(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class Name of each exchange on which registered
None Not Applicable

Securities registered pursuant to Section 12(g) of the Act:

Common Stock, \$0.0001 par value

(Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act.
Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required

to submit and post such files).

Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one.)

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes No

The aggregate market value of the common stock held by non-affiliates of the Company was \$46,469, based upon the price at which the Company's common stock, par value \$0.0001 was last sold. Shares of common stock held by each current executive officer and director and by each person who is known by the Company to own 5% or more of the outstanding common stock have been excluded from this computation in that such persons may be deemed to be affiliates of the Company. This determination of affiliate status is not a conclusive determination for other purposes.

The number of shares of common stock outstanding as of January 15, 2013 was 4,372,461.

DOCUMENTS INCORPORATED BY REFERENCE

None.

Cautionary Statement Regarding Forward-Looking Statements

This report contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). All statements other than statements of historical facts included or incorporated by reference in this annual report on Form 10-K, including without limitation, statements regarding our future financial position, business strategy, budgets, projected revenues, projected costs and plans and objective of management for future operations, are forward-looking statements. Forward-looking statements generally can be identified by the use of forward-looking terminology such as “may,” “will,” “expects,” “intends,” “plans,” “projects,” “estimates,” “anticipates,” or “believes” thereof or any variation there on or similar terminology or expressions. These forward-looking statements are based on beliefs of our management as well as current expectations, projections and information currently available to the Company and are subject to known and unknown risks and uncertainties that could cause actual results to differ materially from historical results or those anticipated or implied by such forward-looking statements. Certain of these risks are described more fully under the caption “**Risk Factors**” herein. Should one or more of such risks or uncertainties materialize or should underlying expectations, projections or assumptions prove incorrect, actual results may differ materially from those described. Those events and uncertainties are difficult to predict accurately and many are beyond our control. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the foregoing. Except as required by law, we assume no duty to update or revise our forward-looking statements.

General

Unless otherwise indicated or the context otherwise requires, all references to the “Company,” “we,” “us” or “our” and similar terms refer to C2C CrowdFunding, Inc.

We were incorporated pursuant to the laws of the State of Delaware on June 6, 2007 under the name IP Technology Services, Inc. We were formed for the purpose of providing services to individual inventors and small companies to assist them in generating revenues through the sale, license and/or commercialization of their intellectual property portfolios

From inception up until September 30, 2012, we received more than more than one-hundred portfolio submissions covering a broad range of technologies. The services that we provided included an initial analysis of a portfolio to identify its strengths and weaknesses and a determination of the value of the portfolio. Our initial business model focused on the generation of revenue by receiving a portion of the economic value realized from our client portfolios. We entered into agreements to represent in excess of ten portfolios, and brokered the sale of three portfolios for a gross revenue of \$210,000. On March 3, 2009, the Company, through its subsidiary Mural Comm LLC, purchased from BancTec, Inc. for \$90,000 U.S. Patent No. 6,341,351 titled Method for Communication and Controlling Transactions Between Unsecured Parties (the "Patent"). After several attempts at licensing the Patent, on December 15, 2010, the Company sold the Patent for \$60,000. During our current fiscal year, we exited this business and are, therefore, considered a shell corporation under applicable rules of the Securities and Exchange Commission (the "SEC") promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). In that regard, we are actively seeking to complete a business combination with an operating company.

Current Business

At this time, we do not have agreements to represent any intellectual property portfolios nor do we own any intellectual property. Our assets consist primarily of cash and notes receivable, and our liabilities consist exclusively of payables and accrued expenses. During our current fiscal year, we shifted our focus to identifying and completing a business combination with an operating company.

On August 31, 2012, we entered into an Agreement of Merger and Plan of Reorganization (the "Merger Agreement") with click2cause.com Inc., a privately held Nevada corporation ("C2C") and C2C Acquisition Corp., a Nevada corporation and wholly-owned subsidiary of the Company ("Acquisition Sub"). Under the terms of the Merger Agreement, C2C was to merge with and into Acquisition Sub and thereafter become a wholly owned subsidiary of the Company. On December 10, 2012, the Company notified C2C that it was terminating the Merger Agreement pursuant to Section 9.01(e) of the Merger Agreement as the closing had not occurred on or prior to October 15, 2012.

Our current business plan and our primary objective and focus for management over the next 12 months is to identify and acquire a suitable operating company with a view towards achieving long-term growth. On October 26, 2012, we filed a Certificate of Ownership with the Secretary of State of Delaware, pursuant to which our newly formed wholly owned subsidiary, C2C CrowdFunding, Inc. was merged into and with the Company (the “Merger”). In connection with the Merger and in accordance with Section 253 of the Delaware General Corporation Law, the name of the Company was changed from IP Technology Services, Inc to C2C CrowdFunding, Inc. As of the date of this report, our current focus is on the crowdfunding industry, however, we are not restricting our search for a target company to any specific business, industry or geographical location. In addition, although we have not developed any definitive criteria for evaluating a successful target, we expect to consider, among other factors, the following:

- growth potential as evidenced by technological superiority, anticipated market expansion or new products or services;
 - the historic financial performance of the target;
- the quality of the management team, including its consultants and advisors;
- the target’s competitive position relative to other firms of similar size and experience within its industry, industry segment, or geographic location;
- the capital requirements of the target and anticipated availability of required funds for both the short and long term;
 - the results of our financial, business and management due diligence; and
 - the anticipated time and cost to complete a transaction.

In applying the foregoing criteria, we do not expect one element to be controlling, but rather, we will attempt to analyze all available, relevant and material factors and circumstances in order to make an informed decision. Potential opportunities may occur in different industries, in different geographic locations, and at various stages of development, all of which will make the task of comparing, analyzing and evaluating business opportunities extremely difficult and complex.

Most acquisitions of private operating companies by public shell companies are completed by way of merger pursuant to which the shareholders of the private company own a substantial majority of the issued and outstanding shares of the public company after completion of the merger. These transactions are often referred to as “reverse acquisitions” or “reverse mergers” and generally result in substantial additional dilution to the ownership interests of the stockholders of the public company. If any transaction is structured in this manner, our stockholders will suffer substantial dilution and all or a majority of our directors may resign and one or more new directors may be appointed without any vote by stockholders. We may complete such an acquisition upon the sole determination of our board of directors without any vote or approval by our stockholders. In certain circumstances, however, it may be necessary to call a stockholders' meeting and obtain approval of our stockholders, which may result in delay and additional expense in the consummation of any proposed transaction and may also give rise to certain appraisal rights to dissenting stockholders. Most likely, we will seek to structure any such transaction so as not to require stockholder approval.

It is anticipated that the investigation of specific business opportunities and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial cost for accountants, attorneys and other professionals. If we decide not to complete a transaction after we have incurred material transaction costs in connection with the investigation, negotiation and

documentation related thereto, such costs will likely not be recoverable.

Although we have evaluated potential acquisition targets and engaged in general discussions and due diligence activities regarding the acquisition of an operating company, we have not entered into any agreement to acquire an operating company. There can be no assurance that we will be able to identify an acceptable operating company, complete an acquisition, or that any business we acquire will generate profits or increase our value.

Our offices are currently located at 1202 Lexington Ave., Suite 355, New York, NY 10028. Our telephone number is (646) 481-4524.

Employees

We have no full time employees at this time. All functions including development, strategy, negotiations and clerical are currently being provided by Neil Rock, our President, at no salary.

Research and Development

Since inception, we have not spent any money on research and development activities.

Item 1A.

Risk Factors

You should carefully consider the following risk factors that affect our business. Such risk factors could cause our actual results to differ materially from those that are expressed or implied by forward-looking statements contained herein. Some of the risks described relate principally to our business and the industry in which we operate. Others relate principally to the securities market and ownership of our capital stock. The risks and uncertainties described below are not the only ones we face. Additional risks are described elsewhere in this report under the Item 1 – Business, Item 3 – Legal Proceedings, and Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operation sections, among others. Other risks and uncertainties that we are unaware of, or that we currently deem immaterial, also may become important factors that affect us. Our business, financial condition or results of operations could be materially and adversely affected by any of these risks, and the trading price of our common stock could decline. The discussion of our risk factors should be read in conjunction with the financial statements and notes thereto included herein.

Based on our recurring losses during our development stage and inability to implement our business plan, our auditors have included an explanatory paragraph in their opinion as to the substantial doubt about our ability to continue as a going concern.

We are a development stage company and since inception, have suffered losses from development stage activities to date, and are in need of additional capital. We have experienced net losses in each fiscal quarter since our inception and as of September 30, 2012, have an accumulated deficit of \$120,422. As a result of these factors, our independent auditors have included an explanatory paragraph in their opinion for the year ended September 30, 2012 as to the substantial doubt about our ability to continue as a going concern. As such, we may be required to cease operations in which case you could lose your entire investment. Our financial statements have been prepared in accordance with accounting principles generally accepted in the United States, which contemplate that we will continue to operate as a going concern. Our financial statements do not contain any adjustments that might result if we are unable to continue

as a going concern.

We have no operations, will not generate any revenue unless we complete a business combination with an operating company, and need additional capital to fund our activities.

We currently have no operations and expect to continue to incur losses for the foreseeable future. Unless we complete a business combination with an operating company, we will not generate any revenues in the future and we will continue to incur expenses related to identifying and acquiring an operating company and compliance with our reporting obligations under applicable federal securities laws. We will need to raise additional funds, and such funds may not be available on commercially acceptable terms, if at all. If we cannot raise funds on acceptable terms, we may not be able to continue to execute our plan to acquire an operating company and in the extreme case, liquidate the Company.

We may not be able to acquire an operating company and if we complete such an acquisition, we expect that we will need to raise additional capital.

Our sole business objective is to acquire an operating company. As of the date of this report, we have identified and evaluated potential acquisition targets, engaged in discussions and due diligence activities regarding the acquisition of an operating company, and entered into an agreement to acquire an operating company which was subsequently terminated. There can be no assurance that we will be able to identify a suitable operating company to acquire or complete such an acquisition. In the event that we complete such an acquisition, we expect that we will need to raise substantial additional capital. We intend to rely on external sources of financing to meet any capital requirements and to obtain such funding through the debt and equity markets. We cannot assure you that we will be able to obtain additional funding when it is required or that it will be available to us on commercially acceptable terms, if at all. If we fail to obtain such necessary funding, any such acquisition may not be successful.

Our board of directors has sole discretion to identify and evaluate acquisition candidates and complete acquisitions without approval of our stockholders.

We have not developed any specific acquisition guidelines and we are not obligated to follow any particular operating, financial, geographic or other criteria in evaluating candidates for potential acquisitions or business combinations. We will target companies that we believe will provide the best potential long-term financial return for our stockholders and we will determine the purchase price and other terms and conditions of acquisitions without review or approval of our stockholders. Accordingly, our stockholders will not have the opportunity to evaluate the relevant economic, financial and other information that our board of directors will use and consider in deciding whether or not to enter into a particular transaction.

There is intense competition for private companies suitable for a merger transaction of the type contemplated by our board of directors.

There is currently a very competitive market for business opportunities which could reduce the likelihood of consummating a successful business combination. We anticipate we will be an insignificant participant in the business of seeking mergers with, joint ventures with, and acquisitions of small private entities. A large number of established and well-financed entities, including small public companies, venture capital firms, and special purpose acquisition companies, or “SPACs”, are active in mergers and acquisitions of companies that may be desirable target candidates for us. We have significantly less financial resources, technical expertise and managerial capabilities than most of these entities. As result, we may be unable to effectively compete with such entities in identifying possible business opportunities and successfully completing a business combination. These competitive factors may reduce the likelihood of our identifying and consummating a successful business combination.

Any potential acquisition or merger with a foreign company may subject us to additional risks.

If we enter into a business combination with a foreign company, we will be subject to risks inherent in business operations outside of the United States. These risks include, without limitation, language differences, unfavorable tax policies, tariffs, regulatory hurdles, currency fluctuations, trade embargoes, political instability, risks related to shipment of raw materials and finished goods across national borders, and cultural differences. Foreign economies may differ favorably or unfavorably from the United States economy in growth of gross national product, rate of inflation, market development, rate of savings, and capital investment, resource self-sufficiency and balance of payments positions, and in other respects.

Risks Related to Our Stock

There is a very limited market for our common stock.

There is no active trading market for our common stock. Our common stock is not eligible for trading on any national or regional securities exchange. Our common stock is eligible for trading on the OTCQB. This market tends to be substantially less liquid than national and regional securities exchanges. To date, there has been very limited trading of our common stock. We cannot provide you with any assurance that an active trading market for our common stock will develop, or if such a market develops, that it will be sustained.

Applicable SEC Rules governing the trading of “penny stocks” limits the trading and liquidity of our common stock which may affect the trading price of our common stock.

Our common stock currently trades on the OTCQB. Since our common stock continues to trade below \$5.00 per share, our common stock is considered a “penny stock” and is subject to SEC rules and regulations that impose limitations upon the manner in which our shares can be publicly traded. These regulations require the delivery, prior to any transaction involving a penny stock, of a disclosure document explaining the penny stock market and the associated risks. Under these regulations, brokers who recommend penny stocks to persons other than established customers or certain accredited investors must make a special written suitability determination for the purchaser and receive the purchaser's written agreement to a transaction prior to sale. These regulations may have the effect of limiting the trading activity of our common stock and reducing the liquidity of an investment in our common stock.

We intend to raise additional capital in the future, and such additional capital may be dilutive to stockholders or impose operational restrictions.

We intend to raise additional capital in the future to help fund our operations through sales of shares of our common stock or securities convertible into shares of our common stock, as well as issuances of debt. Additional convertible debt or equity financing may be dilutive to our stockholders and debt financing, if available, may involve restrictive covenants that may limit our operating flexibility. If additional capital is raised through the issuance of shares of our common stock or securities convertible into shares of our common stock, the percentage ownership of our stockholders will be reduced. These stockholders may experience additional dilution in net book value per share and any additional equity securities may have rights, preferences and privileges senior to those of the holders of our common stock.

The trading price of our common stock is likely to be highly volatile.

The trading price of our shares may from time to time fluctuate widely. The trading price may be affected by a number of factors including events described in the risk factors set forth in this report as well as our operating results, financial condition, announcements regarding our business, general economic conditions and other events or factors. In addition, the stock market has experienced significant price and volume fluctuations that have particularly affected the price of many small capitalization companies and that often have been unrelated or disproportionate to the operating performance of these companies. Market fluctuations such as these may seriously harm the market price of our common stock. Further, securities class action suits have been filed against companies following periods of market volatility in the price of their securities. If such an action is instituted against us, we may incur substantial costs and a diversion of management attention and resources, which would seriously harm our business, financial condition and results of operations.

We do not intend to pay dividends in the foreseeable future.

We have never declared or paid a dividend on our common stock. Accordingly, we do not anticipate paying any dividends in the foreseeable future and investors seeking dividend income should not purchase our common stock.

We are not subject to certain of the corporate governance provisions of the Sarbanes-Oxley Act of 2002.

Since our common stock is not listed for trading on a national securities exchange, we are not subject to certain of the corporate governance requirements established by the national securities exchanges pursuant to the Sarbanes-Oxley

Act of 2002. These include rules relating to independent directors, director nomination, audit and compensation committees, retention of audit committee financial expert and the adoption of a code of ethics. Unless we voluntarily elect to fully comply with those obligations, which we have not to date, the protections that these corporate governance provisions were enacted to provide will not exist with respect to us. While we may make an application to have our securities listed for trading on a national securities exchange, which would require us to fully comply with those obligations, we cannot assure you that we will make such application, that we would be able to satisfy applicable listing standards, or if we did satisfy such standards, that we would be successful in such application.

We are required to comply with Section 404a of the Sarbanes-Oxley Act of 2002 and if we fail to comply in a timely manner, our business could be harmed and our stock price could decline.

Rules adopted by the SEC pursuant to Section 404a of the Sarbanes-Oxley Act of 2002 require annual assessment of our internal controls over financial reporting. Starting with our fiscal year ended September 30, 2008, we became subject to the requirements of Section 404a. Any failure to maintain adequate controls could result in delays or inaccuracies in reporting financial information or non-compliance with SEC reporting and other regulatory requirements, any of which could adversely affect our business and stock price.

Item 2.

Properties

The Company's offices are located at 1202 Lexington Avenue, Suite 355, New York, New York 10028. We consider our facilities to be well utilized, well maintained, and in good operating condition. Further, we consider the facilities to be suitable for their intended purposes and to have capacities adequate to meet current and projected needs for our operations.

Item 3.

Legal Proceedings

There are no pending legal proceedings to which the Company is a party or in which any director, officer or affiliate of the Company, any owner of record or beneficially of more than 5% of any class of voting securities of the Company, or security holder is a party adverse to the Company or has a material interest adverse to the Company. The Company's property is not the subject of any pending legal proceedings.

Item 4.

Removed and Reserved.

PART II

Item 5. ***Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities***

Market Information

Our common stock is quoted on the OTCQB under the symbol "CRWD". As of January 15, 2013, no public market in our common stock has yet developed and there can be no assurance that a meaningful trading market will subsequently develop.

Holders

As of January 15, 2013, we had approximately 22 record holders of shares of our common stock.

Dividends

We have not declared or paid dividends on our Common Stock since our formation, and we do not anticipate paying dividends in the foreseeable future. Declaration or payment of dividends, if any, in the future, will be at the discretion of our Board of Directors and will depend on our then current financial condition, results of operations, capital requirements and other factors deemed relevant by the board of directors. There are no contractual restrictions on our ability to declare or pay dividends.

Stock Transfer Agent

Our stock transfer agent is VStock Transfer, LLC, 77 Spruce Street, Suite 201, Cedarhurst, New York 11516 and its telephone number is (212) 828-8436.

Recent Sales of Unregistered Securities

On August 6, 2012, we entered into subscription agreements with several accredited investors, pursuant to which it issued and sold an aggregate of 1,607,950 shares of common stock at a purchase price of \$0.02 per share for aggregate proceeds of \$32,159.

We issued the foregoing securities in reliance on the safe harbor and exemptions from registration provided under Rule 506 of Regulation D and/or Section 4(2) of the Securities Act of 1933, as amended, and Regulation S for sales to foreign persons, to a limited number of accredited investors, employees, service providers, or creditors with whom we had prior relationships, without engaging in any general solicitation, and without payment of underwriter discounts or commissions to any person.

In May 2012, we entered into subscription agreements with certain existing stockholders of the Company pursuant to which we issued and sold an aggregate of 108,080 shares of the Company's common stock for gross proceeds of \$10,808. The securities were issued in a private placement transaction to a limited number of accredited investors in reliance upon an exemption from registration provided by Section 4(2) of the Securities Act of 1933, as amended, which exempts transactions by an issuer not involving a public offering.

During the period ended December 31, 2011, the Company issued and sold an aggregate of 98,611 shares of common stock at a purchase price of \$0.10 per share to four accredited investors for aggregate proceeds of \$9,861.

We issued the forgoing securities in reliance on the safe harbor provided under Rule 506 of Regulation D and/or Section 4(2) of the Securities Act of 1933 as amended, without payment of commissions to any person.

Item 7. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

Forward-Looking Statements

The statements contained in all parts of this document that are not historical facts are, or may be deemed to be, "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements include, but are not limited to, those relating to the following: the Company's ability to secure necessary financing; plans for opening one or more restaurant units (including the scope, timing, impact and effects thereof); expected growth; future operating expenses; future margins; fluctuations in interest rates; ability to continue to grow and implement growth, and regarding future growth, cash needs, operations, business plans and financial results and any other statements that are not historical facts.

When used in this document, the words "anticipate," "estimate," "expect," "may," "plans," "project," and similar expressions are intended to be among the statements that identify forward-looking statements. Actual results may differ significantly from the results discussed in the forward-looking statements. Such statements involve risks and uncertainties, including, but not limited to, those relating to costs, delays and difficulties related to the Company's dependence on its ability to attract and retain skilled managers and other personnel; competition within the industry in which the Company operates; the uncertainty of the Company's ability to manage and continue its growth and implement its business strategy; its vulnerability to general economic conditions; accuracy of accounting and other estimates; the Company's future financial and operating results, cash needs and demand for its services; and the Company's ability to maintain and comply with permits and licenses; as well as other risk factors described in this Annual Report. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual outcomes may vary materially from those projected.

Overview

We were incorporated pursuant to the laws of the State of Delaware on June 6, 2007 for the purpose of providing services to individual inventors and small companies to assist them in generating revenues through the sale, license and/or commercialization of their intellectual property portfolios. Having been unable to execute our business plan, we have exited this business and are, therefore, considered a shell company under applicable rules of the SEC, promulgated under the Exchange Act. In that regard, we are actively seeking to complete a business combination with an operating company.

We have limited cash resources, have incurred losses since inception, and have been unable to execute our business plan. We will need to raise funds during the next twelve months to execute our business plan to acquire an operating company. In order to continue operations, we must continue to raise the capital necessary to fund our activities and our long-term viability and growth will ultimately depend upon acquiring a successful operating company, as to which there can be no assurance.

Plan to Acquire an Operating Company

Our current business plan consists solely of identifying and acquiring a suitable operating company and compliance with our reporting obligations under federal securities laws. On August 31, 2012, we entered into an Agreement of Merger and Plan of Reorganization (the "Merger Agreement") with click2cause.com Inc., a privately held Nevada corporation ("C2C") and C2C Acquisition Corp., a Nevada corporation and wholly-owned subsidiary of the Company ("Acquisition Sub"). Under the terms of the Merger Agreement, C2C was to merge with and into Acquisition Sub and thereafter become a wholly owned subsidiary of the Company. On December 10, 2012, the Company notified C2C that it was terminating the Merger Agreement pursuant to Section 9.01(e) of the Merger Agreement as the closing had not occurred on or prior to October 15, 2012. As of the date of this report, our current focus is on the crowdfunding industry, however, we are not restricting our search for a target company to any specific business, industry or geographical location.

We anticipate that the selection of a business combination will be complex and subject to substantial risk. Based on general economic conditions, technological advances being made in some industries and shortages of available capital, we believe that there are numerous firms seeking access to the capital markets and/or the perceived benefits of becoming a publicly traded corporation. Such perceived benefits include, among other things, facilitating or improving the terms on which additional equity financing may be obtained, providing liquidity for the principals of and investors in a business, creating a means for providing incentive stock options or similar benefits to incentivize key employees, and offering greater flexibility in structuring acquisitions, joint ventures and the like through the issuance of stock. Potentially available business combinations may occur in many different industries and at various stages of development, all of which will make the task of comparative investigation and analysis of such business opportunities extremely difficult and complex.

Unless we acquire an operating company, we do not expect to retain any additional personnel, incur any capital expenditures, or incur any research and development expenses.

Our ability to generate future revenue and earnings is dependent on identifying and acquiring an operating company. Although we have evaluated potential acquisition targets and engaged in general discussions and due diligence activities regarding the acquisition of an operating company, we have not entered into any agreement to acquire an operating company. There can be no assurance that we will be able to identify an acceptable operating company, complete an acquisition, or that any business we acquire will generate profits or increase the our value.

Results of Operations

We currently have no operations. Our results of operations consists solely of operating expenses. We incurred a net loss of \$53,937 for the year ended September 30, 2012 as compared to a net loss of \$23,373 for the year ended September 30, 2011.

We do not generate any revenue and do not expect to generate any future revenue unless we acquire an operating company.

Liquidity and Capital Resources

At September 30, 2012, we had a working capital deficit of \$3,823. Since inception, we have funded our operations through public and private offerings of our common stock.

On August 6, 2012, we entered into subscription agreements with several accredited investors, pursuant to which it issued and sold an aggregate of 1,607,950 shares of common stock at a purchase price of \$0.02 per share for aggregate proceeds of \$32,159.

In May 2012, we entered into subscription agreements with certain existing stockholders of the Company pursuant to which we issued and sold an aggregate of 108,080 shares of the Company's common stock for gross proceeds of \$10,808. During the period ended December 31, 2011, the Company issued and sold an aggregate of 98,611 shares of common stock at a purchase price of \$0.10 per shared to four accredited investors for aggregate proceeds of \$9,861.

Item 8. *Financial Statements and Supplementary Data*

Our consolidated financial statements for the years ended September 30, 2012 and 2011, together with the report of Li & Company, PC dated January 15, 2013, and the notes thereto, are filed as part of this Annual Report on Form 10-K commencing on page F-1 and are incorporated herein by reference.

Item 9A. *Controls and Procedures*

Evaluation of Disclosure Controls and Procedures

An evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934) was carried out by us under the supervision and with the participation of our president, who serves as our principal executive officer and principal financial officer. Based upon that evaluation, our president concluded that as of September 30, 2012, our disclosure controls and procedures were effective to ensure (i) that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) that such information is accumulated and communicated to management, including our chief executive officer, in order to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act). Under the supervision and with the participation of our management, including our president who serves as our principal executive officer and principal financial officer, we conducted an assessment of the effectiveness of our internal control over financial reporting. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”) in Internal Control — Integrated Framework. Based on management’s assessment based on the criteria of the COSO, we concluded that, as of September 30, 2012, the Company’s internal control over financial reporting was not effective at the reasonable assurance level due to the small size of our staff resulting in a lack of segregation of duties.

Our internal control system was designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the U.S. Our internal control over financial reporting includes those policies and procedures that:

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the U.S., and that receipts and expenditures of the Company are being made only in accordance with authorization of management and directors of the Company; and
- (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company’s assets that could have a material effect on our consolidated financial statements.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management’s report was not subject to attestation by our registered public accounting firm pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, which permits us to provide only management’s report in this annual report.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the fourth fiscal quarter ended September 30, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B

Other Information

None.

PART III

Item 10.

Directors, Executive Officers, and Corporate Governance

Board of Directors and Executive Officers

Name	Age	Positions with the Company
Neil Rock	27	President and Director
Harold Kleiman	48	Director

Neil Rock was elected President and director of the Company in May 2011. Mr. Rock has served as an associate at Goldstrand Investments Inc., a New York-based private investment group, since January 2010. Prior to joining Goldstrand Investments, Mr. Rock was an analyst at Lake Partners, Inc., an investment management firm, from March 2007 through December 2010. Mr. Rock's experience in analyzing small and medium-sized public and private companies along with his capital markets experience provide the board with significant management insight and understanding of capital markets. Strengthen the board's collective qualifications, skills, and experience.

Harold Kleiman was appointed as a director of the Company in November 2012. He is the founder and managing member of Olympia Partners, an investment firm based in New York. He serves as the chief investment officer of the firm and is primarily responsible for strategic development, as well as managing the firm's structuring and trading teams. He graduated from Stony Brook College with a degree in finance. Mr. Kleiman's management and capital markets experience strengthen the board's collective qualifications, skills and experience.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our executive officers and directors, and holders of more than 10% of the outstanding shares of our common stock, to file initial reports of ownership and reports of changes in ownership with the Commission. They are also required to furnish us with copies of all Section 16(a) forms that they file with the SEC. Based solely on our review of copies of such forms received by us and/or any written representations from such persons that no other reports were required with respect to our fiscal year ended September 30, 2012, we believe that all Section 16(a) filing requirements were satisfied in a timely fashion during our fiscal year ended September 30, 2012.

Code of Ethics

We have not adopted a Code of Business Conduct and Ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions in that our sole officer and director serves in all the above capacities.

Board of Directors and Committee Information

Our Board has determined that Mr. Kleiman is "independent" directors as set forth in the rules and regulations of The Nasdaq Stock Market, including Rule 5605, and Rule 10A-3 of the Exchange Act. We currently have no compensation committee or other board committee performing equivalent functions. Currently, all members of our board of directors participate in discussions concerning executive officer compensation.

Stockholder Nominations

There were no material changes to the procedures by which stockholders may recommend nominees to our board of directors during the 2012 fiscal year.

Item 11.***Executive Compensation*****Summary Compensation Table**

The following table sets forth the compensation earned by the Company's principal executive officer, and each of the Company's two most highly compensated executive officers other than the principal executive officer whose compensation exceeded \$100,000 (collectively, the "Named Executive Officers"), during the years ended September 30, 2012 and 2011.

Name and Principal Position	Year	Salary (\$)	All Other Compensation (\$)	Total (\$)
Neil Rock. (1) President	2012	—	—	—
	2011	—	—	—
Joseph Levi (2) President	2011	—	—	—
	2010	—	—	—

(1) Mr. Rock has served as our President since May 2011.

(2) Mr. Levi served as our President, Chief Executive Officer, and Chief Financial Officer from June 2007 through May 2011.

Outstanding Equity Awards at Fiscal Year-End

Our named executive officers did not own any outstanding equity awards as of September 30, 2012.

Directors' Compensation

We have no formal or informal arrangements or agreements to compensate our director for services he provides as director of our company.

Employment Contracts and Officers' Compensation

Since our incorporation, we have not entered into employment agreements with any of our officers, directors or employees. Any future compensation to be paid to these individuals will be determined by our Board of Directors, and employment agreements will be executed. We do not currently have plans to pay any compensation to our officers or directors until such time as we are cash flow positive.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Common Stock

The following table sets forth certain information, as of January 15, 2013 with respect to holdings of our common stock by (i) each person known by us to be the beneficial owner of more than 5% of the total number of shares of common stock outstanding as of such date, (ii) each of our directors and executive officers, and (iii) all directors and executive officers as a group. Except as otherwise indicated, the address of each person is c/o C2C CrowdFunding, Inc., 1202 Lexington Ave., Suite 355, New York, NY 10028.

Name and Address of

Beneficial Owner	Number of Shares	Percent	
	Beneficially Owned (1)	of Class (1)	
Neil Rock (2)	2,301,000	52.6	%
Harold Kleiman	—	—	
Jeffrey Grossman	671,388	15.4	%
Officers and Directors			
As a group (2 members)	2,301,000	52.6	%

Unless otherwise indicated, each of the persons named in the table has sole voting and investment power with respect to the shares set forth opposite such person's name. With respect to each person or group, percentages are calculated based on the number of shares beneficially owned, including shares that may be acquired by such person (1) or group within 60 days of January 15, 2013 upon the exercise of stock options, warrants or other purchase rights, but not the exercise of options, warrants or other purchase rights held by any other person. There were 4,372,641 shares of common stock outstanding as of the close of business on January 15, 2013.

(2) Shares are held by R-Squared Partners. Neil Rock, the Company's President has voting and dispositive control over such shares.

Changes in Control

We are not aware of any arrangements (including any pledge by any person of our securities), the operation of which did or may at a subsequent date result in a change of control.

Item 13. *Certain Relationships and Related Transactions, and Director Independence*

On June 6, 2007, we issued 2,299,000 shares of our common stock to Joseph Levi, our then President, Chief Executive Officer, Chief Financial Officer and director in consideration for the payment of an aggregate of \$14,900. The shares were issued under Section 4(2) of the Securities Act of 1933, as amended, and/or Regulation D promulgated by the Securities and Exchange Commission. On May 18, 2011, Mr. Levi entered into a stock purchase agreement with R-Squared Partners, pursuant to which he sold the shares to R-Squared Partners. Neil Rock, who currently serves as our President and director, has voting and dispositive control over the shares held by R-Squared Partners.

Director Independence

Upon consideration of the criteria and requirements regarding director independence set forth in Rules 5000(a)(19) and 5605(a)(2) of the rules of the NASDAQ Stock Market, we have determined that Mr. Kleiman is independent.

Item 14. *Principal Accountant Fees and Services*

Li & Company, PC served as our independent registered public accounting firm each of the fiscal years ending September 30, 2012 and 2011.

Fees

The following table presents fees for the professional services rendered by Li & Company, for fiscal years 2011 and 2010, respectively:

Edgar Filing: C2C CrowdFunding, Inc. - Form 10-K

Services Performed	2012	2011
Audit Fees(1)	\$7,000	\$12,500
Total Fees	\$7,000	\$12,500

Audit fees represent fees billed for professional services rendered for the audit of our annual financial statements (1) and review of the financial statements included in our quarterly reports or services that are normally provided in connection with statutory and regulatory filings or engagements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of

C2C CrowdFunding, Inc

(Formerly IP Technology Services Inc.)

New York, New York

We have audited the accompanying consolidated balance sheets of C2C CrowdFunding, Inc., formerly IP Technology Services Inc. (the “Company”) as of September 30, 2012 and 2011 and the related consolidated statements of operations, stockholders’ equity (deficit) and cash flows for the fiscal years then ended. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of September 30, 2012 and 2011 and the results of its operations and its cash flows for the fiscal years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 3 to the consolidated financial statements, the Company had accumulated deficits at September 30, 2012, and had a net loss and net cash used in operating activities for the fiscal year then ended. These factors raise substantial doubt about the Company’s ability to continue as a going concern. Management’s plans in regards to these matters are also described in Note 3. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

C2C Crowd Funding, Inc.

September 30, 2012 and 2011

Notes to the Consolidated Financial Statements

Note 1 - Organization and Operations

IP Technology Services, Inc.

IP Technology Services, Inc. (“IP” or the “Company”) was incorporated on June 6, 2007 under the laws of the State of Delaware. IP provides a range of services to assist inventors to leverage their patents and related intellectual property (“Portfolios”) and formulate a strategy to maximize the revenue and profit generated by the Portfolios.

Mural Comm LLC

On June 9, 2008, the company formed Mural Comm LLC (“LLC”) under the laws of the State of Delaware. The Company holds 75% membership interest of the LLC, the LLC was formed to provide the same services as IP but never conducts any business since formation.

Change in Control

On May 18, 2011, Joseph Levi, the Company’s then President, Chief Executive Officer, Chief Financial Officer, director and the stockholder sold 2,301,000 shares of the Company’s common stock (the “Shares”), through a Stock Purchase Agreement with R-Squared Partners representing 92% of the issued and outstanding common shares; (ii) the Company cancelled 17,000 shares of its common stock; (iii) Mr. Levi assumed certain outstanding liabilities of the Company; (iv) Neil Rock was elected President and as a member of the board of directors; and (v) Mr. Levi resigned as President, Chief Executive Officer, Chief Financial Officer and director of the Company.

Amendment to the Articles of Incorporation

On October 26, 2012, the Company filed a Certificate of Ownership with the Secretary of State of Delaware, pursuant to which the Company's newly-formed wholly-owned subsidiary, C2C Crowd Funding, Inc. was merged into and with the Company (the "Merger"). In connection with the Merger and in accordance with Section 253 of the Delaware General Corporation Law, the name of the Company was changed from "IP Technology Services, Inc" to "C2C Crowd Funding, Inc."

Merger Agreement and Termination of the Merger Agreement

On August 31, 2012, the Company entered into an agreement of merger and plan of reorganization (the "merger agreement") with click2cause.com inc., a privately held Nevada corporation ("C2C") and C2C Acquisition Corp., a Nevada corporation and wholly-owned subsidiary of the Company ("Acquisition Sub"). Upon the closing of the transactions contemplated under the Merger Agreement (the "Merger"), Acquisition Sub will merge with and into C2C, and C2C as the surviving corporation will become a wholly owned subsidiary of the Company. Pursuant to the terms and conditions of the Merger Agreement, each shares of C2C common stock issued and outstanding immediately prior to the closing of the Merger shall be converted into the right to receive one share of the Company's common stock. Accordingly, an aggregate of 5,179,095 shares of the Company's common stock will be issued to the holders of C2C's common stock.

On December 10, 2012, the Company notified C2C that it was terminating the Merger Agreement pursuant to the Merger Agreement as the closing had not occurred on or prior to October 15, 2012. Therefore, the merger agreement was not consummated.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The accompanying audited financial statements and related notes have been prepared in accordance with accounting principles generally accepted in the United States of America.

Principles of Consolidation

The Company applies the guidance of Topic 810 “*Consolidation*” of the FASB Accounting Standards Codification (“ASC”) to determine whether and how to consolidate another entity. Pursuant to ASC Paragraph 810-10-15-10 all majority-owned subsidiaries—all entities in which a parent has a controlling financial interest—shall be consolidated except (1) when control does not rest with the parent, the majority owner; (2) if the parent is a broker-dealer within the scope of Topic 940 and control is likely to be temporary; (3) consolidation by an investment company within the scope of Topic 946 of a non-investment-company investee. Pursuant to ASC Paragraph 810-10-15-8 the usual condition for a controlling financial interest is ownership of a majority voting interest, and, therefore, as a general rule ownership by one reporting entity, directly or indirectly, of more than 50 percent of the outstanding voting shares of another entity is a condition pointing toward consolidation. The power to control may also exist with a lesser percentage of ownership, for example, by contract, lease, agreement with other stockholders, or by court decree. The Company consolidates all less-than-majority-owned subsidiaries, in which the parent’s power to control exists.

The consolidated financial statements include all accounts of IP and LLC as of September 30, 2012 and 2011 and for the years then ended.

All inter-company balances and transactions have been eliminated.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

The Company’s significant estimates and assumptions include the fair value of financial instruments; income tax rate, income tax provision, deferred tax assets and the valuation allowance of deferred tax assets, and the assumption that the Company will continue as a going concern. Those significant accounting estimates or assumptions bear the risk of change due to the fact that there are uncertainties attached to those estimates or assumptions, and certain estimates or assumptions are difficult to measure or value.

Management bases its estimates on historical experience and on various assumptions that are believed to be reasonable in relation to the financial statements taken as a whole under the circumstances, the results of which form

the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources.

Management regularly evaluates the key factors and assumptions used to develop the estimates utilizing currently available information, changes in facts and circumstances, historical experience and reasonable assumptions. After such evaluations, if deemed appropriate, those estimates are adjusted accordingly.

Actual results could differ from those estimates.

Fair Value of Financial Instruments

The Company follows paragraph 820-10-35-37 of the FASB Accounting Standards Codification (“Paragraph 820-10-35-37”) to measure the fair value of its financial instruments and paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America (U.S. GAAP), and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The three (3) levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level
1 Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level
2 Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.

Level
3 Pricing inputs that are generally observable inputs and not corroborated by market data.

Financial assets are considered Level 3 when their fair values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable.

The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. If the inputs used to measure the financial assets and liabilities fall within more than one level described above, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

The carrying amounts of the Company's financial assets and liabilities, such as cash and accrued expenses approximate their fair values because of the short maturity of these instruments.

Transactions involving related parties cannot be presumed to be carried out on an arm's-length basis, as the requisite conditions of competitive, free-market dealings may not exist. Representations about transactions with related parties, if made, shall not imply that the related party transactions were consummated on terms equivalent to those that prevail in arm's-length transactions unless such representations can be substantiated.

It is not, however, practical to determine the fair value of advances from stockholders, if any, due to their related party nature.

Fiscal Year End

The Company elected September 30 as its fiscal year end date.

Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Related Parties

The Company follows subtopic 850-10 of the FASB Accounting Standards Codification for the identification of related parties and disclosure of related party transactions.

Pursuant to Section 850-10-20 the Related parties include a. affiliates of the Company; b. Entities for which investments in their equity securities would be required, absent the election of the fair value option under the Fair Value Option Subsection of Section 825-10-15, to be accounted for by the equity method by the investing entity; c. trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management; d. principal owners of the Company; e. management of the Company; f. other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests; and g. Other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

The financial statements shall include disclosures of material related party transactions, other than compensation arrangements, expense allowances, and other similar items in the ordinary course of business. However, disclosure of transactions that are eliminated in the preparation of consolidated or combined financial statements is not required in those statements. The disclosures shall include: a. the nature of the relationship(s) involved; b. a description of the transactions, including transactions to which no amounts or nominal amounts were ascribed, for each of the periods for which income statements are presented, and such other information deemed necessary to an understanding of the effects of the transactions on the financial statements; c. the dollar amounts of transactions for each of the periods for which income statements are presented and the effects of any change in the method of establishing the terms from that used in the preceding period; and d. amounts due from or to related parties as of the date of each balance sheet presented and, if not otherwise apparent, the terms and manner of settlement.

Revenue Recognition

The Company's revenues are derived principally from commissions earned through retaining a buyer or licensee(s) or obtaining product development funding for the Portfolios holder the Company represents. The Company follows paragraph 605-10-S99-1 of the FASB Accounting Standards Codification for revenue recognition. The Company will recognize revenue when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the product has been shipped or the services have been rendered to the customer, (iii) the sales price is fixed or determinable, and (iv) collectability is reasonably assured. In addition to the aforementioned general policy, the following are the specific revenue recognition policies for each category of revenues:

Licensing revenues: Licensing revenues, net of licensor participations, are recognized when the underlying royalties from the sales of the related products are earned. The Company recognizes guaranteed royalties, net of licensor participations, at the time the arrangement becomes effective if the Portfolios holder has signed a non cancelable contract, has agreed to a fixed fee, has delivered the rights to the licensee who is free to exercise them, and the Portfolios holder and the Company, as a licensing agent has no remaining significant obligations with the underlying Portfolios or obligation to the licensee, and collectability of the full fee is reasonably assured. Where the Company has significant continuing direct involvement with the underlying Portfolios or obligation to the licensee, guaranteed minimum royalties, net of licensor participations, are recognized ratably over the term of the license or based on sales of the related products, if greater. Licensing advances and guaranteed payments collected but not yet earned by the Company are classified as deferred revenue in the accompanying consolidated balance sheets.

Commission income: Commission income, net of licensor participations, is recognized when the underlying commission from the sale of the Portfolios or securing product development funding is earned. The Company recognizes commission income, net of licensor participations, at the time the sale of the Portfolios or product development funding arrangement becomes effective if the Portfolios holder has signed a non cancelable contract, has agreed to a fixed or determinable amount, has sold the rights to the buyer or obtained the funding from the financing institutions, and collectability of the full commission is reasonably assured. If the Company determines that collection of the full commission is not reasonably assured, the Company defers the revenue recognition and recognizes commission income at the time collection becomes reasonably assured, which is generally upon receipt of cash.

Non-controlling Interest

The Company follows paragraph 810-10-65-1 of the FASB Accounting Standards Codification to include non-controlling interests in Mural Comm LLC, its majority owned subsidiary in the equity section of the consolidated balance sheets. Non-controlling interests represent 25% of the equity of the Company's majority-owned subsidiary, Mural Comm LLC. Non-controlling interests are adjusted for the non-controlling interest holders' proportionate share of the earnings or losses of Mural Comm LLC and the non-controlling interest continues to be attributed its share of

losses even if that attribution results in a deficit non-controlling interest balance.

F-10

Income Tax Provision

The Company accounts for income taxes under Section 740-10-30 of the FASB Accounting Standards Codification, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the fiscal year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the fiscal years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Statements of Income and Comprehensive Income in the period that includes the enactment date.

The Company adopted section 740-10-25 of the FASB Accounting Standards Codification (“Section 740-10-25”) with regards to uncertainty income taxes. Section 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under Section 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. Section 740-10-25 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

The estimated future tax effects of temporary differences between the tax basis of assets and liabilities are reported in the accompanying consolidated balance sheets, as well as tax credit carry-backs and carry-forwards. The Company periodically reviews the recoverability of deferred tax assets recorded on its consolidated balance sheets and provides valuation allowances as management deems necessary.

Management makes judgments as to the interpretation of the tax laws that might be challenged upon an audit and cause changes to previous estimates of tax liability. In addition, the Company operates within multiple taxing jurisdictions and is subject to audit in these jurisdictions. In management’s opinion, adequate provisions for income taxes have been made for all years. If actual taxable income by tax jurisdiction varies from estimates, additional allowances or reversals of reserves may be necessary.

Uncertain Tax Positions

The Company did not take any uncertain tax positions and had no adjustments to unrecognized income tax liabilities or benefits pursuant to the provisions of Section 740-10-25 for the fiscal year ended September 30, 2012 or 2011.

Limitation on Utilization of NOLs due to Change in Control

Pursuant to the Internal Revenue Code Section 382 (“Section 382”), certain ownership changes may subject the NOL’s to annual limitations which could reduce or defer the NOL. Section 382 imposes limitations on a corporation’s ability to utilize NOLs if it experiences an “ownership change.” In general terms, an ownership change may result from transactions increasing the ownership of certain stockholders in the stock of a corporation by more than 50 percentage points over a three-year period. In the event of an ownership change, utilization of the NOLs would be subject to an annual limitation under Section 382 determined by multiplying the value of its stock at the time of the ownership change by the applicable long-term tax-exempt rate. Any unused annual limitation may be carried over to later years. The imposition of this limitation on its ability to use the NOLs to offset future taxable income could cause the Company to pay U.S. federal income taxes earlier than if such limitation were not in effect and could cause such NOLs to expire unused, reducing or eliminating the benefit of such NOLs.

Net Income (Loss) per Common Share

Net income (loss) per common share is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Basic net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock and potentially outstanding shares of common stock during the period to reflect the potential dilution that could occur from common shares issuable through convertible debt or preferred stock, contingent share arrangements, stock options and warrants.

There were no potentially dilutive common shares outstanding for the fiscal year ended September 30, 2012 or 2011.

Cash Flows Reporting

The Company adopted paragraph 230-10-45-24 of the FASB Accounting Standards Codification for cash flows reporting, classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities and provides definitions of each category, and uses the indirect or reconciliation method (“Indirect method”) as defined by paragraph 230-10-45-25 of the FASB Accounting Standards Codification to report net cash flow from operating activities by adjusting net income to reconcile it to net cash flow from operating activities by removing the effects of (a) all deferrals of past operating cash receipts and payments and all accruals of expected future operating cash receipts and payments and (b) all items that are included in net income that do not affect operating cash receipts and payments. The Company reports the reporting currency equivalent of foreign currency cash flows, using the current exchange rate at the time of the cash flows and the effect of exchange rate changes on cash held in foreign currencies is reported as a separate item in the reconciliation of beginning and ending balances of cash and cash equivalents and separately provides information about investing and financing activities not resulting in cash receipts or payments in the period pursuant to paragraph 830-230-45-1 of the FASB Accounting Standards Codification.

Recently Issued Accounting Pronouncements

FASB Accounting Standards Update No. 2011-08

In September 2011, the FASB issued the FASB Accounting Standards Update No. 2011-08 “*Intangibles—Goodwill and Other: Testing Goodwill for Impairment*” (“ASU 2011-08”). This Update is to simplify how public and nonpublic entities test goodwill for impairment. The amendments permit an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in Topic 350. Under the amendments in this Update, an entity is not required to calculate the fair value of a reporting unit unless the entity determines that it is more likely than not that its fair value is less than its carrying amount.

The guidance is effective for interim and annual periods beginning on or after December 15, 2011. Early adoption is permitted.

FASB Accounting Standards Update No. 2011-12

In December 2011, the FASB issued the FASB Accounting Standards Update No. 2011-12 “*Comprehensive Income: Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05*” (“ASU 2011-12”). This Update is a deferral of the effective date pertaining to reclassification adjustments out of accumulated other comprehensive income in ASU 2011-05. FASB is to go to reassess the costs and benefits of those provisions in ASU 2011-05 related to reclassifications out of accumulated other comprehensive income. Due to the time required to properly make such a reassessment and to evaluate alternative presentation formats, the FASB decided that it is necessary to reinstate the requirements for the presentation of reclassifications out of accumulated other comprehensive income that were in place before the issuance of Update 2011-05.

All other requirements in Update 2011-05 are not affected by this Update, including the requirement to report comprehensive income either in a single continuous financial statement or in two separate but consecutive financial statements. Public entities should apply these requirements for fiscal years, and interim periods within those years, beginning after December 15, 2011.

FASB Accounting Standards Update No. 2012-02

In July 2012, the FASB issued the FASB Accounting Standards Update No. 2012-02 “*Intangibles—Goodwill and Other (Topic 350) Testing Indefinite-Lived Intangible Assets for Impairment*” (“ASU 2012-02”).

This Update is intended to reduce the cost and complexity of testing indefinite-lived intangible assets other than goodwill for impairment. This guidance builds upon the guidance in ASU 2011-08, entitled *Testing Goodwill for Impairment*. ASU 2011-08 was issued on September 15, 2011, and feedback from stakeholders during the exposure period related to the goodwill impairment testing guidance was that the guidance also would be helpful in impairment testing for intangible assets other than goodwill.

The revised standard allows an entity the option to first assess qualitatively whether it is more likely than not (that is, a likelihood of more than 50 percent) that an indefinite-lived intangible asset is impaired, thus necessitating that it perform the quantitative impairment test. An entity is not required to calculate the fair value of an indefinite-lived intangible asset and perform the quantitative impairment test unless the entity determines that it is more likely than not that the asset is impaired.

This Update is effective for annual and interim impairment tests performed in fiscal years beginning after September 15, 2012. Earlier implementation is permitted.

Other Recently Issued, but not yet Effective Accounting Pronouncements

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying financial statements.

Note 3 – Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business.

As reflected in the accompanying consolidated financial statements, the Company had accumulated deficits at September 30, 2012, a net loss and net cash used in operating activities for the fiscal year then ended, respectively. These factors raise substantial doubt about the Company's ability to continue as a going concern.

While the Company is attempting to commence operations and generate sufficient revenues, the Company's cash position may not be sufficient enough to support the Company's daily operations. While the Company believes in the viability of its strategy to generate sufficient revenues and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon the Company's ability to further implement its business plan and generate sufficient revenues. The consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. Management believes that the actions presently being taken to further implement its business plan and generate revenues provide the opportunity for the Company to continue as a going concern.

The consolidated financial statements do not include any adjustments related to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 4 – Promissory note receivable

On August 31, 2012, the Company entered into a promissory note agreement with click2cause.com Inc (“C2C”), with which the Company also entered the merger agreement on the same day that C2C promises to pay to the Company the principal sum of \$10,000 together with interest at 8% per annum maturing on October 15, 2012.

On December 10, 2012, the Company notified C2C that it was terminating the Merger Agreement pursuant to the Merger Agreement as the closing had not occurred on or prior to October 15, 2012 and the note was in default.

Note 5 – Related Party Transactions

Free Office Space

The Company leases office space from a related party. There is no formal lease agreement existing at the present that obligates the Company to record any future minimum payments.

Note 6 – Stockholders’ Deficit

Common Stock

The Company sold 98,611 shares of its common stock at \$0.10 per share (\$9,861) to four (4) investors during the quarter ended December 31, 2011.

The Company sold 108,080 shares of its common stock at \$0.10 per share (\$10,808) to two (2) investors during the quarter ended June 30, 2012.

The Company sold 1,607,950 shares of its common stock at \$0.2 per share (\$32,159) to several investors during the quarter ended September 30, 2012.

Note 6 – Income Taxes

Deferred Tax Assets

At September 30, 2012, the Company had net operating loss (“NOL”) carry-forwards for Federal income tax purposes of \$120,422 that may be offset against future taxable income through 2032. No tax benefit has been reported with respect to these net operating loss carry-forwards in the accompanying financial statements because the Company believes that the realization of the Company’s net deferred tax assets of approximately \$40,943 was not considered more likely than not and accordingly, the potential tax benefits of the net loss carry-forwards are fully offset by a valuation allowance of \$40,943.

Deferred tax assets consist primarily of the tax effect of NOL carry-forwards. The Company has provided a full valuation allowance on the deferred tax assets because of the uncertainty regarding its realizability. The valuation allowance increased approximately \$18,338 and \$7,947 for the fiscal year ended September 30, 2012 and 2011, respectively.

Components of deferred tax assets at September 30, 2012 and 2011 are as follows:

	September 30, 2012	September 30, 2011
Net deferred tax assets – non-current:		
Expected income tax benefit from NOL carry-forwards	40,943	22,605
Less valuation allowance	(40,943)	(22,605)
Deferred tax assets, net of valuation allowance	\$ -	\$ -

Income Tax Provision in the Consolidated Statements of Operations

A reconciliation of the federal statutory income tax rate and the effective income tax rate as a percentage of income before income taxes is as follows:

	For the fiscal year ended September 30, 2012		For the fiscal year ended September 30, 2011	
Federal statutory income tax rate	34.0	%	34.0	%
Change in valuation allowance on net operating loss carry-forwards	(34.0))%	(34.0))%
Effective income tax rate	0.0	%	0.0	%

Note 6 – Subsequent Events

The Company has evaluated all events that occurred after the balance sheet date through the date when the financial statements were issued to determine if they must be reported. The Management of the Company determined that there were certain reportable subsequent events to be disclosed as followed:

Promissory note receivable

On October 10, 2012, the Company entered into a promissory note agreement with click2cause.com Inc (“C2C”), that C2C promises to pay to the Company the principal sum of \$50,000 together with interest at 8% per annum maturing on October 15, 2012.

On December 10, 2012, the Company notified C2C that it was in default under the promissory note issued by C2C to the Company dated August 31, 2012 in the principal amount of \$10,000 due October 15, 2012 and the promissory note issued by C2C to the Company dated October 10, 2012 in the principal amount of \$50,000 due October 15, 2012.

On October 26, 2012, the Company filed a Certificate of Ownership with the Secretary of State of Delaware, pursuant to which the Company’s newly-formed wholly-owned subsidiary, C2C Crowd Funding, Inc. was merged into and with the Company (the “Merger”). In connection with the Merger and in accordance with Section 253 of the Delaware General Corporation Law, the name of the Company was changed from “IP Technology Services, Inc” to “C2C Crowd Funding, Inc.”
