 - o Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 8.01. Other Events.

On November 19, 2015, the Michigan Public Service Commission (MPSC) issued an opinion and order (Electric Order) authorizing Consumers Energy Company (Consumers Energy) to increase its retail electric rates to produce approximately \$130 million of annual revenue on and after December 1, 2015. In addition, after the date of closing of Consumers Energy s acquisition of the Jackson Power Plant, the Electric Order authorizes approximately \$35 million of additional annual revenue to be collected. On and after April 15, 2016, Consumers Energy s retail electric rates will be reduced so that the annual increase in retail electric rates will be approximately \$126 million higher than the retail electric rates charged today. The Electric Order was based upon a projected 2015-2016 test year and a 10.3% rate of return on common equity.

Consumers Energy had, under the provisions of Michigan law, previously self-implemented a retail electric rate increase effective in June 2015 in the annual amount of \$110 million. The Electric Order requires Consumers Energy to file a report within 90 days regarding the amount of revenue collected during the self-implementation period and a proposed reconciliation with the final rates and rate design approved in the Electric Order.

The Electric Order contains a number of other findings, including but not limited to the denial of Consumers Energy s requests for an Investment Recovery Mechanism and a Revenue Adjustment Mechanism. The Electric Order approved the continued implementation of an advanced-metering opt-out tariff.

For more information and to obtain a copy of the Electric Order please visit the MPSC s website at: <http://efile.mpsc.state.mi.us> (Case No. U-17735).
