FIRST CITIZENS BANCSHARES, INC.,
AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED, STATED IN THOUSANDS)
 JUNE 30, 2002

NOTE 1 - CONSOLIDATED FINANCIAL STATEMENTS

The consolidated balance sheet as of June 30, 2002, the consolidated statements of income for the three month period ended June 30, 2002, 2001 and 2000, and the consolidated statement of cash flows for the three month periods then ended have been prepared by the company without an audit. The accompanying un-audited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S - X. Accordingly they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments necessary to present fairly the financial position, results of operations and cash flows at June 30, 2002 and for all periods presented have been made. Operating results for the reporting periods presented are not necessarily indicative of results that may be expected for the year ending December 31, 2002. For further information, refer to the consolidated financial statements and footnotes thereto included in the company's annual report on Form 10-K for the year ended December 31, 2001.

NOTE 2 - ORGANIZATION

First Citizens Bancshares, Inc., is a bank holding company chartered on December 14, 1982, under the laws of the State of Tennessee. On September 23, 1983, all of the outstanding shares of common stock of First Citizens National Bank were exchanged for an equal number of shares in First Citizens Bancshares, Inc.

NOTE 3 - CONTINGENT LIABILITIES

There is no material pending litigation as of the current reportable date that would result in a liability.

NOTE 4 - RESERVE FOR LOAN LOSSES

FASBs 114 and 118 were implemented during first quarter of '95. FASB 114 and 118 require companies to set aside reserves for impaired loans.

The following data reflects impaired and probable loss loan totals:

	Balance
Amount of recorded balance with a related allowance	\$ 321
Amount of recorded balance with no related allowance	<u>1,432</u>
Impaired loan balance or recorded balance	\$ 1,753
	=====

Interest income recognized on impaired loans has been applied on a cash basis. Cash receipts are applied as cost recovery first or principal recovery first, consistent with OCC regulations. Management is confident the overall reserves are adequate to cover possible losses within the portfolio in addition to impaired loans.

NOTE 5 - DERIVATIVES

FASBs 133, 137 and 138 - FASB 133 establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. It requires derivatives to be reported as either assets or liabilities in the statement of financial position and measures those instruments at fair value. The accounting for changes in the fair value of a derivative depends on the intended use of the derivative and the resulting designation. FASBs 137 and 138 amended FASB 133. First Citizens National Bank used the derivative

as a cash flow to hedge the "Benchmark Interest Rate." First Citizens designated a Federal Home Loan Bank Variable Libor Borrowing to be hedged and effectively locked in a fixed cost on the liability.

First Citizens swapped a fixed investment cash flow for a variable cash flow that is tied to the 90 day Libor Rate. The new variable investment cash flow is matched with a variable borrowing cash flow generating a positive spread of 250 basis points with no interest rate risk. This transaction was implemented to increase the earnings of the bank. The volume used in this transaction was \$1,500,000 with a maturity of 10 years. Volume and risk associated with this transaction is well within the Funds Management Policy of the bank.

The cash flow hedge has produced a positive income, but because First Citizens swapped a fixed cash flow for a variable cash flow and rates later declined, the value of the derivative has decreased \$72 net of tax for the current period. Other comprehensive income reflects the fair market value of the derivative at (\$289) gross and (\$191) net of tax.

NOTE 6 - FASBs 141 and 142

FASB 141 - This statement addresses financial accounting and reporting for business combinations and supersedes APB Opinion 16. This FASB eliminates pooling of interests. Purchase accounting was used after June 30, 2001.

On June 1, 2002, Bancshares purchased Munford Union Bank, a state chartered bank established in 1925, total assets \$115 million. Munford Union main bank location address is 1426 Munford Avenue, Munford, TN. 38058. The bank has five offices (including the main office) and serves the counties of Tipton and Shelby. Purchase accounting method was used for the acquisition. Results of Operations for Munford Union include only one month of operations for the period ending June 30, 2002.

Total acquisition price was \$19.3 million funded partially through a dividend paid by First Citizens National Bank (The Bank) to First Citizens Bancshares, Inc. (The Company). Balance of the funding was a result of debt issued through Trust Preferred Debt and a line of credit. Bancshares stock was not issued for the purchase. Dollar cost of purchased research and development assets as well as pre-acquisition contingencies was \$0 and dollar amount written off was not applicable.

All assets and liabilities were valued to current fair market value. Goodwill included in the acquisition totaled \$8.8 million and will only be amortized if impairment occurs as directed by FASB 142. Core deposit intangible accumulated to \$845 thousand will be amortized over a 20 year period using straightly line method. Goodwill on the books of Bancshares will not be tax deductible if impairment according to FASB 142 occurs.

The following condensed balance sheet shows the values assigned to each balance sheet item:

	<u>Old Value</u>	<u>Adjustment</u>	<u>New Value</u>
Cash and Due from	\$ 3,855	\$ --	\$ 3,855
Fed Funds Sold	5,295	--	5,295
Investments	31,860	17	31,877
Net Loans	68,542	1,456	69,998
Premises & Equipment	3,535	(198)	3,337
Goodwill	--	8,808	8,808
Core deposit Intangible	--	845	845

Edgar Filing: FIRST CITIZENS BANCSHARES INC /TN/ - Form 10-Q

Other Assets	<u>2,012</u>	--	<u>2,012</u>
Total Assets	\$ 115,099	\$ 10,928	\$ 26,027
Deposits	\$ 99,723	\$ 1,219	\$ 100,942
Other Liabilities	5,741	21	5,762
Capital	<u>9,635</u>	<u>9,688</u>	<u>19,323</u>
Total Liabilities & Capital	\$ 115,099	\$ 10,928	\$ 126,027
	=====	=====	=====

Debt issued to fund the purchase of Munford will be repaid from accumulated earnings of Munford Union with First Citizens (The Bank) subsidizing a small fraction of the debt for the first two years.

FASB 142 - This statement addresses financial accounting and reporting for acquired goodwill and other intangible assets and supercedes APB 17. Goodwill and some intangible assets will no longer be amortized. FASB 142 adopts a more aggregate view of goodwill and bases the accounting on combined units of the combined entity into which an acquired entity is integrated (those units are referred to as reporting units in FASB 131).

Tests performed first quarter 2002 to establish a goodwill benchmark resulted in an impairment of zero. As a result of the test First Citizens, effective January 2002 discontinued the practice of amortizing goodwill of \$25,000 per month. Thereafter, impairment tests will be implemented annually unless an event or circumstance triggers a possible impairment loss. Total goodwill as of the reportable date is \$12.4 million or 1.88% of total assets and 23.60% of total capital.

The amortization expense of the other identifiable intangibles for the quarter was \$9.

NOTE 7 - REVOLVING LINE OF CREDIT

First Citizens Bancshares has an approved line of credit with First Tennessee Bank in the amount of \$13 million at a variable rate of interest of 100 basis points below First Tennessee's base rate renewable every two years. The line is secured with \$17 million of Bancshares stock. Advances made under terms and conditions of the line will be used for the acquisition of Munford Union Bank and other holding company strategies. Interest on the outstanding balance will be payable quarterly at a variable rate per annum. As of June 30, 2002, Bancshares, Inc. had \$9.3 million outstanding balance extended on the line.

NOTE 8 - LONG TERM OBLIGATIONS

In March 2002, the Company formed a wholly owned subsidiary of First Citizens (TN) Statutory Trust II. The Trust was created under the Business Act of Delaware for the sole purpose of issuing and selling preferred securities and using the proceeds from the sale to acquire long term subordinated debentures issued by Bancshares. The debentures are the sole assets of the Trust. First Citizens Bancshares owns 100% of the common stock of the Trust.

On March 26, 2002 the Company through its wholly owned subsidiary, First Citizens (TN) Statutory Trust II, sold 5,000 of its floating rate Preferred Trust Securities at a liquidation amount of \$1000 per security for an aggregate amount of \$5,000,000. For the period beginning on (and including) the date of original issuance and ending on (but excluding) June 26, 2002 the rate per annum of 5.59%. For each successive period beginning on (and including) June 26, 2002, and each succeeding interest payment date at a rate per annum equal to the 3-month LIBOR plus 3.60%; provided however, that prior to March 26, 2007, this interest rate shall not exceed 11%. Interest payment dates are:

March 26, June 26, September 26, and December 26 during the 30 year term.

Bancshare's obligation under the debentures and related documents, constitute a full and unconditional guarantee by the Company of the Trust issuer's obligations under the Preferred Securities. Although the debentures are treated as debt of the Company, they are treated as Tier I capital subject to a limitation that the securities included as Tier I capital not exceed 25% of the total Tier I capital. The securities are callable by the Company after 5 years. These funds are a partial source for the acquisition of Munford Union Bank, along with our line of credit and capital infusion from First Citizens National Bank (the Bank).

The ability of First Citizens to service its long term debt obligation is dependent upon the future profitability of its banking subsidiaries and their ability to pay dividends to the Company.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL INFORMATION

First Citizens Bancshares, Inc. (the "company") headquartered in Dyersburg, TN., is the bank holding company for First Citizens National Bank ("the Bank"), The Munford Union Bank, First Citizens Capital Assets, and First Citizens (TN) Statutory Trust II. First Citizens National Bank and The Munford Union Bank are diversified financial service institutions, which provides banking and other financial services to its customers. The bank operates 4 wholly owned subsidiaries: Financial Plus, Inc., Delta Finance, Inc., Nevada Investments I, Inc., and Nevada Investments II, Inc. The bank also owns 50% of White and Associates / First Citizens Insurance LLC and First Citizens/White and Associates Insurance Company, Inc. These subsidiary activities consist of: brokerage, personal finance, investments, insurance related products and credit insurance.

FORWARD-LOOKING STATEMENTS

Quarterly reports on Form 10-Q, including all documents incorporated by reference, may contain forward-looking statements. Additional written or oral forward-looking statements may be made from time to time in other filings with the Securities Exchange Commission. The discussion of changes in operations may contain words that indicate the company's future plans, goals, and estimates of assets, liabilities or income. Forward-looking statements will express the company's position as of the date the statement is made. These statements are primarily based upon estimates and assumptions that are inherently subject to significant banking, economic, and competitive uncertainties, many of which are beyond management's control. When used in this discussion, the words "anticipate," "project," "expect," "believe," "should," "intend," "is likely," "going forward," and other expressions are intended to identify forward-looking statements. The statements are within the meaning and intent of section 27A of the Securities Exchange Act of 1934. Such statements may include, but not limited to projections of income or loss, expenses, acquisitions, plans for the future and others.

RESULTS OF OPERATIONS

First Citizens Bancshares recorded net income for the quarter ended June 30, 2002 of \$1.743 million, a 13.85 percent increase compared to last year's quarterly earnings of \$1.531 million. Earnings per share grew 14.63% to \$.47 from \$.41 in the same period last year. An aggressive buy back program approved by the Board of Directors for Bancshares Stock in the amount of \$1 million per year over a 4 year period resulted in Bancshares' purchasing an accumulated total at quarter end of 46,859 shares. The quarterly return on average assets was 1.20% for 2002 compared to 1.17 % for the same period in 2001. The quarterly return on equity increased to 13.81% for the current year from 12.79% last year. Return on average equity second quarter 2002, includes only one month of earnings from The Munford Union Bank. Third quarter 2002 will include a full three months earnings. Net interest income increased \$1 million or 20.86%, from the second quarter of 2001 to the second quarter of 2002. Federal funds rate dropped from 6.50% to

Edgar Filing: FIRST CITIZENS BANCSHARES INC /TN/ - Form 10-Q

1.75% since September 2000, resulting in a material reduction in cost of funds. The Company's interest margin benefits in a declining rate environment as compared to a rising rate environment.

The loan loss provision increased \$161 thousand or 69.39% when compared to the same quarter of last year. Additional write downs, charge-offs, and the declining economy contributed to the increase in the provision for 2002. An incremental adjustment of \$52 thousand to bad debt expense accruals was made for the current reportable period.

Non-interest income decreased \$38 thousand, or (2.16%) over the prior year's second quarter. In the current quarter of 2002, fee income (non-interest income) contributed 15.61% to total revenue compared to 14.93% for the same period last year. Overdraft fees and brokerage fees caused the negative 2.16% variance. The Munford Union Bank's non-interest income contribution for the reportable quarter was \$71 thousand. Bond profits (\$2 thousand) were taken the second quarter of 2002 compared to \$75 thousand for 2001. First Citizens National Bank sold its credit card portfolio for a profit of \$191 thousand second quarter of 2002. As a result of the sale (1) a reduction in average income received from interest and fees per month is estimated at \$21 thousand and (2) credit card charge-offs and other operating expenses will be reduced as well. The following table compares non-interest income for second quarter of 2002, 2001, and 2000:

	Non-Interest Income (in thousands)				
	June 30,				
	<u>2002</u>	% of <u>Change</u>	<u>2001</u>	% of <u>Change</u>	<u>2000</u>
Service Charges on Deposit Accounts	\$ 813	(5.24%)	\$ 858	30.40%	\$ 658
Trust Income	165	(0.60%)	166	(7.26%)	179
Other Income	<u>744</u>	<u>1.09%</u>	<u>736</u>	<u>14.64%</u>	<u>642</u>
TOTAL	\$ 1,722	12.36%	\$ 1,760	0.13%	\$ 1,479

Non-interest expense increased \$489 thousand, or 11.51%, over second quarter of 2001. The pro-forma (includes Munford in all periods presented) income statement reflects a 5.22% increase in non-interest expense. Salary and benefits have increased with the addition of full time salaries, incentive accruals, health insurance associated with the opening of the Martin branch and purchase of Munford Union Bank (\$132 thousand). Tight budget controls and incentives have stabilized the growth of controllable core expenses. First Citizens National Bank recorded a \$100 thousand DDA charge off during the quarter, which was recovered in third quarter 2002. First Citizens Bancshares expensed \$30 thousand acquisition cost (Munford Union Bank) during second quarter. Management's commitment to continued improvement in the efficiency ratio is reflected in a ratio of 60.56% at 6/30/02 compared to 62.71% at 6/30/01. The YTD efficiency ratio is 59.87%. Expense other real estate is \$55 thousand above quarter end balance at 2001 due to write-downs. The other real estate asset is \$3,021,000 as of June 2002 versus \$1,216,000 for June 2001. The 2002 ORE balance includes \$1.2 million acquired in the Munford Bank acquisition. Impaired Goodwill expense is \$0 for the current reportable period compared to \$153,000 for 2001. FASB 142 altered the analysis of goodwill for years going forward beginning with year 2002.

The following table compares non-interest expense for the second quarter of 2002, 2001, and 2000:

Net Charge-offs	(\$ 341)	(\$ 265)	(\$ 58)

LOANS:

Core loan growth (excluding acquisitions) increased \$6 million or 1.36% when comparing June 2002 to December 2001. Reduced volume is attributable to a slowing economy and unemployment rate in Dyer County of 9%.

Unemployment rates in other counties served by First Citizens range from 3.6% (Obion) to 8.0% (Lauderdale). Slower loan growth has resulted in an increase in total investments made to the bank's investment portfolio. Loan fees increased \$186,000 or 40% when compared to prior years total was a result of a buy down in interest rate on large commercial credits. Net loan demand is anticipated to remain flat for the remainder of 2002.

AGRICULTURAL LOANS:

First Citizens is one of the largest agriculture lenders in the State of Tennessee and is an approved Farm Credit Services lender. Agriculture makes a significant contribution to Dyer County commerce, generating approximately \$79 million in revenue on an annual basis. Past due credits in this category are slightly over one percent of total loans.

LOAN LOSS EXPERIENCE AND RESERVES FOR LOAN LOSSES:

An analytical model based on historical loss experience, current trends and economic conditions as well as reasonably foreseeable events is used to determine the amount of provision to be recognized and to test the adequacy of the loan loss allowance. The ratio of allowance for loan losses to total loans, net of unearned income, was listed at 1.13% in the March 31 Call Report to the Federal Reserve. A recap of activity posted to the Reserve account in third quarter resulted in the following transactions: (1) loans charged-off (\$341,000) (2) recovery of loans previously charged off - \$107,000 and (3) additions to reserve \$393,000. The provision for loan losses increased \$1.3 million when compared to the same time period in 2001. The increase was necessary to cover write downs on certain problem credits, cover shortfalls in the sale of other real estate and provide the allocations necessary to cover loan growth.

The ratio of net charged off loans during the quarter to average net loans outstanding was .08% compared to .07% for the same quarter of 2001. A review of non-performing loans indicates a decrease of total non-performing loans from \$2.7 million in 2001 to \$2 million in 2002. The decrease is mainly attributed to loans charged off as well as transfer of

properties to Other Real Estate. An increase in the local unemployment rate discussed previously in the loan section was a result of the closing of a local textile manufacturer in July, 2001 and layoffs by other local manufacturing companies dealing with reduced demand for their products. The total impact of the closing and layoffs is mitigated to a degree by the opening of two small plants within the County. First Citizens has no concentrations of credit of 10 percent or more of total loans in any single industry. There are no material reportable contingencies as of this report date.

LIQUIDITY:

Liquidity is managed to ensure ample funding of loan demand, investment opportunities, and large deposit withdrawals. Bancshares primary funding sources include customer core deposits, FHLB borrowings, other borrowings, and correspondent borrowings. Customer based sources accounted for 82% of the funding for both the current and prior years. Borrowed funds from the FHLB amounted to 11% (\$66 million) of the total funding for year 2002 and 11% (\$54 million) for 2001. The FHLB line of credit is \$117 million with \$51 million remaining to service future draws. First Citizens National Bank has \$5 million of brokered CD's comprising 1% of total deposits.

The bank's liquidity position improved since year-end 2001, a result of below average loan demand and minimal deposit growth. Growth in deposits is occurring at both First Citizens National Bank and Munford Union Bank, but at levels below that accomplished in 2001. This situation reinforces the idea that consumers are in a pattern of a flight to quality by investing in deposits insured by FDIC, with the primary shift occurring in 2001. A major attraction of deposit customers has been the Wall Street Checking account. This is an unlimited transaction account that earns a rate of interest tied to the 90 day Treasury Bill Rate. Over the past three years, balances in this account have accrued to levels in excess of \$46 million.

The bank's position is strengthened by ready access to a diversified base of wholesale borrowings. These include correspondent borrowings, federal funds purchased, securities sold under agreements to repurchase, Federal Home Loan Bank, Brokered certificates of deposit, and others. First Citizens National Bank has lines of credit with the FHLB and correspondent banks in excess of \$140 million. The Company has a \$13 million line of credit established for acquisitions and other holding company needs (see note 7). As of the current reportable period, \$3.6 million of this line remains available for future liquidity needs.

The company has in place a Board approved crisis contingency liquidity plan at the bank and holding company level to defend against any material deterioration in our liquidity position.

INVESTMENT SECURITIES:

First Citizens had over one half of the bond portfolio called in the year 2001. Investments called were Callable U.S. Agencies. The called amounts were reinvested mainly into mortgage backed agencies (very defined tranches and predictable characteristics) with an average life of less than 5 years. The called agency volumes materially improved the bank's liquidity position for 2001. While year of 2002 reflects an above average year in maturities and calls, volumes are significantly lower than 2001. The flow of funds as reflected on the cash flow statement reveals \$51 million maturities or calls in 2001 compared to \$44 million in 2002. Economic conditions negatively impacted loan growth thereby creating a shift of available funds into the portfolio. Pledged investments amount to \$95 million as of the current reportable period compared to \$76 million at June 30, 2001. Peer data indicates portfolio yields are slightly less than the average peer bank, which is due to investment portfolio changes (called bonds) that took place in 2001. The bank's goal is to steadily improve investment portfolio yields without taking on material risk.

The book value of listed investment securities as of the dates indicated are summarized as follows:

CAPITAL RESOURCES

Total capital on June 30, 2002 was \$52.2 million, up 5.51% from \$49.8 million on December 31, 2001. The increase in capital was from undistributed net income, and favorable market value moves in the bond portfolio. Bancshares has historically maintained capital in excess of minimum levels established by the Federal Reserve Board. The risk based capital ratio reflects continuous improvement when reviewing prior years. The June 2002 ratio reflects the investment of \$5 million in available capital into the Munford Union acquisition (purchase accounting with no stock issuance). This deployment of excess capital into revenue producing assets is in keeping with strategic planning goals established to enhance future earnings of the company. Risk based capital ratio as of June 30, 2002 was 10.58%, significantly in excess of the 8% mandated by Regulatory Authorities, while 2001's figure was 13.60%. The Company's Tier I ratio as of the current period was 7.54%. Capital as a percentage of total assets for the quarter ending June 30 is presented in the following table for the years indicated (excluding loan loss reserves):

<u>2002</u>	<u>2001</u>	<u>2000</u>	<u>1999</u>	<u>1998</u>
7.99%	9.25%	9.33%	9.26%	9.37%

The dividend payout ratio is 54.73% for the current period versus 60.01% for the prior year. It is anticipated that the dividend payout will remain approximately 54% for the remainder of 2002. The quarterly dividend per share is \$.26 for 2002 compared to \$.25 for 2001. The quarterly dividend yield is 4.16%, well in excess of peer bank average (Southeast Bank Group) of 2.77%. Bancshares has purchased 4,491 share of Bancshares stock in the open market since

December 31, 2001. The goal is to purchase \$1 million per year for the next four years.

RECENTLY ISSUED ACCOUNTING STANDARDS

The discussion on business combinations (FASB 141) and accounting for goodwill (FASB 142) will have an impact on the company's financials. Purchase accounting has been applied on the Munford Union acquisition and will be applied for future acquisitions. First Citizens calculated the fair value of its' one unit and compared that to the unit's book value. FASB 142 adopts a more aggregate view for goodwill and bases the accounting on the units of the combined entity into which an acquired entity is integrated (reporting units per FASB 131). If the book value is determined to be below the fair value assessment, there is no impairment loss. But, if the fair value is below book, this means that goodwill has been impaired, and a write down is required. Pooling of interest method was eliminated June 30, 2001. As of June 30, 2002, there was no impairment; therefore, no amortization expense was required. The bank adopted FASB 142 on January 1, 2002 and the benchmark was applied. The amount of amortization eliminated in 2002 was \$25 thousand per month. No impairment write-downs are anticipated in the year of 2002.

PART I - ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The bank maintains a formal asset and liability management process to quantify, monitor and control interest rate risk. The asset liability committee tries to maintain stability in the net interest margin under various interest rate cycles. First Citizens has materially improved its interest rate risk exposure since year-end 2000. Strategic actions implemented are as follows: (1) increased long term FHLB Borrowings by \$11 million; (2) purchased variable rate investments; (3) enticed existing deposit customers to extend maturities past 1 year; and (4) reduced overnight borrowings exposure.

First Citizens swapped a \$1,500,000 fixed investment cash flow for a variable cash flow stream that is tied to the 90 day libor rate on June 2000. The new variable investment cash flow is matched with a variable borrowing, thereby producing a positive ongoing spread of 250 basis points with no interest rate risk. This transaction was implemented to increase earnings and reduce interest rate risk. The cash flow hedge has produced a positive income, but because the bank swapped a fixed cash flow for a variable cash flow and rates have declined the value of the derivative has decrease since inception. The volume and risk associated with this derivative is well within the Funds Management Policy of the bank. There have been no material changes since year-end 2001 applicable to this transaction.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

There are no material legal proceedings filed against First Citizens Bancshares or its subsidiaries as of this report date.

Item 2. Changes in Securities

None.

Item 3. Defaults upon Senior Securities

None.

Item 4. Submission of Matters To a Vote of Security Holders

None.

Item 5. Other Information - Certification Under Sarbanes-Oxley Act

Our chief executive officer and chief financial officer furnished to the SEC the certification with respect to this Report that is required by Section 906 of the Sarbanes-Oxley Act of 2002.

Item 6. Exhibits and Reports on Form 8K

None.
