News & Information

No. 11-083E
3:00 P.M. JST, July 28, 2011

Consolidated Financial Results
for the First Quarter Ended June 30, 2011

Tokyo, July 28, 2011 -- Sony Corporation today announced its consolidated results for the first quarter ended June 30, 2011 (April 1, 2011 to June 30, 2011).

Consolidated operating income of 27.5 billion yen (340 million U.S. dollars) was recorded in the current quarter, despite year-on-year declines in sales and operating income due mainly to the negative impact of the Great East Japan Earthquake as well as the deterioration of the electronics business environment.

Business operations that had been negatively affected by the Earthquake are recovering faster than anticipated in the May forecast.

Despite lower projected annual LCD television unit sales compared to the May forecast and further unfavorable foreign exchange rates anticipated for the remainder of the fiscal year contributing to a lower consolidated sales forecast, the consolidated operating income forecast for the current fiscal year remains unchanged because the performance of most businesses is anticipated to exceed the May forecast.

(Billions of yen, millions of U.S. dollars, except per share amounts)

	2010		2011		Change in yen		First quarter ended June 30		
							2011	*	
Sales and operating revenue	¥	1,661.0	¥	1,494.9	-10.0	%	\$ 18,456

- Diluted		25.61		(15.45)	-		(0.19)		

Unless otherwise specified, all amounts are presented on the basis of Generally Accepted Accounting Principles in the U.S. ("U.S. GAAP").

Supplemental Information

In addition to operating income, Sony's management also evaluates Sony's performance using non-U.S. GAAP adjusted operating income. Operating income, as adjusted, which excludes equity in net income (loss) of affiliated companies and restructuring charges, net, is not a presentation in accordance with U.S. GAAP, and is presented to enhance investors' understanding of Sony's operating income by providing an alternative measure that may be useful to

Edgar Filing: SONY CORP - Form 6-K

understand Sony's historical and prospective operating performance.

(Billions of yen, millions of U.S. dollars)

First quarter ended June 30

	2010	2011	Change in yen	2011	*
Operating income	¥67.0	¥27.5	-59.0	% \$340	
Less: Equity in net income (loss) of affiliated companies	6.7	(4.8)	-	(60)	
Add: Restructuring charges, net, recorded within operating expenses**	7.2	1.8	-74.9	22	
Operating income, as adjusted	¥67.5	¥34.1	-49.4	% \$422	

Sony's management uses this measure to review operating trends, perform analytical comparisons and assess whether its structural transformation initiatives are achieving their objectives. This supplemental non-U.S. GAAP measure should be considered in addition to, not as a substitute for, Sony's operating income in accordance with U.S. GAAP.

* U.S. dollar amounts have been translated from yen, for convenience only, at the rate of 81 yen=1 U.S. dollar, the approximate Tokyo foreign exchange market rate as of June 30, 2011.

** Sony is undertaking structural transformation initiatives to enhance profitability through implementation of various cost reduction programs as well as adoption of horizontal platforms. Restructuring charges are recorded, depending on the nature of the individual items, in cost of sales, selling, general and administrative expenses as well as (gain) loss on sale, disposal or impairment of assets and other, net, in the consolidated statement of income.

Sony realigned its reportable segments from the first quarter of the fiscal year ending March 31, 2012, to reflect modifications to the organizational structure as of April 1, 2011, primarily repositioning the operations of the previously reported Consumer, Professional & Devices ("CPD") and Networked Products & Services ("NPS") segments. In connection with this realignment, the operations of the former CPD and NPS segments are included in two newly established segments, namely the Consumer Products & Services ("CPS") segment and the Professional, Device & Solutions ("PDS") segment. The CPS segment includes televisions, home audio and video, digital imaging, personal and mobile products, and the game business. The equity results of S-LCD Corporation ("S-LCD") are also included within the CPS segment. The PDS segment includes professional solutions, semiconductors and components. For further details of new segments and categories, see page F-6.

The Pictures, Music and Financial Services segments remain unchanged. The equity earnings from Sony Ericsson Mobile Communications AB ("Sony Ericsson") continue to be presented as a separate segment.

In connection with this realignment, both the sales and operating revenue ("sales") and operating income (loss) of each segment in the first quarter ended June 30 of the previous fiscal year have been revised to conform to the current quarter's presentation.

Consolidated Results for the First Quarter Ended June 30, 2011

Sales were 1,494.9 billion yen (18,456 million U.S. dollars), a decrease of 10.0% compared to the same quarter of the previous fiscal year ("year-on-year") primarily due to decreases in sales in the CPS and PDS segments, which were mainly affected by the negative impact of the Great East Japan Earthquake (the "Earthquake") as well as the deterioration of the electronics business environment, and unfavorable exchange rates.

During the quarter ended June 30, 2011, the average rates of the yen were 80.7 yen against the U.S. dollar and 115.9 yen against the euro, which was 12.7% higher and 0.4% lower, respectively, than the previous fiscal year's first quarter. On a local currency basis, sales decreased 5% year-on-year. For references to sales on a local currency basis, see Note on page 8.

Operating income decreased 39.5 billion yen year-on-year to 27.5 billion yen (340 million U.S. dollars). This was mainly due to lower operating income in the CPS and PDS segments primarily resulting from a decrease in gross profit from lower sales and a deterioration in the cost of sales ratio.

Restructuring charges, net, decreased 5.4 billion yen year-on-year to 1.8 billion yen (22 million U.S. dollars). The CPS segment restructuring charges were 2.4 billion yen (30 million U.S. dollars) in the current quarter, compared with 1.6 billion yen recorded in the same quarter of the previous fiscal year. In the PDS segment, a credit to restructuring charges of 1.7 billion yen (21 million U.S. dollars) was recorded in the current quarter compared with the 2.6 billion yen restructuring charges recorded in the same quarter of the previous fiscal year. This was mainly due to a recording of a 2.5 billion yen (30 million U.S. dollars) gain on a sale of assets associated with the restructuring initiatives.

Excluding equity in net income (loss) of affiliated companies and restructuring charges, net, operating income on an as adjusted basis decreased by 33.4 billion yen year-on-year to 34.1 billion yen (422 million U.S. dollars).

Equity in net loss of affiliated companies, recorded within operating income, was 4.8 billion yen (60 million U.S. dollars) as compared to net income of 6.7 billion yen in the same quarter of the previous fiscal year. Sony recorded equity in net loss for Sony Ericsson of 3.1 billion yen (38 million U.S. dollars) compared to equity in net income of 0.6 billion yen in the same quarter of the previous fiscal year. Equity in net loss for S-LCD was 1.6 billion yen (20 million U.S. dollars) as compared to net income of 4.5 billion yen in the same quarter of the previous fiscal year.

During the current quarter, Sony incurred charges of approximately 5.3 billion yen (66 million U.S. dollars), consisting principally of incremental expenses, including restoration costs (e.g., repair, removal and cleaning costs) of certain fixed assets including buildings, machinery and equipment as well as inventories at manufacturing sites and warehouses damaged by the Earthquake, in addition to idle facility costs at manufacturing sites. Approximately 1.3 billion yen (16 million U.S. dollars) of these charges has been offset by insurance claims that are deemed probable. Most of the remaining charges of approximately 4.0 billion yen (50 million U.S. dollars) have been offset by a partial reversal of an incremental provision for insurance policy reserves previously recorded due to the Earthquake in the Financial Services segment. As a result, Sony recorded net charges of approximately 0.7 billion yen (8 million U.S. dollars) in the current quarter.

Sales and operating income of both the CPS and PDS segments for the current quarter were negatively affected by the Earthquake, resulting from issues in certain product categories such as constraints in the supply chain and lower production capacity due to damaged manufacturing equipment. However, an improvement in status of such issues is progressing faster than the expectation that was included in the forecast for consolidated results for the fiscal year ending March 31, 2012, which was announced on May 26, 2011.

Due to the cyber attacks on Sony's network services for PlayStation®Network, Qriocity™ and Sony Online Entertainment, the network services were temporarily shut down and related expenses such as security enhancement measures were recorded in the current quarter. The network services that were shut down in April 2011 were restored in phases beginning in May, culminating in a full restoration on July 6 in all countries and regions where Sony provides the network services. Most recently, user logins to PlayStation®Network in North America have returned to a similar level as before the cyber attacks.

The net effect of other income and expenses was an expense of 4.4 billion yen (54 million U.S. dollars), compared to income of 11.9 billion yen in the same quarter of the previous fiscal year, primarily due to the recording of a net foreign exchange loss as compared to a net foreign exchange gain in the previous fiscal year.

Income before income taxes decreased 55.8 billion yen year-on-year to 23.1 billion yen (285 million U.S. dollars).

Income taxes: During the current quarter, Sony recorded 27.5 billion yen (340 million U.S. dollars) of income tax expense resulting in an effective tax rate of 119.1%. The effective tax rate for the current quarter was higher than the Japanese statutory tax rate primarily due to the recording of a valuation allowance on deferred tax assets resulting principally from losses incurred during the current quarter at Sony Corporation and its national tax filing group in Japan. As a result, no tax benefits associated with the losses were recognized.

Net loss attributable to Sony Corporation's stockholders, which excludes net income attributable to noncontrolling interests, was 15.5 billion yen (191 million U.S. dollars) as compared to net income of 25.7 billion yen in the same quarter of the previous fiscal year.

Operating Performance Highlights by Business Segment

“Sales and operating revenue” in each business segment represents sales and operating revenue recorded before intersegment transactions are eliminated. “Operating income (loss)” in each business segment represents operating income (loss) reported before intersegment transactions are eliminated and excludes unallocated corporate expenses.

Consumer Products & Services

	(Billions of yen, millions of U.S. dollars)			
	First quarter ended June 30			2011
	2010	2011	Change in yen	
Sales and operating revenue	¥891.6	¥732.3	-17.9	\$9,040
Operating income	28.5	1.7	-94.1	21

Unless otherwise specified, all amounts are on a U.S. GAAP basis.

Sales decreased 17.9% year-on-year (a 13% decrease on a local currency basis) to 732.3 billion yen (9,040 million U.S. dollars). Sales to outside customers decreased 18.1% year-on-year. This was primarily due to a decrease in LCD television revenue reflecting price declines resulting mainly from a deterioration in market conditions in the U.S. and Europe, and lower PC revenue reflecting price competition. LCD television sales in Japan increased primarily due to enhanced demand resulting from the transition from analog to digital television broadcasting in Japan which was implemented in July 2011.

Operating income decreased 26.9 billion yen year-on-year to 1.7 billion yen (21 million U.S. dollars). This was driven primarily by a decrease in gross profit due to lower sales and deterioration in the cost of sales ratio. These factors were partially offset by a decrease in selling, general and administrative expenses. Categories contributing to the deterioration in operating results (excluding restructuring charges) include LCD television, reflecting the price declines mentioned above, and video cameras, reflecting a decrease in unit sales due to market contraction.

Professional, Device & Solutions

	(Billions of yen, millions of U.S. dollars)			
	First quarter ended June 30			2011
	2010	2011	Change in yen	
Sales and operating revenue	¥370.7	¥309.7	-16.5	\$3,823
Operating income	17.8	2.3	-86.8	29

Unless otherwise specified, all amounts are on a U.S. GAAP basis.

Sales decreased 16.5% year-on-year (an 11% decrease on a local currency basis) to 309.7 billion yen (3,823 million U.S. dollars). Sales to outside customers decreased 16.7% year-on-year. This was mainly due to a decrease in component sales, primarily of batteries resulting from lower production capacity in the current quarter due to damage to manufacturing equipment as a result of the Earthquake, and of storage media which was also affected by damaged manufacturing equipment as well as market contraction.

Operating income decreased 15.4 billion yen year-on-year to 2.3 billion yen (29 million U.S. dollars). This was primarily due to a decrease in gross profit associated with the lower sales and a deterioration in the cost of sales ratio, partially offset by a decrease in selling, general and administrative expenses. The category that most unfavorably impacted the change in segment operating results (excluding restructuring charges) was components, reflecting the above-mentioned decrease in sales.

* * * * *

Total inventory for the CPS and PDS segments, as of June 30, 2011, was 719.4 billion yen (8,881 million U.S. dollars), an increase of 62.2 billion yen, or 9.5% year-on-year. Inventory increased by 111.4 billion yen, or 18.3% compared with the level as of March 31, 2011.

Pictures

	(Billions of yen, millions of U.S. dollars)			
	First quarter ended June 30			
	2010	2011	Change in yen	2011
Sales and operating revenue	¥132.1	¥144.4	+9.3	% \$1,783
Operating income	2.9	4.3	+50.4	53

Unless otherwise specified, all amounts are reported on a U.S. GAAP basis. The results presented above are a yen-translation of the results of Sony Pictures Entertainment (“SPE”), a U.S.-based operation that aggregates the results of its worldwide subsidiaries on a U.S. dollar basis. Management analyzes the results of SPE in U.S. dollars, so discussion of certain portions of its results is specified as being on “a U.S. dollar basis.”

Sales increased 9.3% year-on-year (a 23% increase on a U.S. dollar basis) to 144.4 billion yen (1,783 million U.S. dollars). The current quarter benefitted from an increase in motion picture revenues primarily due to higher home entertainment revenues from the previous fiscal year’s film slate, including the home entertainment releases of *The Green Hornet*, *Battle: Los Angeles* and *Just Go With It*. Partially offsetting this increase was a decrease in theatrical revenues as the first quarter of the previous fiscal year benefitted from the strong theatrical release of *The Karate Kid*. The current quarter also benefitted from significantly higher advertising revenues from SPE’s television network in India and revenues recognized from the consolidation of the Game Show Network, LLC, which was accounted for under the equity method in the first quarter of the previous fiscal year.

Operating income increased by 1.4 billion yen year-on-year to 4.3 billion yen (53 million U.S. dollars). This increase was primarily due to the higher advertising revenues from SPE’s television network in India mentioned above, as well as the recognition of a 2.2 billion yen (27 million U.S. dollars) gain on the sale of SPE’s equity interest in a television production company based in the U.K. This increase was partially offset by higher marketing expenses incurred for upcoming theatrical releases due to the greater number of major theatrical releases in July of the current fiscal year as compared to the previous fiscal year.

Music

	(Billions of yen, millions of U.S. dollars)			
	First quarter ended June 30			
	2010	2011	Change in yen	2011
Sales and operating revenue	¥110.3	¥109.6	-0.6	% \$1,353
Operating income	7.5	12.1	+61.4	149

Unless otherwise specified, all amounts are reported on a U.S. GAAP basis. The results presented above include the yen-translated results of Sony Music Entertainment, a U.S.-based operation which aggregates the results of its worldwide subsidiaries on a U.S. dollar basis, the results of Sony Music Entertainment (Japan) Inc., a Japan-based music company which aggregates its results in yen, and the yen-translated consolidated results of Sony/ATV Music Publishing LLC, a 50% owned U.S.-based joint venture in the music publishing business which aggregates the results of its worldwide subsidiaries on a U.S. dollar basis.

Sales decreased 0.6% year-on-year (a 7% increase on a local currency basis) to 109.6 billion yen (1,353 million U.S. dollars) due to the appreciation of the yen against the U.S. dollar. On a local currency basis, sales increased

Edgar Filing: SONY CORP - Form 6-K

year-on-year reflecting the strong sales of a number of key releases. Best selling titles during the quarter included Adele's 21, Beyonce's 4, Foo Fighters' Wasting Light and music from the cast of the hit television show Glee.

Operating income increased 4.6 billion yen year-on-year to 12.1 billion yen (149 million U.S. dollars) primarily due to the above mentioned strong performance of key releases and, to a lesser degree, a favorable legal settlement concerning copyright infringement.

Financial Services

	(Billions of yen, millions of U.S. dollars)			
	First quarter ended June 30		Change in	
	2010	2011	yen	2011
Financial services revenue	¥169.0	¥201.6	+19.3	% \$2,489
Operating income	30.0	28.7	-4.3	354

In Sony's Financial Services segment, the results include Sony Financial Holdings Inc. ("SFH") and SFH's consolidated subsidiaries such as Sony Life Insurance Co., Ltd. ("Sony Life"), Sony Assurance Inc. and Sony Bank Inc. ("Sony Bank"), as well as the results for Sony Finance International Inc. ("SFI"). Unless otherwise specified, all amounts are reported on a U.S. GAAP basis. Therefore, the results of Sony Life discussed below differ from the results that SFH and Sony Life disclose separately on a Japanese statutory basis.

Financial services revenue increased 19.3% year-on-year to 201.6 billion yen (2,489 million U.S. dollars) mainly due to an increase in revenue at Sony Life. Revenue at Sony Life increased 29.5% year-on-year to 179.9 billion yen (2,221 million U.S. dollars) primarily due to an improvement in investment performance in the separate account, and an increase in revenue from insurance premiums, reflecting higher policy amount in force.

Investment performance in the separate account improved mainly as a result of the relatively stable situation in the Japanese stock market, as compared with a significant decline in the same quarter of the previous fiscal year. This increase at Sony Life was partially offset by a decrease in revenue at SFI, mainly as a result of the deconsolidation of its lease and rental business.

Operating income decreased by 1.3 billion yen year-on-year to 28.7 billion yen (354 million U.S. dollars) due to a decrease in operating income at Sony Bank, mainly as a result of a decrease in foreign exchange net gains on foreign-currency denominated customer deposits. Operating income at Sony Life was 29.2 billion yen (360 million U.S. dollars), a 1.7 billion yen increase year-on-year. This increase was primarily due to a decrease in the amortization of deferred acquisition costs of variable life insurance products and the partial reversal of an incremental provision for insurance policy reserves previously recorded due to the Earthquake. The increase was partially offset by a decline in net gains on sales of securities in the general account.

Sony Ericsson

The following operating results for Sony Ericsson, which is accounted for by the equity method as Sony Corporation's ownership percentage is 50%, are not consolidated in Sony's consolidated financial statements. However, Sony believes that this disclosure provides additional useful analytical information to investors regarding Sony's operating performance.

	(Millions of euros)		
	Quarter ended June 30		Change in euros
	2010	2011	
Sales and operating revenue	€1,757	€1,193	-32.1 %
Income (loss) before taxes	25	(43)	-
Net income (loss)	7	(51)	-

Unless otherwise specified, all amounts are on a U.S. GAAP basis.

Edgar Filing: SONY CORP - Form 6-K

Sales for the quarter ended June 30, 2011 decreased 32.1% year-on-year to 1,193 million euros. This was due to a decrease in volume caused by a constrained supply of critical components as a result of the Earthquake and a decline in the number of feature phones shipped as a result of a focus on smartphones. Loss before taxes of 43 million euros was recorded for the current quarter, compared to an income before taxes of 25 million euros in the same quarter of the previous fiscal year, primarily due to the lower volume mentioned above.

As a result, Sony recorded equity in net loss of Sony Ericsson of 3.1 billion yen (38 million U.S. dollars) for the current quarter, compared to equity in net income of 0.6 billion yen in the same quarter of the previous fiscal year.

Cash Flows

For Consolidated Statements of Cash Flows, charts showing Sony's cash flow information for all segments, all segments excluding the Financial Services segment and the Financial Services segment alone, please refer to pages F-4 and F-10 respectively.

Operating Activities: During the current quarter, there was a net cash outflow of 39.9 billion yen (493 million U.S. dollars) from operating activities, an increase of 33.0 billion yen, or 482.5% year-on-year.

For all segments excluding the Financial Services segment, there was a net cash outflow of 115.2 billion yen (1,423 million U.S. dollars) for the current quarter, an increase of 4.9 billion yen, or 4.5% year-on-year. Compared with the same quarter of the previous fiscal year, the net cash outflow increased mainly due to a decrease in cash contribution from net income after taking into account depreciation and amortization and a decrease in notes and accounts payable, trade, during the current quarter compared to an increase in the previous year. This was partially offset by smaller increases both in receivables, included in other current assets, from third-party original equipment and design manufacturers, and in inventories in the current quarter.

The Financial Services segment had a net cash inflow of 84.0 billion yen (1,037 million U.S. dollars), a decrease of 25.7 billion yen, or 23.4% year-on-year. Compared with the same quarter of the previous fiscal year, net cash inflow decreased primarily due to a decrease in cash contribution from net income after taking into account amortization of deferred insurance acquisition costs and (gain) loss on revaluation of marketable securities, partially offset by revenue contribution from insurance premiums resulting from a steady increase in policy amount in force at Sony Life.

Investing Activities: During the current quarter, Sony used 148.1 billion yen (1,829 million U.S. dollars) of net cash in investing activities, a decrease of 33.7 billion yen, or 18.5% year-on-year.

For all segments excluding the Financial Services segment, 35.5 billion yen (438 million U.S. dollars) was used, a decrease of 10.0 billion yen, or 22.1% year-on-year. The net cash used decreased year-on-year primarily due to proceeds received from S-LCD during the current quarter representing a return of investment.

The Financial Services segment used 117.2 billion yen (1,446 million U.S. dollars) of net cash, an increase of 1.9 billion yen, or 1.7% year-on-year. The net cash used within the Financial Services segment increased year-on-year primarily due to a decrease in proceeds from sales or return of investments and collection of advances, partially offset by a smaller increase in payments for investments and advances at Sony Life in the current quarter.

In all segments excluding the Financial Services segment, net cash used in operating and investing activities combined* for the current quarter was 150.7 billion yen (1,861 million U.S. dollars), a decrease of 5.1 billion yen, or 3.3% year-on-year.

Financing Activities: During the current quarter, 9.1 billion yen (112 million U.S. dollars) of net cash was provided by financing activities, a decrease of 17.2 billion yen, or 65.5% year-on-year. For all segments excluding the Financial Services segment, there was an 18.1 billion yen (223 million U.S. dollars) net cash outflow, an increase of 4.6 billion yen, or 34.6% year-on-year. This was primarily because the amount of repayment of bank borrowings increased more than the increase in the amount of short-term borrowings in the current quarter. In the Financial Services segment, financing activities generated 22.9 billion yen (283 million U.S. dollars) of net cash, an increase of 10.6 billion yen, or 86.7% year-on-year, primarily due to a greater increase in deposits from customers at Sony Bank.

Total Cash and Cash Equivalents: Accounting for the above factors and the effect of fluctuations in exchange rates, the total outstanding balance of cash and cash equivalents at June 30, 2011 was 816.6 billion yen (10,081 million U.S.

dollars). Cash and cash equivalents of all segments excluding the Financial Services segment was 659.8 billion yen (8,145 million U.S. dollars) at June 30, 2011, a decrease of 187.6 billion yen, or 22.1%, compared with the balance as of March 31, 2011. This was a decrease of 121.3 billion yen, or 15.5%, compared with the balance as of June 30, 2010. Sony believes it continues to maintain sufficient liquidity through access to a total, translated into yen, of 747.1 billion yen (9,223 million U.S. dollars) of unused committed lines of credit with financial institutions in addition to the cash and cash equivalents balance at June 30, 2011. Within the Financial Services segment, the outstanding balance of cash and cash equivalents was 156.8 billion yen (1,936 million U.S. dollars) at June 30, 2011, a decrease of 10.2 billion yen, or 6.1%, compared with the balance as of March 31, 2011. This was a decrease of 56.8 billion yen, or 26.6%, compared with the balance as of June 30, 2010.

* Sony has included the information for cash flow from operating and investing activities combined excluding the Financial Services segment's activities, as Sony's management frequently monitors this financial measure, and believes this non-U.S. GAAP measurement is important for use in evaluating Sony's ability to generate cash to maintain liquidity and fund debt principal and dividend payments from business activities other than its Financial Services segment. This information is derived from the reconciliations prepared in the Condensed Statements of Cash Flows on page F-10. This information and the separate condensed presentations shown below are not required or prepared in accordance with U.S. GAAP. The Financial Services segment's cash flow is excluded from the measure because SFH, which constitutes a majority of the Financial Services segment, is a separate publicly traded entity in Japan with a significant minority interest and it, as well as its subsidiaries, secure liquidity on their own. This measure may not be comparable to those of other companies. This measure has limitations because it does not represent residual cash flows available for discretionary expenditures principally due to the fact that the measure does not deduct the principal payments required for debt service. Therefore, Sony believes it is important to view this measure as supplemental to its entire statement of cash flows and together with Sony's disclosures regarding investments, available credit facilities and overall liquidity.

A reconciliation of the differences between the Consolidated Statement of Cash Flows reported and cash flows from operating and investing activities combined excluding the Financial Services segment's activities is as follows:

	(Billions of yen, millions of U.S. dollars)		
	First quarter ended June 30		
	2010	2011	2011
Net cash used in operating activities reported in the consolidated statements of cash flows	¥ (6.8)	¥ (39.9)	\$ (493)
Net cash used in investing activities reported in the consolidated statements of cash flows	(181.8)	(148.1)	(1,829)
	(188.6)	(188.0)	(2,322)
Less: Net cash provided by operating activities within the Financial Services segment	109.8	84.0	1,037
Less: Net cash used in investing activities within the Financial Services segment	(115.2)	(117.2)	(1,446)
Eliminations **	27.4	4.1	52
Cash flow used in operating and investing activities combined excluding the Financial Services segment's activities	¥ (155.8)	¥ (150.7)	\$ (1,861)

** Eliminations primarily consist of intersegment loans and dividend payments. Intersegment loans are between Sony Corporation and SFI, an entity included within the Financial Services segment.

Note

Sales on a local currency basis described herein reflect sales obtained by applying the yen's monthly average exchange rate in the same quarter of the previous fiscal year to local currency-denominated monthly sales in the current quarter. Sales on a local currency basis are not reflected in Sony's consolidated financial statements and are not measures in accordance with U.S. GAAP. Sony does not believe that these measures are a substitute for U.S. GAAP measures. However, Sony believes that disclosing sales information on a local currency basis provides additional useful analytical information to investors regarding the operating performance of Sony.

Outlook for the Fiscal Year ending March 31, 2012

The forecast for consolidated results for the fiscal year ending March 31, 2012, as announced on May 26, 2011, has been revised as per the table below. While the forecast for operating income and income before income taxes remains unchanged, the forecast for sales and net income attributable to Sony Corporation's stockholders has been revised downward.

	(Billions of yen)					
	July	Change from May		May	Change from March 31, 2011	March 31, 2011
	Forecast	Forecast	%	Forecast	Actual Results	Actual Results
Sales and operating revenue	¥7,200	-4.0	%	¥7,500	+0.3	% ¥7,181.3
Operating income	200	-		200	+0.1	199.8
Income before income taxes	180	-		180	-12.2	205.0
Net income (loss) attributable to Sony Corporation's stockholders	60	-25.0		80	-	(259.6)

Assumed foreign currency exchange rates for the remainder of the fiscal year ending March 31, 2012: approximately 80 yen to the U.S. dollar and approximately 115 yen to the euro. (Assumed foreign exchange rates for the current fiscal year at the time of the May forecast: approximately 83 yen to the U.S. dollar and approximately 115 yen to the euro.)

Supplemental Information

In addition to operating income, Sony's management also evaluates Sony's performance using non-U.S. GAAP adjusted operating income. Operating income, as adjusted, which excludes equity in net income of affiliated companies and restructuring charges, net, is not a presentation in accordance with U.S. GAAP, and is presented to enhance investors' understanding of Sony's operating income by providing an alternative measure that may be useful to understand Sony's historical and prospective operating performance.

	(Billions of yen)			
	July	Change from March 31, 2011		March 31, 2011
	Forecast	Actual Results	%	Actual Results
Operating income	¥200	+0.1	%	¥199.8
Less: Equity in net income of affiliated companies	15	+6.7		14.1
Add: Restructuring charges, net, recorded within operating expenses	25	-62.7		67.1
Operating income, as adjusted	¥210	-16.9	%	¥252.8

Sony's management uses this measure to review operating trends, perform analytical comparisons and assess whether its structural transformation initiatives are achieving their objectives. This supplemental non-U.S. GAAP measure should be considered in addition to, not as a substitute for, Sony's operating income in accordance with U.S. GAAP.

Sony has revised its consolidated sales forecast downward for the fiscal year by 300.0 billion yen. This is due to a lower unit sales forecast for LCD televisions for the full fiscal year compared to the May forecast, as well as an updated foreign exchange assumption, namely the further appreciation of the yen against the U.S. dollar for the remainder of the fiscal year.

The current year's forecast for equity in net income of affiliated companies and restructuring charges, net, remains unchanged from that announced on May 26, 2011.

Sony's forecast for consolidated operating income for the fiscal year remains unchanged. Notable changes to the fiscal year operating income forecast for each major segment are as follows:

– Anticipated operating results of the CPS segment for the fiscal year were revised downward significantly compared to the May forecast. Although operating results for the first quarter ended June 30, 2011 exceeded expectations, the television business, in which LCD TV unit sales for the fiscal year are anticipated to be below expectations, is expected to have a negative impact on overall segment operating results. As a result, Sony is viewing more cautiously the CPS segment operating results for the fiscal year, as compared to the May forecast. The positive impact of a faster than anticipated recovery in business operations that had been negatively affected by the Earthquake is expected to partially offset the deterioration of the segment's operating results. In the May forecast, the CPS segment operating income for the current fiscal year was expected to increase compared to that of the previous fiscal year. For references to the segment information of the previous fiscal year revised to conform to the current year's presentation under the business segment realignment, see Supplemental Business Segment Information on page 11.

- Anticipated operating results of the PDS segment for the fiscal year were revised upward compared to the May forecast, due to reasons including the positive impact of faster than expected progress in reducing costs and of a faster than anticipated recovery in business operations that had been negatively affected by the Earthquake. In the May forecast, the PDS segment operating income was expected to be lower than that of the previous fiscal year. For references to the revised segment information of the previous fiscal year, see Supplemental Business Segment Information on page 11.
- In the Music segment, operating results for the fiscal year are expected to exceed the May forecast.
- In the Pictures and Financial Services segments, operating results for the fiscal year are expected to moderately exceed the May forecast.

In addition, net income attributable to Sony Corporation's stockholders has been revised downward primarily due to a higher than originally forecasted effective income tax rate, resulting from the latest estimated annual income tax expense which reflects both the operating results for the first quarter ended June 30, 2011 and the forecast for the remainder of the fiscal year.

The current year's forecast for capital expenditures, depreciation and amortization, and research and development expenses remains unchanged from that announced on May 26, 2011.

		(Billions of yen)	
		Change from	
		March 31, 2011	March 31, 2011
	July Forecast	Actual Results	Actual Results
Capital expenditures (additions to Property, Plant and Equipment)*	¥330	+61.1	% ¥204.9
Depreciation and amortization **	340	+4.5	325.4
[for Property, Plant and Equipment (included above)]	230	+7.8	213.4]
Research and development expenses	460	+7.8	426.8

*Investments in equity affiliates are not included within capital expenditures.

**Depreciation and amortization includes amortization of intangible assets and amortization of deferred insurance acquisition costs.

This forecast is based on management's current expectations and is subject to uncertainties and changes in circumstances. Actual results may differ materially from those included in this forecast due to a variety of factors. See "Cautionary Statement" below.

As is Sony's policy, the effects of gains and losses on investments held by Sony Life, due to market fluctuations since July 1, 2011, have not been incorporated within the above forecast as Sony cannot predict where the financial markets will be through the end of the current fiscal year. Accordingly, these market fluctuations could further impact the current forecast.

Supplemental Business Segment Information

The business segment information for the fiscal year ended March 31, 2011 has been revised as stated in the table below, in order to conform to the new business segment classification as of April 1, 2011.

	(Billions of yen)	
	Fiscal year ended March 31, 2011	
	Sales and operating revenue	Operating income (loss)
Consumer Products & Services	¥ 3,849.8	¥ 10.8
Professional, Device & Solutions	1,503.3	27.7
Pictures	600.0	38.7
Music	470.7	38.9
Financial Services	806.5	118.8
Equity in net income of Sony Ericsson	-	4.2
All Other	447.8	7.1
Corporate and elimination	(496.9)	(46.3)
Consolidated total	¥ 7,181.3	¥ 199.8

"Sales and operating revenue" in each business segment represents sales and operating revenue recorded before intersegment transactions are eliminated. "Operating income (loss)" in each business segment represents operating income (loss) reported before intersegment transactions are eliminated and excludes unallocated corporate expenses.

As the segments have been revised, so has the category sales and operating revenue (to outside customers) for the fiscal year ended March 31, 2011, as detailed in the table below.

	(Billions of yen)
	Fiscal year ended March 31, 2011

Cautionary Statement

Statements made in this release with respect to Sony's current plans, estimates, strategies and beliefs and other statements that are not historical facts are forward-looking statements about the future performance of Sony. Forward-looking statements include, but are not limited to, those statements using words such as "believe," "expect," "plans," "strategy," "prospects," "forecast," "estimate," "project," "anticipate," "aim," "intend," "seek," "may," "might," "should," and words of similar meaning in connection with a discussion of future operations, financial performance, events or conditions. From time to time, oral or written forward-looking statements may also be included in other materials released to the public. These statements are based on management's assumptions, judgments and beliefs in light of the information currently available to it. Sony cautions you that a number of important risks and uncertainties could cause actual results to differ materially from those discussed in the forward-looking statements, and therefore you should not place undue reliance on them. You also should not rely on any obligation of Sony to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Sony disclaims any such obligation. Risks and uncertainties that might affect Sony include, but are not limited to (i) the global economic environment in which Sony operates and the economic conditions in Sony's markets, particularly levels of consumer spending; (ii) exchange rates, particularly between the yen and the U.S. dollar, the euro and other currencies in which Sony makes significant sales and incurs production costs, or in which Sony's assets and liabilities are denominated; (iii) Sony's ability to continue to design and develop and win acceptance of, as well as achieve sufficient cost reductions for, its products and services, including LCD televisions and game platforms, which are offered in highly competitive markets characterized by continual new product and service introductions, rapid development in technology and subjective and changing consumer preferences; (iv) Sony's ability and timing to recoup large-scale investments required for technology development and production capacity; (v) Sony's ability to implement successful business restructuring and transformation efforts under changing market conditions; (vi) Sony's ability to implement successful hardware, software, and content integration strategies for all segments excluding the Financial Services segment, and to develop and implement successful sales and distribution strategies in light of the Internet and other technological developments; (vii) Sony's continued ability to devote sufficient resources to research and development and, with respect to capital expenditures, to prioritize investments correctly (particularly in the Consumer Products & Services and the Professional, Device & Solutions segments); (viii) Sony's ability to maintain product quality; (ix) the effectiveness of Sony's strategies and their execution, including but not limited to the success of Sony's acquisitions, joint ventures and other strategic investments; (x) Sony's ability to forecast demands, manage timely procurement and control inventories; (xi) the outcome of pending legal and/or regulatory proceedings; (xii) shifts in customer demand for financial services such as life insurance and Sony's ability to conduct successful asset liability management in the Financial Services segment; (xiii) the impact of unfavorable conditions or developments (including market fluctuations or volatility) in the Japanese equity markets on the revenue and operating income of the Financial Services segment; and (xiv) risks related to catastrophic disasters or similar events, including the Great East Japan Earthquake and its aftermath. Risks and uncertainties also include the impact of any future events with material adverse impacts.

The above table includes a breakdown of CPS segment and PDS segment sales and operating revenue to customers which is shown in the Business Segment Information on page F-5. Sony management views the CPS segment and the PDS segment as single operating segments. However, Sony believes that the breakdown of CPS segment and PDS segment sales and operating revenue to customers in this table is useful to investors in understanding sales by the product category in these business segments. Additionally, Sony has partially realigned its product category configuration from the first quarter of the fiscal year ending March 31, 2012. In connection with the realignment, all prior period sales amounts by product category in the table above have been restated to conform to the current presentation.

In the CPS segment, Televisions includes LCD televisions; Home Audio and Video includes home audio, Blu-ray disc players and recorders; Digital Imaging includes compact digital cameras, video cameras and interchangeable single lens cameras; Personal and Mobile Products includes personal computers and memory-based portable audio devices; and Game includes game consoles, software and online services.

In the PDS segment, Professional Solutions includes broadcast- and professional-use products; Semiconductors includes image sensors and small- and medium-sized LCD panels; and Components includes batteries, recording media and data recording systems.

Geographic Information

(Millions of yen, millions of U.S. dollars)
Three months ended June 30

Sales and operating revenue (to external customers)	2010	2011	Change	2011
Japan	¥ 456,097	¥ 486,013	+6.6 %	\$ 6,000
United States	360,039	274,398	-23.8	3,388
Europe	330,632	266,842	-19.3	3,294
China	143,453	114,166	-20.4	1,409
Asia-Pacific	188,998	176,045	-6.9	2,173
Other Areas	181,830	177,457	-2.4	2,192
Total	¥ 1,661,049	¥ 1,494,921	-10.0 %	\$ 18,456

The 2010 geographic information in the table above has been restated to reflect the change in geographic classification.

Classification of Geographic Information shows sales and operating revenue recognized by location of customers.

Major areas in each geographic segment excluding Japan, United States and China are as follows:

- (1) Europe: United Kingdom, France, Germany, Russia and Spain
- (2) Asia-Pacific: India, South Korea and Oceania
- (3) Other Areas: The Middle East/Africa, Brazil, Mexico and Canada

Condensed Financial Services Financial Statements

The results of the Financial Services segment are included in Sony's consolidated financial statements. The following schedules show unaudited condensed financial statements for the Financial Services segment and all other segments excluding Financial Services. These presentations are not in accordance with U.S. GAAP, which is used by Sony to prepare its consolidated financial statements. However, because the Financial Services segment is different in nature from Sony's other segments, Sony believes that a comparative presentation may be useful in understanding and analyzing Sony's consolidated financial statements. Transactions between the Financial Services segment and Sony without the Financial Services segment, including noncontrolling interests, are included in those respective presentations, then eliminated in the consolidated figures shown below.

Cash and cash equivalents at end of the period	¥994,627	¥816,588	\$10,081

(Notes)

1. U.S. dollar amounts have been translated from yen, for convenience only, at the rate of ¥81 = U.S. \$1, the approximate Tokyo foreign exchange market rate as of June 30, 2011.
2. As of June 30, 2011, Sony had 1,275 consolidated subsidiaries (including variable interest entities) and 80 affiliated companies accounted for under the equity method.
3. The weighted-average number of outstanding shares used for the computation of earnings per share of common stock are as follows:

Weighted-average number of outstanding shares	(Thousands of shares)	
	Three months ended June 30	
Net income(loss) attributable to Sony Corporation's stockholders	2010	2011
— Basic	1,003,538	1,003,572
— Diluted	1,005,110	1,003,572

The dilutive effect in the weighted-average number of outstanding shares mainly resulted from convertible bonds. All potential shares were excluded as anti-dilutive for the three months ended June 30, 2011 due to Sony incurring a net loss attributable to Sony Corporation's stockholders for the period.

4. Recently adopted accounting pronouncements:

Goodwill impairment testing for reporting units with zero or negative carrying amounts -

In December 2010, the Financial Accounting Standards Board ("FASB") issued new accounting guidance that modifies the first step of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform the second step of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. The qualitative factors are consistent with existing authoritative guidance, which requires that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. This guidance is effective for Sony as of April 1, 2011. The adoption of this guidance did not have a material impact on Sony's results of operations and financial position.

Disclosure of supplementary pro forma information for business combinations -

In December 2010, the FASB issued new accounting guidance addressing when a business combination should be assumed to have occurred for the purpose of providing pro forma disclosure. The new guidance requires disclosure of revenue and income of the combined entity as though the business combination occurred as of the beginning of the comparable prior reporting period. The guidance also expands the supplemental pro forma disclosure to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. The guidance is effective for Sony as of April 1, 2011. Since this guidance impacts disclosures only, its adoption did not have a material impact on Sony's results of operations and financial position.

5. Sony realigned its reportable segments from the first quarter of the fiscal year ending March 31, 2012, to reflect modifications to the organizational structure as of April 1, 2011, primarily repositioning the operations of the previously reported Consumer, Professional & Devices ("CPD") and Networked Products & Services ("NPS") segments. In connection with this realignment, the operations of the former CPD and NPS segments are included in two newly established segments, namely the Consumer Products & Services ("CPS") segment and the

Edgar Filing: SONY CORP - Form 6-K

Professional, Device & Solution (“PDS”) segment. The CPS segment includes televisions, home audio and video, digital imaging, personal & mobile products, and the game business. The equity results of S-LCD Corporation are also included within the CPS segment. The PDS segment includes professional solutions, semiconductors and components. There were no modifications to the Pictures, Music and Financial Services segments and All Other is substantially unchanged. The equity earnings from Sony Ericsson Mobile Communications AB continue to be presented as a separate segment. In connection with the realignment, all prior period amounts in the segment disclosures have been revised to conform to the current presentation.

6. Sony estimates the annual effective tax rate (“ETR”) derived from a projected annual net income before taxes and calculates the interim period income tax provision based on the year-to-date income tax provision computed by applying the ETR to the year-to-date net income before taxes at the end of each interim period. The income tax provision based on the ETR reflects anticipated income tax credits and net operating loss carryforwards; however, it excludes the income tax provision related to significant unusual or extraordinary transactions. Such income tax provision is separately reported from the provision based on the ETR in the interim period in which they occur.
7. In the first quarter of the fiscal year ending March 31, 2012, Sony recorded an out of period adjustment to correct an error in the calculation of indirect taxes at a subsidiary. The indirect tax calculation error began in 2005 and continued until it was identified by Sony in the first quarter of the fiscal year ending March 31, 2012. The adjustment, substantially all of which related to the Consumer Products & Services segment, impacted net sales, selling, general and administrative expenses and interest expenses and in the aggregate decreased income before income taxes in consolidated statements of income by 4,915 million yen. Sony determined that the adjustment, recorded in the first quarter of the fiscal year ending March 31, 2012, was not material to the consolidated financial statements for the three months ended June 30, 2011, any prior annual or interim periods and is not expected to be material to the annual results for the year ending March 31, 2012.

Other Consolidated Financial Data

	(Millions of yen, millions of U.S. dollars)		
	Three months ended June 30		
	2010	2011	2011
Capital expenditures (additions to property, plant and equipment) ¥	50,339	¥ 100,739	\$ 1,244
*1			
Depreciation and amortization expenses*2	86,824	78,194	965
(Depreciation expenses for property, plant and equipment)	(53,097)	(49,584)	(612)
Research and development expenses	99,070	96,129	1,187

*1 Including acquisition of semiconductor fabrication equipment of 51,083 million yen from Toshiba Corporation on April 1, 2011.

*2 Including amortization expenses for intangible assets and for deferred insurance acquisition costs.
