COGENT COMMUNICATIONS HOLDINGS, INC., AND SUBSIDIARIES

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Description of the business and recent developments:

Reorganization and merger

On May 15, 2014, pursuant to the Agreement and Plan of Reorganization (the "Merger Agreement") by and among Cogent Communications Group, Inc. ("Group"), a Delaware corporation, Cogent Communications Holdings, Inc., a Delaware corporation ("Holdings") and Cogent Communications Merger Sub, Inc., a Delaware corporation ("Merger Sub"), Group adopted a new holding company organizational structure whereby Group is now a wholly owned subsidiary of Holdings. Holdings is a successor issuer to Group pursuant to Rule 12g-3(a) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). In connection with the succession, the common stock of Holdings is deemed to be registered under Section 12(b) of the Exchange Act by operation of law.

References to the "Company" for events that occurred prior to May 15, 2014 refer to Cogent Communications Group, Inc. and its subsidiaries and on and after May 15, 2014 the "Company" refers to Cogent Communications Holdings, Inc. and its subsidiaries.

Description of business

The Company is a Delaware corporation and is headquartered in Washington, DC. The Company is a facilities-based provider of low-cost, high-speed Internet access and Internet Protocol ("IP") communications services. The Company's network is specifically designed and optimized to transmit data using IP. The Company delivers its services primarily to small and medium-sized businesses, communications service providers and other bandwidth-intensive organizations in North America, Europe and Japan.

The Company offers on-net Internet access services exclusively through its own facilities, which run from its network to its customers' premises. The Company is not dependent on local telephone companies to serve its customers for its on-net Internet access services because of its integrated network architecture. The Company offers its on-net services to customers located in buildings that are physically connected to its network. The Company's on-net service consists of high-speed Internet access and IP connectivity ranging from 100 Megabits per second to 100 Gigabits per second of bandwidth. The Company provides its on-net Internet access services to its net-centric and corporate customers. The Company's net-centric customers include bandwidth-intensive users such as universities, other Internet service providers, telephone companies, cable television companies, web hosting companies, content delivery network companies and commercial content and application service providers. These net-centric customers obtain the Company's services in colocation facilities and in the Company's data centers. The Company operates data centers throughout North America and Europe that allow its customers to collocate their equipment and access the Company's network. The Company's corporate customers are located in multi-tenant office buildings and typically include law firms, financial services firms, advertising and marketing firms and other professional services businesses.

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

In addition to providing its on-net services, the Company provides Internet connectivity to customers that are not located in buildings directly connected to its network. The Company provides this off-net service primarily to corporate customers in North America using other carriers facilities to provide the last mile portion of the link from the customers premises to the Company's network. The Company also provides certain non-core services that resulted from acquisitions. The Company continues to support but does not actively sell these non-core services.

Basis of presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the unaudited condensed consolidated financial statements reflect all normal recurring adjustments that the Company considers necessary for the fair presentation of its results of operations and cash flows for the interim periods covered, and of the financial position of the Company at the date of the interim condensed consolidated balance sheet. Certain information and footnote disclosures normally included in the annual consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. The operating results for interim periods are not necessarily indicative of the operating results for the entire year. While the Company believes that the disclosures are adequate to not make the information misleading, these interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in its 2014 annual report on Form 10-K.

The accompanying unaudited consolidated financial statements include all wholly-owned subsidiaries. All inter-company accounts and activity have been eliminated.

Use of estimates

The preparation of consolidated financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates.

Table of Contents

Financial instruments

At March 31, 2015, the carrying amount of cash and cash equivalents, accounts receivable, prepaid and other current assets, accounts payable and accrued expenses approximated fair value because of the short-term nature of these instruments. The Company measures its cash equivalents at amortized cost, which approximates fair value based upon quoted market prices (Level 1). Based upon recent trading prices (Level 2 – market approach) at March 31, 2015 the fair value of the Company’s \$200.0 million senior unsecured notes was \$196.0 million and the fair value of the Company’s \$250.0 million senior secured notes was \$248.8 million.

The Company was party to letters of credit totaling \$0.3 million as of March 31, 2015. These letters of credit are secured by investments that are restricted and included in other assets.

Basic and diluted net income (loss) per common share

Basic earnings per share (EPS) excludes dilution for common stock equivalents and is computed by dividing net income or (loss) available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS is based on the weighted-average number of shares of common stock outstanding during each period, adjusted for the effect of dilutive common stock equivalents.

Shares of restricted stock are included in the computation of basic EPS as they vest and are included in diluted EPS, to the extent they are dilutive, determined using the treasury stock method. As of March 31, 2015 and 2014, 1.2 million and 0.9 million unvested shares of restricted common stock, respectively, are not included in the computation of basic income per share, as these shares were not vested. Using the if-converted method, the shares issuable upon conversion of the Company’s convertible senior notes (the Convertible Notes) were anti-dilutive for the three months ended March 31, 2014. Accordingly, that impact has been excluded from the computation of diluted loss per share. The Convertible Notes were convertible into 2.0 million shares of the Company’s common stock at March 31, 2014. The Convertible Notes were repaid in June 2014 and are no longer outstanding. For the three months ended March 31, 2015 and 2014, the Company’s employees exercised options for 6,459 and 9,757 common shares, respectively.

The following details the determination of diluted weighted average shares for the three months ended March 31, 2014:

	Three Months Ended March 31, 2014
Weighted average common shares - basic	46,409,735
Dilutive effect of stock options	77,738
Dilutive effect of restricted stock	419,887
Weighted average common shares - diluted	46,907,360

Recent Accounting Pronouncements

On May 28, 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for the Company beginning on January 1, 2017. Early application is not permitted. A one year deferral of the new standard was recently proposed which, if adopted would defer the effective date to January 1, 2018. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

In April 2015, the FASB issued ASU No. 2015-03, *Interest - Imputation of Interest - Simplifying the Presentation of Debt Issuance Costs*. The ASU will require debt issuance costs to be presented as a deduction from the corresponding debt liability making the presentation of debt costs consistent with the presentation of debt discounts or premiums. The new standard is effective for the Company on January 1, 2016 and the ASU must be applied retrospectively to all prior periods.

2. Property and equipment:

Depreciation and amortization expense related to property and equipment and capital leases was \$17.5 million and \$17.1 million for the three months ended March 31, 2015 and 2014, respectively. The Company capitalized salaries and related benefits of employees working directly on the construction and build-out of its network of \$2.2 million and \$2.0 million for the three months ended March 31, 2015 and 2014, respectively.

Exchange agreement

In the three months ended March 31, 2015 and 2014, the Company exchanged certain used network equipment for new network equipment and cash consideration. The fair value of the equipment received was estimated to be \$6.6 million and \$4.7 million, respectively, after considering the cash component the transactions resulted in gains of \$1.5 million and \$2.2 million, respectively. The estimated fair value of the equipment received was based upon the cash consideration price the Company pays for the new network equipment on a standalone basis (Level 3).

Purchase and installment payment agreements

In January 2015, the Company entered into a purchase agreement with a vendor. Under the purchase agreement the Company is required to purchase a total of \$28.9 million of network equipment during the eighteen month term. As of March 31, 2015, the Company was required to make an additional \$26.6 million of purchases under the purchase agreement. In March 2015, the Company entered into an installment payment agreement (IPA) with this vendor. Under the IPA the Company may purchase up to \$25.0 million of network equipment through July 2015 in exchange for interest free note obligations each with a twenty-four month term. There are no payments under each note obligation for the first six months followed by eighteen equal installment payments for the remaining eighteen month term. As of March 31, 2015, the Company had entered into \$1.7 million of note obligations under the IPA. The Company recorded the net present value of the note obligation utilizing an imputed interest rate. The resulting discount totaling \$0.1 million as of March 31, 2015, under the note obligations is being amortized over the note term using the effective interest rate method.

Table of Contents

Gain on capital lease termination

In March 2015 the Company elected to terminate certain IRU capital lease obligations in Spain with a vendor. The Company has obtained alternative fiber to serve its customers in Spain. Under its estimate of the termination provisions of the related contracts the Company has recorded an estimated termination liability of \$8.1 million included in accrued and other current liabilities. The difference between the remaining carrying amount of the related IRU capital lease (\$29.9 million), liabilities the remaining net book value of the IRU assets (\$10.0 million) and the termination liability and amounts due through the termination date has been recorded as a gain on capital lease termination of \$10.1 million.

3. Long-term debt:

Debt extinguishment, redemption and new debt issuance- \$250.0 million

In March 2015, Group redeemed its \$240.0 million 8.375% senior notes due in 2018 (the 2018 Notes) with the proceeds from its February 2015 issuance of \$250.0 million of 5.375% senior secured notes (the 2022 Notes) and existing cash on hand. In February 2015 the Company deposited \$251.6 million with the trustee for the benefit of the holders of the 2018 Notes in order to redeem on March 12, 2015 the entire outstanding amount of 2018 Notes at a redemption price of 104.188% of the \$240.0 million principal amount thereof plus accrued and unpaid interest. As a result of this transaction the Company incurred a loss on debt extinguishment and redemption of \$10.1 million in the three months ended March 31, 2015.

The 2022 Notes were sold in private offerings for resale to qualified institutional buyers pursuant to SEC Rule 144A and mature on March 1, 2022. Interest accrues at 5.375% beginning on February 20, 2015 and is paid semi-annually in arrears on March 1 and September 1 of each year, commencing on September 1, 2015. The net proceeds from the offering were \$248.7 million after deducting discounts and commissions and offering expenses. Issuance costs are included in deposits and other assets. The net proceeds from the offering are intended to be used for general corporate purposes.

The indenture governing the 2022 Notes provides that the Company and each of the Company's existing domestic subsidiaries and future material domestic subsidiaries guarantee the 2022 Notes, subject to certain exceptions and permitted liens. The 2022 Notes are also secured by a pledge of all of the equity interests in Group's domestic subsidiaries and 65% of the equity interests in Group's first-tier foreign subsidiaries. The 2022 Notes and the subsidiary guarantees will be the Company's and the subsidiary guarantors' senior indebtedness and will rank *pari passu* in right of payment with all of the Company's and the subsidiary guarantors' existing and future senior indebtedness, effectively senior to Group's senior unsecured indebtedness to the extent of the value of the collateral securing the 2022 Notes and the subsidiary guarantees, including Group's \$200.0 million 2021 Notes that were issued on April 9, 2014 and senior to any of the Company's and the subsidiary guarantors' future subordinated indebtedness. The 2022 Notes are structurally subordinated to the liabilities of the non-guarantor subsidiaries and are effectively subordinated to the Company's and the subsidiary guarantors' secured indebtedness to the extent of the value of the collateral securing such indebtedness on a basis senior to the 2022 Notes and the subsidiary guarantees. Holdings is also a guarantor of the 2022 Notes; however Holdings's guarantee is unsecured and thus its guarantee is not secured by any of the Holdings assets. Holdings is also not subject to the covenants under the indenture governing the 2022 Notes.

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

The 2022 Notes may be redeemed prior to December 1, 2021 (three months prior to the maturity date of the Notes) in whole or from time to time in part, at a redemption price equal to the sum of (1) 100% of the principal amount plus accrued and unpaid interest, if any, to, but not including, the redemption date, and (2) a make-whole premium, if any. The make-whole premium is the excess of (1) the net present value, on the redemption date, of the principal being redeemed or paid and the amount of interest (exclusive of interest accrued to the date of redemption) that would have been payable if such redemption had not been made, over (2) the aggregate principal amount of the notes being redeemed or paid. Net present value shall be determined by discounting, on a semi-annual basis, such principal and interest at the reinvestment rate (as determined in the indenture governing the 2022 Notes) from the respective dates on which such principal and interest would have been payable if such redemption had not been made. In addition, at any time on or after December 1, 2021 (three months prior to the maturity date of the Notes), the Issuer may redeem the 2022 Notes, in whole and or in part, at a redemption price equal to 100% of the principal amount of the 2022 Notes to be redeemed, plus accrued and unpaid interest, if any, to, but not including, the redemption date.

The indenture governing the 2022 Notes, among other things, limits the Company's ability to incur indebtedness; to pay dividends or make other distributions; to make certain investments and other restricted payments; to create liens; consolidate, merge, sell or otherwise dispose of all or substantially all of its assets; to incur restrictions on the ability of a subsidiary to pay dividends or make other payments; and to enter into certain transactions with its affiliates. Limitations on the ability to incur additional indebtedness (excluding IRU agreements incurred in the normal course of business) include a restriction on incurring additional indebtedness if the Company's consolidated leverage ratio, as defined in the Indenture is greater than 5.0. Permitted investments and payments that are not restricted total \$75.8 million as of March 31, 2015 plus Holdings permitted investments of \$49.8 million as of March 31, 2015 which are not subject to these limitations for a total permitted investment amount of \$125.6 million as of March 31, 2015. This amount may be increased by the Company's consolidated cash flow, as defined in the Indenture as long as the Company's consolidated leverage ratio is less than 4.25.

Table of Contents

Senior unsecured notes- \$200.0 million

On April 9, 2014, Cogent Communications Finance, Inc. (*Cogent Finance*), a newly formed financing subsidiary of Group, completed an offering of \$200.0 million in aggregate principal amount at par of 5.625% Senior Notes due 2021 (the *2021 Notes*). The 2021 Notes were sold in private offerings for resale to qualified institutional buyers pursuant to SEC Rule 144A. The offering closed into escrow pursuant to an escrow agreement, dated as of April 9, 2014 (the *Escrow Agreement*). The term *Issuer* refers to Cogent Finance prior to the release of the funds from the escrow account (such date of release, the *Escrow Release Date*) and to Group after the Escrow Release Date. As a condition to releasing the funds from escrow the Company redeemed its remaining outstanding Convertible Notes on June 20, 2014 (the *Redemption Transaction*). After consummation of the Redemption Transaction, Cogent Finance merged with Group, with Group continuing as the surviving corporation (the *Finance Merger*). At the time of consummation of the Finance Merger, Group assumed the obligations of Cogent Finance under the 2021 Notes and the indenture governing the 2021 Notes (the *Indenture*) and Group and each of Group's domestic subsidiaries became party to the Indenture pursuant to a supplemental indenture to the Indenture and the obligations under the Indenture became obligations solely of Group and each of Group's domestic subsidiaries. Holdings also provided a guarantee of the 2021 Notes but Holdings is not subject to any of the covenants under the Indenture. After the conditions to the release of the escrow proceeds were satisfied, on June 25, 2014 (the *Escrow Release Date*) the proceeds from the 2021 Notes were released. The net proceeds from the offering were \$195.8 million after deducting discounts and commissions and offering expenses. Issuance costs are included in deposits and other assets. The net proceeds from the offering are intended to be used for general corporate purposes.

The 2021 Notes were issued pursuant to, and are governed by the Indenture between Cogent Finance and the trustee. The 2021 Notes bear interest at a rate of 5.625% per year and mature on April 15, 2021. Interest began to accrue on the 2021 Notes on April 9, 2014 and is paid semi-annually on April 15 and October 15, commencing on October 15, 2014. Following the Escrow Release Date, the 2021 Notes became Group's senior unsecured obligations and are guaranteed on a senior unsecured basis by the Company. The 2021 Notes are effectively subordinated in right of payment to all of Group's and each guarantor's secured indebtedness and future secured indebtedness, if any, to the extent of the value of the assets securing such indebtedness. The 2021 Notes are equal in right of payment with Group's and each guarantor's unsecured indebtedness that is not subordinated in right of payment to the 2021 Notes. The 2021 Notes rank senior in right of payment to Group's and each guarantor's future subordinated debt, if any; and are structurally subordinated in right of payment to all indebtedness and other liabilities of any of the Group's subsidiaries that are not guarantors, which consists of immaterial subsidiaries and foreign subsidiaries that do not guarantee other indebtedness of Group.

The Company may redeem the 2021 Notes, in whole or in part, at any time prior to April 15, 2017 at a price equal to 100% of the principal amount plus an applicable premium, plus accrued and unpaid interest, if any, to the date of redemption. The applicable premium means, with respect to a note at any date of redemption, the greater of (i) 1.0% of the then-outstanding principal amount of such note and (ii) the excess of (A) the present value at such date of redemption of (1) the redemption price of 104.219% plus (2) all remaining required interest payments due on such note through April 15, 2017 (excluding accrued but unpaid interest to the date of redemption), computed using a discount rate equal to the Treasury Rate as of such date of redemption plus 50 basis points, over (B) the then-outstanding principal amount of such note. The Company may also redeem the 2021 Notes, in whole or in part, at any time on or after April 15, 2017 at the applicable redemption prices specified under the indenture governing the 2021 Notes plus accrued and unpaid interest, if any, to the date of redemption. The redemption prices (expressed as a percentage of the principal amount) are 104.219% during the 12-month period beginning on April 15, 2017, 102.813% during the 12-month period beginning on April 15, 2018, 101.406% during the 12-month period beginning on April 15, 2019 and 100.0% during the 12-month period beginning on April 15, 2020 and thereafter. In addition, the Company may redeem up to 35% of the 2021 Notes before April 15, 2017 with the net cash proceeds from certain equity offerings at a redemption price of 105.625% of the principal amount plus accrued and unpaid interest. If the Company experiences specific kinds of changes of control, the Company must offer to repurchase all of the 2021 Notes at a purchase price of 101.0% of their principal amount, plus accrued and unpaid interest, if any, to the repurchase date.

The indenture governing the 2021 Notes, among other things, limits the Company's ability to incur indebtedness; to pay dividends or make other distributions; to make certain investments and other restricted payments; to create liens; consolidate, merge, sell or otherwise dispose of all or substantially all of its assets; to incur restrictions on the ability of a subsidiary to pay dividends or make other payments; and to enter into certain

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

transactions with its affiliates. Limitations on the ability to incur additional indebtedness (excluding IRU agreements incurred in the normal course of business) include a restriction on incurring additional indebtedness if the Company's consolidated leverage ratio, as defined in the Indenture is greater than 5.0. Permitted investments and payments that are not restricted total \$75.8 million as of March 31, 2015 plus Holdings permitted investments of \$49.8 million as of March 31, 2015 which are not subject to these limitations for a total permitted investment amount of \$125.6 million as of March 31, 2015. This amount may be increased by the Company's consolidated cash flow, as defined in the Indenture as long as the Company's consolidated leverage ratio is less than 4.25.

Senior secured notes- \$240.0 million

On January 26, 2011 and on August 19, 2013, the Company issued its 8.375% 2018 Notes for aggregate principal amounts of \$175.0 million and \$65.0 million, respectively, in private offerings for resale to qualified institutional buyers pursuant to SEC Rule 144A. The 2018 Notes were secured and bore interest at 8.375% per annum. Interest was payable in cash semiannually in arrears on February 15 and August 15, of each year. On January 26, 2011, the Company received net proceeds of \$170.5 million after deducting \$4.5 million of issuance costs from issuing \$175.0 million of its 2018 Notes. On August 19, 2013, the Company received net proceeds of approximately \$69.9 million after deducting \$1.0 million of issuance costs from issuing \$65.0 million of 2018 Notes. The 2018 Notes sold in August 2013 were sold at 109.00% of par value. The resulting \$5.9 million premium was being amortized as a reduction to interest expense to the maturity date using the effective interest rate method. In March 2015, the 2018 Notes were extinguished and redeemed with the proceeds of the Company's issuance of its \$250.0 million of 2022 Notes and cash on hand.

Table of Contents

Convertible senior notes

In June 2007, the Company issued its Convertible Notes for an aggregate principal amount of \$200.0 million in a private offering for resale to qualified institutional buyers pursuant to SEC Rule 144A. The Convertible Notes were scheduled to mature on June 15, 2027, were unsecured, and bore interest at 1.00% per annum. Interest was payable in cash semiannually in arrears on June 15 and December 15, of each year, beginning on December 15, 2007. The Company received net proceeds from the issuance of the Convertible Notes of approximately \$195.1 million, after deducting the original issue discount of 2.25% and issuance costs. The discount and other issuance costs were being amortized to interest expense using the effective interest method through June 15, 2014, which was the earliest put date. In 2008, the Company purchased an aggregate of \$108.0 million of face value of the Convertible Notes for \$48.6 million in cash in a series of transactions resulting in \$92.0 million of principal amount of the Convertible Notes remaining after these purchase transactions.

Holders of the Convertible Notes had the right to require the Company to repurchase for cash all or some of their notes on June 15, 2014, 2017 and 2022 at a redemption price of 100% of the principal amount plus accrued interest. Holders of \$58.5 million of principal amount of the Convertible Notes issued a repurchase notice to the Company and on June 16, 2014 the Company repaid \$58.5 million of Convertible Notes principal amount plus accrued interest. The Convertible Notes may have been redeemed by the Company at any time on and after June 20, 2014 at a redemption price of 100% of the principal amount plus accrued interest. On June 20, 2014 the Company redeemed the remaining \$33.5 million principal amount of the Convertible Notes.

The amount of interest expense recognized and effective interest rate for the Convertible Notes were as follows (in thousands):

	Three Months Ended March 31, 2014	
Contractual coupon interest	\$	230
Amortization of discount and costs on Notes		1,689
Interest expense	\$	1,919
Effective interest rate		8.7%

4. Commitments and contingencies :

Current and potential litigation

In accordance with the accounting guidance for contingencies, the Company accrues its estimate of a contingent liability when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Where it is probable that a liability has been incurred and there is a range of expected loss for which no amount in the range is more likely than any other amount, the Company accrues at the low end of the range. The Company reviews its accruals at least quarterly and adjusts them to reflect the impact of negotiations, settlements, rulings, advice of legal counsel, and other information and events pertaining to a particular matter. The Company has taken certain positions related to its obligations for leased circuit and dark fiber obligations for which it is reasonably possible could result in a loss of up to \$2.2 million in excess of the amount accrued at March 31, 2015.

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

On March 27, 2015 the City of Sunrise Firefighters Retirement Fund (Plaintiff) filed suit against the Company in the Court of Chancery of the State of Delaware alleging that certain bylaw amendments regarding litigation had been adopted by the board in violation of Delaware law. On March 30, the Company rescinded the amendments to the bylaws and withdrew from the proxy a request that the stockholders give an advisory vote on the amendments. On April 1, the Company filed a supplement to the proxy, which acknowledged that the Company's certificate of incorporation does not give the Company's board of directors the power to amend the bylaws of the Company and that the provision of the bylaws that purports to give the board of directors such authority is not enforceable absent a grant of such authority in the certificate of incorporation. The board of directors agreed that it will not seek to adopt, amend or repeal any bylaws other than by a vote of stockholders, unless such power is conferred on the board of directors through an amendment to the Company's certificate of incorporation.

The Company and Plaintiff have entered into a Memorandum of Understanding to settle the lawsuit, subject to Court approval. Pursuant to the proposed settlement, the Company agreed that the lawsuit was the sole cause of the Company's above-referenced March 30 and April 1 disclosures. In exchange, Plaintiff will consent to dismissal of this case with prejudice and the parties will exchange mutual releases. Plaintiff has indicated it will seek an award of attorney's fees from the Court of an unknown amount. The Company has reserved the right to contest the amount of fees that may be awarded.

Certain former sales employees of the Company filed a collective action against the Company in December 2011 in the United States District Court, Southern District of Texas, Houston Division alleging misclassification of the Company's sales employees throughout the United States in violation of the Fair Labor Standards Act. The lawsuit sought to recover pay for allegedly unpaid overtime and other damages, including attorney's fees. In March 2014, the judge de-certified the collective action. Each of the former employees that opted-in to the collective action retained the right to file an individual action. Approximately 70 former employees did so. The Company has settled a number of the cases that were filed and made the required settlement payments. Currently, four cases remain, of which two have been settled pending signature of the settlement agreements and/or court approval of the same. In the two remaining cases, the plaintiffs seek certification of a class or collective action related to the employees in that jurisdiction. The Company denies the claims and believes that the claims for unpaid overtime are without merit. The Company believes its classification of sales employees is in compliance with applicable law.

In the normal course of business the Company is involved in other legal activities and claims. Because such matters are subject to many uncertainties and the outcomes are not predictable with assurance, the liability related to these legal actions and claims cannot be determined with certainty. Management does not believe that such claims and actions will have a material impact on the Company's financial condition or results of operations. Judgment is required in estimating the ultimate outcome of any dispute resolution process, as well as any other amounts that may be incurred to conclude the negotiations or settle any litigation. Actual results may differ from these estimates under different assumptions or conditions and such differences could be material.

Table of Contents**5. Income taxes:**

The effective income tax rates for the three months ended March 31, 2015 and 2014 are different from the U.S. federal income tax statutory rate of 35.0% primarily due to the impact of discrete expenses. Since the Company is near breakeven these discrete items result in a significant impact on the effective income tax rate during the period. Additional deviation from the U.S. federal income tax statutory rate are due to permanent differences resulting from non-deductible equity-based compensation expense and from the impact of state taxes and foreign losses that have not met the criteria for recording as an income tax benefit. The components of income (loss) before income taxes consist of the following (in thousands):

	Three Months Ended March 31, 2015	Three Months Ended March 31, 2014
Domestic	\$ (5,176)	\$ 8,436
Foreign	4,453	(6,695)
Total	\$ (723)	\$ 1,741

6. Common stock buyback program:

The Company's board of directors has approved purchases of the Company's common stock under a buyback program (the "Buyback Program") through February 29, 2016. At March 31, 2015, there was approximately \$29.1 million remaining for purchases under the Buyback Program. During the three months ended March 31, 2015 and 2014, the Company purchased 0.2 million shares and 0.4 million shares of its common stock for \$8.1 million and \$14.2 million, respectively.

7. Dividends on common stock:

Dividends are recorded as a reduction to retained earnings. Dividends on unvested restricted shares of common stock are paid as the awards vest. The Company's initial quarterly dividend payment was made in the third quarter of 2012. In addition to the Company's regular quarterly dividends, in 2013, the Company's board of directors approved an additional return of capital program (the "Capital Program"). Under the Capital Program the Company plans on returning additional capital to the Company's shareholders each quarter through either stock buybacks or a special dividend or a combination of stock buybacks and a special dividend. The aggregate payment under the Capital Program initially was a minimum of \$10.0 million each quarter and was increased to be a minimum of \$12.0 million each quarter. Amounts paid under the Capital Program are in addition to the Company's regular quarterly dividend payments.

On April 16, 2015, the Company's board of directors approved the payment of the Company's quarterly dividend of \$0.42 per common share. The dividend for the second quarter of 2015 will be paid to holders of record on May 22, 2015. This estimated \$19.0 million dividend payment is expected to be made on June 12, 2015.

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

A summary of the Company's quarterly dividends paid since its initial dividend payment is as follows (in thousands, except per share amounts):

Dividend Period	Amount per Common Share	Record Date	Payment Date	Dividends Paid
Q3 2012	\$ 0.10	August 22, 2012	September 12, 2012	\$ 4,537
Q4 2012	\$ 0.11	November 21, 2012	December 12, 2012	\$ 5,012
Q1 2013	\$ 0.12	March 4, 2013	March 15, 2013	\$ 5,489
Q2 2013	\$ 0.13	May 31, 2013	June 18, 2013	\$ 6,145
Q3 2013	\$ 0.14	September 5, 2013	September 25, 2013	\$ 6,512
Q4 2013	\$ 0.37	November 27, 2013	December 20, 2013	\$ 17,206
Q1 2014	\$ 0.39	March 7, 2014	March 27, 2014	\$ 18,352
Q2 2014	\$ 0.17	May 30, 2014	June 18, 2014	\$ 7,882
Q3 2014	\$ 0.30	August 29, 2014	September 19, 2014	\$ 13,792
Q4 2014	\$ 0.31	November 26, 2014	December 12, 2014	\$ 14,190
Q1 2015	\$ 0.35	March 11, 2015	March 26, 2015	\$ 16,001

A summary of the Company's amounts paid under the Capital Program is as follows (in thousands, except per share amounts):

Dividend Period	Capital Program Amount	Stock Buyback Amount During the Period	Stock Buyback Amount Greater than Capital Program Amount?	Payment Under Capital Program Paid As Dividend (1)	Amount Per Share Paid As Dividends Under the Capital Program
Q3 2013	\$ 10,000	\$	No	\$	\$
Q4 2013	\$ 10,500	\$	No	\$ 10,186	\$ 0.22
Q1 2014	\$ 10,500	\$ 14,196	Yes	\$ 10,707	\$ 0.23
Q2 2014	\$ 10,500	\$ 17,888	Yes	\$	\$
Q3 2014	\$ 12,000	\$ 15,943	Yes	\$	\$
Q4 2014	\$ 12,000	\$ 10,555	No	\$	\$
Q1 2015	\$ 12,000	\$ 8,119	No	\$ 1,357	\$ 0.03

Table of Contents

(1) Under the Capital Program if the amount spent on stock buybacks during a quarter is less than the program amount the difference is added to the dividend payment for the following quarter. Since the stock buyback amount for the first quarter of 2015 was \$8.1 million and less than the Capital Program amount of \$12.0 million an additional \$3.9 million or \$0.09 per share will be added to the second quarter 2015 regular dividend.

The payment of any future dividends and any other returns of capital will be at the discretion of the Company's board of directors and may be reduced, eliminated or increased and will be dependent upon the Company's financial position, results of operations, available cash, cash flow, capital requirements, limitations under the Company's debt indentures as described in Note 3, and other factors deemed relevant by the Company's board of directors. The Company is a Delaware Corporation and under the General Corporate Law of the State of Delaware distributions may be restricted including a restriction that distributions, including stock purchases and dividends, do not result in an impairment of a corporation's capital, as defined under Delaware Law.

8. Related party transactions:

Office lease

The Company's headquarters is currently located in an office building owned by Niobium LLC (a successor to 6715 Kenilworth Avenue Partnership). The two owners of Niobium LLC are the Company's Chief Executive Officer, David Schaeffer, who has a 51% interest in Niobium LLC and his wife who has a 49% interest. The Company paid \$0.1 million and \$0.2 million in the three months ended March 31, 2015 and 2014, respectively, for rent and related costs (including taxes and utilities) to Niobium LLC, respectively. The lease was scheduled to end on August 31, 2016 and was cancellable by the Company upon 60 days' notice. In April 2015, the Company terminated the lease effective as of May 10, 2015.

In April 2015, the Company entered into a new lease agreement for its headquarters building with Sodium LLC whose two owners are the Company's Chief Executive Officer, David Schaeffer, who has a 51% interest in Sodium LLC and his wife who has a 49% interest. The fixed annual rent is \$1.0 million per year plus an allocation of taxes and utilities. The lease term is for five years and is cancellable by the Company upon 60 days' notice. The Company's audit committee reviews and approves all transactions with related parties.

9. Segment information:

The Company operates as one operating segment. The Company's service revenue and long lived assets by geographic region are as follows (in thousands):

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis together with our condensed consolidated financial statements and related notes included in this report. The discussion in this report contains forward-looking statements that involve risks and uncertainties, such as statements of our plans, objectives, expectations and intentions. The cautionary statements made in this report should be read as applying to all related forward-looking statements wherever they appear in this report. Our actual results could differ materially from those discussed here. Factors that could cause or contribute to these differences include, but are not limited to:

Future economic instability in the global economy, which could affect spending on Internet services; the impact of changing foreign exchange rates (in particular the Euro to US dollar and Canadian dollar to US dollar exchange rates) on the translation of our non-US dollar denominated revenues, expenses, assets and liabilities; legal and operational difficulties in new markets; the imposition of a requirement that we contribute to the US Universal Service Fund; changes in government policy and/or regulation, including rules regarding data protection, cyber security and net neutrality; increasing competition leading to lower prices for our services; our ability to attract new customers and to increase and maintain the volume of traffic on our network; the ability to maintain our Internet peering arrangements on favorable terms; our reliance on an equipment vendor, Cisco Systems Inc., and the potential for hardware or software problems associated with such equipment; the dependence of our network on the quality and dependability of third-party fiber providers; our ability to retain certain customers that comprise a significant portion of our revenue base; the management of network failures and/or disruptions; and outcomes in litigation as well as other risks discussed from time to time in our filings with the Securities and Exchange Commission, including, without limitation, our annual report on Form 10-K for the fiscal year ended December 31, 2014.

General Overview

We are a leading facilities-based provider of low-cost, high-speed Internet access and IP communications services. Our network is specifically designed and optimized to transmit data using IP. We deliver our services primarily to small and medium-sized businesses, communications service providers and other bandwidth-intensive organizations in North America, Europe and in Japan.

Our on-net service consists of high-speed Internet access and IP connectivity ranging from 100 Megabits per second to 100 Gigabits per second of bandwidth. We offer our on-net services to customers located in buildings that are physically connected to our network. We provide on-net Internet access to net-centric and corporate customers. Our net-centric customers include bandwidth-intensive users such as universities, other Internet service providers, telephone companies, cable television companies, web hosting companies, content delivery networks and commercial content and application service providers. These net-centric customers generally receive our services in colocation facilities and in our data centers. Our corporate customers are located in multi-tenant office buildings and typically include law firms, financial services firms, advertising and marketing firms and other professional services businesses.

Our off-net services are sold to businesses that are connected to our network primarily by means of "last mile" access service lines obtained from other carriers, primarily in the form of metropolitan Ethernet, circuits. Our non-core services, which consist primarily of legacy services of companies whose assets or businesses we have acquired, primarily include voice services (only provided in Toronto, Canada). We do not actively market these non-core services and expect the service revenue associated with them to continue to decline.

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

Our network is comprised of in-building riser facilities, metropolitan optical fiber networks, metropolitan traffic aggregation points and inter-city transport facilities. Our network is physically connected entirely through our facilities to 2,155 buildings in which we provide our on-net services, including 1,488 multi-tenant office buildings. We also provide on-net services in carrier-neutral colocation facilities, Cogent controlled data centers and single-tenant office buildings. We operate 49 Cogent controlled data centers totaling over 550,000 square feet. Because of our integrated network architecture, we are not dependent on local telephone companies to serve our on-net customers. We emphasize the sale of our on-net services because we believe we have a competitive advantage in providing these services and these services generate gross profit margins that are greater than the gross profit margins of our off-net services.

We believe our key growth opportunity is provided by our high-capacity network, which provides us with the ability to add a significant number of customers to our network with minimal direct incremental costs. Our focus is to add customers to our network in a way that maximizes its use and at the same time provides us with a profitable customer mix. We are responding to this opportunity by increasing our sales and marketing efforts including increasing our number of sales representatives and expanding our network to locations that we believe can be economically integrated and represent significant concentrations of Internet traffic. One of our keys to developing a profitable business will be to carefully match the cost of extending our network to reach new customers with the revenue expected to be generated by those customers. In addition, we may add customers to our network through strategic acquisitions.

We believe some of the most important trends in our industry are the continued long-term growth in Internet traffic and a decline in Internet access prices on a per megabit basis. The effective price per megabit for our corporate customers is declining as the bandwidth utilization and connection size of our corporate customer connections increases. As Internet traffic continues to grow and prices per unit of traffic continue to decline, we believe we can continue to load our network and gain market share from less efficient network operators. However, continued erosion in Internet access prices will likely have a negative impact on the rate at which we can increase our revenues and our profitability. Our revenue may also be negatively affected if we are unable to grow our Internet traffic or if the rate of growth of Internet traffic does not offset our expected decline in per unit pricing. We do not know if Internet traffic will increase or decrease, or the rate at which it will increase or decrease. Changes in Internet traffic will be a function of the number of users, the amount of time users spend on the Internet, the applications for which the Internet is used, the bandwidth intensity of these applications and the pricing of Internet services, and other factors.

Table of Contents

The growth in Internet traffic has a more significant impact on our net-centric customers who represent the majority of the traffic on our network and who tend to consume the majority of their allocated bandwidth on their connections. Net-centric customers tend to purchase their service on a price per megabit basis. Our corporate customers tend to utilize a small portion of their allocated bandwidth on their connections and tend to purchase their service on a per connection basis.

We are a facilities-based provider of Internet access and communications services. Facilities-based providers require significant physical assets, or network facilities, to provide their services. Typically when a facilities-based network services provider begins providing its services in a new jurisdiction losses are incurred for several years until economies of scale have been achieved. Our foreign operations are in Europe, Canada, Mexico and Japan. Europe accounts for roughly 80% of our foreign operations. Our European operations have incurred losses and will continue to do so until our European customer base and revenues have grown sufficiently to achieve economies of scale.

Due to our strategic acquisitions of network assets and equipment, we believe we are well positioned to grow our revenue base. We continue to purchase and deploy network equipment to parts of our network to maximize the utilization of our assets and to expand and increase the capacity of our network. Our future capital expenditures will be based primarily on the expansion of our network and the addition of on-net buildings. We plan to continue to expand our network and to increase the number of on-net buildings we serve including multi-tenant office buildings and carrier neutral data centers. Many factors can affect our ability to add buildings to our network. These factors include the willingness of building owners to grant us access rights, the availability of optical fiber networks to serve those buildings, the cost to connect buildings to our network and equipment availability.

Three Months Ended March 31, 2015 Compared to the Three Months Ended March 31, 2014

The following summary table presents a comparison of our results of operations with respect to certain key financial measures. The comparisons illustrated in the table are discussed in greater detail below.

	2015	Three months ended March 31, (in thousands)	2014	Percent Change
Service revenue	\$	97,242	\$ 92,937	4.6%
On-net revenue		71,234	69,087	3.1%
Off-net revenue		25,730	23,498	9.5%
Non-core revenue		278	352	(21.0)%
Network operations expenses (1)		41,079	38,836	5.8%
Selling, general, and administrative expenses (2)		29,677	26,285	12.9%
Gains on equipment transactions		1,548	2,295	(32.5)%
Gain on lease termination		10,110		NM
Depreciation and amortization expenses		17,513	17,204	1.8%
Interest expense		11,307	11,303	0.0%
Loss on debt extinguishment and redemption		10,144		NM
Income tax provision		862	1,616	(46.7)%

(1) Includes equity-based compensation expenses of \$172 and \$113 in the three months ended March 31, 2015 and 2014, respectively.

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

(2) Includes equity-based compensation expenses of \$2,969 and \$1,893 in the three months ended March 31, 2015 and 2014, respectively.

Service Revenue. Our service revenue increased 4.6% for the three months ended March 31, 2015 from the three months ended March 31, 2014. The impact of exchange rates resulted in a decrease of revenues for the three months ended March 31, 2015 of approximately \$4.3 million. All foreign currency comparisons herein reflect our first quarter 2015 results translated at the average foreign currency exchange rates for the first quarter of 2014. For the three months ended March 31, 2015 and 2014, on-net, off-net and non-core revenues represented 73.3%, 26.4% and 0.3% and 74.3%, 25.3% and 0.4% of our service revenue, respectively.

Table of Contents

Revenues from our corporate and net centric customers represented 56.7% and 43.3% of total service revenue, respectively, for the three months ended March 31, 2015 and represented 51.5% and 48.5% of total service revenue, respectively, for the three months ended March 31, 2014. Revenues from corporate customers increased 15.2% to \$55.1 million for the three months ended March 31, 2015 from \$47.9 million for the three months ended March 31, 2014. Revenues from our net-centric customers decreased by 6.6% to \$42.1 million for the three months ended March 31, 2015 from \$45.1 million for the three months ended March 31, 2014 primarily due to the negative impact of foreign exchange.

Our on-net revenues increased 3.1% for the three months ended March 31, 2015 from the three months ended March 31, 2014. We increased the number of our on-net customer connections by 12.2% at March 31, 2015 from March 31, 2014. On-net customer connections increased at a greater rate than on-net revenues primarily due to the 9.1% decline in our on-net ARPU, primarily from a decline in ARPU for our net centric customers and from the negative impact of foreign exchange. ARPU is determined by dividing revenue for the period by the average customer connections for that period. Our average price per megabit for our installed base of customers is determined by dividing the aggregate monthly recurring fixed charges for those customers by the aggregate committed data rate for the same customers. The decline in on-net ARPU is partly attributed to volume and term based pricing discounts. Additionally, on-net customers who cancel their service from our installed base of customers, in general, have an ARPU that is greater than the ARPU for our new customers due to declining prices primarily for our on-net services sold to our net-centric customers. These trends resulted in the reduction to our on-net ARPU and a 19.5% decline in our average price per megabit for our installed base of customers.

Our off-net revenues increased 9.5% for the three months ended March 31, 2015 from the three months ended March 31, 2014. Our off-net revenues increased as we increased the number of our off-net customer connections by 21.4% at March 31, 2015 from March 31, 2014. Our off-net customer connections increased at a greater rate than our off-net revenue primarily due to the 9.1% decrease in our off-net ARPU.

Our non-core revenues decreased 21.0% for the three months ended March 31, 2015 from the three months ended March 31, 2014. The number of our non-core customer connections decreased 21.7% at March 31, 2015 from March 31, 2014. We do not actively market these acquired non-core services and expect that the service revenue associated with them will continue to decline.

Network Operations Expenses. Network operations expenses include the costs of personnel associated with service delivery, network management and customer support, network facilities costs, fiber and equipment maintenance fees, leased circuit costs, and access and facilities fees paid to building owners. Non-cash equity-based compensation expense is included in network operations expenses consistent with the classification of the employee's salary and other compensation. Our network operations expenses, including non-cash equity-based compensation expense, increased 5.8% for the three months ended March 31, 2015 from the three months ended March 31, 2014. The increase is primarily attributable to an increase in costs related to our network and facilities expansion activities and the increase in our off-net revenues. When we provide off-net services we also assume the cost of the associated tail-circuits.

Selling, General, and Administrative (SG&A) Expenses. Our SG&A expenses, including non-cash equity-based compensation expense, increased 12.9% for the three months ended March 31, 2015 from the three months ended March 31, 2014. Non-cash equity-based compensation expense is included in SG&A expenses consistent with the classification of the employee's salary and other compensation and was \$3.0 million for the three months ended March 31, 2015 and \$1.9 million for the three months ended March 31, 2014. SG&A expenses increased primarily from an increase in salaries and related costs required to support our expansion and the increase in our sales efforts and a \$0.5 million increase in our legal and economic analysis fees primarily associated with U.S. net neutrality and interconnection regulatory matters. Our sales force headcount increased by 9.3% from 420 at March 31, 2014 to 459 at March 31, 2015.

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

Gains on Equipment Transactions. In the three months ended March 31, 2015 and March 31, 2014, we exchanged certain used network equipment for new network equipment and cash consideration resulting in gains of \$1.5 million and \$2.2 million, respectively, based upon the estimated fair value of the new network equipment less the carrying amount of the returned used network equipment and the cash paid.

Gain on capital lease termination. In March 2015 we elected to terminate certain IRU capital lease obligations in Spain with a vendor. Under our estimate of the termination provisions of the related contract we recorded an estimated termination liability of \$8.1 million. The difference between the remaining net present value of the related IRU capital leases (\$29.9 million), the remaining net book value of the IRU assets (\$10.0 million) and the termination liability and amounts due through the termination date was recorded as a gain on capital lease termination of \$10.1 million in the three months ended March 31, 2015.

Depreciation and Amortization Expenses. Our depreciation and amortization expense increased 1.8% for the three months ended March 31, 2015 from the three months ended March 31, 2014. The increase is primarily due to the depreciation expense associated with the increase in deployed fixed assets.

Interest Expense. Interest expense results from interest incurred on our \$250.0 million of senior secured notes that we issued on February 20, 2015, \$200.0 million of senior unsecured notes that we issued on April 9, 2014, \$240.0 million of senior secured notes that we issued in August 2013 and January 2011 and redeemed in March 2015, \$92.0 million of convertible senior notes that we issued in June 2007 and repaid in June 2014, and interest on our capital lease obligations. Our interest expense was unchanged for the three months ended March 31, 2015 from the three months ended March 31, 2014.

Table of Contents

Debt extinguishment, redemption and new debt issuance- \$250.0 million. In March 2015, we redeemed our \$240.0 million 8.375% senior notes due in 2018 at a redemption price of 104.188% of the \$240.0 million principal amount thereof plus accrued and unpaid interest with the proceeds from our February 2015 issuance of \$250.0 million of 5.375% senior secured notes and existing cash on hand. As a result of this transaction we incurred a loss on debt extinguishment and redemption of \$10.1 million in the three months ended March 31, 2015.

Income Tax Provision. Our income tax provision was \$0.9 million for the three months ended March 31, 2015 and \$1.6 million for the three months ended March 31, 2014. The effective income tax rates are different from the U.S. federal income tax statutory rate of 35.0% primarily due to the impact of discrete expenses. Since we are near breakeven these discrete items result in a significant impact on the effective income tax rate during the period. Additional deviation from the U.S. federal income tax statutory rate are due to permanent differences resulting from non-deductible equity-based compensation expense and from the impact of state taxes and foreign losses that have not met the criteria for recording as an income tax benefit.

Buildings On-net. As of March 31, 2015 and 2014, we had a total of 2,155 and 2,024 on-net buildings connected to our network, respectively.

Liquidity and Capital Resources

In assessing our liquidity, management reviews and analyzes our current cash balances, accounts receivable, accounts payable, accrued liabilities, capital expenditure commitments, and required capital lease and debt payments and other obligations.

Cash Flows

The following table sets forth our consolidated cash flows.

(in thousands)	Three months ended March 31,	
	2015	2014
Net cash provided by operating activities	\$ 18,372	\$ 10,636
Net cash used in investing activities	(12,916)	(15,596)
Net cash used in financing activities	(30,261)	(35,772)
Effect of exchange rates on cash	(2,935)	(387)
Net decrease in cash and cash equivalents during period	\$ (27,740)	\$ (41,119)

Net Cash Provided by Operating Activities. Our primary sources of operating cash are receipts from our customers who are billed on a monthly basis for our services. Our primary uses of operating cash are payments made to our vendors, employees and interest payments made to our capital lease vendors and our note holders.

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

Net Cash Used In Investing Activities. Our primary use of cash for investing activities is for purchases of property and equipment. Purchases of property and equipment were \$12.9 million and \$15.6 million for the three months ended March 31, 2015 and 2014, respectively. The changes in purchases of property and equipment are primarily due to the timing and scope of our network expansion activities including geographic expansion and adding buildings to our network.

Net Cash Used In Financing Activities. Our primary uses of cash for financing activities are for principal payments under our capital lease obligations, dividend payments, stock purchases and in the three months ended March 31, 2015 we redeemed our \$240.0 million senior secured notes for a payment of \$251.3 million. During the three months ended March 31, 2015 and 2014 we paid \$8.1 million and \$14.2 million, respectively, for purchases of our common stock. Principal payments under our capital lease were \$3.7 million and \$3.4 million for the three months ended March 31, 2015 and 2014, respectively. During the three months ended March 31, 2015 and 2014 we paid \$16.0 million and \$18.4 million, respectively, for our quarterly dividend payments. During the three months ended March 31, 2015 we received net proceeds of \$248.7 million from the issuance of our \$250.0 million senior secured notes.

Cash Position and Indebtedness

Our total indebtedness at March 31, 2015 was \$583.6 million and our total cash and cash equivalents were \$260.0 million. Our total indebtedness at March 31, 2015 includes \$132.0 million of capital lease obligations for dark fiber under long term IRU agreements.

Summarized Financial Information of Holdings

Holdings is an unrestricted subsidiary as defined under the indenture governing our 2021 Notes and our 2022 Notes and Holdings is also a guarantor under these notes. Under the indenture we are required to disclose financial information of Holdings including its assets, liabilities and its operating results (Holdings Financial Information). The Holdings Financial Information as of and for the three months ended March 31, 2015 is detailed below (in thousands).

Table of Contents

		March 31, 2015 (Unaudited)
Cash and cash equivalents	\$	50,175
Total assets	\$	50,175
Investment from subsidiaries	\$	118,664
Common stock		46
Retained deficit		(68,535)
Total equity	\$	50,175

		Three Months Ended March 31, 2015 (Unaudited)
Equity-based compensation expense		3,430
Interest income		10
Net loss	\$	(3,420)

Common Stock Buyback Program

Our board of directors has approved purchases our common stock through February 29, 2016 under a buyback program (the "Buyback Program"). We purchased approximately 0.2 million and 0.4 million shares for \$8.1 million and \$14.2 million during the three months ended March 31, 2015 and 2014, respectively. As of March 31, 2015 there was a total of \$29.1 million available under the Buyback Program.

Dividends on Common Stock and Return of Capital Program

Our initial quarterly dividend payment was made in the third quarter of 2012. In addition to our regular quarterly dividends, our board of directors has approved an additional return of capital program (the "Capital Program") for our shareholders. Under the Capital Program we plan on returning additional capital to our shareholders each quarter through either stock buybacks or a special dividend or a combination of stock buybacks and a special dividend. The aggregate payment under the Capital Program was initially at least \$10.0 million each quarter and was increased to be at least \$12.0 million each quarter. Amounts paid under our Capital Program are in addition to our regular quarterly dividend payments. A summary of our quarterly dividends paid since our initial dividend payment and amounts paid under the Capital Program are included in Note 7 to our interim consolidated financial statements.

The payment of any future dividends and any other returns of capital will be at the discretion of our board of directors and may be reduced, eliminated or increased and will be dependent upon our financial position, results of operations, available cash, cash flow, capital requirements, limitations under the Company's debt indentures as described in Note 3 to our interim condensed consolidated financial statements and other factors deemed relevant by our board of directors. We are a Delaware Corporation and under the General Corporate Law of the State of Delaware distributions may be restricted including a restriction that distributions, including stock purchases and dividends, do not result in an impairment of a corporation's capital, as defined under Delaware Law.

Contractual Obligations and Commitments

There have been no material changes to our contractual obligations and commitments included in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations of our annual report on Form 10-K for the year ended December 31, 2014, except for the issuance of our \$250.0 million senior secured notes, the redemption of our \$240.0 million senior secured notes and our purchase and installment payment agreements as described in Notes 2 and 3 to our interim condensed consolidated financial statements.

Future Capital Requirements

We believe that our cash on hand and cash generated from our operating activities will be adequate to meet our working capital, capital expenditure, debt service, dividend payments and other cash requirements for the next twelve months if we execute our business plan.

Any future acquisitions or other significant unplanned costs or cash requirements in excess of amounts we currently hold may require that we raise additional funds through the issuance of debt or equity. We cannot assure you that such financing will be available on terms acceptable to us or our stockholders, or at all. Insufficient funds may require us to delay or scale back the number of buildings and markets that we add to our network, reduce our planned increase in our sales and marketing efforts, or require us to otherwise alter our business plan or take other actions that could have a material adverse effect on our business, results of operations and financial condition. If issuing equity securities raises additional funds, substantial dilution to existing stockholders may result.

We may need to or elect to refinance all or a portion of our indebtedness at or before maturity and we cannot provide assurances that we will be able to refinance any such indebtedness on commercially reasonable terms or at all. In addition, we may elect to secure additional capital in the future, at acceptable terms, to improve our liquidity or fund acquisitions or for general corporate purposes. In addition, in an effort to reduce future cash interest payments as well as future amounts due at maturity or to extend debt maturities, we may, from time to time, issue new debt, enter into debt for debt, or cash transactions to purchase our outstanding debt securities in the open market or through privately negotiated transactions. We will evaluate any such transactions in light of the existing market conditions. The amounts involved in any such transaction, individually or in the aggregate, may be material.

Table of Contents

Off-Balance Sheet Arrangements

We do not have relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. In addition, we do not engage in trading activities involving non-exchange traded contracts. As such, we are not materially exposed to any financing, liquidity, market or credit risks that could arise if we had engaged in these relationships.

Critical Accounting Policies and Significant Estimates

Management believes that as of March 31, 2015, there have been no material changes to our critical accounting policies and significant estimates from those listed in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations of our annual report on Form 10-K for the year ended December 31, 2014.

Recent Accounting Pronouncements

Recent Accounting Pronouncements to be Adopted

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for us on January 1, 2017. Early application is not permitted. A one year deferral of the new standard was recently proposed which, if adopted would defer the effective date to January 1, 2018. The standard permits the use of either the retrospective or cumulative effect transition method. We are evaluating the effect that ASU 2014-09 will have on our consolidated financial statements and related disclosures. We have not yet selected a transition method nor have we determined the effect of the standard on our ongoing financial reporting.

In April 2015, the FASB issued ASU No. 2015-03, *Interest - Imputation of Interest - Simplifying the Presentation of Debt Issuance Costs*. The ASU will require debt issuance costs to be presented as a deduction from the corresponding debt liability making the presentation of debt costs consistent with the presentation of debt discounts or premiums. The new standard is effective for us on January 1, 2016 and the ASU must be applied retrospectively to all prior periods.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Management believes that as of March 31, 2015, there have been no material changes to our exposures to market risk from those disclosed in Item 7A Quantitative and Qualitative Disclosures About Market Risk, of our annual report on Form 10-K for the year ended December 31, 2014.

ITEM 4. CONTROLS AND PROCEDURES.

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), an evaluation was performed under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based upon that evaluation, our management, including our principal executive officer and our principal financial officer, concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of the end of the period covered by this report.

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in legal proceedings in the normal course of our business that we do not expect to have a material impact on our operations or results of operations. Note 4 of our interim condensed consolidated financial statements includes information on these proceedings.

Table of Contents**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

Our Board of Directors had authorized a plan to permit the repurchase of our common stock in negotiated and open market transactions. We may purchase shares from time to time depending on market, economic, and other factors. The authorization will continue through February 29, 2016.

The following table summarizes our common stock repurchases during the first quarter of 2015 made pursuant to this authorization. During the quarter, we did not purchase shares outside of this program, and all purchases were made by or on behalf of the Company and not by any affiliated purchaser (as defined by Rule 10b-18 of the Securities Exchange Act of 1934).

Issuer Purchases of Equity Securities

Period	Total Number of Shares (or Units) Purchased	Average Price Paid per Share (or (Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
January 1-31, 2015	17,200	\$ 34.58	17,200	\$ 36,590,153
February 1-28, 2015		\$		\$ 36,590,153
March 1-31, 2015	214,937	\$ 35.01	214,937	\$ 29,065,848

ITEM 5. OTHER INFORMATION

Pursuant to Section 13(r) of the Securities Exchange Act of 1934, the Company is required to disclose certain business activities relating to Iran engaged in by itself or its affiliates. During the reporting period, C.C.D. Cogent Communications Deutschland GmbH (Cogent Germany), an indirect, wholly-owned subsidiary of the Company, provided on-net internet access and point-to-point connectivity services to PMS Press+Media Services GmbH, which the Company understands is affiliated with the Islamic Republic of Iran Broadcasting Company (IRIB), an Iranian state-owned entity. Cogent Germany received \$10,008 in gross revenue during the reporting period. Cogent Germany did not have net profits during the reporting period. The Company has determined that these services were provided starting in June 2012. The Company has determined that the amount of gross revenues for these services during prior reporting periods were \$224,587. Cogent Germany did not have any net profits during the prior reporting periods. Cogent Germany has terminated these services, and the matter has been voluntarily disclosed to the U.S. Department of Treasury's Office of Foreign Assets Control (OFAC).
