

INTERNATIONAL BUSINESS MACHINES CORP  
Form DEFA14A  
April 03, 2019

**UNITED STATES**  
**SECURITIES AND EXCHANGE COMMISSION**

**Washington, D.C. 20549**

**SCHEDULE 14A**

Proxy Statement Pursuant to Section 14(a) of  
the Securities Exchange Act of 1934 (Amendment No. )

Filed by the Registrant  X

Filed by a Party other than the Registrant  O

Check the appropriate box:

- Preliminary Proxy Statement
- Confidential, for Use of the Commission Only (as permitted by Rule 14a-6(e)(2))**
- Definitive Proxy Statement
- Definitive Additional Materials
- Soliciting Material Pursuant to §240.14a-12

**International Business Machines Corporation**

(Name of Registrant as Specified In Its Charter)

(Name of Person(s) Filing Proxy Statement, if other than the Registrant)

Payment of Filing Fee (Check the appropriate box):

- No fee required.
- Fee computed on table below per Exchange Act Rules 14a-6(i)(1) and 0-11.
  - (1) Title of each class of securities to which transaction applies:
  - (2) Aggregate number of securities to which transaction applies:
  - (3) Per unit price or other underlying value of transaction computed pursuant to Exchange Act Rule 0-11 (set forth the amount on which the filing fee is calculated and state how it was determined):
  - (4) Proposed maximum aggregate value of transaction:

(5) Total fee paid:

o  
o

Fee paid previously with preliminary materials.

Check box if any part of the fee is offset as provided by Exchange Act

Rule 0-11(a)(2) and identify the filing for which the offsetting fee was paid previously. Identify the previous filing by registration statement number, or the Form or Schedule and the date of its filing.

(1) Amount Previously Paid:

(2) Form, Schedule or Registration Statement No.:

(3) Filing Party:

(4) Date Filed:

**Persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB control number.**

## Edgar Filing: INTERNATIONAL BUSINESS MACHINES CORP - Form DEFA14A

In an effort to provide increased transparency, IBM's Executive Compensation and Management Resources Committee is providing the following additional disclosure regarding the design of IBM's executive compensation programs as supplemental information to its Notice of Annual Meeting and Proxy Statement filed on March 11, 2019.

### Disclosure of Performance Share Unit Program Targets and Rationale

2016-2018 Performance Period	Operating EPS *	Free Cash Flow *
3 Year Cumulative Target	\$ 42.50	\$ 34.4B
3 Year Cumulative Performance	\$ 41.06	\$ 36.5B
% Attainment	97%	106%
Incentive Score	93	115
Weighting	70%	30%
Final Score		<b>99</b>

\* Non-GAAP financial metrics. See Appendix A in the Company's 2019 Proxy Statement for information on how we calculate these performance metrics.

2016 free cash flow results as originally reported, prior to restatement for adoption of 2017 FASB guidance on stock-based compensation.

2016-2017 Operating EPS as originally reported, prior to restatement for adoption of 2018 FASB guidance on pension.

In setting goals for IBM's performance-based compensation, the Compensation Committee takes into consideration meaningful business and economic changes within the context of IBM's rigorous long-term business objectives.

Targets are established at the beginning of each three-year performance period. These targets are based on IBM's financial model, as shared with investors, and the Board-approved annual budget. The 2016-2018 long term incentive targets are below the prior plan's targets due to: (1) strategic decisions to aggressively reshape the business profile towards cloud, AI, blockchain, security and other emerging areas while shifting away from low value businesses, and (2) a sizeable negative impact from a strengthening U.S. Dollar over the same period.

Throughout 2015 and 2016, the above two drivers were regularly communicated to investors, including in the Company's guidance set forth in its Quarterly Earnings Call prepared remarks and Investor Day Presentations, all of which are on file with the SEC. During the January 2016 Earnings Call, specific guidance was provided for both Operating EPS and Free Cash Flow realization, and targets for the 2016-2018 performance period were set at or above Company guidance.

### Disclosure of Annual Incentive Program Targets and Rationale

Financial Metrics	2018 Target	2018 Results	2018 % Attainment	Weight	Resulting Incentive Score (1)	Qualitative Adjustment	Pool Funding Score
Strategic Imperative Revenue (2)	\$ 41.0B	\$ 39.8B	97%	<b>20%</b>			
Operating Net Income (3)	\$ 13.4B	\$ 12.7B	95%	<b>40%</b>	<b>96</b>	<b>-15</b>	<b>81</b>

Operating Cash Flow (3)                      \$ 16.1B \$ 15.6B                      97%                      **40%**

---

- (1) Based on AIP payout table.
- (2) In 2019, total IBM revenue will replace Strategic Imperatives revenue.
- (3) Non-GAAP financial metrics. See Appendix A in the Company's 2019 Proxy Statement for information on how we calculate these performance metrics.

IBM sets business objectives for the Annual Incentive Program at the beginning of each year, which are approved by the Board of Directors. The Compensation Committee and the Board of Directors review IBM's annual business objectives

---

and set the metrics and weightings for the annual program to reflect current business priorities. These objectives translate to targets for IBM and for each business unit for purposes of determining the target funding of the Annual Incentive Program.

For the 2018 Annual Incentive Plan, the targets for each of the three financial metrics were more rigorous than external guidance presented to investors in the prepared remarks of the January 2018 Quarterly Earnings Call, which is on file with the SEC:

- Target for Strategic Imperatives Revenue was above our long-term objective of ~\$40B
- Target for Operating Net Income was above required levels to achieve external guidance for Operating EPS of at least \$13.80
- Target for Operating Cash Flow supported free cash flow realization well above IBM's externally communicated financial model of over 90%

#### **Rationale of Short-Term and Long-Term CEO Compensation Mix**

Given the business context and programs described above, the Board and Compensation Committee have been intentional about the components of the CEO total compensation package.

As described in the Proxy Statement, the Board and the Compensation Committee benchmark CEO total target compensation to the 50<sup>th</sup> percentile of companies with similar size, scope, and complexity. To achieve this median pay package, the Board allocates compensation across base salary, short-term incentive and long-term incentive as follows:

- A significant portion of the total package is at risk and based on Company performance, with only 8% of pay being delivered in base salary.
- The short-term, performance-based incentive target was increased in 2015 to reflect the importance of annual execution in the portfolio shifts that would be needed to deliver future, long-term shareholder value. It has not been further increased since 2015.
- The Board and Compensation Committee have ensured the balance of the CEO compensation is long-term, largely performance-based, and aligned to shareholder interest. This is further supported by other compensation

policies like outright stock ownership guidelines where the requirement for the CEO, at 10 times salary, is significantly above the peer group median. The CEO currently has outright stock holdings at 22 times her base salary.

In early 2016, the Board made a one-time grant of premium-priced options to the CEO. This unique grant was made at a crucial point in a multi-year transformation, to ensure continuity of leadership and alignment with stockholder interests. Since that time, no other one-time grants have been made to the CEO.

Overall, CEO pay represents a performance-based structure supporting the unique business transformation for the Company and aligning to the long-term interest of our shareholders.
