PROXY STATEMENT

FOR

2012 ANNUAL MEETING OF STOCKHOLDERS

This Proxy Statement is furnished to the stockholders of Shore Bancshares, Inc. (the “Company”) in connection with the solicitation of proxies by the Board of Directors of the Company to be voted at the 2012 Annual Meeting of Stockholders. The Annual Meeting of Stockholders will be held on Wednesday, April 25, 2012, at 11:00 a.m., local time, at the Avalon Theatre, 42 East Dover Street, Easton, Maryland 21601, and at any adjournments thereof. The expense of preparing, printing, and mailing the proxies and solicitation materials will be borne by the Company. In addition to solicitations by mail, the Company may solicit proxies in person, by telephone or by electronic means, and may arrange for brokerage houses and other custodians, nominees, and fiduciaries to send proxies and proxy material to their principals at the expense of the Company. The approximate date on which this Proxy Statement and attached form of Proxy are being mailed to stockholders is March 22, 2012.

PURPOSES OF THE MEETING

At the Annual Meeting, stockholders will be asked to (i) vote on the election of five director nominees named in this Proxy Statement to the Board of Directors (Proposal 1), (ii) ratify the Audit Committee’s appointment of the Stegman & Company to serve as the Company’s independent registered public accounting firm for fiscal year 2012 (Proposal 2), (iii) adopt a non-binding advisory resolution approving the compensation of the Company’s “named executive officers” (as defined below in the section entitled “EXECUTIVE COMPENSATION”), also known as the “Say-on-Pay” vote (Proposal 3), and (iv) consider such other business as may properly come before the Annual Meeting (Proposal 4).

RECORD DATE; OUTSTANDING SHARES; VOTING RIGHTS; QUORUM AND REQUIRED VOTE

Holders of record at the close of business on March 8, 2012 (the “Record Date”) of outstanding shares of the Company’s common stock, par value \$.01 per share (“Common Stock”), are entitled to notice of and to vote at the meeting. As of the Record Date, the number of shares of outstanding Common Stock entitled to vote is 8,457,359 shares. Each share is entitled to one vote.

The presence, in person or by proxy, of stockholders entitled to cast a majority of all votes entitled to be cast at the Annual Meeting will constitute a quorum. Directors are elected by a plurality of all votes cast at the Annual Meeting, so the withholding of a vote, an abstention and a broker non-vote will have no impact on the outcome of the vote on Proposal 1, as described in this Proxy Statement, but all of the foregoing will be counted for purposes of determining whether a quorum is present for the transaction of business. The ratification of the appointment of Stegman & Company as the Company’s independent registered public accounting firm, as described in Proposal 2, and the approval of the advisory Say-on-Pay vote, as described in Proposal 3, will be decided by a majority of all votes cast on those matters. Accordingly, abstentions and broker non-votes with respect to Proposal 2 and Proposal 3 will be counted for purposes of determining the presence of a quorum but will have no impact on the outcome of the votes on those proposals. Except in cases of certain extraordinary matters for which the Company’s governing instruments or applicable law require a different proportion, the affirmative vote of a majority of all shares of Common Stock voted at the Annual Meeting is sufficient to approve any motion that comes before the meeting pursuant to Proposal 4, as described in this Proxy Statement. Accordingly, abstentions and broker non-votes with respect to any motion that comes before the meeting pursuant to Proposal 4 (other than certain extraordinary matters as discussed above) will be counted for purposes of determining the presence of a quorum but will have no impact on the outcome of the vote on such motion.

All properly executed proxies received pursuant to this solicitation will be voted as directed by the stockholder on the proxy. If no direction is given, the proxy will be voted **FOR ALL NOMINEES** named in Proposal 1, **FOR** the ratification of the appointment of Stegman & Company as the Company's independent registered public accounting firm, as described in Proposal 2, **FOR** the adoption of the resolution approving the compensation of the named executive officers, as described in Proposal 3, and in the discretion of the proxies as to any other matter that may properly come before the meeting pursuant to Proposal 4.

A stockholder may revoke the proxy at any time prior to its use by execution of another proxy bearing a later date, or by written notice delivered to W. Moorhead Vermilye, Chief Executive Officer of the Company, at the Company's address listed above or at the meeting.

Pursuant to Rule 5605(b)(1) of The NASDAQ Stock Market Rules (the "NASDAQ Rules"), a majority of the Company's directors must be "independent directors" as that term is defined by NASDAQ Rule 5605(a)(2). The Company's Board of Directors has determined that each of Herbert L. Andrew, III, Blenda W. Armistead, James A. Judge, Neil R. LeCompte, Frank E. Mason, III, Jerry F. Pierson, Christopher F. Spurry and John H. Wilson is an "independent director", and these independent directors constitute a majority of the Company's Board of Directors. If elected, each of David J. Bates and William E. Sylvester, Jr. will also meet the definition of an "independent director". Each member of the Compensation Committee and of the Nominating Committee is an "independent director" as defined by NASDAQ Rule 5605(a)(2), and each member of the Audit Committee meets the independence standards of NASDAQ Rule 5605(c)(2)(A). In addition to those relationships and transactions described below under the heading, "CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS", the Board considered Mr. Andrew's provision of construction loan monitoring services to Talbot Bank in determining director independence.

Board Leadership Structure and Risk Oversight Role

The position of Chairman of the Board of Directors and the position of Chief Executive Officer are not held by the same person. The Board's philosophy is and has been to fill the position of Chairman with an independent director. The foregoing structure is not mandated by any provision of law or of the Company's Charter or Amended and

Restated By-Laws, as amended (the “By-Laws”), but the Board of Directors believes that this structure provides the best balance of authority between management and the Board.

The duties of the Chairman include: (i) acting as a liaison and channel for communication between the independent directors and the Chief Executive Officer; (ii) providing leadership to ensure the Board works cohesively and independently and during times of crisis; (iii) advising the Chief Executive Officer as to the quality, quantity and timeliness of information from executive management to the independent directors; (iv) being available to consult with the Chief Executive Officer and other directors on corporate governance practices and policies; (v) coordinating the assessment of Board committee structure, organization and charters and evaluating the need for change, as well as committee membership; (vi) together with the chairperson of the Nominating Committee, interviewing all Board candidates and making recommendations concerning such candidates; (vii) coordinating, developing the agenda and leading executive sessions of the independent directors and communicating the results thereof to the Chief Executive Officer; (viii) ensuring appropriate segregation of duties between board members and management; (ix) suggesting agenda items for Board meetings; and (x) together with the Chair of the Compensation Committee, communicating the Board's evaluation of the performance of the Chief Executive Officer.

The Board of Directors of the Company is actively involved in the Company's risk oversight activities through the work of its various committees and through the work of the boards of directors and committees of the Company's subsidiaries, a number of which have Company directors as members. In addition to meeting in committee, the independent directors of the Company meet in executive session after each regular Board meeting to allow for open discussion without the presence of Company management.

The Nominating Committee, which is also charged with overseeing corporate governance matters, performs an annual assessment of the effectiveness of the Board and its committees in carrying out their respective duties.

In addition to the foregoing, the Company has adopted a Code of Ethics that applies to all of its directors, officers, and employees, including its principal executive officer, principal financial officer, principal accounting officer, or controller, and persons performing similar functions.

Board Meeting Attendance

The Board of Directors held thirteen meetings in 2011. No incumbent director during the last full fiscal year attended fewer than 75% of the aggregate of (1) the total number of meetings of the Board of Directors

(held during the period for which that person served as a director); and (2) the total number of meetings held by all committees of the Board on which that person served (held during the period served).

Director Recommendations and Nominations

The Nominating Committee is responsible for assembling and maintaining a list of qualified candidates to fill vacancies on the Board, and it periodically reviews this list and researches the talent, skills, expertise, and general background of these candidates. The Nominating Committee will from time to time review and consider candidates recommended by stockholders. Stockholder recommendations should be submitted in writing to: Shore Bancshares, Inc., 18 East Dover Street, Easton, Maryland 21601, Attn: W. David Morse, Secretary; and must specify (i) the recommending stockholder's contact information, (ii) the class and number of shares of the Company's Common Stock beneficially owned by the recommending stockholder, (iii) the name, address and credentials of the candidate for nomination, and (iv) the candidate's consent to be considered as a candidate.

Whether recommended by a stockholder or chosen independently by the Nominating Committee, a candidate will be selected for nomination based on his or her talents and the needs of the Board. The Nominating Committee does not have a formal policy pursuant to which it considers specific diversity criteria when selecting nominees, such as education, professional experience, skills, race or gender. Rather, the Nominating Committee's goal in selecting nominees is to identify persons who have business and other ties to the communities and industries served by the Company, and who have skills, education and other attributes that will meet the needs of the Board at that time and, generally, that are complimentary to the skills and attributes possessed by existing directors. When searching for and appointing directors to fill a particular committee position, the Nominating Committee searches for persons who will meet the independence standards required for those committees and who possess skills and attributes that will allow the committee to be effective. The Nominating Committee also strives to select individuals who it believes will work well with the other directors at the highest level of integrity and effectiveness.

A candidate, whether recommended by a Company stockholder or otherwise, will not be considered for nomination unless he or she is of good character and is willing to devote adequate time to Board duties. In assessing the qualifications of potential candidates, the Nominating Committee will also consider the candidate's experience, judgment, and civic and community relationships, and the diversity of backgrounds and experience among existing directors. Certain Board positions, such as Audit Committee membership, may require other special skills, expertise, or independence from the Company.

It should be noted that a stockholder recommendation is not a nomination, and there is no guarantee that a candidate recommended by a stockholder will be approved by the Nominating Committee or nominated by the Board of Directors. A stockholder who desires to nominate a candidate for election may do so only in accordance with Article II, Section 4 of the Company's By-Laws, which provides that directors may be nominated by stockholders by written request to the Secretary of the Company received not less than 120 days nor more than 180 days prior to the date fixed for the meeting. Additional time constraints are applicable in the cases of a change in stockholder meeting date or a special meeting called for the purpose of electing directors. As provided in the By-Laws, the notice of nomination must specify: (a) the name and address of each proposed nominee; (b) the principal occupation of each proposed nominee; (c) the number of shares of capital stock of the Company owned by each proposed nominee; (d) the name and residence address of the notifying stockholder; (e) the number of shares of capital stock of the Company owned by the notifying stockholder; (f) the consent in writing of the proposed nominee as to the proposed nominee's name being placed in nomination for director; (g) a description of all arrangements or understandings between such notifying stockholder and each proposed nominee and any other person or persons (including their names) pursuant to which the nomination(s) are to be made by such notifying stockholder; (h) a representation that such notifying stockholder intends to appear in person or by proxy at the meeting to nominate the persons named in its notice; and (i) all information relating to such proposed nominee that would be required to be disclosed by Regulation 14A under the Exchange Act and Rule 14a-11 promulgated thereunder, assuming such provisions would be applicable to the solicitation of proxies for such proposed nominee.

Stockholder Communications with the Board of Directors

Stockholders may communicate with the Company's Board of Directors by contacting W. David Morse, Secretary, at Shore Bancshares, Inc., 18 East Dover Street, Easton, Maryland 21601 or (410) 763-7800. All communications will be forwarded directly to the Chairman of the Board for consideration.

The Company believes that the Annual Meeting is an opportunity for stockholders to communicate directly with directors and, accordingly, expects that all directors will attend each Annual Meeting. If you would like an opportunity to discuss issues directly with our directors, please consider attending this year's Annual Meeting. At the 2011 Annual Meeting, all directors (who were serving as such) were in attendance.

DIRECTOR COMPENSATION

Directors of the Company who are not also employees of the Company or any of its bank subsidiaries (*i.e.*, Talbot Bank or CNB), referred to as “outside directors”, receive fees for attending regular, special and committee meetings of the Board of Directors, as well as annual retainers. Outside Directors of the Company who also serve on the boards of directors of Talbot Bank and CNB also receive fees for attending meetings of those boards and their committees, as well as retainers. In addition, CNB has entered into certain compensatory agreements with Mr. Pierson. These fee and other compensatory arrangements are discussed in detail below.

The following table provides information about the compensation paid to or earned by the Company's directors during 2011 who are not named executive officers. Information regarding compensation paid to or earned by directors who are also named executive officers is presented in the Summary Compensation Table that appears below in the section entitled "EXECUTIVE COMPENSATION".

Company Director Compensation

During 2011, outside directors of the Company received \$300 for attending each meeting of the Board and \$300 for attending each meeting of a Board committee on which those directors served. Board and committee chairpersons (Messrs. Spurry, Judge and LeCompte and Ms. Armistead) received \$500 for attending Board or committee meetings of which they were the chairpersons. In addition, the Chairman of the Board (Mr. Spurry) received a \$10,000 annual retainer and each other director received a \$5,000 annual retainer.

All directors of the Company and of its subsidiaries are eligible to participate in the Shore Bancshares, Inc. 2006 Stock and Incentive Compensation Plan (the “2006 Equity Plan”), which is discussed below in the section entitled “COMPENSATION DISCUSSION AND ANALYSIS”.

Talbot Bank Board Compensation

During 2011, outside directors of the Company who served as directors of Talbot Bank (Messrs. Andrew and Spurry and Ms. Armistead) also received an annual retainer of \$5,000 per year for serving on the board of directors of Talbot Bank, plus \$200 per meeting attended. Talbot Bank paid these fees. Directors are compensated once for attending joint meetings of the Company's Board and the board of directors of Talbot Bank.

CNB Board Compensation

During 2011, outside directors of the Company who served as directors of CNB (Messrs. Judge, LeCompte and Pierson) also received an annual retainer of \$10,000, plus \$100 for each meeting attended. These fees were paid by CNB. Directors are compensated once for attending joint meetings of the Company's Board and the board of directors of CNB.

In 1997, CNB entered into a Director Indexed Fee Continuation Plan Agreement (a "Director Fee Agreement") with Mr. Pierson that calls for the payment of certain benefits on and after retirement from the Board. The benefits are funded by a life insurance policy on the life of Mr. Pierson, which is owned solely by CNB. Each year during Mr. Pierson's service to the Board, CNB deposits to or withdraws from a retirement account an amount equal to the difference between the annual after-tax earnings or loss, respectively, generated by the insurance policy and the "Cost of Funds" (as defined in the Director Fee Agreement) for that year. Upon normal retirement after age 65, Mr. Pierson is entitled to receive (i) the balance of his retirement account paid in 15 annual installments commencing 30 days after retirement, and (ii) each year after retirement until death, the difference between the after-tax income generated by the policy for that year and the "Cost of Funds" for that year. If Mr. Pierson elects early retirement after reaching age 55 but before age 65, then he will be entitled to receive (x) the balance of his retirement account as of the date of retirement paid in 15 annual installments commencing at age 65, and (y) each year after early retirement until death, the difference between the after-tax income generated by the policy for that year and the Cost of Funds for that year. If Mr. Pierson should retire prior to reaching age 55, then no benefits will be paid. If Mr. Pierson should die prior to receiving the entire amount of his retirement account, then his designated beneficiaries will receive the unpaid amount as a lump sum payment. If Mr. Pierson's service is terminated following a "Change of Control", then he will be automatically vested in the promised normal retirement benefits and entitled to receive them starting at age 65. At December 31, 2011, the retirement account balance for Mr. Pierson was \$256,536.

In connection with the Director Fee Agreement, CNB and Mr. Pierson entered into a Life Insurance Endorsement Method Split-Dollar Plan Agreement in 1997 (a "Director Endorsement Agreement") pursuant to which CNB agreed to endorse to the beneficiaries named by Mr. Pierson 80% of the net-at-risk insurance portion of the death benefits payable to CNB under the insurance policy discussed above on the life of that director. The net-at-risk portion of the proceeds is defined as the total proceeds paid at death less the then cash value of the policy. The benefit payable under the Director Endorsement Agreements as of December 31, 2011 to the beneficiaries of Mr. Pierson was approximately

\$777,556.

Avon-Dixon Agency Board Compensation

During 2011, Mr. Wilson served as a director of Avon-Dixon and received an additional \$1,000 for attending all meetings of its Board of Directors. These fees were paid by Avon-Dixon.

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

This discussion and analysis describes briefly the philosophy, strategy and major details of the Company's approach to compensating key executives, the various components of executive compensation, and the executive compensation decisions made in 2011. The Compensation Committee has developed the compensation approach over several years with guidance from management and the Company's independent compensation and benefits consultants.

The Compensation Committee expects senior management of the Company to lead and direct the Company's staffing to exceed customer expectations and to produce superior returns for stockholders. Later in this Proxy Statement, in the section entitled "EXECUTIVE COMPENSATION", stockholders will find tables and narrative disclosure containing detailed information concerning compensation earned by or paid to the Company's "named executive officers" in 2011, which persons include:

W. Moorhead Vermilye — Chief Executive Officer

Susan E. Leaverton — Treasurer and Principal Accounting Officer

Lloyd L. Beatty, Jr. — President and Chief Operating Officer

William W. Duncan — President, Talbot Bank

F. Winfield Trice, Jr. – President, CNB

The discussion below is intended to help stockholders understand the information provided in the “EXECUTIVE COMPENSATION” section and provide context for the Company’s overall executive compensation program and the 2011 executive compensation decisions.

Objective

The primary objective of the Compensation Committee’s approach is to provide competitive levels of compensation so that the Company may attract, retain and reward outstanding executive officers. In a highly competitive community banking marketplace, excellent leadership is essential. The Company’s executive officers are expected to manage the business of the Company and its subsidiaries in a manner that promotes growth and profitability for the benefit of stockholders, while exceeding the requirements and service expectations of the Company’s customers. To that end, the Committee believes that:

- Key executives should have compensation opportunities at levels that are competitive with peer institutions;

Total compensation should include “at risk” components that are linked to annual and long-term performance results; and

Stock-based compensation should form a key component of total compensation as a means of linking senior management to the long-term performance of the Company and aligning their interests with those of stockholders.

Discussion of the Compensation Committee’s Philosophy on Executive Compensation

The Company’s success depends on the ability of its key executives to meet and exceed operational and financial goals defined in the Company’s business plan. Consequently, the Compensation Committee applies the following principles when structuring compensation arrangements for key executives:

Benchmarking – In order to determine competitiveness in the marketplace, the Committee relies on an analysis of peer institutions, comparable in asset size and corporate structure, prepared by the Compensation Consulting Practice of Lockton Companies, LLC (“Lockton”), an independent compensation advisor retained by the Compensation Committee. The members of this peer group include:

ACNB Corporation	Eastern Virginia Bankshares, Inc.
Alliance Financial Corporation	First South Bancorp, Inc.
American National Bankshares, Inc.	First United Corporation
Ameriserv Financial, Inc.	Franklin Financial Services Corporation
Bryn Mawr Bank Corporation	National Bankshares, Inc.
C & F Financial Corporation	Newbridge Bancorp
Center Bancorp, Inc.	Old Point Financial Corporation
Capital Bank Corp	Penns Woods Bancorp, Inc.
Citizens & Northern Corp	Republic First Bancorp
CNB Financial Corporation	Vist Financial
Eagle Bancorp, Inc.	

The Committee believes that total direct compensation should be established at a level that is competitive with the Company’s defined peer group. In addition, the Committee believes that it is essential to offer competitive supplemental benefit arrangements and perquisites, in certain instances to round out the executive compensation package and ensure that the package has the proper retention value.

2. **Allocation of Elements of Compensation** – The Committee believes that the weighting of compensation elements should vary within the management group to reflect the role of each executive and his or her ability to influence short- and long-term performance. In general, the Committee believes that fixed base salary should approximate 50% of the targeted total compensation opportunity for senior management, with the balance split between

short-term (cash) and long-term incentives (such as stock options and time- and performance-based stock awards), as the circumstances dictate. Finally, while not a significant component of the executive compensation package, fringe benefits, including supplemental retirement benefits, for several executives are important to enhance the retention value of the executive compensation package. These fringe benefits may include car allowances, country club dues and supplemental insurance and retirement benefits.

Impact of 2011 Say on Pay Vote - At the 2011 annual meeting of stockholders, the Company's stockholders overwhelmingly adopted a non-binding resolution approving the compensation paid to our executive officers, as disclosed in the definitive proxy statement for that meeting pursuant to Item 402 of the SEC's Regulation S-K. The measure was approved by approximately 92.6% of all votes cast. The Compensation Committee and the Board consider this vote to be an endorsement of our compensation philosophy and practices, including our balance between cash and equity compensation.

Based upon that stockholder vote, the Compensation Committee believed that significant modifications to our executive compensation program were not necessary for 2011 and, as such, it remained relatively unchanged from our 2010 program. Both the Committee and the Board intend to periodically re-evaluate our executive compensation philosophy and practices in light of the Company's performance, needs and developments, including the outcome of future non-binding advisory votes by the Company's stockholders.

Elements of and Rationale for 2011 Compensation

The Compensation Committee uses the following primary elements of compensation and benefits to recruit, retain and reward key executives:

Employment Agreements – The Committee believes that securing the continued service of certain key executives is essential to the Company's success, and it attempts to do this through competitive and creative compensation arrangements. In certain cases, the Compensation Committee will recommend that the Company enter into an employment agreement with a key executive, which will typically provide for a competitive salary, the possibility of cash and non-cash incentive awards, participation in the Company's equity compensation plans, and provisions for payments upon certain severances and changes in control. The Committee believes that this type of agreement provides security to both the Company and the executive, in that it clearly defines the obligations and expectations of each party, protects the Company's business interests, and rewards a loyal and valuable executive in the event that his or her service is unexpectedly terminated.

On June 16, 2011, the Company entered into an Amended and Restated Employment Agreement with Mr. Vermilye and an Employment Agreement with Mr. Beatty. A summary of the material terms of these agreements are discussed below under the heading, "EXECUTIVE COMPENSATION".

Messrs. Duncan and Trice and Ms. Leaverton are not parties to written employment agreements with the Company or its subsidiaries, but they are entitled to receive what the Compensation Committee believes to be very competitive compensation packages. In 2008, Lockton recommended that the Company enter into employment agreements with these executive officers and the Committee took that recommendation under advisement. The Committee believes that entering into employment agreements with executive officers other than Messrs. Vermilye and Beatty is not warranted at this time. The Committee may revisit this matter in the future.

Mr. Duncan was hired in 2006. To attract him to the organization, the Compensation Committee believed that it was essential to provide a robust compensation package. The Compensation Committee developed Mr. Duncan's compensation package not only to pay and reward him for his service to the Company but also to compensate him for the loss of certain benefits that he forfeited when he terminated his previous employment. Part of his package includes the right to receive, subject to the satisfaction of certain vesting and other requirements, annual awards of restricted

stock under the 2006 Equity Plan and certain guaranteed payments under the Company's deferred compensation arrangements.

Salary – A competitive salary for senior management is essential. Furthermore, flexibility to adapt to the particular skills of an individual or the Company's specific needs is required. Each year, proposed salary adjustments for senior management are presented to the Compensation Committee by Mr. Vermilye, typically in December. The

2. Compensation Committee reviews the recommendations and makes any further adjustments with input from the Compensation Committee's independent compensation adviser. Recommendations regarding adjustments to Mr. Vermilye's salary are heard and discussed in executive session and, if appropriate, approved by the Compensation Committee in executive session.

In 2010, the Compensation Committee determined that salaries paid to senior management in 2009 were generally at or below the targeted levels of our peer group, but, due to the overall performance of the Company for 2009, the Compensation Committee froze base salaries for each of the named executive officers. These salaries have remained frozen since that time, except that effective January 1, 2011 Mr. Beatty's salary was increased to \$300,000 in conjunction with his promotion to President and Chief Operating Officer of the Company.

For 2010 and 2011, executive salaries were as follows:

Name	Title	Base Salary		Increase		
		2010	2011	Amount	Percentage	
W. Moorhead Vermilye	Chief Executive Officer	324,000	324,000	0	0.0	%
Susan E. Leaverton	Chief Financial Officer	156,600	156,600	0	0.0	%
Lloyd L. Beatty, Jr.	Chief Operating Officer	294,000	300,000	6,000	2.0	%
William W. Duncan	CEO Talbot Bank	284,100	284,100	0	0.0	%
F. Winfield Trice, Jr.	CEO CNB	222,300	222,300	0	0.0	%

- Annual Bonus – The Company's bonus program, the Management Incentive Plan (the "MIP"), was developed to provide additional cash compensation to key management personnel when corporate and individual performance meet or exceed specific predetermined goals. Incentive award targets are assigned to each executive based on the executive's position and responsibilities and identified comparative compensation targets and mix outlined in our executive compensation philosophy. Based on the Company's projected income for 2011, the Committee did not establish performance metrics for, or grant award opportunities under, the MIP in 2011.

- Stock-Based Compensation – The Compensation Committee believes that stock-based compensation is an important component of the Company's overall executive compensation package. In 2006, the Board and the stockholders approved the 2006 Equity Plan. Participation under the 2006 Equity Plan is available to all directors of the Company and its subsidiaries and all officers, employees and consultants of the Company and its subsidiaries who, in the opinion of the Compensation Committee, can contribute significantly to the growth and profitability of, or perform services of major importance to, the Company and its subsidiaries. The 2006 Equity Plan permits the Compensation Committee, in its sole discretion, to grant stock options (both incentive and non-qualified stock options), stock appreciation rights (settled in cash, stock or both), restricted stock, restricted stock units (settled in cash, stock or both), and performance units (settled in cash, stock or both). The Compensation Committee may make the degree of payout and/or vesting of any award dependent upon the attainment of certain performance goals, measured over certain performance periods. Performance goals may be specific to a participant, specific to the performance of the Company generally, or specific to the performance of a subsidiary of the Company, a division, a business unit, or a line of business served by a participant. Performance goals may be based on stock value (and/or increases therein), earnings per share or growth in earnings per share, net income, earnings or earnings growth, operating profit, operating cash flow, operating or other expenses, operating efficiency, return on equity, assets, capital or investments, deposits, loan volume or growth, the efficiency ratio, customer satisfaction, regulatory compliance, operating or other margins, non-performing assets, productivity, and any other number of qualitative or quantitative benchmarks.

Each award will be reflected in an agreement between the Company and the participant, will be subject to the applicable terms and conditions of the 2006 Equity Plan and may also be subject to other terms and conditions contained in the award agreement consistent with the 2006 Equity Plan that the Compensation Committee deems appropriate, including accelerated vesting or settlement in the event of a participant's death, disability or termination of employment. The provisions of the various agreements entered into under the 2006 Equity Plan do not need to be identical.

In June 2011, the Committee granted 8,762 restricted shares of Common Stock valued at \$61,246 to Mr. Duncan. These shares will vest on March 11, 2012 provided he is employed with Talbot Bank on that date, as well as his annual award of 5,161 shares of stock valued at \$36,076 in accordance with the terms of his employment offer.

Further information about the 2011 equity awards is provided in the section of this Proxy Statement entitled “EXECUTIVE COMPENSATION”.

Non-Qualified Deferred Compensation and Other Post-Termination Plans – The Compensation Committee believes that non-qualified compensation plays an important role in retaining key executives, as well as helping them provide for retirement. The Committee retained Lockton to analyze the total retirement benefits expected to be provided to an employee by the Company, as well as his or her probable social security benefits, so that the Committee could 5. determine the projected replacement ratio of income at retirement compared with active employment. Because of limits under the Company’s qualified retirement plan on the amount of deferrals that executives can make, the Committee expects several of the Company’s executives to have a lower retirement replacement ratio than the Committee has targeted for all employees. Consequently, as a matter of “pension equity”, we have adopted certain non-qualified deferred compensation plans.

In October 2006, the Company adopted the Shore Bancshares, Inc. Executive Deferred Compensation Plan (the “Company Deferred Compensation Plan”), which permits executive officers selected by the Compensation Committee to elect, each year, to defer receipt of up to 100% of their salaries and bonuses to be earned in the following year. This plan also permits the participant to defer the receipt of performance-based compensation not later than six months before the end of the period for which it is to be earned. The Company has the authority to agree, with respect to any participant, to make mandatory, matching, and discretionary contributions. Amounts deferred by a participant and amounts contributed by the Company are credited to accounts maintained on behalf of the participant and are deemed to be invested in certain investment options established from time to time by the Compensation Committee. Matching contributions for a plan year, if any, are announced prior to the beginning of that year. Discretionary contributions for a plan year, if any, may vary among participants and are credited to the participant’s account at the end of the plan year in which they are made.

For Mr. Vermilye, the Company agreed to make an annual mandatory contribution of \$20,000 for each full Plan Year (as defined in the Company Deferred Compensation Plan) in which he is an employee, starting with the Plan Year that began January 1, 2007. The contributions were formulated based on the contribution that has historically been made under the Talbot Bank Deferred Compensation Plan (the “Talbot Deferred Compensation Plan”), which was phased out for plan years beginning on and after January 1, 2007. The Talbot Deferred Compensation Plan is discussed in more detail below in the section of this Proxy Statement entitled “Executive Compensation”.

For Mr. Duncan, the Company agreed as part of its 2006 offer of employment to make mandatory contributions equal to 21% of his cash compensation that exceeds the limit established in Section 415 of the Internal Revenue Code, plus the following amounts for the first five Plan Years beginning January 1, 2007, assuming he is employed in those

years:

Page 18

Year	Amount (\$)
2007	28,914
2008	30,649
2009	32,488
2010	34,437
2011	36,503

The mandatory contributions for Mr. Duncan were meant to replace the value of certain benefits that he forfeited when he terminated employment with his previous employer.

No other named executive officer is entitled to receive mandatory contributions. The Company did not make any discretionary contributions in 2011 due to current economic conditions and the Company's focus on preserving capital.

401(k) Plan - In furtherance of the Committee's belief that every employee should have the ability to accrue valuable retirement benefits, the Company adopted the Shore Bancshares, Inc. and Subsidiaries 401(k) Profit Sharing Plan on January 1, 2002, which is available to all employees, including executive officers, who have completed six months of service. In addition to contributions by participants, the plan contemplates annual employer matching contributions equal to 100% of the member's pay reduction contributions up to 3% of base salary, plus 50% of contributions which exceed 3% of base salary, up to 5% of base salary, as well as employer discretionary contributions that are made on a pro-rata basis to all eligible employees based on compensation levels. The discretionary contribution is determined by the Board of Directors in conjunction with the approval of the annual operating budget of the Company. Contributions are made after the end of each fiscal year. The Company did not make any discretionary contributions for the 2011 plan year due to the earnings performance of the Company.

Perquisites – The Compensation Committee believes that certain perquisites and other personal benefits can be effective elements of a compensation package, because they can permit and encourage executives to perform their duties better and generate business for the Company. Perquisites provided by the Company to various executives may include such things as vehicle allowances, country club dues and supplemental insurance.

Accounting and Tax Considerations

To the extent required by law, the Compensation Committee has structured the compensation program to comply with Section 162(m) and Section 409A of the Internal Revenue Code (the "Code"). Under Section 162(m), a limitation was placed on tax deductions of any publicly held corporation for individual compensation to certain executives of such corporation exceeding \$1,000,000 in any taxable year, unless the compensation is performance-based. If an executive is entitled to nonqualified deferred compensation benefits that are subject to Section 409A, and such benefits do not comply with Section 409A, then the benefits are taxable in the first year they are not subject to a substantial risk of forfeiture. In such case, the executive is subject to regular federal income tax, interest, and an additional federal income tax of 20% of the benefit includible in income. The Company has no individuals with non-performance based

compensation paid in excess of the Section 162(m) tax deduction limit.

The Compensation Committee's stock option grant policies have been impacted by the implementation of Financial Accounting Standards Board ASC Topic 718 ("ASC 718"). Details related to the adoption of ASC 718 and the impact to the Company's financial statements are discussed in the Notes to the Consolidated Financial Statements included in the accompanying Annual Report on Form 10-K under the heading "Stock Based Compensation".

The Committee has structured the change in control provision of Messrs. Vermilye and Beatty's employment agreements to minimize income tax penalties that could be imposed on the Company and/or Messrs. Vermilye and Beatty under Section 280G of the Code. Under Section 280G, an excise tax is imposed on an executive officer who receives payments that are deemed to be contingent on a change in the ownership or effective control of the Company to the extent they exceed 2.99 times the executive's "annualized includable compensation for the base period" (*i.e.*, the average annual compensation that was includable in his or her gross income for the last five taxable years ending before the date on which the change in control occurs). In addition, the Company is not entitled to treat such excess as compensation expense for federal income tax purposes.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed with management the section of this Proxy Statement entitled "COMPENSATION DISCUSSION AND ANALYSIS". Based on this review and these discussions, the Compensation Committee recommended to the Board of Directors that the section of this Proxy Statement entitled "COMPENSATION DISCUSSION AND ANALYSIS" be included in this Proxy Statement and that it be incorporated by reference into the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

Employment Arrangements

Of the named executive officers, only Messrs. Vermilye and Beatty are parties to employment agreements, the material terms of which are discussed below. The terms of employment for all of the named executive officers provide for salary, the possibility for additional compensation each year through the Company's bonus and profit sharing plans, matching 401(k) contributions, to the extent such plans permit participation, and the other elements of compensation described in the section of this Proxy Statement entitled "COMPENSATION DISCUSSION AND ANALYSIS", as well as coverage under the Company's group term life insurance program that is generally available to all employees.

Pursuant to their employment Agreements (the “Employment Agreements”), Mr. Vermilye will continue to serve as the Company’s Chief Executive Officer and Mr. Beatty will continue to serve as the Company’s President. The Employment Agreements entitle Messrs. Vermilye and Beatty to receive annual base salaries of \$324,000 and \$300,000, respectively, subject to periodic review and adjustment. In addition, each officer is entitled to: (i) participate in the Company’s bonus plans; (ii) receive employee benefits of the type offered by the Company and its affiliates to similarly-situated officers, including vacation, sick leave and disability leave; (iii) receive fringe benefits of the type customarily made available by the Company to its officers; and (iv) be reimbursed for employment-related expenses.

Each of the Employment Agreements has a two-year term, which will automatically renew for successive 12-month terms unless a party notifies the other party at least 120 days prior to the end of the then-current term of its or his decision not to renew the Employment Agreement. The term of an officer's employment under his Employment Agreement may be terminated at any time and for any reason by either the Company or the officer (upon 30 days' prior written notice), and it will automatically terminate upon the officer's death.

Generally, the Company's obligations to each officer under his Agreement will be suspended if any regulatory agency with jurisdiction over the Company temporarily prohibits the officer's continued employment. If such regulator's charges are later dismissed, then the Company must reinstate the officer and pay him all compensation that was withheld during the suspension.

Upon the termination of his employment, each of the officers is entitled to receive all unpaid base salary that has accrued through the date of termination, all bonus awards (pro rated through the last day of the month in which termination occurs) that he would have received had he remained employed when bonuses are next declared or paid, and reimbursement of all unreimbursed expenses, all of which must be paid no later than March 15th of the year following the year in which the termination occurs. In addition, all unexercised or unvested equity awards, or portions thereof, held by the officer as of the date of termination shall vest or terminate and be exercisable in accordance with their terms.

If an officer's employment is terminated without "Cause" prior to the expiration of the term of his Employment Agreement, then, except in the case of termination following a "Change in Control" of the Company, the officer will additionally be entitled to receive severance ("Severance") in the form of continued base salary (at the then-current level) for a period of 24 months following the date of termination (the "Severance Period"). Each of the Employment Agreements provides that the first Severance payment will be made on the first regular payroll date that occurs on or after the 60th day following the termination of employment, provided that the officer has executed and delivered a release of claims and the statutory period during which he may revoke that release has expired on or before that 60th day.

In lieu of Severance, each of the Employment Agreements provides for the payment of a Change in Control benefit (the "CiC Benefit") should the Company terminate an officer's employment without Cause within 12 months of a Change in Control of the Company. In this case, the officer will be entitled to receive an amount equal to the difference between (i) the product of 2.99 times the officer's "base amount" as defined in Section 280G(b)(2) of the Internal Revenue Code (the "Code") and (ii) the sum of any other parachute payments as defined under Section 280G(b)(2) of the Code that the officer receives on account of the Change in Control. The CiC Benefit will be paid in one lump sum on the 60th day following termination of employment, provided that the officer has executed and delivered a release of claims and the statutory period during which he may revoke that release has expired on or before that 60th day.

Notwithstanding the payment terms discussed above, any payment obligation that arises on account of a termination of employment while the officer is a “specified employee” as defined under Section 409A of the Code will be subject to a post-termination waiting period to the extent that the payment constitutes “deferred compensation” under applicable Treasury regulations. Mr. Vermilye’s Employment Agreement provides that such amounts will be paid within 15 days after the later of (i) the date that is six months after termination and (ii) the date that is 18 months after the date of his Employment Agreement. Mr. Beatty’s Employment Agreement provides that such amounts will be paid within 15 days after the six-month period that follows his termination date. If either officer dies during the waiting period, then payment will be made in a lump sum within 15 days after the appointment of a personal representative or executor of his estate.

If an officer is indebted to the Company at the time his employment is terminated, then, subject to certain restrictions, the Employment Agreement allows the Company to apply any post-termination amounts due to the officer toward repayment of such debt.

The Employment Agreements define the term “Cause” as: (i) the officer’s “Disability” (as defined in the Employment Agreement); (ii) fraud, misappropriation or damage to the property or business of the Company by the officer; (iii) the commission of an act by the officer that constitutes dishonesty or a crime, or that causes the Company to commit a crime; (iv) the officer’s breach of the non-competition or non-solicitation provisions of the Employment Agreement; (v) the unauthorized use, misappropriation or disclosure by the officer of the Company’s confidential information or any confidential information of another person to whom the officer owes an obligation of nondisclosure; (vi) the officer’s breach of any of his other obligations under the Employment Agreement or any of the policies of the Company; (vii) the failure of the officer to abide by his responsibilities or to satisfactorily perform his duties; (viii) the officer’s failure to maintain a smooth and harmonious relationship with the Company’s management, staff, investors, affiliates or business relations; or (ix) the issuance of any order by the Maryland Commissioner of Financial Regulation, the Federal Deposit Insurance Corporation, the Board of Governors of the Federal Reserve System, or any other supervisory agency with jurisdiction over the Company permanently prohibiting the officer’s continued service.

The term “Change in Control” is defined as the occurrence of any of the following events: (i) a person, or group of persons acting together, acquires ownership of securities of the Company that, together with such person’s or group’s other securities, constitutes more than 50% of the total fair market value or total voting power of the Company’s securities; (ii) any person, or group of persons acting together, acquires (or has acquired during the preceding 12-month period) ownership of securities of the Company possessing 35% or more of the total voting power of the Company’s securities, (iii) a majority of the Company’s Board of Directors is replaced during any 12-month period by directors whose appointment or election is not endorsed by a majority of the members of the Company’s Board prior to the date of the appointment or election; or (iv) any person, or group of persons acting together, acquires (or has acquired during the preceding 12-month period) assets from the Company that have a total gross fair market value equal of at least 40% of the total gross fair market value of all of the Company’s assets.

Both Employment Agreements contain non-competition and non-solicitation provisions. Specifically, during the term of an officer’s employment and thereafter until the longer of (i) his Severance Period and (ii) the date that is 12 months after the date of the Employment Agreement, but in no case longer than 24 months following the termination of employment, neither officer may, directly or indirectly, (a) compete with the Company or any of its affiliates in any county of any jurisdiction in which the Company or any of its affiliates maintains a branch or other office, or in any county of any jurisdiction that is contiguous to any such county, (b) solicit any existing Business Relation (as defined in the Employment Agreements) of the Company or any of its affiliates, wherever located, to purchase, sell or otherwise provide competing products and services, (c) accept employment with or act as an independent contractor to any such Business Relation if the employment or service will require the officer to render services that are similar to those provided by the Company or any of its affiliates, (d) employ, engage, or solicit for employment or engagement any person who was an employee or independent contractor of the Company or any of its affiliates during the 24 months preceding the officer’s termination of employment, or (e) encourage any person to reduce such person’s business, employment or service with the Company or any affiliate. In addition to the foregoing, the Employment Agreements contain other customary business protection provisions, including an agreement to maintain the confidentiality of the Company’s business information, an agreement to return Company property following termination, and a 12-month non-disparagement agreement.

Except for disputes relating to the enforcement of the non-competition, non-solicitation and other business protection provisions of the Employment Agreements, the parties have agreed that all disputes arising under the Employment Agreements will be settled by binding arbitration.

Equity Compensation

During 2011, the Company maintained two equity compensation plans: (i) the 2006 Equity Plan; and (ii) the Shore Bancshares, Inc. 1998 Stock Option Plan (“1998 Option Plan”). The ability of the Company to grant options under the 1998 Option Plan terminated by its terms on March 3, 2008, but stock options granted under the 1998 Option Plan were outstanding at December 31, 2011.

The 2006 Equity Plan reserves 600,000 shares of Common Stock, subject to adjustment for stock splits and other similar reclassification events, plus up to 31,972 shares that were subject to outstanding awards under the 1998 Stock Option Plan as of April 26, 2006 that thereafter terminate, lapse or are forfeited, for issuance pursuant to awards. Through December 31, 2011, restricted stock is the only type of award that has been granted since the 2006 Equity Plan was adopted. As discussed above in the section entitled “COMPENSATION DISCUSSION AND ANALYSIS”, the Company granted a total of 13,923 restricted shares of Common Stock to the named executive officers in 2011 under the 2006 Equity Plan. Under the terms of outstanding awards, all unvested shares will lapse and be forfeited upon the termination of the participant’s employment with the Company.

The 1998 Option Plan was approved by the Company’s Board of Directors and stockholders and was in effect through March 3, 2008. The 1998 Option Plan contemplated the grant of options to purchase shares of Common Stock to directors and key management employees of the Company and its subsidiaries. The total number of shares of Common Stock that were reserved for issuance under the 1998 Option Plan was 120,000 shares, subject to adjustment for stock splits and other similar reclassification events. The 1998 Option Plan contemplated the grant of both incentive stock options and nonqualified stock options. An option granted under the plan generally expires on the 10th anniversary of the date the option was granted.

The following table provides information with respect to outstanding equity awards held by the named executive officers at December 31, 2011.

Shore Bancshares, Inc. Executive Deferred Compensation Plan (Company Deferred Compensation Plan)

Under the Company Deferred Compensation Plan, amounts deferred at the election of the employee are credited to an account maintained on behalf of the participant and are deemed to be invested in certain investment options established from time to time by the Compensation Committee. Mandatory, matching and discretionary contributions will be credited to an Employer Funded Account (as defined in the plan) established by the Company and will be deemed to be invested in the manner specified in the participant's election form for that Plan Year in respect of his or her voluntary deferrals. An employee's account is credited with the gain or loss generated on the investments in which the funds in those account are deemed to be invested. Mandatory contributions will be reduced on a pro-rata basis in the event a participant has a Separation from Service (generally defined as a termination of employment other than because of death, Disability (as defined in the plan) or the taking of leave of absence).

A participant is fully vested at all times in employee deferrals (and earnings thereon). Starting in the second year of participation, a participant vests in his or her Employer Funded Account at the rate of 25% each year. If, however, (i) the participant reaches age 70 while employed, (ii) the participant's service with the Company terminates because of death or Disability, or because of retirement at or after age 70, or (iii) the Company experiences a Change in Control (as defined in the plan), then in each such case the participant's interest in his or her Employer Funded Account will be automatically 100% vested regardless of years in the plan. If the participant separates from service for any other reason, then any non-vested portion of his or her Employer Funded Account will be forfeited.

The Company Deferred Compensation Plan contemplates automatic distributions upon the occurrence of certain events and elective distributions.

If a participant dies or experiences a Disability while employed by the Company or if the Company experiences a Change in Control, then the vested portions of a participant's accounts will be distributed in a lump sum payment to the participant or, in the case of death, to his or her designated beneficiaries. If a participant experiences a Separation from Service, then the vested portions of a participant's accounts will be distributed in a lump sum or in installments, as specified in the most recent election form. Certain restrictions on the commencement of automatic distributions apply to Key Employees (as defined in the plan).

A participant may elect in his or her annual election form to receive elective distributions, or "In-Service Distributions", of his or her employee deferrals (and earnings thereon) for a given Plan Year as soon as three years after the end of that Plan Year. At the time of the election, the participant must also elect whether to receive the elective distribution in a lump sum or in installments over a period of up to 10 years. If a participant fails to make a payment method election, then the distribution will be made in one lump sum. A participant may change his or her election to postpone a distribution or change the form of payment, but such change must be made at least 12 months prior to the original distribution date, cannot be effective until at least 12 months following the subsequent election, and must postpone the commencement of the payment for a period of at least five years from the original distribution date.

The Company Deferred Compensation Plan also permits certain limited distributions upon the occurrence of an Unforeseen Emergency (as defined in the plan) and a lump sum distribution, at the administrator's sole discretion, in the event the participant's accounts have a value of less than \$10,000.

Talbot Bank Supplemental Deferred Compensation Plan (Talbot Deferred Compensation Plan)

Talbot Bank elected to suspend contributions to the Talbot Deferred Compensation Plan for all plan years beginning on and after January 1, 2007. As noted above, this plan called for annual employer contributions of \$20,000 to an account established for the benefit of Mr. Vermilye. Mr. Vermilye is immediately vested in the deferred amounts and

is entitled to direct the manner in which these amounts are deemed to be invested in the investment options offered from time to time by Talbot Bank. His account is credited or debited with the deemed earnings or losses on the investments. Subject to any waiting period required by law, upon termination of employment, Mr. Vermilye is entitled to a lump sum cash payment equal to the amount in his account. If Mr. Vermilye dies before terminating his employment, his designated beneficiaries are entitled to receive a lump sum cash payment equal to the amount in his account. The plan automatically terminates in the event of a change of control where the successor does not specifically assume the plan.

For information about amounts that could be payable to the named executive officers under these deferred compensation plans upon a termination of employment, see the section below entitled “Benefits Upon Termination of Employment”.

The following table shows the estimated present value of benefits (as of December 31, 2011) that could be payable to the named executive officers under employment agreements and deferred compensation plans upon a termination of employment. 401(k) Profit Sharing Plan

All employee contributions to the 401(k) Profit Sharing Plan are immediately vested. Discretionary and matching contributions by the Company vest incrementally over a six-year period. Discretionary, pre-tax and matching contributions may be withdrawn while a participant is employed by the Company if the participant has reached age 59½ in circumstances of financial hardship or in certain other circumstances pursuant to plan restrictions.

Incentive Compensation

As discussed in the section of this Proxy Statement entitled “COMPENSATION DISCUSSION AND ANALYSIS”, the Company adopted the MIP to provide executives with cash rewards when the Company and the executive attain or exceed certain performance targets. For 2011, the Compensation Committee did not grant any award opportunities under the MIP.

Compensation for 2012

No changes to the annual salary rates for the named executive officers have been approved for 2012, so the rates remain at the 2011 levels. In addition to salary, other elements of compensation described in the section of this Proxy Statement entitled “COMPENSATION DISCUSSION AND ANALYSIS” may also be earned in 2012.

Impact of Recent Legislation on Executive Compensation

On July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) was signed into law and imposed several new requirements on public companies. Other than the requirements relating to stockholder advisory votes, the implementation of these new requirements is dependent on rulemaking efforts by the SEC and other regulatory agencies that are not yet final. The Company does expect that these new requirements will impact its executive compensation policies and practices, but those impacts cannot be predicted at this time.

The Dodd-Frank Act created two new stockholder advisory vote requirements that are currently applicable to the Company. First, every public company is required to seek an advisory stockholder vote on executive compensation, as disclosed in the proxy statement. The vote must be held no less frequently than once every three years. Stockholders determine the frequency of this “Say on Pay” vote, and public companies must seek a stockholder vote on the frequency at least once every six years. Second, for every meeting at which stockholders will be asked to approve a change in control or similar transaction, the proxy statement must disclose all “golden parachute” arrangements between the public company and/or the acquiring company and any named executive officer that relate to that transaction, and the public company must seek an advisory stockholder vote on those arrangements. Both of these advisory votes are non-binding on the public company, so they will not overrule a decision of the company or its board of directors. Moreover, Dodd-Frank specifically provides that an advisory vote does not create or imply any change to a board of director’s fiduciary duties.

Section 952 of the Dodd-Frank Act requires the SEC to issue regulations that will require national securities exchanges and associations to prohibit the listing of the equity securities of most companies that do not comply with four new requirements relating to compensation committees. First, each public company must have a compensation committee that is made up entirely of independent directors, and the exchanges and associations will have to consider relevant factors in defining independence, such as how and why the committee member is paid by the company and whether the committee member is affiliated with the company and its subsidiaries. Second, the compensation committee, before retaining a compensation consultant, including legal counsel, must consider various factors that could affect the consultant’s independence. These factors will include: other services provided to the company by the consultant, the amount of fees paid to the consultant for compensation work (as a percentage of total revenues of the company), the committee’s policies and procedures that are designed to prevent conflicts of interest, any business or personal relationship of the consultant with a member of the compensation committee, and whether the consultant owns any stock of the company. Third, the compensation committee must be solely responsible for the hiring, payment, oversight and firing of compensation consultants. Fourth, proxy statements with respect to annual meetings of stockholders occurring after July 21, 2011 must disclose whether the compensation committee retained a compensation consultant and whether the consultant’s work raised any conflict of interest and, if so, the nature of that conflict and how it was or is being addressed. The SEC published proposed rules in 2011, but these rules have not yet been finalized.

Section 953 of the Dodd-Frank Act requires the SEC to amend the proxy rules to require new disclosures by publicly-traded companies about executive compensation. First, the proxy statement for any annual meeting of

stockholders must disclose the relationship between executive compensation and the financial performance of the company. Second, these proxy statements also must disclose the median of the annual total compensation of all employees of the company other than the chief executive officer, the annual total compensation of the company's chief executive officer and the ratio of these two amounts. The SEC is expected to publish rules before June 2012.

Under Section 954 of the Dodd-Frank Act, the national securities exchanges must adopt rules that prohibit the listing of any security of a company that does not adopt a policy with respect to the “claw-back” of executive compensation. The policy must provide for disclosure of the company’s policy on incentive-based compensation that is based on financial information required to be reported under the securities laws. In the event of an accounting restatement due to the company’s material noncompliance with any financial reporting requirement, the policy must require the company to recover any excess compensation above that which would have been paid, after giving effect to the restatement, from any current or former executive officer who received incentive-based compensation (including stock options) during the three-year period preceding the restatement date. The SEC and the national securities exchanges are expected to publish rules before June 2012.

Finally, Section 956 of the Dodd-Frank Act requires the SEC and the federal banking regulators to jointly promulgate regulations requiring each “covered financial institution” with assets of \$1 billion or more to disclose to its federal regulator the structure of its incentive-based compensation arrangements and prohibiting a covered financial institution from entering into any incentive-based compensation arrangement that encourages (as determined by the federal regulators) the institution to take inappropriate risk. A “covered financial institution” includes a depository institution, a depository institution holding company, a registered broker or dealer, a credit union, an investment adviser, FannieMae, FreddieMac, and any other financial institution designated by the federal regulators. Proposed rules were published in May 2011, but final rules have not yet been adopted.

Role of Compensation Consultants

In 2011, the Compensation Committee directly engaged Lockton Companies, LLC to assist the Committee with the maintenance and administration of the Company’s comprehensive executive compensation strategy. In addition to the services described in the section of this proxy statement entitled “COMPENSATION DISCUSSION AND ANALYSIS”, the Committee asked Lockton to help update the MIP for use in 2011. The Company paid fees totaling \$15,000 to Lockton during 2011.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Company’s directors and executive officers and persons who own more than 10% of the outstanding shares of Common Stock to file reports with the Securities and Exchange Commission (the “SEC”) disclosing their ownership of Common Stock at the time they become subject to Section 16(a) and changes in such ownership that occur during the year. Based solely on a review of copies of such reports furnished to the Company, or on written representations that no reports were required, the Company believes that all directors, executive officers and holders of more than 10% of the Common Stock complied in a timely manner with the filing requirements applicable to them with respect to transactions during the year ended December 31, 2011 except that one Statement of Changes in Beneficial Ownership on Form 4 (relating to four purchases of Common Stock on the same date) was filed late by Lloyd L. Beatty, Jr.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Related Party Transactions since January 1, 2011

During the past year Talbot Bank and CNB have had banking transactions in the ordinary course of their businesses with their directors and officers and with the associates of such persons on substantially the same terms, including interest rates, collateral, and repayment terms on loans, as those prevailing at the time for comparable transactions with persons not related to the Company and its subsidiaries. Extensions of credit by Talbot Bank and CNB to these persons have not and do not currently involve more than the normal risk of collectability or present other unfavorable features.

Review, Approval and Ratification of Related Party Transactions

NASDAQ Rule 5630 requires the Company to conduct an appropriate review of all related party transactions for potential conflict of interest situations on an ongoing basis and further requires all such transactions to be approved by the Company's Audit Committee or another "independent body" of the Board of Directors. The term "related party transaction" is generally defined as any transaction (or series of related transactions) in which the Company is a participant and the amount involved exceeds \$120,000, and in which any director, director nominee, or executive officer of the Company, any holder of more than 5% of the outstanding voting securities of the Company, or any immediate family member of the foregoing persons will have a direct or indirect interest. The term includes most financial transactions and arrangements, such as loans, guarantees and sales of property, and remuneration for services rendered (as an employee, consultant or otherwise) to the Company.

The Company and its subsidiaries have adopted policies and procedures to ensure compliance with the foregoing requirements.

RATIFICATION OF THE APPOINTMENT OF STEGMAN & COMPANY AS THE COMPANY'S INDEPENDENT REGISTERED ACCOUNTING FIRM FOR FISCAL YEAR 2012 (Proposal 2)

Stockholders will also be asked to ratify the Audit Committee's appointment of Stegman & Company to audit the books and accounts of the Company for the fiscal year ended December 31, 2012. Stegman & Company served as the Company's independent registered public accounting firm in 2011. Stegman & Company has advised the Company that neither the accounting firm nor any of its members or associates has any direct financial interest in or any connection with the Company other than as independent auditors. A representative of Stegman & Company is expected to be present at the Annual Meeting, will have an opportunity to make a statement if he or she desires to do so, and will be available to respond to appropriate questions.

Because your vote is advisory, it will not be binding upon the Audit Committee, overrule any decision made by the Audit Committee, or create or imply any additional fiduciary duty by the Audit Committee. The Audit Committee may, however, take into account the outcome of the vote when considering future auditor appointments.

The Board of Directors recommends that stockholders vote FOR the ratification of the appointment of Stegman & Company as the Company's independent registered public accounting firm for fiscal year 2012.

AUDIT FEES AND SERVICES

The following table shows the fees paid or accrued by the Company for the audit and other services provided by Stegman & Company during fiscal years 2011 and 2010:

	2011	2010
Audit Fees	\$172,269	\$150,958
Audit-Related Fees	10,670	8,775
Tax Fees	13,500	13,754
All Other Fees	-	-
Total	\$196,439	\$173,487

Audit Fees incurred in fiscal years 2011 and 2010 include charges for the examination of the consolidated financial statements of the Company, quarterly reviews of financial statements, and the attestation of management's report on internal control over financial reporting. Audit-Related Fees incurred in fiscal year 2011 and 2010 include charges related to the audit of the 401(k) and profit sharing plan. Tax Fees incurred in fiscal years 2011 and 2010 include charges primarily related to tax return preparation. The Audit Committee has reviewed summaries of the services provided and the related fees and has determined that the provision of non-audit services is compatible with maintaining the independence of Stegman & Company.

The Audit Committee's policy is to pre-approve all audit and permitted non-audit services, except that *de minimis* non-audit services, as defined in Section 10A(i)(1) of the Exchange Act, may be approved prior to the completion of the independent auditor's audit. All of the 2011 and 2010 services described above were pre-approved by the Audit Committee.

ADVISORY VOTE ON EXECUTIVE COMPENSATION (Proposal 3)

The Company is providing its stockholders with the opportunity to approve or disapprove the compensation of its named executive officers for 2011, as discussed in this Proxy Statement pursuant to Item 402 of the SEC's Regulation S-K (commonly referred to as the "Say-on-Pay" vote). Although this advisory vote is required by the Dodd-Frank Act, the Board of Directors nevertheless believes that it is appropriate to seek the views of stockholders on the design and effectiveness of the Company's executive compensation program.

The Company's goal for its executive compensation program is to attract, motivate and retain a talented team of executives who will provide leadership for the Company's success in dynamic and competitive markets. The sections of this proxy statement entitled "COMPENSATION DISCUSSION AND ANALYSIS" and "EXECUTIVE COMPENSATION" contain the information required by Item 402 of Regulation S-K and discuss in detail the Company's executive compensation program, the decisions made by the Compensation Committee during 2011, and the compensation that was earned by, awarded to or paid to the Company's named executive officers.

The Board of Directors and its Compensation Committee believe that the Company's compensation policies and procedures are reasonable in comparison both to the Company's peer group and to the Company's performance during 2011. The Board of Directors and its Compensation Committee also believe that the Company's compensation program strongly aligns executive officers with the interests of stockholders in the long-term value of the Company as well as the components that drive long-term value.

At the annual meeting, stockholders will be asked to adopt the following non-binding advisory resolution:

RESOLVED, that the compensation paid to the named executive officers of Shore Bancshares, Inc., as disclosed in its definitive proxy statement for the 2012 Annual Meeting of Stockholders pursuant to Item 402 of Regulation S-K, including in the sections entitled "COMPENSATION DISCUSSION AND ANALYSIS" and "EXECUTIVE COMPENSATION", is hereby approved.

Because this advisory vote relates to, and may impact, the Company's executive compensation policies and practices, the Company's named executive officers have an interest in the outcome of this vote. However, it should be noted that your vote is advisory, so it will not be binding on the Board of Directors or its Compensation Committee, overrule any decision made by the Board or its Compensation Committee, or create or imply any additional fiduciary duty by the Board or its Compensation Committee. The Board and its Compensation Committee may, however, take into account the outcome of the vote when considering future executive compensation arrangements.

The Board of Directors unanimously recommends that stockholders vote FOR approval of the compensation of the Company's named executive officers, as disclosed in this Proxy Statement pursuant to Item 402 of Regulation S-K.

DATE FOR SUBMISSION OF STOCKHOLDER PROPOSALS

Any stockholder desiring to present a proposal pursuant to Rule 14a-8 of the Exchange Act to be included in the definitive proxy statement and voted on by the stockholders at the 2013 Annual Meeting of Stockholders must submit a written proposal, including all supporting information, to the Company at its principal executive offices no later than November 22, 2012 (120 days before the date of mailing based on this year's Proxy Statement date), and must meet all other requirements for inclusion in the proxy statement. As provided in the By-Laws, if a stockholder intends to present a proposal for business to be considered at the 2013 Annual Meeting of Stockholders but does not seek inclusion of the proposal in the Company's proxy statement for that meeting, then such proposal, including all supporting information, must be delivered to and received by the Company's Secretary at the Company's principal executive offices no earlier than January 25, 2013 and no later than February 24, 2013 (not more than 90 days nor less than 60 days before the first anniversary of the prior year's annual meeting). Additional time constraints are applicable where the date of the Annual Meeting is changed. Proposals received by the Company outside of these timelines will be considered untimely. If a stockholder proposal is not timely received, then the proxies will be authorized to exercise discretionary authority with respect to the proposal.

OTHER BUSINESS

As of the date of this Proxy Statement, management does not know of any other matters that will be brought before the meeting requiring action of the stockholders. However, if any other matters requiring the vote of the stockholders properly come before the meeting, it is the intention of the persons named in the enclosed form of proxy to vote the proxies in accordance with the discretion of management.
