Item 5.02(e) Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

Following the merger of Towers, Perrin, Forster & Crosby, Inc. (Towers Perrin) and Watson Wyatt Worldwide, Inc. (Watson Wyatt) (the Merger), the Company s newly constituted Compensation Committee (the Committee) determined that compensation for the six-month period from January 1, 2010, the effective date of the Merger, through June 30, 2010, the end of the fiscal year, should be treated as transitional, in large part maintaining Watson Wyatt compensation programs for executives who had worked for that company prior to the Merger and maintaining Towers Perrin compensation programs for executives who had worked for it prior to the Merger. This approach reflected the Committee s determination that it was necessary first to focus on integrating the management, operations and business plan of the two companies before implementing an integrated and comprehensive executive compensation structure, as well as the fact that prior to the Merger the two companies had different fiscal years and thus different compensation cycles.

On August 27, 2010, the Committee approved a number of compensation programs, which are consistent with the compensation programs adopted for Company associates, relating to the named executive officers. As part of the new compensation framework, executive officer annual base salaries were established and target bonus amounts for executive officers were set under the Company s Incentive Compensation Plan (formerly the Watson Wyatt Incentive Compensation Plan) at 125% of salary for the chairman and chief executive officer, 100% of salary for the president and chief operating officer and at either 60% or 80% of salary for other executive officers. Actual bonuses are determined discretionarily after the end of the fiscal year based on achievement of individual, business segment/function and/or overall Company results for the most recently completed fiscal year.

Also, on August 27, 2010, the Committee and the Boards of Towers Watson Delaware Inc. (formerly Watson Wyatt & Company) and Towers Watson Pennsylvania Inc. (formerly Towers Perrin) approved a new stable value pension design for qualified and non-qualified pension plans maintained for U.S. associates, including U.S. named executive officers. Effective December 31, 2011, benefit accruals will be frozen under the current benefit terms of the Towers Perrin Retirement Plan for U.S. Employees, the Watson Wyatt & Company Pension Plan for U.S. Employees, the Towers Perrin Retirement Income Restoration Plan, and the Excess Benefit Plan of Watson Wyatt & Company and Excess Compensation Plan of Watson Wyatt & Company, and benefits will accrue under the stable value pension design for service rendered on or after January 1, 2012. Under the stable value plan design, the qualified and supplemental non-qualified plans will provide each eligible participant, at age 65, with a lump sum benefit equal to 15% of each covered year s pay up to the Social Security wage base, and 20% of each covered year s pay in excess of the wage base (including under the supplemental non-qualified benefit, pay in excess of limits for qualified plan benefits under the Internal Revenue Code), with pay for these purposes consisting of salary, bonus when paid and, for non-executives, any overtime. Benefits will not be capped based on years of service. The lump sum will be reduced for commencement prior to age 62. The Committee and the Board of Towers Watson Delaware Inc. also on August 27, 2010, froze contributions under the Watson Wyatt Deferred Savings Plan, a non-qualified supplemental savings plan, effective immediately following the date that contributions are made with respect to the 2011 plan year.
