PROSPECTUS SUPPLEMENT NO. 4

31,179,092 Shares of Common Stock

of

GEORGIA GULF CORPORATION

This prospectus supplement no. 4 supplements and amends the prospectus dated October 29, 2009, previously supplemented on November 9, 2009, December 22, 2009 and January 21, 2010, which constitutes part of our registration statement on Form S-1 (No. 333-161770) relating to up to 31,179,092 shares of our common stock that may be offered for sale by the stockholders named in the prospectus. This prospectus supplement includes our attached current report on Form 8-K, which was filed with the Securities and Exchange Commission on February 18, 2010.

This prospectus supplement should be read in conjunction with the prospectus, as supplemented to date, which is to be delivered with this prospectus supplement. This prospectus supplement is qualified by reference to the prospectus, as supplemented to date, except to the extent that the information in this prospectus supplement updates and supersedes the information contained in the prospectus, including any supplements or amendments thereto.

This prospectus supplement is not complete without, and may not be delivered or utilized except in connection with, the prospectus, including any supplements and amendments thereto.

Investing in our common stock involves a high degree of risk. We urge you to carefully read the Risk Factors section beginning on page 3 of the prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus supplement is February 18, 2010.

NEWS

Georgia Gulf Reports 2009 Financial Results

ATLANTA, GEORGIA February 17, 2010 Georgia Gulf Corporation (NYSE: GGC) today announced financial results for its fourth quarter and year ended December 31, 2009.

Georgia Gulf reported a net loss of \$129.7 million for the fourth quarter of 2009, compared to a net loss of \$198.7 million during the same quarter in the previous year. For the full year 2009, Georgia Gulf recorded net income of \$145.8 million, compared to a net loss of \$257.6 million in the prior year.

The Company reported an operating loss of \$18.6 million for the fourth quarter of 2009, compared to an operating loss of \$172.7 million during the same quarter in the previous year. Georgia Gulf reported an operating loss of \$0.6 million for the full year 2009, compared to an operating loss of \$140.2 million during the previous year.

Georgia Gulf's reported financial results for the fourth quarter of 2009 and full year 2009 reflect the impact of the following events: the substantial modification of debt that occurred in the first quarter of 2009, the refinancing of the senior secured credit facility in the fourth quarter of 2009, a gain resulting from the debt for equity exchange in the third quarter of 2009, and long lived impairments, restructuring costs, and fees related to operational and financial restructuring activities in all periods. Excluding these items, Georgia Gulf reported adjusted EBITDA of \$161.5 million for 2009, compared to adjusted EBITDA of \$163.1 million in 2008. The Company also reported adjusted EBITDA of \$18.3 million for the fourth quarter of 2009, compared to \$23.2 million of adjusted EBITDA for the same quarter last year. A reconciliation of operating loss determined in accordance with GAAP to adjusted EBITDA is provided in the financial tables at the end of this release.

In 2009, we achieved significant milestones for restructuring our capital structure by completing a debt for equity exchange and a refinancing of our secured debt. I want to thank our employees for their dedication and fortitude in the face of the worst market downturn our Company has ever experienced, said Paul Carrico, Georgia Gulf's President and CEO. With a long-term capital structure in place and encouraging signs in our building products business, we are well positioned to grow as our markets recover, Mr. Carrico added.

Georgia Gulf reported net sales of \$502.1 million for the fourth quarter of 2009 compared to net sales of \$535.6 million for the fourth quarter of 2008. The decrease in sales is primarily due to lower sales prices, partially offset by higher volumes in all segments except aromatics. For the year ended December 31, 2009, Georgia Gulf's sales were \$2.0 billion, compared to \$2.9 billion during 2008. The decrease in sales is primarily due to lower prices resulting from lower feedstock and energy costs and lower volumes, particularly in aromatics.

Chlorovinyls

In the Chlorovinyls segment, fourth quarter 2009 sales decreased to \$237.7 million from \$271.5 million during the fourth quarter of 2008 driven by lower sales prices. The segment posted operating income of \$4.0 million in the fourth quarter of 2009 compared to an operating loss of \$4.5 million during the same quarter in the prior year. The increase in operating income was primarily due to restructuring and impairment charges of \$54.0 million in the fourth quarter of 2008, partially offset by lower ECU values in 2009.

Window & Door Profiles and Mouldings

In the Window & Door Profiles and Mouldings segment, sales were \$82.0 million for the fourth quarter of 2009, compared to \$80.8 million during the same quarter in the prior year. Sales on a constant currency basis declined 4 percent compared to the fourth quarter of 2008. The decrease in sales on a constant currency basis reflects difficult conditions in the U.S. housing and construction markets, particularly related to new home construction. The segment's operating loss was \$2.2 million for the fourth quarter of 2009, compared to an operating loss of \$121.5 million during the same quarter in the prior year. The reduction in operating losses is primarily the result of non-cash charges of \$111.0 million related to impairment of goodwill and intangibles taken in the fourth quarter of 2008, as well as cost reductions.

Outdoor Building Products

In the Outdoor Building Products segment, sales were \$89.0 million for the fourth quarter of 2009, compared to \$80.6 million during the same quarter in the prior year. Sales on a constant currency basis increased about 1 percent compared to the same quarter in 2008. The increase in sales on a constant currency basis reflects improved Canadian market conditions, partially offset by the difficult conditions in U.S. housing and construction markets. The segment reported operating income of \$0.8 million for the fourth quarter of 2009, compared to an operating loss of \$12.6 million during the same quarter in the prior year. The increase in operating income is primarily related to \$4.4 million of restructuring and impairment charges taken in the fourth quarter of 2008 and cost reductions.

Aromatics

In the Aromatics segment, sales decreased to \$93.3 million for the fourth quarter of 2009 from \$102.7 million during the fourth quarter of 2008. Sales decreased due to lower volumes and prices. During the fourth quarter of 2009, the segment recorded an operating loss of \$0.8 million, compared to an operating loss of \$27.6 million during the same quarter in 2008. The decrease in operating loss was driven by stronger margins resulting from raw material inventory holding gains compared to the significant inventory holding losses created by the significant decrease in benzene and propylene prices in the fourth quarter of last year. The decrease in the operating loss for the fourth quarter of 2009 compared to the fourth quarter of 2008 was also due to cost reductions, partially offset by lower volumes than the same quarter last year.

Liquidity and Debt Reduction

Edgar Filing: GEORGIA GULF CORP /DE/ - Form 424B3

As of December 31, 2009, the Company had \$38.8 million of cash on hand as well as \$134.5 million of borrowing capacity available under its asset based loan facility. The Company reduced total long-term debt by \$655.1 million during 2009 primarily due to the debt for equity exchange completed in the third quarter. In the fourth quarter of 2009, the Company completed a refinancing of its senior secured credit agreement and asset securitization facility through the

issuance of a new \$500 million aggregate principal amount of secured notes due in 2017 and a new asset based loan facility.

Conference Call

The Company will discuss fourth quarter financial results and business developments via conference call and webcast on Thursday, February 18 at 10:00 a.m. ET. To access the Company's fourth quarter conference call, please dial 888-552-7928 (domestic) or 706-679-6164 (international). To access the conference call via Webcast, log on to <http://phx.corporate-ir.net/phoenix.zhtml?p=irol-eventDetails&c=112207&eventID=2739500>. Playback will be available from 11:00 AM ET Thursday, February 18, to midnight ET Thursday, February 25. Playback numbers are 800-642-1687 (domestic) or 706-645-9291 (international). The conference call ID number is 56505752.

Georgia Gulf

Georgia Gulf Corporation is a leading, integrated North American manufacturer of two chemical lines, chlorovinyls and aromatics, and manufactures vinyl-based building and home improvement products. The Company's vinyl-based building and home improvement products, marketed under Royal Group brands, include window and door profiles, mouldings, siding, pipe and pipe fittings, and deck, fence and rail products. Georgia Gulf, headquartered in Atlanta, Georgia, has manufacturing facilities located throughout North America to provide industry-leading service to customers.

Safe Harbor

This news release contains forward-looking statements subject to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on management's assumptions regarding business conditions, and actual results may be materially different. Risks and uncertainties inherent in these assumptions include, but are not limited to, future global economic conditions, economic conditions in the industries to which our products are sold, uncertainties regarding asset sales, operating efficiencies and competitive conditions, industry production capacity, raw materials and energy costs, and other factors discussed in the Securities and Exchange Commission filings of Georgia Gulf Corporation, including our annual report on Form 10-K for the year ended December 31, 2008 and our quarterly report on Form 10-Q for the quarter ended September 30, 2009.

Use of Non-GAAP Measures

Adjusted EBITDA

Georgia Gulf supplements its earnings release with Adjusted EBITDA (Earnings Before Interest, Taxes, Depreciation, and Amortization, restructuring and goodwill, intangibles, and other long-lived asset impairment and Gains and Losses on significant asset disposals and other) because investors and management commonly use Adjusted EBITDA to measure the Company's ability to service its indebtedness. Adjusted EBITDA is not a measurement of financial performance under GAAP and should not be considered as an alternative to net income as a measure

Edgar Filing: GEORGIA GULF CORP /DE/ - Form 424B3

of performance or to cash provided by operating activities as a measure of liquidity. In addition, our calculation of Adjusted EBITDA may be different from the calculation used by other companies and, therefore, comparability may be limited.

A reconciliation of operating loss determined in accordance with GAAP to Adjusted EBITDA is included in this release.
