BUSINESS REPORT

(From April 1, 2003, to March 31, 2004)

1. The Business Environment

(1) Business Results

Regarding economic trends overseas during the period under review, U.S. economic conditions remained robust, as personal consumption was firm owing to such factors as tax reductions. In Europe, the U.K. economy continued to be strong, and signs of bottoming out in were seen in such countries as Germany and France during the latter half of the year. Asian economies realized a full-scale trend of economic recovery supported by the economic growth of China as well as external demand.

Conditions in the Japanese economy showed a trend of gradual recovery owing to such factors as a recovery in corporate performance amid strong exports and capital investment.

Against this backdrop, Makita worked to increase its profitability by proceeding further with the shift of manufacturing operations to China, as well as by establishing sales and service subsidiaries in Russia and Eastern European countries characterized by rapid economic growth and taking other measures in line with its sound and proactive global business strategy.

In the United States, Makita focused especially on strengthening its marketing capabilities in the professional-use market. The Company also continued to take steps to improve profitability, including reducing inventories and reorganizing its logistics centers to reduce distribution costs.

Nonconsolidated net sales amounted to 88,335 million yen, up 2.6% from the previous fiscal year. Net sales in Japan increased 1.8%, to 38,429 million yen, strong sales of new products, especially impact drivers and products related to home remodeling. Export sales rose 3.1%, to 49,906 million yen, as a result of sales increases in Asia and Europe. Thus, export sales accounted for 56.5% of total net sales.

With respect to profitability, cost cutting measures and other factors reduced the cost of sales, supporting a 25.1% surge in ordinary profit, to 9,444 million yen. The Company recorded a loss on the revaluation of shares in a golf course subsidiary, but this was more than offset by such factors as a gain on the sale of the parent company's No. 3 factory and a large drop in losses on the revaluation of investment securities. As a result, net income surged by 3.8 times, to 5,668 million yen.

To implement a flexible capital policy, a resolution was approved at the Company's 91st Annual General Meeting of Shareholders held on June 27, 2003, allowing Makita to purchase up to a maximum of 5 million of its outstanding shares from the market at a maximum purchase price of 5 billion yen. Under these arrangements, Makita purchased 2,002 thousand shares of its own stock for a total of 2,142 million yen during the fiscal year.

(2) Future Tasks

Although a global trend of economic recovery is anticipated, considerable uncertainties remain in the corporate operating environment, including factors related to tensions in the Middle East.

Duly noting these circumstances, Makita is striving to accelerate its product development programs so that it can respond to market needs more quickly. At the same time, Makita is endeavoring to expand its

marketing routes, further reduce costs, and take other measures needed to ensure that it will realize its goal of being a truly Strong Company. The Company believes it can attain this goal by relentlessly working to take or sustain the top shares of professional-use power tool markets throughout the world.

In closing, we would like to thank you for your ongoing support and ask for your continued backing.

(3) Investment in Plant and Equipment

During the fiscal year, the Company allocated 1,942 million yen for its capital expenditures. These funds were used primarily for the acquisition of dies for new products and the construction of the new sales office building in Kanazawa.

(4) Capital Procurement

During the fiscal year, the Company did not procure capital by issuing new shares or bonds. Funds required during the year were appropriated from internal reserves.

(5) Summary of Business Results and State of Assets

Description	89th Fiscal Year (ended March 31, 2001)	90th Fiscal Year (ended March 31, 2002)	91st Fiscal Year (ended March 31, 2003)	92nd Fiscal Year (ended March 31, 2004)

Shareholders' equity (in millions of yen)	194,292	189,997	185,222	192,356

- Notes:
- Earnings per share is computed based on the average number of common stock outstanding during the fiscal year. From the 90th fiscal year, treasury stocks were excluded from the denominator.
 - Effective April 1, 2002, the Company adopted the new accounting standard for earnings per share and related guidance (Accounting Standards Board Statement No.2, Accounting Standard for Earnings Per Share and Financial Standards Implementation Guidance No.4, Implementation Guidance for Accounting Standard for Earnings Per Share).
 - As a result of the reform of Commercial Code enforcement regulations, for the fiscal year under review, amounts of less than 1 million yen have been rounded. In previous fiscal years, amounts of less than 1 million yen had been eliminated.

The 89th fiscal year:

Net sales rose 1.8%, to 97,177 million yen, owing to the domestic sales growth that followed the vigorous introduction of new products as well as an increase in export sales to Asian countries. Despite an improvement in profitability, thanks to a rise in export prices, net income only went up 2.4%, to 4,000 million yen, because of the adoption of a newly introduced accounting standard of pension liabilities.

The 90th fiscal year:

Net sales amounted to 89,424 million yen, down 8.0% from the previous fiscal year, owing to such factors as a shift of manufacturing operations to a China-based subsidiary and moves taken by Japanese retailers to reduce inventory levels that had risen amid the protracted recession. Just as in the previous year, the Company recorded an amortization of the pension liabilities (net of the fair market value of plan assets) that existed at the beginning of the period during which the new accounting standard was implemented, and it also recorded unrealized losses on investment securities. These and other factors depressed net income 47.5%, to 2,100 million yen.

The 91st fiscal year:

Net sales amounted to 86,132 million yen, down 3.7% from the previous fiscal year, because of stagnation in power tool demand in Japan, decrease in export sales as a shift of manufacturing operations to a China-based subsidiary, and other factors. The Company recorded an amortization of the pension liabilities (net of the fair market value of plan assets) that existed at the beginning of the period during which the new accounting standard was

implemented, and it also recorded unrealized losses on investment securities. These and other factors depressed net income 28.8%, to 1,494 million yen.

The 92nd fiscal year:

A review of the period is provided in (1) Business Results.

2. Developments of Makita Group

Aiming to strengthen its marketing and service systems in Europe, the Company established several new companies including Makita Farramentas, Sociedad Unipersonal, Lda. (Portugal) on June 30, 2003; Makita LLC (Russia) on October 3, 2003; and Makita Servis Centrum. S.R.O. (Slovakia) on March 24, 2004 that are accounted for as consolidated subsidiaries from the fiscal year under review.

3. Makita Group Results

On a consolidated basis (Makita Corporation and 42 consolidated subsidiaries), net sales increased 4.8% from the previous fiscal year, to 184,117 million yen, as a result of sales increases in all regions except North America and Central/South America.

Despite the recording of a loss at approximately 6 billion yen on the impairment on the assets of a golf course subsidiary, profitability was positively affected by such developments as an improvement in the cost-of-sales ratio, owing to such factors as a rise in the share of manufacturing operations carried out in China and the appreciation of the euro, and a large improvement among such nonoperating profit and loss items as those associated with securities assets and exchange losses on foreign currency transactions. As a result, income before income taxes surged 74.0%, to 16,170 million yen. However, increase in net income was restrained to 14.4%, which is primarily due to the 100 per cent valuation allowance provided on the deferred income tax asset on the impairment loss noted above. As a result, net income amounted to 7,691 million yen.

We have audited the statutory report, that is the balance sheet, the statement of income, the business report (limited to accounting matters) and the proposal for appropriation of unappropriated retained earnings, and its supporting schedules (limited to accounting matters) of Makita Corporation (the Company) for the 92nd business year from April 1, 2003 to March 31, 2004 in accordance with Article 2 of the Law for Special Exceptions to the Commercial Code Concerning Audit, etc. of Kabushiki Kaisha. With respect to the aforementioned business report and supporting schedules, our audit was limited to those matters derived from the accounting books and records of the Company. These statutory report and supporting schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on the statutory report and supporting schedules based on our audit as an independent auditor.

We conducted our audit in accordance with generally accepted auditing standards in Japan. Those auditing standards require to obtain reasonable assurance about whether the statutory report and supporting schedules are free of material misstatement. An audit is performed on a test basis, and includes assessing the accounting principles used, the method of their application and estimates made by management, as well as evaluating the overall presentation of the statutory report and supporting schedules. We believe that our audit provides a reasonable basis for our opinion. Our audit procedures also include those considered necessary for the Company's subsidiaries.

As a result of the audit, our opinion is as follows:

- (1) The balance sheet and the statement of income present fairly the financial position and the result of operations of the Company in conformity with related laws and regulations and the Articles of Incorporation of the Company.
- (2) The business report (limited to accounting matters) presents fairly the status of the Company in conformity with related laws and regulations and the Articles of Incorporation of the Company.
- (3) The proposal for appropriation of unappropriated retained earnings has been prepared in conformity with related laws and regulations and the Articles of Incorporation of the Company.
- (4) With respect to the supporting schedules (limited to accounting matters) there are no items to be noted that are not in conformity with the provisions of the Commercial Code.

The subsequent event stated in the business report may have a material effect on the financial position and the result of operations of the Company in the business years subsequent to March 31, 2004.

Our firm and Engagement Partners have no interest in the Company which should be disclosed pursuant to the provisions of the Certified Public Accountants Law of Japan.

Note: Due to a January 1, 2004, merger, the Company's accounting auditor, Asahi & Co., has become KPMG AZSA & Co.

Statutory Auditor

The Board of Statutory Auditors, having received a report from each Statutory Auditor on the method and results of his audit on the performance of duties of Directors during the 92nd fiscal period, from April 1, 2003 to March 31, 2004, and having discussed with each other, does hereby report the results of their audit as follows:

1. Method of Audit by Statutory Auditors:

Each Statutory Auditor has, following the audit policy and distribution of audit responsibility among the Statutory Auditors set by the Board of Statutory Auditors, attended the meetings of the Board of Directors and other important meetings of the Company, received reports on the operation of the Company from Directors and other parties, perused important documents including those subject to executive approval, conducted examination of business conditions and assets at the head office and other major business offices and requested from the Company's subsidiaries reports on their operation and, when deemed necessary, conducted on-site inspection on their financial position as well as their operation. Each Statutory Auditor has also received from accounting auditors reports concerning accounting audit and their opinions and conducted examination of accounting documents and the supplemental schedules.

With respect to the Director's engagement in competing transactions, transactions involving conflict of interest between the Company and a Director, the provision by the Company of a benefit without compensation, unusual transactions between the Company and its subsidiary or shareholder and acquisition and disposition by the Company of its own shares, each Statutory Auditor has, in addition to the audit procedures described above, requested reports from Directors and other parties and conducted investigation and examination of conditions of such transactions when deemed necessary.

2. Result of Audit:

In the opinion of the Board of Statutory Auditors:

- (1) The method of audit employed by KPMG AZSA & Co. and the result thereof are proper and fair;
- (2) The contents of the business report present fairly the position of the Company pursuant to laws and regulations and the Articles of Incorporation;
- (3) The proposed allocation of profit contains nothing particular to be commented on in the light of the condition of assets of the Company and other circumstances;
- (4) The supplemental schedules present fairly the matters to be described therein and contain nothing to be commented on;
- (5) With respect to the execution of Directors' duties, no unfair conduct nor any material breach of laws and regulations or the Articles of Incorporation has been found, and with respect to the Director's engaging in competing transactions, transactions involving a conflict of interest between the Company and a Director, providing by the Company of a benefit without compensation, unusual transactions between the Company and its subsidiary or shareholder and acquisition and disposition by the Company of its own shares, no violation of duties by any Director has been found; and
- (6) With respect to the Directors' duties on subsidiaries, nothing came to our attention that should be commented upon.

Note: Keiichi Usui and Shoichi Hase are outside statutory auditors as provided in Paragraph 1 of Article 18 of the Law Concerning Exceptional Measures to the Commercial Code with Respect to Auditing, etc. of Joint Stock Corporations.

2. Propositions and explanatory information

Agenda Item No. 1: Approval of the Proposed Appropriation of Retained Earnings for the 92nd fiscal year

If approved by shareholders, the appropriation of retained earnings will be carried forward as designated on page 14 in order to build up the Company's strength in every aspect given the unpredictability of the future business environment.

The Company previously had a fundamental policy of maintaining stable dividend levels but has now adopted an approach to determining dividends based on consideration of a comprehensive range of factors including performance and dividend payout ratios. Accordingly in addition to an ordinary cash dividend of 9 yen per share, it is proposed that a special dividend of 4 yen per share be disbursed, for a total of 13 yen per share (Including the interim dividend of 9 yen per share, total dividends applicable to the year amounted to 22 yen per share).

Agenda Item No. 2: Partial amendment to the Articles of Incorporation

1. Reasons for the amendments:

It is hereby proposed that, as a result of the retirement of five million (5,000,000) shares of the Company during the fiscal year ended March 31, 2004 pursuant to Article 212 of the Commercial Code, the total number of shares authorized to be issued by the Company provided for in Article 5 of the Articles of Incorporation be reduced by the same number of shares as such shares so retired.

As a result of the enforcement of the Law Amending the Commercial Code and the Law Concerning Special Measures to the Commercial Code with Respect to Auditing, etc. of Joint Stock Corporations (Law No. 132 of 2003), the Company has become able to purchase its own shares by a resolution of its Board of Directors if so authorized by the Articles of Incorporation. Accordingly, it is hereby proposed that, in order to enable the Company to pursue its flexible capital policies responding to changing business environment, the new Article 6 (Acquisition of treasury stock) be established and the Articles thereafter of the present Articles of Incorporation be renumbered downward for one.

2. Details of the amendments:

The details of the amendments are as follows:
