Notes to Consolidated Condensed Financial Statements

(unaudited)

(1) In our opinion, the accompanying unaudited consolidated condensed financial statements contain all adjustments (consisting of only normal recurring adjustments, except as noted elsewhere in the notes to the consolidated condensed financial statements) necessary to present fairly our financial position as of August 31, 2002, and the results of our operations and cash flows for the interim periods presented. These statements are condensed and, therefore, do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The statements should be read in conjunction with the consolidated financial statements and footnotes included in our Annual Report on Form 10-K for the year ended March 2, 2002. The results of operations for the three and six months ended August 31, 2002, are not necessarily indicative of the results to be expected for the full year.

(2) New accounting pronouncements

Statement of Financial Accounting Standards No. 142 (SFAS 142), Goodwill and Other Intangible Assets

We adopted SFAS 142, Goodwill and Other Intangible Assets, on March 3, 2002. Under SFAS 142, goodwill and other intangible assets that have indefinite lives will no longer be amortized, but rather will be tested for impairment at least annually in accordance with the provisions of the standard. See Note 6 for further information on the adoption of SFAS 142.

SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets

We adopted SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets, on March 3, 2002. SFAS 144, which supersedes SFAS 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of, provides guidance on the accounting for and reporting of the impairment of long-lived assets. Although SFAS 144 retains many of the fundamental recognition and measurement provisions of SFAS 121, it also establishes certain criteria that would have to be met in order to classify an asset as held-for-sale. With the exception of a certain key provision on classification, SFAS 144 also supersedes Accounting Principles Board (APB) No. 30,

Reporting the Results of Operations-Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions. The adoption of SFAS 144 did not impact our consolidated financial statements.

SFAS 146, Accounting for Costs Associated with Exit or Disposal Activities

Edgar Filing: INTERNATIONAL MULTIFOODS CORP - Form 10-Q

In June 2002, the FASB issued SFAS 146, Accounting for Costs Associated with Exit or Disposal Activities. The standard requires that a liability for a cost associated with an exit or disposal activity be recognized and measured initially at fair value when the liability is incurred. The provisions of the standard are effective for exit or disposal activities initiated after December 31, 2002. We anticipate that the adoption of SFAS No. 146 will not have a significant effect on our results of operations.

Emerging Issues Task Force (EITF) No. 01-9, Accounting for Consideration Given by a Vendor to a Customer or a Reseller of the Vendor's Products

We adopted Emerging Issues Task Force (EITF) No. 01-9, Accounting for Consideration Given by a Vendor to a Customer or a Reseller of the Vendor's Products on March 3, 2002. The purpose of the EITF is to codify and reconcile the consensus reached on accounting for consideration paid from a vendor to a retailer, including slotting fees, cooperative advertising arrangements and buy-downs. The EITF also addresses accounting for coupons. The guidance generally requires that these incentives be classified as a reduction of sales. In addition, EITF 01-9 requires reclassification of prior-period financial statements to comply with its guidance. As a result, we reclassified \$2.3 million and \$4.1 million, respectively, of promotional expenses to reduction of net sales for the three months and six months ended September 1, 2001. The reclassification had no impact on our reported earnings.

(3) Discontinued operations

On July 29, 2002, we entered into an agreement to sell our foodservice distribution business to Wellspring Distribution Corp. In accordance with SFAS 144, we have reported the results of operations of the business in discontinued operations.

On September 9, 2002, we completed the sale of our foodservice distribution business for \$166 million in cash. We recorded a net after-tax loss on the disposition of \$25.9 million. We used the proceeds from the sale along with available cash balances to repay \$179 million of term notes.

We continue to guarantee certain real estate, information system and tractor/trailer lease obligations of the foodservice distribution business. See Note 11 for further information.

The following are the operating results of the discontinued operations:

(in thousands)	Three Months Ended		Six Months Ended	
	Aug. 31, 2002	Sept. 1, 2001	Aug. 31, 2002	Sept. 1, 2001
Net sales	\$ 542,440	\$ 561,691	\$ 1,111,678	\$ 1,113,541
Earnings (loss) before tax	(8,977)	1,668	(6,401)	3,857
Earnings (loss) after tax	(6,468)	995	(4,870)	2,302

We allocated interest expense to discontinued operations based on net assets that were specifically identifiable to the operation. The operating results of the business in fiscal 2003 included a \$6.3 million pre-tax loss from the curtailment and settlement of pension obligations, which resulted from the sale of the business. In addition, we recorded a \$3.7 million pre-tax charge in fiscal 2003 primarily for severance costs.

We also recorded an after-tax loss of \$41.3 million for the cumulative effect of change in accounting principle due to goodwill impairment. The charge was recognized in the first quarter of fiscal 2003. See Note 6 for further information.

Edgar Filing: INTERNATIONAL MULTIFOODS CORP - Form 10-Q

The current and noncurrent assets and liabilities of the foodservice distribution business as of August 31, 2002, and March 2, 2002, are as follows:

Current liabilities of discontinued operations	\$ 132,805	\$ 143,111

(4) Acquisition

On November 13, 2001, we acquired the Pillsbury dessert and specialty products business, the Pillsbury non-custom foodservice baking mix and frosting products business, and certain regional flour and side-dish brands of General Mills (the Acquisition). The cash purchase price for the Acquisition paid at closing was \$304.5 million. The transaction was accounted for under the purchase method in accordance with SFAS 141, Business Combinations.

Assuming the Acquisition had occurred on March 3, 2001, the unaudited pro

forma results of operations are as follows:

	Three Months Ended	Six Months Ended
(in thousands, except per share amounts)	Sept. 1, 2001	Sept. 1, 2001

Basic earnings per share from continuing operations	0.47	0.89
Diluted earnings per share from continuing operations	0.46	0.88

(4) Acquisition

Edgar Filing: INTERNATIONAL MULTIFOODS CORP - Form 10-Q

The pro forma results of operations are based on our historical financial statements and those of the acquired businesses. We believe that costs under our ownership, including marketing and product development, will exceed those included in the historical financial statements of the acquired businesses. Accordingly, the pro forma results do not purport to represent what our results of operations would have been had the Acquisition occurred on March 3, 2001.

(5) **Comprehensive income (loss)** The components of total comprehensive income (loss) were as follows:

(in thousands)	Three Months Ended		Six Months Ended

Comprehensive income (loss)	\$ (30,563)	\$ 2,142	\$ (63,305)	\$ 4,720

(6) **Goodwill and other intangible assets** As discussed in Note 2, we adopted SFAS 142, Goodwill and Other Intangible Assets on March 3, 2002. Under SFAS 142, goodwill and other intangible assets that have indefinite lives will no longer be amortized, but rather will be tested for impairment at least annually in accordance with the provisions of the standard.

The test for goodwill impairment is a two-step process. The first step is a comparison of the fair value of the reporting unit (as defined) with its carrying amount, including goodwill. If this step reflects impairment, then the loss would be measured as the excess of recorded goodwill over its implied fair value. Implied fair value is the excess of fair value of the reporting unit over the fair value of all identified assets and liabilities.

In the first quarter of fiscal 2003, we completed the initial testing of our existing goodwill and other intangible assets that have indefinite lives. Based on valuations provided by an independent third-party using primarily discounted cash flows, we determined that all the goodwill associated with our Multifoods Distribution Group (MDG) business was impaired. As a result, we recorded a \$65.1 million (\$41.3 million after tax) goodwill impairment charge in the first quarter of fiscal 2003. We classified the impairment charge as a cumulative effect of change in accounting principle in the consolidated statement of operations. On July 29, 2002, we entered into an agreement to sell MDG. In accordance with SFAS 144, we have reported the results of operations of MDG in discontinued operations, including the impairment charge. No other impairment charges resulted from the required impairment evaluations on the rest of the reporting units, which were determined using discounted cash flow analyses. The assumptions used in these analyses were consistent with our internal plans.

The changes in the carrying amount of goodwill by segment for the six months ended August 31, 2002, are as follows:

(10) Segment information

We manage the company through three operating segments: U.S. Consumer Products, U.S. Foodservice Products and Canadian Foods. Our organizational structure is the basis for reporting business results to management and the segment data presented in this Note. We formed the U.S. Consumer Products business in fiscal 2002 as a result of our acquisition of certain retail brands from Pillsbury and General Mills.

(11) Contingencies In fiscal 1998, we were notified that approximately \$6 million of our inventory was stolen from a ship in the port of St. Petersburg, Russia. The ship had been chartered by a major customer of our former food-exporting business. We believe, based on the facts known to date, that the loss is covered by insurance. However, following submission of a claim for indemnity, the insurance carrier denied our claim for coverage, and we commenced a lawsuit seeking to obtain coverage under the insurance carrier's policy. In October 2001, the U.S. District Court of the Southern District of New York granted us summary judgment on our claim and awarded us interest to the date of judgment. In November 2001, the insurance carrier appealed the judgment to the U.S. Court of Appeals for the Second Circuit. Although we will continue

Edgar Filing: INTERNATIONAL MULTIFOODS CORP - Form 10-Q

to vigorously assert our claim in the litigation, the interest awarded by the U.S. District Court will not be recognized as income until collection is assured.

On September 9, 2002, we completed the sale of our foodservice distribution business to Wellspring Distribution Corp. We continue to guaranty certain real estate, information system and tractor/trailer fleet lease obligations of our former business. However, at the time of the sale of the business, we renegotiated our guaranty of the business's fleet lease obligations. The guaranty now requires the lessor to pursue collection and other remedies against our former subsidiaries before demanding payment from us. In addition, our guarantee obligation is limited to 75% of the amount outstanding after the

lessor has exhausted its remedies against our former subsidiaries. This reduces our risk under the fleet lease guaranty. In addition, while the initial guaranty was not limited by time, the fleet lease guaranty will now expire in September 2006.

The outstanding guaranties for the lease obligations of our former subsidiaries are as follows:

(in millions)	Gross amount		Net present value @ 7%	
Tractor/trailer	\$	28.8	\$	24.0
Real estate		17.3		13.7
Information systems		0.8		0.7
Total	\$	46.9	\$	38.4

If Wellspring Distribution Corp. was unable to meet its obligations that we have guaranteed, any loss would be reduced by the amount generated from the liquidation of the tractor/trailer fleet and income from the sub-lease of real estate space.

The possibility of the Company having to honor our contingent liabilities under the guaranties is largely dependent upon the future operations of our former subsidiaries and the value of the underlying leased properties. Should a reserve be required in the future, it would be recorded at the time the obligation was determined to be probable.

(12) Subsequent event

In September 2002, we used the proceeds from the sale of our foodservice distribution business along with available cash balances to repay \$179 million of term notes. As a result of the debt repayment, we will recognize a non-cash pre-tax loss of approximately \$4.5 million in our third quarter results ended November 30, 2002.

INTERNATIONAL MULTIFOODS CORPORATION AND SUBSIDIARIES

Management's Discussion and Analysis of Results of

Operations and Financial Condition

OVERVIEW

International Multifoods is a North American producer of branded consumer foods and foodservice products, including baking mixes, frozen bakery products, flour, ready-to-spread frostings, condiments, potato and pancake mix offerings. We manage the company through three operating segments: U.S. Consumer Products, U.S. Foodservice Products and Canadian Foods.

In July 2002, we announced we had entered into an agreement to sell our foodservice distribution business to Wellspring Distribution Corp. We completed the sale on September 9, 2002, for \$166 million in cash. The foodservice distribution business is classified as discontinued operations in the consolidated financial statements and in the following management discussion and analysis.

In November 2001, we completed our acquisition of the Pillsbury desserts and specialty products business, the Pillsbury non-custom foodservice baking mix and frosting products business, and certain regional flour and side-dish brands of General Mills. The acquisition makes International Multifoods a leading marketer of U.S. consumer baking products and enhances our existing U.S. foodservice manufacturing business.

Results of Operations

Continuing Operations

Earnings from continuing operations were \$4.4 million, or 22 cents per diluted share, in the second quarter ended August 31, 2002, compared with earnings of \$1.8 million, or 9 cents per share, in the same period last year. The increase in earnings primarily reflects the contribution from the Pillsbury and General Mills businesses that we acquired in November 2001. The increase was partially offset by higher interest expense, which resulted from the debt we incurred to pay for the acquisition.

For the six months ended August 31, 2002, earnings from continuing operations were \$7.7 million, or 39 cents per diluted share, compared with earnings of \$2.6 million, or 14 cents per share, a year ago.

Segment Results

U.S. Consumer Products: This business segment was formed last year as a result of our acquisition of certain retail brands of The Pillsbury Company and General Mills. The operating results of the acquired brands have been included in our results since the date of acquisition.

Second quarter net sales were \$79.9 million. On a comparable pro forma basis, as if we owned the retail brands in last year's second quarter, unit volume declined about 5%. The decline in comparable unit volume was driven by difficult comparisons a year ago and competitive pressures in the U.S. retail baking category. For the six months ended August 31, 2002, comparable unit volume increased approximately 4% on more effective merchandising, success in emerging channels and brand-building initiatives.

U.S. Foodservice Products: Net sales increased 10% to \$58.3 million, which reflects the incremental contribution from the Pillsbury foodservice brands that we acquired last year. We also had unit volume growth in our ready-to-bake and

thaw-and-serve products. Bakery mix products, however, experienced a decline in unit volume as a result of competitive pressures in a soft foodservice environment.

Operating earnings of \$1.4 million were even with last year. The earnings contribution from the acquired Pillsbury brands was offset by competitive pressures and higher costs, principally for sugar and restructuring of the foodservice sales force.

Net sales for the six-month period ended August 31, 2002, increased 11% to \$116.6 million, compared with \$105.4 million a year ago. The increase in sales was essentially due to the same factors discussed for the second quarter. Operating earnings of \$3 million were even with a year ago. In addition to the factors described in the discussion of the second quarter, operating earnings in the six-month period were impacted by a loss on an advance to a supplier that filed for bankruptcy.

Canadian Foods: Net sales increased 6% to \$71.9 million. We had unit volume growth in consumer condiments, commercial mixes and export products. Consumer condiment unit volumes benefited from a new product offering last year. The increase in sales was also due to higher prices on grain-based products sold to commercial customers, which resulted from increased commodity costs.

Operating earnings declined to \$5.3 million, compared with \$5.8 million last year. The earnings decline was driven by higher condiments costs, which included increased marketing costs associated with the national roll-out of a new product offering. Operating earnings were also impacted by an unfavorable grain-based sales mix.

Net sales for the six-month period ended August 31, 2002, increased 8% to \$138 million, compared with \$128 million a year ago. Sales increased on unit volume growth in consumer condiments, commercial flour and export products. The increase was also due to higher prices in grain-based products sold to commercial customers. Operating earnings declined 6% to \$9.1 million, compared with \$9.7 million last year. The decline was primarily the result of higher condiments costs, which includes the impact of inefficiencies in manufacturing costs associated with a facility consolidation project that took place last year.

Corporate: Corporate expenses in the second quarter were \$3.7 million, compared with \$2.9 million last year. The increase was primarily the result of increased incentive costs along with higher staff costs to support the acquired businesses.

Non-operating Expense and Income

Net interest expense in the second quarter was \$6.3 million, compared with \$1.3 million last year. The significant increase was primarily due to the debt we incurred in November 2001 to finance the acquisition of the Pillsbury and General Mills businesses.

Discontinued Operations

Our discontinued foodservice distribution business had a pre-tax operating loss of \$9 million (\$6.5 million after tax) in the second quarter of fiscal 2003. Operating results included a \$6.3 million pre-tax loss from the curtailment and settlement of pension obligations, which resulted from the sale of the business. In addition, we recorded a \$3.7 million pre-tax charge primarily for severance costs.

We also recorded a net after-tax loss of \$25.9 million in the second quarter for the disposition of the business. On September 9, 2002, we completed the sale of our foodservice distribution business for \$166 million in cash.

As a result of our adoption of Statement of Accounting Standards No. 142 (SFAS 142), *Goodwill and other Intangible Assets*, we recorded a cumulative effect of a change in accounting principle of \$41.3 million to write off the goodwill associated with Multifoods Distribution Group. See additional discussion in Note 6 to the consolidated condensed financial statements.

Financial Condition

Our major sources of liquidity are cash flows from operations and borrowings from our \$100 million revolving credit facility. As of August 31, 2002, we had \$89 million available under the revolving credit facility.

We believe that cash flows from operations, current cash on hand and borrowings from our existing revolving credit facility will be sufficient to meet our operating requirements and debt service obligations for the foreseeable future.

The debt-to-total-capitalization ratio increased to 71% at August 31, 2002, compared with 66% at March 2, 2002. The increase was primarily the result of a decline in shareholders' equity, which was caused by the loss we recognized from discontinued operations.

Cash provided by continuing operations was \$18.3 million for the first six months of fiscal 2003, compared with cash used of \$19.8 million in the prior-year six-month period. Operating cash flows in the current period exceeded the prior year as a result of favorable working capital movements, higher earnings from continuing operations and payments received from an escrow account established as part of the acquisition.

In September 2002, we used the proceeds from the sale of our foodservice distribution business and available cash balances to repay \$179 million of term notes. We repaid all our Term A notes and \$53 million of our Term B notes. As a result of the repayment, we will recognize a non-cash pre-tax loss of approximately \$4.5 million in our third-quarter results ended November 30, 2002. If our \$179 million repayment had been made as of August 31, 2002, our debt-to-total-capitalization ratio at that date would have been 62%.

Cautionary Statement Relevant to Forward-Looking Information

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on current expectations or beliefs, including, but not limited to, statements concerning our operations and financial performance and condition. For this purpose, statements that are not statements of historical fact may be deemed to be forward-looking statements. We caution that these statements by their nature involve risks and uncertainties, and actual results may differ materially depending on a variety of important factors, including, among others, successful completion of the integration of the acquired businesses; reliance on General Mills, Inc., to provide material transition and co-pack services to our U.S. Consumer Products division, including the conversion of the General Mills Toledo plant for our use; the impact of competitive products and pricing; changes in consumer preferences and tastes or perceptions of health-related issues; effectiveness of advertising or market-spending programs; market or weather conditions that may affect the costs of grain, other raw materials, fuel and labor; changes in laws and regulations; fluctuations in interest rates; the inability to collect on a \$6 million insurance claim related to the theft of product in St. Petersburg, Russia; collection is sought under our guaranties of lease obligations of our former Multifoods Distribution Group subsidiaries; fluctuations in foreign exchange rates; risks commonly encountered in international trade; and other factors as may be discussed in our reports filed with the Securities and Exchange Commission.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures. The term "disclosure controls and procedures" is defined in Rules 13a-14(c) and 15d-14(c) of the Securities and Exchange Act of 1934 ("Exchange Act"). These rules refer to the controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within required time periods. Our chief executive officer and our chief financial officer have evaluated the effectiveness of the Company's disclosure controls and procedures as of a date within 90 days before the filing of this quarterly report (the "Evaluation Date"), and, they have concluded that, as of the Evaluation Date, such controls and procedures were effective at ensuring that required information will be disclosed on a timely basis in our reports filed under the Exchange Act.

(b) Changes in internal controls. We maintain a system of internal accounting controls that are designed to provide reasonable assurance that our books and records accurately reflect our transactions and that our established policies and procedures are carefully followed. For the quarter ended August 31, 2002, there were no significant changes to our internal controls or in other factors that could significantly affect our internal controls, and we have not identified any significant deficiencies or material weaknesses in our internal controls.
