(Registrant's telephone number, including area code)

INFORMATION TO BE INCLUDED IN THE REPORT

Item 9. Regulation FD Disclosure.

In accordance with General Instruction B.2 of Form 8-K, the information furnished pursuant to this Item 9 shall not be deemed to be "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference into any registration statement or other filing pursuant to the Securities and Exchange Act of 1933, as amended, except as otherwise expressly stated in such filing.

During our earnings conference call on April 22, 2004, we highlighted the following outlook for the second quarter, 2004:

## Edgar Filing: WASTE CONNECTIONS INC/DE - Form 8-K

(Dollar amounts are approximations and in millions)

For the second quarter of the year, we estimate our revenue to be approximately \$158 - \$160, our operating income before depreciation and amortization expense to be approximately \$53.5 - \$54.5 of revenue, our depreciation and amortization expense to be approximately 8.7% of revenue, and SG&A to be around 9.5% of revenue. Additionally, in connection with the redemption of our \$150 million aggregate principal amount, 5.5% Convertible Subordinated Notes due 2006, we expect to recognize an estimated \$1.5 million of pre-tax expense, or \$1.1 million expense, net of taxes, in the second quarter, 2004.

Operating income before depreciation and amortization, a non-GAAP financial measure, is provided supplementally because it is widely used by investors as a valuation and financial performance measure in the solid waste industry. This measure should be used in conjunction with GAAP financial measures. Management uses operating income before depreciation and amortization as one of the principal measures to evaluate and monitor the ongoing financial performance of our operations. Other companies may calculate operating income before depreciation and amortization differently. Refer to the Non-GAAP Reconciliation Schedule contained in our first quarter 2004 press release furnished in our Current Report on Form 8-K filed with the SEC on April 21, 2004, for a reconciliation of this item in the first quarter.

### Safe Harbor for Forward-Looking Statements

Certain statements contained in this Current Report on Form 8-K are forward-looking in nature. These statements can be identified by the use of forward-looking terminology such as "believes", "expects", "may", "will", "should" or "anticipates" or the negative thereof or comparable terminology, or by discussions of strategy. Waste Connections' business and operations are subject to a variety of risks and uncertainties and, consequently, actual results may differ materially from those projected by any forward-looking statements. Factors that could cause actual results to differ from those projected include, but are not limited to, the following: (1) difficulties in making acquisitions, acquiring exclusive contracts and generating internal growth may cause the Company's growth to be slower than expected; (2) the Company's growth and future financial performance depend significantly on its ability to integrate acquired businesses into its organization and operations; (3) the Company's acquisitions may not be successful, resulting in changes in strategy, operating losses or a loss on sale of the business acquired; (4) the Company competes for acquisition candidates with other purchasers, some of which have greater financial resources than it does, and these other purchasers may be able to offer more favorable acquisition terms, thus limiting the Company's ability to grow through acquisition; (5) timing of acquisitions may cause fluctuations in the Company's quarterly results, which may cause its stock price to decline; (6) rapid growth may strain its management, operational, financial and other resources; (7) the Company may be unable to compete effectively with governmental service providers and larger and better capitalized companies, which may result in reduced revenues and lower profits; and (8) the Company may lose contracts through competitive bidding, early termination or governmental action, which would cause its revenues to decline. These risks and uncertainties, as well as others, are discussed in greater detail in the Company's other filings with the Securities and Exchange Commission, including its most recent Annual Report on Form 10-K. There

Edgar Filing: WASTE CONNECTIONS INC/DE - Form 8-K

may be additional risks of which the Company is not presently aware or that it currently believes are immaterial which could have an adverse impact on its business. The Company makes no commitment to revise or update any forward-looking statements in order to reflect events or circumstances after the date any such statement is made.
