The Company anticipates that the results of operations for the three and nine months ended April 30, 2006, will be significantly different from the corresponding period for the last fiscal year. The Company anticipates that its net loss for the three months ended April 30, 2006 will be approximately \$1,082,000, which would be \$685,000 or 173% greater than its net loss for the three months ended April 30, 2005, which was \$397,000. The Company believes that the increase in net loss resulted primarily from an increase in professional, engineering and consulting costs associated with planning its El Chanate project

for production as well as an increase in investor relations, professional, consulting and listing fees during the three months ended April 30, 2006. The Company's net loss for the nine months ended April 30, 2006 is anticipated to be approximately \$2,817,000, which would be \$1,546,000 or 122% greater than its net loss for the nine months ended April 30, 2005, which was \$1,271,000. These results may change based on the outcome of the Company's valuation of its call option purchase of gold for the period March 2007 through September 2010 at a price of \$535/oz.
