Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

On December 9, 2010 our Compensation Committee approved a long-term incentive program in which our Named Executive Officers, will participate (the LTIP). The LTIP provides for equity compensation awards in the form of options to acquire our common stock, restricted stock units and performance units. The Compensation Committee anticipates that the allocation of those awards in 2011 will be 40% options, 40% performance units and 20% restricted stock units. Options and restricted stock units granted in 2011 are expected to vest in equal installments over 3 years, or 33-1/3% per year. In addition, with regard to performance units, an executive may receive a range between 0% and 150% of the targeted award based on the Company's performance over a period of one year. The following two financial metrics will be used and each will be given equal weight: revenue growth rate and return on invested capital, in each case as measured against targets to be approved by the Compensation Committee. Shares of our common stock issued pursuant to performance units will be issued approximately three years after the initial grant date (two years after the performance period) and are contingent on the executive's continued employment with Iron Mountain. The Compensation Committee expects to make equity compensation awards based on the new program in March, 2011.

Pursuant to our non-equity incentive compensation program, our Named Executive Officers may receive bonuses ranging from 0% to 100% of their base salary, depending upon their respective positions. On December 9, 2010, our Compensation Committee also approved an amendment to this program whereby an employee may receive up to 125% of their target bonus based upon the Company's performance against targeted financial goals, the executive's performance rating and personal performance against stated corporate goals of such executive.
