The new section will replace Section 605, Revenue Recognition and creates modifications to various other revenue accounting standards for specialized transactions and industries. The section is intended to conform revenue accounting principles with a concurrently issued International Financial Reporting Standards with previously differing treatment between United States practice and those of much of the rest of the world, as well as, to enhance disclosures related to disaggregated revenue information. The updated guidance is effective for annual reporting periods beginning on or after December 15, 2017, and interim periods within those annual periods. The Company will

adopt the new provisions of this accounting standard at the beginning of fiscal year 2018, given that early adoption is not an option. The Company will further study the implications of this statement in order to evaluate the expected impact on the financial statements.

Other income for the six months ended June 30, 2015 was \$37,000 compared to \$12,000 for the six months ended June 30, 2014. Other income is comprised of interest earned on cash, cash equivalents, and available for sale investment balances.

**Income Taxes.** For the three and six months ended June 30, 2015, the Company recorded income tax expense of \$164,000 and \$239,000, or 39.6% and 40.9% of income before taxes, respectively. For the three and six months ended June 30, 2014, the Company recorded income tax expense of \$48,000 and \$106,000, or 40.7% and 36.4% of income before taxes, respectively. The income tax provision for the three and six months ended June 30, 2015 and 2014 is comprised of federal and state taxes. The primary differences between the Company's June 30, 2015 and 2014 effective tax rates and the statutory federal rate are expenses related to stock-based compensation and nondeductible meals and entertainment. The Company reassesses its effective rate each reporting period and adjusts the annual effective rate if deemed necessary, based on projected annual taxable income.

**Other Comprehensive Income.** Other comprehensive income is composed of unrealized gains and losses, net of tax, from available for sale investments.

**Liquidity and Capital Resources**

The Company has financed its operations with proceeds from public and private stock sales, sales of its services and products and legal settlement proceeds. At June 30, 2015, working capital was \$21,801,000 compared to \$20,744,000 at December 31, 2014. During the six months ended June 30, 2015, cash and cash equivalents increased \$1,475,000 from \$7,237,000 at December 31, 2014, to \$8,712,000 at June 30, 2015.

**Operating Activities:** Net cash provided by operating activities during the six months ended June 30, 2015, was \$1,723,000. Net income of \$346,000, plus non-cash adjustments of \$932,000 and changes in operating assets and liabilities of \$445,000 resulted in the \$1,723,000 of cash provided by operating activities. The largest component of the change in operating assets and liabilities was deferred revenue which increased \$1,009,000 as a result of the

timing of customer billings. The non-cash adjustments consisted of depreciation and amortization expense, changes in allowance for doubtful accounts, deferred income tax expense, and stock-based compensation expense. In the normal course of business, our accounts receivable, accounts payable, accrued liabilities and deferred revenue will fluctuate depending on the level of revenues and related business activity, as well as billing arrangements with customers and payment terms with retailers.

Investing Activities: Net cash used in investing activities during the six months ended June 30, 2015 was \$208,000. This was related to the net purchases of available for sale investments of \$107,000, and purchase of property and equipment of \$101,000.

The Company believes that based upon current business conditions and plans, its existing cash and investment balances and future cash generated from operations will be sufficient for its cash requirements for at least the next twelve months. In the event additional financing is needed, the Company maintains a \$7,500,000 line of credit, collateralized by its available for sale investments. Amounts borrowed, if any, would bear interest at the 30-day LIBOR rate plus 2% (effective rate of 2.19% as of June 30, 2015).
