Report of Independent Registered Public Accounting Firm

To the Participants and the Advisory Committee of the

DST Systems, Inc. 401(k) Profit Sharing Plan:

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the DST Systems, Inc. 401(k) Profit Sharing Plan (the Plan) at December 31, 2010 and 2009, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held At End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DST Systems, Inc. 401(k) Profit Sharing Plan

Statement of Changes in Net Assets Available for Benefits

1. Description of the Plan

The DST Systems, Inc. 401(k) Profit Sharing Plan (the Plan) is a contributory, defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

Argus Health Systems, Inc. (Argus) became a wholly-owned subsidiary of DST Systems, Inc. on March 31, 2009. The Plan was subsequently amended to allow employees of Argus to participate in the Plan as of January 1, 2010. On March 16, 2010, the net assets of the Argus Health Systems, Inc. 401(k) Savings Plan were merged into the Plan. The net assets transferred into the Plan were \$23,228,053.

Sponsor

The Plan Sponsor is DST Systems, Inc. (DST, the Employer or the Sponsor). Certain of its subsidiaries and affiliates participate in the Plan.

Trustee and Investment Manager

The trustee of the Plan is Marshall & Ilsley Trust Company N.A. (the Trustee). The Trustee holds and administers all assets of the Plan in accordance with the provisions of the Plan agreement. Two of the Plan's investments (the Marshall Money Market Fund and the Marshall & Ilsley Collateral Pool) are managed by an affiliate of the Trustee. Transactions related to these investments, therefore, qualify as party-in-interest transactions.

A portion of the Plan's assets are invested in the DST Systems, Inc. Master Trust (Master Trust). The investment manager of the Master Trust is Ruane, Cunniff, Goldfarb & Co., Inc. (the Investment Manager). For the years ended December 31, 2010 and 2009, the Sponsor incurred management fees and expenses to the Investment Manager of \$4,435,575 and \$3,895,619, respectively.

Administration of the Plan

Edgar Filing: DST SYSTEMS INC - Form 11-K

An advisory committee (the Advisory Committee), which consists of members who are selected by the Board of Directors of DST, has full power, authority and responsibility to control and manage the operations and administration of the Plan. Certain administrative expenses are paid by the Sponsor. All other administrative expenses are paid by plan assets.

Eligibility

All employees of the Sponsor and participating subsidiaries and affiliates are eligible to participate in the Plan other than members of a collective bargaining unit, leased employees, nonresident aliens, and persons performing services for the Sponsor through an agreement with a third-party. The Plan entry date is the first day of the calendar month following the date an employee, other than a seasonal or temporary employee, completes one hour of service. Seasonal and temporary employees must complete one year of service, as defined in the Plan agreement, prior to entering the Plan.

Contributions

Participant contributions are made through participant salary withholdings and rollovers from other eligible retirement plans. Participants can contribute from 1% to 25% of their annual eligible compensation to the Plan, subject to Internal Revenue Service limitations (highly compensated employees are subject to a lower limitation). Beginning in 2002, participants aged 50 or older may make additional contributions or catch-up contributions (subject to Internal Revenue Service limitation) once they have satisfied the annual contribution maximum as set by law or other applicable limitation.

Table of Contents

DST Systems, Inc. 401(k) Profit Sharing Plan

Statement of Changes in Net Assets Available for Benefits

Sponsor contributions consist of a dollar-for-dollar match up to 3% of the eligible wages as per the plan agreement. During the years ended December 31, 2010 and 2009, Sponsor matching contributions were \$12,029,489 and \$11,788,204, respectively.

In addition, the Sponsor may make discretionary profit sharing contributions. Generally, an employee must complete 1,000 hours of service during the Plan year and be employed on December 31 of the Plan year to be eligible to receive an allocation of discretionary profit sharing contributions for that year. During the years ended December 31, 2010 and 2009, Sponsor profit sharing discretionary contributions were \$21,735,347 and \$20,945,057, respectively.

Participant accounts

Each participant's account is credited with the participant's contributions, matching contributions, profit sharing contributions, rollover contributions, forfeitures of terminated participants' non-vested accounts and an allocation of Plan earnings or losses. Allocations of earnings or losses are based on account balances. Discretionary contributions and forfeitures are allocated to participant accounts based on the proportion which the participant's eligible compensation bears to the aggregate eligible compensation of all participants for the year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are always 100% vested in their own contributions, rollover contributions and catch-up contributions (as adjusted to reflect investment earnings and losses).

Generally, participants will become vested in Sponsor matching contributions and Sponsor profit sharing contributions (as adjusted to reflect investment earnings and losses) in accordance with the following schedule:

Years of Service	Percentage Vested
less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 or more	100%

Investment options

Edgar Filing: DST SYSTEMS INC - Form 11-K

Participants may direct their salary reduction contributions, catch-up contributions, matching contributions and rollover contributions into a variety of mutual fund investment options as made available by the Advisory Committee or into DST Systems, Inc. common stock. The investment options contain different degrees of risks. Participants should refer to the respective fund prospectus for a more complete description of the investment objectives of each fund. The Advisory Committee reserves the right to change the available investment options from time to time.

Participants may change their investment options daily.

All profit sharing contributions are invested in the Master Trust by the Trustee as advised by the Investment Manager.

Table of Contents

DST Systems, Inc. 401(k) Profit Sharing Plan

Statement of Changes in Net Assets Available for Benefits

Forfeitures

Forfeitures of unvested accounts are generally first used for the restoration of reemployed participants' forfeited amounts and allocated to the participants. The forfeitures allocated to participants at December 31, 2010 and 2009 were \$1,592,034 and \$1,043,193, respectively.

Distribution of benefits

Benefit distributions generally will be made in the event of retirement, death, disability, resignation or dismissal. A participant's normal retirement age is 59½. Active participants can elect a withdrawal of assets at the age of 59½ or older.

Unless the terminated participant otherwise elects, balances not exceeding \$1,000 will be automatically distributed to the participant as a lump sum and balances ranging in value from \$1,001 to \$5,000 will be automatically distributed as an IRA rollover with Marshall & Ilsley Bank as soon as administratively practicable. Balances exceeding \$5,000 (excluding rollover contributions and related earnings or losses) will be distributed upon participant election as soon as administratively practicable. Such distributions may be elected as a lump sum or paid in monthly, quarterly or annual installments over the life expectancy of the participant. Distributions shall be made in cash or, at the option of the participant, in cash plus the number of whole shares of DST common stock allocated to the participant's account.

Upon death, all sums credited to the participant's account will be paid to the beneficiary or beneficiaries designated by the participant as a lump sum.

Distributions may also be made in the event of financial hardship of the participant. Certain restrictions apply.

Notes receivable from participants

Participants may borrow the lesser of \$50,000 or 50% of their vested participant-directed accounts (subject to certain Plan and Internal Revenue Service limitations). Generally, loans must be repaid within five years. These notes bear a fixed rate of interest, which is set at loan origination using the Prime rate as published in the Wall Street Journal plus 1%. At December 31, 2010 and 2009, interest rates on participant loans ranged from 3.25% to 9.5%.

Plan termination

The Sponsor believes the Plan will continue without interruption; however, it reserves the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in any unvested balances from Sponsor contributions and their respective account balances will be distributed in accordance with the Plan agreement.

Statement of Changes in Net Assets Available for Benefits

2. Significant Accounting Policies

Basis of accounting

The accompanying financial statements are presented on the accrual basis of accounting, except for benefits to participants which are recorded upon distribution.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash and cash equivalents

Short-term liquid investments with a maturity of three months or less at the time of purchase are considered cash equivalents. Due to the short-term nature of these investments, carrying value approximates market value.

Investment valuation and security transactions

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is accrued on the ex-dividend date. The Plan presents in the Statement of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) in the fair value of its investments which consists of realized gains or losses and net unrealized appreciation or depreciation on those investments.

Edgar Filing: DST SYSTEMS INC - Form 11-K

Investment income of the Master Trust is allocated daily to participating plans based upon the fair value of participating plan interests in the Master Trust at the end of each day. Net assets of the Master Trust are allocated to participating plans based upon the value of the participating plan interests in the Master Trust at the beginning of the quarter plus actual contributions to the Master Trust and allocated investment income less actual distributions from the Master Trust.

Notes receivable from participants

Notes receivable from participants are valued at their unpaid principal balance plus accrued interest.

New Authoritative Accounting Guidance

Notes receivable from participants

On January 1, 2010, the Plan adopted new authoritative accounting guidance related to the reporting of loans to participants. Previously, participant loans were presented as investments and measured at fair value. Upon adoption of the new guidance, participant loans were reclassified from investments to notes receivable from participants and are measured at their unpaid principal balance plus accrued interest. The adoption of this new accounting guidance was applied retrospectively to the December 31, 2009 financial statements of the Plan.

Fair value measurements

In May 2011, the Financial Accounting Standards Board issued new authoritative guidance related to fair value measurement and disclosure requirements in U.S. GAAP and International Financial Reporting Standards (IFRS). The guidance is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. The guidance is effective for annual periods beginning after December 15, 2011. The Plan has not yet determined the impact that the adoption of this new accounting guidance may have on the Plan's financial statements.

Table of Contents**DST Systems, Inc. 401(k) Profit Sharing Plan****Statement of Changes in Net Assets Available for Benefits****3. Plan Investments**

The following investments represent 5% or more of net assets available for benefits at year end:

	Year Ended December 31,	
	2010	2009
Investment in Master Trust	\$ 369,879,072	\$ 337,738,905
Janus Overseas Fund	45,932,619	38,814,661
	\$ 415,811,691	\$ 376,553,566

During the years ended December 31, 2010 and 2009, the Plan's participant-directed investments and non-participant directed investments appreciated (depreciated) in value (including gains and losses on investments bought and sold, as well as held during the year) as follows:

	Year Ended December 31,	
	2010	2009
Mutual Funds	\$ 50,096,576	\$ 73,662,355
DST common stock	851,968	2,635,589
Master Trust (1)	74,934,836	59,298,083
	\$ 125,883,380	\$ 135,596,027

(1) Non-participant directed

4. Fair Value Measurements

The authoritative accounting guidance on fair value measurements establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Investments in mutual funds are valued at net asset value representing the value at which shares of the fund may be purchased or redeemed in active markets.

Investments in DST common stock are recorded at the closing price quoted in the active market in which the individual security is traded.

Disclosures related to the fair value measurements of the Master Trust are described in Note 6.

Table of Contents

DST Systems, Inc. 401(k) Profit Sharing Plan

Statement of Changes in Net Assets Available for Benefits

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2010 and 2009, respectively. The following table does not include the Plan's interest in the Master Trust investment because that information is presented in Note 6.

	December 31, 2010	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	\$ 420,335,544	\$ 420,335,544	\$	\$
DST common stock	18,188,434	18,188,434		
Total	\$ 438,523,978	\$ 438,523,978	\$	\$

Statement of Changes in Net Assets Available for Benefits

5. Securities Lending Transactions

The Plan may engage in securities lending activities related to investments in DST common stock. Likewise, the Master Trust may engage in securities lending activities related to investments in common stocks, government securities and other securities held in the Master Trust. The Trustee serves as the lending agent for the Plan and the Master Trust and loans these securities to approved brokers (the Borrower). When the Plan lends securities, it is subject to a risk of failure by the Borrower to return loaned securities, a delay in delivery of the securities, or potential loss from declines in the value of investment collateral, in which case the Plan may incur a loss. The terms of the lending agreements require that loans are secured by collateral (cash or U.S. government securities) having an initial market value equal to or greater than 102% of the market value of securities on loan. The market value of the securities on loan and of the collateral received is monitored daily. If at any time the value of the collateral falls below 100% of the market value of securities on loan, the Borrower may be required to deliver additional collateral necessary to restore the 102% ratio. If the value of the collateral increases above 102% of the market value of securities on loan, the collateral in excess of the 102% ratio may be required to be returned to the Borrower. The Plan retains the income earned on the securities while on loan to the Borrower, less agency fees paid to the Trustee and rebates paid to the Borrower. In the event of default by the Borrower, the Trustee shall indemnify the Plan by purchasing replacement securities equal to the number of unreturned loaned securities or, if replacement securities are not able to be purchased, the Trustee shall credit the Plan for the market value of the unreturned securities. In each case, the Trustee would apply the proceeds from the collateral for such a loan to make the Plan whole. The collateral may be redeemed by the lending agent on behalf of the Plan at any time in order for the Plan to comply with its securities lending agreement, including when the Plan is requested to return collateral to a securities borrower or upon termination of the securities lending agreement.

The fair value of the cash collateral received pursuant to securities lending transactions is reflected in the Statement of Net Assets Available for Benefits as an asset and the obligation to return the original amount received is reflected as a liability. As of December 31, 2010 and 2009, the Plan had no securities on loan. To the extent that a loan of securities is secured by cash collateral, such collateral is invested in investment collateral pools managed by the Trustee. These pools were generally invested in cash equivalents, domestic corporate bonds, asset backed securities and foreign fixed income securities. The Plan bears the risk of loss on these investments. Income earned on investments in the investment collateral pools in excess of agency fees to the Trustee and rebates to the Borrowers is recorded in dividends, interest and other income. Securities lending income related to the securities on loan during 2009 amounted to \$28,473. No securities of the Plan were loaned during 2010.

Disclosures related to securities lending of common stocks and other securities held in the Master Trust are included in Note 6.

Table of Contents**DST Systems, Inc. 401(k) Profit Sharing Plan****Statement of Changes in Net Assets Available for Benefits****6. Master Trust**

The Master Trust was established for the investment of assets of the Plan and other DST sponsored plans. Each participating plan has an undivided interest in the Master Trust. The investment in Master Trust is non-participant directed and is managed by the Investment Manager. At December 31, 2010 and 2009, the Plan's percentage ownership in the Master Trust was 79.2% and 76.7%, respectively. The following Master Trust disclosures represent 100% of the balances in the Master Trust.

The Master Trust's net assets by general type at year end are as follows:

	December 31,	
	2010	2009
Assets		
Mutual funds	\$ 20,971,115	\$ 2,891,152
Common stocks	353,616,832	344,232,488
Government securities	52,980,372	93,992,884
Fixed income securities	44,647,689	
Preferred stocks		13,446,615
Collateral held on loaned securities	350,430,547	372,822,799
Total investments	822,646,555	827,385,938
Other receivables	412,038	597,824
Total assets	823,058,593	827,983,762
Liabilities		
Payable for collateral on loaned securities	355,956,394	387,622,121
Total liabilities	355,956,394	387,622,121
Net assets	\$ 467,102,199	\$ 440,361,641
Plan's interest in the Master Trust	\$ 369,879,072	\$ 337,738,905

Table of Contents

DST Systems, Inc. 401(k) Profit Sharing Plan

Statement of Changes in Net Assets Available for Benefits

The Master Trust's total investment income by type is as follows:

	Year Ended December 31,	
	2010	2009
Interest	\$ 3,193,364	\$ 1,719,698
Dividends	11,509,263	3,765,149
Net appreciation	83,133,376	71,370,884
	\$ 97,836,003	\$ 76,855,731

The Master Trust's net appreciation (depreciation) of investments by type is as follows:

	Year Ended December 31,	
	2010	2009
Common stocks	\$ 70,694,303	\$ 60,058,308
Preferred stocks		(2,903,778)
Fixed income and government securities	3,165,598	
Collateral held on loaned securities	9,273,475	14,216,354
	\$ 83,133,376	\$ 71,370,884

Investments in mutual funds are valued at net asset value representing the value at which shares of the fund may be purchased or redeemed in active markets.

Investments in common and preferred stocks are recorded at the closing price quoted in the active market in which the individual security is traded.

Investments in fixed income and government securities are recorded at quoted prices from brokers for similar assets in active markets.

Collateral held on loaned securities includes investments in unitized pools which are recorded at net asset value. These pools invest in cash equivalents, domestic corporate bonds, asset backed securities and foreign fixed income securities. Investment securities underlying the pools are priced using quotations from an independent pricing service which may employ methodologies that utilize actual market transactions, actual quotations from broker-dealers, or other formula-driven valuation techniques, which consider factors such as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings, and general market conditions.

Table of Contents**DST Systems, Inc. 401(k) Profit Sharing Plan****Notes to Financial Statements**

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investment assets at fair value as of December 31, 2010 and 2009, respectively.

	December 31, 2010	Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurements at Reporting Date Using	
			Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	\$ 20,971,115	\$ 20,971,115	\$	\$
Common stocks	353,616,832	353,616,832		
Government securities	52,980,372		52,980,372	
Fixed income securities	44,647,689		44,647,689	
Collateral held on loan securities	350,430,547		350,430,547	
Total	\$ 822,646,555	\$ 374,587,947	\$ 448,058,608	\$

	December 31, 2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurements at Reporting Date Using	
			Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	\$ 2,891,152	\$ 2,891,152	\$	\$
Common stocks	344,232,488	344,232,488		
Government securities	93,992,884		93,992,884	
Preferred stocks	13,446,615	13,446,615		
Collateral held on loan securities	372,822,799		372,822,799	
Total	\$ 827,385,938	\$ 360,570,255	\$ 466,815,683	\$

As more fully described in Note 5, the Plan allows the Trustee to loan common stocks and other securities held in the Master Trust to the Borrower. As of December 31, 2010, the Master Trust had investments on loan with a market value of \$345,535,059, consisting of \$292,581,950 of common stock and \$52,953,109 of government securities. As of December 31, 2009, the Master Trust had investments on loan with a market value of \$375,337,050, consisting of \$281,352,247 of common stock and \$93,984,803 of government securities. The Plan's liability for returning the cash collateral received related to the loaned common stocks and government securities held in the Master Trust was \$355,956,394 and \$387,622,121 at December 31, 2010 and 2009, respectively. The net asset value of the pools underlying securities were \$0.9845 and \$0.9618 at December 31, 2010 and 2009, respectively. Accordingly, the fair value of the investment collateral pools related to the loaned common stocks and government securities held in the Master Trust were \$350,430,547 and

Notes to Financial Statements

\$372,822,799 at December 31, 2010 and 2009, respectively. The fair value of the investment collateral pools related to the loaned common stocks and government securities was less than the value of the collateral received resulting in an unrealized loss of \$5,525,847 and \$14,799,322 at December 31, 2010 and 2009, respectively. The Plan's pro rata share of the change in the unrealized loss in fair value is reflected in net appreciation or depreciation of investment in Master Trust on the Statement of Changes in Net Assets. Securities lending income related to common stocks and government securities held in the Master Trust amounted to \$1,193,548 and \$1,481,009 for the years ended December 31, 2010 and 2009, respectively. Securities lending income is recorded in interest income.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Collateral held on loaned securities (DST common stock and common stocks, government securities and other securities held in the Master Trust) is principally invested in pools of cash equivalents, domestic corporate bonds, asset backed securities and foreign fixed income securities, which are subject to credit risk, interest rate risk and liquidity risk. Credit risk is the risk that the issuer or guarantor of a debt security, or the counterparty to a repurchase agreement is unable or unwilling to make timely principal and/or interest payments or to otherwise honor its obligations, in which case, the value of the related debt security may decline. Interest rate risk is the risk that interest rates may fluctuate, which would affect the resale value of the securities held in the pool. Those debt securities with longer durations tend to be more sensitive to changes in interest rates or credit spreads, usually making them more volatile in value than securities with shorter durations. In addition, changes in market interest rates may also extend or shorten the duration of certain types of investments, such as asset-backed or mortgage-backed securities, and can affect the value and the related return on the investments in the pool. Liquidity risk may be a risk factor for the pool when it invests in particular investments that are difficult to purchase or sell. The pools' investments in illiquid securities may reduce the returns of the pool because it may be unable to sell the illiquid securities at an advantageous time or price if necessary or desirable to sell the securities.

8. Income Tax Status of the Plan

The Internal Revenue Service has determined and informed the Sponsor by a letter dated October 29, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the determination. The Advisory Committee believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Notes to Financial Statements

9. Reconciliation of Financial Statements to the draft Form 5500

The following is a reconciliation of net assets available for benefits according to the financial statements as compared to the draft Form 5500:

	2010	December 31,	2009
Net assets available for benefits according to the financial statements	\$ 843,275,740	\$	720,764,416
Amounts allocated to withdrawing participants	(176,538)		(44,226)
Net assets available for benefits according to the draft Form 5500	\$ 843,099,202	\$	720,720,190

The following is a reconciliation of benefits to participants according to the financial statements as compared to the draft Form 5500:

	December 31, 2010
Benefits to participants according to the financial statements	\$ 96,836,271
Add: Amounts allocated to withdrawing participants at December 31, 2010	176,538
Less: Amounts allocated to withdrawing participants at December 31, 2009	(44,226)
Benefits to participants according to the draft Form 5500	\$ 96,968,583

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31, but not yet distributed as of that date.
