INFORMATION ABOUT THE 2011 ANNUAL MEETING AND PROXY VOTING

What matters are to be voted on at the Annual Meeting?

Acorn Energy intends to present the following proposals for stockholder consideration and voting at the Annual Meeting:

- (1) the election of six directors to hold office until the 2012 Annual Meeting and until their respective successors are elected and qualified;
- (2) the ratification of the selection by the Audit Committee of the Company’s Board of Directors of Friedman LLP as the independent registered public accounting firm for the Company for the year ending December 31, 2011;
- (3) an advisory vote on the compensation of the Company’s named executive officers;
- (4) an advisory vote on the frequency of future advisory votes on the compensation of the Company’s named executive officers; and
- (5) such other business as may properly come before the Annual Meeting or any adjournment thereof.

What is the Board’s recommendation?

The Board of Directors recommends that you vote your shares “FOR” each of Proposals 1, 2 and 3, and “THREE YEARS” on Proposal 4 on your proxy card.

Will any other matters be presented for a vote at the Annual Meeting?

We do not expect that any other matters might be presented for a vote at the Annual Meeting. However, if another matter were to be properly presented, the proxies would use their own judgment in deciding whether to vote for or against the proposal.

Who is entitled to vote?

All Acorn Energy stockholders of record at the close of business on the Record Date are entitled to vote at the Annual Meeting. Each share outstanding on the Record Date will be entitled to one vote. There were 17,516,942 shares outstanding on the Record Date.

How do I vote my shares?

If you are a stockholder of record, you may grant a proxy with respect to your shares by mail using the proxy included with the proxy materials. Stockholders who own their shares through banks, brokers or other nominees may grant their proxy by mail, by telephone or over the Internet in accordance with the instruction in the Notice of Internet Availability of Proxy Materials. Internet and telephone voting will be available through 11:59 p.m. Eastern Daylight Time on October 16, 2011.

If you are a stockholder of record or a duly appointed proxy of a stockholder of record, you may attend the Annual Meeting and vote in person. However, if your shares are held in the name of a bank, broker or other nominee, and you wish to attend the Annual Meeting to vote in person, you will have to contact your bank, broker or other nominee to obtain its proxy. Bring that document with you to the meeting.

All proxies submitted will be voted in the manner you indicate by the individuals named on the proxy. If you do not specify how your shares are to be voted, the proxies will vote your shares FOR all Directors in Proposal 1, FOR Proposals 2 and 3, and "3 YEARS" on Proposal 4.

As permitted by the Securities and Exchange Commission, or SEC, Acorn Energy is sending a Notice of Internet Availability of Proxy Materials to stockholders who hold shares in "street name" through a bank, broker or other holder of record. All such stockholders will have the ability to access this Proxy Statement and the Company's Annual Report at <https://materials.proxyvote.com/004848>. The notice also includes information as to how these stockholders may vote their shares.

May I change or revoke my proxy after it is submitted?

Yes, you may change or revoke your proxy at any time before the Annual Meeting by:

- returning a later-dated proxy card;
- attending the Annual Meeting and voting in person; or
- sending your written notice of revocation to Joe B. Cogdell, Jr., our Secretary.

Your changed proxy or revocation must be received before the polls close for voting.

What is a "quorum?"

In order for business to be conducted at the Annual Meeting, a quorum must be present. A quorum will be present if stockholders of record holding a majority in voting power of the outstanding shares of our common stock entitled to vote at the Annual Meeting are present in person or are represented by proxies. For purposes of determining the presence or absence of a quorum, we intend to count as present shares present in person but not voting and shares for which we have received proxies but for which holders thereof have abstained. Furthermore, shares represented by proxies returned by a broker holding the shares in nominee or “street” name will be counted as present for purposes of determining whether a quorum is present, even if the broker is not entitled to vote the shares on matters where discretionary voting by the broker is not allowed (“broker non-votes”).

What vote is necessary to pass the items of business at the Annual Meeting?

Holders of our common stock will vote as a single class and will be entitled to one vote per share with respect to each matter to be presented at the Annual Meeting. With respect to Proposal 1, the six nominees for director receiving a plurality of the votes cast by holders of common stock, at the Annual Meeting in person or by proxy, shall be elected to our Board. Approval of Proposals 2 and 3 requires the votes cast in favor of each such proposal to exceed the votes cast against such proposal. Abstentions from voting, as well as broker non-votes, if any, are not treated as votes cast and, therefore, will have no effect on any of these proposals.

Stockholders may vote their shares concerning Proposal 4, frequency of future advisory votes on executive compensation, by selecting from among four choices (every one, two or three years, or abstain). An abstention has no effect on the frequency vote. The frequency choice that receives the greatest number of votes will be viewed as the advisory vote on this matter. A nominee holding shares in street name does not have discretionary voting power with respect to this proposal and may not vote shares unless the nominee receives voting instructions from the beneficial owner. Accordingly, a broker non-vote is not counted for voting purposes with respect to, and has no effect on, the frequency vote.

Who pays the costs of this proxy solicitation?

This solicitation of proxies is made by our Board of Directors, and all related costs will be borne by us. In addition, we may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners.

What is the deadline for submission of stockholder proposals for the 2012 Annual Meeting?

Proposals that our stockholders may wish to include in our proxy statement and form of proxy for presentation at our 2012 Annual Meeting of Stockholders must be received by or delivered to us at Acorn Energy, Inc. 4 West Rockland Road, Montchanin, Delaware 19710, Attention: Joe B. Cogdell, Jr., Secretary, no later than the close of business on December 9, 2011.

Any stockholder proposal must be in accordance with the rules and regulations of the SEC. In addition, with respect to proposals submitted by a stockholder other than for inclusion in our 2011 proxy statement, our By-laws have established advance notice procedures that stockholders must follow. Pursuant to the By-laws of the Company, stockholders who wish to nominate any person for election to the Board of Directors or bring any other business before the 2012 Annual Meeting must generally give notice thereof to the Company at its principal executive offices not less than 60 days nor more than 90 days before the date of the meeting. All nominations for director or other business sought to be transacted that are not timely delivered to the Company, or that fail to comply with the requirements set forth in the Company's By-laws, will be excluded from the Annual Meeting, as provided in the By-laws. A copy of the By-laws of the Company is available upon request from the Secretary of the Company, 4 West Rockland Road, Montchanin, Delaware 19710.

Where can I find the voting results of the Annual Meeting?

The preliminary voting results will be announced at the Annual Meeting. The final results will be published in our current report on Form 8-K to be filed with the Securities and Exchange Commission within four business days after the date of the Annual Meeting, provided that the final results are available at such time. In the event the final results are not available within such time period, the preliminary voting results will be published in our current report on Form 8-K to be filed within such time period, and the final results will be published in an amended current report on Form 8-K/A to be filed within four business days after the final results are available. CORPORATE GOVERNANCE MATTERS

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 (the "Exchange Act") requires our executive officers and directors, and persons who own more than 10% of a registered class of our equity securities to file reports of ownership and changes in ownership with the SEC. These persons are also required by SEC regulation to furnish us with copies of all Section 16(a) forms they file. Based solely on our review of such forms or written representations from certain reporting persons, we believe that during 2010 our executive officers and directors complied with the filing requirements of Section 16(a) except that a Form 4 related to the purchase of shares by Mr. Moore was not timely filed due to an electronic submission error.

We have implemented measures to assure timely filing of Section 16(a) reports by our executive officers and directors in the future.

Board Composition and Director Independence

Our Board of Directors is composed of one class, with seven Board seats, one of which is vacant, and six directors serving until their reelection or replacement at the 2011 Annual Meeting of Stockholders. John A. Moore serves as both Chief Executive Officer and Chairman of our Board of Directors. We do not have a lead independent director. Applying the definition of independence provided under the NASDAQ rules, the Board has determined that with the exception of John A. Moore, all of the members of the Board of Directors are independent.

Board Leadership Structure and Role in Risk Oversight

The Board believes Mr. Moore's service as Chief Executive Officer and Chairman of the Company is appropriate because it bridges a critical gap between the Company's management and the Board, enabling the Board to benefit from management's perspective on the Company's business while the Board performs its oversight function. Further, the Board believes Mr. Moore's significant ownership of Acorn Energy stock aligns his interests with those of Acorn Energy's stockholders. In addition, the Board believes that having one person serve as both Chief Executive Officer and Chairman of the Board of Directors demonstrates for our employees, strategic partners, customers and stockholders that Acorn Energy has one clear leader.

Management is responsible for Acorn Energy's day-to-day risk management, and the Board's role is to engage in informed oversight. The entire Board performs the risk oversight role. Acorn Energy's Chief Executive Officer is a member of the Board of Directors, and Acorn Energy's Chief Financial Officer and its General Counsel regularly attend Board meetings, which helps facilitate discussions regarding risk between the Board and Acorn Energy's senior management, as well as the exchange of risk-related information or concerns between the Board and the senior management. Further, the independent directors generally meet in executive session following regularly scheduled Board meetings to voice their observations or concerns and to shape the agendas for future Board meetings. The Board of Directors believes that, with these practices, each director has an equal stake in the Board's actions and oversight role and equal accountability to Acorn Energy and its stockholders.

Meetings and Meeting Attendance

During the fiscal year ended December 31, 2010, there were eight meetings of the Board of Directors. Our independent directors generally meet in executive session as part of each regularly scheduled Board meeting. All incumbent directors attended 75% or more of the Board meetings and meetings of the committees on which they served during the last fiscal year. Directors are encouraged to attend the annual meeting of stockholders, and all directors attended the 2010 annual meeting of stockholders.

Committees of the Board

Audit Committee; Audit Committee Financial Expert. Our Board of Directors has established one standing committee, the Audit Committee, which was established and is administered in accordance with SEC rules. The Audit Committee oversees our accounting and financial reporting processes and audits of our financial statements by our independent auditors. The three members of the Audit Committee are Joe Musanti, Richard Rimer and Samuel M. Zentman. The Board of Directors has determined that each member of the Audit Committee meets the independence criteria prescribed by NASDAQ governing the qualifications for audit committee members and each Audit Committee member meets NASDAQ's financial knowledge requirements. Our Board has determined that Joe Musanti qualifies as an "audit committee financial expert," as defined in the rules and regulations of the SEC. During 2010, the Audit Committee met seven times.

Audit Committee Report. The Audit Committee has (1) reviewed and discussed the audited financial statements with management; (2) discussed with the independent auditors the matters required to be discussed by the statement of Auditing Standards No. 61 as amended; and (3) received the written disclosures and the letter from the independent accountants required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountants' communications with the Audit Committee concerning independence, and has discussed with the independent accountant the independent accountant's independence.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2010, which was filed with the Securities and Exchange Commission on March 16, 2011.

THE AUDIT COMMITTEE OF THE BOARD
OF DIRECTORS OF ACORN ENERGY, INC.

Joe Musanti
Richard Rimer
Samuel M. Zentman

Nominating Procedures. The Company does not have a nominating committee. We believe that not using a committee of the Board in the director nomination process fosters fuller active participation of all our directors in the process. Nominations to the Board must either be selected or recommended for the Board's selection by a majority of the Board's independent directors. The Board uses established policies and procedures for director nominations. The Board identifies potential director candidates from a variety of sources, including recommendations from current directors or management, recommendations of security holders, or any other source that the Board has deemed appropriate.

In considering candidates for the Board of Directors, the Board evaluates the entirety of each candidate's credentials, such as (i) business or other relevant experience; (ii) expertise, skills and knowledge; (iii) integrity and reputation; (iv) the extent to which the candidate will enhance the objective of having directors with diverse viewpoints and backgrounds; (v) willingness and ability to commit sufficient time to Board responsibilities; and (vi) qualification to serve on specialized board committees.

Our stockholders may recommend potential director candidates by contacting the Secretary of the Company to receive a copy of the procedure to recommend a potential director candidate for consideration by the independent directors, who will evaluate recommendations from stockholders in the same manner that they evaluate recommendations from other sources.

Compensation Matters. The Company does not currently have a compensation committee. We believe that not using a committee of the Board in setting compensation policies and making compensation decisions fosters fuller active participation of all our directors in the process. The entire Board of Directors establishes the general compensation policies of the Company, the specific compensation levels for each executive officer, and administers the Company's equity compensation plans and practices.

As required by NASDAQ, all action with respect to the compensation of our executive officers is also approved or recommended for approval by a majority of our independent directors.

Code of Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all our officers and employees. This Code of Ethics is designed to comply with the NASDAQ marketplace rules related to codes of conduct. A copy of this Code of Ethics may be obtained on our website at <http://www.acornenergy.com> under the "Investor Relations" tab. We intend to post on our website any amendments to, or waiver from, our Code of Business Conduct and Ethics.

EXECUTIVE AND DIRECTOR COMPENSATION

Compensation Discussion and Analysis

The following discussion and analysis of compensation arrangements of our named executive officers for the year ended December 31, 2010 should be read together with the compensation tables and related disclosures set forth below. This discussion contains forward looking statements that are based on our current plans, considerations, expectations and determinations regarding future compensation programs. Actual compensation programs that we adopt may differ materially from currently planned programs as summarized in this discussion.

Compensation determinations. The Company's Board of Directors does not currently have a compensation committee. We believe that not using a committee of the Board in setting compensation policies and making compensation decisions fosters fuller active participation of all our directors in the process. The entire Board of Directors establishes the general compensation policies of the Company, the specific compensation levels for each executive officer, and administers the Company's equity compensation plans and practices. As required by NASDAQ, all action with respect to the compensation of our executive officers is also approved or recommended for approval by a majority of our independent directors.

Compensation objectives and philosophy. Our executive compensation programs are designed to motivate and reward sustainable long-term performance, and a key component of our executive compensation is long-term incentives. This ensures that executive compensation aligns appropriately with long-term stockholder interests and the Company's performance. We continuously evaluate our executive compensation programs and make prudent changes when necessary to ensure alignment with stockholder interests. The Board believes that the objectives of our executive compensation program are appropriate for a company of our size and stage of development and that our compensation policies and practices help meet those objectives.

Compensation program. The elements of our compensation program include base salary and performance-based cash bonuses, as well as long-term compensation in the form of stock options. The Board believes that our executive compensation program achieves an appropriate balance between fixed compensation and variable incentive compensation and pays for performance. The Board also believes that the Company's executive compensation program effectively aligns the interests of our executive officers with those of our stockholders by tying a significant portion of their compensation to the Company's performance and by providing a competitive level of compensation needed to recruit, retain and motivate talented executives critical to the Company's long-term success. The costs of our compensation programs are a significant determinant of our competitiveness. Accordingly, we are focused on ensuring that the balance of the various components of our compensation program is optimized to motivate employees to achieve our corporate objectives on a cost-effective basis.

Stockholder input on executive compensation. Stockholders can provide the Company with their views on executive compensation matters at this year's meeting through the advisory vote on executive compensation and during the interval between stockholder advisory votes. The Company welcomes stockholder input on our executive compensation matters, and stockholders are able to reach out directly to our independent directors by emailing to board@acornenergy.com to express their views on executive compensation matters..

Estimated Payments and Benefits Upon Termination or Change in Control

The amount of compensation and benefits payable to each named executive officer (other than Mr. McMahon, whose contractual arrangements with the Company have terminated, and Mr. Cogdell who is serving the Company under a transition arrangement through the end of November 2011), and certain other officers in various termination

situations is described in the tables below.

John A. Moore

Under the terms of the employment agreement with Mr. Moore, our President and Chief Executive Officer, upon termination by the Company for cause (as defined in the agreement) and upon termination by Mr. Moore without good reason (as defined in the agreement), all compensation due to Mr. Moore under his agreement would cease, except that Mr. Moore would receive all accrued but unpaid base salary up to the date of termination, and reimbursement of all previously unreimbursed expenses. All vested and unexercised options granted by the Company as of the date of termination would be exercisable in accordance with the terms of the applicable stock option plan and agreements, provided that Mr. Moore would have only three months to exercise such previously vested options. All options that had not vested as of the date of termination would expire.

In the event that within three months prior to or one year following a change of control (as defined in the agreement), either (i) the Company terminates the employment of Mr. Moore, other than for cause, or (ii) Mr. Moore terminates for good reason, Mr. Moore would receive the following (except to the extent that any payment would constitute an “excess parachute payment” under the IRS Code): (i) an amount equal to (A) 24 months of then-current base salary and (B) two times his most recent annual bonus; (ii) reimbursement of all previously unreimbursed expenses; (iii) the full vesting of any and all stock options granted to Mr. Moore by the Company prior to such termination, and extended exercisability thereof until their respective expiration dates; and (iv) the continuation of all medical and dental benefits at the Company’s sole expense for a period of one year after termination.

In the event that (i) the Company terminates the employment of Mr. Moore (including a non-renewal of his agreement at the end of the three-year term provided therein, but not including non-renewal following any subsequent renewal of the term), other than upon a change of control, death, disability or for cause, or (ii) Mr. Moore terminates for good reason, other than in connection with a change of control, Mr. Moore shall receive the following (except to the extent that any payment would constitute an “excess parachute payment” under the IRS Code): (i) an amount equal to (A) 12 months of then-current base salary and (B) his most recent annual bonus; (ii) reimbursement of all previously unreimbursed expenses; (iii) accelerated vesting of all unvested options that otherwise would have vested within 24 months of the date of termination, with such accelerated options and all other vested and unexercised options granted by the Company as of the date of termination to be exercisable for a period of one year from the date of termination of employment in accordance with the terms of the applicable stock option plan and agreements; and (iv) the continuation of all medical and dental benefits at the Company’s sole expense for a period of one year after termination.

In the event of any change of control, all stock options granted to Mr. Moore prior to such change of control vest and remain exercisable until their respective expiration dates.

The term of Mr. Moore’s agreement would end immediately upon his death, or upon termination by the Company for cause or disability (as defined in the agreement) or by Mr. Moore for good reason. Upon termination due to Mr. Moore’s death, all compensation due Mr. Moore under his agreement would cease.

The following table describes the potential payments and benefits upon termination of employment for Mr. Moore, as if his employment terminated as of December 31, 2010, the last day of our last fiscal year.

Compensation of Directors

Each of our non-employee directors is paid an annual cash retainer of \$40,000, payable quarterly in advance, as well as meeting fees for Board and Committee meetings of \$1,000 per meeting. Certain directors receive an additional annual cash retainer: \$12,000 for the lead director for CoaLogix matters arising prior to the CoaLogix sale (in an effort to conserve corporate cash, the lead director for CoaLogix matters voluntarily reduced the payment to \$1,000 per CoaLogix board meeting) and \$10,000 for the Chairman of the Audit Committee. As an employee, Mr. Moore is not entitled to separate compensation in his capacity as a director.

Our 2006 Stock Option Plan for Non-Employee Directors, which was adopted in February 2007 and amended and restated in November 2008, provides for formula grants to non-employee directors equal to an option to purchase (i) 25,000 shares of our common stock upon a member's initial appointment or election to the Board of Directors and (ii) 10,000 shares of our common stock to each director, other than newly appointed or elected directors, immediately following each annual meeting of stockholders. The initial grant to purchase 25,000 shares of our common stock vests one-third per year for each of the three years following the date of appointment or election and the annual grant to purchase 10,000 shares vests one year from the date of grant. Both options shall be granted at an exercise price equal to the closing price on NASDAQ on the day preceding the date of grant and shall be exercisable until the earlier of (a) seven years from the date of grant or (b) 18 months from the date that the director ceases to be a director, officer, employee, or consultant. The plan also provides for non-formula grants at the Board's discretion. The maximum number of shares of our common stock to be issued under the plan is 400,000. The Plan is administered by the Board of Directors.

Consulting Agreement with Mr. Morgenstern

Mr. Morgenstern, our Chairman Emeritus, has been retained as a consultant by our Company since March 2006 primarily to provide oversight of our Israeli activities. Mr. Morgenstern's consulting agreement, which was due to expire on March 31, 2011, provided for the payment of an annual consulting fee of \$1.00 and a non-accountable expense allowance of \$75,000 per year plus a payment of a bonus of \$25,000 under certain circumstances. The agreement was amended in March 2011 to extend the term to March 31, 2012, adjust the annual non-accountable expense allowance to \$56,250 and to eliminate the bonus provision.

The following table sets forth information concerning the compensation earned for service on our Board of Directors during the fiscal year ended December 31, 2010 by each individual (other than Mr. Moore who is not separately compensated for Board service) who served as a director at any time during the fiscal year.

PROPOSAL 2

REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has selected Friedman LLP as the independent registered public accounting firm to perform the audit of our consolidated financial statements for the year ending December 31, 2011. Friedman LLP representatives are expected to attend the 2011 Annual Meeting. Friedman LLP is a registered public accounting firm with the Public Company Accounting Oversight Board (the "PCAOB"), as required by the Sarbanes-Oxley Act of 2002 and the Rules of the PCAOB.

The Board is asking our stockholders to ratify the selection of Friedman LLP as our independent registered public accounting firm. Although current law, rules, and regulations, as well as the charter of the Audit Committee, require the Audit Committee to engage, retain, and supervise our independent registered public accounting firm, the Board considers the selection of the independent registered public accounting firm to be an important matter of stockholder concern and is submitting the selection of Friedman LLP for ratification by stockholders as a matter of good corporate practice. Even if the selection is ratified, the Audit Committee in its discretion may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE
RATIFICATION OF THE SELECTION OF FRIEDMAN LLP AS OUR
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE YEAR
ENDING DECEMBER 31, 2011.

PROPOSAL 3

ADVISORY VOTE ON EXECUTIVE COMPENSATION

We are asking stockholders to cast an advisory vote on the compensation of our named executive officers disclosed in the Executive Compensation section of this Proxy Statement. While this vote is non-binding, the Company values the opinions of stockholders and will consider the outcome of the vote when making future compensation decisions.

The Board believes that the objectives of our executive compensation program are appropriate for a company of our size and stage of development and that our compensation policies and practices help meet those objectives. In addition the Board believes that our executive compensation program achieves an appropriate balance between fixed compensation and variable incentive compensation and pays for performance. The Board also believes that the Company's executive compensation programs effectively align the interests of our executive officers with those of our stockholders by tying a significant portion of their compensation to the Company's performance and by providing a competitive level of compensation needed to recruit, retain and motivate talented executives critical to the Company's long-term success. Accordingly, we are asking our stockholders to approve the compensation of our named executive officers. This advisory vote is not intended to be limited or specific to any particular element of compensation, but rather cover the overall compensation of our named executive officers and the compensation policies and practices described in this proxy statement.

We are asking our stockholders to vote FOR, in a non-binding vote, the compensation of the Company's named executive officers as disclosed above pursuant to Item 402 of Regulation S-K in the Executive Compensation section of this Proxy Statement.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE
FOR THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS.

PROPOSAL 4

ADVISORY VOTE ON THE FREQUENCY OF THE STOCKHOLDER ADVISORY VOTE ON EXECUTIVE
COMPENSATION

We are asking stockholders to recommend, in a non-binding vote, whether the advisory stockholder vote on the compensation of our named executive officers should occur every one, two or three years. While this vote is non-binding, the Company values the opinions of stockholders and will consider the outcome of the vote when considering the frequency of future advisory stockholder votes on executive compensation.

We believe a three-year frequency for the advisory stockholder vote on executive compensation is most consistent with the objectives of our executive compensation programs.

- We believe the best way for stockholders to evaluate the Company's performance is over a three-year period because our executive compensation programs are designed to motivate and reward sustainable long-term performance. A three-year time horizon will provide stockholders with a long-term view of whether our executive compensation programs are achieving their objectives. In addition, because the Summary Compensation Table provides three years of compensation history, stockholders can compare compensation and performance trends since the last stockholder advisory vote.
- We continuously evaluate our executive compensation programs and make prudent changes when necessary to ensure alignment with stockholder interests.
- Stockholders can provide the Company their views on executive compensation matters during the interval between stockholder advisory votes. The Company welcomes stockholder input on our executive compensation matters, and stockholders are able to reach out directly to our Board of Directors at www.acornenergy.com to express their views on executive compensation.
- Executive compensation is set by our independent directors, and a key component of executive compensation is in the form of long-term incentives. This ensures that executive compensation continues to align appropriately with long-term stockholder interests and the Company's performance in years no stockholder advisory vote is presented.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE
THREE YEARS WITH RESPECT TO HOW FREQUENTLY A NON-BINDING
STOCKHOLDER VOTE ON THE COMPENSATION OF OUR
NAMED EXECUTIVE OFFICERS SHOULD OCCUR.

STOCKHOLDER PROPOSALS FOR THE 2012 ANNUAL MEETING

Dear Friends and Fellow Shareholders:

I am happy to report that your company is now presented with some of the greatest growth opportunities in its history together with the resources to exploit those opportunities to their fullest potential.

Yesterday we closed on the sale of CoaLogix for \$101 million, resulting in approximately \$61.9 million in gross proceeds from the sale, given our fully diluted ownership and an estimated \$5 million in tax liabilities (the latter taking into consideration significant tax-loss carry-forwards). This transaction will yield 3.4 times our investment in CoaLogix, representing a 43% internal rate of return and represents approximately \$3.53 per share of proceeds. Acorn Energy has no corporate debt and three outstanding companies, each addressing potentially billion-dollar markets.

Why did we sell CoaLogix?

Bill McMahon and his team did a terrific job building CoaLogix from 30 employees and \$4.5 million in revenue in November 2007 to \$21.5 million in revenue and almost 100 employees by the end of 2010. They created the market for catalyst regeneration in the US and landed the industry's only long-term contracts with major utilities and new catalyst suppliers. We came to a crossroads with this excellent company where our being the largest shareholder meant investing significantly more capital and assuming correspondingly more risk. Near-term plans for CoaLogix included expanding capacity at Steele Creek, building an additional US facility and expanding into China. Our funding these activities would have required us to incur significant fundraising at the Acorn level with the associated dilution. This would have violated our core principle of acquiring and owning capital-light businesses where we can enter ahead of the portion of the growth curve which requires massive capital investment.

We initiated a process with the investment bank UBS to find the "right" buyer for CoaLogix. The search was for a new owner who could invest aggressively to help Bill and his team expand CoaLogix from the US leader in power plant catalyst regeneration to the world leader. The new owner had to be able to provide both capital and industry contacts. In response to this mandate the UBS team conducted a very thorough auction process with 72 initial candidates. The successful bid came from Energy Capital Partners, a \$7 billion fund specializing in energy investing.

Now what?

Our business model of being value investors in energy technology assets remains intact. The sale of CoaLogix to Energy Capital Partners validates our strategy of being the major shareholder; investing ahead of the growth curve; proving significance in the business; and exiting where the tradeoff between growth and dilution demands access to larger pools of capital than we can comfortably provide.

Our three companies which we continue to hold are poised for aggressive growth. All three companies share the following traits: 1) they are category leaders in markets that could reach several billion dollars; 2) they have capital-light business models; and 3) they have wide economic moats resulting from first-mover advantages, proven reference customers, and strong performance based on proprietary software and intellectual property. We believe that each of these businesses has an opportunity to create substantial shareholder value (both organically and through acquisition) over the course of the next several years. Here are some specifics....

DSIT is our underwater security business based in Israel. DSIT makes systems of sonar arrays that detect and alert security teams to the presence of underwater threats to critical infrastructure. We estimate there are over 3,000 vulnerable water-based energy infrastructure facilities that could benefit from DSIT's products. An installation can range between \$1 to 3 million. DSIT has established several reference customers and we believe it is the world leader in this emerging market. In 2010, DSIT had sales of \$11.5 million and pre-tax profits of \$1.6 million – representing the second year of profitable 24% annual revenue growth. The company has an impressive and growing pipeline of sales opportunities.

GridSense is our smart-grid platform, pioneering the emerging field of distribution optimization. Electricity steps down from transmission lines via transformers, then passes through substations and power lines until it reaches the meter at the household level, where it is used to power appliances in your home and place of work. Most electric outages occur in the transformers and wires of the distribution network. GridSense products are at the forefront of providing revolutionary technology to help utilities improve the reliability of the electric grid. The company makes cost-effective sensors that go on transformers and wires so the grid becomes a self-healing network.

We believe the growth of GridSense is going to be driven by four tectonic forces: 1) aging of the world's transformer fleet; 2) need for better reliability from the electric supply in the digital age; 3) complexity, intermittency and power-quality issues related to renewable power and electric cars; and 4) the recent availability of inexpensive communication technology that can provide real-time situational awareness from GridSense's state-of-the-art sensors. We estimate there are almost one million large and medium transformers in the USA. Our TransformerIQ® product ranges in price from \$1,000 to \$3,000. In June of 2011, GridSense landed the largest-ever transformer-monitoring project with one of the most progressive US utilities. This company, too, has an impressive and growing pipeline of sales opportunities and new product introductions.

US Seismic Systems is developing the critical sensor system to enable the digital oilfield revolution. The US Seismic product is a new generation of Ultra High Sensitivity (UHS) fiber optic sensors for permanent reservoir monitoring of oil and gas production. The company has received \$1.8 million in orders this year, and the upcoming quarters will be a very important period for proving the technology with customers who are some of the largest oilfield operators and service companies in the world. Once proven, this technology, which we believe possesses higher sensitivity, increased ruggedness and substantial cost advantage over legacy systems, promises to dramatically improve the production of oil and gas. The current market for seismic sensor systems is \$2 billion annually. We expect to sell our product for one-fifth the cost of legacy systems and expect a greater increase in demand as a result. The next year of trials and product development will provide important clues as to how much future value US Seismic will be able to create for our shareholders.

In my shareholder letter last year I discussed the Enercosm: the coming world of networked energy systems. I want to emphasize that Acorn Energy offers our shareholders a unique investment in the next era of energy prosperity. This new era will be driven by economies of connection – the benefits provided by vast networks of inexpensive sensors connected to operations centers via wireless communication. The Enercosm will yield huge productivity gains for investors and our society, and we believe we own three outstanding companies that will profit from the realization of this vision. We have the resources and management to make it happen, and some good fortune could assure our success.

As you can tell from this letter, my confidence in Acorn's future success is as high as ever. I have showed that confidence in a more concrete fashion; since my last shareholder letter, I have acquired 215,365 shares of stock through option exercises and open market purchases, increasing my ownership to 849,112 shares. I continue to believe the stock market is undervaluing our company. Be patient. In today's volatile stock market, validation of our beliefs can come quite suddenly.

As always, thank you for your continued faith in Acorn Energy. Please join us at our annual shareholder meeting on Monday, October 17, 2011 at noon at the Union League Club, 38 East 37th Street in New York City. Jacket and tie are required and no jeans.

Sincerely,

John A. Moore
