TWO OF SHANDA'S GAMES AWARDED BY CPPA AS THE MOST POPULAR
GAME AND BEST DOMESTIC GAME TITLES IN CHINA IN 2004

- Chinese Government Recognizes Shanda's Online Game Industry
Leadership With Support For Game Development

Shanghai, China - January 20, 2005 - Shanda Interactive Entertainment

Edgar Filing: SHANDA INTERACTIVE ENTERTAINMENT LTD - Form 6-K

Limited (Nasdaq: SNDA), the largest operator of online games in China, announced today that Shanda's leading online games, The Legend of Mir II and World of Legend, were respectively recognized as the most popular online game and the best domestic game in China in the 2004 Chinese Game Annual Forums sponsored by China Press and Publication Administration (or CPPA). These honors further demonstrate Shanda's leadership in the growing online games industry.

Meanwhile, Shanda's leadership position in online game industry has also been further recognized by Chinese government - the Ministry of Information Industry (or MII) and the CPPA with support for game development.

The MII sets aside a total of RMB500 million (approximately US \$60 million) each year to support the development of the country's IT industries. Recently the MII announced the list of enterprises that won government funding this year and Shanda became the key enterprise to be given special support for online game software development.

The CPPA also launched the National Online Game Publication Project to boost development of domestic online games in 2004. Recently the CPPA announced that three internally developed online games of Shanda, including The Age and two other new titles, Three Kingdom and Magical Land, along with 18 other domestic titles, have been selected for the project.

Tianqiao Chen, CEO of Shanda expressed: "After receiving the excellent model enterprises of China's Cultural Industry from the Ministry of Culture in 2004, the additional support towards Shanda demonstrated by both the MII and the CPPA illustrate that China has been aggressively promoting the development of a home grown online game industry. Shanda's prominent recognition in these forums also reconfirms our leading position in this rapidly growing category."

FINANCIAL RESULTS (PRELIMINARY UNAUDITED (POUND))

Revenues. In the fourth quarter of 2004, Shanda reported record revenues of RMB453.1 million (US\$54.7 million), and net revenues after business tax and related surcharges of RMB 430.9 million (US\$52.1 million), representing a 134.2% increase year-over-year and a 22.0% increase quarter-over-quarter.

For the full year 2004, revenues were RMB1,367.2 million (US\$165.2 million), and net revenues were RMB1,298.7 million (US\$156.9 million), a 116.5% increase from the full year 2003.

Online game revenues increased 20.7% to RMB411.8 million (US\$49.8 million) in the fourth quarter of 2004 from RMB341.2 million (US\$41.2 million) in the third quarter of 2004. Total peak concurrent users for all Shanda games in commercial service in the fourth quarter of 2004 increased to 2.0 million from 1.7 million in the third quarter of 2004. For the full year 2004, online game revenues increased 105.4% to RMB1,276.2 million (US\$154.2 million), from RMB621.2 million for the full year 2003.

Revenues from MMORPGs in the fourth quarter of 2004 increased 11.7% quarter-over-quarter to RMB316.9 million (US\$38.3 million), and accounted for 69.9% of total revenues. For the full year 2004, MMORPG revenues were RMB1,049.8 million (US\$126.8 million), a 71.4% increase from the full year 2003.

Revenues from casual games in the fourth quarter increased 64.9% quarter-over-quarter to RMB 94.9 million (US\$11.5 million), and accounted for 21.0% of total revenues. For the full year 2004, casual games revenues were RMB226.4 million (US\$27.4 million), compared to RMB8.8 million (US\$1.1 million) for the full year 2003. Casual games revenues accounted for 16.6% of the total revenues in 2004, compared to 1.4% in 2003. The increase in casual games revenues for the quarter and for the year was primarily driven by the introduction and the growing acceptance of premium feature item sales within the casual games.

Shanda's other revenues increased 35.5% to RMB41.3 million (US\$5.0 million) in the fourth quarter of 2004 from RMB30.5 million (US\$3.7 million) in the third quarter of 2004. The increase in Shanda's other revenues was primarily due to the increase of online advertising revenues, and the increase of revenue from other value-added services and products.

For the full year 2004, other revenues were RMB91.0 million (US\$11.0 million), compared to RMB12.2 million (US\$1.5 million) for the full year 2003.

Gross Profit. Gross margin, which is equal to gross profits divided by net revenues, was a record high of 67.1% for the fourth quarter of 2004, up from 61.6% in the fourth quarter of 2003 and 62.7% reported in the third quarter of 2004. For the full year 2004, the gross margin was 63.7%, up from 61.0% for the full year 2003. The increase in gross margin for the quarter and for the year was primarily due to the expansion into higher margin revenue lines such as internally developed games and online advertisement.

Income from Operations. Operating income for the fourth quarter of 2004 was RMB187.2 million (US\$22.6 million), representing a 303.6% increase compared to

Edgar Filing: SHANDA INTERACTIVE ENTERTAINMENT LTD - Form 6-K

RMB46.4 million in the fourth quarter of 2003 and a 31.8% increase compared to RMB142.0 million in the third quarter of 2004. Operating margin, which is equal to income from operations divided

7

by net revenues, increased to 43.5% in the fourth quarter of 2004 from 40.2% in the third quarter of 2004.

For the full year 2004, operating income was RMB511.0 million (US\$61.7 million), up 139.7% from RMB213.2 million (US\$25.8 million) in the full year 2003. Operating income margin for the full year 2004 was 39.3%, compared to operating income margin of 35.5% for the full year 2003.

Net Income. In the fourth quarter of 2004, Shanda had net income of RMB231.4 million (US\$28.0 million), representing a 238.9% increase compared to net income of RMB68.3 million (US\$8.3 million) in the fourth quarter of 2003 and a 40.1% increase compared to net income of RMB165.1 million in the third quarter of 2004. The quarter-over-quarter increase in Shanda's net income was primarily due to the increase in Shanda's income from operations, interest and investment income, partially offset by a decrease in government financial incentives Shanda received in the fourth quarter compared with the third quarter. Diluted earnings per ADS were RMB3.12 (US\$0.38) for the quarter, representing a 194.3% increase compared to diluted earnings per ADS of RMB1.06 in the same period of 2003 and a 41.8% increase compared to diluted earnings per ADS of RMB2.20 in the third quarter of 2004.

For the full year 2004, Shanda's net income was RMB609.5 million (US\$73.6 million), representing a 123.4% increase compared to net income of RMB272.9 (US\$33.0 million) for the full year 2003. Diluted earnings per ADS were RMB8.10 (US\$0.98) for the full year 2004, representing an increase of 95.7% compared to diluted earnings per ADS of RMB4.14 (US\$0.50) for the full year 2003.

The conversion of Renminbi (RMB) into U.S. dollars in this release is based on the noon buying rate in The City of New York for cable transfers in Renminbi per U.S. dollar as certified for customs purposes by the Federal Reserve Bank of New York as of December 31, 2004, which was RMB8.2765 to US\$1.00. The percentages stated in this press release are calculated based on RMB.

RECENT BUSINESS HIGHLIGHTS

On February 2, 2005, Shanda completed the acquisition of an approximately 29% controlling stake of Actoz Soft Co., Ltd., a Korean developer, operator and publisher of online games, from certain shareholders of Actoz for approximately US\$91.7 million, in an all cash transaction. In addition, in December 2004, Shanda purchased an additional amount of Actoz's shares on the KOSDAQ market equal to approximately 9% of Actoz's issued and outstanding shares at an aggregate cost of approximately US\$14.4 million. In total, Shanda currently owns approximately 38% of Actoz and will be accounted for under equity method in 2005. Through this acquisition, Shanda solidified an important alliance with the supplier of one of its leading games, The Legend of Mir II. According to the user survey conducted by International Data Center, or IDC, in late 2004, Mir II is the most popular online game in China.

In the fourth quarter of 2004, Shanda continued to expand its user base not only through organic growth, but also through successful integration of businesses it acquired or invested in. Bianfeng, a developer and operator of chess and board online games which Shanda acquired in August 2004, had peak concurrent users (or PCU) of 200,000 at the time of the acquisition. Bianfeng's

Edgar Filing: SHANDA INTERACTIVE ENTERTAINMENT LTD - Form 6-K

PCU number had since increased to 277,000 in the fourth quarter. Haofang, an operator of a network PC game platform, saw its PCU increase to 425,000 in the fourth quarter from 320,000 in July 2004 when Shanda agreed to make a minority investment, which would lead to acquisition of majority stake in 2006.
