THE QUANTUM GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

APRIL 30, 2007

(UNAUDITED)

Note 1:

Description of Company

The Company's business model is to become a provider of services to the healthcare industry in three complementary areas: providing healthcare services to consumers through its *provider systems*; providing *management support services* to physicians, Managed Care Organizations (MCOs), healthcare facilities and physician associations; and *technology solutions* for the healthcare delivery system.

The Company has three MCO contracts providing members to a number of the Company's Community Health Systems (CHS) in the State of Florida. Two of the three contracts became effective in January 2007 and are full risk. The third contract, which has been effective since September 2005, has not reached the minimum threshold of 300 members, which is required to be at full risk. The Company started providing healthcare support services by entering into full risk management agreements with billing companies, whereby, the Company runs the operation and accepts all risk of ownership.

Basis of Presentation

The condensed consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles for interim financial information and Regulation SB. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements.

The accompanying condensed consolidated financial statements are unaudited. However, in the opinion of management, they include all adjustments necessary for a fair presentation of financial position, results of operations and cash flows. All adjustments made during the six months ended April 30, 2007 and 2006 were of a normal, recurring nature. The amounts presented for the six months ended April 30, 2007, are not necessarily indicative of the results to be expected for any other interim period or for the entire fiscal year. Additional information is contained in the Annual Report on Form 10-KSB/A of the Company for the year ended October 31, 2006, which should be read in conjunction with this quarterly report.

Certain reclassifications have been made to conform prior year financial information to the current period presentation. Those reclassifications did not impact working capital, total assets, total liabilities, net income or stockholders' equity.

Going Concern

The Company has limited revenues to date. Since its inception, the Company has been dependent upon the receipt of capital investment to fund its continuing activities. In addition to the normal risks associated with a new business venture, there can be no assurance that the Company's business plan will be successfully executed. The Company's ability to execute its business model will depend on its ability to obtain additional financing and achieve a profitable level of operations. There can be no assurance that sufficient financing will be obtained. Nor can any assurance be made that the Company will generate substantial revenues or that the business operations will prove to be profitable. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

Note 2:

Summary of Significant Accounting Policies

Cash Equivalents

The Company considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents. At April 30, 2007, there were no cash equivalents.

Property and Equipment

Furniture and equipment are stated at cost. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets, which range from three to five years.

THE QUANTUM GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

APRIL 30, 2007

(UNAUDITED)

Note 2:

Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates and the differences could be material.

Income Taxes

The Company has not recognized any future tax benefit arising from net operating loss carry forward in the accompanying condensed consolidated financial statements in accordance with the provisions of SFAS No. 109, as the realization of this deferred tax benefit is not likely. A 100% valuation allowance has been established to offset the entire amount of the Company's net deferred tax asset.

Goodwill

Goodwill is recorded in connection with business combinations as the excess purchase price over the fair value of the net assets acquired. Goodwill is not amortized, but tested for recoverability annually or more frequently if indicators of possible impairment exist. The Company will recognize an impairment loss if the carrying value of the asset exceeds the fair value determination. As of April 30, 2007, there was no impairment of goodwill.

Principles of Consolidation

The accompanying condensed consolidated financial statements for the period ended April 30, 2007 include the accounts of The Quantum Group, Inc. and its subsidiaries, Renaissance Health Systems, Inc., Quantum Medical Technologies, Inc., QMed Billing, Inc. and The Quantum Agency, Inc. The accounts of the billing companies in which the Company has full risk of the operations are variable interest entities, as defined by FASB Interpretation No. 46(R), and therefore have been consolidated. All Intercompany accounts have been eliminated in consolidation.

Variable Interest Entities

The Company is a counterparty to various management agreements with certain entities that meet the definition of a Variable Interest Entity pursuant to FIN 46(R). The Company has included the net assets and operations of these entities as of April 30, 2007, as the Company believes it is the Primary Beneficiary, as defined in the Interpretation.

These entities engage in the business of medical billing and collections. As of April 30, 2007, the book value of the assets and liabilities associated with these entities totaled approximately \$244,500 and \$169,000, respectively. In addition, the revenues and net loss derived from these entities were \$793,000 and (\$105,000), respectively, for the six months ended April 30, 2007.

Until February 28, 2007, the Company was a Primary Beneficiary of another billing & collection company. At the time of deconsolidation, this entity had a book value of approximately \$26,000. In addition, the revenues and net loss derived from this entity was approximately \$34,000 and (\$32,000), respectively.

Revenue Recognition

Provider Systems

The Company has entered into full risk contracts with three Managed Care Organizations (MCOs). The Company started treating patients for one of the contracts in September 2005, but is not at full risk until the MCO provides a minimum of 300 members to the Company. The threshold of 300 patients has not been reached as of

THE QUANTUM GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

APRIL 30, 2007

(UNAUDITED)

Note 2:

Summary of Significant Accounting Policies (Continued)

Revenue Recognition (continued)

Provider Systems (continued)

April 30, 2007. The Company has recorded income relating to the primary care physicians' charges for the six month period ended April 30, 2007. Medical costs associated with the revenue were equal to the revenue. The other two contracts started in January 2007 and are full risk from inception. Under a full risk contract, the Company will receive a monthly fee for each patient that chooses one of the Company's physicians as their primary care physician. The fixed fee is based on a percentage of the premium the MCO receives. Revenue under this agreement is generally recorded in the period services are rendered at the rates then in effect, with quarterly adjustments. The direct medical costs are a combination of actual medical costs paid by the MCO plus a reserve for future medical costs incurred but not reported (IBNR).

Provider Support Services

In June 2006, the Company entered into a management agreement with a medical billing and collections company. Under the terms of the agreement, the Company paid an amount to the billing and collection company and assumed all management responsibility and financial risk of the operation of the business. The Company has included all the revenues and expenses for this operation in the Company's condensed consolidated financial statements. Revenues are recorded upon the collection of billed service for their clients. The Company and the medical billing and collection company mutually agreed to discontinue the management agreement as of February 28, 2007.

In December 2006, the Company entered into management agreements with two additional medical billing companies. Each of the two companies signed similar agreements. Under the terms of these agreements, the Company paid the billing companies \$100 and promised to assist in total operations for a period of 210 days. In return, the billing companies assigned all revenues and expenses to the Company. Included in the agreements, the Company will pay a management fee to the current manager and a fee for support services to one employee. There is no employee-employer relationship created by the agreements. The Company has provided management services and sales support.

The Company entered into an agreement with an MCO to assist in the recruitment of members for a fixed fee per member enrolled. The Company recognizes revenue, net of commissions paid, in the month when the member signs up with the MCO.

Stock Split

On August 31, 2006, the shareholders authorized the board of directors to effect a reverse stock split of our outstanding common stock to comply with the initial listing requirements of a national securities exchange or initial quotation requirement on an automatic quotation system of a national securities association with the ratio to be determined by the board in the best interest of the Company. On March 9, 2007, the board of directors approved a 1:25 reverse stock split which was effectuated on March 29, 2007.

All share and per share amounts have been restated to reflect the reverse stock split.

Stock Compensation

Prior to November 1, 2006, the Company had followed Statement of Financial Accounting Standards (SFAS) No. 123 (SFAS No. 123), Accounting for Stock Based Compensation whereby companies may measure compensation costs for those plans using the method prescribed by Accounting Principles Board Opinion No. 25 (APB No. 25), Accounting for Stock Issued to Employees. No compensation expense was recognized in accounting for options granted to employees where the exercise price of the Company s employee stock options

THE QUANTUM GROUP, INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)****APRIL 30, 2007****(UNAUDITED)****Note 2:****Summary of Significant Accounting Policies (Continued)*****Stock Compensation (continued)***

equaled or exceeded the market price of the underlying stock on the date of grant. Stock options granted to consultants were accounted for in accordance with Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock Based Compensation.

Effective November 1, 2006, the Company adopted SFAS No. 123(R), Share-Based Payment which is a revision of SFAS No. 123, using the modified prospective transition method. Under this method, stock based compensation expense for the first quarter of fiscal 2007 includes compensation cost for all share-based payments modified or granted prior to, but not yet vested as of November 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123. Results for the first quarter of fiscal 2005 have not been restated.

As a result of the adoption of SFAS No. 123(R) on November 1, 2006, the Company's net loss for the six months ended April 30, 2007 was approximately \$79,245 higher than if it had continued to account for the share-based compensation under APB No. 25.

Had the compensation expense for the stock option plan been determined based on the fair value of the options at the grant date consistent with the methodology prescribed under Statement of Financial Standards No. 123, Accounting for Stock Based Compensation, for the three month period ended April 30, 2006, the Company's net loss and loss earnings per share would have been affected to the pro forma amounts indicated below:

Net loss	
As reported	\$ (1,311,459)
Pro forma	\$ (1,464,724)
Loss per share	
As reported	\$ (1.41)
Pro forma	\$ (1.58)

As of April 30, 2007, the Company has 83,023 vested options with exercise prices ranging from \$10.00 to \$37.50 per share and expiring in years 2008 through 2012. The Company has granted an additional 676,934 options which have not been vested as of the quarter ended April 30, 2007 with exercise prices ranging from \$3.50 to \$25.00 and expiring in years between 2010 and 2021. These options vest between the years 2007 through 2011.

New Accounting Pronouncements

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115. SFAS No. 159 permits entities to choose, at specified election dates, to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective for financial statements issued for an entity's first fiscal year beginning after November 15, 2007. Adoption of SFAS No. 159 is not expected to have a material effect on the Group's condensed consolidated statements of financial condition, income or cash flows.

Note 3:

Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, accounts payable, notes payable and accrued liabilities approximate their fair value because of the short maturity of these financial instruments.

Note 4:

Loss Per Share

Basic loss per share is computed by dividing loss available to common shareholders by the weighted average number of common shares for the period. The computation of diluted loss per share is similar to basic loss per share, except that the denominator is increased to include the number of additional common shares that would

THE QUANTUM GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

APRIL 30, 2007

(UNAUDITED)

Note 4:

Loss Per Share (Continued)

have been outstanding if the potentially dilutive common shares, such as options, had been issued. Diluted loss per share is not presented as the effects would be anti-dilutive.

The Company has 108,294 warrants, with exercise prices ranging from \$5.00 to \$125.00 per share, and 83,023 vested options with exercise prices ranging from \$10.00 to \$37.50 per share, which are exercisable at April 30, 2007.

Note 5:

Accrued Payroll and Payroll Taxes

The Company owes executives earned, but unpaid compensation of \$876,511 at April 30, 2007. Additionally, at April 30, 2007, the Company owed \$134,000 in delinquent payroll taxes and penalties relating to the second and third calendar quarters of 2006. All payroll taxes subsequently have been paid when due.

Note 6:

Debt

Secured Convertible Debentures

On August 29, 2006, the Company signed an agreement with a placement agent to raise \$3,000,000 by selling 60 units in a private placement memorandum (August 2006 PPM). Each unit consists of a \$50,000 8% Convertible Debenture and 6,061 shares of restricted common stock (Bridge Shares). Each note payable matures on March 31, 2007, but has been extended without penalty by 60 days by the placement agent. The maturity date was extended by the placement agent to May 30, 2007. Principal and interest on the Secured Convertible Debentures may be converted into certain future sale of the Company's security at a conversion price equal to 70% of the offering price. The placement agent fees are equal to 10% commission of gross proceeds, 3% of gross proceeds for unaccountable expenses, one warrant for each unit sold to purchase 607 shares of common stock at \$8.25 per share and expenses not to exceed \$25,000. The private placement includes certain registration rights which generally require that if the Bridge Shares and the conversion shares are not registered by February 28, 2007, the Company will file a registration statement by March 31, 2007. A late registration penalty of 2% of the original principal amount in common stock, based upon average of the previous five days closing price bid prices (as reported on Bloomberg) if a registration is not filed by March 31, 2007. A registration statement had not been filed by March 31, 2007 and therefore the Company has accrued a liability for the late registration penalty in amount of \$29,545 (5,909 shares). The Debentures are secured by

all the assets of the Company subject to the investors in the interim bridge. This private placement ended on November 30, 2006 and 26 units were sold and a placement agent fee and reimbursement of expenses of \$169,000 plus one 5-year warrant to purchase 15,777 shares of the Company's common stock at a price of \$8.25 per share, valued at \$121,821 using the Black Scholes method. Under the agreement, the Company is required to use its best efforts to register the underlying shares and the Bridge shares with the Securities and Exchange Commission (SEC). In the event that a registration statement is not filed with the SEC, the Company is required to pay liquidated damages in the form of additional shares of common stock of the Company, which the Company is required to use its best efforts to register. The Company analyzed the transaction and the associated embedded conversion features and determined that the criteria for bifurcating an embedded conversion feature, and measuring at fair value, as detailed in SFAS 133, "Accounting for Derivative Instruments and Hedging Activities," were not met. Based on this finding and pursuant to EITF 00-27, "Application of Issue No. 98-5 to Certain Convertible Instruments," the Company has (i) allocated the proceeds received to the convertible instrument and the shares on a relative fair value basis, and (ii) recognized the beneficial conversion feature as a reduction to the carrying amount of the convertible debt and as additional paid-in capital. As a result, the Company allocated the proceeds from the sale of units (\$1,300,000) as follows: (1) \$534,975 to the convertible debt (2) \$534,279 to the shares and (3) \$230,746 to the beneficial conversion feature.

THE QUANTUM GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

APRIL 30, 2007

(UNAUDITED)

Note 6:

Debt (Continued)

On December 18, 2006, the Company issued a private placement memorandum (December 2006 PPM) to raise \$3,000,000 by selling 60 units under the same terms described above except the maturity date of the convertible debt is June 30, 2007 and the Company is required to file a registration agreement by June 30, 2007. When the offering was closed on March 16, 2007, the Company had sold all 60 units for \$3,000,000 and issued 363,675 shares of common stock. Under the agreement, the Company is required to use its best efforts to register the underlying shares and the Bridge shares with the Securities and Exchange Commission (SEC). In the event that a registration statement is not filed with the SEC, the Company is required to pay liquidated damages in the form of additional shares of common stock of the Company, which the Company is required to use its best efforts to register. The Debentures are secured by all the assets of the Company subject to the investors in the interim bridge and the holders of the Convertible Debentures sold in the August 2006 PPM. The Company analyzed the transaction and the associated embedded conversion features and determined that the criteria for bifurcating an embedded conversion feature, and measuring at fair value, as detailed in SFAS 133, "Accounting for Derivative Instruments and Hedging Activities," were not met. Based on this finding and pursuant to EITF 00-27, "Application of Issue No. 98-5 to Certain Convertible Instruments," the Company allocated the proceeds for the sale of the units (\$3,000,000) as follows: (1) \$1,498,623 to the convertible debt (2) \$887,888 to the shares and (3) \$624,489 to the beneficial conversion.

On March 29, 2007, the Company signed an agreement with a placement agent to raise \$1,550,000 by selling 31 units. Each unit consists of a \$50,000 8% Convertible Debenture maturing July 31, 2007, and 6,061 shares of restricted common stock (Bridge Shares). Each note payable matures on July 31, 2007, but can be extended by 60 days by the placement agent. Prior to the closing of a Secondary Public Offering, holders of Bridge Shares shall have the right, but not the obligation, to exchange their Bridge Shares for a pro-rata portion of up to \$1,550,000 of Public Offering Units. Principal and interest on the Secured Convertible Debentures may be converted into certain future sale of the Company's security at a conversion price equal to 70% of the offering price. The placement agent fees are equal to 10% commission of gross proceeds, 3% of gross proceeds for unaccountable expenses, one warrant for each unit sold to purchase 607 shares of common stock at \$8.25 per share and expenses not to exceed \$25,000. The private placement includes certain registration rights which generally require that if the Bridge Shares and the conversion shares are not registered by July 31, 2007, the Company will file a registration statement by July 31, 2007. A late registration penalty of 2% of the original principal amount in common stock, based upon average of the previous five days closing price bid prices (as reported on Bloomberg) if a registration is not filed by July 31, 2007. The Debentures are secured by all the assets of the Company subject to the investors in the interim bridge, the August 29, 2006 units and the December 18, 2006 units. See Note 10.

Notes Payable

On November 30, 2005, the Company entered into a 13% 2-year callable loan agreement for \$100,000. The terms of the loan agreement include quarterly interest-only payments. The loan is callable by the lender if any interest payment is not paid within 15 days of being notified by the lender that the interest payment is late. Additional compensation includes 1,200 shares of common stock. The value of the stock was determined by the closing market price on the date of the loan and is amortized over the term of the loan. The Company also paid \$6,500 in commissions to a placement agent. The agreement contains an anti-dilution provision on the additional compensation shares whereby the lender will receive additional shares to maintain a specific percentage of ownership. The Company issued an additional 967 shares in common stock during the quarter ended April 30, 2007.

On July 6, 2006, the Company signed an 8% promissory note and financing agreement for \$100,000 with a lender. The terms were consistent with the Bridge Financing Agreement except, among other items, that the note matures the earlier of 80 days from the funding of the note or the second day following the closing of an aggregate of \$2,000,000 of gross proceeds from a private placement. The note is unsecured. The lender and the Company agreed to extend the loan consistent with the Interim Bridge Financing Agreement dated August 21, 2006. Under this agreement, the lender will be issued 12,122 total shares. The proceeds from the financing were allocated

Debt (Continued)

Notes Payable (continued)

between the 8% Secured Promissory note and the common stock issued based on the fair value. The Company allocated \$48,387 to the Promissory Note and \$51,613 to the common stock. The total value of the common stock issued was based on the closing price of the Company's common stock on the date of the loan.

On August 21, 2006 the Company signed an Interim Bridge Financing Agreement with the lead investor for \$1,000,000, which also included an agreement to provide the Company with a credit line of \$300,000. On February 9, 2007, the outstanding balance on the credit line was paid in full.

On December 26, 2006, the Company signed an 8% promissory note for \$50,000 with a lender. The note matured on the 30th day following receipt, or January 28, 2007. The lender was issued 400 shares of Common Stock, valued at the closing price of the Company's common stock on the date of the loan, as a financing premium. The lender has the option to convert this loan into shares offered in connection with the December 2006 PPM, such option was exercised on April 20, 2007. The lender was issued an 8% convertible debenture for \$50,000 and 6,061 shares related to the subscription agreement.

On December 28, 2006, the Company signed an 8% promissory note for \$40,000 with the Company's placement agent, Newbridge Securities. The note matured on the 30th day following receipt (January 27, 2007). The lender was issued 400 shares of Common Stock, valued at \$5,100, using the closing price of the Company's common stock on the date of the loan. On February 14, 2007, the Company repaid this loan in full, including interest of \$427.

On March 30, 2007, the Company signed an 8% promissory note for \$50,000 with a lender. The note matured on the 30th day following receipt, or April 29, 2007. The lender has the option to convert this loan into the March 2007 PPM. On April 20, 2007, the lender notified the Company of his intention to convert this loan to a subscription agreement to the March 2007 PPM. When the loan was converted on May 7, 2007, the lender was issued an 8% convertible debenture for \$50,000 and 6,061 shares related to the subscription agreement.

Note 7:

Incentive Equity and Stock Option Plan

In October 2003 the Company adopted a stock option plan. The purpose of the stock option plan was to increase the employees' and non-employee directors' interest in Quantum and to align more closely their interests with the interests of the shareholders of Quantum, as well as to enable Quantum to attract and retain the services of experienced and

highly qualified employees and non-employee directors.

Options granted under this plan may either be options qualifying as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended, or options that do not so qualify. Any incentive option must provide for an exercise price of not less than 100% of the fair market value of the underlying shares on the date of such grant, but the exercise price of any incentive option granted to an eligible employee owning more than 10% of our common stock must be at least 110% of such fair market value as determined on the date of the grant.

The term of each option and the manner in which it may be exercised is determined by the board of directors, provided that no option may be exercisable more that 10 years after the date of its grant and, in the case of an incentive option granted to an eligible employee owning more that 10% of the our common stock, no more than five years after the date of the grant. The board of directors shall determine the exercise price of non-qualified options.

THE QUANTUM GROUP, INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)****APRIL 30, 2007****(UNAUDITED)****Note 7:****Incentive Equity and Stock Option Plan (Continued)**

The Company has reserved 200,000 shares of common stock under the plan. The board of directors, or a committee of the board of directors, will administer the plan including, without limitation, the selection of the persons who will be granted plan options under the plan; the type of plan option to be granted; the number of shares subject to each plan option; and the plan option price.

The per share exercise price of shares granted under the plan may be adjusted in the event of certain changes in the total purchase price payable upon the exercise in full of options granted under the plan. Officers, directors, and key employees of and consultants to Quantum will be eligible to receive non-qualified options under the plan. Only officers, directors and employees of Quantum who are employed by Quantum, or by any subsidiary thereof, are eligible to receive incentive options.

A summary of options during the six months ended April 30, 2007 and 2006 is shown below:

	2007			2006

Note 8:

Other Common Stock Transactions

Deferred Compensation

The Company, from time to time, grants shares of common stock to employees, directors and advisors in lieu of or as partial compensation for services performed for the Company. These shares vest over two and three year periods. The value of the stock is determined by the closing market price at the date of grant. The Company recognized \$22,029 and \$9,000 in compensation expense related to these stock grants for the six month periods ended April 30, 2007 and 2006, respectively.

Stock Compensation

From time to time, the Company issues stock to employees as length of service rewards and performance rewards. Additionally, the Company will issue shares to consultants in lieu of cash compensation. These stock issuances are not included in the Company's Incentive Equity and Stock Option Plan. The total shares issued were 1,178 and 800 shares for the six month periods ended April 30, 2007 and 2006, respectively. The value of the stock is determined by the closing market price on the date earned.

Note 9:

Related Party Transactions

On November 1, 2002, the Company entered into an agreement with a shareholder to purchase certain intellectual property integral to the Company's business. In exchange, the company issued a three (3) year installment note for \$179,080 with an interest rate of eighteen percent (18%) per annum. The price of the sale was equal to the cost the shareholder incurred to develop the property purchased. The note is payable monthly starting January 2003. The Company is in technical default as the Company has not made scheduled payments on the note. The Company is accruing interest at 18% per annum monthly on the unpaid principal balance and has classified the note as current as per the agreement. The principal balance outstanding is \$102,632. The Company did not pay any interest during the three month period ended April 30, 2007 or 2006. The interest accrued is \$84,410 and \$60,459 at April 30, 2007 and 2006, respectively.

On November 14, 2005, a shareholder advanced the Company \$50,000. The Company and the shareholder agreed to a 12% interest rate on the unpaid balance and 400 shares of common stock.

On December 16, 2005, the Company executed a \$100,000 promissory note payable to Maj-Britt Rosenbaum. This note was due April 30, 2006 and bore an interest rate of 8% per annum payable at term of the note. Additional compensation included 600 shares of the Company's common stock per month for each month the debt is outstanding. On February 9, 2006, the husband of the note holder, Michael Rosenbaum, was elected to the board of directors of the Company. On February 25, 2006, an additional \$25,000 was advanced to the Company by Mrs. Rosenbaum for a total of \$125,000. Mrs. Rosenbaum and the Company agreed to extend the term of the note based on terms consistent with the Bridge Financing Agreement which includes the issuance of 6,667 shares of common stock. The value of the stock was determined by the closing market price on the date of the loan and is amortized over the term of the loan. See note 10.

Note 10:

Subsequent Events

The March 2007 PPM closed on May 7, 2007. The Company sold 31 units for \$1,550,000, of which \$1,416,000 was in cash and \$134,000 from two(2) converted bridge loans. The Company paid \$217,893 as a placement agent fee and reimbursement of expenses, and issued one 5-year warrant to purchase 18,802 shares of the Company's common stock at a price of \$8.25 per share. The warrant was valued at \$82,677, using a Black Scholes valuation methodology.

On April 20, 2007, an agreement was reached to repay the loan of \$125,000 to Mrs. Rosenbaum, plus interest at 8%, from the proceeds of the March 2007 PPM. The loan was repaid on May 4, 2007, along with interest of \$10,800. The

Company issued a total of 15,152 shares of common stock to Mrs. Rosenbaum under the terms of the agreement.

On May 7, 2007, the delinquent payroll taxes of \$134,000 were paid. The Company is in negotiation with the Internal Revenue Service to reduce \$34,216 in penalties and interest

On May 7, 2007, two lenders, with loans totaling \$100,000 each, converted their loans in accordance with the terms of the March 2007 PPM, which resulted in the issuance of \$200,000 8% Convertible Debenture and total of 24,244 shares of common stock (12,122 shares each).

On May 30, 2007, the \$1,300,000 8% Convertible Debentures matured sold in conjunction with the August 2006 PPM. The debentures were not paid at the maturity date The debenture holders and the lead investor have not declared the debentures in default and the Company is in discussions with the lead investor to extend the maturity date.

Item 2.

Management's Discussion and Analysis of Financial Condition and Results of Operations

General

The discussion and analysis set forth below should be read in conjunction with our Condensed Consolidated Financial Statements and the related notes thereto appearing elsewhere in this quarterly report. The information presented for the three and six months ended April 30, 2007 and 2006, was derived from unaudited financial statements, which, in our opinion, reflect all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation.

Forward Looking Statements

This Report on Form 10-QSB contains certain forward-looking statements. When used in this Report, press releases and elsewhere by the management of the Company from time to time, the words "believes", "anticipates", and "expects" and similar expressions are intended to identify forward-looking statements that involve certain risks and uncertainties. Additionally, certain statements contained in this discussion may be deemed forward-looking statements that involve a number of risks and uncertainties. Among the factors that could cause actual results to differ materially are the following: the ability of the Company to meet its working capital and liquidity needs, economic trends for consumer advertisers, the availability of long-term credit, unanticipated changes in the U.S. and international economies, business conditions and growth in e-commerce and the timely development and acceptance of new products, the impact of competitive products and pricing, and other risks detailed from time to time in the Company's SEC reports. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. The Company undertakes no obligation to publicly release the results of any events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

Going Concern

The Company has been building its provider networks and developing its Provider Systems over the last three years and has expensed material sums during that period. The Company has contracted with five Managed Care Organizations (MCOs) encompassing 22 counties in Florida. The Community Health Systems have been completed, or are near completion, in all those counties. Additionally, the Company is performing medical billing services through two medical billing companies with whom the Company has signed full risk management contracts.

As shown in the accompanying consolidated financial statements, the Company has incurred recurring losses and negative cash flows from its development and organization activities and has negative working capital and shareholders' deficit. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

There can be no assurance that the Company will be able to successfully implement its plans to generate additional investor interest and raise additional capital, or if such plans are successfully implemented, that the Company will achieve its goals.

Furthermore, if the Company is unable to raise additional funds, it may be required to modify its growth and developmental plans, and even be forced to severely limit development operations completely.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern and do not include any adjustments to reflect the possible future effects of the recoverability and classification of assets or the amounts and classification of liabilities that might result from the outcome of this uncertainty. See Liquidity and Capital Resources, below.

Results of Operations

Six months ended April 30, 2007 and 2006

Revenues for the six months ended April 30, 2007 were \$1,233,508 compared to \$8,744 for the six months ended April 30, 2006. The increase in management support services revenue of \$826,932 is primarily due to the addition of the billing and collections company management agreements; \$34,291 from one agreement that was in effect from November 2006 thru February 2007 and \$792,641 from two agreements which went into effect in December 2006. The provider systems revenue represents \$406,576 of the total revenue, which is a \$397,832 increase from the six months ended April 30, 2006. This revenue is a direct result of the Company's active contracts with three MCOs.

The operating expenses for the six months ended April 30, 2007 were \$2,382,595 compared to \$1,195,656 for the six month period ended April 30, 2006. The increase of \$1,186,939 was primarily due to an increase of \$345,421 in staff and officers' salaries, \$125,000 for accrued bonuses for officers, and \$63,667 in the amortization of deferred compensation. Non-operating costs were \$2,937,393 and \$115,803 for the six month periods ended April 30, 2007 and 2006, respectively. The increase of \$2,821,590 was primarily due to the amortization of costs associated with the convertible debt, interim bridge financing and the credit line.

Liquidity and Capital Resources

At April 30, 2007, we had a working capital deficit of \$5,341,972 as compared to a working capital deficit of \$1,277,725 at April 30, 2006.

Cash inflow from financing activities was \$2,411,178 for the six months ended April 30, 2007, compared to \$755,780 for the six months ended April 30, 2006. The increase was primarily due to the increase in debt as detailed below. The cash flow from operating activities were \$1,542,866 for the six months ended April 30, 2007, compared to \$804,453 for the six months ended April 30, 2006. The increase of \$738,413 was primarily due the expansion of the provider service system. We will need to secure additional financing during the next twelve months in order to meet our convertible debt obligations and continue the development of our business.

On August 29, 2006, the Company signed an agreement with a placement agent to raise \$3,000,000 by selling 60 units (August 2006 PPM). Each unit consisted of a \$50,000 8% Convertible Debenture and 6,061 shares of restricted common stock (Bridge Shares). Each note payable matures on March 31, 2007, but has been extended, without penalty, by 60 days by the placement agent. The debentures have not been paid at the extended maturity date. The debenture holders and the lead investor have not declared the debentures in default and the Company is in discussions with the lead investor to extend the maturity date. Principal and interest on the Secured Convertible Debentures may be converted into certain future sale of the Company's security at a conversion price equal to 70% of the offering price. The placement agent fees are equal to 10% commission of gross proceeds, 3% of gross proceeds for unaccountable expenses, one warrant for each unit sold to purchase 607 shares of common stock at \$8.25 per share and expenses not to exceed \$25,000. This private placement was finalized on November 30, 2006 and 26 units were sold (\$1,300,000) and a placement agent fee of \$169,000 and reimbursement of expenses of \$40,942 plus one 5-year warrant to purchase 15,758 shares of the Company's common stock at a price of \$8.25 per share, valued at \$121,821 using the Black Scholes method.

On December 18, 2006, the Company signed an agreement with a placement agent to raise \$3,000,000 by selling 60 units (December 2006 PPM). Each unit consists of a \$50,000 8% Convertible Debenture and 6,061 shares of restricted common stock (Bridge Shares). Each note payable matures on June 30, 2007, but can be extended by 60 days by the

placement agent. Principal and interest on the Secured Convertible Debentures may be converted into certain future sale of the Company's security at a conversion price equal to 70% of the offering price. The placement agent fees are equal to 10% commission of gross proceeds, 3% of gross proceeds for unaccountable expenses, one warrant for each unit sold to purchase 607 shares of common stock at \$8.25 per share and expenses not to exceed \$25,000. This private placement was ended on March 19, 2007, and 60 units were sold (\$3,000,000) and a placement agent fee of \$390,000 and reimbursement of expenses of \$19,008 plus one 5-year warrant to purchase 36,419 shares of the Company's common stock at a price of \$8.25 per share, valued at \$154,848 using the Black Scholes method.

On March 29, 2007, the Company signed an agreement with a placement agent to raise \$1,500,000 by selling 30 units (March 2007 PPM). Each unit consists of a \$50,000 8% Convertible Debenture and 6,061 shares of restricted common stock (Bridge Shares). Each note payable matures on June 30, 2007, but can be extended by

60 days by the placement agent. Principal and interest on the Secured Convertible Debentures may be converted into certain future sale of the Company's security at a conversion price equal to 70% of the offering price. The placement agent fees are equal to 10% commission of gross proceeds, 3% of gross proceeds for unaccountable expenses, one warrant for each unit sold to purchase 607 shares of common stock at \$8.25 per share and expenses not to exceed \$25,000. The private placement includes certain registration rights which generally require that if the Bridge Shares and the conversion shares are not registered by June 30, 2007, the Company will file a registration statement by July 31, 2007. A late registration penalty of 2% of the original principal amount in common stock, based upon average of the previous five days closing price bid prices (as reported on Bloomberg) if a registration is not filed by June 30, 2007. The Debentures are secured by all the assets of the Company subject to the investors in the interim bridge and the August 29, 2006 units. This private placement closed on May 7, 2007 and 31 units were sold (\$1,550,000) and a placement agent fee of \$201,500 and reimbursement of expenses of \$16,393 plus one 5-year warrant to purchase 18,802 shares of the Company's common stock at a price of \$8.25 per share, valued at \$82,677 using the Black Scholes method.

The Company has entered into full risk contracts with three Managed Care Organizations (MCOs). The Company started treating patients for one of the contracts in September 2006, but is not full risk until the MCO provides a minimum of 300 members to the Company. The threshold of 300 members has not been received as of April 30, 2007. The Company has recorded income relating to the primary care physicians' charges for the six month period ended April 30, 2007. Medical costs associated with the revenue were equal to the revenue. The other two contracts started in January 2007 and are full risk from inception. Under a full risk contract, the Company will receive a monthly fee for each patient that chooses one of the Company's physicians as their primary care physician. The fixed fee is based on a percentage of the premium the MCO receives. Revenue under this agreement is generally recorded in the period services are rendered at the rates then in effect, with quarterly adjustments. The direct medical costs are a combination of actual medical costs paid by the MCO plus a reserve for future medical costs incurred but not reported (IBNR).

Currently, the Company manages two medical billing and collections companies. Under the terms of the management agreements, the Company paid an amount to each billing and collection company and assumed all management responsibility and financial risk of the operation of the businesses. The Company has included all the revenues and expenses for those operations in the Company's condensed consolidated financial statements. Revenues are recorded upon the collection of billed service for their clients.

Our development plan includes the identification, negotiation with and acquisition or joint venturing of businesses and services that will allow us to provide comprehensive provider network services including medical management systems, billing and collection and other complementary services that will allow the small to medium size medical organization to provide better care, better medical outcomes and earn more profit. We expect to acquire or joint venture with candidate businesses after extensive due diligence. If the candidate business is to be acquired we expect to secure financing for the acquisition by selling common and/or preferred shares, issuing debt or notes and by leveraging the potential acquisition.

There is no assurance that we will be able to execute on our plans and, clearly, to continue our operations and to implement our current business plan, we will require significant additional long term financing. There are no assurances that such financing will be available, or if available it will be on terms acceptable to the Company. Any financing may result in significant dilution.

New Accounting Pronouncements

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115. SFAS No. 159 permits entities to choose, at specified election dates, to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective for financial statements issued for an entity's first fiscal year beginning after November 15, 2007. Adoption of SFAS No. 159 is not expected to have a material effect on the Group's condensed consolidated statements of financial condition, income or cash flows.

Item 3.

Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Our management and resources are limited. As of April 30, 2007 we had only twenty-eight full time employees, of which three are also officers and directors of the Company. The Company is a company with limited personnel and, until the fourth quarter of the fiscal year ended October 31, 2006, was a development stage company. Our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures for a Company of our size and simplicity. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the disclosure controls and procedures were not effective in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time period specified by the Securities and Exchange Commission's rules and forms. The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Based on the current review, management has concluded that additional personnel are required as disclosed in the Company's Form 10-K/A filed with the Securities Exchange Commission.

The Company has allocated the appropriate resources to correct this deficiency. As of the date of this report, we have hired a controller to be assigned directly to financial reporting and disclosure to ensure the timely and accurate preparation of the Company's financial reports required under the Securities and Exchange Act of 1934 as amended.

PART II OTHER INFORMATION

Item 1.

Legal Proceedings

The Company is not a party to any litigation.

Item 2.

Unregistered Sales of Equity Securities and Use of Proceeds

All shares were issued as restricted shares under the 1933 Act and were endorsed with a restrictive legend and the funds will be used for working capital.

On December 18, 2006, the Company issued a private placement memorandum (December 2006 PPM) to raise \$3,000,000 by selling 60 units under the same terms described above except the maturity date of the convertible debt is June 30, 2007 and the Company is required to file a registration agreement by June 30, 2007. The Private Placement was closed on March 19, 2007. The Company had sold all 60 units for \$3,000,000 and issued 363,675 shares of common stock, of which 51.5 subscription units were sold during the quarter ended April 30, 2007. The compensation paid to the placement agent included a commission of 10%, \$300,000, an unaccountable expenses reimbursement of 3%, \$90,000, reimbursed expenses of \$19,008 and were granted 6,419 five-year warrants with an exercise price of \$8.25 per share. Under the agreement the Company is required to use its best efforts to register the underlying shares and the Bridge shares with the Securities and Exchange Commission (SEC). In the event that a registration statement is not filed with the SEC, the Company is required to pay liquidated damages in the form of additional shares of common stock of the Company, which the Company is required to use its best efforts to register.

On March 29, 2007, the Company issued a private placement memorandum (March 2007 PPM) to raise \$1,550,000 by selling 31 units under the same terms as the August 2006 PPM except the maturity date of the convertible debt is June 30, 2007 and the Company is required to use its best efforts to register the underlying shares and the Bridge shares with the Securities and Exchange Commission (SEC) by June 30, 2007. A Supplemental Agreement was attached to the PPM changing the maturity date from June 30, 2007 to July 31, 2007. The Company closed the offering on May 7, 2007 for \$1,550,000 (\$1,416,000 in cash and a conversion of \$134,000 in interim debt). The Company issued 187,894 shares of common stock and \$1,550,000 in 8% Convertible Debentures. The compensation paid to the placement agent included a commission of 10%, \$155,000, an unaccountable expenses reimbursement of 3%, \$46,500, reimbursed expenses of \$16,393 and were granted 18,802 five-year warrants with an exercise price of \$8.25 per share.

On April 20, 2007, an agreement was reached with Mrs. Rosenbaum to pay the balance of the \$125,000 loan plus interest at 8% from the proceeds of the March 2007 PPM and issued total of 15,152 shares of common stock.

On May 7, 2007, two lenders, with loans totaling \$100,000 each, converted their loans in accordance with the terms of the March 29, 2007 PPM, which resulted in the issuance of \$200,000 8% Convertible Debenture and a total of 24,244 shares of common stock (12,122 shares each).

Item 3.

Defaults Upon Senior Securities

The Company sold \$1,300,000 in 8% Subordinated Secured Convertible Bridge Notes in conjunction with a private placement dated August 29, 2006. Each Note payable matured on March 31, 2007, but has been extended, without penalty, by 60 days by the placement agent in the private placement to May 30, 2007. The Notes have not been paid at the extended maturity date. The debenture holders and the lead investor in the private placement have not declared the debentures in default and the Company is in discussions with the lead investor to extend the extended maturity date of the Notes.
