Item 9. Regulation FD Disclosure

On August 14, 2003, ENGlobal Corporation issued a press release, a copy of which is set forth below. In accordance with General Instructions B.2. Form 8-K, the following information shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such a filing.

ENGlobal Reports Record Revenue and Profit;
Revenue Growth Exceeds 30%

HOUSTON--(BUSINESS WIRE)--Aug. 14, 2003--ENGlobal Corporation (Amex:ENG), a leading provider of engineering services and engineered systems, today reported financial results that include record quarterly revenues of approximately \$30 million, a 31% increase over second quarter 2002 revenues. The Company also reported record profits for the quarter, with net income showing a 7% increase when compared to the second quarter 2002. Earnings for the quarter equaled two cents per common share.

Edgar Filing: ENGLOBAL CORP - Form 8-K

On a sequential basis, the comparisons are also favorable, as second quarter 2003 revenues outpaced the first quarter by 27% and net income increased 5%. ENGlobal's results were primarily driven by a strong performance in its engineering services segment, resulting from the award of several new contracts and the onset of a new phase of a large project.

While consolidated gross profits showed a 10.3% increase as compared to the second quarter 2002, as a percentage of revenues, gross profits declined from 17.3% to 14.6% in the second quarter 2003. Procurement activities on a major EPC project, which commenced in the second quarter 2003, contributed \$4.8 million of the \$30 million revenue increase reported above. However, these large material purchases generally have a lower markup, deflating the overall gross profits of the Company. It is important to note, however, that the margin for our core business, engineering services, after excluding the procurement activities, increased to 18.5% from 16.6% reported for the second quarter 2002.

Mike Burrow, Chairman and CEO, stated, "We are pleased to report yet another profitable quarter, despite a weak marketplace in both the petrochemical and pipeline arenas. Our business development activity is in high gear, which I believe is a big contributor to our current success. Going forward, we plan to implement an aggressive growth strategy that will complement our current business development efforts." Mr. Burrow further commented, "To illustrate the growth in the engineering side of our business, during the last quarter we opened a new office in Freeport, and relocated our offices in both Lake Charles and Tulsa, all in an effort to better serve our clients in those areas."

ENGlobal has recorded a webcast in conjunction with today's release to allow securities analysts, shareholders, news media and the general public the opportunity to hear management discuss the Company's quarterly results. The replay will be available beginning at 8 a.m. ET today, Thursday, August 14th, 2003. The archived webcast is accessible via the Investor Relations page of ENGlobal's website at www.englobal.com or through www.vcall.com. The event will be archived and available for replay through September 12, 2003. A Form 10-Q reflecting these results has been submitted to the Securities and Exchange Commission. We invite you to visit the Company's website to view the entire Form 10-Q as filed. All of the financial data contained in the webcast is included in the Company's Form 10-Q.
