior period amounts have been reclassified to conform to the current year presentation in accordance with GAAP. Specifically, beginning in the first quarter of 2017, the Company combined its transaction, marketing services and other revenue to the financial statement line item caption “Services,” as all of these items represent revenue from services. These reclassifications had no effect on previously reported total revenue or net income.

Recently Issued Accounting Standards

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09, “Revenue from Contracts with Customers,” which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. Companies may adopt ASU 2014-09 using a full retrospective approach or report the cumulative effect as of the date of adoption. On July 9, 2015, the FASB voted to defer the effective date by one year to December 15, 2017 for interim and annual reporting periods beginning after that date and to permit early adoption of the standard, but not before the original effective date of December 15, 2016. ASU 2014-09 does not apply to financial instruments and other contractual rights or obligations (for example, interest income and late fees from credit card and loan receivables), and therefore, the Company’s finance charges, net will not be affected by the adoption of the standard. Management is reviewing the Company’s contracts and current accounting policies and practices to identify potential differences that would result from applying the new requirements to the Company’s revenue contracts, including an evaluation of the performance

obligations, and variable consideration. Management continues to make significant progress on contract reviews and is also in the process of evaluating the impact, if any, on changes to its business processes, systems and controls to support recognition and disclosures under the new guidance. The Company has not yet determined the impact of this standard on its financial statements, but expects to adopt the standard on January 1, 2018 using a modified retrospective method.

In January 2016, the FASB issued ASU 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities." ASU 2016-01 requires that equity investments be measured at fair value with changes in fair value recognized in net income. For equity investments without readily determinable fair values, entities have the option to either measure these investments at fair value or at cost adjusted for changes in observable prices minus impairment. Additionally, ASU 2016-01 requires entities that elect the fair value option for financial liabilities to recognize changes in fair value related to instrument-specific credit risk in other comprehensive income. Finally, entities must assess valuation allowances for deferred tax assets related to available-for-sale debt securities in combination with their other

Index

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

deferred tax assets. ASU 2016-01 is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The Company is evaluating the impact that adoption of ASU 2016-01 will have on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, “Leases (Topic 842),” that replaces existing lease guidance. The new standard is intended to provide enhanced transparency and comparability by requiring lessees to record right-of-use assets and corresponding lease liabilities on the balance sheet. The new guidance will continue to classify leases as either finance or operating, with classification affecting the pattern of expense recognition in the statement of income. ASU 2016-02 is effective for interim and annual reporting periods beginning after December 15, 2018, with early adoption permitted. The new standard is required to be applied with a modified retrospective approach to each prior reporting period presented with various optional practical expedients. The Company is evaluating the impact that adoption of ASU 2016-02 will have on its consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, “Measurement of Credit Losses on Financial Instruments.” ASU 2016-13 requires entities to utilize a financial instrument impairment model that is based on expected losses over the life of the exposure rather than a model based on an incurred loss approach to establish an allowance. ASU 2016-13 also expands the disclosure requirements regarding an entity’s assumptions, models, and methods for estimating the allowance. In addition, ASU 2016-13 modifies the impairment model for available-for-sale debt securities and provides for a simplified accounting model for purchased financial assets with credit deterioration since their origination. ASU 2016-13 is effective for interim and annual reporting periods beginning after December 15, 2019, with early adoption permitted beginning after December 15, 2018. The Company is evaluating the impact that adoption of ASU 2016-13 will have on its consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, “Classification of Certain Cash Receipts and Cash Payments.” ASU 2016-15 will make eight targeted changes on how certain cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The Company does not expect the adoption of this standard to have a material impact on its consolidated statements of cash flows.

In November 2016, the FASB issued ASU 2016-18, “Restricted Cash.” ASU 2016-18 requires entities to show the changes in the total of cash, cash equivalents, restricted cash and restricted cash equivalents in the statement of cash flows. ASU 2016-18 is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The Company plans to adopt this standard on January 1, 2018, and the standard will result in changes to its consolidated statements of cash flows such that restricted cash amounts will be included in the beginning-of-period and end-of-period cash and cash equivalents totals.

Recently Adopted Accounting Standards

In July 2015, the FASB issued ASU 2015-11, "Simplifying the Measurement of Inventory." ASU 2015-11 changes the measurement principle for inventory from the lower of cost or market to the lower of cost and net realizable value. Net realizable value is defined as the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. ASU 2015-11 is effective for interim and annual reporting periods beginning after December 15, 2016, with early adoption permitted. The Company prospectively

adopted this standard as of January 1, 2017. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, "Improvements to Employee Share-Based Payment Accounting." ASU 2016-09 simplifies certain aspects of share-based transactions, including income tax consequences, forfeitures, classification of awards as either equity or liabilities and classification in the statement of cash flows. ASU 2016-09 is effective for interim and annual reporting periods beginning after December 15, 2016, with early adoption permitted. The Company adopted this standard as of January 1, 2017. The adoption of this standard did not have a material impact on the Company's provision for income taxes or diluted earnings per share for the three and six months ended June 30, 2017. The Company's retrospective adoption of the presentation requirements for cash flows related to employee taxes paid for withheld shares resulted in an increase in cash flows from operating activities of \$23.8 million and a decrease in cash flows from financing activities of \$23.8 million for the six months ended June 30, 2016. The Company

Index

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

prospectively adopted the presentation requirements for cash flows related to excess tax benefits, and prior period amounts were not adjusted. Further, the Company elected to continue to estimate forfeitures at each grant date.

2. EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted net income per share for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
	(In millions except per share amounts)			
Numerator:				
Net income attributable to common stockholders	\$ 137.7	\$ 140.7	\$ 284.1	\$ 297.8
Less: Accretion of redeemable non-controlling interest	—	67.6	—	83.5
Net income attributable to common stockholders after accretion of redeemable non-controlling interest	\$ 137.7	\$ 73.1	\$ 284.1	\$ 214.3
Denominator:				
Weighted average shares, basic	55.6	58.8	56.0	59.3
Weighted average effect of dilutive securities:				
Net effect of dilutive stock options and unvested restricted stock	0.2	0.2	0.3	0.3
Denominator for diluted calculation	55.8	59.0	56.3	59.6
Net income attributable to common stockholders per share:				
Basic	\$ 2.48	\$ 1.24	\$ 5.07	\$ 3.61
Diluted	\$ 2.47	\$ 1.24	\$ 5.05	\$ 3.60

The Company adjusted the carrying amount of the redeemable non-controlling interest by \$67.6 million and \$83.5 million during the three and six months ended June 30, 2016, respectively, to the redemption value. Effective April 1, 2016, the Company acquired the remaining 20% interest in BrandLoyalty to bring its ownership percentage to 100%.

For the three and six months ended June 30, 2017 and 2016, a de minimis amount of restricted stock units was excluded from each calculation of weighted average dilutive common shares as the effect would have been anti-dilutive.

3. CREDIT CARD AND LOAN RECEIVABLES

The Company's credit card and loan receivables are the only portfolio segment or class of financing receivables. Quantitative information about the components of credit card and loan receivables is presented in the table below:

Edgar Filing: ALLIANCE DATA SYSTEMS CORP - Form 10-Q

	June 30, 2017	December 31, 2016
	(In millions)	
Principal receivables	\$ 15,497.3	\$ 15,754.0
Billed and accrued finance charges	745.0	708.6
Other	79.6	81.3
Total credit card and loan receivables	16,321.9	16,543.9
Less: Credit card receivables – restricted for securitization investors	10,987.1	11,437.1
Other credit card and loan receivables	\$ 5,334.8	\$ 5,106.8
Allowance for Loan Loss		

The Company maintains an allowance for loan loss at a level that is appropriate to absorb probable losses inherent in credit card and loan receivables. The allowance for loan loss covers forecasted uncollectible principal as well as unpaid interest and fees. The allowance for loan loss is evaluated monthly for appropriateness.

Index

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

In estimating the allowance for principal loan losses, management utilizes a migration analysis of delinquent and current credit card and loan receivables. Migration analysis is a technique used to estimate the likelihood that a credit card or loan receivable will progress through the various stages of delinquency and to charge-off. The allowance is maintained through an adjustment to the provision for loan loss. Charge-offs of principal amounts, net of recoveries are deducted from the allowance. In estimating the allowance for uncollectible unpaid interest and fees, the Company utilizes historical charge-off trends, analyzing actual charge-offs for the prior three months. The allowance is maintained through an adjustment to finance charges, net. In evaluating the allowance for loan loss for both principal and unpaid interest and fees, management also considers factors that may impact loan loss experience, including seasoning and growth, account collection strategies, economic conditions, bankruptcy filings, policy changes, payment rates and forecasting uncertainties.

The following table presents the Company's allowance for loan loss for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
	(In millions)			
Balance at beginning of period	\$ 1,020.2	\$ 727.2	\$ 948.0	\$ 741.6
Provision for loan loss	288.1	227.8	603.2	399.7
Allowance associated with credit card and loan receivables transferred to held for sale	—	—	—	(15.0)
Change in estimate for uncollectible unpaid interest and fees	5.0	—	10.0	5.0
Recoveries	53.9	52.9	101.8	109.8
Principal charge-offs	(297.9)	(225.3)	(593.7)	(458.5)
Balance at end of period	\$ 1,069.3	\$ 782.6	\$ 1,069.3	\$ 782.6

Net charge-offs include the principal amount of losses from credit cardholders unwilling or unable to pay their account balances, as well as bankrupt and deceased credit cardholders, less recoveries and exclude charged-off interest, fees and fraud losses. Charged off interest and fees reduce finance charges, net while fraud losses are recorded as an expense. Credit card and loan receivables, including unpaid interest and fees, are charged-off in the month during which an account becomes 180 days contractually past due, except in the case of customer bankruptcies or death. Credit card and loan receivables, including unpaid interest and fees, associated with customer bankruptcies or death are charged-off in each month subsequent to 60 days after the receipt of notification of the bankruptcy or death, but in any case, not later than the 180-day contractual time frame.

The Company records the actual charge-offs for unpaid interest and fees as a reduction to finance charges, net. Actual charge-offs for unpaid interest and fees were \$160.7 million and \$110.6 million for the three months ended June 30, 2017 and 2016, respectively, and \$317.3 million and \$228.8 million for the six months ended June 30, 2017 and 2016, respectively.

Delinquencies

A credit card account is contractually delinquent if the Company does not receive the minimum payment by the specified due date on the cardholder's statement. It is the Company's policy to continue to accrue interest and fee income on all credit card accounts beyond 90 days, except in limited circumstances, until the credit card account balance and all related interest and other fees are paid or charged-off, typically at 180 days delinquent. When an account becomes delinquent, a message is printed on the credit cardholder's billing statement requesting payment. After an account becomes 30 days past due, a proprietary collection scoring algorithm automatically scores the risk of the account becoming further delinquent. The collection system then recommends a collection strategy for the past due account based on the collection score and account balance and dictates the contact schedule and collections priority for the account. If the Company is unable to make a collection after exhausting all in-house collection efforts, the Company may engage collection agencies and outside attorneys to continue those efforts.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

The following table presents the delinquency trends of the Company's credit card and loan receivables portfolio:

	June 30, 2017	% of Total	December 31, 2016	% of Total
(In millions, except percentages)				
Receivables outstanding - principal	\$ 15,497.3	100.0 %	\$ 15,754.0	100.0 %
Principal receivables balances contractually delinquent:				
31 to 60 days	261.4	1.7 %	249.8	1.6 %
61 to 90 days	190.4	1.2	169.3	1.1
91 or more days	331.5	2.2	337.8	2.1
Total	\$ 783.3	5.1 %	\$ 756.9	4.8 %
Modified Credit Card Receivables				

The Company holds certain credit card receivables for which the terms have been modified. The Company's modified credit card receivables include credit card receivables for which temporary hardship concessions have been granted and credit card receivables in permanent workout programs. These modified credit card receivables include concessions consisting primarily of a reduced minimum payment and an interest rate reduction. The temporary programs' concessions remain in place for a period no longer than twelve months, while the permanent programs remain in place through the payoff of the credit card receivables if the credit cardholder complies with the terms of the program. These concessions do not include the forgiveness of unpaid principal, but may involve the reversal of certain unpaid interest or fee assessments. In the case of the temporary programs, at the end of the concession period, credit card receivable terms revert to standard rates. These arrangements are automatically terminated if the customer fails to make payments in accordance with the terms of the program, at which time their account reverts back to its original terms.

Credit card receivables for which temporary hardship and permanent concessions were granted are each considered troubled debt restructurings and are collectively evaluated for impairment. Modified credit card receivables are evaluated at their present value with impairment measured as the difference between the credit card receivable balance and the discounted present value of cash flows expected to be collected. Consistent with the Company's measurement of impairment of modified credit card receivables on a pooled basis, the discount rate used for credit card receivables is the average current annual percentage rate the Company applies to non-impaired credit card receivables, which approximates what would have been applied to the pool of modified credit card receivables prior to impairment. In assessing the appropriate allowance for loan loss, these modified credit card receivables are included in the general pool of credit card receivables with the allowance determined under the contingent loss model of Accounting Standards Codification ("ASC") 450-20, "Loss Contingencies." If the Company applied accounting under ASC 310-40, "Troubled Debt Restructurings by Creditors," to the modified credit card receivables in these programs, there would not be a material difference in the allowance for loan loss.

The Company had \$223.6 million and \$216.5 million, respectively, as a recorded investment in impaired credit card receivables with an associated allowance for loan loss of \$53.8 million and \$46.4 million, respectively, as of June 30, 2017 and December 31, 2016. These modified credit card receivables represented less than 2% of the Company's total credit card receivables as of both June 30, 2017 and December 31, 2016.

The average recorded investment in impaired credit card receivables was \$219.2 million and \$186.6 million for the three months ended June 30, 2017 and 2016, respectively, and \$216.7 million and \$180.7 million for the six months ended June 30, 2017 and 2016, respectively.

Interest income on these modified credit card receivables is accounted for in the same manner as other accruing credit card receivables. Cash collections on these modified credit card receivables are allocated according to the same payment hierarchy methodology applied to credit card receivables that are not in such programs. The Company recognized \$4.8 million and \$4.6 million for the three months ended June 30, 2017 and 2016, respectively, and \$9.5 million and \$9.0 million for the six months ended June 30, 2017 and 2016, respectively, in interest income associated with modified credit card receivables during the period that such credit card receivables were impaired.

Credit Quality

The Company uses proprietary scoring models developed specifically for the purpose of monitoring the Company's obligor credit quality. The proprietary scoring models are used as a tool in the underwriting process and for making credit decisions. The proprietary scoring models are based on historical data and require various assumptions about future performance. Information regarding customer performance is factored into these proprietary scoring models to determine the probability of an account becoming 91 or more days past due at any time within the next 12 months. Obligor credit quality is monitored at least monthly during the life of an account. The following table reflects composition of the Company's credit card and loan receivables by obligor credit quality as of June 30, 2017 and December 31, 2016:

Probability of an Account Becoming 91 or More Days Past Due or Becoming Charged-off (within the next 12 months)	June 30, 2017		December 31, 2016			
	Total Principal Receivables Outstanding (In millions, except percentages)	Percentage of Principal Receivables Outstanding	Total Principal Receivables Outstanding	Percentage of Principal Receivables Outstanding

Total	\$ 15,497.3	100.0	%	\$ 15,754.0	100.0	%
Transfer of Financial Assets						

The Company originates loans under an agreement with one of its clients, and after origination, these loan receivables are sold to the client at par value plus accrued interest. These transfers qualify for sale treatment as they meet the conditions established in ASC 860-10, "Transfers and Servicing." Following the sale, the client owns the loan receivables, bears the risk of loss in the event of loan defaults and is responsible for all servicing functions related to the loan receivables. The loan receivables originated by the Company that have not yet been sold to the client were \$70.2 million and \$67.6 million at June 30, 2017 and December 31, 2016, respectively, and are included in credit card and loan receivables held for sale in the Company's unaudited condensed consolidated balance sheets and carried at the lower of cost or fair value. The carrying value of these loan receivables approximates fair value due to the short duration between the date of origination and sale. Originations and sales of these loan receivables held for sale are reflected as operating activities in the Company's unaudited condensed consolidated statements of cash flows.

Upon the client's purchase of the originated loan receivables, the Company is obligated to purchase a participating interest in a pool of loan receivables that includes the loan receivables originated by the Company. Such interest participates on a pro rata basis in the cash flows of the underlying pool of loan receivables, including principal

Index

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

repayments, finance charges, losses and recoveries. The Company bears the risk of loss related to its participation interest in this pool.

During the six months ended June 30, 2017 and 2016, the Company purchased \$196.0 million and \$169.6 million, respectively of loan receivables under these agreements.

The total outstanding balance of these loan receivables was \$297.2 million and \$282.6 million as of June 30, 2017 and December 31, 2016, respectively, and was included in other credit card and loan receivables in the Company's unaudited condensed consolidated balance sheets.

Portfolios Held for Sale

The Company has certain credit card portfolios held for sale, which are carried at the lower of cost or fair value, of \$313.8 million and \$349.7 million as of June 30, 2017 and December 31, 2016, respectively.

Portfolio Acquisitions

During the six months ended June 30, 2016, the Company acquired three credit card portfolios for approximately \$749.1 million, which consisted of approximately \$682.0 million of credit card receivables and \$67.1 million of intangible assets.

Securitized Credit Card Receivables

The Company regularly securitizes its credit card receivables through its credit card securitization trusts, consisting of World Financial Network Credit Card Master Trust, World Financial Network Credit Card Master Note Trust ("Master Trust I") and World Financial Network Credit Card Master Trust III ("Master Trust III") (collectively, the "WFN Trusts"), and World Financial Capital Credit Card Master Note Trust (the "WFC Trust"). The Company continues to own and service the accounts that generate credit card receivables held by the WFN Trusts and the WFC Trust. In its capacity as a servicer, each of the respective banks earns a fee from the WFN Trusts and the WFC Trust to service and administer the credit card receivables, collect payments and charge-off uncollectible receivables. These fees are eliminated and therefore are not reflected in the Company's unaudited condensed consolidated statements of income for the three and six months ended June 30, 2017 and 2016.

The WFN Trusts and the WFC Trust are VIEs and the assets of these consolidated VIEs include certain credit card receivables that are restricted to settle the obligations of those entities and are not expected to be available to the Company or its creditors. The liabilities of the consolidated VIEs include non-recourse secured borrowings and other liabilities for which creditors or beneficial interest holders do not have recourse to the general credit of the Company.

The tables below present quantitative information about the components of total securitized credit card receivables, delinquencies and net charge-offs:

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

4. INVENTORIES, NET

Inventories, net of \$246.5 million and \$271.3 million at June 30, 2017 and December 31, 2016, respectively, primarily consist of finished goods to be utilized as rewards in the Company's loyalty programs. Inventories, net are stated at the lower of cost and net realizable value and valued primarily on a first-in-first-out basis. The Company records valuation adjustments to its inventories if the cost of inventory exceeds the amount it expects to realize from the ultimate sale or disposal of the inventory. These estimates are based on management's judgment regarding future market conditions and an analysis of historical experience.

5. OTHER INVESTMENTS

Other investments consist of marketable securities and U.S. Treasury bonds and are included in other current assets and other non-current assets in the Company's unaudited condensed consolidated balance sheets. The principal components of other investments, which are carried at fair value, are as follows:

	June 30, 2017				December 31, 2016

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

The amortized cost and estimated fair value of the marketable securities and U.S. Treasury bonds at June 30, 2017 by contractual maturity are as follows:

	Amortized	
	Cost	Fair Value
	(In millions)	
Due in one year or less	\$ 32.0	\$ 31.8
Due after one year through five years	25.0	25.1
Due after five years through ten years	3.3	3.4
Due after ten years	110.6	109.1
Total	\$ 170.9	\$ 169.4

Market values were determined for each individual security in the investment portfolio. When evaluating the investments for other-than-temporary impairment, the Company reviews factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the security's issuer, and the Company's intent to sell the security and whether it is more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis. The Company typically invests in highly-rated securities with low probabilities of default and has the intent and ability to hold the investments until maturity. As of June 30, 2017, the Company does not consider the investments to be other-than-temporarily impaired.

There were no realized gains or losses from the sale of investment securities for the three and six months ended June 30, 2017 and 2016.

6. REDEMPTION SETTLEMENT ASSETS

Redemption settlement assets consist of restricted cash and securities available-for-sale and are designated for settling redemptions by collectors of the AIR MILES® Reward Program in Canada under certain contractual relationships with sponsors of the AIR MILES Reward Program. The principal components of redemption settlement assets, which are carried at fair value, are as follows:

	June 30, 2017				December 31, 2016			
	Amortized Cost (In millions)	Unrealized Gains	Unrealized Losses	Fair Value	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value

	(In millions)					
Mutual funds	\$ 25.5	\$ (0.2)	\$ —	\$ —	\$ 25.5	\$ (0.2)
Corporate bonds	111.2	(0.6)	—	—	111.2	(0.6)
Total	\$ 136.7	\$ (0.8)	\$ —	\$ —	\$ 136.7	\$ (0.8)

The amortized cost and estimated fair value of the securities at June 30, 2017 by contractual maturity are as follows:

	Amortized Cost	Estimated Fair Value
	(In millions)	
Due in one year or less	\$ 134.8	\$ 134.6
Due after one year through five years	328.0	325.4
Total	\$ 462.8	\$ 460.0

Market values were determined for each individual security in the investment portfolio. When evaluating the investments for other-than-temporary impairment, the Company reviews factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the security's issuer, and the Company's intent to sell the security and whether it is more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis. The Company typically invests in highly-rated securities with low probabilities of default and has the intent and ability to hold the investments until maturity. As of June 30, 2017, the Company does not consider the investments to be other-than-temporarily impaired.

Realized gains or losses from the sale of investment securities for the three and six months ended June 30, 2017 were de minimis. There were no realized gains or losses from the sale of investment securities for the three and six months ended June 30, 2016.

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

Long-term and Other Debt

Credit Agreement

In June 2017, the Company, as borrower, and ADS Alliance Data Systems, Inc., ADS Foreign Holdings, Inc., Alliance Data Foreign Holdings, Inc., Aspen Marketing Services, LLC, Commission Junction LLC, Conversant LLC, Epsilon Data Management, LLC, Comenity LLC and Comenity Servicing LLC, as guarantors, entered into a credit agreement with various agents and lenders dated June 14, 2017 (the “2017 Credit Agreement”), replacing in its entirety the Company’s credit agreement dated July 10, 2013 (the “2013 Credit Agreement”), which was concurrently terminated, and amended the 2017 Credit Agreement on June 16, 2017 to increase the total amount of the borrowings.

At June 30, 2017, the 2017 Credit Agreement, as amended, provided for a \$3,052.6 million term loan (the “2017 Term Loan”), subject to certain principal repayments, and a \$1,572.4 million revolving credit facility (the “2017 Credit Facility”) with a U.S. \$65.0 million sublimit for Canadian dollar borrowings and a \$65.0 million sublimit for swing line loans. The 2017 Credit Agreement includes an uncommitted accordion feature of up to \$750.0 million in the aggregate allowing for future incremental borrowings, subject to certain conditions.

Total availability under the 2017 Credit Facility at June 30, 2017 was \$1,157.4 million.

The loans under the 2017 Credit Agreement are scheduled to mature on June 14, 2022. The 2017 Term Loan provides for aggregate principal payments of 2.5% of the initial term loan amount in each of the first and second year and 5% of the initial term loan amount in each of the third, fourth, and fifth year, payable in equal quarterly installments beginning on September 30, 2017. The 2017 Credit Agreement is unsecured.

The 2017 Credit Agreement contains the usual and customary negative covenants for transactions of this type, including, but not limited to, restrictions on the Company’s ability and in certain instances, its subsidiaries’ ability to consolidate or merge; substantially change the nature of its business; sell, lease, or otherwise transfer any substantial part of its assets; create or incur indebtedness; create liens; and make acquisitions. The negative covenants are subject to certain exceptions as specified in the 2017 Credit Agreement. The 2017 Credit Agreement also requires the Company to satisfy certain financial covenants, including a maximum total leverage ratio and a minimum ratio of consolidated operating EBITDA to consolidated interest expense, each as determined in accordance with the 2017 Credit Agreement. The 2017 Credit Agreement also includes customary events of default.

BrandLoyalty Credit Agreement

As of June 30, 2017, amounts outstanding under the revolving lines of credit and the term loans under the BrandLoyalty Credit Agreement were €23.6 million and €160.0 million (\$27.0 million and \$182.8 million), respectively. The entire €23.6 million (\$27.0 million) outstanding under the revolving lines of credit was uncommitted.

Senior Notes due 2022 (€400.0 million)

In March 2017, the Company issued and sold €400.0 million aggregate principal amount of 4.500% senior notes due March 15, 2022 (the “Notes”). Interest is payable semiannually in arrears, on March 15 and September 15 of each year,

beginning on September 15, 2017.

The Notes are governed by an indenture dated as of March 14, 2017. The indenture includes usual and customary negative covenants and events of default for transactions of these types. The Notes are unsecured and are guaranteed on a senior unsecured basis by certain of the Company's existing and future domestic subsidiaries that guarantee the 2017 Credit Agreement.

The Company may redeem some or all of the Notes at any time at a redemption price equal to 100% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to, but not including, the applicable redemption date and the applicable premium specified in the indenture. Prior to March 15, 2019, the applicable premium is a "make-whole" amount; on or after such date, the applicable premium is specified in a table in the indenture. In addition, upon the occurrence of certain kinds of changes of control, the Company must offer to purchase the Notes at 101% of their principal amount, plus accrued and unpaid interest to the date of purchase. In addition, at any time prior to March 15,

20

Index

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

2019, the Company may, with an amount equal to the net cash proceeds of one or more qualified equity offerings, as defined in the indenture, redeem up to 35% of the aggregate principal amount of the outstanding Notes at a redemption price equal to 104.500% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to, but not including, the applicable redemption date, provided that such redemption occurs within 90 days following the closing of such qualified equity offering.

Non-Recourse Borrowings of Consolidated Securitization Entities

Asset-Backed Term Notes

In May 2017, \$389.6 million of Series 2015-C asset-backed term notes, \$89.6 million of which were retained by the Company and eliminated from the Company's unaudited condensed consolidated balance sheets, matured and were repaid.

In May 2017, Master Trust I issued \$450.7 million of Series 2017-A asset-backed term notes, which mature in May 2020. The offering consisted of \$400.0 million of Class A notes with a fixed interest rate of 2.12% per year and \$50.7 million of notes that were retained by the Company and eliminated from the Company's unaudited condensed consolidated balance sheets.

In July 2017, \$433.3 million of Series 2012-B asset-backed term notes, \$108.3 million of which were retained by the Company and eliminated from the Company's unaudited condensed consolidated balance sheets, matured and were repaid.

Conduit Facilities

The Company has access to committed undrawn capacity through three conduit facilities to support the funding of its credit card receivables through Master Trust I, Master Trust III and the WFC Trust.

In April 2017, Master Trust III renewed its 2009-VFC1 conduit facility, increasing the capacity from \$900.0 million to \$925.0 million and extending the maturity to April 2018.

As of June 30, 2017, total capacity under the conduit facilities was \$2.9 billion, of which \$1.9 billion had been drawn and was included in non-recourse borrowings of consolidated securitization entities in the unaudited condensed consolidated balance sheets.

9. DERIVATIVE INSTRUMENTS

The Company uses derivatives to manage risks associated with certain assets and liabilities arising from the potential adverse impact of fluctuations in interest rates and foreign currency exchange rates. The Company was not a party to any interest rate derivative instruments at June 30, 2017 or December 31, 2016.

The Company limits its exposure on derivatives by entering into contracts with institutions that are established dealers who maintain certain minimum credit criteria established by the Company. At June 30, 2017, the Company does not

maintain any derivative instruments subject to master agreements that would require the Company to post collateral or that contain any credit-risk related contingent features.

The Company enters into foreign currency derivatives to reduce the volatility of the Company's cash flows resulting from changes in foreign currency exchange rates associated with certain inventory transactions, some of which are designated as cash flow hedges. The Company generally hedges foreign currency exchange rate risks for periods of 12 months or less. As of June 30, 2017, the maximum term over which the Company is hedging its exposure to the variability of future cash flows associated with certain inventory transactions is nine months.

Certain foreign currency exchange forward contracts are not designated as hedges as they do not meet the specific hedge accounting requirements of ASC 815, "Derivatives and Hedging." Changes in the fair value of the derivative instruments not designated as hedging instruments are recorded in the unaudited condensed consolidated statements of

Index

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

income as they occur. Gains and losses on derivatives not designated as hedging instruments are included in other operating activities in the unaudited condensed consolidated statements of cash flows for all periods presented.

The following tables present the fair values of the derivative instruments included within the Company's unaudited condensed consolidated balance sheets as of June 30, 2017 and December 31, 2016:

	June 30, 2017		Balance Sheet Location	Maturity
	Notional Amount (In millions)	Fair Value		
Designated as hedging instruments:				
Foreign currency exchange hedges	\$ 20.3	\$ 0.2	Other current assets	July 2017 to December 2017
Foreign currency exchange hedges	\$ 26.9	\$ 1.2	Other current liabilities	July 2017 to March 2018
Not designated as hedging instruments:				
Foreign currency exchange forward contracts	\$ 160.0	\$ 7.9	Other current assets	February 2018
Foreign currency exchange forward contract	\$ 63.9	\$ 1.5	Other current liabilities	March 2018

	December 31, 2016		Balance Sheet Location	Maturity
	Notional Amount (In millions)	Fair Value		
Designated as hedging instruments:				
Foreign currency exchange hedges	\$ 34.4	\$ 1.2	Other current assets	January 2017 to August 2017
Foreign currency exchange hedges	\$ 27.6	\$ 0.9	Other current liabilities	January 2017 to August 2017
Derivatives Designated as Hedging Instruments				

Losses of \$0.6 million and \$0.9 million, net of tax, were recognized in other comprehensive income for the three and six months ended June 30, 2017, respectively, related to foreign currency exchange hedges designated as effective. Changes in the fair value of these hedges, excluding any ineffective portion are recorded in other comprehensive income (loss) until the hedged transactions affect net income. The ineffective portion of these cash flow hedges impacts net income when the ineffectiveness occurs. For the three and six months ended June 30, 2017, losses of \$0.3

million and de minimis losses, respectively, net of tax, were reclassified from accumulated other comprehensive income into net income (cost of operations), and a de minimis amount of ineffectiveness was recorded. At June 30, 2017, \$0.5 million is expected to be reclassified from accumulated other comprehensive income into net income in the coming 12 months.

Gains of \$1.1 million and losses of \$1.3 million, net of tax, were recognized in other comprehensive income for the three and six months ended June 30, 2016, respectively, related to foreign currency exchange hedges designated as effective. For the three and six months ended June 30, 2016, losses of \$0.1 million and \$0.6 million, respectively, net of tax, were reclassified from accumulated other comprehensive income into net income (cost of operations) and a de minimis amount of ineffectiveness was recorded.

Derivatives Not Designated as Hedging Instruments

For the three and six months ended June 30, 2017, gains of \$9.1 million and \$6.4 million, respectively, related to foreign currency exchange forward contracts not designated as hedging instruments were recognized in general and administrative expense in the Company's unaudited condensed consolidated statements of income.

For the six months ended June 30, 2016, losses of \$0.1 million related to foreign currency exchange forward contracts not designated as hedging instruments were recognized in general and administrative expense in the Company's unaudited condensed consolidated statements of income. There were no gains or losses recognized on derivatives not designated as hedging instruments for the three months ended June 30, 2016.

Index

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

Net Investment Hedges

In November 2015, the Company designated its Euro-denominated Senior Notes due 2023 (€300.0 million) as a net investment hedge of its investment in BrandLoyalty, which has a functional currency of the Euro, in order to reduce the volatility in stockholders' equity caused by the changes in foreign currency exchange rates of the Euro with respect to the U.S. dollar. Additionally, in March 2017, the Company designated €200.0 million of its Euro-denominated Senior Notes due 2022 (€400.0 million) as a net investment hedge of its investment in BrandLoyalty. The change in fair value of the net investment hedges due to remeasurement of the effective portion is recorded in other comprehensive income (loss). The ineffective portion of this hedging instrument impacts net income when the ineffectiveness occurs. For the three and six months ended June 30, 2017, losses of \$23.8 million and \$27.4 million, net of tax, respectively, were recognized in other comprehensive income and no ineffectiveness was recorded on the net investment hedges. For the three and six months ended June 30, 2016, gains of \$8.3 million and losses of \$7.3 million, net of tax, respectively, were recognized in other comprehensive income and no ineffectiveness was recorded on the net investment hedges.

10. DEFERRED REVENUE

The AIR MILES Reward Program collects fees from its sponsors based on the number of AIR MILES reward miles issued and, in limited circumstances, the number of AIR MILES reward miles redeemed. Because management has determined that the earnings process is not complete at the time an AIR MILES reward mile is issued, the recognition of redemption and service revenue is deferred.

A reconciliation of deferred revenue for the AIR MILES Reward Program is as follows:

	Deferred Revenue		
	Service	Redemption	Total
	(In millions)		
Balance at December 31, 2016	\$ 297.7	\$ 633.8	\$ 931.5
Cash proceeds	87.4	164.0	251.4
Revenue recognized	(111.1)	(169.8)	(280.9)
Other	—	1.1	1.1
Effects of foreign currency translation	10.0	22.8	32.8
Balance at June 30, 2017	\$ 284.0	\$ 651.9	\$ 935.9
Amounts recognized in the consolidated balance sheets:			
Current liabilities	\$ 166.4	\$ 651.9	\$ 818.3
Non-current liabilities	\$ 117.6	\$ —	\$ 117.6

11. STOCKHOLDERS' EQUITY

Stock Repurchase Program

On January 1, 2017, the Company's Board of Directors authorized a stock repurchase program to acquire up to \$500.0 million of the Company's outstanding common stock from January 1, 2017 through December 31, 2017. The stock repurchase program is subject to any restrictions pursuant to the terms of the Company's credit agreements, indentures, and applicable securities laws or otherwise.

On January 30, 2017, under the authorization of the existing 2017 repurchase program, the Company entered into a \$350.0 million fixed dollar accelerated share repurchase program agreement ("ASR Agreement"), with an investment bank counterparty. Pursuant to the ASR Agreement, the Company received an initial delivery of 1.4 million shares of its common stock on February 6, 2017. The final settlement was based upon the volume weighted average price of its common stock, purchased by the counterparty during the period, less a specified discount, subject to a collar with a specified forward cap price and forward cap floor. The final settlement was on April 17, 2017 and resulted in the delivery of an additional 0.1 million shares. As a result of this transaction, the Company purchased a total of 1.5 million shares of its common stock at a settlement price per share of \$238.34.

Index

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

For the six months ended June 30, 2017, the Company acquired a total of 2.1 million shares of its common stock for \$499.9 million, including those amounts under the ASR Agreement. As of June 30, 2017, the Company had \$0.1 million remaining under the stock repurchase program.

On July 25, 2017, the Company's Board of Directors authorized an increase to the stock repurchase program originally approved on January 1, 2017 to acquire an additional \$500.0 million of the Company's outstanding common stock through July 31, 2018, for a total authorization of \$1.0 billion.

Stock Compensation Expense

Total stock-based compensation expense recognized in the Company's unaudited condensed consolidated statements of income for the three and six months ended June 30, 2017 and 2016 is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
	(In millions)			
Cost of operations	\$ 14.9	\$ 15.6	\$ 28.8	\$ 30.4
General and administrative	6.8	5.9	16.4	11.0
Total	\$ 21.7	\$ 21.5	\$ 45.2	\$ 41.4

During the six months ended June 30, 2017, the Company awarded 96,143 service-based restricted stock units with a weighted average grant date fair value per share of \$234.05 as determined on the date of grant. Service-based restricted stock units typically vest ratably over three years provided that the participant is employed by the Company on each such vesting date.

During the six months ended June 30, 2017, the Company awarded 267,171 performance-based restricted stock units with a weighted average grant date fair value per share of \$230.57 as determined on the date of grant with pre-defined vesting criteria that permit a range from 0% to 150% to be earned. If the performance targets are met, the restrictions will lapse with respect to 33% of the award on February 15, 2018, an additional 33% of the award on February 15, 2019 and the final 34% of the award on February 18, 2020, provided that the participant is employed by the Company on each such vesting date.

Additionally during the six months ended June 30, 2017, the Company awarded 15,140 performance-based restricted stock units with a weighted average grant date fair value per share of \$230.57 as determined on the date of grant with pre-defined vesting criteria that permit a range from 0% to 150% to be earned. If the performance targets are met, the restrictions will lapse with respect to 50% of the award on February 15, 2018 and the remaining 50% of the award on February 15, 2019, provided that the participant is employed by the Company on each such vesting date.

During the six months ended June 30, 2017, the Company also awarded 28,172 restricted stock units with a market-based condition subject to pre-defined vesting criteria that permit a range from 0% to 175% to be earned. The fair market value of these awards is \$199.19 and was estimated utilizing Monte Carlo simulations of the Company's

stock price correlation, projected dividend yields, expected volatility and risk-free rate over two-year time horizons matching the performance period. Upon such determination of the market condition, the restrictions will lapse with respect to 100% of the award on February 15, 2019, provided that the participant is employed by the Company on such vesting date.

Dividends

On January 26, 2017, the Company's Board of Directors declared a quarterly cash dividend of \$0.52 per share on the Company's common stock to stockholders of record at the close of business on February 15, 2017, resulting in a dividend payment of \$29.0 million on March 17, 2017.

On April 20, 2017, the Company's Board of Directors declared a quarterly cash dividend of \$0.52 per share on the Company's common stock, payable to stockholders of record at the close of business on May 15, 2017, resulting in a dividend payment of \$29.0 million on June 19, 2017.

Index

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

On July 20, 2017, the Company's Board of Directors declared a quarterly cash dividend of \$0.52 per share on the Company's common stock, payable on September 19, 2017, to stockholders of record at the close of business on August 14, 2017.

13. FINANCIAL INSTRUMENTS

In accordance with ASC 825, “Financial Instruments,” the Company is required to disclose the fair value of financial instruments for which it is practical to estimate fair value. To obtain fair values, observable market prices are used if available. In some instances, observable market prices are not readily available and fair value is determined using present value or other techniques appropriate for a particular financial instrument. These techniques involve judgment and as a result are not necessarily indicative of the amounts the Company would realize in a current market exchange. The use of different assumptions or estimation techniques may have a material effect on the estimated fair value amounts.

Fair Value of Financial Instruments — The estimated fair values of the Company’s financial instruments are as follows:

	June 30, 2017		December 31, 2016	
	Carrying Amount (In millions)	Fair Value	Carrying Amount	Fair Value
Financial assets				
Credit card and loan receivables, net	\$ 15,252.6	\$ 16,101.2	\$ 15,595.9	\$ 16,423.2
Credit card and loan receivables held for sale	384.0	391.6	417.3	428.7
Redemption settlement assets, restricted	547.2	547.2	324.4	324.4

Edgar Filing: ALLIANCE DATA SYSTEMS CORP - Form 10-Q

Other investments	169.4	169.4	197.6	197.6
Derivative instruments	8.1	8.1	1.2	1.2
Financial liabilities				
Derivative instruments	2.7	2.7	0.9	0.9
Deposits	8,722.5	8,755.0	8,391.9	8,432.2
Non-recourse borrowings of consolidated securitization entities	6,561.4	6,583.2	6,955.4	6,973.8
Long-term and other debt	6,422.9	6,564.6	5,601.4	5,641.0

The following techniques and assumptions were used by the Company in estimating fair values of financial instruments as disclosed herein:

Credit card and loan receivables, net — The Company utilizes a discounted cash flow model using unobservable inputs, including estimated yields (interest and fee income), loss rates, payment rates and discount rates to estimate the fair value measurement of the credit card and loan receivables.

Credit card and loan receivables held for sale — The fair value of credit card portfolios held for sale is based on significant unobservable inputs, including forecasted yields and net loss estimates. Loan receivables held for sale are recorded at the lower of cost or fair value, and their carrying amount approximates fair value due to the short duration of the holding period of the loan receivables prior to sale.

Index

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

Redemption settlement assets, restricted — Redemption settlement assets, restricted are recorded at fair value based on quoted market prices for the same or similar securities.

Other investments — Other investments consist of marketable securities and U.S. Treasury bonds and are included in other current assets and other non-current assets in the unaudited condensed consolidated balance sheets. Other investments are recorded at fair value based on quoted market prices for the same or similar securities.

Deposits — The fair value is estimated based on the current observable market rates available to the Company for similar deposits with similar remaining maturities.

Non-recourse borrowings of consolidated securitization entities — The fair value is estimated based on the current observable market rates available to the Company for similar debt instruments with similar remaining maturities or quoted market prices for the same transaction.

Long-term and other debt — The fair value is estimated based on the current observable market rates available to the Company for similar debt instruments with similar remaining maturities or quoted market prices for the same transaction.

Derivative instruments — The Company's foreign currency cash flow hedges are recorded at fair value based on a discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflected the contractual terms of the derivatives, including the period to maturity, and used observable market-based inputs. The fair value of the foreign currency forward contracts is estimated based on published quotations of spot foreign currency rates and forward points which are converted into implied foreign currency rates.

Financial Assets and Financial Liabilities Fair Value Hierarchy

ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1, defined as observable inputs such as quoted prices in active markets;

Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable;
and

Level 3, defined as unobservable inputs where little or no market data exists, therefore requiring an entity to develop its own assumptions.

Financial instruments are considered Level 3 when their values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable. Level 3 financial instruments also include those for which the determination of fair value requires significant management judgment or estimation. The use of different techniques to determine fair value of these financial instruments could result in different estimates of fair value at the reporting date.

14. INCOME TAXES

The Company utilized an effective tax rate of 35.6% for each of the three and six months ended June 30, 2017 to calculate its provision for income taxes. For the three and six months ended June 30, 2016, the Company utilized an effective tax rate of 35.1% and 35.2%, respectively.

15. SEGMENT INFORMATION

Operating segments are defined by ASC 280, "Segment Reporting," as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company's chief operating decision maker is the President and Chief Executive Officer. The operating segments are reviewed separately because each operating segment represents a strategic business unit that generally offers different products.

ALLIANCE DATA SYSTEMS CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

The Company operates in the following reportable segments: LoyaltyOne, Epsilon, and Card Services. Segment operations consist of the following:

- LoyaltyOne provides coalition and short-term loyalty programs through the Company's Canadian AIR MILES Reward Program and BrandLoyalty;
 - Epsilon provides end-to-end, integrated marketing solutions that leverage rich data, analytics, creativity and technology to help clients more effectively acquire, retain and grow relationships with their customers; and
 - Card Services provides risk management solutions, account origination, funding, transaction processing, customer care, collections and marketing services for the Company's private label and co-brand credit card programs.
- Corporate and other immaterial businesses are reported collectively as an "all other" category labeled "Corporate/Other." Income taxes are not allocated to the segments in the computation of segment operating profit for internal evaluation purposes and have also been included in "Corporate/Other."

Caution Regarding Forward-Looking Statements

This Form 10-Q and the documents incorporated by reference herein contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements give our expectations or forecasts of future events and can generally be identified by the use of words such as “believe,” “expect,” “anticipate,” “estimate,” “intend,” “project,” “plan,” “likely,” “may” or other words or phrases of similar import. Similarly, statements that describe our business strategy, outlook, objectives, plans, intentions or goals also are forward-looking statements. We believe that our expectations are based on reasonable assumptions. Forward-looking statements, however, are subject to a number of risks and uncertainties that could cause actual results to differ materially from the projections, anticipated results or other expectations expressed in this report, and no assurances can be given that our expectations will prove to have been correct. These risks and uncertainties include, but are not limited to, the following:

- loss of, or reduction in demand for services from, significant clients;
- increases in net charge-offs in credit card and loan receivables;
- increases in the cost of doing business, including market interest rates;
- loss of active AIR MILES Reward Program collectors;
- disruptions in the airline or travel industries;
- failure to identify or successfully integrate business acquisitions;
- increased redemptions by AIR MILES Reward Program collectors;
- inability to access the asset-backed securitization funding market;
- unfavorable fluctuations in foreign currency exchange rates;
- limitations on consumer credit, loyalty or marketing services from new legislative or regulatory actions related to consumer protection and consumer privacy;
- increases in FDIC, Delaware or Utah regulatory capital requirements for banks;
- failure to maintain exemption from regulation under the Bank Holding Company Act;
- loss or disruption, due to cyber attack or other service failures, of data center operations or capacity;
- loss of consumer information due to compromised physical or cyber security; and
- those factors set forth in the Risk Factors section in our Annual Report on Form 10-K for the most recently ended fiscal year as well as those factors discussed in Item 1A of this Form 10-Q, elsewhere in this Form 10-Q and in the documents incorporated by reference in this Form 10-Q.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary materially from what we projected. Any forward-looking statements contained in this Form 10-Q speak only as of the date made, and we undertake no obligation, other than as required by applicable law, to update or revise any forward-looking statements, whether as a result of new information, subsequent events, anticipated or unanticipated circumstances or otherwise.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and related notes thereto presented in this quarterly report and the consolidated financial statements and related notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2016, filed with the Securities and Exchange Commission, or SEC, on February 27, 2017.

2017 Highlights and Recent Developments

- For the six months ended June 30, 2017, as compared to the six months ended June 30, 2016: Revenue increased 8% to \$3.7 billion.

Net income decreased 5% to \$284.1 million.

Earnings per share increased 40% to \$5.05. Excluding \$1.40 in accretion charges related to the acquisitions of the remaining interests in BrandLoyalty in the prior year period, earnings per share increased 1%.

Adjusted EBITDA, net increased 1% to \$872.9 million.

In January 2017, we entered into a \$350.0 million fixed dollar accelerated share repurchase agreement with final settlement in April. As a result of this transaction, we purchased a total of 1.5 million shares of our common stock at a settlement price per share of \$238.34.

In March 2017, we issued and sold €400.0 million aggregate principal amount of 4.500% senior notes due March 15, 2022.

We paid quarterly dividends of \$29.0 million, or \$0.52 per share, in each of March 2017 and June 2017.

- In June 2017, we entered into a new credit agreement with various agents and lenders, replacing our credit agreement dated July 10, 2013 in its entirety. The new credit agreement provides for a \$3,052.6 million term loan and a \$1,572.4 million revolving line of credit.

2017 Outlook

Within our LoyaltyOne segment, our AIR MILES Reward Program continued to be impacted by the change in the breakage rate from 26% to 20%. As LoyaltyOne implements program changes, our adjusted EBITDA margins have improved and are trending to a mid-20% range for the year. Although AIR MILES reward miles issued declined approximately 2% for the six months ended June 30, 2017, we expect issuance growth to turn positive in the second half of the year. In 2017, we continue to see steady improvement in collector engagement and activation. We expect the burn rate, measured in each period as AIR MILES reward miles redeemed divided by AIR MILES reward miles issued, to approximate 78% for 2017. With respect to BrandLoyalty, timing of programs in market can impact our quarterly financial results and in 2017, we expect major programs to launch in the fourth quarter. However, BrandLoyalty results have been soft; with the third quarter not developing as originally expected, we anticipate a negative impact on both our segment and consolidated operating results for the full year 2017.

Within our Epsilon segment, we had a strong first half with revenue and adjusted EBITDA growth both exceeding our expectations. For the year, we continue to expect 4% growth in revenue and adjusted EBITDA. With respect to our Technology platform, which represents approximately 25% of Epsilon's revenue, we have standardized our product and adjusted our cost structure, which will provide for a faster time to market and allow Epsilon to be more price competitive. With these changes, we expect negative growth in this product offering to become flat by the end of the

year, positively impacting the overall growth of the segment.

Within our Card Services segment, for the full year 2017, we expect double-digit growth for revenue and approximately 10% growth for adjusted EBITDA, net. We expect credit card and loan receivables growth of 15% with stable gross yields. Delinquencies continue to track to our estimates for 2017. Our net loss rates have been negatively impacted by a weaker third-party recovery market. Credit sales increased 6% for the six months ended June 30, 2017, with over 30% of those sales through digital channels, reflecting the changing retail landscape. Recognizing the shift to digital sales, we recently introduced new digital capabilities to promote our retailers' online channels.

Three months ended June 30, 2017 compared to the three months ended June 30, 2016

Revenue. Total revenue increased \$73.0 million, or 4%, to \$1,821.8 million for the three months ended June 30, 2017 from \$1,748.8 million for the three months ended June 30, 2016. The net increase was due to the following:

- Services. Revenue increased \$22.1 million, or 4%, to \$626.5 million for the three months ended June 30, 2017 as a result of an increase in services provided to our Epsilon clients, driven by double-digit growth in the automotive, agency and CRM offerings as a result of new client signings and strength in existing client relationships. This increase was offset in part by a \$4.5 million reduction in merchant fees, which are transaction fees charged by Card Services to the retailer.
- Redemption. Revenue decreased \$77.6 million, or 30%, to \$184.5 million for the three months ended June 30, 2017 as our coalition loyalty program was negatively impacted by the change in breakage rate in December 2016 and a 13% decrease in AIR MILES reward miles redeemed, while our short-term loyalty programs were negatively impacted by the timing of programs in market.
- Finance charges, net. Revenue increased \$128.5 million, or 15%, to \$1,010.8 million for the three months ended June 30, 2017, driven by higher average credit card and loan receivables, which impacted revenue by \$134.0 million. The increase in average credit card and loan receivables was a result of a combination of recent credit card portfolio acquisitions and a 6% increase in credit sales.

Cost of operations. Cost of operations decreased \$13.5 million, or 1%, to \$1,014.4 million for the three months ended June 30, 2017 as compared to \$1,027.9 million for the three months ended June 30, 2016. The net decrease was due to the following:

- Within the LoyaltyOne segment, cost of operations decreased \$49.7 million due to a \$50.9 million decrease in cost of redemptions associated with the decrease in redemption revenue.

Index

- Within the Epsilon segment, cost of operations increased \$20.3 million due to an increase in direct costs associated with the increase in revenue. Cost controls implemented in 2016 held the increase in payroll and benefit costs to 1% as compared to the prior year quarter.
- Within the Card Services segment, cost of operations increased \$14.7 million due to higher payroll and benefit expenses and higher credit card processing costs due to increases in volume associated with growth in credit card and loan receivables.

Provision for loan loss. Provision for loan loss increased \$60.3 million, or 26%, to \$288.1 million for the three months ended June 30, 2017 as compared to \$227.8 million for the three months ended June 30, 2016. The increase in the provision for loan loss was driven by higher principal loss rates as well as an increase in credit card and loan receivables.

General and administrative. General and administrative expenses decreased \$0.5 million, or 1%, to \$42.4 million for the three months ended June 30, 2017, as compared to \$42.9 million for the three months ended June 30, 2016, as decreases in corporate expenses, driven by lower payroll and benefit costs, were offset in part by net foreign currency exchange losses realized.

Depreciation and other amortization. Depreciation and other amortization increased \$4.1 million, or 10%, to \$45.2 million for the three months ended June 30, 2017, as compared to \$41.1 million for the three months ended June 30, 2016, due to additional assets placed into service from recent capital expenditures.

Amortization of purchased intangibles. Amortization of purchased intangibles decreased \$8.2 million, or 9%, to \$80.3 million for the three months ended June 30, 2017 as compared to \$88.5 million for the three months ended June 30, 2016, as the amortization associated with the intangible assets from recent portfolio acquisitions was more than offset by certain fully amortized intangible assets.

Interest expense, net. Total interest expense, net increased \$33.8 million, or 33%, to \$137.5 million for the three months ended June 30, 2017 as compared to \$103.7 million for the three months ended June 30, 2016. The increase was due to the following:

- Securitization funding costs. Securitization funding costs increased \$6.6 million due to higher average borrowings and higher average interest rates.
- Interest expense on deposits. Interest expense on deposits increased \$8.4 million due to higher average borrowings and higher average interest rates.
- Interest expense on long-term and other debt, net. Interest expense on long-term and other debt, net increased \$18.8 million primarily due to the issuance of new senior notes in October 2016 and March 2017, which increased interest expense by \$12.2 million. Additionally, amortization of debt issuance costs increased \$2.1 million, interest expense on term debt increased \$2.8 million and interest expense on the revolving line of credit increased \$1.3 million. The increase in interest expense on the term debt and revolving line of credit was due to higher average balances and higher average interest rates due to increases in the LIBOR rate.

Taxes. Income tax expense was flat at \$76.2 million for each of the three months ended June 30, 2017 and the three months ended June 30, 2016 due to a decrease in taxable income, offset by an increase in the effective tax rate. The effective tax rate for the current year quarter was 35.6% as compared to 35.1% for the prior year quarter.

Six months ended June 30, 2017 compared to the six months ended June 30, 2016

Revenue. Total revenue increased \$275.8 million, or 8%, to \$3,700.8 million for the three months ended June 30, 2017 from \$3,425.0 million for the six months ended June 30, 2016. The net increase was due to the following:

Services. Revenue increased \$43.6 million, or 4%, to \$1,238.1 million for the six months ended June 30, 2017 as a result of an increase in services provided to our Epsilon clients, driven by double-digit growth in the automotive, agency and CRM offerings as a result of new client signings and strength in existing client relationships. This increase was offset in part by a \$20.9 million reduction in merchant fees, which are transaction fees charged by Card Services to the retailer.

Index

- **Redemption.** Revenue decreased \$104.9 million, or 19%, to \$435.3 million for the six months ended June 30, 2017 as our coalition loyalty program was negatively impacted by the change in breakage rate in December 2016 and an 8% decrease in AIR MILES reward miles redeemed, while our short-term loyalty programs were negatively impacted by the timing of programs in market.
- **Finance charges, net.** Revenue increased \$337.1 million, or 20%, to \$2,027.4 million for the six months ended June 30, 2017, driven by a combination of higher average credit card and loan receivables, which impacted revenue by \$283.0 million, and a higher finance yield of 70 basis points, which impacted revenue by \$54.1 million. The increase in average credit card and loan receivables was a result of a combination of recent credit card portfolio acquisitions and a 6% increase in credit sales, while the increase in our finance yield benefitted from higher late fees.

Cost of operations. Cost of operations increased \$24.6 million, or 1%, to \$2,056.5 million for the six months ended June 30, 2017 as compared to \$2,031.9 million for the six months ended June 30, 2016. The net increase was due to the following:

- Within the LoyaltyOne segment, cost of operations decreased \$51.2 million as a \$61.2 million decrease in cost of redemptions associated with the decrease in redemption revenue was offset in part by a 3% increase in payroll and benefit costs.
- Within the Epsilon segment, cost of operations increased \$52.2 million due to an increase in direct costs associated with the increase in revenue as well as a 4% increase in payroll and benefit expenses.
- Within the Card Services segment, cost of operations increased \$21.8 million due to a 10% increase in payroll and benefit expenses to support increases in volume associated with growth in credit card and loan receivables.

Provision for loan loss. Provision for loan loss increased \$203.5 million, or 51%, to \$603.2 million for the six months ended June 30, 2017 as compared to \$399.7 million for the six months ended June 30, 2016. The increase in the provision for loan loss was driven by higher principal loss rates as well as an increase in credit card and loan receivables.

General and administrative. General and administrative expenses increased \$16.5 million, or 23%, to \$87.0 million for the six months ended June 30, 2017, as compared to \$70.5 million for the six months ended June 30, 2016, due to higher payroll and benefit costs of \$8.9 million associated with an increase in stock compensation, medical costs and discretionary benefits, as well as an increase in net foreign currency exchange losses recognized of \$7.8 million.

Depreciation and other amortization. Depreciation and other amortization increased \$9.0 million, or 11%, to \$89.9 million for the six months ended June 30, 2017, as compared to \$80.9 million for the six months ended June 30, 2016, due to additional assets placed into service from recent capital expenditures.

Amortization of purchased intangibles. Amortization of purchased intangibles decreased \$16.7 million, or 9%, to \$160.4 million for the six months ended June 30, 2017 as compared to \$177.1 million for the six months ended June 30, 2016, as the amortization associated with the intangible assets from recent portfolio acquisitions was more than offset by certain fully amortized intangible assets.

Interest expense, net. Total interest expense, net increased \$60.2 million, or 30%, to \$262.7 million for the six months ended June 30, 2017 as compared to \$202.5 million for the six months ended June 30, 2016. The increase was due to the following:

- **Securitization funding costs.** Securitization funding costs increased \$11.4 million due to higher average borrowings and higher average interest rates.
- **Interest expense on deposits.** Interest expense on deposits increased \$17.2 million due to higher average borrowings and higher average interest rates.
- **Interest expense on long-term and other debt, net.** Interest expense on long-term and other debt, net increased \$31.6 million primarily due to the issuance of new senior notes in October 2016 and March 2017, which increased interest

expense by \$20.4 million. Additionally, amortization of debt issuance costs increased \$2.5 million, interest expense on term debt increased \$5.8 million and interest expense on the revolving line of credit increased \$1.3 million. The increase in interest expense on the term debt and revolving line of credit was due to

Index

higher average balances and higher average interest rates due to increases in the LIBOR rate.

Taxes. Income tax expense decreased \$5.8 million to \$157.0 million for the six months ended June 30, 2017 from \$162.8 million for the six months ended June 30, 2016 due to a decrease in taxable income, offset in part by an increase in the effective tax rate. The effective tax rate for the six months ended June 30, 2017 was 35.6% as compared to 35.2% for the six months ended June 30, 2016.

Use of Non-GAAP Financial Measures

Adjusted EBITDA is a non-GAAP financial measure equal to net income, the most directly comparable financial measure based on accounting principles generally accepted in the United States of America, or GAAP, plus stock compensation expense, provision for income taxes, interest expense, net, depreciation and other amortization and amortization of purchased intangibles. Adjusted EBITDA, net is also a non-GAAP financial measure equal to adjusted EBITDA less securitization funding costs, interest expense on deposits and adjusted EBITDA attributable to the non-controlling interest.

We use adjusted EBITDA and adjusted EBITDA, net as an integral part of our internal reporting to measure the performance of our reportable segments and to evaluate the performance of our senior management, and we believe it provides useful information to our investors regarding our performance and overall results of operations. Adjusted EBITDA and adjusted EBITDA, net are each considered an important indicator of the operational strength of our businesses. Adjusted EBITDA eliminates the uneven effect across all business segments of considerable amounts of non-cash depreciation of tangible assets and amortization of intangible assets, including certain intangible assets that were recognized in business combinations. A limitation of this measure, however, is that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenues in our businesses. Management evaluates the costs of such tangible and intangible assets, such as capital expenditures, investment spending and return on capital and therefore the effects are excluded from adjusted EBITDA. Adjusted EBITDA also eliminates the non-cash effect of stock compensation expense.

Adjusted EBITDA and adjusted EBITDA, net are not intended to be performance measures that should be regarded as an alternative to, or more meaningful than, either operating income or net income as indicators of operating performance or to cash flows from operating activities as a measure of liquidity. In addition, adjusted EBITDA and adjusted EBITDA, net are not intended to represent funds available for dividends, reinvestment or other discretionary uses, and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. The adjusted EBITDA and adjusted EBITDA, net measures presented in this Quarterly Report on Form 10 Q may not be comparable to similarly titled measures presented by other companies, and may not be identical to corresponding measures used in our various agreements.

*not meaningful

Three months ended June 30, 2017 compared to the three months ended June 30, 2016

Revenue. Total revenue increased \$73.0 million, or 4%, to \$1,821.8 million for the three months ended June 30, 2017 from \$1,748.8 million for the three months ended June 30, 2016. The net increase was due to the following:

- LoyaltyOne. Revenue decreased \$72.3 million, or 21%, to \$280.0 million for the three months ended June 30, 2017 as our coalition program declined \$24.4 million, impacted by a 13% decrease in the number of AIR MILES reward miles redeemed and the change in breakage rate in December 2016, and revenue from our short-term loyalty programs decreased \$47.9 million related to the timing of programs in market.
- Epsilon. Revenue increased \$25.0 million, or 5%, to \$543.8 million for the three months ended June 30, 2017 driven by double-digit growth in the automotive, agency and CRM offerings from a combination of new clients and strength in existing client relationships, offset in part by a 3% decline in technology platform revenue as compared to the prior year period.
- Card Services. Revenue increased \$119.2 million, or 13%, to \$1,005.0 million for the three months ended June 30, 2017, driven by a \$128.5 million increase in finance charges, net as a result of an increase in average credit card and loan receivables due to recent portfolio acquisitions and strong cardholder spending. Servicing fees decreased \$9.3 million, as merchant fees declined \$4.5 million due to increased royalty payments associated with higher volumes and new clients, and other servicing fees declined \$5.1 million.

Adjusted EBITDA, net. Adjusted EBITDA, net increased \$11.9 million, or 3%, to \$433.4 million for the three months ended June 30, 2017 from \$421.5 million for the three months ended June 30, 2016. The net increase was due to the following:

LoyaltyOne. Adjusted EBITDA, net decreased \$22.6 million, or 28%, to \$56.7 million for the three months ended June 30, 2017 primarily due to the decrease in revenue discussed above, offset in part by the associated decrease in cost of redemptions.

- Epsilon. Adjusted EBITDA, net increased \$4.2 million, or 4%, to \$106.8 million for the three months ended June 30, 2017 due to the revenue increases discussed above, as adjusted EBITDA margins were 20% for each of the three months ended June 30, 2017 and 2016.
- Card Services. Adjusted EBITDA, net increased \$29.1 million, or 11%, to \$305.5 million for the three months ended June 30, 2017. Adjusted EBITDA, net was positively impacted by an increase in finance charges, net,

Index

which was offset primarily by an increase in the provision for loan loss resulting from higher principal loss rates as well as an increase in credit card and loan receivables and an increase in operating expenses due to higher volumes.

- Corporate/Other. Adjusted EBITDA, net increased \$1.2 million to a loss of \$35.6 million for the three months ended June 30, 2017, due to lower payroll and benefit costs and general corporate expenses that were offset in part by higher net foreign currency exchange losses recognized as compared to the prior year quarter.

Six months ended June 30, 2017 compared to the six months ended June 30, 2016

Revenue. Total revenue increased \$275.8 million, or 8%, to \$3,700.8 million for the six months ended June 30, 2017 from \$3,425.0 million for the six months ended June 30, 2016. The net increase was due to the following:

- LoyaltyOne. Revenue decreased \$93.9 million, or 13%, to \$613.0 million for the six months ended June 30, 2017 as our coalition program declined \$36.0 million due to an 8% decrease in the number of AIR MILES reward miles redeemed and the impact of the change in breakage rate in December 2016, and our short-term loyalty programs decreased \$57.9 million related to the timing of programs in market.
- Epsilon. Revenue increased \$61.0 million, or 6%, to \$1,073.1 million for the six months ended June 30, 2017 driven by double-digit growth in the automotive, agency and CRM offerings from a combination of new clients and strength in existing client relationships, offset in part by a 5% decline in technology platform revenue as compared to the prior year period.
- Card Services. Revenue increased \$306.9 million, or 18%, to \$2,028.2 million for the six months ended June 30, 2017, driven by a \$337.1 million increase in finance charges, net as a result of an increase in average credit card and loan receivables due to recent portfolio acquisitions and strong cardholder spending. Servicing fees decreased \$30.1 million, as merchant fees declined \$20.9 million due to increased royalty payments associated with higher volumes and new clients, and other servicing fees declined \$10.1 million.

Adjusted EBITDA, net. Adjusted EBITDA, net increased \$11.9 million, or 1%, to \$872.9 million for the six months ended June 30, 2017 from \$861.0 million for the six months ended June 30, 2016. The net increase was due to the following:

- LoyaltyOne. Adjusted EBITDA, net decreased \$37.6 million, or 25%, to \$115.4 million for the six months ended June 30, 2017 primarily due to the decrease in revenue discussed above, offset in part by the associated decrease in cost of redemptions. In the prior year period, adjusted EBITDA, net was reduced by \$5.5 million of adjusted EBITDA attributable to the non-controlling interest. Effective April 1, 2016, we acquired the remaining 20% interest in BrandLoyalty to bring our ownership percentage to 100%.
- Epsilon. Adjusted EBITDA, net increased \$8.4 million, or 5%, to \$191.8 million for the six months ended June 30, 2017 due to the revenue increases discussed above, as adjusted EBITDA margins remained flat.
- Card Services. Adjusted EBITDA, net increased \$52.3 million, or 9%, to \$636.2 million for the six months ended June 30, 2017. Adjusted EBITDA, net was positively impacted by an increase in finance charges, net, which was offset primarily by an increase in the provision for loan loss resulting from higher principal loss rates as well as an increase in credit card and loan receivables and an increase in operating expenses due to higher volumes.
- Corporate/Other. Adjusted EBITDA, net decreased \$11.2 million to a loss of \$70.5 million for the six months ended June 30, 2017, due to higher payroll and benefit costs, an increase in charitable contributions, and higher net foreign currency exchange losses recognized in the current year period.

Asset Quality

Our delinquency and net charge-off rates reflect, among other factors, the credit risk of our credit card and loan receivables, the success of our collection and recovery efforts, and general economic conditions.

Index

Delinquencies. A credit card account is contractually delinquent when we do not receive the minimum payment by the specified due date on the cardholder's statement. Our policy is to continue to accrue interest and fee income on all credit card accounts beyond 90 days, except in limited circumstances, until the credit card account balance and all related interest and other fees are paid or charged-off, typically at 180 days delinquent. When an account becomes delinquent, a message is printed on the credit cardholder's billing statement requesting payment. After an account becomes 30 days past due, a proprietary collection scoring algorithm automatically scores the risk of the account becoming further delinquent. The collection system then recommends a collection strategy for the past due account based on the collection score and account balance and dictates the contact schedule and collections priority for the account. If we are unable to make a collection after exhausting all in-house collection efforts, we may engage collection agencies and outside attorneys to continue those efforts.

The following table presents the delinquency trends of our credit card and loan receivables portfolio:

	June 30, 2017	% of Total		December 31, 2016	% of Total
	(In millions, except percentages)				
Receivables outstanding - principal	\$ 15,497.3	100.0 %		\$ 15,754.0	100.0 %
Principal receivables balances contractually delinquent:					
31 to 60 days	261.4	1.7 %		249.8	1.6 %
61 to 90 days	190.4	1.2 %		169.3	1.1 %
91 or more days	331.5	2.2 %		337.8	2.1 %
Total	\$ 783.3	5.1 %		\$ 756.9	4.8 %

Net Charge-Offs. Our net charge-offs include the principal amount of losses from cardholders unwilling or unable to pay their account balances, as well as bankrupt and deceased credit cardholders, less recoveries and exclude charged-off interest, fees and fraud losses. Charged-off interest and fees reduce finance charges, net while fraud losses are recorded as an expense. Credit card and loan receivables, including unpaid interest and fees, are charged-off in the month during which an account becomes 180 days contractually past due, except in the case of customer bankruptcies or death. Credit card and loan receivables, including unpaid interest and fees, associated with customer bankruptcies or death are charged-off in each month subsequent to 60 days after the receipt of notification of the bankruptcy or death, but in any case, not later than the 180-day contractual time frame.

The net charge-off rate is calculated by dividing net charge-offs of principal receivables for the period by the average credit card and loan receivables for the period. Average credit card and loan receivables represent the average balance of the cardholder receivables at the beginning of each month in the periods indicated. The following table presents our net charge-offs for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
	(In millions, except percentages)			
Average credit card and loan receivables	\$ 15,739.9	\$ 13,505.3	\$ 15,712.7	\$ 13,521.0
Net charge-offs of principal receivables	244.0	172.4	491.9	348.8
Net charge-offs as a percentage of average credit card and loan receivables	6.2 %	5.1 %	6.3 %	5.2 %

See Note 3, "Credit Card and Loan Receivables," of the Notes to Unaudited Condensed Consolidated Financial Statements for additional information related to the securitization of our credit card receivables.

Index

Liquidity and Capital Resources

Our primary sources of liquidity include cash generated from operating activities, our credit agreements and issuances of debt, our credit card securitization program, deposits issued by Comenity Bank and Comenity Capital Bank and equity securities. In addition to our efforts to renew and expand our current liquidity sources, we continue to seek new funding sources.

Quantitative measures established by regulations to ensure capital adequacy require Comenity Bank and Comenity Capital Bank to maintain minimum amounts and ratios of Common Equity Tier 1, Tier 1 and total capital to risk weighted assets and of Tier 1 capital to average assets. As of June 30, 2017, Comenity Bank's Common Equity Tier 1 capital ratio was 15.3%, Tier 1 capital ratio was 15.3%, total capital ratio was 16.7% and leverage ratio was 14.3%. As of June 30, 2017, Comenity Capital Bank's Common Equity Tier 1 capital ratio was 13.6%, Tier 1 capital ratio was 13.6%, total capital ratio was 14.9% and leverage ratio was 12.9%. Comenity Bank and Comenity Capital Bank are considered well capitalized.

Our primary uses of cash are for ongoing business operations, repayments of our debt, capital expenditures, investments or acquisitions, stock repurchases and dividends.

We may from time to time seek to retire or purchase our outstanding debt through cash purchases or exchanges for other securities, in open market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

We believe that internally generated funds and other sources of liquidity discussed below will be sufficient to meet working capital needs, capital expenditures, and other business requirements for at least the next 12 months.

Cash Flow Activity

Operating Activities. We generated cash flow from operating activities of \$1,034.4 million and \$754.9 million for the six months ended June 30, 2017 and 2016, respectively. The increase in operating cash flows of \$279.5 million during the six months ended June 30, 2017 as compared to the prior year period was due to an increase in profitability exclusive of non-cash charges to income, including an increase in the provision for loan loss, as well as an increase in cash provided by working capital, due primarily to a decrease in trade receivables during the current year period as compared to the prior year period.

Investing Activities. Cash used in investing activities was \$1,021.0 million and \$1,168.8 million for the six months ended June 30, 2017 and 2016, respectively. Significant components of investing activities are as follows:

- Redemption settlement assets. During the six months ended June 30, 2017, cash decreased \$207.9 million as we increased funding to the redemption settlement assets as a result of the breakage rate change in December 2016.
- Restricted cash. During the six months ended June 30, 2017, we collected principal accumulation of \$433.8 million for the repayment of non-recourse borrowings of consolidated securitized debt that was repaid in July 2017.
- Credit card and loan receivables, net. Cash decreased \$286.4 million and \$352.6 million for the six months ended June 30, 2017 and 2016, respectively, due to growth in credit card and loan receivables and strong cardholder spending in both periods.
- Purchase of credit card portfolios. During the six months ended June 30, 2016, we paid \$749.1 million to acquire three credit card portfolios.

Financing Activities. Cash provided by financing activities was \$73.1 million and \$556.5 million for the six months ended June 30, 2017 and 2016, respectively. Significant components of financing activities are as follows:

- Debt. Cash increased \$753.1 million in net borrowings for the six months ended June 30, 2017, primarily due to the issuance of €400.0 million senior notes due 2022 and net borrowings under the revolving line of credit. Cash increased \$683.7 million in net borrowings for the six months ended June 30, 2016, primarily driven by net borrowings under the revolving line of credit.

Index

- Deposits. Cash provided by net issuances of deposits increased \$332.1 million for the six months ended June 30, 2017 to support credit card receivables. For the six months ended June 30, 2016, net issuances of deposits increased \$1,263.5 million to support credit card receivables, including portfolio acquisitions.
- Non-recourse borrowings of consolidated securitization entities. Cash decreased \$395.0 million and \$485.0 million for the six months ended June 30, 2017 and 2016, respectively, due to net repayments and maturities under the asset-backed term notes and conduit facilities.
- BrandLoyalty non-controlling interest. During the six months ended June 30, 2016, we paid \$360.7 million to acquire the remaining ownership interests in BrandLoyalty.
 - Dividends paid. During the six months ended June 30, 2017, we paid a total of \$58.0 million for two quarterly dividends on our common stock.
- Treasury shares. Cash paid for treasury shares was \$499.9 million and \$522.6 million for the six months ended June 30, 2017 and 2016, respectively.

Debt

Long-term and Other Debt

On June 14, 2017, we entered in a credit agreement with various agents and lenders, or the 2017 Credit Agreement. On June 16, 2017, we entered into a first amendment to the 2017 Credit Agreement to increase borrowings. The 2017 Credit Agreement replaced in its entirety our credit agreement dated July 10, 2013, or the 2013 Credit Agreement. The 2017 Credit Agreement includes an uncommitted accordion feature of up to \$750.0 million in the aggregate allowing for future incremental borrowings, subject to certain conditions. These borrowings bear interest at the same rates as, and are generally subject to the same terms, as the 2013 Credit Agreement. The loans under the 2017 Credit Agreement are scheduled to mature on June 14, 2022. At June 30, 2017, the 2017 Credit Agreement, as amended, provided for a \$3,052.6 million term loan, subject to certain repayments, and a \$1,572.4 million revolving line of credit.

As of June 30, 2017, we had \$415.0 million outstanding under our revolving line of credit and total availability of \$1,157.4 million. Our total leverage ratio, as defined in our credit agreement, was 3.0 to 1 at June 30, 2017, as compared to the maximum covenant ratio of 3.5 to 1.

In March 2017, we issued and sold €400.0 million aggregate principal amount of 4.500% senior notes due March 15, 2022. Interest is payable semiannually in arrears, on March 15 and September 15 of each year, beginning on September 15, 2017.

As of June 30, 2017, we were in compliance with our debt covenants.

Deposits

We utilize money market deposits and certificates of deposit to finance the operating activities and fund securitization enhancement requirements of our bank subsidiaries, Comenity Bank and Comenity Capital Bank.

As of June 30, 2017, we had \$2.9 billion in money market deposits outstanding with interest rates ranging from 1.01% to 2.37%. Money market deposits are redeemable on demand by the customer and, as such, have no scheduled maturity date.

As of June 30, 2017, we had \$5.8 billion in certificates of deposit outstanding with interest rates ranging from 0.80% to 2.80% and maturities ranging from July 2017 to June 2022. Certificate of deposit borrowings are subject to regulatory capital requirements.

Index

Securitization Program

We sell a majority of the credit card receivables originated by Comenity Bank to WFN Credit Company, LLC, which in turn sells them to World Financial Network Credit Card Master Trust, or Master Trust I, World Financial Network Credit Card Master Note Trust and World Financial Network Credit Card Master Trust III, or collectively, the WFN Trusts, as part of our credit card securitization program, which has been in existence since January 1996. We also sell our credit card receivables originated by Comenity Capital Bank to World Financial Capital Credit Company, LLC, which in turn sells them to World Financial Capital Master Note Trust, or the WFC Trust. These securitization programs are a principal vehicle through which we finance Comenity Bank's and Comenity Capital Bank's credit card receivables.

As of June 30, 2017, the WFN Trusts and the WFC Trust had approximately \$11.0 billion of securitized credit card receivables. Securitizations require credit enhancements in the form of cash, spread deposits, additional receivables and subordinated classes. The credit enhancement is principally based on the outstanding balances of the series issued by the WFN Trusts and the WFC Trust and by the performance of the credit card receivables in these credit card securitization trusts.

At June 30, 2017, we had \$6.6 billion of non-recourse borrowings of consolidated securitization entities, of which \$1.6 billion is due within the next 12 months. As of June 30, 2017, total capacity under the conduit facilities was \$2.9 billion, of which \$1.9 billion had been drawn and was included in non-recourse borrowings of consolidated securitization entities in the unaudited condensed consolidated balance sheets.

In April 2017, Master Trust III renewed its 2009-VFC1 conduit facility, increasing the capacity from \$900.0 million to \$925.0 million and extending the maturity to April 2018.

In May 2017, Master Trust I issued \$450.7 million of Series 2017-A asset-backed term notes, which mature in May 2020. The offering consisted of \$400.0 million of Class A notes with a fixed interest rate of 2.12% per year and \$50.7 million of notes that were retained by us and eliminated from the unaudited condensed consolidated balance sheets.

In May 2017, \$389.6 million of Series 2015-C asset-backed term notes, \$89.6 million of which were retained by us and eliminated from the unaudited condensed consolidated balance sheets, matured and were repaid.

In July 2017, \$433.3 million of Series 2012-B asset-backed term notes, \$108.3 million of which were retained by us and eliminated from the unaudited condensed consolidated balance sheets, matured and were repaid.

The following table shows the maturities of borrowing commitments as of June 30, 2017 for the WFN Trusts and the WFC Trust by year:

	2017	2018	2019	2020	Thereafter	Total
	(In millions)					
Term notes	\$ 650.0	\$ 1,341.0	\$ 1,174.0	\$ 875.0	\$ 682.5	\$ 4,722.5
Conduit facilities (1)	—	2,885.0	—	—	—	2,885.0
Total (2)	\$ 650.0	\$ 4,226.0	\$ 1,174.0	\$ 875.0	\$ 682.5	\$ 7,607.5

(1) Amount represents borrowing capacity, not outstanding borrowings.

(2) Total amounts do not include \$1.9 billion of debt issued by the credit card securitization trusts that was retained by us and eliminated in the unaudited condensed consolidated financial statements.

See Note 8, "Debt," of the Notes to Unaudited Condensed Consolidated Financial Statements for additional information regarding our debt.

Stock Repurchase Programs

On January 1, 2017, our Board of Directors authorized a stock repurchase program to acquire up to \$500.0 million of our outstanding common stock through December 31, 2017.

On January 30, 2017, under the authorization of the existing 2017 repurchase program, we entered into a \$350.0 million fixed dollar accelerated share repurchase program agreement, or the ASR Agreement, with an investment bank counterparty. Pursuant to the ASR Agreement, we received an initial delivery of 1.4 million shares of our common stock

Index

on February 6, 2017. The final settlement was based upon the volume weighted average price of our common stock, purchased by the counterparty during the period, less a specified discount, subject to a collar with a specified forward cap price and forward cap floor. The final settlement was on April 17, 2017 and resulted in the delivery of an additional 0.1 million shares. As a result of this transaction, we purchased a total of 1.5 million shares of our common stock at a settlement price per share of \$238.34.

For the six months ended June 30, 2017, we acquired a total of 2.1 million shares of our common stock for \$499.9 million, including those amounts under the ASR Agreement. As of June 30, 2017, we had \$0.1 million remaining under the stock repurchase program.

On July 25, 2017, our Board of Directors authorized an increase to the stock repurchase program originally approved on January 1, 2017 to acquire an additional \$500.0 million of our outstanding common stock through July 31, 2018, for a total authorization of \$1.0 billion.

Dividends

On January 26, 2017, our Board of Directors declared a quarterly cash dividend of \$0.52 per share on our common stock to stockholders of record at the close of business on February 15, 2017, resulting in a dividend payment of \$29.0 million on March 17, 2017.

On April 20, 2017, our Board of Directors declared a quarterly cash dividend of \$0.52 per share on our common stock to stockholders of record at the close of business on May 15, 2017, resulting in a dividend payment of \$29.0 million on June 19, 2017.

On July 20, 2017, our Board of Directors declared a quarterly cash dividend of \$0.52 per share on our common stock, payable on September 19, 2017, to stockholders of record at the close of business on August 14, 2017.

Critical Accounting Policies and Estimates

There have been no material changes to our critical accounting policies and estimates from the information provided in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," included in our Annual Report filed on Form 10-K for the fiscal year ended December 31, 2016.

Recently Issued Pronouncements

See "Recently Issued Accounting Standards" under Note 1, "Summary of Significant Accounting Policies," of the Notes to Unaudited Condensed Consolidated Financial Statements for a discussion of certain accounting standards that have been recently issued.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Market Risk

Market risk is the risk of loss from adverse changes in market prices and rates. Our primary market risks include interest rate risk, credit risk, and foreign currency exchange rate risk.

There has been no material change from our Annual Report on Form 10-K for the year ended December 31, 2016 related to our exposure to market risk from interest rate risk, credit risk, and foreign currency exchange rate risk.

Item 4. Controls and Procedures.

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

As of June 30, 2017, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of June 30, 2017

44

Index

(the end of our second fiscal quarter), our disclosure controls and procedures are effective. Disclosure controls and procedures are controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and include controls and procedures designed to ensure that information we are required to disclose in such reports is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during our second quarter 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

Item 1. Legal Proceedings.

From time to time we are involved in various claims and lawsuits arising in the ordinary course of our business that we believe will not have a material adverse effect on our business or financial condition, including claims and lawsuits alleging breaches of our contractual obligations.

Item 1A. Risk Factors.

Other than as set forth below, there have been no material changes to the Risk Factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2016 or our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017.

Current and proposed regulation and legislation relating to our card services could limit our business activities, product offerings and fees charged and may have a significant impact on our business, results of operations and financial condition.

On July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") was enacted into law. The Dodd-Frank Act, among other things, includes a sweeping reform of the regulation and supervision of financial institutions, as well as of the regulation of derivatives and capital market activities.

The full impact of the Dodd-Frank Act is difficult to assess because many provisions require federal agencies to adopt implementing regulations, and some of the final implementing regulations have not yet been issued. In addition, the Dodd-Frank Act mandates multiple studies, which could result in future legislative or regulatory action. In particular, the Government Accountability Office issued its study on whether it is necessary, in order to strengthen the safety and soundness of institutions or the stability of the financial system of the United States, to eliminate the exemptions to the definition of "bank" under the Bank Holding Company Act for certain institutions including limited purpose credit card banks and industrial loan companies. The study did not recommend the elimination of these exemptions. However, if legislation were enacted to eliminate these exemptions without any grandfathering of or accommodations for existing institutions, we could be required to become a bank holding company and cease certain of our activities

that are not permissible for bank holding companies or divest our credit card bank subsidiary, Comenity Bank, or our industrial bank subsidiary, Comenity Capital Bank.

The Dodd-Frank Act created the CFPB, a federal consumer protection regulator with authority to make further changes to the federal consumer protection laws and regulations. The CFPB assumed rulemaking authority under the existing federal consumer financial protection laws, and enforces those laws against and examines certain non-depository institutions and insured depository institutions with total assets greater than \$10 billion and their affiliates.

As of October 1, 2016, both Comenity Bank and Comenity Capital Bank are under the CFPB's supervision and the CFPB may, from time to time, conduct reviews of their practices. In addition, the CFPB's broad rulemaking authority is expected to impact their operations. For example, the CFPB's rulemaking authority may allow it to change regulations adopted in the past by other regulators including regulations issued under the Truth in Lending Act or the CARD Act by the Board of Governors of the Federal Reserve System. The CFPB's ability to rescind, modify or interpret past regulatory guidance could increase our compliance costs and litigation exposure. Furthermore, the CFPB has broad

Index

authority to prevent "unfair, deceptive or abusive" acts or practices and has taken enforcement action against other credit card issuers and financial services companies. Evolution of these standards could result in changes to pricing, practices, procedures and other activities relating to our credit card accounts in ways that could reduce the associated return. It is

unclear what changes would be promulgated by the CFPB and what effect, if any, such changes would have on our credit accounts.

The Dodd-Frank Act authorizes certain state officials to enforce regulations issued by the CFPB and to enforce the Dodd-Frank Act's general prohibition against unfair, deceptive or abusive practices. To the extent that states enact requirements that differ from federal standards or courts adopt interpretations of federal consumer laws that differ from those adopted by the federal banking agencies, we may be required to alter products or services offered in some jurisdictions or cease offering products, which will increase compliance costs and reduce our ability to offer the same products and services to consumers nationwide.

Various federal and state laws and regulations significantly limit the retail credit card services activities in which we are permitted to engage. Such laws and regulations, among other things, limit the fees and other charges that we can impose on consumers, limit or proscribe certain other terms of our products and services, require specified disclosures to consumers, or require that we maintain certain licenses, qualifications and minimum capital levels. In some cases, the precise application of these statutes and regulations is not clear. In addition, numerous legislative and regulatory proposals are advanced each year which, if adopted, could have a material adverse effect on our profitability or further restrict the manner in which we conduct our activities. The CARD Act acts to limit or modify certain credit card practices and requires increased disclosures to consumers. The credit card practices addressed by the rules include, but are not limited to, restrictions on the application of rate increases to existing and new balances, payment allocation, default pricing, imposition of late fees and two-cycle billing. The failure to comply with, or adverse changes in, the laws or regulations to which our business is subject, or adverse changes in their interpretation, could have a material adverse effect on our ability to collect our receivables and generate fees on the receivables, thereby adversely affecting our profitability.

In the normal course of business, from time to time, Comenity Bank and Comenity Capital Bank have been named as defendants in various legal actions, including arbitrations, class actions and other litigation arising in connection with their business activities. While historically the arbitration provision in each bank's customer agreement has generally limited such bank's exposure to consumer class action litigation, there can be no assurance that the banks will be successful in enforcing the arbitration clause in the future. There may also be legislative, administrative or regulatory efforts to directly or indirectly prohibit the use of pre-dispute arbitration clauses.

In July 2017 the CFPB issued a final rule that, among other things, prohibits covered consumer financial companies from using pre-dispute arbitration clauses in contracts for certain consumer financial products and services, including credit cards, to bar the consumer counter-party from participating in class action litigation related to disputes under the contract. The rule also requires covered companies involved in arbitrations under such contracts to submit to the CFPB certain arbitration and court records for the CFPB to make publicly available on its website. It is possible that

Congress will nullify the new rule through the Congressional Review Act or that the rule will be challenged through litigation. If not nullified, the rule will become effective on September 18, 2017 and apply to covered agreements entered into on or after March 19, 2018. The new rule could significantly increase the banks' exposure to consumer class action litigation, the associated costs of which could have an adverse effect on us. In addition, failure to comply with this new rule may result in enforcement action by the CFPB, including civil monetary penalties.

Comenity Bank and Comenity Capital Bank are also involved, from time to time, in reviews, investigations, and proceedings (both formal and informal) by governmental agencies regarding the bank's business, which could subject the bank to significant fines, penalties, obligations to change its business practices or other requirements. In September 2015, each bank entered into a consent order with the FDIC agreeing to provide restitution to eligible customers, to pay civil money penalties to the FDIC and to make further enhancements to their compliance and other processes related to the marketing, promotion and sale of add-on products.

The effect of the Dodd-Frank Act on our business and operations could be significant, depending upon final implementing regulations, the actions of our competitors and the behavior of other marketplace participants. In addition, we may be required to invest significant management time and resources to address the various provisions of the Dodd-Frank Act and the numerous regulations that are required to be issued under it. The Dodd-Frank Act and any related legislation or regulations may have a material impact on our business, results of operations and financial condition.

Index

Legislation relating to consumer privacy and security may affect our ability to collect data that we use in providing our loyalty and marketing services, which, among other things, could negatively affect our ability to satisfy our clients' needs.

The evolution of legal standards and regulations around data protection and consumer privacy may affect our business. The enactment of new or amended legislation or industry regulations pertaining to consumer, public or private sector privacy issues could have a material adverse impact on our marketing services, including placing restrictions upon the collection, sharing and use of information that is currently legally available. This, in turn, could materially increase our cost of collecting certain data. These types of legislation or industry regulations could also prohibit us from collecting or disseminating certain types of data, which could adversely affect our ability to meet our clients' requirements and our profitability and cash flow targets. In addition to the United States, Canadian and European Union regulations discussed below, we have expanded our marketing services through the acquisition of companies formed and operating in foreign jurisdictions that may be subject to additional or more stringent legislation and regulations regarding consumer or private sector privacy.

There are also a number of specific laws and regulations governing the collection and use of certain types of consumer data that are relevant to our various business and services. In the United States, federal and state laws such as the federal Gramm-Leach-Bliley Act and the Fair Credit Reporting Act, as amended by the Fair and Accurate Credit Transactions Act of 2003, make it more difficult to collect, share and use information that has previously been legally available and may increase our costs of collecting some data. Regulations under these acts give cardholders the ability to "opt out" of having information generated by their credit card purchases shared with other affiliated and unaffiliated parties or the public. Our ability to gather, share and utilize this data will be adversely affected if a significant percentage of the consumers whose purchasing behavior we track elect to "opt out," thereby precluding us and our affiliates from using their data.

In the United States, the federal Do-Not-Call Implementation Act makes it more difficult to telephonically communicate with prospective and existing customers. Similar measures were implemented in Canada beginning September 1, 2008. Regulations in both the United States and Canada give consumers the ability to "opt out," through a national do-not-call registry and state do-not-call registries of having telephone solicitations placed to them by companies that do not have an existing business relationship with the consumer. In addition, regulations require companies to maintain an internal do-not-call list for those who do not want the companies to solicit them through telemarketing. These regulations could limit our ability to provide services and information to our clients. Failure to comply with these regulations could have a negative impact on our reputation and subject us to significant penalties. Further, the Federal Communications Commission has approved interpretations of rules related to the Telephone Consumer Protection Act defining robo-calls broadly, which may affect our ability to contact customers and may increase our litigation exposure.

In the United States, the federal Controlling the Assault of Non-Solicited Pornography and Marketing Act of 2003 restricts our ability to send commercial electronic mail messages, the primary purpose of which is advertising or

promoting a commercial product or service, to our customers and prospective customers. The act requires that a commercial electronic mail message provide the customers with an opportunity to opt-out from receiving future commercial electronic mail messages from the sender. Failure to comply with the terms of this act could have a negative impact on our reputation and subject us to significant penalties.

Further, many state governments are reviewing or proposing the need for greater regulation of the collection, processing, sharing, and use of consumer data for various marketing purposes. This may result in new laws or regulations imposing additional compliance requirements.

In Canada, the Personal Information Protection and Electronic Documents Act requires an organization to obtain a consumer's consent to collect, use or disclose personal information. Under this act, consumer personal information may be used only for the purposes for which it was collected. We allow our customers to voluntarily "opt out" from receiving either one or both promotional and marketing mail or promotional and marketing electronic mail. Heightened consumer awareness of, and concern about, privacy may result in customers "opting out" at higher rates than they have historically. This would mean that a reduced number of customers would receive bonus and promotional offers and therefore those customers may collect fewer AIR MILES reward miles.

Index

Canada's Anti-Spam Legislation may restrict our ability to send commercial "electronic messages," defined to include text, sound, voice and image messages to email, or similar accounts, where the primary purpose is advertising or promoting a commercial product or service to our customers and prospective customers. The Act requires, in part, that a sender have consent to send a commercial electronic message, and provide the customers with an opportunity to opt out from receiving future commercial electronic email messages from the sender. Failure to comply with the terms of this Act or any proposed regulations that may be adopted in the future could have a negative impact on our reputation and subject us to significant monetary penalties.

In the European Union, the Directive 95/46/EC of the EU Parliament and of the Council of 24 October 1995 requires member states to implement and enforce a comprehensive data protection law that is based on principles designed to safeguard personal data, defined as any information relating to an identified or identifiable natural person. The Directive frames certain requirements for transfer outside of the European Economic Area and individual rights such as consent requirements. In January 2012, the European Commission proposed the General Data Protection Regulation, or GDPR, a new European Union-wide legal framework to govern data collection, use and sharing and related consumer privacy rights. In December 2015, the EU Parliament and the EU Council reached informal agreement on the text of the GDPR, and in April 2016 both the EU Council and the EU Parliament adopted the GDPR, which will go into effect May 25, 2018. The GDPR will replace the Directive and, because it is a regulation rather than a directive, will directly apply to and bind the 28 EU Member States. Compared to the Directive, GDPR may result in greater compliance obligations, including the implementation of a number of processes and policies around our data collection and use. These and other terms of the GDPR could limit our ability to provide services and information to our customers. In addition, the GDPR includes significant new penalties for non-compliance, with fines up to the higher of €20 million (\$23 million as of June 30, 2017) or 4% of total annual worldwide revenue. Further, the European Union has also released a draft of the proposed reforms to the ePrivacy Directive that governs the use of technologies to collect consumer information. In general, GDPR, and other local privacy laws, could also lead to adaptation of our technologies or practices to satisfy local privacy requirements and standards that may be more stringent than in the U.S.

In addition, in 2016, the EU-US Safe Harbor program ("Safe Harbor") was held to be invalid. Safe Harbor provided a valid legal basis for transfers of personal data from Europe Union to the United States. While we have other legally recognized mechanisms in place that we believe allow for the transfer of customer and employee data from the European Union to the United States, these mechanisms are also being challenged. Further, some of these mechanisms are set to be updated and changed under GDPR. These changes may include new legal requirements that could have an impact on how we move data from the European Union to entities outside the European Union, including to our affiliates or vendors.

There is also rapid development of new privacy laws and regulations in the Asia Pacific region and elsewhere around the globe, including amendments of existing data protection laws to the scope of such laws and penalties for noncompliance. Failure to comply with these international data protection laws and regulations could have a negative impact on our reputation and subject us to significant penalties.

While 48 states and the District of Columbia have enacted data breach notification laws, there is no such federal law generally applicable to our businesses. Data breach notification legislation has been proposed widely and exists in specific countries and jurisdictions in which we conduct business. If enacted, these legislative measures could impose strict requirements on reporting time frames for providing notice, as well as the contents of such notices.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table presents information with respect to purchases of our common stock made during the three months ended June 30, 2017:

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (2) (Dollars in millions)
During 2017:				
April 1-30	237,945	\$ 169.19	(3) 235,748	\$ 45.3
May 1-31	136,537	241.85	132,300	13.3
June 1-30	57,935	239.54	55,500	0.1
Total	432,417	\$ 201.56	(3) 423,548	\$ 0.1

- (1) During the period represented by the table, 8,869 shares of our common stock were purchased by the administrator of our 401(k) and Retirement Savings Plan for the benefit of the employees who participated in that portion of the plan.
- (2) On January 1, 2017, our Board of Directors authorized a stock repurchase program to acquire up to \$500.0 million of our outstanding common stock from January 1, 2017 through December 31, 2017. On July 25, 2017, our Board of Directors authorized an increase to the stock repurchase program originally approved on January 1, 2017 to acquire an additional \$500.0 million of our outstanding common stock through July 31, 2018, for a total authorization of \$1.0 billion. Both authorizations are subject to any restrictions pursuant to the terms of our credit agreements, indentures, and applicable securities laws or otherwise.
- (3) Includes the final settlement of 72,648 shares acquired pursuant to the ASR Agreement for which there was no additional consideration paid, which reduced the average price paid per share. See Note 11, "Stockholders' Equity," of the Notes to Unaudited Condensed Consolidated Financial Statements for additional information related to the ASR Agreement.
