LETTER TO SHAREHOLDERS

April 2009

W. Douglas Munn

President and Chief Executive Officer

Dear Shareholder:

We are pleased to provide the Semiannual Report for Evergreen Utilities and High Income Fund for the six-month period ended February 28, 2009 (the “period”).

During the latter half of 2008, one of the worst periods in the history of the financial markets developed as the crises in housing and credit forced the economy into recession, and as a result, the financial markets fell into turmoil. Previously venerable financial institutions fell as distrust prevailed and counter-party risk, whether real or imagined, escalated. Inter-bank lending ceased to exist, and the credit markets froze.

In early 2009, layoff announcements accelerated, further pressuring personal consumption and business investment. The equity markets continued to suffer, as weakness in economic data and corporate profits persisted. In addition, investors in all markets were trying to grasp the ramifications of a variety of federal proposals to combat the recession and the financial crisis. International markets were hit hard as economies in both developed and emerging countries remained weak. In the fixed income markets, high yield bonds recovered from the extreme weakness experienced last year and municipal securities also climbed higher.

During this period of unprecedented events, the management of Evergreen Utilities and High Income Fund maintained an emphasis on the pursuit of a high level of current income and moderate capital growth for investors. The management invested in both common stocks and convertible securities, while also keeping a substantial allocation to high yield corporate bonds.

As we look back over the extraordinary series of events during the period, we believe it is vitally important for all investors to keep perspective and remain focused on their long-term strategies. We continue to urge investors to pursue fully diversified strategies in order to participate in future market gains and limit the risks of potential losses. If they haven't already done so, we encourage individual investors to work with their financial advisors to develop a diversified, long-term strategy. Investors should keep in mind that the economy and the financial markets have had long and successful histories of adaptability, recovery, innovation and growth. Proper asset allocation decisions can have significant impacts on the returns of long-term portfolios.

1 For the period from April 30, 2004 (commencement of operations), to August 31, 2004.

2 Initial public offering price of \$20.00 per share less underwriting discount of \$0.90 per share.

3 Calculated based on average common shares outstanding during the period.

4 Amount represents a refund of certain preferred share offering expenses.

5 Total return is calculated assuming a purchase of common stock on the first day and a sale on the last day of the period reported. Dividends and distributions are assumed for the purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total return does not reflect brokerage commissions or sales charges.

6 Annualized

7 The net investment income (loss) ratio reflects any distributions paid to preferred shareholders.

144A Security that may be sold to qualified institutional buyers under Rule 144A of the Securities Act of 1933, as amended.

This security has been determined to be liquid under guidelines established by the Board of Trustees, unless otherwise noted.

- Security which has defaulted on payment of interest and/or principal. The Fund has stopped accruing interest on this security.
- † Security initially issued in zero coupon form which converts to coupon form at a specified rate and date. An effective interest rate is applied to recognize interest income daily for the bond. This rate is based on total expected interest to be earned over the life of the bond which consists of the aggregate coupon-interest payments and discount at acquisition. The rate shown is the stated rate at the current period end.
- †† The rate shown is the stated rate at the current period end.
- * Non-income producing security
- + Security is deemed illiquid and is valued using market quotations when readily available, unless otherwise noted.
- o Security is valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.
- < All or a portion of the position represents an unfunded loan commitment.
- q Rate shown is the 7-day annualized yield at period end.
- ø Evergreen Investment Management Company, LLC is the investment advisor to both the Fund and the money market fund.
- ## All or a portion of this security has been segregated for when-issued or delayed delivery securities and/or unfunded loans.

End of period	\$424,239
Supplemental cash disclosure:	
Cash paid for interest	\$572,708
Non-cash financing activities not included herein consist of reinvestment dividends and distributions	\$1,628,320

See Notes to Financial Statements

NOTES TO FINANCIAL STATEMENTS (unaudited)

1. ORGANIZATION

Evergreen Utilities and High Income Fund (the “Fund”) was organized as a statutory trust under the laws of the state of Delaware on February 4, 2004 and is registered as a non-diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income and moderate capital growth, with an emphasis on providing tax-advantaged dividend income.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates.

a. Valuation of investments

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded. Non-listed equity securities are valued using evaluated prices determined by an independent pricing service which takes into consideration such factors as similar security prices, spreads, liquidity, benchmark quotes and market conditions. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers who use prices provided by market makers or estimates of fair value obtained from yield data relating to investments or securities with similar characteristics.

Foreign securities traded on an established exchange are valued at the last sales price on the exchange where the security is primarily traded. If there has been no sale, the securities are valued at the mean between bid and asked prices. Foreign securities may be valued at fair value according to procedures approved by the Board of Trustees if the closing price is not reflective of current market values due to trading or events occurring in the foreign markets between the close of the established exchange and the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. The value of foreign securities may be adjusted if such movements in the U.S. market exceed a specified threshold.

Portfolio debt securities acquired with more than 60 days to maturity are fair valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of fair market value obtained from yield data relating to investments or securities with similar characteristics.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

Short-term securities with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates fair value.

Investments in open-end mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current fair value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

b. Repurchase agreements

Securities pledged as collateral for repurchase agreements are held by the custodian bank or in a segregated account in the Fund's name until the agreements mature. Collateral for certain tri-party repurchase agreements is held at the counterparty's custodian in a segregated account for the benefit of the Fund and the counterparty. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal. However, in the event of default or bankruptcy by the other party to the agreement, retention of the collateral may be subject to legal proceedings. The Fund will enter into repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be creditworthy pursuant to guidelines established by the Board of Trustees. In certain instances, the Fund's securities lending agent may provide collateral in the form of repurchase agreements.

c. Reverse repurchase agreements

To obtain short-term financing, the Fund may enter into reverse repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be creditworthy. At the time the Fund enters into a reverse repurchase agreement, it will establish a segregated account with the custodian containing qualified assets having a value not less than the repurchase price, including accrued interest. If the counterparty to the transaction is rendered insolvent, the Fund may be delayed or limited in the repurchase of the collateral securities.

d. Foreign currency translation

All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of portfolio securities and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for that portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses on investments.

e. When-issued and delayed delivery transactions

The Fund records when-issued or delayed delivery securities as of trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed delivery

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

basis are marked-to-market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

f. Loans

The Fund may purchase loans through an agent, by assignment from another holder of the loan or as a participation interest in another holder's portion of the loan. Loans are purchased on a when-issued or delayed delivery basis. Interest income is accrued based on the terms of the securities. Fees earned on loan purchasing activities are recorded as income when earned. Loans involve interest rate risk, liquidity risk and credit risk, including the potential default or insolvency of the borrower.

g. Securities lending

The Fund may lend its securities to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a market value at least equal to the market value of the securities on loan, including accrued interest. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining access to the collateral. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

h. Options

The Fund is subject to interest rate risk, equity price risk and foreign currency exchange rate risk in the normal course of pursuing its investment objectives through its investments in options. The Fund may write covered put or call options. When a Fund writes an option, an amount equal to the premium received is recorded as a liability and is subsequently adjusted to the current market value of the written option. Premiums received from written options, which expire unexercised, are recognized as realized gains from investments on the expiration date. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is treated as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in calculating the realized gain or loss on the sale. If a put option is exercised, the premium reduces the cost of the security purchased. The Fund, as a writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

The Fund may also purchase call or put options. The premium is included in the Statement of Assets and Liabilities as an investment which is subsequently adjusted to the current market value of the option. Premiums paid for purchased options which expire are recognized as realized losses from investments on the expiration date. Premiums paid for purchased options which are exercised or closed are added to the amount paid or offset

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

against the proceeds on the underlying security to determine the realized gain or loss. The risk of loss associated with purchased options is limited to the premium paid.

Options traded on an exchange are regulated and terms of the options are standardized. Options traded over the counter expose the Fund to counterparty risk in the event the counterparty does not perform. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

i. Interest rate swaps

The Fund is subject to interest rate risk in the normal course of pursuing its investment objectives through its investments in interest rate swaps. The Fund may enter into interest rate swap contracts to manage the Fund's exposure to interest rates. Interest rate swaps involve the exchange between the Fund and another party of their commitments to pay or receive interest based on a notional principal amount.

The value of the swap contract is marked-to-market daily based upon quotations from brokers which use prices provided by market makers and any change in value is recorded as an unrealized gain or loss. Payments made or received are recorded as realized gains or losses. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform or if there are unfavorable changes in the fluctuation of interest rates. The Fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to be received from/paid to the counterparty over the contract's remaining life, to the extent that the amount is positive. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

j. Credit default swaps

The Fund is subject to credit risk in the normal course of pursuing its investment objectives through its investments in credit default swap contracts. The Fund may enter into credit default swap contracts to provide a measure of protection against default on a referenced entity, obligation or index. Credit default swaps involve an exchange of a stream of payments for protection against the loss in value of an underlying security or index. Under the terms of the swap, one party acts as a guarantor (referred to as the seller of protection) and receives a periodic stream of payments, provided that there is no credit event, from another party (referred to as the buyer of protection) that is a fixed percentage applied to a notional principal amount over the term of the swap. An index credit default swap references all the names in the index, and if a credit event is triggered, the credit event is settled based on that name's weight in the index. A credit event includes bankruptcy, failure to pay, obligation default, obligation acceleration, repudiation/moratorium, and restructuring. The Fund may enter into credit default swaps as either the seller of protection or the buyer of protection. As the seller of protection, the Fund is subject to investment exposure on the notional amount of the swap and has assumed the risk of default of the

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

underlying security or index. As the buyer of protection, the Fund could be exposed to risks if the seller of the protection defaults on its obligation to perform, or if there are unfavorable changes in the fluctuation of interest rates or in the price of the underlying security or index. The maximum potential amount of future payments (undiscounted) that the Fund as the seller of protection could be required to make under the credit default swap contract would be an amount equal to the notional amount of the swap contract. The Fund's maximum risk of loss from counterparty risk, either as the protection seller or as the protection buyer, is the fair value of the contract. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

If the Fund is the seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will pay to the buyer of protection the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index. If the Fund is the buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will receive from the seller of protection the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index.

Any premiums paid or received on the transactions are recorded as an asset or liability on the Statement of Assets and Liabilities and amortized. The value of the swap contract is marked-to-market daily based on quotations from an independent pricing service or market makers and any change in value is recorded as an unrealized gain or loss. Periodic payments made or received are recorded as realized gains or losses. In addition, payments received or made as a result of a credit event or termination of the contract are recognized as realized gains or losses.

Certain credit default swap contracts entered into by the Fund provide for conditions that result in events of default or termination that enable the counterparty to the agreement to cause an early termination of the transactions under those agreements. Any election by the counterparty to terminate early may impact the amounts reported on the financial statements.

k. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums. Dividend income is recorded on the ex-dividend date or in the case of some foreign securities, on the date when the Fund is made aware of the dividend. Foreign income and capital gains realized on some securities may be subject to foreign taxes, which are accrued as applicable.

l. Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required. The Fund's income and excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal, Massachusetts and Delaware revenue authorities.

m. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

3. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Evergreen Investment Management Company, LLC ("EIMC"), a subsidiary of Wells Fargo & Company ("Wells Fargo"), is the investment advisor to the Fund and is paid an annual fee of 0.60% of the Fund's average daily total assets. Total assets consist of the net assets of the Fund plus borrowings or other leverage for investment purposes. For the six months ended February 28, 2009, the advisory fee was equivalent to an annual rate of 0.86% of the Fund's average daily net assets.

Tattersall Advisory Group, Inc., an affiliate of EIMC and an indirect subsidiary of Wells Fargo, is an investment sub-advisor to the Fund and is paid by EIMC for its services to the Fund.

Crow Point Partners, LLC is also an investment sub-advisor to the Fund and is paid by EIMC for its services to the Fund.

On October 3, 2008, Wells Fargo and Wachovia Corporation ("Wachovia") announced that Wells Fargo agreed to acquire Wachovia in a whole company transaction that will include all of Wachovia's banking and other businesses. In connection with this transaction, Wachovia issued preferred shares to Wells Fargo representing approximately a 40% voting interest in Wachovia. Due to its ownership of preferred shares, Wells Fargo may have been deemed to control EIMC. If Wells Fargo was deemed to control EIMC, then the existing advisory agreement between the Fund and EIMC and the sub-advisory agreements between EIMC and the Fund's sub-advisors would have terminated automatically in connection with the issuance of preferred shares. To address this possibility, on October 20, 2008 the Board of Trustees approved an interim advisory agreement with EIMC and interim sub-advisory agreements with each sub-advisor with the same terms and conditions as the existing agreements, which became effective upon the issuance of the preferred shares. EIMC's receipt of the advisory fees under the interim advisory agreement is subject to the approval by shareholders of the Fund of a new advisory agreement with EIMC.

On December 31, 2008, Wachovia merged with and into Wells Fargo and as a result of the merger, EIMC, Tattersall Advisory Group, Inc., Evergreen Investment Services, Inc. ("EIS") and Evergreen Service Company, LLC ("ESC") became subsidiaries of Wells

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

Fargo. After the merger, a new interim advisory agreement with the same terms and conditions between the Fund and EIMC went into effect. In addition, a new interim sub-advisory agreement with the same terms and conditions became effective with each sub-advisor to the Fund.

From time to time, EIMC may voluntarily or contractually waive its fee and/or reimburse expenses in order to limit operating expenses. During the six months ended February 28, 2009, EIMC voluntarily waived its advisory fee in the amount of \$433,826.

The Fund may invest in money market funds which are advised by EIMC. Income earned on these investments is included in income from affiliated issuers on the Statement of Operations.

EIMC also serves as the administrator to the Fund providing the Fund with facilities, equipment and personnel. EIMC is paid an annual administrative fee of 0.05% of the Fund's average daily total assets. For the six months ended February 28, 2009, the administrative fee was equivalent to an annual rate of 0.07% of the Fund's average daily net assets.

Wachovia Bank NA, a subsidiary of Wells Fargo and an affiliate of EIMC, through its securities lending division, Wachovia Global Securities Lending, acts as the securities lending agent for the Fund. (See Note 5)

The Fund has placed a portion of its portfolio transactions with brokerage firms that are affiliates of Wells Fargo. During the six months ended February 28, 2009, the Fund paid brokerage commissions of \$159 to Wachovia Securities, LLC, a broker-dealer affiliated with Wells Fargo.

4. CAPITAL SHARE TRANSACTIONS

The Fund has authorized an unlimited number of common shares with no par value. For the six months ended February 28, 2009 and the year ended August 31, 2008, the Fund issued 124,308 and 243,614 common shares, respectively.

The Fund had issued 3,200 shares of Auction Market Preferred Shares ("Preferred Shares") with a liquidation value of \$25,000 plus accumulated but unpaid dividends (whether or not earned or declared). For the six months ended February 28, 2009, the Fund did not have any Preferred Shares outstanding. The Fund had secured debt financing from a multi-seller commercial paper conduit administered by a major financial institution (the "Facility") and on May 20, 2008 redeemed the Fund's outstanding Preferred Shares. The Fund's borrowings under the Facility are generally charged interest at a rate based on the rates of the commercial paper notes issued by the Facility to fund the Fund's borrowings or at the London Interbank Offered Rate (LIBOR) plus 4%. During the six months ended February 28, 2009, the Fund reduced its borrowings under the Facility from \$80 million to \$22 million. An effective interest rate of 2.84% was

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

incurred on the borrowings, which was based on the rates of the commercial paper notes issued by the Facility and interest expense of \$615,704, representing 1.17% of the Fund's average daily net assets, was incurred during the six months ended February 28, 2009. The Fund has pledged its assets to secure borrowings under the Facility. As a result of amendments to the Facility, the Fund currently pays, on a monthly basis, a liquidity fee at an annual rate of 2.75% of the total commitment amount and a program fee at an annual rate of 2.75% on the daily average outstanding principal amount of borrowings. The Fund had paid a liquidity fee at an annual rate of 0.50% until October 31, 2008 and at an annual rate of 1.25% until December 29, 2008. In addition, the Fund had paid a program fee at an annual rate of 0.75% until October 31, 2008 and at an annual rate of 1.25% until December 29, 2008. A structuring fee of \$800,000 was paid by EIMC on behalf of the Fund, which represents 1.00% of the financing available to the Fund under the Facility. This fee is being amortized over three years. During the six months ended February 28, 2009, the Fund recognized amortization expense of \$132,236. The Fund will reimburse EIMC over the three year period.

5. INVESTMENT TRANSACTIONS

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities) were \$53,869,055 and \$109,391,993, respectively, for the six months ended February 28, 2009.

On September 1, 2008, the Fund implemented Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* ("FAS 157"). FAS 157 establishes a single authoritative definition of fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 establishes a fair value hierarchy based upon the various inputs used in determining the value of the Fund's investments. These inputs are summarized into three broad levels as follows:

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

As of February 28, 2009, the inputs used in valuing the Fund's assets, which are carried at fair value, were as follows:

Valuation Inputs	Investments in Securities	Other Financial Instruments*
Level 1 – Quoted Prices	\$70,874,492	\$ 0
Level 2 – Other Significant Observable Inputs	37,260,106	(24,081)
Level 3 – Significant Unobservable Inputs	0	0
Total	\$108,134,598	\$ (24,081)

* Other financial instruments include swap contracts.

As of February 28, 2009, the Fund had unfunded loan commitments of \$276,319.

During the six months ended February 28, 2009, the Fund entered into reverse repurchase agreements that had an average daily balance outstanding of \$1,224,600 with a weighted average interest rate of 1.75% and paid interest of \$21,431, representing 0.04% of the Fund's average daily net assets. The maximum amount outstanding under reverse repurchase agreements during the six months ended February 28, 2009 was \$6,526,548 (including accrued interest).

During the six months ended February 28, 2009, the Fund loaned securities to certain brokers and earned \$4,876, net of \$20,265 paid to Wachovia Global Securities Lending as the securities lending agent.

On February 28, 2009, the aggregate cost of securities for federal income tax purposes was \$139,997,695. The gross unrealized appreciation and depreciation on securities based on tax cost was \$60,507 and \$31,923,604, respectively, with a net unrealized depreciation of \$31,863,097.

As of August 31, 2008, the Fund had \$701,198 in capital loss carryovers for federal income tax purposes expiring in 2016.

For income tax purposes, capital losses incurred after October 31 within the Fund's fiscal year are deemed to arise on the first business day of the following fiscal year. As of August 31, 2008, the Fund incurred and elected to defer post-October losses of \$6,118,895.

6. DERIVATIVE TRANSACTIONS

During the six months ended February 28, 2009, the Fund had written option activities as follows:

	Number of Contracts	Premiums Received
Options outstanding at August 31, 2008	1,825	\$ 199,107

Options written	2,250		502,609
Options expired	(925)	(85,557)

7. DEFERRED TRUSTEES' FEES

Each Trustee of the Fund may defer any or all compensation related to performance of his or her duties as a Trustee. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts is based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

8. CONCENTRATION OF RISK

The Fund may invest a substantial portion of its assets in an industry and, therefore, may be more affected by changes in that industry than would be a comparable mutual fund that is not heavily weighted in any industry.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued**9. REGULATORY MATTERS AND LEGAL PROCEEDINGS**

The Evergreen funds, EIMC and certain of EIMC's affiliates are involved in various legal actions, including private litigation and class action lawsuits, and are and may in the future be subject to regulatory inquiries and investigations.

The SEC and the Secretary of the Commonwealth, Securities Division, of the Commonwealth of Massachusetts are conducting separate investigations of EIMC, EIS and Evergreen Ultra Short Opportunities Fund (the "Ultra Short Fund") concerning alleged issues surrounding the drop in net asset value of the Ultra Short Fund in May and June 2008. In addition, three purported class actions have been filed in the U.S. District Court for the District of Massachusetts relating to the same events; defendants include various Evergreen entities, including EIMC and EIS, and Evergreen Fixed Income Trust and its Trustees. The cases generally allege that investors in the Ultra Short Fund suffered losses as a result of (i) misleading statements in Ultra Short Fund's registration statement and prospectus, (ii) the failure to accurately price securities in the Ultra Short Fund at different points in time and (iii) the failure of the Ultra Short Fund's risk disclosures and description of its investment strategy to inform investors adequately of the actual risks of the fund.

EIMC does not expect that any of the legal actions, inquiries or investigations currently pending or threatened will have a material adverse impact on the financial position or operations of the Fund to which these financial statements relate. Any publicity surrounding or resulting from any legal actions or regulatory inquiries involving EIMC or its affiliates or any of the Evergreen Funds could result in reduced sales or increased redemptions of Evergreen fund shares, which could increase Evergreen fund transaction costs or operating expenses or have other adverse consequences on the Evergreen funds, including the Fund.

10. SUBSEQUENT DISTRIBUTIONS

The Fund declared the following distributions to common shareholders:

Declaration Date	Record Date	Payable Date	Net Investment Income
February 20, 2009	March 13, 2009	April 01, 2009	\$0.11
March 12, 2009	April 15, 2009	May 01, 2009	\$0.11
April 17, 2009	May 13, 2009	June 01, 2009	\$0.11

These distributions are not reflected in the accompanying financial statements.

ADDITIONAL INFORMATION (unaudited)**SPECIAL MEETING OF SHAREHOLDERS**

On January 8, 2009, the Annual Meeting of shareholders of the Fund was held to consider a number of proposals. On October 10, 2008, the record date of the meeting, the Fund had \$95,670,547 of net assets outstanding of which \$57,807,536 (60.42%) of net assets were represented at the meeting.

The votes recorded at the meeting, by proposal, were as follows:

Proposal 1 — Election of Trustees:

	Net Assets Voted “For”	Net Assets Voted “Withheld”
Charles A. Austin III	\$54,558,379	\$3,249,157
Carol A. Kosel	\$54,743,116	\$3,064,420
Gerald M. McDonnell	\$54,541,515	\$3,266,021
Richard J. Shima	\$54,494,280	\$3,313,256

Proposal 2 — To amend the Fund’s fundamental investment restriction concerning lending:

Net Assets voted “For”	\$40,862,997
Net Assets voted “Against”	\$ 3,487,973
Net Assets voted “Abstain”	\$ 1,485,567

Proposal 3a — To consider and act upon a new investment advisory agreement with Evergreen Investment Management Company, LLC:

Net Assets voted “For”	\$42,026,515
Net Assets voted “Against”	\$ 2,513,980
Net Assets voted “Abstain”	\$ 1,296,032

Proposal 3b — To consider and act upon a new sub-advisory agreement with Crow Point Partners, LLC:

Net Assets voted “For”	\$41,572,506
Net Assets voted “Against”	\$ 2,912,728
Net Assets voted “Abstain”	\$ 1,351,293

Proposal 3c — To consider and act upon a new sub-advisory agreement with Tattersall Advisory Group, Inc:

Net Assets voted "For"	\$41,617,235
Net Assets voted "Against"	\$ 2,806,725
Net Assets voted "Abstain"	\$ 1,412,567

ADDITIONAL INFORMATION (unaudited) continued

INFORMATION ABOUT THE REVIEW AND APPROVAL OF THE FUND'S INVESTMENT ADVISORY AGREEMENT

Each year, the Fund's Board of Trustees determines whether to approve the continuation of the Fund's investment advisory agreements. In September 2008, the Trustees, including a majority of the Trustees who are not "interested persons" (as that term is defined in the 1940 Act) of the Fund, Tattersall Advisory Group, Inc. ("TAG"), Crow Point Partners, LLC ("Crow Point", and, together with TAG, the "Sub-Advisors"), or EIMC (the "independent Trustees"), approved the continuation of the Fund's investment advisory agreements. (References below to the "Fund" are to Evergreen Utilities and High Income Fund; references to the "funds" are to the Evergreen funds generally.)

At the same time, the Trustees considered the continuation of the investment advisory agreements for all of the funds. The description below refers in many cases to the Trustees' process for considering, and conclusions regarding, all of the funds' agreements. In all of its deliberations, the Board of Trustees and the independent Trustees were advised by independent counsel to the independent Trustees and counsel to the funds.

The review process. In connection with its review of the funds' investment advisory agreements, the Board of Trustees requests and evaluates, and EIMC and any sub-advisors furnish, such information as the Trustees consider to be reasonably necessary in the circumstances. The Trustees began their 2008 review process at the time of the last advisory contract-renewal process in September 2007. In the course of their 2007 review, the Trustees identified a number of funds that had experienced either short-term or longer-term performance issues. During the 2008 review process, the Trustees monitored each of these funds in particular for changes in performance and for the results of any changes in a fund's investment process or investment team. In addition, during the course of the year, the Trustees regularly reviewed information regarding the investment performance of all of the funds, paying particular attention to funds whose performance since September 2007 indicated short-term or longer-term performance issues.

In spring 2008, a committee of the Board of Trustees (the "Committee"), working with EIMC management, determined generally the types of information the Board would review as part of its 2008 review process and set a timeline detailing the information required and the dates for its delivery to the Trustees. The Board engaged the independent data provider Keil Fiduciary Strategies LLC ("Keil") to provide fund-specific and industry-wide data containing information of a nature and in a format generally prescribed by the Committee, and the Committee worked with Keil and EIMC to develop appropriate groups of peer funds for each fund. The Committee also identified a number of expense, performance, and other issues and requested specific information as to those issues.

The Trustees reviewed, with the assistance of an independent industry consultant retained by the independent Trustees, the information that EIMC, the Sub-Advisors, and Keil provided. The Trustees formed small groups to review individual funds in greater detail.

ADDITIONAL INFORMATION (unaudited) continued

In addition, the Trustees considered information regarding, among other things, brokerage practices of the funds, the use of derivatives by the funds, strategic planning for the funds, analyst and research support available to the portfolio management teams, and information regarding the various fall-out benefits received directly and indirectly by EIMC and its affiliates from the funds. The Trustees requested and received additional information following that review.

The Committee met several times by telephone during the 2008 review process to consider the information provided by EIMC. The Committee then met with representatives of EIMC. In addition, over the period of this review, the independent Trustees discussed the continuation of the funds' advisory agreements with representatives of EIMC and in multiple private sessions with independent legal counsel at which no personnel of EIMC were present. At a meeting of the full Board of Trustees in September, the Committee reported the results of its discussions with EIMC, and the full Board met with representatives of EIMC and engaged in further review of the materials provided to it, and approved the continuation of each of the advisory and sub-advisory agreements.

In considering the continuation of the agreements, the Trustees did not identify any particular information or consideration that was all-important or controlling, and each Trustee attributed different weights to various factors. The Trustees evaluated information provided to them both in terms of the funds generally and with respect to each fund, including the Fund, specifically as they considered appropriate. Although the Trustees considered the continuation of the agreements as part of the larger process of considering the continuation of the advisory contracts for all of the funds, their determination to continue the advisory agreements for each of the funds was ultimately made on a fund-by-fund basis.

This summary describes a number of the most important, but not necessarily all, of the factors considered by the Board and the independent Trustees.

Information reviewed. The Board of Trustees and committees of the Board of Trustees meet periodically during the course of the year. At those meetings, EIMC presents a wide variety of information regarding the services it performs, the investment performance of the funds, and other aspects of the business and operations of the funds. At those meetings, and in the process of considering the continuation of the agreements, the Trustees considered information regarding, for example, the funds' investment results; the portfolio management teams for the funds and the experience of the members of those teams, and any recent changes in the membership of the teams; portfolio trading practices; compliance by the funds, EIMC, and the Sub-Advisors with applicable laws and regulations and with the funds' and EIMC's compliance policies and procedures; risk evaluation and oversight procedures at EIMC; services provided by affiliates of EIMC to the funds and shareholders of the funds; and other information relating to the nature, extent, and quality of services provided by EIMC and the Sub-Advisors. The Trustees considered a

ADDITIONAL INFORMATION (unaudited) continued

number of changes in portfolio management personnel at EIMC and its advisory affiliates in the year since September 2007. The Trustees also considered changes in personnel at the funds and EIMC, including the appointment of a new Chief Compliance Officer for the funds in June of 2007 and a new Chief Investment Officer at EIMC in August of 2008.

The Trustees considered the rates at which the funds pay investment advisory fees, and the efforts generally by EIMC and its affiliates as sponsors of the funds. The data provided by Keil showed the management fees paid by each fund in comparison to the management fees of other peer mutual funds, in addition to data regarding the investment performance of the funds in comparison to other peer mutual funds. The Trustees were assisted by an independent industry consultant in reviewing the information presented to them.

The Trustees noted that, in certain cases, EIMC and/or its affiliates provide advisory services to other clients that are comparable to the advisory services they provide to certain funds. The Trustees considered the information EIMC provided regarding the rates at which those other clients pay advisory fees to EIMC or its affiliates for such services. Fees charged to those other clients were generally lower than those charged to the respective funds. In respect of these other accounts, EIMC noted that the compliance, reporting, and other legal burdens of providing investment advice to mutual funds generally exceed those required to provide advisory services to non-mutual fund clients such as retirement or pension plans. The Trustees also considered the investment performance of those other accounts managed by EIMC and its affiliates, where applicable, and concluded that the performance of those accounts did not suggest any substantial difference in the quality of the service provided by EIMC and its affiliates to those accounts.

The Trustees considered the transfer agency fees paid by the funds to an affiliate of EIMC. They reviewed information presented to them showing that the transfer agency fees charged to the funds were generally consistent with industry norms.

The Trustees also considered that EIMC serves as administrator to the funds and receives a fee for its services as administrator. In their comparison of the advisory fee paid by the funds with those paid by other mutual funds, the Trustees considered administrative fees paid by the funds and those other mutual funds. The Board considered that EIS, an affiliate of EIMC, serves as distributor to the funds generally and receives fees from the funds for those services. They considered other so-called "fall-out" benefits to EIMC and its affiliates due to their other relationships with the funds, including, for example, soft-dollar services received by EIMC attributable to transactions entered into by EIMC for the benefit of the funds and brokerage commissions received by Wachovia Securities, LLC, an affiliate of EIMC, from transactions effected by it for the funds. The Trustees also noted that the funds pay sub-transfer agency fees to various financial institutions, including Wachovia Securities, LLC and its affiliates, that hold fund shares in omnibus accounts, and that an affiliate of EIMC receives fees for administering the sub-transfer agency

ADDITIONAL INFORMATION (unaudited) continued

payment program. In reviewing the services provided by an affiliate of EIMC, the Trustees noted that an affiliate of EIMC had won recognition from Dalbar customer service each year since 1998, and also won recognition from National Quality Review for customer service and for accuracy in processing transactions in 2008. They also considered that Wachovia Securities, LLC and its affiliates receive distribution-related fees and shareholder servicing payments (including amounts derived from payments under the funds' Rule 12b-1 plans) in respect of shares sold or held through it. The Trustees also noted that an affiliate of EIMC receives compensation for serving as a securities lending agent for a number of the funds.

In the period leading up to the Trustees' approval of continuation of the investment advisory agreements, the Trustees were mindful of the financial condition of Wachovia Corporation ("Wachovia"), EIMC's parent company. They considered the possibility that a significant adverse change in Wachovia's financial condition could impair the ability of EIMC or its affiliates to perform services for the funds at the same level as in the past. The Trustees concluded that any change in Wachovia's financial condition had not to date had any such effect, but determined to monitor EIMC's and its affiliates' performance, and financial conditions generally, going forward in order to identify any such impairment that may develop and to take appropriate action.

Nature and quality of the services provided. The Trustees considered that EIMC and its affiliates generally provide a comprehensive investment management service to the funds. They noted that EIMC and the Sub-Advisors formulate and implement an investment program for the Fund. They noted that EIMC makes its personnel available to serve as officers of the funds, and concluded that the reporting and management functions provided by EIMC with respect to the funds were generally satisfactory. The Trustees considered the investment philosophy of the Fund's portfolio management team, and considered the in-house research capabilities of EIMC and its affiliates, as well as other resources available to EIMC, including research services available to it from third parties. The Board considered the managerial and financial resources available to EIMC and its affiliates, and the commitment that the Wachovia organization has made to the funds generally. On the basis of these factors, they determined that the nature and scope of the services provided by EIMC and the Sub-Advisors were consistent with their respective duties under the investment advisory agreements and appropriate and consistent with the investment programs and best interests of the funds.

The Trustees noted the resources EIMC and its affiliates have committed to the regulatory, compliance, accounting, tax and oversight of tax reporting, and shareholder servicing functions, and the number and quality of staff committed to those functions, which they concluded were appropriate and generally in line with EIMC's responsibilities to the Fund and to the funds generally. The Board and the disinterested Trustees concluded, within the context of their overall conclusions regarding the funds' advisory agreements, that they were generally satisfied with the nature, extent, and quality of the services provided by the

ADDITIONAL INFORMATION (unaudited) continued

Sub-Advisors and EIMC, including services provided by EIMC under its administrative services agreements with the funds.

Investment performance. The Trustees considered the investment performance of each fund, both by comparison to other comparable mutual funds and to broad market indices. The Trustees noted that one of the Fund's portfolio managers, Mr. Timothy O' Brien, who left EIMC to form Crow Point, formerly acted as the Fund's portfolio manager in his capacity as an employee of EIMC. The Trustees considered the Fund's performance since the appointment of Crow Point as sub-advisor to the Fund and for the period when Mr. O'Brien managed the Fund in his capacity as an employee of EIMC. The Trustees noted that, for the one-year period ended December 31, 2007, the net asset value performance of the Fund's shares was below that of the broad-based securities index against which the Trustees compared the Fund's performance, and was in the third quintile of the non-Evergreen funds against which the Trustees compared the Fund's performance. The Trustees also noted that, for the three-year period ended December 31, 2007, the net asset value performance of the Fund's shares exceeded that of the broad-based securities index against which the Trustees compared the Fund's performance, and a majority of the non-Evergreen funds against which the Trustees compared the Fund's performance.

The Trustees discussed each fund's performance with representatives of EIMC. In each instance where a fund experienced a substantial period of underperformance relative to its benchmark index and/or the non-Evergreen fund peers against which the Trustees compared the fund's performance, the Trustees considered EIMC's explanation of the reasons for the relative underperformance and the steps being taken to address the relative underperformance. The Trustees also noted that EIMC had appointed a new Chief Investment Officer in August of 2008 who had not yet had sufficient time to evaluate and direct remedial efforts with respect to funds that have experienced a substantial period of relative underperformance. The Trustees emphasized that the continuation of the investment advisory agreement for a fund should not be taken as any indication that the Trustees did not believe investment performance for any specific fund might not be improved, and they noted that they would continue to monitor closely the investment performance of the funds going forward.

Advisory and administrative fees. The Trustees recognized that EIMC does not seek to provide the lowest cost investment advisory service, but to provide a high quality, full-service investment management product at a reasonable price. They also noted that EIMC has in many cases sought to set its investment advisory fees at levels consistent with industry norms. The Trustees noted that, in certain cases, a fund's management fees were higher than many or most other mutual funds in the same Keil peer group. However, in each case, the Trustees determined on the basis of the information presented that the level of management fees was not excessive. The Trustees noted that the Fund's management fee was lower than the management fees paid by the limited number of non-Evergreen

ADDITIONAL INFORMATION (unaudited) continued

funds against which the Trustees compared the Fund's management fee, and that the level of profitability realized by EIMC in respect of the fee did not appear excessive.

Economies of scale. The Trustees considered that, in light of the fact that the Fund was not making a continuous offering of its shares, the likelihood of economies of scale following the Fund's initial offering was relatively low, although they determined to continue to monitor the Fund's expense ratio and the profitability of the investment advisory agreements to EIMC in light of future growth of the Fund.

Profitability. The Trustees considered information provided to them regarding the profitability to the EIMC organization of the investment advisory, administration, and transfer agency (with respect to the open-end funds only) fees paid to EIMC and its affiliates by each of the funds. They considered that the information provided to them was necessarily estimated, and that the profitability information provided to them, especially on a fund-by-fund basis, did not necessarily provide a definitive tool for evaluating the appropriateness of each fund's advisory fee. They noted that the levels of profitability of the funds to EIMC varied widely, depending on among other things the size and type of fund. They considered the profitability of the funds in light of such factors as, for example, the information they had received regarding the relation of the fees paid by the funds to those paid by other mutual funds, the investment performance of the funds, and the amount of revenues involved. In light of these factors, the Trustees concluded that the profitability of any of the funds, individually or in the aggregate, should not prevent the Trustees from approving the continuation of the agreements.

Matters Relating to Approval of Interim Advisory and Sub-Advisory Agreements. Following the Trustees' approval of the continuation of the funds' investment advisory agreements, Wells Fargo & Company ("Wells Fargo") announced that it had agreed to acquire Wachovia in a whole company transaction that would include all of Wachovia's banking and other businesses, including EIMC. In connection with this transaction, on October 20, 2008, Wachovia issued preferred shares representing a 39.9% voting interest in Wachovia to Wells Fargo pursuant to a Share Exchange Agreement. Wells Fargo subsequently completed its acquisition of Wachovia on December 31, 2008.

Under the 1940 Act, both the issuance of the preferred shares to Wells Fargo and the completion of the acquisition could be viewed as resulting in the termination of the funds' investment advisory and sub-advisory agreements. Accordingly, on October 20, 2008, the Board of Trustees approved interim investment advisory and sub-advisory agreements that would become effective upon Wachovia's issuance of preferred shares to Wells Fargo. On November 12, 2008, the Trustees approved a second set of interim investment advisory and sub-advisory agreements that would become effective upon the completion of the acquisition. (The first set of interim agreements approved on October 20, 2008, together with the second set of interim agreements approved November 12, 2008, are referred to as "Interim Agreements.") In addition, the Trustees approved on November 12, 2008,

ADDITIONAL INFORMATION (unaudited) continued

and again at an in-person meeting on December 3 and 4, 2008, definitive investment advisory and sub-advisory agreements (the “New Agreements”) and recommended that shareholders of the funds approve them at meetings to be held in early 2009.

In considering whether to approve the first set of Interim Agreements on October 20, 2008, the Trustees took into account that they had recently approved the annual continuation of all of the funds’ existing investment advisory and sub-advisory agreements in September 2008. The Trustees reviewed the terms of the Interim Agreements, noting that the terms were generally identical to those of the funds’ investment advisory agreements that were in effect before October 20, 2008 (but for provisions required by law to be included in the Interim Agreements). They also took into account current and anticipated market and economic conditions, the financial condition of EIMC and of Wachovia generally, and the likely effect of the merger on the financial condition of Wachovia. In general, the Trustees considered that the proposed merger of Wachovia with Wells Fargo would very likely improve substantially the financial condition of EIMC’s parent company, increase the capital available to support the funds, and ensure that EIMC and its affiliates would have the resources to provide continuing services to the funds. In light principally of these considerations and their recent continuation of the funds’ investment advisory arrangements in September, the Trustees unanimously approved the first set of Interim Agreements that became effective on October 20, 2008.

In addition to the foregoing, at their meetings on November 12, 2008 and December 3 and 4, 2008 when the Trustees considered whether to approve the second set of Interim Agreements as well as the New Agreements, the Trustees considered presentations made to them on November 12, 2008 by representatives of EIMC and Wells Fargo regarding the anticipated implications of the merger for EIMC and the funds. The Trustees also considered:

- Their understanding that the merger was not expected to result in any adverse effect on the funds, on the quality and level of services that EIMC would provide to the funds, or on the resources available to the funds and to EIMC, and that Wells Fargo is committed to continue providing the funds with high quality services;
- Information about Wells Fargo’s financial condition, reputation, and resources, and the likelihood that the merger would result in improved organizational stability for EIMC, benefiting the funds as well as offering the potential for the funds, over time, to access Wells Fargo’s infrastructure, resources and capabilities;
- That EIMC and Wells Fargo representatives have stated that there is no present intention to change the funds’ existing advisory fees or expense limitations;
- That the representatives of Wells Fargo have expressed their intention to pursue the integration of EIMC and the funds with corresponding Wells Fargo busi-

ADDITIONAL INFORMATION (unaudited) continued

nesses and funds only after a deliberative process designed to identify and retain the relative strengths of both organizations;

- That the Wells Fargo representatives expect that the deliberative process and any subsequent integration will take more than a year;
 - That, in the meantime, Wells Fargo expects to retain, largely in its current form, the existing EIMC management team and investment advisory and other key professionals and to operate EIMC following the merger as a separate business unit under the Evergreen brand;
 - That Wells Fargo and EIMC would consult with the Trustees before implementing any significant changes that would affect the funds or the services provided by EIMC or its affiliates to the funds;
 - Wells Fargo's experience and approach with respect to acquisitions of other fund complexes;
 - The fact that, if the New Agreements were not approved, on March 19, 2009, the Subsequent Interim Agreements will expire and the funds will no longer have a contractual right to investment advisory services from EIMC or any sub-advisors;
 - That EIMC's management supports the merger; and
 - That representatives of EIMC have committed that the funds will not bear the expenses relating to Wells Fargo's acquisition of Wachovia, including the costs of soliciting fund shareholders to approve the New Agreements.
- Based on the foregoing, the Trustees, including all of the Trustees who are not "interested persons" of the funds or EIMC, unanimously approved the second set of Interim Agreements and the New Agreements.

AUTOMATIC DIVIDEND REINVESTMENT PLAN (unaudited)

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (“the Plan”). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (“Plan Agent”), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as “dividends”) payable either in shares or in cash, nonparticipating the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant’s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (“newly issued common shares”) or (ii) by purchase of outstanding common shares on the open market (open-market purchases) on the NYSE Amex or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (“market premium”), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant’s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (“market discount”), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent’s open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.

- 1 The Board of Trustees is classified into three classes of which one class is elected annually. Each Trustee serves a three-year term concurrent with the class from which the Trustee is elected. Each Trustee oversaw 77 Evergreen funds as of December 31, 2008. Correspondence for each Trustee may be sent to Evergreen Board of Trustees, P.O. Box 20083, Charlotte, NC 28202.
- 2 It is possible that Mr. Pettit may be viewed as an “interested person” of the Fund, as defined in the 1940 Act, because of his law firm’s previous representation of affiliates of Wells Fargo & Company (“Wells Fargo”). Wells Fargo and Wachovia Corporation announced on October 3, 2008 that Wells Fargo agreed to acquire Wachovia Corporation in a whole company transaction that will include the Fund’s investment advisor, EIMC. The Trustees are treating Mr. Pettit as an interested trustee for the time being.
- 3 Mr. Wagoner is an “interested person” of the Fund because of his ownership of shares in Wachovia Corporation, the parent to the Fund’s investment advisor.
- 4 The address of the Officer is 200 Berkeley Street, Boston, MA 02116.

Item 2 - Code of Ethics

Not required for this filing.

Item 3 - Audit Committee Financial Expert

Not applicable at this time.

Items 4 – Principal Accountant Fees and Services

Not required for this filing.

Items 5 – Audit Committee of Listed Registrants

Not required for this filing.

Item 6 – Schedule of Investments

Please see schedule of investments contained in the Report to Stockholders included under Item 1 of this Form N-CSR.

Item 7 – Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Not required for this filing.

Item 8 – Portfolio Managers of Closed-End Management Investment Companies.

Not required for this filing.

Item 9 – Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

If applicable/not applicable at this time.

Item 10 – Submission of Matters to a Vote of Security Holders

There have been no material changes to the procedures by which shareholders may recommend nominees to the Registrant's board of trustees that have been implemented since the Registrant last provided disclosure in response to the requirements of this Item.

Item 11 - Controls and Procedures

- (a) The Registrant's principal executive officer and principal financial officer have evaluated the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) within 90 days of this filing and have concluded that the Registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the Registrant in this Form N-CSR was recorded, processed, summarized, and reported timely.
- (b) There has been no changes in the Registrant's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to affect, the Registrant's

internal control over financial reporting .

Item 12 - Exhibits

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

- (a) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit.
 - (b)(1) Separate certifications for the Registrant's principal executive officer and principal financial officer, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and Rule 30a-2(a) under the Investment Company Act of 1940, are attached as EX99.CERT.
-

Edgar Filing: EVERGREEN UTILITIES & HIGH INCOME FUND - Form N-CSRS

(b)(2) Separate certifications for the Registrant's principal executive officer and principal financial officer, as required by Section 1350 of Title 18 of United States Code, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, and Rule 30a-2(b) under the Investment Company Act of 1940, are attached as EX99.906CERT. The certifications furnished pursuant to this paragraph are not deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liability of that section. Such certifications are not deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the Registrant specifically incorporates them by reference. Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
