**Item 4.02(a). Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.**

The terms we, our and similar or derivative terms in this Current Report on Form 8-K refer to Michaels Stores, Inc. and its consolidated subsidiaries, except where the context otherwise requires.

***Restatement of Previously Issued Consolidated Financial Statements.***

On November 22, 2013, the Audit Committee of our Board of Directors (the Audit Committee), after considering the recommendation of management and discussing with Ernst & Young LLP, our independent registered public accounting firm, concluded it was necessary to restate our previously issued consolidated financial statements for the fiscal years ended February 2, 2013 and January 28, 2012. In connection with the preparation of our Quarterly Report on Form 10-Q for the quarterly period ended November 2, 2013, we determined that we had incorrectly accounted for certain stock compensation transactions under the Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 718 *Compensation - Stock Compensation*.

Specifically, former participants in the Company's Equity Incentive Plan and its successor Plan, (The Michaels Companies, Inc. (Parent) Equity Incentive Plan, together the Plan) exercised stock options upon their termination from the Company, and the Company re-purchased the immature shares. Immature shares are defined as shares held for less than six months following exercise. The Company consistently repurchased shares in this manner and therefore, under accounting rules, established a pattern of repurchasing immature shares during the third quarter of 2011. The Company determined all stock options should have been treated as liability awards in accordance with the rules of ASC 718-10-25-9. Under liability accounting, the Company re-measures the fair value of stock compensation each period and recognizes changes in fair value as awards vest and until the award is settled. The Company originally recognized expense ratably over the vesting period based on the grant date fair value of the option in accordance with the fixed method of accounting. The Company determined the accounting error was material to fiscal 2011 and fiscal 2012 financial statements and those required restatement. The non-cash impact to share-based compensation expense was \$18 million (\$11, net of tax) and \$32 million (\$20, net of tax) for the fiscal years ended February 2, 2013 and January 28, 2012, respectively. As part of the restatement, the Company also recorded other adjustments related to merchandise inventories and closed store reserve which were previously determined to be immaterial to the respective periods. In total, the adjustments resulted in a decline of net income by \$14 million for fiscal year ended February 2, 2013, and \$19 million for fiscal year ended January 28, 2012.

The following tables illustrate the correction as it is associated with certain line items in the financial statements (amounts in millions):
