**Item 5 Full Description of Material Change**

On October 31, 2005 Cameco confirmed that the Bruce Power restructuring announced on October 17, 2005 had been completed.

Cameco maintains its existing 31.6% interest in the Bruce Power Limited Partnership (BPLP) which is responsible for the overall management of the site and holds a 31.6% beneficial interest in the four Bruce B reactors. However, Cameco no longer holds an interest in the four Bruce A reactors and will not invest in the planned \$4.25 billion program to increase their output.

As part of the restructuring, BPLP paid a distribution to its limited partners. Cameco's share is \$200 million. As previously announced, the restructuring will result in Cameco recording a loss of \$63 million (Cameco's share after tax) subject to closing adjustments which may increase or decrease the amount. The loss will be recorded in the fourth quarter of 2005.

Cameco will continue to be the fuel procurement manager for the Bruce A and B units but will no longer have obligations to procure or supply uranium concentrates to the Bruce A reactors.
