**REGIS CORPORATION**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**1. BASIS OF PRESENTATION OF UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

The unaudited interim Condensed Consolidated Financial Statements of Regis Corporation (the Company) as of September 30, 2013 and for the three months ended September 30, 2013 and 2012, reflect, in the opinion of management, all adjustments necessary to fairly state the consolidated financial position of the Company as of September 30, 2013 and the consolidated results of its operations and its cash flows for the interim periods. Adjustments consist only of normal recurring items, except for any discussed in the notes below. The results of operations and cash flows for any interim period are not necessarily indicative of results of operations and cash flows for the full year.

The Condensed Consolidated Balance Sheet data for June 30, 2013 was derived from audited Consolidated Financial Statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America (GAAP). The unaudited interim Condensed Consolidated Financial Statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended June 30, 2013 and other documents filed or furnished with the Securities and Exchange Commission (SEC) during the current fiscal year.

**Stock-Based Employee Compensation:**

During the three months ended September 30, 2013, the Company granted 225,223 restricted stock units (RSUs), 438,523 equity-based stock appreciation rights (SARs), and 284,604 performance share units (PSUs). There were no significant changes to the assumptions used in calculating the fair value of SARs. All grants relate to stock incentive plans that have been approved by the shareholders of the Company.

Total compensation cost for stock-based payment arrangements totaled \$1.8 million for both the three months ended September 30, 2013 and 2012 recorded within general and administrative expense on the Condensed Consolidated Statement of Operations.

**Goodwill:**

For the fiscal year 2013 annual impairment testing of goodwill, the estimated fair value of the Regis salon concept reporting unit exceeded its carrying values by approximately 9.0 percent. Although the Regis salon concept experienced a same-store sales decrease of 7.0 percent during the three months ended September 30, 2013, the Regis salon concept's cash flows did not significantly differ from the projections used in the fiscal year 2013 annual goodwill impairment test. Any meaningful underperformance against the projections used in the fiscal year 2013 annual goodwill impairment test, reduced outlook for the Regis salon concept or increases to the carrying value of the Regis salon concept could lead to

## Edgar Filing: REGIS CORP - Form 10-Q

a goodwill impairment charge. The respective fair values of the Company's remaining reporting units exceeded their carrying values by greater than 20.0 percent.

While the Company has determined that the estimated fair value of Regis is appropriate based on the historical level of revenue growth, operating income and cash flows, it is reasonably likely that Regis may experience additional impairment in future periods. Because some of the inherent assumptions and estimates used in determining the fair value of each reporting unit are outside the control of management, changes in these underlying assumptions can adversely impact fair value. Potential impairment of a portion or all of the carrying value of goodwill for the Regis salon concept is dependent on many factors and cannot be predicted with certainty.

As of September 30, 2013, the Company's estimated fair value, as determined by the sum of the Company's reporting units' fair values, reconciled to within a reasonable range of the Company's market capitalization which included an assumed control premium. The Company concluded that there were no triggering events requiring the Company to perform an interim goodwill impairment test between the previous annual impairment test and September 30, 2013.

Table of Contents

A summary of the Company's goodwill balance by reporting unit is as follows:

Reporting Unit	September 30,	June 30,
	2013	2013
	(Dollars in thousands)	
SmartStyle	\$ 49,387	\$ 49,286
Supercuts	129,728	129,610
MasterCuts	4,652	4,652
Regis	34,974	34,953
Promenade	242,999	242,384
Total	\$ 461,740	\$ 460,885

**Prior Period Adjustments:**

During the three months ended September 30, 2013, the Company recorded certain errors that related to prior periods. The errors related to an overstatement of inventory and self-insurance accruals and an understatement of cash in prior periods. Because these errors were not material to the Company's consolidated financial statements for any prior periods or the current quarter, the Company recorded a cumulative adjustment to correct the errors during the first quarter of fiscal year 2014. The impact of these items on the Company's Consolidated Statement of Operations decreased Site Operating expense by \$1.3 million, increased Cost of Product expense by \$0.3 million and increased net income by \$0.6 million.

**Foreign Currency Translation:**

During the three months ended September 30, 2012, the Company completed its sale of its investment in Provalliance and subsequently liquidated all foreign entities with Euro denominated operations. As a result, the Company recognized a net \$33.8 million foreign currency translation gain within interest income and other, net in the Consolidated Statement of Operations for amounts previously classified within accumulated other comprehensive income.

**Recent Accounting Standards Adopted by the Company:***Testing Indefinite-Lived Intangible Assets for Impairment*

In July 2012, the FASB updated the accounting guidance related to annual and interim indefinite-lived intangible asset impairment testing. The updated accounting guidance allows entities to first assess qualitative factors before performing a quantitative assessment of the fair value of indefinite-lived intangible assets. If it is determined on the basis of qualitative factors that the fair value of indefinite-lived intangible assets is more likely than not less than the carrying amount, the existing quantitative impairment test is required. Otherwise, no further impairment testing is required. The Company adopted this guidance in the first quarter of fiscal year 2014; its adoption did not have a material impact on the Company's financial statements.

**Accounting Standards Recently Issued But Not Yet Adopted by the Company:**

*Accounting for Cumulative Translation Adjustment upon Derecognition of Foreign Entities*

In March 2013, the FASB updated the accounting guidance related to the release of cumulative translation adjustments. The updated accounting guidance clarified when to release cumulative translation adjustments into net income. The updated guidance is effective for the Company beginning in the first quarter of fiscal year 2015 with early adoption permitted. The Company does not expect the adoption of this update to have a material impact on the Company's consolidated financial statements.

*Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*

In July 2013, the FASB issued new accounting requirements which provide guidance on the financial statement presentation of unrecognized tax benefits when a net operating loss, a similar tax loss, or a tax credit carryforward exists. The requirements are effective for the Company beginning in the first quarter of fiscal year 2015 with early adoption permitted. The Company does not expect the adoption of these requirements to have a material impact on the Company's consolidated financial statements.

Table of Contents**2. DISCONTINUED OPERATIONS:***Hair Restoration Centers*

On April 9, 2013, the Company sold its Hair Club for Men and Women business (Hair Club), a provider of hair restoration services. The Company received \$162.8 million during fiscal year 2013, which was the purchase price of \$163.5 million adjusted for the preliminary working capital provision. During the three months ended September 30, 2013, the Company received the \$3.0 million of cash recorded as a receivable as of June 30, 2013, of which \$2.0 million was a result of the final working capital provision, resulting in a final purchase price of \$164.8 million, and \$1.0 million of excess cash from the transaction completion date.

The Company classified the results of operations of Hair Club as discontinued operations for all periods presented in the Condensed Consolidated Statement of Operations.

The following summarizes the results of operations of the discontinued Hair Club operations for the three months ended September 30, 2012:

	<b>(Dollars in thousands)</b>	
Revenues	\$	38,951
Income from discontinued operations, before income taxes		5,872
Income tax provision on discontinued operations		(2,299)
Equity in income of affiliated companies, net of income taxes		204
Income from discontinued operations, net of income taxes	\$	3,777

Income taxes have been allocated to continuing and discontinued operations based on the methodology required by interim reporting and accounting for income taxes guidance. Depreciation and amortization ceased during the three months ended September 30, 2012 in accordance with accounting for discontinued operations.

**3. INVESTMENT IN AFFILIATES:***Investment in affiliates*

The table below presents the carrying amount of investments in affiliates:

Edgar Filing: REGIS CORP - Form 10-Q

	September 30, 2013		June 30, 2013
	(Dollars in thousands)		
Empire Education Group, Inc.	\$ 44,108	\$	43,098
MY Style	223		221
	\$ 44,331	\$	43,319

*Empire Education Group, Inc.*

During the three months ended September 30, 2013 and 2012, the Company recorded \$1.0 and (\$0.1) million, respectively, of equity earnings (loss) related to its investment in Empire Education Group, Inc. (EEG). The exposure to loss related to the Company's involvement with EEG is the carrying value of the investment.

Based on the Company's fiscal year 2013 assessment of the carrying value of its investment in EEG, the Company's estimate of EEG's fair value exceeds carrying value by approximately 5 percent. During the three months ended September 30, 2013, the Company monitored and assessed the performance of EEG and comparable companies and noted an improvement in EEG's financial performance and overall industry trends. The Company will continue to closely monitor EEG's performance and trends in the for-profit secondary educational market to assess the carrying value of its investment. In the event these favorable trends were to reverse in the future, EEG could be required to impair its goodwill. As of September 30, 2013, the Company's share of EEG's goodwill balance is approximately \$16 million.

Table of Contents

The table below presents the summarized Statement of Operations information for EEG:

	<b>Three Months Ended September 30,</b>	
	<b>2013</b>	<b>2012</b>
	<b>(Dollars in thousands)</b>	
Gross revenues	\$ 43,965	\$ 41,351
Gross profit	14,912	12,750
Operating income (loss)	2,904	(228)
Net income (loss)	1,938	(181)

*MY Style*

During the three months ended September 30, 2013, the Company recovered \$1.0 million on its previously impaired investment in MY Style's parent company, Yamano Holding Corporation ( "Yamano" ), which is reported in equity in income of affiliated companies on the Condensed Consolidated Statement of Operations. During fiscal year 2011, the Company had estimated the fair value of the Yamano Class A Preferred Stock to be negligible and recorded an other than temporary impairment.

**4. EARNINGS PER SHARE:**

The Company's basic earnings per share is calculated as net (loss) income divided by weighted average common shares outstanding, excluding unvested outstanding restricted stock awards, RSUs and PSUs. The Company's dilutive earnings per share is calculated as net (loss) income divided by weighted average common shares and common share equivalents outstanding, which includes shares issued under the Company's stock based compensation plans. Stock-based awards with exercise prices greater than the average market value of the Company's common stock are excluded from the computation of diluted earnings per share. The Company's dilutive earnings per share will also reflect the assumed conversion under the Company's convertible debt if the impact is dilutive, along with the exclusion of interest expense, net of taxes. The impact of the convertible debt is excluded from the computation of diluted earnings per share when interest expense per common share obtainable upon conversion is greater than basic earnings per share.

The following table sets forth a reconciliation of the net (loss) income from continuing operations available to common shareholders and the net (loss) income from continuing operations for diluted earnings per share under the if-converted method:

	<b>For the Three Months</b>	
	<b>2013</b>	<b>2012</b>
	<b>(Dollars in thousands)</b>	
Net (loss) income from continuing operations available to common shareholders	\$ (136)	\$ 34,647
Effect of dilutive securities:		
Interest on convertible debt, net of taxes		2,130
Net (loss) income from continuing operations for diluted earnings per share	\$ (136)	\$ 36,777

Edgar Filing: REGIS CORP - Form 10-Q

The following table sets forth a reconciliation of shares used in the computation of basic and diluted earnings per share:

	For the Three Months Ended September 30,	
	2013	2012
	(Shares in thousands)	
Weighted average shares for basic earnings per share	56,393	57,283
Effect of dilutive securities:		
Dilutive effect of stock-based compensation (1)		67
Dilutive effect of convertible debt		11,239
Weighted average shares for diluted earnings per share	56,393	68,589

---

(1) For the three months ended September 30, 2013, 132,392, common stock equivalents of potentially dilutive common stock were not included in the diluted earnings per share calculation due to the net loss from continuing operations.

Table of Contents

The computation of weighted average shares outstanding, assuming dilution, excluded 1,409,169 and 1,028,988 of equity-based compensation awards during the three months ended September 30, 2013 and 2012, respectively as they were not dilutive under the treasury stock method. The computation of weighted average shares outstanding, assuming dilution also excluded 11,289,545 of shares from convertible debt for the three months ended September 30, 2013 as they were not dilutive.

**5. SHAREHOLDERS EQUITY:**

**Additional Paid-In Capital:**

The \$1.1 million increase in additional paid-in capital during the three months ended September 30, 2013 was primarily due to stock-based compensation expense, partially offset by expiration of unexercised stock options and stock appreciation rights.

**6. INCOME TAXES:**

During the three months ended September 30, 2013 and 2012, the Company recognized tax (benefit) expense of \$(0.4) million and \$3.0 million, respectively, with corresponding effective tax rates of 15.2 and 8.1 percent.

The recorded tax benefit and the effective tax rate for the three months ended September 30, 2013 is lower than would be expected due to unique items of tax expense reducing the tax benefit, with a resulting greater impact on the tax rate due to the relatively small amount of pretax loss reported for the quarter. The recorded tax expense and the effective income tax rate for the three months ended September 30, 2012 is significantly lower than would be expected due primarily to the non-taxability of the \$33.8 million foreign currency translation gain recognized at the time of the sale of Provalliance.

In the United States, after excluding certain deferred tax liabilities related to assets with indefinite lives, the Company has net deferred tax assets of approximately \$54.7 million as of September 30, 2013. Realization of deferred tax assets is ultimately dependent upon future taxable income. We assess the likelihood that deferred tax assets will be recovered. If recovery is not likely, we must increase our provision for income taxes by recording a reserve, in the form of a valuation allowance, for the deferred tax assets that will not ultimately be recoverable. Should the Company's present financial trends continue, it is reasonably possible that the Company could determine that a valuation allowance for the United States deferred tax assets will be required.

The Company's United States federal income tax returns for the fiscal years 2010 and 2011 are currently under audit. All earlier tax years are closed to examination. For state tax audits, the statute of limitations generally runs three to four years resulting in a number of returns being open for tax audits dating back to fiscal year 2009. The Company is currently under audit in a number of states in which the statute of limitations has been extended for fiscal years 2007 and forward.

**7. COMMITMENTS AND CONTINGENCIES:**

The Company is a defendant in various lawsuits and claims arising out of the normal course of business. Like certain other large retail employers, the Company has been faced with allegations of purported class-wide consumer and wage and hour violations. In addition, the Company is a nominal defendant, and nine current and former directors and officers of the Company are named defendants, in a shareholder derivative action in Minnesota state court. The derivative shareholder action alleges that the individual defendants breached their fiduciary duties to the Company in connection with their approval of certain executive compensation arrangements and certain related party transactions. The Board of Directors appointed a Special Litigation Committee to investigate the claims and allegations made in the derivative action, and to decide on behalf of the Company whether the claims and allegations should be pursued. The derivative action has been stayed by the court pending the decision of the Special Litigation Committee. We do not know when the Special Litigation Committee will complete its work, or what it will decide. Litigation is inherently unpredictable and the outcome of these matters cannot presently be determined. Although the actions are being vigorously defended, the Company could in the future incur judgments or enter into settlements of claims that could have a material adverse effect on its results of operations in any particular period.

The exposure to loss related to the Company's discontinued Trade Secret salon concept is the guarantee of certain operating leases that have future minimum rents of approximately \$2.7 million. The Company has determined the exposure to the risk of loss on the guarantee of the operating leases to be immaterial to the financial statements.

Table of Contents**9. FINANCING ARRANGEMENTS:**

The Company's long-term debt consisted of the following:

	Maturity Dates (fiscal year)	Interest Rate	Amounts outstanding	
			September 30, 2013	June 30, 2013
(Dollars in thousands)				
Convertible senior notes	2015	5.00%	\$ 167,857	\$ 166,454
Revolving credit facility	2018			
Equipment and leasehold notes payable	2015 - 2016	4.90 - 8.75	6,610	8,316
			174,467	174,770
Less current portion			(174,452)	(173,515)
Long-term portion			\$ 15	\$ 1,255

*Convertible Senior Notes*

In July 2009, the Company issued \$172.5 million aggregate principal amount of 5.0% convertible senior notes due July 2014. The notes are unsecured, senior obligations of the Company and interest is payable semi-annually in arrears on January 15 and July 15 of each year at a rate of 5.0% per year. As of September 30, 2013, the conversion rate was 65.5131 shares of the Company's common stock per \$1,000 principal amount of notes, representing a conversion price of approximately \$15.26 per share of the Company's common stock. Interest expense related to the 5.0% contractual interest coupon was \$2.2 million during the three months ended September 30, 2013 and 2012. Interest expense related to the amortization of the debt discount was \$1.4 and \$1.3 million during the three months ended September 30, 2013 and 2012, respectively.

*Revolving Credit Facility*

As of September 30, 2013 and June 30, 2013, the Company had no outstanding borrowings under this facility. Additionally, the Company had outstanding standby letters of credit under the facility of \$2.2 million at September 30, 2013 and June 30, 2013 primarily related to its self-insurance program. Unused available credit under the facility at September 30, 2013 and June 30, 2013 was \$397.8 million.

The Company was in compliance with all covenants and requirements of its financing arrangements as of and during the three months ended September 30, 2013.

**10. FAIR VALUE MEASUREMENTS:**

## Edgar Filing: REGIS CORP - Form 10-Q

Fair value measurements are categorized into one of three levels based on the lowest level of significant input used: Level 1 (unadjusted quoted prices in active markets); Level 2 (observable market inputs available at the measurement date, other than quoted prices included in Level 1); and Level 3 (unobservable inputs that cannot be corroborated by observable market data).

### *Assets and Liabilities that are Measured at Fair Value on a Recurring Basis*

As of September 30, 2013, the Company's financial instruments included cash, cash equivalents, receivables, accounts payable and debt. The fair value of these instruments approximated their carrying values as of September 30, 2013 and June 30, 2013.

### *Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis*

We measure certain assets, including the Company's equity method investments, tangible fixed assets and goodwill, at fair value on a nonrecurring basis when they are deemed to be other than temporarily impaired. The fair values of the Company's investments are determined based on valuation techniques using the best information available, and may include quoted market prices, market comparables, and discounted cash flow projections. There were no assets measured at fair value on a nonrecurring basis during the three months ended September 30, 2013.

Table of Contents**11. SEGMENT INFORMATION:**

As of September 30, 2013, the Company owned, franchised, or held ownership interests in 9,752 worldwide locations. The Company's locations consisted of 9,154 North American salons, including 2,103 franchised salons (located in the United States, Canada and Puerto Rico), 352 international salons (located primarily in the United Kingdom), and 246 locations in which the Company maintains an ownership interest through the Company's investment in affiliates. See Note 3 to the Condensed Consolidated Financial Statements for discussion of the Company's investment in affiliates.

Based on the way the Company manages its business, it has reported its North American salons and international salons as two separate reportable segments.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is designed to provide a reader of our financial statements with a narrative from the perspective of our management on our financial condition, results of operations, liquidity and certain other factors that may affect our future results. This MD&A should be read in conjunction with the MD&A included in our June 30, 2013 Annual Report on Form 10-K.

**MANAGEMENT'S OVERVIEW**

Regis Corporation (RGS) owns, franchises and operates beauty salons. Our mission is to create guests for life. Our strategies underlying our mission are focused in two main areas: guest experience and salon support. We plan to execute these strategies by putting guests and stylists first, focusing on technology and connectivity, building a winning team with a performance-driven culture, simplifying our operating model, and reviewing our non-core assets. Since fiscal year 2012, the Company has been evaluating its portfolio of assets, investments and businesses, with the strategic objective of simplifying our business model, focusing on our core business of operating beauty salons and improving our long-term profitability and maximizing shareholder value. The disposal or sale of any non-core assets may impact our operations by decreasing total revenues, operating expenses and income or loss from equity method investments. This evaluation led to the sale of our Hair Club and Provalliance businesses during fiscal year 2013.

As of September 30, 2013, we owned, franchised or held ownership interests in 9,752 worldwide locations. Our locations consisted of 9,506 system wide North American and international salons, and 246 locations in which we maintain a non-controlling ownership interest less than 100 percent. Each of the Company's salon concepts generally offer similar salon products and services and serve the mass market. As of September 30, 2013, we had approximately 50,000 corporate employees worldwide.

**CRITICAL ACCOUNTING POLICIES**

The interim Condensed Consolidated Financial Statements are prepared in conformity with accounting principles generally accepted in the United States of America. In preparing the interim Condensed Consolidated Financial Statements, we are required to make various judgments, estimates and assumptions that could have a significant impact on the results reported in the interim Condensed Consolidated Financial Statements. We base these estimates on historical experience and other assumptions believed to be reasonable under the circumstances. Estimates are considered to be critical if they meet both of the following criteria: (1) the estimate requires assumptions about material matters that are uncertain at the time the accounting estimates are made, and (2) other materially different estimates could have been reasonably made or material changes in the estimates are reasonably likely to occur from period to period. Changes in these estimates could have a material effect on our interim Condensed Consolidated Financial Statements.

Our significant accounting policies can be found in Note 1 to the Consolidated Financial Statements contained in Part II, Item 8 of the June 30, 2013 Annual Report on Form 10-K, as well as Note 1 to the Condensed Consolidated Financial Statements contained within this Quarterly Report on Form 10-Q. We believe the accounting policies related to investment in affiliates, the valuation of goodwill, the valuation and estimated useful lives of long-lived assets, estimates used in relation to tax liabilities and deferred taxes and legal contingencies are most critical to aid in fully understanding and evaluating our reported financial condition and results of operations. Discussion of each of these policies is

## Edgar Filing: REGIS CORP - Form 10-Q

contained under Critical Accounting Policies in Part II, Item 7 of our June 30, 2013 Annual Report on Form 10-K.

See discussion of potential impairment of a portion or all of the carrying value of goodwill for the Regis salon concept and the carrying value of our investment in Empire Education Group, Inc. (EEG) within Notes 1 and 3, respectively, to the Condensed Consolidated Financial Statements.

### Recent Accounting Pronouncements

Recent accounting pronouncements are discussed in Note 1 to the Condensed Consolidated Financial Statements.

### RESULTS OF OPERATIONS

Beginning with the period ended September 30, 2012, the Hair Restoration Centers reportable segment was accounted for as a discontinued operation. All comparable periods reflect Hair Restoration Centers as a discontinued operation. Discontinued operations is discussed at the end of this section.

Beginning in the first quarter of fiscal year 2014, costs associated with field leaders, excluding salons within the mass premium category, that were previously recorded within General and Administrative expense are now categorized within Cost of Service and Site Operating expense as a result of the field reorganization that took place in the fourth quarter of fiscal year 2013. Previously, field leaders did not work on the salon floor daily. As reorganized, field leaders now spend most of their time on the salon floor leading

Table of Contents

and mentoring stylists, and serving guests. Accordingly, field leader costs, including their labor and travel costs, now directly arise from the management of salon operations. As a result, district and senior district leader labor costs are reported within Cost of Service rather than General and Administrative expenses, and their travel costs are reported within Site Operating expenses rather than General and Administrative expenses. This expense classification does not have a financial impact on the Company's reported operating income (loss), reported net income (loss) or cash flows from operations.

**Recent Developments**

During the fourth quarter of fiscal year 2013, the Company made significant investments in strategies to turn around its business and drive improved long-term sustainable revenue and profitability growth. These initiatives included rolling out a new a point-of-sale (POS) system and salon workstations in our North American salons, restructuring our North American field organization and standardizing plan-o-grams and reducing our retail product assortment. However, as a result of these transformational changes, the Company's financial performance during the three months ended September 30, 2013 was negatively impacted. Management's focus is on stabilizing these trends and expects our business performance to improve over time.

**Consolidated Results of Operations**

The following table sets forth, for the periods indicated, certain information derived from our Condensed Consolidated Statement of Operations. The percentages are computed as a percent of total consolidated revenues, except as otherwise indicated.

Table of Contents

Consolidated revenues primarily include revenues of company-owned salons, product and equipment sales to franchisees, and franchise royalties and fees. As compared to the respective prior period, consolidated revenues decreased 7.3% during the three months ended September 30, 2013 and decreased 4.9% during the three months ended September 30, 2012. The following tables summarize revenues and same-store sales by concept as well as the reasons for the percentage change:

	For the Three Months Ended September 30,	
	2013	2012
	(Dollars in thousands)	
North American salons:		
SmartStyle	\$ 117,476	\$ 122,998
Supercuts	85,319	87,068
MasterCuts	31,975	37,931
Regis	85,062	96,867
Promenade	119,699	129,018
Total North American salons	439,531	473,882
International salons	29,052	31,478
Consolidated revenues	\$ 468,583	\$ 505,360
Percent change from prior year	(7.3)%	(4.9)%
Salon same-store sales decrease (1)	(5.4)%	(3.1)%

(1) Same-store sales are calculated on a daily basis as the total change in sales for company-owned locations which were open on a specific day of the week during the current period and the corresponding prior period. Quarterly same-store sales are the sum of the same-store sales computed on a daily basis. Locations relocated within a one mile radius are included in same-store sales as they are considered to have been open in the prior period. International same-store sales are calculated in local currencies to remove foreign currency fluctuations from the calculation.

Decreases of 7.3% and 4.9% in consolidated revenues during the three months ended September 30, 2013 and 2012, respectively, were driven by the following:

Factor	For the Three Months Ended September 30,	
	2013	2012
Same-store sales	(5.4)%	(3.1)%
Closed salons	(3.2)	(3.1)
New stores and conversions	0.9	1.5
Other	0.4	(0.2)
	(7.3)%	(4.9)%

Same-store sales by concept for the three months ended September 30, 2013 and 2012, respectively, are detailed in the table below:

	For the Three Months Ended September 30,	
	2013	2012
SmartStyle	(5.5)%	(4.2)%

Edgar Filing: REGIS CORP - Form 10-Q

Supercuts	(1.8)	1.2
MasterCuts	(11.9)	(4.2)
Regis	(7.0)	(3.8)
Promenade	(5.0)	(3.2)
North America same-store sales	(5.6)	(3.0)
International same-store sales	(1.4)	(5.1)
Consolidated same-store sales	(5.4)%	(3.1)%

The same-store sales decrease of 5.4% during the three ended September 30, 2013 was due to a 7.2% decrease in guest visits, partially offset by a 1.8% increase in average ticket. The Company constructed (net of relocations) and closed 135 and 393 company-owned salons, respectively during the twelve months ended September 30, 2013.

Table of Contents

The same-store sales decrease of 3.1% during the three months ended September 30, 2012 was due to a 2.6% decrease in guest visits and 0.5% decrease in average ticket. The Company constructed (net of relocations) and closed 174 and 376 company-owned salons, respectively during the twelve months ended September 30, 2012.

Consolidated revenues are primarily comprised of service and product revenues, as well as franchise royalties and fees. Fluctuations in these three major revenue categories, operating expenses and other income and expense were as follows:

*Service Revenues*

The \$21.7 million decrease in service revenues during the three months ended September 30, 2013 was primarily due to same-store service sales decreasing 3.1% and the closure of 393 company-owned locations salons during the twelve months ended September 30, 2013. The decrease in same-store service sales was primarily a result of a 5.7% decrease in same-store guest visits, offset by a 2.6% increase in average ticket. Partially offsetting the decrease was growth due to newly constructed salons during the twelve months ended September 30, 2013.

The \$21.6 million decrease in service revenues during the three months ended September 30, 2012 was due to same-store service sales decreasing 3.0% and the closure of 376 company-owned salons during the twelve months ended September 30, 2012. The decrease in same-store service sales was a result of a 2.1% decrease in same-store guest visits and a 0.9% decrease in average ticket. The decrease in service revenues was partially offset by growth due to new and acquired salons during the previous twelve months.

*Product Revenues*

The \$15.5 million decrease in product revenues during the three months ended September 30, 2013 was primarily due to same-store product sales decreasing 14.8% and the closure of 393 company-owned salons during the twelve months ended September 30, 2013. The decrease in same-store product sales was a result of a 17.6% decrease in same-store guest visits, partially offset by a 2.8% increase in average ticket. The decrease in product revenues was partially offset by growth due to new salons during the previous twelve months.

The \$4.5 million decrease in product revenues during the three months ended September 30, 2012 was due to same-store product sales decreasing 3.2% and the closure of 376 company-owned salons during the twelve months ended September 30, 2012. The decrease in same-store product sales was a result of a 5.8% decrease in same-store guest visits, partially offset by a 2.6% increase in average ticket. The decrease in product revenues was partially offset by growth due to new and acquired salons during the previous twelve months.

*Royalties and Fees*

## Edgar Filing: REGIS CORP - Form 10-Q

Total franchised locations open at September 30, 2013 were 2,103, as compared to 2,023 at September 30, 2012. The \$0.5 million increase in royalties and fees for the three months ended September 30, 2013 was primarily due to the increase in franchised locations.

Total franchised locations open at September 30, 2012 were 2,023, as compared to 1,983, at September 30, 2011. The \$0.1 million increase in royalties and fees was primarily due to franchise positive same-store sales and the increase in franchised locations during the twelve months ended September 30, 2012.

### *Cost of Service*

The 140 basis point increase in cost of service as a percent of service revenues during the three months ended September 30, 2013 was primarily due to the change in expense categorization as a result of the field reorganization that took place during the fourth quarter of fiscal year 2013. After considering this prior year change in expense categorization, cost of service as a percent of service revenues was flat. Negative leverage of stylist hours caused by same-store service sales declines and increased health care costs were offset by cost reductions due to our field reorganization, reduced labor associated with a full commission coupon event that was not repeated this year and lower levels of bonuses.

The 230 basis point increase in cost of service as a percent of service revenues during the three months ended September 30, 2012 was primarily due to keeping stylists hours flat compared to the prior year for all concepts, other than Supercuts that increased hours to drive additional sales, compensating stylists on the gross sales amount during a coupon event and higher quota bonuses for stylists.

Table of Contents

*Cost of Product*

The 110 basis point decrease in cost of product as a percent of product revenues during the three months ended September 30, 2013, was primarily due to the lapping of a sales incentive program from last year and lower product costs and reduced clearance activity as a result of standardizing our plan-o-grams.

The 220 basis point increase in cost of product as a percent of product revenues during the three months ended September 30, 2012 was due to higher commissions paid to stylists in our North America segment as a result of a sales incentive program and a shift in mix to promotionally discounted items.

*Site Operating Expenses*

The 40 basis point increase in site operating expenses as a percent of consolidated revenues during the three months ended September 30, 2013 was primarily due to the change in expense categorization as a result of the field reorganization. After considering the prior year change in expense categorization, site operating expense decreased \$3.9 million primarily as a result of costs savings initiatives to lower utilities and repairs and maintenance expenses, lower travel expense due to the field reorganization and adjustments to self-insurance accruals and cash, partially offset by increased salon connectivity costs to support the Company's new POS system.

The 10 basis point increase in site operating expenses as a percent of consolidated revenues during the three months ended September 30, 2012 was primarily due to negative leverage of the decrease in same-store sales. Site operating expenses decreased due to a reduction in advertising expense partially offset by higher charges for salon internet connectivity.

*General and Administrative*

General and administrative (G&A) decreased \$11.4 million, or 160 basis points as a percent of consolidated revenues during the three months ended September 30, 2013. This improvement was primarily due to the change in expense categorization as a result of the field reorganization. After considering the prior year change in expense categorization, general and administrative expenses decreased \$3.5 million, primarily as a result of cost saving initiatives and savings from the field reorganization. The Company remains focused on simplification to drive further cost efficiencies.

The 130 basis point decrease in G&A costs as a percent of consolidated revenues during the three months ended September 30, 2012 was primarily due to the comparable prior period including costs associated with the Company's senior management restructuring and professional fees incurred in connection with the contested proxy. In addition, the basis point decrease was a result of lower health insurance expense and a reduction in warehousing costs due to productivity improvements.

*Rent*

Rent expense decreased by \$2.5 million during the three months ended September 30, 2013 due to salon closures, primarily within our North American segment. The 80 and 60 basis point increases in rent expense as a percent of consolidated revenues for the three months ended September 30, 2013 and 2012, respectively, were due to negative leverage as a result of same-store sale decreases associated with this fixed cost category.

*Depreciation and Amortization*

The 100 basis point increase in depreciation and amortization (D&A) as a percent of consolidated revenues during the three months ended September 30, 2013 was primarily due to depreciation expense related to the Company's POS and salon workstations installed in the fourth quarter of fiscal year 2013, accelerated depreciation expense associated with a leased building in conjunction with the Company's headquarters consolidation and negative leverage.

The 170 basis point decrease in D&A as a percent of consolidated revenues during the three months ended September 30, 2012 was primarily due to the comparable prior period including \$8.7 million of accelerated depreciation expense resulting from the useful life adjustment of the Company's previous POS system and a continuation of a reduction in depreciation expense from the reduction in salon construction beginning in fiscal year 2009 as compared to historical levels prior to fiscal year 2009, partially offset by negative leverage from the decrease in same-store sales.

*Interest Expense*

The \$2.3 and \$0.5 million decrease in interest expense for the three months ended September 30, 2013 and 2012, respectively, was primarily due to decreased debt levels as compared to the prior year comparable period.

Table of Contents

*Interest Income and Other, net*

The 670 basis point decrease and 660 basis point increase in interest income and other, net as a percent of consolidated revenues during the three months ended September 30, 2013 and 2012, respectively, was primarily due to the recognition of a \$33.8 million foreign currency translation gain in connection with the sale of Provalliance in the prior comparable period.

*Income Taxes*

During the three months ended September 30, 2013 and 2012, the Company recognized tax (benefit) expense of \$(0.4) million and \$3.0 million, respectively, with corresponding effective tax rates of 15.2 and 8.1 percent, respectively.

The recorded tax benefit and the effective tax rate for the three months ended September 30, 2013 was lower than would be expected due to unique items of tax expense reducing the tax benefit, with a resulting greater impact on the tax rate due to the relatively small amount of pretax loss reported for the quarter. The recorded tax expense and the effective income tax rate for the three months ended September 30, 2012 was significantly lower than would be expected due to the primarily non-taxable \$33.8 million foreign currency translation gain recognized at the time of the sale of Provalliance.

*Equity in Income of Affiliated Companies, Net of Income Taxes*

The equity in income of affiliated companies of \$2.0 million during the three months ended September 30, 2013 was primarily due to the Company's share of EEG's net income and \$1.0 million recovery of a previously impaired investment in Yamano Holding Corporation. See Note 3 to the Condensed Consolidated Financial Statements for additional discussion.

The equity in income of affiliated companies during the three months ended September 30, 2012 of \$0.6 million was primarily due to the gain on termination of the equity put option previously associated with the Company's investment in Provalliance.

*Income from Discontinued Operations, Net of Income Taxes*

During the three months ended September 30, 2012, the Company recognized \$3.8 million of income, net of taxes from Hair Club operations. See Note 2 to the Condensed Consolidated Financial Statements for further discussion.

**LIQUIDITY AND CAPITAL RESOURCES**

### Sources of Liquidity

Funds generated by operating activities, available cash and cash equivalents, and our revolving credit facility are our most significant sources of liquidity. We believe our sources of liquidity will be sufficient to sustain operations and to finance strategic initiatives. We also anticipate having access to long-term financing. However, in the event our liquidity is insufficient and we are not able to access long-term financing, we may be required to limit or delay our strategic initiatives. There can be no assurance that we will continue to generate cash flows at or above current levels.

As of September 30, 2013, cash and cash equivalents were \$203.7 million, with \$173.9, \$9.9 and \$19.9 million within the United States, Canada, and Europe, respectively.

We have a \$400.0 million five-year senior unsecured revolving credit facility with a syndicate of banks that expires in June 2018. As of September 30, 2013, the Company had no outstanding borrowings under the facility and had outstanding standby letters of credit under the facility of \$2.2 million. Accordingly, unused available credit under the facility at September 30, 2013 was \$397.8 million.

Our ability to access our revolving credit facility is subject to our compliance with the terms and conditions of such facility including a maximum leverage ratio, a minimum fixed charge ratio and other covenants and requirements. At September 30, 2013, we were in compliance with all covenants and other requirements of our credit agreement and senior notes.

**Cash Flows**

*Cash Flows from Operating Activities*

During the three months ended September 30, 2013, cash provided by operating activities of \$15.8 million increased by \$7.3 million compared to the prior comparable period, primarily as a result of a \$17.3 million decrease in the use of working capital primarily from a decrease in credit card receivables due to timing, partially offset by the operations shortfall due to the decrease in revenues.

During the three months ended September 30, 2012, cash provided by operating activities of \$8.5 million decreased by \$5.0 million compared to the prior comparable period, primarily as a result of decreased revenues and increased cost of service and product.

*Cash Flows from Investing Activities*

During the three months ended September 30, 2013, cash used by investing activities of \$8.5 million was primarily for capital expenditures of \$11.4 million, partially offset by cash provided from the recovery of \$1.0 million on the Company's previously impaired investment in Yamano Holding Corporation and the receipt of \$2.0 million for the final working capital adjustment on the sale of Hair Club.

During the three months ended September 30, 2012, cash provided by investing activities of \$112.2 million was due to the receipt of \$103.4 million for the sale of Provalliance and \$25.6 million from EEG related to principal payments on outstanding notes and revolving line of credit, partially offset by cash used for capital expenditures of \$18.1 million.

*Cash Flows from Financing Activities*

During the three months ended September 30, 2013 and 2012, cash used by financing activities of \$5.1 and \$12.3 million, respectively, was for dividends of \$3.4 million for both periods and repayments of long-term debt of \$1.7 and \$8.8 million, respectively.

**Financing Arrangements**

See Note 9 of the Notes to the Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q for the quarter ended September 30, 2013 and Note 7 of the Notes to Condensed Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2013, for additional information regarding our financing arrangements.

**Debt to Capitalization Ratio**

Our debt to capitalization ratio, calculated as total debt as a percentage of total debt and shareholders' equity at fiscal quarter end, was as follows:

As of	Debt to Capitalization	Basis Point (Decrease) Increase (1)
September 30, 2013	16.9%	
June 30, 2013	16.9	(750)

(1) Represents the basis point change in debt to capitalization as compared to prior fiscal year end (June 30).

The debt to capitalization ratio as of September 30, 2013 was consistent as compared to June 30, 2013, primarily due to minimal changes in debt levels and total shareholders' equity during the three months ended September 30, 2013.

The basis point improvement in the debt to capitalization ratio as of June 30, 2013 compared to June 30, 2012 was primarily due to the prepayment of \$89.3 million in private placement debt.

**Dividends**

We paid dividends of \$0.06 per share during the three months ended September 30, 2013 and 2012. On October 22, 2013, our Board of Directors declared a \$0.06 per share quarterly dividend payable November 19, 2013 to shareholders of record on November 5, 2013.

**SAFE HARBOR PROVISIONS UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995**

This Quarterly Report on Form 10-Q, as well as information included in, or incorporated by reference from, future filings by the Company with the Securities and Exchange Commission and information contained in written material, press releases and oral statements issued by or on behalf of the Company contains or may contain forward-looking statements within the meaning of the federal securities laws, including statements concerning anticipated future events and expectations that are not historical facts. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The forward-looking statements in this document reflect management's best judgment at the time they are made, but all such statements are subject to numerous risks and uncertainties, which could cause actual results to differ materially from those expressed in or implied by the statements herein. Such forward-looking statements are often identified herein by use of words including, but not limited to, may, believe, project, forecast, expect, estimate, anticipate, and plan. The following factors could affect the Company's actual results and cause such results to differ materially from those expressed in forward-looking statements. These factors include the impact of significant initiatives and changes in our management and organizational structure; negative same-store sales; the success of our stylists and our ability to attract and retain talented stylists; the effect of changes to healthcare laws; changes in regulatory and statutory laws; the Company's reliance on management information systems; competition within the personal hair care industry, which remains strong, both domestically and internationally; changes in economic conditions; the continued ability of the Company to implement cost reduction initiatives; certain of the terms and provisions of the outstanding convertible notes; failure to optimize our brand portfolio; the ability of the Company to maintain satisfactory relationships with certain companies and suppliers; financial performance of our joint ventures; changes in interest rates and foreign currency exchange rates; changes in consumer tastes and fashion trends; our ability to protect the security of personal information about our guests; or other factors not listed above. Additional information concerning potential factors that could affect future financial results is set forth in the Company's Annual Report on Form 10-K for the year ended June 30, 2013. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. However, your attention is directed to any further disclosures made in our subsequent annual and periodic reports filed or furnished with the SEC on Forms 10-K, 10-Q and 8-K and Proxy Statements on Schedule 14A.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

There has been no material change to the factors discussed within Part II, Item 7A in the Company's June 30, 2013 Annual Report on Form 10-K.

**Item 4. Controls and Procedures**

**Evaluation of Disclosure Controls and Procedures**

## Edgar Filing: REGIS CORP - Form 10-Q

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

With the participation of management, the Company's chief executive officer and chief financial officer evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-5(e) and 15d-15(e) promulgated under the Exchange Act) as of the end of the period. Our management, including our chief executive officer and chief financial officer, concluded that our disclosure controls and procedures were effective as of September 30, 2013.

### **Changes in Internal Controls over Financial Reporting**

Based on management's most recent evaluation of the Company's internal control over financial reporting, management determined that there were no changes in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter.

**PART II OTHER INFORMATION**

**Item 1. Legal Proceedings**

For a description of legal proceedings, see Note 7 to the Condensed Consolidated Financial Statements in Part I, Item 1.

**Item 1A. Risk Factors**

There have been no material changes in our risk factors from those disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended June 30, 2013.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

In May 2000, our Board of Directors approved a stock repurchase program. To date, a total of \$300.0 million has been authorized to be expended for the repurchase of the Company's stock. All repurchased shares become authorized but unissued shares of the Company. This repurchase program has no stated expiration date. The timing and amounts of any repurchases will depend on many factors, including the market price of the common stock and overall market conditions. As of September 30, 2013, a total accumulated 7.7 million shares have been repurchased for \$241.3 million. At September 30, 2013, \$58.7 million remains outstanding under the approved stock repurchase program.

The Company did not repurchase any of its common stock through its share repurchase program during the three months ended September 30, 2013.
